Please accept my blessings. I am in due receipt of your letter dated September 27, 1974 and am very glad to read the nice report of the activities there. Jayatirtha was just here, and he also gave a nice report. I wanted that you Americans use your talents in spreading this cult, and I can see that you are doing that. In all departments you can use your talents and thus do the greatest benefit for the entire world. So my mission has come out a success by the mercy of my guru maharaj who sent me on this mission. That was my only qualification in coming to your country, that I had the blessings of my guru maharaj.

I hope this meets you in good health.

My Dear Giriraja das:

Please accept my blessings. I have received the report of Bombay from Gargamuni Swami that things are being mismanaged. Why you are building this road without my sanction? This road will spoil the whole scheme. Why are you letting the dictation of the municipality spoil the whole thing? This road must be stopped at any cost. Fight in the court if required.

I am sending Gargamuni and Brahmananda to save the situation. They are authorized to take any action in this connection.

Dear Sri Kanungo:

Please accept my blessings, and offer the same to your good wife Srimati Chhavi Kanungo. I am staying now at Mayapur at the above address, and I was very much eager to see you in connection with your land that you have donated to our Society. Now we have to make a program how to develop the place to make it a nice preaching center in Orissa, and for this purpose your cooperation is much required.

I therefore want to see you personally, and it will be a great pleasure for me if you both husband and wife come here. It is a very nice place, and you will like to remain here for one or two days. I hope you can come here, accompanied by one of our men from Calcutta.

Thanking you in anticipation.

Dear Giriraj Prabhu:

Please accept my humble obeisances. I am in do receipt of your registered letter dated October 7, 1974 with enclosed true copy of gift deed and CBI receipt for the fixed deposit certificates. Srila Prabhupad would like to know what is the balance of the Central a/c in American Express Bank. We are expecting that shortly L.A. is to transfer Dollars 40,000.00 in that account, and this money should be kept there until you receive the balance pf that account to date.

Srila Prabhupad had also given to you for deposit into his personal account in CBI Gowlia Tank Branch Dollars 2,000.00; Dollars 1,000 from Tejiyas and Dollars 1,000 from himself; so please report on this. You can send the deposit receipt from the Bank.

Did you receive the copy of the Bhubaneswar gift deed? I sent a photo copy to you. This should be returned to me. Please acknowledge receipt. Let me know if it is necessary for a document form form Geeta Devi Saraf.

Regarding the new Life Membership fee. I understand you compromised with Gargamuni Swami by creating a Patron Membership for Rs. 2222/=, but what are the additional benefits of a Patron Membership? Tejiyas das writes that he is also getting 90% success with the increased fee.

I note that you are ready to accommodate Srila Prabhupad in his come there. In the meantime what about this road that is being constructed? You have not given any report about the intended Government seizure of Hare Krishna Land. What was the results of the hearing?

Do not send Jashomatinandana to Punjab. He should remain in Bamcay and work there.

Enclosed is the letter to CBI regarding the extended Fixed Deposit.

I hope this letter meets you in good health. Jayatirtha was to inform you to send five copies of each book to Calcutta, Gargamuni Swami, to fulfill the Embassy Order gotten by Vrindaban De.

My Dear Gangamayi devi dasi:

Please accept my blessings. I am in due receipt of your letter dated September 21, 1974 and have noted the contents. There have been many letters coming from different quarters regarding the election; therefore I have called for a re-election in the presence of all members and two GBC men. You can have a written ballot, and whoever receives the majority vote, he shall be the president.

You are right that politics should be avoided. In my personal life I did not participate in the political diplomacy of my godbrothers. I was simply thinking how to fulfill the order of my guru maharaj. He gave me his blessings, and I was saved from any implication. Now I am trying to carry out his instructions strictly, and it has come out successful.

I note that you are planning to come to India, and I have no objection. We will be needing experienced pujaris for our Vrindaban temple.

My Dear Ksirodakasayi das:

Please accept my blessings. I am in due receipt of your letter dated September 28, 1974 and have noted the contents. Yes, the Mahabharata is an authoritative book. It is considered the fifth veda. But, quotations must be given from the original Mahabharata.

Regarding your question on demigod worship, there are so many demigods, and the qualities may be overlapping. Demigod worship is meant for materialistic men whether in goodness, passion, or ignorance. Those in the transcendental position above the qualities of the material world worship Visnu. Most people do not know that Visnu is the ultimate aim of worship. The varna-asrama system is organized with this purpose, to worship Visnu. So far we are concerned, we never recommend to worship any demigod either in goodness, passion or ignorance.

Upon your recommendation I accept for second initiation Aristahe das Brahmacari, and enclosed is his sanctified brahminical thread and the mantra sheet. When you hold the fire sacrifice, impress upon the devotees that they are taking vows before Radha and Krishna, the spiritual master, and the Vaisnavas, so it is a serious thing. My Dear Giriraja das:

Please accept my blessings. I am in due receipt of your letter dated October 14, 1974 and have noted the contents. Regarding the tax commission case, we are receiving approximately Rs. 18,000/per annum including the tax payments, which means at 10% interest the value is Rs. 1,80,000/-. So we have paid Rs. 14,50,000/-; less Rs. 1,80,000/is Rs. 12,70,000/-. So we have paid Rs. 12,70,000/- for 6,000 sq. yards; which means we have paid approximately Rs. 200/- per sq. yard. At that time the rate was not more than Rs. 150/- per sq. yard; so we have paid more than the market price. This argument should be placed.

Regarding the road, if by sacrificing the wide road we have gotten the sanction of constructing according to the layout plan, then there is no harm.

Regarding construction, begin something. Begin little, little, so it can be understood that we have begun. At least one foot high walls should be built up on all buildings. That should be done.

Saurabha can go there for one week because now Dhananjaya is there and can look after things while Saurabha is gone. That is nice if you get the NOC from the Police by two weeks time.

Keep Yasomatinandana engaged in college programs. When I come to Bombay at the end of this month or the beginning of next month, if he can arrange my lecture on Bhagavad-gita in all colleges and universities, I shall speak to the students very gladly. It is good that boys are joining us and shaving up. Yes, whoever may live with us must shave and take kunti beads, otherwise they may come and go.

My Dear Bhagavan Prabhu:

Please accept my humble obeisances. I am in due receipt of your letter dated September 30, 1974 and have noted the contents. I have not received any telegram from you, but I understand that you will be coming in about a weeks time. Srila Prabhupad confirmed upon my suggestion that you go straight to Bombay first. In this connection Srila Prabhupad said the following: ”So far I have studied there is a clique of some enemies to acquire the land and spoil the whole scheme. So we have to save ourselves. Even if there is no sanction to build further buildings, we should maintain what we have got. We should not let anyone infringe on our rights. The book distribution program must be thoroughly organized.”

The threat is in relation to a road that is being built there. This you can study when you go there. Regarding the book distribution, Gargamuni Swami and Jayatirtha recently were sent to Bombay especially to organize the BBT there. They have made some suggestions.

I have brought to Srila Prabhupad's attention your remarks regarding Hansadutta's report of Paris, and he does not know why Hansadutta is meddling in Paris affairs. A neighboring GBC man can be called in for help, but if he gives the wrong report, what can be done?

I have already written you what things to bring. Most important is the small manual typewritter and the day/date wristwatch. For Sruta Kirti you can bring dates and granola and honey for his special diet.

I hope this meets you in good health. Have I seen the new copy of the French Ishopanishad?

Things are going on. That I wanted. The classes and program must continue. That is the life of the temple. Everyone must attend the morning and evening program, otherwise it will be a dead temple.

Regarding the land purchased, I am enclosing one copy of one letter to Pranava. The land purchase should be done according to this letter. I shall advise the Bank to pay the necessary money, but the sales agreement and the conveyance deeds must be sent to me for my approval. If necessary I shall advise the bank to give a letter of credit to the Vendor, then upon completion of the conveyance, this amount shall be paid in the presence of the registrar.

74-10-19

Frankfurt

My Dear Hamsaduta das:

Please accept my blessings. I am in due receipt of your letter dated October 9, 1974 and have noted the contents. Regarding your statement that your success is due to your dependence on serving my lotus feet, yes, that is the instruction of the Bhagavad-gita. Krishna advises Arjuna to work to his bet capacity but not to think that he is the best capable. We should work to our best capacity and depend for the result on Krishna. After all, our life is dedicated to Krishna's service, and Krishna will give us intelligence, capability, and all kinds of success. I know you are doing your best capacity. Depend for the result on Krishna. When I point out some discrepancy of my disciples, it is always with good will so you can become the best servant of Krishna. There is nothing of material grudge. Kindly remember this.

I am very much satisfied that you are increasing the publishing program. I have received a nice report from Puranjana that the Book Fair was fairly successful. My request is that you print as much as possible and distribute profusely. That is the great success of our movement.

If the Hamburg Deity is moved but worshiped, it is all right. Yo do not have to reopen if it is inconvenient. What you have said about considering a thousand times before opening a temple, that I want. Not that you should open a temple whimsically, and then close whimsically.

Regarding the farm, farm opening is not very essential, but if you can do it conveniently, then do it. The varnasrama system is for convenience sake in the material world. It has nothing to do with spiritual life. Acceptance of varnasrama means a little easy progress to spiritual life, otherwise it has no importance to us. For example, all my European and American disciples have no varnasrama position, but spiritually because they have followed the rules and regulations and also my instructions, their advancement spiritually is being appreciated by everyone. Always remember that varnasrama life is a good program for material life, and it helps one in spiritual life; but spiritual life is not dependent upon it. After all the system of varnasrama has to be realized before accepting spiritual life; and the renounced order of sannyasa is the last stage of varnasrama.

Regarding starting a travelling Sankirtana party with yourself at the head, yes it is approved. It is good.

Regarding the London affair, what can be done. This is the American and European habit of diplomacy. Unless there is spiritual advancement they will do by their nature like this. The whole thing should be corrected by diverting their attention to chanting and the regulative principles. We have to tackle these problems very carefully. In Bengali it is said wherever there is the goddess of fortune, there are varieties of responsibility. When I was alone there were not so many letters of so many problems.

Regarding your dancing in the middle of the kirtana, it is not wrong. It is completely right. If in your kirtana everyone dances in ecstasy it is perfectly all right. That is spiritual enthusiasm.

I have not received the new books. I have learned about them from Puranjana, but I have not received them. Maybe they are held up due to a postal delay in Calcutta, but anyway I am so pleased that you have published. Even I have not seen them, I am pleased and obliged to you. Continue this work. Whenever there is any publication in any language, it enlivens me 100 times.

I hope this meets you in good health.

My Dear Rupanuga das:

Please accept my blessings. I am in due receipt of your letter dated September 22, 1974 and have noted the contents. Regarding Sankirtana and book distribution, book distribution is also chanting. Anyone who reads the books that is also chanting and hearing. Why distinguish between chanting and book distribution? These books I have recorded and chanted, and they are transcribed. It is spoken kirtanas. So book distribution is also chanting. These are not ordinary books. It is recorded chanting. Anyone who reads, he is hearing. Book distribution must not be neglected. If things deteriorate that is another thing, but it is not the fault of book distribution.

My Dear Giriraja das:

Please accept my blessings. I have seen the BBT Memo to all centers dated October 16, 1974 together with the inventory of book stock prepared by Bhugarbha das. Now henceforward you make the following arrangement for getting payment from the temples for BBT. For all book orders the BBT will present the invoice and shipping documents to your bank a/c BBT for collection. The orders may be shipped by rail, so the temples will pay the invoice amount in order to receive the shipping documents from the Bank, and then collect the goods. Now that the inventory has been sent to all centers, there should be no complaint that there are no books being made available. Let them pay for what they order, and you fill the orders promptly, so there should be no difficulty.

Now I am sending Nayana Bhirama and his wife to Bombay for distributing books. They are enthusiastic for clearing up the book stock there. Give them all facilities for selling the books, as well as their maintenance and travel, and let us see how they can do.

Letter to: Giriraja:

Mayapur 22 October, 1974

74-10-22

Bombay

My Dear Giriraja das:

Please accept my blessings. Gargamuni Swami has returned with copies of letters from the BMC architect, the Bandra Asst. Engineer, and the letter regarding the land acquisition. Regarding the property evaluation, I have already written you how we have paid Rs. 200/- per sq. yard. From the developed portion we are receiving income per annum of Rs. 18,000/- including the tax deductions. The current rate of interest for an investment is 10%, so the value for this portion is Rs. 1,80,000/-. For the entire land we have paid Rs. 14,50,00/-; so the value for the undeveloped portion is Rs. 12,70,000/- (for 6,000 sq. yards) or Rs. 200/- per sq. yard. If they are calculating the value at Rs. 130/- per sq. yard, then we have paid more than the market value, not less.

Regarding the road, you must immediately install at the front of the road a permanent iron gate, like the one on the opposite property, with one dharwan or guard. This is very important and must be done immediately. No tenant will be allowed for any reason to park his car on any part of the road. You can make one parking place for their cars on the portion of land opposite the well next to the block where my old flat was where the during the pandal there was the kitchen. But, no trees should be torn down. The tenants can pay something for the parking facilities. You should also make a formal request for increasing the rent of all tenants for the cost of the internal road, otherwise where will the cost of the road come from? I think we can enhance the rent for road improvement. If necessary, you can engage one lawyer for doing all these things, if Mr. Asanani is not helping.

Regarding the construction, you should immediately begin work on all four of the remaining flats. The work must begin whether you have got sufficient cement or bricks. If you have to lay only one brick, then do that. I may be coming there next week, so you can prepare for that.

Regarding distributing the books to all centers, they must pay for whatever they order, even if they order less. If they do not pay cash, then do not fill the order. Regarding their old debts, let them pay whatever they can. But, for what they order, they must pay for. You can ship them whatever way, transporter or whatnot, but it must be COD.

I understand that Manasvi has returned, but he should not be given any responsibility, nothing.

My Dear Tamala Krishna Goswami:

Please accept my blessings. I am in due receipt of your letter dated October 8, 1974 and have noted the contents. Your letter was forwarded from Bombay, but the letter from Ramesvara was not enclosed.

Regarding Sankirtana and book distribution, both should go on, but book distribution is more important. It is brihat kirtana. In Tokyo airport one boy had come up to me asking if he could speak with me. I said yes, and then he asked me "Swamiji, where do you get all that knowledge in your books?" Of course it is Krishna's knowledge, not mine. But the effect is there. So for wider kirtana book distribution is better. Book distribution is also kirtana.

My Dear Frederico:

Please accept my blessings. I am in due receipt of your letter dated October 3, 1974 and have noted the contents. I am very glad to learn that you are translating the Bhagavad-gita As It Is into Portuguese. Be careful not to change anything but present it exactly as it is. This is how we receive Bhagavad-gita through the disciplic succession as stated in the Fourth Chapter. By this translating work you will learn our philosophy very nicely. It is very important to broadcast Krishna consciousness all over the world. This is the great need of modern civilization.

If you are going to France why not visit our Paris center. There you should get chanting (japa) beads, and begin chanting Hare Krishna mantra on the beads. They will show you how to do it. This is most important for advancing in spiritual life.

Yes, as you have understood, prasadam is offered only from the category of fruits, vegetables, grains, milk products, and sugar. This is according to the Bhagavad-gita wherein Krishna states what He accepts. We have four rules that all my students follow. They do not take any meat, fish, or eggs; no gambling, no intoxicants, including coffee, tea, or cigarettes; and no illicit sex life. Try to follow these four rules, and Krishna will bless you with quick advancement in spiritual life.

Please accept my blessings. I am in due receipt of your Sankirtana newsletters No. 23 & 24. These statistics are very nice. I like very much to receive the report of my book sales. I think it also gives encouragement to the devotees who distribute the books. Here at Mayapur my guru maharaj was printing one paper. It was selling for only a few paise. Sometimes whenever one brahmacari would go to Navadvipa and sell even a few copies, I would see my guru maharaj become very much pleased. Even if the brahmacari was not a very important member, my guru maharaj would become very, very pleased with him. He personally instructed me that books are more important than big temples. At Radha Kunda he told me that since constructing the big marble temple at Bhag Bazar, there have been so many difficulties. Our men our envious over who will live in which room. I think it would be better to take off all the marbles and sell them and print books. He told me this personally. So I am always emphasizing book distribution. It is the better kirtana. It is better than chanting. Of course chanting should not stop, but book distribution is the best kirtana.

I hope this meets you in good health.

Krishna will supply everything to you, according to your capacity for preaching purely the message of Lord Caitanya. There I have found the Indians very cooperative for our movement, and you have had good experience in India preaching, so you are the right man to go there. You are sannyasi and the people will automatically respect you. So be ideal in behavior following strictly the rules and regulations. Now you are getting more men, so organize everything carefully, and inform me what is the progress.

Brahmananda Swami says that because of his experience in Africa, you should be careful in registering the Society. Yes, it must be in the name of ISKCON, with my name as Founder-Acarya. Check to see that only Fiji citizens can register the Society there, and if necessary you can have others as the officers.

I have already written you that I would like to come there when I return to USA in April, so please arrange for it.

I hope this meets you in good health.

Your ever well wisher, A.C. Bhaktivedanta Swami

Toronto

My Dear Uttama Sloka das:

Please accept my blessings. I am in due receipt of your letter dated September 27, 1974 with enclosed plans for the new temple and it is all very nice. You are taking on a big responsibility, and I am very pleased. Toronto I think is a very important city in Canada, and it is fitting that you are contemplating to make a first class temple there. Do everything very carefully, in consultation with Jagadisa Prabhu, and do not spend anything unnecessarily. Whatever money we are getting it is from Krishna, so nothing should be misspent.

You can make the interior of the temple in the same design as the Chicago temple with a balcony and the same type of Deity room. I liked the Chicago temple very much when I was there, so make it like that. We are making our temples very nice and gorgeous so that people will come and take Krishna consciousness. Just like here at Mayapur, because we have this very nice house, people are coming to visit and stay. They attend the aratis and listen to my lectures, and take prasadam. If we did not have this house, then they would not come. So this is the meaning of a temple. There must always be activity. Not that we have a nice house for comfortable living. We simply want to bring people back home, Back to Godhead. That is the purpose of our temples, of our books, and our festivals, and preachings.

I will like to come and visit your temple the next time I return to USA. I think I can come to Toronto directly from London.

I hope this meets you in good health.

Dear Mr. Sarkar:

Please accept my best wishes. Your letter dated October 17, 1974 has been received, and I may inform you that Srila Prabhupad is expected to be on Calcutta on Wednesday, October 30, 1974 for one day only. So you are welcome to come and see him after 5:00 P.M. I suggest that you confirm these plans with the Calcutta temple, 3 Albert Road, before coming.

I hope this meets you in better health.

-

West Bengal 25 October, 1974

74-10-25

Dear Ramesvara Prabhu:

Please accept my humble obeisances. There have been two letters from GBC men to Srila Prabhupada regarding street chanting and book distribution, and there seems to be some discussion about the two. Srila Prabhupada has said that book distribution is more important that street chanting. Book distribution is brihat kirtana. It is literally kirtana in the sense that the books are spoken and therefore anyone who reads a book is hearing. Because his books are recorded and transcribed Srila Prabhupada calls his books spoken kirtanas, or recorded chanting. So book distribution is also kirtana and should not be considered less than kirtana.

The reason book distribution is greater than chanting is because the effect is wider. A purchased book goes into a person's home and will be read by others, whereas street kirtana only benefits those in the vicinity who hear. Two cases are cited. In Portugal one boy, who is only 11 years old, has become a devotee. He offers prasadam and is translating Bhagavad-gita As It Is into Portuguese with the help of his mother. He got several of our books at a bookstore in Lisbon and has asked his father who is just now coming to USA to get him all available Srimad-Bhagavatams. Prabhupada remarks that our books went there to Portugal but we did not, but still he has become a devotee. Then in Tokyo airport Prabhupada tells how one Japanese youth approached Srila Prabhupada and asked if he could speak with Srila Prabhupada. When Prabhupada said yes, the boy asked, "Where do you get all the knowledge that is in your books?" So by comparative study book selling is more important.

Srila Prabhupada also pointed out that is the West sometimes the street chanting is considered as a farce. Also in India. At first street chanting was tried but was met with mostly derogatory reaction. Therefore there is mostly Life Membership preaching in India, which is of course book distribution.

But on no account should street chanting be stopped. Prabhupada has never said that street chanting should be stopped. The chanting can go on for a little while and when a crowd is drawn books can be distributed. When I mentioned to Srila Prabhupada that when in L.A. last, there was the system of book distribution all week long and on weekend nights full street kirtanas, he said that was a good system.

Regarding the claim that devotees have difficulties maintaining Krishna consciousness by only doing book selling with not enough street chanting, Prabhupada remarked that if things deteriorate that is another thing, but it is not the fault of book distribution. Book distribution must not be neglected.

**

Srila Prabhupada received an advance copy of S.B. 3:4 which was printed in the USA in five weeks with the quality practically as good as Japan. Prabhupada was also informed that the index of the Third Canto will be a separate volume, as well as for the Fourth Canto which will have a separate volume index. When we mentioned to His Divine Grace that this is the system of encyclopedias to publish separate volumes for the index he said that we could advertise his Srimad-Bhagavatam as "The Encyclopedia of Spiritual Life." S.B. 4:4 has also been given to the American printer and three remaining volumes of S.B. 3:3, 4:2, and 4:3 have already been printed in Japan. That makes 13 volumes of S.B. not including the index volumes!

Prabhupada's translation of Caitanya Caritamrta is almost finished, only two more chapters left in the whole book. Then he will resume S.B. starting with Canto Five. This was Srila Prabhupada's reason for taking up C.C. by working on C.C. the Press was given time to publish all the backlog of S.B. that was piling up. By exact coincidence Prabhupada is finishing C.C. just as they have finished publishing all of S.B. through the Fourth Canto. Now as Srila Prabhupada resumes S.B., they can publish the C.C.

MAYAPUR

Here at Sridhama Mayapur, Srila Prabhupada gave further impetus to the main temple project. It will be a 30 story skyscraper temple based on the following verse of Brahma-samhita:

goloka-namni nija-dhamni tale ca tasya devi-mahesa-hari-dhamasu tesu tesu te te prabhava-nicaya vihitas ca yesu govindam adi-purusam tam aham bhajami [Bs. 5.43]

There will be the main temple that will extend upwards the full 30 stories, as well as different levels depicted in doll tableaus, first the material world, devi dhama; then mahesa dhama, then vaikuntha dhama, and finally goloka vrindaban. Already a competent engineering firm in Calcutta, which is the only firm in India to use an IBM computer in its calculations, has been contacted for making the foundation. "It will not be difficult", assured Srila Prabhupada. He further revealed, "I have named this temple Sri Mayapur Candrodaya Mandir, the Rising Moon of Mayapur. Now make it rise, bigger and bigger until it becomes the full moon. And this moonshine will be spread all over the world. All over India they will come to see. From all over the world they will come…Krishna will supply the money. Don't bother. The money will come either locally or from USA."

When informed that the government here will pay 2/3 of the cost for road and bridge development if 1/3 is put up locally, Prabhupada said we should immediately inform them that he will put up 1 crore (dollars 1 million), and they can give 2 crores to develop the entire Mayapur area. He wants roads parks, gardens, like the descriptions of Dvaraka in the Krishna Book. Prabhupada personally surveyed the sites for a large lake as well as the second residential building. He called for a wall with a large front gate to be built. Work on a spacious kitchen complex near the Bhaktisiddhanta Road is progressing, but Prabhupada ordered that a second story should be added so that women and householders can live there and that the kitchen operation in the present residential building be moved there so that additional guest rooms can be added in the present kitchen and women's quarters. A dollar 25,000.00 Prasadam Distribution Pavilion attached to the new kitchen complex will also be built. Gargamuni Swami has pledged half the cost, and Hamsaduta Prabhu has sent dollars 4,000.00 from Germany and promises more. 1,000 people will be able to be served prasada at one sitting.

Turning to philosophy, Prabhupada had some things to say about his godbrothers. ”He is just sitting on Chaitanya Mahaprabhu's birthplace waiting for people to come and give money. He has taken that now this is his own hereditary property. He has taken it that he and Bhaktisiddhanta Saraswati Thakur were associated together in an enterprise, and now that the senior partner is gone, it is his property.

”We should make a scheme so that everybody will come here and not there. We are not competing with Yoga Pith but with the proprietor of Yoga Pith. Actually the birthplace of the Lord is not as important as the place of His activities. Kurukshetra is more important than Mathura, because the whole world knows the Bhagavad-gita. It is because of the activities of the Lord that people take interest in His birthplace. The ”karma” is more important than the ”janma.” Even when Lord Chaitanya Mahaprabhu was present people went to see him at Jagannath Puri, but they did not come to His birthplace, because His activity was more important than His birthplace. To His birthplace we offer our namaskars, but from the place of His activities we get inspiration. And, what was the Lord's activitiy at Puri? It was preaching. Our temple must be active with preaching and not a dead place.”

It was pointed out to Srila Prabhupada that of all the temples in Mayapur our mangol aratik at 4:15 A.M. is the first of the day and that at Chaitanya Math it is suspected to take place after sunrise. When asked if he wanted to see the new temple for Bhaktivinode Thakur that has been constructed near the entrance at Yoga Pith, Prabhupada replied, ”I do not want to see how he has made Bhaktivinode Thakur the gatekeeper.” Within our movement Mayapur temple is the first. ”Nowhere do we have such a nice temple in such an open place,” Prabhupada remarked on one morning walk. In Bombay a shipment of 2,000 kilos of Australian ghee has been sent by Madhudvisa Maharaj. It will be sold to the Indian temples and used for the festival for the opening of the Vrindaban temple to be held after the Gour Purnima festival in April. For the Mayapur festival ghee will be supplied by each and every devotee who comes. Everyone should bring one tin of ghee. It can be brought for personal use.

I mentioned to His Divine Grace that air fares will be increased next year due to the petrol shortage, and this might affect the number of devotees who attend the Gour Purnima festival. Prabhupada asked me, ”How much foodstuffs have you eaten in your whole life?” Quite a lot I had to admit, not understanding why he asked this question. ”And what is the cost of all these foodstuffs?” That I could not say. ”So, do you stop eating because there is so much cost? No. You go on eating and whatever is the cost, you spend. The principle is that if you have got money, then you can spend, but if you do not have money, then you cannot spend.” So as many as possible should surely come if the money is there.

One evening Srila Prabhupada revealed what he said was his theory, that the moon is covered with ice, to explain why the moonshine is so pleasant. Moonrays are very soothing, and we find in many places describing the pleasing effect of the moon, nitai-pada-kamala, koti candra-susitala, ye chayaya jagat judaya. This is because the moon must be covered with ice.

In the morning after his lecture from the Prayers of Queen Kunti in Srimad-Bhagavatam, Srila Prabhupada takes great pleasure in the kirtan with the devotees singing and dancing very nicely. The large temple area affords ample space for everyone to take part in the [indistinct] dancing, and as we move to and fro up and down the temple Prabhupada pelts us with handfuls of flowers. Afterwards he circumambulates the Deity house of Radha Madhava three times, each time ringing the temple bells three times and turning around completely in front of the Deities.

On October 30 Prabhupada will start for Bombay. There on Hare Krishna Land he will stay in a flat that has been newly constructed for him. There is one report that the land there is now worth one crore, whereas we paid only 14 1/2 lakhs for it.

More in my next. I hope this meets you in good health.

Your servant,

Brahmananda Swami

N.B. Srila Prabhupada's tentative plans are to remain in India through the April temple opening in Vrindaban, and then start for the USA.

What needed to be repaired on that Adler typewriter I sent with Jayatirtha? It is a brand new one that Paramhansa Swami purchased in U.K.

My Dear Sriman Alfred Ford:

Please accept my blessings. Sudama Maharaja has brought me the news here in India that you have already purchased the house in Honolulu and have given the key to Sudama for taking possession. Thank you very much for your kindness. Krishna will bless you with more opulence and knowledge

Human life is meant for acquiring knowledge and detachment to the material world. Knowledge means to understand that everything belongs to Krishna. Krishna consciousness means that everything including myself are different energies of the Lord and as such should be utilized for the purpose of Krishna. Krishna wants that all living entities should live with Him, as the father likes the whole family to live with him. Our Krishna consciousness movement is to educate people how to re-enter the family of Krishna and thus become eternally happy and blissful.

I am expecting to visit Hawaii latest by April, 1975, and I hope I shall be able to see you at that time. Thanking you once more.

My Dear Sripati dasa:

Please accept my blessings. I am in due receipt of your letter dated August 6, 1974 with enclosed Deed of Sale. I am very glad that you have gotten this house. Now make it very nice for Krishna. It should be so attractive that people will want to go there and take advantage of this Krishna consciousness movement. Do not make it simply for comfortable living. Yes, if you distribute my books side by side than that is a very good arrangement, and your temple will be glorious in the city of Montreal. I will want to go there and visit you when I next come to the USA, so I will look forward to that.

Since it is our own house, you can install large Deities. You can install big Deities like Chicago temple. Invite Kirtanananda Maharaja and Jagadisa Prabhu and have a nice ceremony.

Upon your recommendation I am accepting for brahminical initiation Ghosa Thakura dasa, Priya Bandhu dasa, Priya Bhakta dasa, Bhadra Priya dasi, Sadhvi dasi, and Mohini dasi. Enclosed are the sanctififed threads. I also accept for first initiation the following devotees and their names are: Paul Campbell-Puskaraksa dasa; Christian Thomas-Krtakrta dasa; Leona Bolivar-Lalita devi dasi; Marie Cadeau-Medhya devi dasi. It is very good that our books are being appreciated by the learned circles. If our books are distributed more and more in this way, there will be unlimited scope for spreading this movement of Lord Sri Caitanya Mahaprabhu all over the world. Please accept my blessings. I am in due receipt of your letter dated September 26, 1974 and have noted the contents. I am very glad to note that you are seeing that the devotees are maintaining the devotional practices. This is the secret to success. Therefore I am stressing it. And, if you also stress it and show yourself as an ideal Vaisnava, then you are my representative in fullness. We are not after titles and designations. Lord Caitanya made it a principle that we must teach by personal example. This is what I have tried to do. So if all of you my disciples do this, then the future of our movement will be glorious.

I am glad to note the publishing work you are doing, and I look forward to receiving the books printed. I am pleased that you are personally seeing to the translation how it is done. Actually these books are the foundation stone of our movement. Whatever we are is resting on these books, so far reading them and distributing them. This should be our only motto.

Your invitation to visit Mexico and Caracas sounds very nice, and I shall be very pleased to come there. I shall be going to Hawaii sometime in December, and than I can come wherever you like.

You have made some progress there since going and I am pleased. You are a good worker. All my disciples they are good boys, intelligent, and hard working. I pray to Krishna that you all may use your intelligence for Krishna's service and not for any personal ambition. We have worked very hard and established a great institution, but if we think for our personal benefit then it will become ruined. This is my only concern.

Now Caitya-guru is going there, and I understand that Dinanath and others will also go to Africa. So engage these men nicely, and Krishna will give you all facilities according to your capacity for serving Him.

My dear Dhrstaketu das:

Please accept my blessings. I am in due receipt of your letter dated October 1, 1974 and have read the contents with care. With regard to the offenses you are hearing it is not ghosts as you say, but they are creations of your mind. The mind is indeed wretched as you say. Therefore Krishna says that for the endeavoring transcendentalist he must first control the mind, and then by controlling the mind he will have peace. He says: jitamanah prasantasya, Paramatma smahitah. "For one who has conquered the mind, the Supersoul is already reached, for he has attained tranquillity." [Bg. 6.7] In this age the easiest method for controlling the mind, as taught to us by Lord Caitanya Mahaprabhu, is the chanting of Hare Krishna.

Do not give very much importance to this thing. Chant Hare Krishna. That is my instruction to you.

I hope this meets both you and your wife in good health.

Now one thing is that Punjab National Bank, Vrindaban Branch, reports on having received on October 8 from New Delhi Rs. 277,991/-. If this transfer is not the Liberty Bank money, then what is it? I have not received any word that the transfer of the 21st has arrived.

Also Gurukrpa Swami wrote me on September 30 with a Credit Note from Dai Nippon for Dollars 39,474.73. He said that this money was already in Los Angeles at that time and that you have been advised to transfer the money to Bombay, but it is not yet received at this date.

Also I requested Ramesvara through Brahmananda Swami on September 19 to transfer the balance of Gurukrpa's payment to Dai Nippon of Dollars 108,000.00. Ramesvara had deducted Dollars 22,490.63 for various expenses, but this money must be paid for by BBT and not deducted from the M-V construction funds. 74-11-03
Dear Radhavallabha Prabhu:

Please accept my humble obeisances. your letter addressed to Nitai Prabhu dated 25/10/74 has been brought to Srila Prabhupada's attention. Regarding book production, Srila Prabhupada is most concerned that you finish C.C. Ādi:1 as soon as you can and at least by Bhaktisiddhanta Sarasvati Thakura's disappearance day as you have anticipated.

Regarding the indexing for Srimad-Bhagavatam, that has caused some confusion. From you letter it appears that you are printing a one volume index covering the first four Cantos, in a softcover edition. But, the indexes for the First and Second Cantos have already been published at the concluding volume of the Canto. Why are you now changing the procedure? Since the indexes for the first two Cantos have already appeared, why not just publish indexes for the next two Cantos which have not yet appeared? And, even if you bring out indexes for all the first four Cantos, since the entire work is not yet completed, you will again have to do the work over again when the succeeding Cantos are published.

Anyway you can do it as you are doing it, but it is advisable to consult directly with Srila Prabhupada on such a matter specially if you are making some change in any of the publishing, that should be consulted with Srila Prabhupada first. Kindly do this.

Prabhupada is expected to remain in Bombay for one month so that the samples of the newly printed books may be sent here.

I hope this meets you in good health.

His Holiness Satsvarupa das Goswami Los Angeles

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 15, 1974 with enclosed copies of letters and the Bengali course advertisement. So they are putting me, as well as the others, for getting the students to learn Bengali. That's nice.

I am very glad to learn that you are getting the orders and are increasing the men and parties for distributing the books. Regarding the number of libraries, I read in that book the Almanac that there are 75,000 libraries.

Regarding those professors who say that Siva is the Supreme, in the Rg Veda it is stated: "om tad visnoh paramam padam." The lotus feet of Visnu are the supreme devotional platform. There Visnu is accepted as the Supreme. So there are 18 Puranas. Six of them are for persons in the modes of ignorance, some for those in passion, and the topmost are for those in goodness, the sattvic puranas. If one intelligently reads the Puranas and Vedas, then he can understand that Visnu is the Supreme Person. But, for those on the stage of ignorance and passion, sometimes such statements are there. So it depends on the quality of the nature of the person that one accepts Lord Siva or Lord Visnu as the Supreme, but one who studies scrutinizingly all the Vedic literature and who accepts the statements of the acaryas who guide the destiny of Vedic culture of India who all accept Visnu as the Supreme Person, then he will also have the same conclusion.

So far we are concerned in the Krishna consciousness movement, we are preaching the teachings of the Bhagavad-gita. Krishna is the Supreme Person even before all demigods including Lord Visnu even, and of course Lord Siva. Our fundamental principle is the teaching of the Bhagavad-gita. Those persons who cannot understand this on account of particular modes of nature, such persons require further education, and until such time is fulfilled, we are helpless. To an animal in the modes of ignorance, how can we preach? Then we are helpless.

I have read your letter to the professor and it is a good challenge. You have written nicely. You have correctly cited the Vedas wherein it is stated: eko narayana asin na brahma na isano. . . In the beginning there was no Brahma, no Siva, only Krishna. The cosmic manifestation is from Mahat Tattva, and before the Maha Tattva there is Narayana. Sankaracarya is a Lord Siva worshipper and an incarnation of Lord Siva, and he admits that Narayana is the master, and Narayana is the Supreme. narayanah paro 'vyaktat. This is the best authority. What more evidence you want? This is in his Sanka Bhasya on Bhagavad-gita. This is not even the statement of the Puranas but of Sankaracarya's own writings. How can you deny if the incarnation of Lord Siva says that Krishna is Supreme?

In the Puranas it is stated that another demigod is supreme just to convince the devotee. Just like a student in primary school, he thinks the primary education is everything and has no idea of higher education. This is to convince the devotees but from the Gita we understand that it is from Krishna that He gives the faith by which one can worship the demigods.

Krishna says "aham adi hi devanam." Is Krishna speaking a lie? "mattah parataram nanyat [Bg. 7.7]." Nobody is greater than Me, He says. Why should we reject Krishna's statement? Our mission is to put Krishna as first, and they may take it or not. We do not interfere with their choice, but we do it as our duty.

I hope this meets you in good health.

My Dear Lilasakti devi dasi:

Please accept my blessings. I am in due receipt of your letter dated October 26, 1974 with enclosed photograph of your Krishna. Krishna is so kind that although he is ajit, unconquerable, He can be possessed by the devotee. From love He allows this. This is the great position of the devotee.

I am glad to see that you are advancing in Krishna consciousness by this worship of the Deity. This is the practical application to what we find stated in the Bhagavad-gita, man manah bhava mad bhakto, mad yaji mam namaskuru. We do not speculate on what Krishna says but we follow whatever He says implicitly. I also follow this process. Every morning I go to the temple and see the Deity and offer obeisances, so I expect each and every one of my disciples should also follow what I have given in this connection, arising early, taking bath, attending mangal arati. yuktasya bhaktams ca niyunjato 'pi **. The Deity is non-different from Krishna Himself. This we have to understand.

I hope this meets you in good health.

My Dear Gandharva dasa:

Please accept my blessings. I am in due receipt of your letter dated September 19, 1974 and have noted the contents. So you have done you duty at the last moments of your wife's life so that she could hear them chanting. As to where she has gone, that depends on what she was thinking of at the time of her passing away. That is stated in the Bhagavad-gita: anta-kale ca mam eva/ smaran muktva kalevaram/ yah prayati sa mad bhavam/ yati nasty atra samsayah [Bg. 8.5]. "And whoever, at the time of death, quits his body, remembering Me alone, at once attains My nature. Of this there is no doubt." To remember Krishna requires practice, and this is most easily done by chanting Hare Krishna mantra. I have told Nitai to spread the ashes here in the sea. The maha mantra is the only mantra that need be chanted. Do not neglect this.

I hope this meets you in good health.

My Dear Sarvamangala devi dasi:

Please accept my blessings. I am in due receipt of your letter dated nil and have noted the contents. I thank you very much for your sentiments, and I know that you are all working hard to make Bhaktivedanta Manor a very nice place. You should know it that our temples they are not in this material world. The temple is Vaikuntha, where Krishna and remembered and served 24 hours daily without stopping. So we already are in Vaikuntha by participating in the temple activities. So it must be done very nicely.

You have mentioned controlling lust, and this is very important. In Bhagavad-gita Krishna says: tasmat tvam indriyany adau "In the very beginning you must curb lust by regulating the senses." Therefore we have the four regulated principles at the very beginning of practicing devotional life. In this way we turn the lust into love. This is our material life. Lust is there in everyone, because everyone is actually a lover of Krishna. It just has to be purified by proper training.

I hope this meets you in good health.

Please accept my blessings. I am in due receipt of your letter dated November 1, 1974 with enclosed clipping. But, I have not yet received the report of the inquiry commission investigating the charges against Bali Mardan. (Later on heard something by telephone message to Brahmananda)

Regarding your GBC report, at the Buffalo farm the deer were eating daily the crop or all at once? Regarding Boston, it is a better house they have now purchased? What is the price and what are the facilities? Regarding the book distribution increasing in Philadelphia. yes we are getting such reports of increasing book distribution from all over. In L.A. they have sold over 600 copies of the new Srimad-Bhagavatam in one weekend.

Atlanta facility of 10 acre and 3 building sounds very nice. Purchasing or renting doesn't matter. Only here in India is a purchased house more important than a rented house. The prasadam program must be continued and increased. It is very good program for attracting the students. They have never tasted this kind of foodstuffs. Regarding Miami that you want to replace Abhirama, yes a capable man must be there, what can be done. But I have already written that he can marry that girl and divorce his wife. Regarding Washington, D.C., that Damodara is also resigning, we are increasing in so many ways, but our men are deteriorating. What to do? Regarding Gainesville installation of Gaura-Nitai, where did you get the murtis from?

I hope this meets you in good health.

Letter to: Rupanuga:

-

Bombay 8 November, 1974

74-11-08

Washington, DC

My Dear Rupanuga das:

Please accept my blessings. I have seen your letter dated October 31, 1974 addressed to Brahmananda Swami and have noted the contents with care. I have not yet received the report from the Enquiry Commission, but there are four points to be enquired. The first is the meat eating and chicken eating in the temple and even in the Deity kitchen where the prasadam for the Deities is prepared. This is the most serious complaint. And, in spite of the meat eating Taittiriya was allowed to worship the Deity.

The second is the complaint of abusing the devotees and exploiting their service for accumulating money and for aggrandizing himself and herself both. The third is her real identity. And, the fourth is whether actually the building negotiation is going on.

So from your letter the first and second points are corroborated by the Enquiry Commission. Regarding the fourth point about the negotiations for the building purchase, I have written one letter just now to Taittiriya whether according to her letter dated September 11, 1974 she has taken possession of the 5th Avenue house. If it is not taken and no proper reply is received, then surely it is all bogus; and if the transaction is bogus, then the third point, her identity, is also bogus.

So the conclusion is I like Bali Mardan and love him, but if he is still after this bogus wife then I shall have to take action. There is no alternative.

Regarding Abhirama, in your letter you mention that in Miami it is so important center, 65 devotees, growing each day, ideal location. So Abhirama, has done this. He has done much service. He cannot be removed whimsically. Sex disturbance is the permanent disease of the Western people. Anyway I have already written you that the local members must agree for him to be removed by you, according to the "Direction of Management." Regarding his divorce enclosed is one letter dated 1/10/74 regarding this.

Please accept my blessings. I am in due receipt of your letter dated October 11, 1974 and also the new German books KRSNA, TLC, and LIFE FROM LIFE, and also the record "Krsna Meditation." I thank you very much. It is all very nice. May Krsna bless you with more and more publishing work. I am always thinking of your Frankfurt Schloss center. The songs which I have recorded there I have heard today on the record, and they are very nice, especially the "Prayers to the Six Goswamis." It has come out very successful on the whole. I hope the German people will like the Bengali tunes. What is the report of how they are selling?

Whenever you call me for coming there I shall come. Never quit the Frankfurt palace. It is very nicely situated, in a open place. The landlord is a good gentleman, so keep good relations with him and his wife.

The report that the newly published books are all selling like mad is very, very encouraging. Now publish more books. Make more translations. You have not yet published Bhagavatam and also Krsna Book Second Part. Is this translated or not? And what about "Leben Kommt Von Leben?" Are they also selling? My Dear Jagadisa dasa:

Please accept my blessings. I am in due receipt of your letter November 2, 1974 and have noted the contents. I have also received the enclosed clipping from Ottawa and the information about the property. This property must be considered by the GBC. If it can be properly utilized, it is nice, for Varna-asrama College and diary farm. With 100 acres for cultivation you can make much production. The land is attractive. If it can be utilized by the opinion of the GBC, then it is good. I think it should be utilized. For which center will it be purchased?

Regarding Gurukula, they are in financial difficulty, so introduce book distribution. Sankirtana and Book Distribution should be pushed side by side, and there will be no difficulties. That is our experience.

If men are available, yes, you can open a center in Kansas City,; that will be nice. Regarding moving the older boys to New Orleans, that is to be decided by the GBC.

Regarding the lollipops, there is nothing wrong. It is something attractive I can understand, an introduction of friendship. What is the wrong? It is sugar, so it can be offered to the Deity. Just like here we can offer sweets purchased from the market place. It is stated in the sastras that if you pay something for it, it is purified even if there is some fault in it.

Regarding Chicago that you paid off Dollars 35,000.00 is wonderful. You are a good manager. As GBC please see that the temples are maintaining the standards, and I will be very much thankful.

Please accept my blessings. I am in due receipt of your letter dated October 22, 1974 with enclosed copy of Brijbasi Spirit and your check for Dollars 500.00. Thank you very much. Here in India one important Hindi paper has published a big article on your New Vrindaban and they much appreciated it, and gave very good report. I have asked them to reprint the article here. So you develop New Vrindaban to your hearts content, and when my palace will be ready I shall go there and stay. I like very much that place, very calm and quiet.

Yes, following the rules and regulations is the real qualification of GBC. We have made things easy for being qualified for such position, but still they are violating. Haridasa Thakura only took one of the items, the chanting, and he was so affectionate to Lord Caitanya. He was doing nothing, just chanting, but that means that he was doing everything. Your conclusion is very good and I very much appreciate that GBC or XYZ you are always servant of Krishna. That is wanted.

My Dear Hamsaduta dasa:

Please accept my blessings. I am in due receipt of your letter dated November 5, 1974 with enclosed clipping. Yes, I have received the new books and have already written to you my thanks. You are appreciating the chastisement of your spiritual master, and Krishna will bless you by this appreciation. What six books have you given to the printer? This further publication of books means that you go further to Krishna six steps more. Your news of more publishing after seeing the newly published books is very happy news for me. Thank you. Overflood Europe with German books. I think that the German people are the heart of Europe, and your march will be followed by Bhagavan dasa in French language.

Regarding publishing the Life from Life in English it should be grammatically correct because it is written book. Yes, it will be very good if you publish a book of lectures. Regarding going to New York, oh yes, certainly you can go. I have telegrammed Bali Mardan to come here but not yet received any reply.

I understand from Nitai that if another man can be sent; he mentions Jagannatha dasa; then work on Madhya Lila will be shortened by half and he can also help in the Srimad-Bhagavatam work now resumed after completing Caitanya Caritamrta. So it will be very helpful and convenient to have this boy.

Now the transfer for the Food Relief is not enclosed in your letter. Did you send the copy or the original? It must be done by Registered P Sto payment immediately. When sending money, it must be done by Registered Post. A.D.

Regarding the lectures of Patita Uddharana dasa that is very good. Somebody must speak, and he has taken the task, I am writing him in this connection. It should be encouraged.

So you have Caitanya Caritamrta almost translated, achah! Thank you. You are pukkha BBT Trustee. You are business-like and sincere and assisted by your good wife. She is chaste and also sincere.

You say that before meeting me you could not read or write, so this is all Krishna's grace. If He likes, he can make a crow into a peacock. That is His grace. Krishna consciousness is so valuable that it plays wonderful, and there are many instances within our society. Similarly I was a crow, and now they consider me a peacock. But, I was trying to be a peacock whenever there was the opportunity. I took the endeavor to publish the "Back to Godhead," but I wasted so much time. Ultimately Krishna saved me.

I hope this meets you in good health.

My Dear Patita Uddharana dasa:

Please accept my blessings. I have understood from Hamsaduta Prabhu that you are giving lectures in the temple. I have seen the column from the Gujarati newspaper and I am very pleased. Somebody must speak, and you have taken the task. I offer you my thanks. You are an elder disciple and you have heard what I am speaking, so you should just speak what you have heard and it will have potent effect. This is the power of the parampara, disciplic succession. So you must be prepared to meet all opposition because practically everyone is mayavadi. They do not have faith in Krishna's words in Bhagavad-gita. Therefore we have a great responsibility to present Krishna's words without any change. Please do the needful. Your speaking should be continued.

I hope this meets you in good health.

My Dear Ramesvara dasa:

Please accept my blessings. I beg to acknowledge receipt of your letters dated two on October 3, 1974 and one November 7, 1974 with enclosed press proofs of color pages of Bhagavad-gita. Now it was proposed that we would purchase the rights to print Bhagavad-gita As It Is ourselves. What happened to the proposal to buy the rights from Macmillan? This color pages you have submitted are not better. I do not find any improvement. There is no improvement.

Regarding the problems of the C.C. Ādi Lila Vol. 1 being 600 pages, what can I say? That is for you to arrange. But I do not think it will look good if you change the quality of paper from one volume to one volume as you have proposed. Not that one volume should be lighter paper and one volume heavier paper.

It is very good that you are also going on Sankirtana and distributing books. Others will also be enthused to distribute by your personal example. This is our life. "anandambudhi-vardhanam."

Regarding not being able to make any more loans from BBT, I think if necessary we can borrow from the bank using the fixed deposits as security. So long as the loans are not paid back to the bank we shall assure that we shall not withdraw the fixed deposits. These properties should be purchased in the name of BBT, and when the local center repays the loan, then the name can be transferred. Now you have loaned Madhudvisa Dollars 133,505.50. How will he repay? What are the terms for repayment? In France they are wanting to borrow Dollars 120,000.00. Can you arrange for this loan in January, 1975? I understand that Spiritual Sky is not able to repay its loan now. This rule must be strictly followed that 50% paid for printing and 50% paid for property and building loans.

Gurukrpa Swami has informed that on October 31 he paid DNP Dollars 60,000.00. So he has paid approximately Dollars 100.000.00, but here in India only approximately Dollars 86,500.00 has been received. Please explain.

Regarding printing in USA for sending a man to the press to check the work, yes do it. Yes, print quickly in USA our books. The quality of S.B. 3:4 is not bad.

Regarding the book distribution, somehow the distribution must be doubled and tripled as far as possible. Do it.

I hope this meets you in good health.

My Dear Atreya Rsi dasa:

Please accept my blessings. I am in due receipt of your letter dated September 28, 1974, and it is received so late on account of touring. I have sent you one telegram as follows: AUDIT YOUNG ATTAR TEHRAN LT COME AS EARLY AS POSSIBLE BEFORE NOVEMBER 30 -AC BHAKTIVEDANTA SWAMI.

You say that you are all fools. When you can understand that you are a fool that means that you are a little intelligent because you can detect your own foolishness. Caitanya Mahaprabhu wanted to remain a fool just to teach us how to make progress in spiritual life. All Vaisnavas not artificially but seriously think themselves as foolish. The more we remain foolish, the more we remain eager to learn for spiritual advancement in life.

Now you are a practical business manager, so we are expanding by Krishna's grace; so try to make some formula so our institution may go on without any difficulty. In your letter to Ramesvara you call for a meeting of GBC to develop a system of management and communications which will eliminate chances of recurrences. This is a good suggestion you have made, so when we next meet together, you must give it some practical shape.

You have also mentioned to repeatedly offer obeisances to your spiritual master. This is very important. A disciple should offer dandabats, not namaskara. The more one becomes fixed up in guru obeisances, the more he advances in spiritual progress. yasya deve para bhaktir yatha deve tatha gurau [ŚU 6.23].

I hope this meets you in good health.

My Dear Dhananjaya dasa:

Please accept my blessings. I am in due receipt of your letter dated November 9, 1974 and have noted the contents. Regarding the land purchase, these soil tests are unnecessary. All the land in that area needs fertilizers, that we know. Anyway, you can give up this. If there is doubt, then there is no need for purchasing this land.

I am glad to note that the Home Minister is looking into the visa problem for our men. The idea is that we are spending so much for constructing these projects but no local Indians are coming forward to join us. So who will manage these projects? We require the foreigners to manage. In Vrindaban we will keep at least 50 foreigners.

It is very good that the Governor Mr. Reddy has visited our temple. He should be invited for being the Chief Guest and Inaugurator of the new temple. I am writing to him in this regard separately. Krishna has sent both these Governors.

Regarding your inquiry about your position, that is a bona fide position to remain a servant of the servant of Krishna [Cc. Madhya 13.80]. So for the time being you can help Tejiyas in Delhi collecting and preaching.

In the meantime please go and see the Manager of Punjab National Bank, Vrindaban with the enclosed two letters and take replies. I also want to know how many Fixed Deposit Receipts are in their custody. Give me all the numbers and amounts. They should keep the certificates but you should mail me the particulars.

It is good that your wife is there. I hope this meets you in good health.

New Delhi

My Dear Tejiyas dasa:

Please accept my blessings. I am in due receipt of your letter dated November 8, 1974 with enclosure of emigration application. I shall keep it aside and inform you. Regarding your question about collecting, whatever money sent it is all the hand of Krishna. When Krishna gives, you get. Don't be disappointed if you do not get any collection after working. Always depend on Krishna, and everything will be all right. Fight and depend on the results on Krishna. yudhyasva vigata-jvarah, fight without being lethargic, Krishna says in the Bhagavad-gita.

Pushing on this movement, I had to face so many difficulties throughout since I left my home. I lived in Delhi at Sakur Basti because the rent was cheaper there, and I could not even take an apartment in Delhi. Then I was provided with a room at Chippi Walla, Radha Krishna temple, wherein I was able to keep my publication office.

But, by Krishna's grace we are situated on a standard footing. Let us maintain this position cooperatively, and always pray to Krishna that we may not spoil what Krishna has already given us. Try to make improvement more and more.

Regarding you question about keeping open the Deity doors in the early morning, yes you can do it. That is done in Vrindaban also. Regarding the collections, the books are increasing, so 50% should go to BBT and 50% to construction, but if needed, then that money can be spent in other ways.

Now both CBI and State Bank approached us to open a branch bank, so this should now be done, so we can get the foreign exchange transfers. We will be receiving minimum Dollars 10,000.00 per month. Bali Mardan has promised this. Besides this we are getting interest from investments in USA, and also from other sources. So please arrange for either one to open their office on our premises.

I hope this meets you in good health.

My Dear Nilambara dasa:

Please accept my blessings. I am in due receipt of your letter undated together with letters from your friends and I am glad to see they are taking serious interest along with yourself in this movement of Lord Caitanya. Try to understand this philosophy very nicely and get more numbers to join. I am especially interested to see the Americans spread this movement. America is already blessed by Krishna, and if they become Krishna conscious, they will become more glorious. There is an Indian saying, "fragrance in gold." Gold is already valuable, but if it has got some nice fragrance, then it becomes even more valuable.

If some percentage of Americans become Vaisnavas, it will be wonderful for the future of the world. It will be a great example for the world. So you yourself take to the process with heart and soul and always follow my instructions, and Krishna will bless you to convince many souls to become Krishna conscious.

Bombay 16 November, 1974

74-11-16

Dear Jayatirtha & Karandhar Prabhus,

Please accept my humble obeisances. Regarding the corporate status of ISKCON in relation to Spiritual sky, it is desirable that Spiritual Sky separate itself from ISKCON so that ISKCON will not be subject to any debts incurred by Spiritual Sky.

It is expected that in the near future the tax shelter that was offered to Spiritual Sky by ISKCON will not be available when the U.S. tax laws are changed. It is also understood that the Spiritual Sky management intends to separate itself from ISKCON in the near future.

Further, in a memo dated October 16, 1974 written by Ramesvara it is stated: "For a number of reasons the temples around the Society in general have been completely dropping Spiritual Sky over the past three months as a permanent business function." Jayatirtha has also indicated that the future Spiritual Sky personnel policy is to phase out devotee participation as fas as possible.

Therefore the conclusion is that the formal separation between Spiritual Sky and ISKCON should be concluded immediately. You are requested to make Spiritual Sky a separate entity and apart from ISKCON at the earliest possible.

It is also considered that if a suitable price can be gotten for the business, then it may be sold.

I hope this meets you in good health.

My Dear Dr. Ghosh:

Please accept my greetings. I am very much thankful for your nice letter dated November 8, 1974 and the presentation of the copy of Pancamrta written by you. I saw the verses formally also. If anyone reads these verses regularly certainly he will make progress in his spiritual life. I have now advised my secretary to send you immediately one copy of my Caitanya Caritamrta. by registered post.

Since you left Bombay, I had been to many places in Europe such as Rome, Frankfurt, Paris, Sydney, Fiji, Honolulu, Chicago, San Francisco, Los Angeles, Dallas, New Vrindaban, New York, London, and then here to India. I was thinking of you, but was missing your address.

Regarding the charitable dispensary, I am not very much enthusiastic for this enterprise because nowadays to keep a proper dispensary pushing on requires much attention and money also. I have heard from the authorities of the Rama Krishna Mission that their charitable dispensaries of hospitals are mostly run by paid men, as formally no intelligent medical practitioner was joining them to run it on.

Therefore I may suggest that if you are really inclined to retire, you are welcome to live with us. We have got three very nice places in India in Bombay, Vrindaban, and Mayapur. We have spent many lakhs of rupees for constructing these centers, and if you live with us in any one of them, you are welcome. You can live with your good wife as vanaprastha, and when you decide to do so, we may maintain a small dispensary for taking care of our own men. But for the general public opening a charitable dispensary is not in our program at least for the time being.

I shall be very glad to hear from you at your convenience.

Further I beg to inform you that all my temples and centers here in India are being managed by my foreign disciples. I want that they should be admitted as immigrants. They have embraced this Vaisnava religion and have given money for constructing these temples and are managing them. Although we have got a few Indians to join, they are neither educated or expert.

In Allahabad you are known to so many lawyers and judges. Kindly consult with them how my foreign disciples can get immigration status in this country. If they were forced to leave, I will be in a great disturbed condition how to manage all these centers. Kindly find out immediately some good lawyer. I think Sir Tej Bahdur's son maybe helpful in this connection.

Dear Professor Judah:

I beg to thank you very much for your letter dated November 1, 1974. I understand you have sent your book to my Los Angeles address. At present I am in India at the above address. Most probably my secretary in Los Angeles will direct the book here, and I shall read it with great interest.

I am very much pleased that you have taken our Krishna consciousness movement a little seriously. That is very good. Lord Krishna says that when the leading men of the society accept it, then it is followed by the common men. I wish the leading men of the human society may understand the background of this great movement. It is on the basis of God consciousness. Every living entity especially in the human form of life is potentially God conscious. Unfortunately the modern leaders of the society have made the common man forget God somehow or other. Our humble attempt is to revive the forgotten consciousness of the human society.

Without being God conscious you cannot expect perfection in the human society. It is said in the sastra that if a person is God conscious, then all good qualities manifest in his person, but without being God conscious no material quality can make anyone a respected gentleman. Therefore it is essential to teach God consciousness in every school, college, and university to revive man's dormant God consciousness.

I hope you will continue to cooperate with us in this attempt. Thanking you n anticipation. I shall read the book when I get it.

Yours very sincerely, A.C. Bhaktivedanta Swami

Bombay 20 November, 1974

74-11-20

Sheth Sri Punjabi Chandu Halwi Karachiwala 185, Wallkeshwar Road, Teenbatti Bombay-6

My Dear Sadajeewatlalji:

Last night we had some talks on your new attempt to elevate the girivanavasi people. It is very enlightening for anyone that you are trying to elevate the position of the people in the forest and in the hills. This sort of desire is certainly very much laudable, because in our Vaisnava philosophy it is said that a perfect Vaisnava is always very kind, and he is aggrieved by others miserable condition. para-duhkha-duhkhi krpam buddhih. Or, a Vaisnava is always unhappy by seeing others unhappiness, and he is the ocean of kindness.

In the Bhagavad-gita it is said samah sarvesu bhutesu/ mad bhaktim labhate param [Bg. 18.54]. When a person is self realized, he is equal to everyone, and that is the preliminary stage for entering into transcendental devotional service. But, one should not falsely claim to be equal to the Supreme Personality of Godhead, because in the Vedas it is said: na tasya karyam karanam ca vidyate/na tat-samas cabhyadhikas ca drsyate. Nobody is equal to the Supreme Personality of Godhead. Unfortunately it has become a fashion to equalize everyone with Narayana. This sort of mentality is called pasandi mentality, because if anyone considers even the biggest personalities like Lord Siva or Lord Brahma on the equal status of Narayana the Supreme Personality of Godhead, he is certainly a pasandi.

Your attempt is very good, but be guided by the Vedic principles. The Vedic principles are mentioned clearly in the Bhagavad-gita by the Supreme Personality of Godhead Lord Krishna. If we follow the principles, then our attempt in any field of activities will be successful. But if we follow the pasandis who are mayayapahrta jnana, then any attempt to ameliorate the condition of the general people will be a failure. There are many politicians, social workers, and philanthropists all over the world, but their attempt has not been successful on account of theor knowledge being plundered by maya.

It will be my great pleasure to give you guidance from the Bhagavad-gita As It Is in your this great enterprise. You are free to consult me at any time. If you follow actually the principles of Bhagavad-gita As It Is, there it is said if one does not follow the principles of sastra then he does not get happiness neither any good result of his fruitive activities.

So we should not be confused in the matter of violating the orders given by Lord Krishna. bhagavad-bhakti-hinasya/ jatih sastram janas tanah/ apranasyaiva dehasya/ mandanam loka-ranjanam. A big nation, a big worker, a big ascetic, and all similar big attempts, if they are devoid of bhagavad-bhakti, or devotional service, then such high qualities are exactly like the decoration of the dead body.

Your ever sincerely, A.C. Bhaktivedanta Swami

I look forward to seeing the Italian Sri Isopanisad. In France they have now published. There is very good scope in Europe for this Sankirtana movement. If you just spread this chanting in Europe, then it becomes Vaikuntha. Side by side push on the literature distribution as far as possible. This should be done very vigorously, and you will have great success there. My guru maharaj was always very pleased when even a small pamphlet was distributed. Sriman Kirtiraja das:

Please accept my blessings. I have seen your letter dated November 12, 1974 addressed to Brahmananda with enclosed samples of the Christmas cards and the calendar. The pictures are very nice. This sort of painting was done during the Muslim Moghal period. But, we don't encourage Christmas greetings. They are nice pictures undoubtedly.

It is all right, but the general public will take Krishna as an ordinary man. This will deteriorate from the standard. Every picture is with the gopis. People are generally inclined to man and women connection, and by selling these pictures will affirm their sinful activities in the name of Krishna. These are not meant for the common man but for advanced devotees. If we would distribute them, they would misuse it. I hope you can understand this.

My Dear Nrsimha Caitanya Das,

Please accept my blessings. I am in due reciept of your letter dated October 12th, 1974, with enclosed letter from Saunaka Dasa Brahmacari. I am very glad to read of all the wonderful activities in Krishna Consciousness that you are engaging in in San Diego. I can understand that you are managing a very nice temple there. The temple is meant to invite everyone to come and take shelter of the Lord. The temple is the opportunity for all conditioned souls to render some service t Krishna either in the matter of Hearing, Chanting, Offering, Cleansing, Reading or taking prasadam. Therefore you are by managing the temple as a president you are doing a very great service to humanity. So please continue in this way and make it nicer and nicer. I am also glad to note that you are distributing the books in increasing numbers. We want that our book distribution should be increased more and more in the coming year.

Regarding the devotees whom you have recommended for initiation I am pleased to accept them as my disciples. Their spiritual names are as follows: Mike-Mahahasaumya Dasa. Ken-Ksamaula Dasa. Karen-Kriyasakti Devi Dasi. Dilana-Duravanya Devi Dasi. I am also please to accept Saunaka Dasa Brahmacari as twice born initiated Brahman. Enclosed is the sacred thread sanctified by me as well as the mantra sheet. Please hold a sacrifice and the Gayatri mantra can be heard by him through the right ear of my recorded type.

I hope this meets you in good health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

My Dear Rocana Das,

Please accept my blessings. I am in due reciept of your letter date October 28th, 1974. I have replied your previous letter of September 17th 1974 and a copy of that letter is enclosed herewith. I am very glad to note of how you are increasing the "Back To Godhead" distribution there in such a remote place. Our "Back To Godhead" is the backbone of our movement so we should always be thinking how to increase it increase it increase it. I note that your are installing Gaura-Nitai deities on Govardhana Puja, please send me the report of how the festival went on.

Regarding the initiations the devotees which you have recommended I am herewith initiating and their names are as follows. Don-Dharmaprana Dasa. Jean Citrakera Dasa. Claudia-Cklamahara Devi Dasi. Kathy-Kamalaksi Devi Dasi.

I hope this meet you in good health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

My Dear Tamala Krishna Goswami:

Please accept my blessings. I am in due receipt of your letter dated November 8, 1974 with enclosures. Regarding your letter dated October 8, 1974 it was received on October 22, 1974 and replied on October 23, 1974. If you have not yet received it, the copy can be mailed to you.

Regarding the book distribution, apart from our books, the Communist Party has become popular simply by distributing their literatures. I know in Calcutta the Communist agents were inviting friends and reading their literature. The Russians never came to India, but by distributing literature in every language they get a pretty good number of followers. So if it is possible for ordinary third class mundane literature, why not should our transcendental literature create devotees all over the world. I see practically how our books and magazines are becoming popular in your country. So there is good potency for pushing on these literatures very vigorously.

So organize this propaganda work very carefully and our movement will be very much successful by introducing literature from village to village. Lord Caitanya wants this, so carry out His order.

Everyone says the Investigation Committee. report is dispatched, but it is not in my hand.*

It is very good that you have purchased a third bus and also that you are rotating the men. This is a good idea. Yes, train up the brahmanas very carefully. Many Indians and foreigners criticize us how we can create brahmanas. They are under the impression that brahmanas are born like horses and asses are born. According to Bhagavad-gita brahmanas are according to guna and karma. So the training of brahmanas should be so nice that people will be forced to accept them as brahmanas by guna, quality, and karma, action.

So go on with your preaching solidly. Krishna will be pleased and Caitanya Mahaprabhu will be kind. He is already kind. You simply have to go village to village, and your life will be perfect.

I hope this meets you n good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My Dear Tamopaha Das,

Please accept my blessings. I am in due reciept of your letter dated November 4th, 1974, and have noted the contents. I thank you very much for your sincere efforts to be Krishna Conscious and surely you will be blessed by Lord Caitanya Mahaprabhu. Rupa Goswami said a person somehow or other should become attached to Krishna, therefore if you are happily engaged in serving in Honolulu then you should continue your service there. If the foundation is strong in chanting and hearing then your Krishna Consciousness is assured. All these activities are pleasing to me that you are chanting, Worshiping the deity and writing, So please continue and increase your enthusiasm and then surely you will become successful in your Krishna Consciousness.

My Dear Bahurupa Das,

Please accept my blessings. I am in due reciept of your letter dated September 24th, 1974. I am pleased to hear that you are chanting 16 rounds daily and reading my books regularly and following the four rules. In my books the philosophy of Krishna Consciousness is explained fully so if there is anything which you do not understand, then you simply have to read again and again. By reading daily the knowledge will be revealed to you and by this process your spiritual life will develop. Krishna Consciousness is not a hackneyed thing but it is something which is our natural and original consciousness. Presently our consciousness is clouded just like a mirror becomes covered with dust So the cleansing process is this chanting and hearing and doing some service and trying to please the Spiritual Master. By this process our consciousness becomes clear and we are able to understand everything.

So far Gayatri Mantra is concerned, of course it it not such an important thing. The main thing is to chant Hare Krishna but you can consult with the GBC. Jayatirtha and get his recommendation. The Hare Krishna mantra is sufficient for becoming Krishna Conscious. You may please me the most by reading my books and following the instructions therein and by becoming fully Krishna Conscious in this life time.

I hope this meets you in good health,

Letter to: V. S. R. Chakravarti

•

Bombay 22 November, 1974

V.S.R. Chakravarti 24, Kasturi Ranga Iyengar Road Madras-18

Dear Sri Chakravarti:

The book compiled by your father V.R. Srisaila Chakravarti, namely "The Philosophy of Sri Ramanuja," given to me by you on 2/11/74 was very interesting to read. Of course we Gaudiya Vaisnava follow Srila Ramanuja's philosophy almost in the same manner. Sri Caitanya Mahaprabhu gives the identification of jiva soul as the eternal servant of Krishna and is situated as marginal potency of the Lord based on the philosophy of acintya-bheda bheda-tattva. This is almost similar to Visistadvaita vada. Vaisnava philosophy is now being pushed on all over the world under the Hare Krishna movement, and we feel Sripada Ramanuja a great support for the Vaisnava philosophical understanding. It is like a combination of nyaya sruti and smrti prasthans. The Bhagavad-gita supports the Vedanta Sutra brahma-sutra-padais caiva/ hetumadbhir viniscitaih [Bg. 13.5].

To the jiva brahma identification is one part of acintya-bheda bheda-tattva. As spirit soul or identical brahma, or jiva brahma is identical with the Supreme Brahma or the param brahma. In this sense jiva soul is avheda or non-different from the param brahma. But on account of the param brahma being the supreme, the biggest, the identical brahma or jiva brahma being very minute, it is different from the param brahma. The summary is that the simultaneous one and different jiva brahma is simultaneously one with and different from the param brahma. Because it is appreciated simultaneously which is very difficult to comprehend by the common man, this philosophy is called acintya-bheda bheda tattva, inconceivable. This is supported by the Katho Upanisad 2/5/13 nityo nityanam cetanas cetananam/ eko bahunam yo vidadhati kaman. This is almost similar to the visista-dvaita vada.

So far I am personally concerned, following the footsteps of my guru maharaj Srila Bhaktisiddhanta Sarasvati Thakura Prabhupada, we accept the principles of all the acaryas, although officially we belong to the Madhva sampradaya. Our sampradaya is known as the Madhva Gaudiya sampradaya. We find great shelter at the lotus feet of Sri Ramanujacarya because his lotus feet are the strongest fort to combat the mayavadi philosophy.

I hope the book "The Philosophy of Sri Ramanjua" published by you will be a great help the the Vaisnavites all over the world.

Thanking you once again.

Yours sincerely, A.C. Bhaktivedanta Swami, ACBS/bs

Please accept my blessings. I am in due reciept of your letter dated 11/10/74 and I have noted the contents. I am very glad to note that you are taking active interest in our Krishna Consciousness Movement and are helping to preach this philosophy. Our movement is not a passive movement but it is active. We are trying to awaken the sleeping humanity to reawaken themselves to Krishna Consciousness. At present humanity by and large is working simply for sense gratification. This is to be considered illusion. Actual life is devotional service to the Supreme Lord. By this devotional service one can become perfect and not become a cat or a dog. Please continue to take interest in our movement and read our books and chant Hare Krishna.

My Dear Krsnakatha Das,

Please accept my blessings. I am in due reciept of your letter dated September 30th, 1974 and have noted the contents. So far I know the paintings are coming out nicely from the press so if you like you can remain with your wife in Montreal. You can also paint like Devahuti does by the instructions of the press managers.

There is no hindrance of your being a householder so far as distributing books are concerned. Lord Caitanya Mahaprabhu had many householder disciples who would preach Krishna Consciousness. I understand recently in Toronto the entire temple distributed many "Isopanisads" and other books. So you can engage your self in spare time in this book distribution without any hindrance. Side by side you can also paint pictures for Krishna. In this way fully engage yourself in Krishna's service. That is what I want. Nothing else.

I hope this meets you in good health,

My Dear Nrhari Das,

Please accept my blessings. I am in due reciept of your letter dated September 27th, 1974 from San Diego. I have also received the photograph of your new son Mahaprabhu Das and he appears to be very nice so keep him carefully and raise him in Krishna Consciousness and your life will be successful. I am forwarding your letter to Hrdayananda Swami. The contents of your letter are very complicated and I hope that he can settle this matter peacefully. It appears that you do not have to pay back these debts, anyway you should all work this out amongst yourselves.

Although there may be some difficulties within our Society, these things are not very important. What is important is that we should simply fix our mind on Krishna's Lotus Feet. This is His instruction in the Bhagavad-gita. So we associate with one-another so that we can assist each other in hearing and chanting about Krishna. That is the purpose of our Society. This you will not find in the materialistic society where all hearing and chanting is simply concerned with sense gratification. So our desire is Krishna and we want to go back home-Back to Godhead where Krishna lives eternally. So you simply follow my instructions as I have given to you and surely your life will be a success.

I hope this meets you in good health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

N.B. I understand that you are translating "Bhagavad-gita As it Is". Please continue this work and Krishna will bless you. I want to see that my literature is widely distributed. My Dear Hugo Salemon,

Please accept my blessings I am in due reciept of your letter dated October 8th, 1974. So far your worship of Lord Jagannatha in your home and your becoming initiated. It is alright provided you have the recommendation of the temple president. I am very glad to see that such a young boy as yourself you are taking serious interest in this Krishna Consciousness Movement. Please continue in this way Our process is something universal. It cannot be checked by any means. Anyone in any place, in any country can chant Hare Krishna. If it is possible to go to the temple, then take advantage of the temple. A temple is a place where by one is given the opportunity to render direct devotional service to the Supreme Lord Sri Krishna. In conjunction with this you should always read my books daily and all your questions will be answered and you will have a firm basis of Krishna Consciousness. In this way your life will be perfect.

My Dear Mr. Seibert,

Please accept my best wishes. I am in due reciept of your letter dated September 27th, 1974. I am glad to hear that you are determined to fight maya and take up this Krishna Consciousness philosophy. So go on reading my books and attending the temple regularly. By this process your spiritual life will develop. You should also be sure to chant 16 rounds on your beads if possible. This is the recommended way to become Krishna Conscious in this age of Kali. In this age it is very difficult to become God Conscious, but if we receive the grace of Lord Caitanya Mahaprabhu who is the most merciful of all incarnations, as certified by Srila Rupa Goswami, then certainly we will be successful in our attempt for spiritual life. So this is the movement of Lord Caitanya Mahaprabhu and if you take advantage of it you will see how your attraction to material life diminishes in proportion to your attraction for Krishna, which will increase more and more.

I hope this meets you in good health,

My Dear Sriman Jose,

Please accept my blessings. I am in due reciept of your letter dated November 1st, 1974 and I have noted the contents. I am very glad to see that you are seriously taking up this Krishna Consciousness Movement. I understand that you are distributing my books in Calcutta and I am very pleased by this activity. I also note that you are translating my books into Spanish and this of course will help our cause there in the Spanish speaking countries. So continue on with this service and Krishna will bless you.

Unfortunately the leaders do not take this Krishna Consciousness movement as being very important. They would rather see to the development of various types of sense gratification. They think that this is progress but actually we understand that this leads to degradation of human society. So Krishna Consciousness movement is means to solve the actual problems of the world, So therefore it should be taken up very seriously. You yourself should be purified by following the rules and regulations very strictly by chanting Hare Krishna and by co-operating with the temple authorities. In this way you can make your life perfect as well as everyone you meet.

My Dear Hamsaduta das:

Please accept my blessings. I am in due receipt of your letter dated November 12, 1974 and have noted the contents. Regarding the grazing land at Bhaktivedanta Manor, it is not very clear from your letter whether you have got the sales document or not. Whether it is at the Manor or not? How are these documents being kept? Mukunda cannot do this work of seeing George and negotiating with him. If possible you try to meet George and settle. You meet him, and neither Mukunda or anyone else should do it.

Regarding your saying that Satsvarupa said I spoke something about some plan for distributing books in Russia, I never said anything. Regarding saligrama sila, forget it. There is no need of installing. Kirtana is most important thing and book distribution.

Regarding my saying that Atreya Rsi is GBC of material affairs, yes, I said that. Regarding Bali Mardan, he came here, and I have asked him to live with me for some time. He will inform me at the end of December. So we have to wait to decide at the end of December.

I hope this meets you in good health.

Regarding the initiations, upon your recommendations I have accepted the following as my disciples and their names are as follows: Ulrike-Amsumala devi dasi; Sabine-Snata devi dasi; Joachim-Jalandhara dasa; Achim-Haraka dasa; Thomas-Taponidhi dasa; Beth-Visoka devi; Detlinde-Dinasarana devi; Ceamack-Candravalipati dasa; Marco-Mahakarta dasa. I also accept the following as twice born initiated brahmanas: Udvargha dasa; Ravinari dasa: Manidhara dasa; Modananlasa devi; Manimanjari devi; Manda devi; Ramburu devi; Silpakarini devi. My Dear Kirtanananda Swami:

Please accept my blessings. I am in due receipt of your letter dated November 6, 1974 with the enclosed investigation report. In your letter you mention a recent letter relating to Bali Mardan's plan to infiltrate East Coast temples. What is that letter?

Regarding the prasadam, I never approved Mr. Malkani cooking in the temple. He is not initiated. Of course he is Hindu, but he went there to start his business. But, he is not initiated to cook in the temple. Any paid cook is not desirable. Who was cooking formally? He wanted to start his business, not to be engaged by us. The independent cooking done in the temple kitchen is not good.*

Why Taittiriya should have a servant? Godbrothers are not meant for being servants. Without the spiritual master's order, nobody can utilize the service of a godbrother as one's personal servant. We address each-other as prabhu, so how can we engage our godbrother as servant? Lord Caitanya Mahaprabhu engaged Govindadas who was His god brother as His servant, but that was only on the order of Sri Caitanya Mahaprabhu's spiritual master.

So the best thing is that Bali Mardan live with me. This is the only solution.

Regarding ghee for India, what is the price? Australia is also sending in exchange of books. We have received from Australia ghee for Rs. 10-per kg.

I hope this meets you in good health.

Now Bhugarbha reports that you say the asrama will not be completed for the opening festival. The program was already postponed because the asrama was not finished. Therefore everything must be cent per cent completed by the end of March. Is the contractor cheating? That means it will never be finished. Simply we have to put money. My Dear Bhakta dasa:

Please accept my blessings. I am in due receipt of your letter dated November 10, 1974 with enclosed photographs of the Hare Krishna Restaurant. It is very nice. I had been there to Stanford University. So you can get Mr. Malkani in New York to help you in the restaurant. He went there to start a restaurant, but now he is cooking in the New York temple, so you arrange for him to help you. Are books being sold also in the restaurant?

Regarding the Ratha Yatra Festival, keep it always gorgeously alive, but do not change the principle. The principle should go on as usual. Yes, it is all right to make something in the park as you have suggested. Why you want to change the wheels? This is unnecessary. Don't do this. Keep the old system strong, and if necessary repair it. Don't change from this to that. That is your American disease. This is very serious that you always want to change everything. Spoked wheels will never be as strong and hard as the old way. Never do this. Neither there should be any separate float as you have suggested for me.

Regarding having the crowds come forward to touch Lord Jagannatha's feet, that will also be impossible to manage. So for the time being this program may not be taken.

Regarding the devotees you have recommended, I am pleased to accept them as my disciples and their names are as follows: Marilyn-Manini devi; Jamie-Janjapukandhi devi; Carol Hansen-Kelilalita devi; Carol Tungate-Kalpalatika devi; Huber-Hanumatpresaka dasa; Steve-Satkrta dasa; Lou-Lankesa das; Kirk-Kalanidhi dasa. Also I accept the following as twice born initiated brahmanas: Vatsala dasa; Sasikhala devi; and Vaisesikha dasa. The sanctified threads and the mantra sheets are enclosed. Hold a fire sacrifice, and the gayatri mantra should be heard through the right ear from my tape recording. I am glad to see that you are taking these initiations seriously.

Dear Kirtiraja das Adhikary

Please accept my humble obeisances. I am due receipt of your letter dated November 10, 1974, and have noted the contents. Regarding the correct form for Srila Prabhupada's name for appearing in publishing books, it should be as follows:

BHAKTIVEDANTA, SWAMI A.C.

You should see that henceforth all 13 volumes of Srimad Bhagavatam are listed, in Four Cantos, and that they are published by Bhaktivedanta Book Trust.

The Krsna books can be listed as: KRSNA. However in the formal name of the Society the KRISHNA form is used.

I hope this meet you in good health.

My Dear Pancadravida Swami:

Please accept my blessings. I am in due receipt of your letter dated November 19, 1974 and am glad to read the contents. Never mind if you do not get the visa for India. We can preach anywhere. We have to preach both in heaven and hell. There is a Bengali saying that a husking machine will husk the rice whether in heaven or in hell. So where-ever Krishna desires we will preach this movement.

Try your best to establish a center in Bangkok, and the men here who have to leave India for visa difficulty, they can go to Bangkok and remain there and get the visas from there. Here now there is visa difficulty, so a center in Bangkok will be good. Manasvi can go to Bangkok to assist you. He speaks Hindi and can be valuable. He has already told Brahmananda that he will go.

So take this as Krishna's desire, and we are servants of Krishna, so our only business is to try to satisfy Him. You are a sannyasi and I have got full confidence in you that you can do very nicely there. Everywhere this movement is accepted, so please keep me informed what is the progress there.

I hope this meets you in good health.

My Dear Sukadeva das:

Please accept my blessings. I am in due receipt of your letter undated and have noted the contents. I am glad to learn that you are having nice college programs. Regarding there going to be depression and atomic war, who said that? This is all false propaganda. I never said this.

Regarding free will and pre-destination, yes, materially everything is decided. Spiritually you can make advancement despite all material destiny. Materially you cannot change things as they are but spiritually it is possible. No, devotees are not allowed more than one wife. Devotees should have no wife if possible, but those who cannot maintain celibacy, they can marry one wife. At the present moment people are so unfortunate they cannot maintain even one wife. First of all at the present moment they are not married and remain mostly unmarried. So for such persons even one wife is a great burden. Under the circumstances how one can think of more than one wife? This is stupidity.

Regarding your fifth question, that I shall think over. Regarding the sannyasi, therefore I have stopped sannyasa. No Vaisnava says that he is advanced. Please send me the name of the sannyasi, and I shall do the needful. Regarding the cooking, a non-brahmana may assist but he cannot cook.

I Hope this meets you in good health.

My Dear Annada devi dasi:

Please accept my blessings. I am in due receipt of your letter dated November 20, 1974 and am pleased to hear that you are well. When I was in Delhi I was sorry to learn that you were ill, so I immediately informed your husband that you must be cared for. Anyway we have to depend upon Krishna in all circumstances. As long as the body is there there will be different degrees of health and unhealth. We have to tolerate these things just as we have to tolerate the seasonal changes of sometimes hot sometimes cold.

You are a devotee, and so Krishna will protect you. Always think that Krishna is with you. He is present in His name, so you are always associating with Him.

I Hope this meets you in good health.

My Dear Mahamsa Swami:

Please accept my blessings. If you have got a copy of Bhavan's Journal," Diwali Number, No. 8 November, 10, 1974, you can see on page 197 under the heading "Our Reader's Page," there is a question: "Should non-Hindus who have adopted the Hindu way of life e.g. the followers of the Hare Krishna movement, be allowed to enter Hindu temples?

So immediately you reply to the Editor of Bhavan's Journal, Dr. K.M. Munshi Marg, Bombay-400 007, enclosing the letter of Swami Cinmayananda's letter about the approval of learned panditas and sannyasis about the Hare Krishna movement members entering into Hindu temples. You can mention also that we are allowed to enter into the biggest temple in India, Tirupati, as well as Nathadwar where the head of the temple received us very well and presented some gifts. Except the Jagannatha temple in Puri no where have we been checked admission.

This time we wish to go to the Jagannatha temple again, and let us see what they do. The Hindu Vishva Parishad approves us as rigid Hindus as it it will be clear from the letter of Swami Cinmayananda.

So immediately write a letter and send me a copy of your letter as well as Swami Cinmayananda's letter. We shall request them to publish the letter of Swami Cinmayananda in this connection as well.

Last night your mother came to the temple and talked with me. Sometimes you can send her some news of your health, but not very much correspondence, after all she is mother. Lord Caitanya used to also please His mother by sending prasada and men with news.

I Hope this meets you in good health.

My Dear Ramesvara das:

Please accept my blessings. I am in due receipt of your letter dated November 6, 1974 and have noted the contents. No, we cannot loan BBT money for any other purpose than what is mentioned in the BBT Agreement. These other loans for cows, equipment, and restaurants must all be re-paid, and no other loans other than for publishing and temple construction can be granted.

Yes, you can advise Kingsport Press to supply a superior paper. Regarding the technical problems you are having in producing the books and magazines, how can I advise all these things. I have no experience. Better you consult amongst yourselves and do the needful.

Dai Nippon should be charged for the inferior paper used in the new Bhagavatam volumes.

Regarding Jayadvaita it is good for him to avoid controversy. It is a paltry matter, so why he should be disturbed? It was already discovered it was meat, so he said it was by mistake or something.

So it is a good thing that you have distributed books to the son and daughter of the President. This is another example how the book distribution is better than the Street Sankirtana alone. Now the books are in the President's house, but by your chanting you could never approach the President's house. That the body guards allowed our devotee to sell them the books, means that they accept us as good people who do not cause harm. Most probably when entering the house and seeing the father, the daughter would say see what I have purchased today.

I hope this meets you in good health.

My Dear Subaladas Swami:

Please accept my blessings. I am in due receipt of your letter dated November 13, 1974 and have noted the contents. Regarding your registration, it should be clearly stated that no property can be sold or mortgaged without my express sanction. I am glad to note that you have got three brahmacaris there. Train them up nicely.

Yes I am pleased by your attempt there, and Krishna will bless you undoubtedly. I am always for that purpose. Kindly ask me your problem and I shall try to give you advice. Krishna consciousness can only be increased by chanting, reading our books regularly, and strictly following the rules and regulations.

Krishna is in His name, so He is always present with you. Never think that you are without the association of Krishna. Yes, guru and Krishna are always with you.

So far your health is concerned, so far the body is there the question of health and unhealth will always be there. Sometimes there will be complaints, and sometimes not. In the Gita Krishna says these things come and go like the seasonal changes. So we have to tolerate. Caitanya Mahaprabhu advises trnad api sunicena/taror api sahisnuna. We must be tolerant like the tree and humble like the blade of grass. Such persons can chant the Hare Krishna mantra and preach. In Bombay we are undergoing so many tribulations. What can be done?

I hope this meets you in good health.

My Dear Gopala Krishna das:

Please accept my blessings. I have read your letter dated November 21, 1974 addressed to Brahmananda Swami with enclosed picture from "Back to Godhead." Even they have changed her face, still it was not possible to hide the fact that she is old, like great grandmother. Because you are a devotee you could not tolerate the nonsense. You are a very good boy. I know that whatever money you have left over from maintaining your family, you give that to the Society. You do not even keep anything for yourself. This is very good.

It is very good that you are still trying for a new building. It is long overdue. Why not the same Park Avenue building if it is available? I think that if you all try, it will not be difficult to obtain the required money to obtain it.

You have marked that she bought a Toyota car with temple funds, so how could she be a Toyota. You have used your common sense. She wanted to hide herself in so many ways, just like this picture, but she could not.

Bali Mardan says that taking milk is also the same as eating meat, therefore you can eat meat. Therefore does it mean that because what I eat all turns to stool, then I should eat stool? If everything I eat turns to stool, does it mean I should eat stool? Is this sound logic? He was a sincere boy, but he has fallen down by bad association. Still I can rectify both of them, provided they agree.

If possible send me his address. I want to write to him. I asked him to correct himself, not to leave. Anyway if he agrees he can be corrected. Jagai agreed to the terms of Caitanya Mahaprabhu and was corrected by the Lord.

I Hope this meets you in good health.

My Dear Satsvarupa das Goswami:

Please accept my blessings. I am in due receipt of your letter dated November 20, 1974 from New York. I am very glad to hear of the continued success of the Library distribution program. You know it that I also was selling my books in this way to the schools and colleges and libraries. I would write, then publish, and then distribute without any help. So how much pleased I am with you that you are helping me in this mission. So you go on with your work. Krishna will help you. You are sincere in your purpose. This is very important engagement of visiting the professors, and the colleges and libraries, and getting the standing orders. This is the most important engagement. Do not doubt this.

It is also good that you are trying for the teaching course. What do the others know. Yes, simply they have written nonsense books. There in America is very good field. Regarding Franklin and Marshall College that was a misunderstanding. I am prepared to take the class. So you write the professor. You had told me it was very cold there, otherwise I was ready.

It is very good that the New York temple life is now much improved. What is very pleasing to me is that they have confronted the nonsense. They are sound devotees, otherwise they would have been carried away by this wrong propaganda.

Letter to: Hamsaduta:

-

Bombay 1 December, 1974

74-12-01

Taunus

My Dear Hamsaduta das:

Please accept my blessings. I am in due receipt of your letter dated November 21, 1974 and have noted the contents. Regarding introducing the records in USA, yes, why not, but do not minimize the book selling. Better if a different party is engaged in record selling, so that the book selling may not be affected. Both book selling and record selling are good, but book selling is better and permanent. Record selling is temporary. It is very encouraging that you plan to publish one volume per month of Srimad-Bhagavatam.

Regarding selling the books in Germany, if you want to hire people to sell books, yes, why not? It is due to the scarcity of men. So German people are not coming to join this movement? So far I have seen your German devotees, they are very enthusiastic and steady workers. So if you get some good souls to join, then there will be no difficulty for selling the books. So it doesn't matter if we are selling more or less, so far the publications are there. We may sell or not, but the books must be there.

The present Das Hare Krsna Kochbuch is very nicely printed, especially the picture of Krsna and His friends eating. It is very glorious. We wish to join His party, but it requires great tapasya. For many, many lives these boys performed tapasya to join His party and eating with Him. I see that you are charging the equivalent of Dollars 4.00. Yes, they must pay.

Regarding the interest of Miss Thakura, very good, that's nice. Keep friendship with her and introduce our books. Give her prasadam, and after all she is woman, flatter her. Then she will remain pleased, so keep her as friend.

Regarding the new proposal for a farm, yes arrange for it. So make it another like our New Vrindaban. You have already named it Govardhana Hill. That's nice. If possible add Giri Govardhana Hill. How far is it from the Frankfurt center? As you have recommended for initiation Lisa Reuter and Willy, I have accepted them as my disciples. Their names are Lekhasravanti devi dasi and Bimbasya dasa. Please see to it that they chant on their beads and follow the regulative principles carefully. You are authorized to chant on their beads.

I understand that the boy Jagannatha dasa will join the editing party in Hawaii. Thank you very much. Regarding the loan to Stockholm, yes, that's nice. They must return it again.

Yes, we must invest our money in books and land, but no there will be collapse as you have anticipated. Everything will be adjusted by the grace of Krsna. From my own experience I have seen when first class rice was selling at 8np. per kg, and now that is being sold at Rs. 8. That means that it is 64 times higher, but still people are eating, and the man who lives in care of the footpath he is also eating. So the man in care of the foothpath, and the man on the 30th floor of the sky scraper, they are living and still the inflation is going on. Man-made laws cannot work any rupture in Krsna's plan. Better let us remain now under Krsna's shelter fully dependent, and we shall remain unaffected by all the man-made difficulties.

So concentrate on publishing books as far as possible, and sell, and spend the money accordingly. In the Bhagavad-gita it is stated: sa gunam samatityaitan/ brahma-bhuyaya kalpate [Bg. 14.26] The devotee is transcendental to the material modes. On the whole I am very much pleased with your publishing extensively in the German language. It has given me great pleasure. One thing, for our books the words "Bhaktivedanta Book Trust" must appear on the spine of the jacket. Formally it was being done, and now it has been stopped. These things should always be there. I have seen it on the latest Bhagavatams.

Regarding the DM 5,000 transfer, yes that has been received and sent to Calcutta for Mayapur Prasadam Pavilion. So for transferring money we have opened new accounts so from New York money can be sent through First National City Bank to their Bombay Branch in favor of International Society for Krishna Consciousness Mayapur Vrindaban Fund A/c No. 17168; and from Los Angeles they can send through Bank of America to their Bombay Fort Branch also in favor of International Society for Krishna Consciousness Mayapur Vrindaban Fund A/C No. 16026.

Karandhara is no longer BBT Trustee, so his name can be removed from the accounts and your signature can be added. Bali Mardan is on the marginal stage. Things will be decided when I go to Hawaii. It is my opinion that he has fallen victim to the woman. Maya is very strong, but if we try to save him by our combined efforts, because he is a good asset. So I am trying to save him from the victimization.

It is also my opinion not to move the Press to L.A. but keep it in N.Y. Removal is not my opinion. It will be very much expensive and not much improvement. Yes, make the management nice. Yes, also send some responsible Englishmen here to India who will not have the visa problem.

Regarding purchasing the Schloss, yes I like that Schloss. Does the price include the adjoining lands or not?

I hope this meets you in good health.

I have received one letter from Sucarudev das, a devotee there who has some complaint, that he is left in charge when Mahamsa Swami goes out on tour, and no one cooperates with him, just sleeping and eating. So please enquire and let me know actually what is the situation there, and how things are going on. Also let me know what is the program for Hindi publishing there. Here in Bombay they are going on daily Sankirtana in Fort and selling 100 BTG's (English) daily, and they get requests for Hindi literature.

I have also received a letter from a diseased man, but what can I do? Please read the letter enclosed.

My Dear Jayadvaita das:

Please accept my blessings. I have seen on the new books printed that on the spine of the jacket the words "Bhaktivedanta Book Trust" have been omitted. Formally they were there on all the books. It is understood from Ramesvara that you removed these words. Why did you do this? Who authorized it? Did Bali Mardan authorize it? These things must be there. Please see to it.

Dear Radhavallabha Prabhu:

Please accept my humble obeisances. I am in due receipt of you letter dated November 20, 1974 and also your telegram regarding the S.B. indexes. I have discussed the points of your letter with Srila Prabhupada. He said that yes, it was a very good idea to offer the first published edition of C.C. Ādi:1 to Srila Bhaktisiddhanta Sarasvati Thakura on his disappearance day, January 1, 1975.

Regarding the S.B. index idea of separate volumes, Prabhupada does not like this idea. He said that we are selling the books mostly to casual customers, so what will be the fate of the index for them? They will never see the index. Therefore, Srila Prabhupada prefers that each volume have its own separate index. This system should be revived.

I hope this meets you in good health.

My Dear Madhavananda das:

Please accept my blessings. I am in due receipt of your letter dated November 1, 1974 and have noted the contents. Of course I was here in India, so I could not attend your Diwali-Govardhana Puja function, but I understand it was very nice.

I am glad to understand that you are living and working peacefully with the others there. This is required. If we also fight and preach Krishna consciousness, what will people say? Therefore Lord Caitanya has stated: trnad api sunicena taror api sahisnuna. Another symptom of a sadhu or spiritually advanced man is described in Srimad-Bhagavatam by Lord Kapila: titiksavah karunikah suhrdah sarva dehinam [SB 3.25.21]. The symptoms of a sadhu is that he is tolerant, merciful, and friendly to all living entities.

I may also refer to a letter to you from Mr. Mody dated November 1, 1974. It appears that Kausalya has annoyed him very much so that he could resign his membership. So I want to know what is the cause.

I hope this meets you in good health.

Please accept my blessings. I am in due receipt of your letter dated November 9, 1974. I am very glad to learn that you are all working peacefully together. This is the most favorable atmosphere for cultivating our Krishna consciousness. And if people see us working together nicely, they cannot criticize anything against our Krishna consciousness movement.

Upon your recommendation I am accepting the following devotees as my initiated disciples and their names are as follows: 1. Soley-Sarvasagara dasa; 2. Angela-Aksunnasakti devi dasi; 3. Jackie-Janardanaprita devi dasi. Their beads may be chanted upon by Hamsaduta. I am also accepting the following as twice born brahmanas upon your recommendation: Brsabha dasa; Jaya Laksmana das; Jnana das; and Jalastitha devi das. Their mantra sheets and sanctified threads are duly enclosed. Now hold a fire sacrifice. The gayatri mantra can be heard through the right ear from my recorded tape.

This is a very good idea. Somehow or other inject the bhakti yoga. That will save them from the degradations of sense gratification.

My Dear Pranava das:

Please accept my blessings. I am in due receipt of your letter dated November 29, 1974 with enclosures and have noted the contents carefully. In a letter from Tejiyas to Brahmananda Swami dated November 12, 1974, he writes, "The land transaction is taking an extraordinary length of time." And, in a letter from Dhananjaya to me dated November 9, 1974 he writes, "There has also been a problem with the map of the property . . . and so far both parts of the map have never been presented together to the advocate. Therefore the advocate is also dubious as to the validity of the transaction." On the strength of these two letters I have dropped them idea of purchasing this land. Now it comes to light we have to deal with three separate agreements and they will not take payment from the bank. So considering all these points, I think this transaction may be dropped. On the previous reports submitted I have already dropped the matter. Also, as we have to divert so much attention to fertilize the land, I do not think it is suitable for our purpose. When I return to Vrindaban, then we can reconsider this transaction.

The documents which you sent are returned herewith.

My Dear Dennis:

Please accept my blessings. I am in due receipt of your letter dated November 22, 1974 and have noted the contents. So regarding the situation that if you leave your wife and your son, she will be broken hearted, therefore I asked you to stay. It is better for you to remain with your wife and son and chant Hare Krishna as much as possible, and Krishna will personally give you direction. It may be that Krishna will make your wife agreeable to your line of action. And if your wife agrees, and your son he is already doing, that will make your life very happy in Krishna consciousness.

The best policy is to chant Hare Krishna all together husband, wife, and son at least a half hour daily. If your wife joins with you in chanting, then the whole problem will be solved.

Letter to: Sri Govinda:

-

Bombay 6 December, 1974

74-12-06

Evanston, Illinois

My Dear Sri Govinda das:

Please accept my blessings. I am in due receipt of your letter undated together with clippings and photos, and thank you very much. I think the article about the book distribution at the airport is indirectly an advertisement. People will come to know about our books and our movement. Here in Bombay they also have the complaint that we are nuisance. What can be done? the writer of the article calls us Hare Krishnas. He calls us this over and over again. He does not know that by doing this he is chanting the holy name and will be benefited. Just like during Lord Caitanya's time, the Muhammadans used to joke how the devotees were chanting Hare Krishna. One of the officers said to his subordinate that it was all right that they were chanting, but why was he chanting. And the man had to admit that yes he was also chanting and that he did not know why he was doing it. So by writing this article, this man is chanting.

They say that you are all my disciples. So the guru is not on the scene. He has fled away and nobody knows where he is, but the Krishna consciousness program is going on. That was also going on during the time of Lord Caitanya. In South India He used to travel, and in a village He would meet some man and induce him to chant, and the man would become a devotee, and Lord Caitanya would go away, but still the man would continue to chant. So, I am not personally present, but still things are going on, and it is increasing. So the books are selling and we are expanding. This book distribution is the brihat mrdangam. It is the greater preaching. Anyway, you have replied properly to the article that this may be some isolated incident.

Yes, as you have said in your reply they must see what kind of life our men are living. Our books are better than the nonsense books. You have written them to the point. And, even if there is some complaint, they are getting the real thing from our books. they are forgetting the aim of life. Somehow or other, we have to give them the real thing. Why this one man should be envious? In the history of the world, especially the Western countries, there is no record of selling religious books so many daily. It is unique in the history. Our men are doing good, that they do not see. They are so blind. But, the end justifies the means. We have to give them even if they do not want it. That is our duty.

Actually what is our aim? Our aim is to create men of ideal character. And, if our men are distributing books on this account, they are doing the best service to the society. Because someone has said something in the airport, that is not very

important. What we are doing that they must see. See their sacrifice, what is behind their life, how they are living; how they have sacrificed everything for the welfare of society. In our society there is no distinction between black or white, Hindu or Muslim. Every living being is welcome to take to this cult, and make his life a successful affair.

Regarding your question, actually it is a fact that ultimately everyone should preach and distribute books if they want to please me in the best way. Book distribution must be given stress always. He has spoken the right thing. If you do this sincerely, it is a fact that Krishna will supply everything else required. So you say that your men are like the four Kumaras disobeying Lord Brahma. Does it mean you are Brahma? But, it is a fact. Here in India we are not arranging for publishing Hindi books and other languages for profuse distribution in India. That is my immediate program. I blindly follow my guru maharaj. I do not know what is the result. So I am stressing on this point of book distribution. He told me this personally.

Book distribution is bhagavata marga and temple worship is pancaratriki viddhi. Both are important for cultivating Vaisnavism but comparatively speaking bhagavata marga is more important than pancaratriki viddhi. As far as possible both should go on in parallel lines but still bhagavata marga is more important than the other.

So you are all intelligent boys, so you should judge the desire of my guru maharaj and help me in that way. Regarding the temple management, one man can be left behind, while the others go out, to take care of the Deity. And, you can come home at night and take prasadam sumptuously. Once eating sumptuously is enough to maintain body and soul together. In the daytime you may not take, and at night you can take. As a matter of fact, a devotee may take only once in a day either in the day or night, and whenever you eat, you must first offer. But I do not mean you should neglect temple life. Do not misunderstand this. But, one man can remain, and so far the other devotees are concerned, they can eat once in the day or night, after having kirtana, then six hours of sound sleep, and this will maintain their health properly.

So on the above statements you must make some compromise. Both Tripurari and yourself are intelligent. Sometimes we may differ, but Krishna is the center. Just like in Vrindaban there is Radharani's party and there is Candravali's party. So Krishna is the center of both parties. So even there there is competition between the parties, but they coincide in Krishna.

Regarding the seminar, that is very good. April or May will be good, but May will be very good. I can come at that time.

I hope this meets you in good health.

My Dear Ameyatma dasa:

Please accept my blessings. I am in due receipt of your letter dated nil together with photos of the paintings and card, and layout sketch. Regarding the two portrait paintings of myself you have done, both are nice but the close-up one is better.

Regarding the sketch of the Six Goswamis I think it is some imagination. Too much imagination is not good. It is better not to go beyond the limitations as described in the Sastras. What is that scaffolding? So better not to do this idea.

Regarding the painting of the arati ceremony, yes do it as it is described in the song. The ceremony was held inside. No arati takes place in the open. Lord Caitanya was a householder at the time. Navadvipa lila means householder lila. The form exhibited was the Panca-tattva form, as it is described: dakhine nitaicand bame gadadhara. Not only are Brahma and Lord Siva but all demigods are offering. And, everyone has got sikhas, why you are asking if only Narahari and others have got? Srivasa was grhastha, and Advaita acharya was grhastha.

My Dear Hamsaduta das:

Please accept my blessings. I am in due receipt of your letter dated November 27, 1974 and have noted the contents carefully. If there is a possibility of moving the Press within a year, then you may not move the Press now. It will be a unnecessary expense. Rupanuga's letter in this connection is not yet received. Yes, New York needs a big house. I am not expert in giving my opinion in this matter, so you three, Ramesvara, Radhavallabha, and yourself consider and do what is best.

Regarding the couple Lisa and Will, upon your recommendation I can accept them as disciples, but other business of purchasing the farm that I cannot tax my brain.

Regarding the BBT and the Society corporation, yes I want this kind of umbrella corporation. But if there is any difficulty, we have got BBT already tax exempt in India. If there is difficulty in getting BBT tax exempt in USA then we have got it here. You say that the lawyer suggests that BBT be a satellite organ of ISKCON, but does that mean that BBT is separate from ISKCON or not? Ramesvara gives the hint that ISKCON may go into liquidation. I cannot think of it. But, anyway, I cannot at any cost risk BBT if ISKCON goes into liquidation. Why risk the BBT by amalgamating it into ISKCON? Therefore I want to keep BBT separate.

Or there is no need of keeping a separate BBT account. The BBT is here in India. That BBT may or may not keep an office in Japan where the majority of the books are printed. The printer ships the books to, say, ISKCON LA, who can warehouse and distribute to other ISKCON centers. BBT India issues the advice what amount ISKCON LA has to pay the printer. And ISKCON LA pays 50% directly to the printer for goods received and 50% may be deposited in the ISKCON Mayapur Vrindaban Fund, to be used for temple construction or purchasing property. In this way there is no need of keeping any separate BBT account which may be taxable. And, ISKCON LA acts as the appointed agent of BBT India. So, if ISKCON LA goes into liquidation, BBT India will not be affected. If the agent goes into liquidation, does it mean that the supplier must also go into liquidation? So ISKCON LA receives goods and pays according to advice received from BBT India.

Regarding the film making BBT has already financed the film, so the film is made, so let them sell it and finance other films. Continually it is not possible for BBT to finance. So let them sell and fiance and make films.

Regarding Spiritual sky becoming independent from ISKCON, that's all right. I have no objection. But whatever the owe to BBT must be repaid. We have already suggested that Spiritual Sky be separate, but all debts must be repaid to BBT.

Regarding the bindery, yes, if it is losing concern, then it must be sold. Who has financed the money to purchase the bindery? And who has financed the purchase of the farm for New York?

Yes, someone is definitely required for BBT in New York. We shall decide in our next GBC meeting.

Regarding the new lawyer Mr. Whitehorn, what he has informed about the other lawyer Mr. Sherman, just see. But who knows if this present man is a competent lawyer?

I hope this meets you in good health.

My Dear Radhavallabha das Prabhu,

Please accept my humble obeisances. Srila Prabhupada has requested me that you should please publish one new book of Lord Kapiladeva's teachings. The book should consist of Prabhupada's purports to Chapter 25 of S.B. #4 as well as all the lectures he has given on these verses here in the last month and a half. The title of the book should be: Kapila's (the son of Devahuti) Sankhya Philosophy.

The tapes of these lectures have been sent to L.A. via one devotee returning to Washington D.C. (4 tapes) and Bali Mardan (3 tapes). The balance of 4 tapes is with Srutakirti and he will hand them over to you in Hawaii, via Ramesvara. Prabhupada suggested that Hayagriva could edit the lectures into the purports for making this book.

I hope this meets you in good health.

My Dear Aksojananda Swami:

Please accept my blessings. I am in due receipt of your letter dated 10/12/74, and upon your recommendation I am accepting for twice born brahminical initiation Sriman Muktananda das Brahmacari. Enclosed is his sacred thread duly sanctified and his mantra sheet. Now hold a fire sacrifice, and let him hear the mantra through the right ear, and impress upon him that he is taking vows before Radha and Krishna, the spiritual master and the Vaisnavas.

I hope this meets you in good health.

My Dear Navayogendra das:

Please accept my blessings. I am in due receipt of your Diwali card forwarded to me from Mayapur. So I have received reports that you are doing nicely there in Nairobi, making Life Members daily. So you are a experienced preacher and this is to your eternal credit. If we can do something even a little thing, in the service of Krishna in this life, then it is considered that this life is a success. So you are sober, intelligent boy, you can understand our Krishna consciousness movement. Please work with continued enthusiasm, strictly following the chanting of 16 rounds daily and maya will never be able to touch you.

I hope this meets you in good health.

My Dear Gargamuni Swami:

Please accept my blessings. I am in due receipt of the photos of Vrindaban as well as your telegram reading as follows: WORK STOPPED ON KITCHEN DOLLARS EIGHT THOUSAND NEVER RECEIVED PLEASE ADVISE -GARGAMUNI.

So what I can do? Brahmananda Maharaja informs me that Jayatirtha told him on the telephone that the money was sent. So you have to check with the bank why it is not yet received. But why the work should be stopped?

I understand you are considering a property on Camac Street opposite Central Bank of India and the price is Rs. 20 lakhs. So whether the property is worth Rs. 20 lakhs? Is there sufficient land to build a nice temple there? I do not think so. Anyway, we will not move out of our present place. You are paying rent only Rs. 1100/- monthly. Our men can continue to live there, and we can construct a nice temple on this other property. What is the area?

I hope this meets you in good health.

My Dear Gopijanavallabha das:

Please accept my blessings. I am in due receipt of your letter dated October 27, 1974 and have also seen your letter addressed to Brahmananda Swami dated November 21, 1974. I never said that what Taitiriya was doing should be overlooked because of getting the buildings. Anyway where are the buildings? Bali Mardan says he will know who she is in the next 8 weeks, so just see he has made her pregnant twice, thrice, and he does not know who she is?

I was tolerating because she was to give the buildings. Bali Mardan said she was this and that, and so I believed. Anyway somehow or other they are out. This is nice. So you all have acted very sensibly. So go on with your Krishna consciousness business. Rupanuga and Kirtanananda Swami I understand are going there, so organize things nicely. We shall try to save Bali Mardan from this fall down. He is a good boy, but he has been mislead.

I hope this meets you in good health.

You do not find fault with anyone. This is the qualification. We should always think ourselves very humble and meek. This you must know.

So we have to all cooperate amongst ourselves, otherwise what will people think if we ourselves fight with one another? A devotee is always ideal in behavior.

My Dear Satadhanya das:

Please accept my blessings. I am in due receipt of your letter dated December 6, 1974 and have noted the contents. I am simply surprised how many people visited the temple on Ras Purnima and that so many Gitar Gans were distributed. I do not think so many people visited the other maths there in Mayapur.

Regarding the construction you have not mentioned anything about the gate. I want that the gate should be there. The gate should be constructed before the wall is constructed. It is very nice that the work is progressing by having a hired man instead of a contractor. This is proper method for us. Gargamuni Swami has telegrammed that work on the kitchen has stopped and that money from Jayatirtha has not come. But Jayatirtha has told Brahmananda Swami that it was already sent. So what can I do? Anyway the work should not be stopped. This is not good.

I am starting for Hawaii on this Saturday next and will return to India in late February or early March, 1975.

Bangkok

To the People of Bangkok, Thailand

Please accept my best wishes. I am sorry I am not able to come but I must remain here in Bombay for some pressing matters. So I am sending my secretary His Holiness Brahmananda Maharaja who will represent me.

The Krishna Consciousness mission is not sectarian. We want to do what the United Nations has failed to do. The human form of body is an opportunity for solving all the problems of life. Through evolution we come to the human life for solving this problem. The real problem is the repetition of birth, death, disease, and old age.

But there is another status of life where there is no birth, death, disease, and old age. The Krishna Consciousness movement is the means for promoting the human being to that status. This is a great science, and it is elaborately explained in the Bhagavad-gita.

So our mission is to give this benediction to all humanity. Let us cooperate together on this basis so that it will be a more effective United Nations, We shall be united on the basis of the prime need of human society, spiritual life.

I hope this meets you all well.

Faithfully yours,

My dear Bahudak,

Please accept my blessings. I am in due receipt of your letter dated November 21, 1974 and have noted the contents.

I am very glad to hear about your new farm-asrama existing there. We want to develop many such farms all over the world. Your are enthusiastic and intelligent and it appears that you are managing in nicely. Why not call it New Gokula instead of New Mayapur. I think that is better. It is alright that you have purchased machinery and are using on the farm but if you can do without as much as possible that is better. It sounds as if the living conditions there may be a little extreme. But if the devotees can learn to tolerate as you say they are determined, and can stay and work there that is very good. And I give all encouragement to them.

Krishna says in the Bhagavad-gita, Ch. 2, text 14; matra-sparsas tu kaunteya, sitosna-sukha-duhkha-dah, agamapayino 'nityas, tams titiksasva bharata [Bg. 2.14] O son of Kunti, the nonpermanent appearance of happiness and distress, and their disappearance in due course, are like the appearance and disappearance of winter and summer seasons. They arise from sense perception, O scion of Bharata, and one must learn to tolerate them without being disturbed. So remember Krishna's instructions in the Bhagavad-gita and continue to work with all enthusiasm and encourage the others also to do the same.

As far as you opening a local Gurukula program there, I have no objection if it can be done nicely. So consult with Satsvarupa Maharaja for further instructions.

To develop a farm community such as the one you are doing, it requires much hard work and endurance. But if you work sincerely then Krishna will give you all facilities and men. Therefore continue working and follow the good example that the devotees in New Vrndavana have set and everything will go very nicely. If you have any specific questions you can refer to New Vrndavana and they may be able to help you.

Upon your recommendation I have accepted the following as my disciples, and their names are as follows; Doug-Daksina das, Robert-Ranjita das, Margie-Madhumati devi dasi; Danny-Dharmarupa das, Sharon-Subhavrata devi dasi. Their beads may be chanted on by Kirtanananda Swami or Tamala Krsna Goswami.

My Dear Bhakta Mark,

Please accept my blessings. I am in due receipt of your letter dated nil, and have noted the contents.

It is very nice that you have met with my disciple, Visnujana Swami and you should try to remain with him and learn as much as possible about this wonderful philosophy of Krsna Consciousness from him.

In regards to your initiation it is necessary that you are recommended by one of my elder disciples, such as Visnujana Swami himself or any one of our temple presidents. If he feels you are ready for initiation he can write me a letter and recommend your initiation to me and then we will see. For now I simply request you to continue with this wonderful Sankirtana program and remain as you say in your letter,, cent per cent engaged in serving Krsna and spreading Krsna Consciousness in every way possible by mind, body and words. You can use all of your talents for spreading Krsna Consciousness. So please work closely with Visnujana Maharaja and whatever he says try to do it. And always chant Hare Krsna.

As far as the seven transcendental meters for singing the names of the Lord, that is not so important for now. Better to try to increase the purity of the chanting first, that is our most important thing.

I hope this meets you in good health.

My dear Revatinandana Swami,

Please accept my blessings. I am in due receipt of your letter dated 24, Oct. 1974 and I have noted the contents.

I am very glad to hear of your program of travelling on the West Coast preaching in the colleges and having radio interviews. This is very encouraging to hear. Actually this preaching work is the duty of a sannyasi. The more he preaches the more he becomes expert and the more the people will accept what he says. So please continue your preaching work and work cooperatively with Jayatirtha Prabhu, and Krsna will give you all facilities.

You mention in your letter that you had heard that I said that you and Syamasundara. were engaged in a conspiracy against me and that you felt very bad upon hearing this. Do not feel like that. But in London at the Vyasa Puja ceremony during the offering of flowers you, Syamasundara. and Mukunda left the room. So questioned by a devotee I might have said something like that. But forget it now. Yes, I also maintain a hope for Syamasundara.. Everyone is hoping that Syamasundara. will be able to reestablish himself in Krsna Consciousness again. I do not understand why he is engaged in this business of his if there is not any tangible profit. He says that there is big, big money but still he has not yet paid ISKCON the debt that he has. Therefore what is this business.

I request you to continue following all of the regulative principles staunchly and encourage all other of my disciples in your preaching area to do the same. This is the most important thing. As soon as one discontinues his staunch following of the regulative principles such as no meat eating, no illicit sex, no intoxication, no gambling, rising early before 4:00, coming to mangala arati, chanting at least 16 rounds, etc., then his spiritual life is hampered and there is a chance that at any time he may become a victim of maya. Continue with great enthusiasm this preaching work and inform me from time to time of your current activities. I hope this meets you in good health.

My dear Tribhuvanatha,

Please accept my blessings. I am in due receipt of your letter dated Nov. 15, 74 and have noted the contents carefully. I was very happy to hear of your Hare Krishna Festival program and that the response has been so wonderful. Simply by giving people a chance to hear this wonderful Hare Krsna mantra and Krsna's philosophy as stated in Bhagavad-gita, so many people will become interested and actually they will join us. The poster you have enclosed is very nice and attractive. So continue this program of Hare Krsna Festivals all over the United Kingdom and in this way attract people to Krsna Consciousness. Work nicely under you GBC's direction and always keep yourself strictly following all of our principles without deviation.

As far as taking Deities to the programs that sounds like a very nice plan. But if you want to take the Deities permanently on your party there may be difficulties because you have to maintain Them nicely. So you can discuss this with Hamsaduta and see what he thinks.

I am planning to come to England in April-May. So I will see you then. I hope this meets you in good health.

Letter to: Durgesh

Bombay 16 December, 1974

74-12-16

Southall, England

My dear Durgesh,

Please accept my blessings. I am in due receipt of your letter dated Dec. 12, 1974 and have noted the contents carefully.

Thank you very much for your sentiments. It appears that you have understood our philosophy very nicely, and that is a great boon for someone who is as young as yourself. The perfection of human existence is to somehow or another develop Krsna Consciousness and the sooner that one can develop his Krsna Consciousness the better. Not that I will wait until I become old man, then I will become spiritually advanced. No, it is better if one starts immediately. So there is no question of your discontinuing your efforts in Krsna Consciousness. By all means you should continue practicing Krsna Consciousness everyday. But that does not necessarily mean that you have to move into the Temple immediately. It is also important to get some education. So for some years you should remain studying in school. But on the weekends with your parents permission you can go to the Temple and stay there but do not fall behind in your school work. And everyday you should follow the Krsna Conscious principles that our devotees in our temples follow which means rising early, chanting 16 rounds, eating only Krsna prasadam, no meat, fish or eggs, no illicit sex life, no gambling and no intoxication. This is the process. So follow it strictly and at the same time learn some practical knowledge from your school studies. And then later it may be more appropriate for you to join our temple as a full time brahmacari. But in all circumstances always chant Hare Krsna. That is a must. In the Bhagavad-gita it says; tesam satata-yuktanam, bhajatam priti-purvakam, dadami buddhi-yogam tam, yena mam upayanti te, [Bg. 10.10]. To those who are constantly devoted and worship Me with love, I give the understanding by which they can come to Me. So do not be in distress. Simply try to engaged yourself constantly in devotional service and develop your love for Krsna. And in this way Krsna will give you all facilities for coming to Him.

I hope this meets you in good health.

My dear Jayatirtha,

Please accept my blessings. I am in due receipt of your letter dated Dec. 5, 1974. Regarding the GBC meeting to be held in Mayapur 1975, the meeting should be held five days before the actual festival is to begin and it will be held in my presence. As far as your proposals are concerned the real thing is that we must make broader constitution of the management by GBC. But the difficulty is that our GBC men are falling victim to maya. Today I trust this GBC and tomorrow he will fall down. That is the difficulty. If the GBC men are so flickering then what to speak of the others. Unless this problem is solved whatever we may resolve it will not be very useful. We shall discuss this at our meeting. If the GBC men can ever manage properly then I shall get some time for writing my books.

I hope this meets you in good health.

I am always happy to hear of the wonderful activities of spreading Lord Caitanya Mahaprabhu's sankirtana movement. Your activities are very pleasing. Going door to door, person to preach the message of chanting Hare Krsna is actually the yuga dharma for this age. In other yugas there are different processes for self-realization but in kali-yuga the real method is simply chanting Hare Krsna and trying to encourage everyone else to do the same. So your program is perfect. It is very nice that you are also making so many new devotees. This is the fruit of our activities. Dear Sri Mohan Mazumdar,

Please accept my greetings. I beg to acknowledge receipt of your letter in Bengali dated 10.12.74 and have noted the contents with care. Regarding your proposal for preparing a film on the life and precepts of Sri Caitanya Mahaprabhu, I am ready to help with my men but it is not possible for me to make the financial help. If you can arrange with some film studio men for direction and photographic handling etc., my men are ready to help you in this connection, at any time. Also I shall be glad to give direction. This is all possible in Los Angeles but you have to arrange all these things. I have previously instructed you to contact some film producer company in Los Angeles, but I do not know if you have done so. So I still stick to my word as I earlier said to you. You can arrange but I think it will cost huge amounts of financial assistance, of course our service is free, but for other things you have to arrange for financial balance. Anyway I am always ready to help in the above mentioned ways. But one thing I shall advise you, if there is a difficulty for financial arrangement you can drop the idea. Now you are old, 60 years old, better retire from all enterprising activities and devote yourself fully for developing Krishna Consciousness. That will not cost you any financial assistance at all. You can live with us anywhere in the world and along with our devotees gradually you will learn all devotion activities. And if you desire you can translate our English books into Bengali language. You are already reading our Nectar of Devotion and if you like this idea you can translate this Nectar of Devotion immediately into Bengali and send me some copies of the translation so I can see how you have done.

For the time being I have postponed my journey to Honolulu. Maybe I will be going to Australia by mid-January 1975.

I hope this meets you in good health.

Dear Mr. Quinn,

Please accept my blessings. I am in due receipt of your letter dated Nov. 1, 1974, and have noted the contents. Thank you for your kind sentiments. You are a very fortunate person that you have come into contact with our Krsna Consciousness movement. The perfection of human life is to somehow or another advance in spiritual life and achieve love of Godhead and go back to Godhead, back to home. The animals and lower forms they can not achieve this perfection of life. So in this human form of life we have to consider ourselves very fortunate and take advantage in this human form. Because in the next life we don't know what kind of body we may have; maybe dog, maybe pig, maybe tree, maybe fish. So we must take advantage of this human form of life. My recommendation to you is that you somehow or another put yourself in a situation so that you may have as much association with our devotees as possible. Either remain in the temple or visit the temple frequently with your family. If you continue to read our books very carefully and try to understand our philosophy very deeply, this is nice. Also it is a must that you chant Hare Krsna at least 16 times daily on your beads and follow all of the regulative principles that we have given. If there are any questions on these points you can discuss with Jagadisa Prabhu in Toronto or any of the devotees in Toronto.

I hope this letter meets you in good health.

My dear Rupanuga,

Please accept my blessings. I am in due receipt of your two letters dated Dec. 4, 1974 and Dec. 16, 1974 and I have noted the contents very carefully. I was very much relieved to hear all of the good reports coming from you about New York and I thank you very much for seeing that everything is going on nicely there. As you mention in your letter that the United States is probably the most fertile preaching ground in the world and that the East coast is the best out of that, therefore our New York city temple is an extremely important center and the standard of purity in Krsna Consciousness must be maintained there by all means. If somehow or other we can convince the majority of the United States population to take to Krsna Consciousness then the whole world will become Krsna Conscious. This is a fact. The United States is the leader of all other nations. You simply educate the people in this Krsna Conscious philosophy and then there will be no difficulty in capturing the government. In your country there is very good system of democracy. As we have seen just recently the people, as the common people have so much power, that they were able to get down this Nixon, who is obviously a rascal. So if we can simply convince a good majority of persons then they will automatically want a Krsna Conscious leader. And if there are Krsna Conscious leaders in the government then they will act as Krsna's representative and will be able to save the world from the disastrous condition of life. At the present moment there is nothing but great calamity but by injecting Krsna Consciousness into the masses we can change this situation greatly. Because New York is such an important center we must have a very good building. Therefore I want that you somehow or other get this New York Theological Seminary building at once. From the photographs it appears very big and capable of satisfying all our needs. And according to your letter it is an excellent location. And we can arrange for the money. So there is no difficulty. Try to get it as soon as possible. This will be very pleasing to me.

Your sankirtana reports are very encouraging, especially that one girl, Gauri dasi, who has set an all ISKCON women's record of 108 big books. This is very wonderful. Formerly this would have been considered impossible, but now by Krsna's grace everything is becoming possible. Encourage them all to increase more and more. Now Tripurari Prabhu is there and he can train the others. This book distribution is the essence of our mission.

Our farm projects are an extremely important part of our movement. We must become self-sufficient by growing our own grains and producing our own milk, then there will be no question of poverty. So develop these farm communities as far as possible. They should be developed as an ideal society depending on natural products not industry. Industry has simply created godlessness, because they think they can manufacture everything that they need. Our Bhagavad-gita philosophy explains that men and animals must have food in order to maintain their bodies. And the production of food is dependent on the rain and the rain of course is dependent on chanting Hare Krsna. Therefore let everyone chant Hare Krsna, eat nicely and keep their bodies fit and healthy. This is ideal life style. We do not condemn modern civilization but we don't like to get it at the cost of God Consciousness, that is suicide. Your farm in Pennsylvania sounds very nice. As far as Bali Mardan beng involved with the management he will have nothing to do with that. The two men you have appointed, Paramananda and Devakinandana Prabhus, are both capable and experienced men from New Vrndavana and I am sure they will manage everything very nicely there.

What do you think of exporting nice United States cows such as the ones you have there and in New Vrndavana to India so we can raise them in our Vrndavana and Mayapur projects and provide nice milk? Is it possible?

This isolation that has been imposed on the New York temple that you speak of is not good and it should be dissolved. Your program of travelling to the nearest temples is a good program. You should continue that. Our GBC members should always visit the different temples to see that everything goes on well, and to see that the management is being done very nicely.

In connection with the devotees coming to India for the Mayapur festival in 1975, if they come on the 20th of March that is alright. Our installation for the Krsna-Balarama Mandir in Vrndavana will be on April 20th so the devotees should get visas that will allow them to stay until this installation ceremony takes place in April. I think if you make a special request to get these visas explaining about our two very important festivals that there will be no difficulty and they will give them. But I want that the devotees will stay until the temple in Vrndavana opens.

Your idea about Gopala Krsna going to L.A. to see how things are going, for a week, is a good idea. He can do that. But I do not want him to give up his job. If he could manage Spiritual Sky without giving up his job, that would be one thing, but I don't want him to lose that job. And your second suggestion about him coming to India for GBC business that is also a very welcome idea. He is fully capable and qualified for being GBC of India. But I want him to maintain his job for now anyway. Immediately although, you can make him one of the GBC men. His name can be added to the list. We can decide about the idea of him coming to India at our next GBC meeting in Mayapur. You asked in your letter whether Gurudasa Prabhu is authorized to collect money from US temples for Vrndavana project. No, he is not authorized to do this.

In regards to the $180,000 that was received in discounts. That money should be reinvested in printing books.

New York is now saved from the hands of this woman. Unfortunately it has victimized our Bali Mardan. He is a very nice boy but somehow or another he has become victimized by this woman. I do not know how he could be victimized by such a woman who is of mothers age. Somehow or another we must save Bali Mardan as he is very much attached to this woman.

You mention that in our Buffalo project that Saptaratha Prabhu is there making nice doll display for the temple. You should tell him that others should also learn from him how to make these dolls. We have to make these doll displays for all of our temples all over the world, on all different subject matters, from the scriptures. It is a very nice way of attracting all people especially in the West.

Please continue as GBC there in New York and make sure that everything is going on in a fully Krsna Conscious manner. Everyone should be engaged and everyone should be staunchly following all of our principles. We must pray to Krsna to save us from the attack of so many bad elements.

I hope this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear Bahudak,

Please accept my blessings. I beg to acknowledge receipt of your letter dated Dec. 3, 1974 and have noted the contents.

The pictures of your newly installed Deities are very very nice. And you can name them Sri Sri Radha-Madan Mohan. The Deity worship should be done very carefully and nicely. Sri-vigraharadhana-nitya-nana, srngara-tan-mandira-marjanadau, yuktasya bhaktams ca niyunjato'pi, vande guroh sri-caranaravindam **. You should make sure that there is nice arati program; six arati daily at least. You should make sure that there is nice fresh, clean dress every morning, nice bathing ceremony every morning, nice offerings of prasadam. You should see that the Deity is tended for and cooked for only by the duly second initiated brahmanas. The Deity should have nice flowers everyday etc., etc. You should try to bring Them up to the highest standard, such as we have in Los Angeles or New Vrndavana. Sri Sri Radha-Madan Mohan have kindly descended in Their arca vigraha form now you must receive Them with that consciousness. And by serving Them you will all develop pure love of Krsna.

Thanking you for helping me in my mission. Occasionally send me report of how things are going on there. I hope this meets you in good health.

My dear Vipini das,

Please accept my blessings. I am in due receipt of your letter dated December 7, 1974 and have noted the contents carefully.

I have received your check for $200.00 and appreciate it very much. As far as your engagement is concerned I think it is most appropriate for you to consult with the GBC men. But one thing that everyone should understand is that I am not so interested in selling incense as I am in selling books. Distribution of my books is the most important thing. These other things such as selling incense, records etc., are not so much important as this. If Spiritual Sky is a separate concern then what is the need of our own men who are capable preachers to be engaged in that way. I want that my books be distributed in huge quantities, and thus we will be able to thoroughly convince the majority of the population especially there in America. But finances are also needed. Therefore for further direction you please contact the GBC men and they will give you consultation. The more one preaches the more he becomes expert and the more he is able to convince others.

Concerning your marriage ceremony that is to be sanctioned by the temple president or GBC.

I hope this meets you in good health.

My dear Jayadvaita,

Please accept my blessings. I am in due receipt of your letter dated December 1l, 1974 and have noted the contents carefully.

Yes, in the future you should make sure that all the books, no matter what size or color, have the words Bhaktivedanta Book Trust under the logos. Whether it is clear or unclear it should be there.

Yes you are correct, when one associates with one who is in illusion or mislead naturally he will also become influenced by that illusion. So you must pray to Krsna to protect you from such bad association. Do not forget our most important business which is to develop pure Krsna Consciousness by following our strict regulations and Vaisnava standards, and always be engaged in service. Yasya prasadad bhagavata-prasadao, yasyaprasadan na gatih kuto 'pi, anyway by Krsna's grace everything is going on there very nicely. So you are one of the officers there, please continue working very enthusiastically and setting a good example for others.

I hope this meets you in good health.

Dr. Santosh Kumar Dept. of Medicine McMaster University St. Joseph's Hospital Hamilton, Canada

Dear Mr. Kumar,

Please accept my greetings. I am in due receipt of your letter dated 18, November 1974. I thank you very much for your kind appreciations of our movement. Actually this Hare Krsna Movement is going all over the world, because the message of Lord Krsna, the Supreme Personality of Godhead, is spoken. I am just like a peon carrying the message of Lord Krsna and Lord Krsna's message, being perfect, it will be appreciated everywhere in any part of the universe. So far others are concerned, as you spoke of Satya Sai Baba, he wants to claim himself as Bhagavan, unfortunately. He can not give any faultless message. The definition of Bhagavan is given in the sastras as one who possesses six kinds of opulences. Nobody is greater than Bhagavan, Krsna. Therefore if we take Krsna's message we will actually be benefited, otherwise not. It will be partial and insufficient. In reply to the last part of your letter I request you to understand properly the message of Bhagavad-gita and other Vedic literatures. You are an educated Indian. According to Sri Caitanya Mahaprabhus order every Indian should learn properly the Vedic conclusion and preach all over the world. That is the best welfare activities. You can be very much help to our present activities, so you can be better than others invited from India. I request you to read our books and whenever you find difficulties you can ask me for clearance and it will be my duty to serve you. I thank you once again for your very kind appreciation of our Hare Krsna Movement.

I hope this meets you in good health.

My dear Gopijanavallabha,

Please accept my blessings. I am in due receipt of your letter dated Nov. 24, 1974 which was sent to Hong Kong.

I think by this time all of your questions in your letter have been answered. I am very anxious to get that building in New York City. Rupanuga has given photographs as well as floor plans in his most recent letter. I like it very much, so I want you to immediately take it. As far as the $300,000 down payment I don't think there will be any difficulty with that. Keep me informed on this matter as the negotiation has already begun. So you along with Rupanuga keep the atmosphere there very pure by holding regular classes, having morning and evening arati and kirtana programs and ensuring that everyone chants their 16 rounds and follows the four regulative principles without fail. And try to increase my book distribution as much as possible.

I hope this meets you all in good health.

My dear Hrdayananda Maharaja,

Please accept my blessings. I am in due receipt of your letter dated Nov. 27, 1974 with enclosed Spanish BTG and have noted the contents very carefully and looked through the new Spanish BTG. This new BTG is done very nicely. The printing is very beautiful and I thank you very much for doing such a nice job. I am very glad to hear you have printed 100,000 copies of this magazine. Now give them to everyone. Also I am very happy to hear the other books will be coming out very soon. If you can finish Bhagavad-gita As It Is in Spanish and show me at the Mayapur festival that will be very sublime. Please print as many books as possible, this is my real pleasure. By printing these books of our Krsna Conscious philosophy in so many different languages we can actually inject our movement into the masses of persons all over the world, especially there in the western countries and we can literally turn whole nations into Krsna Conscious nations. Thank you for representing me there in LSS by stressing the importance of attendance to the morning and evening programs and following all of the spiritual practices. This is wanted. Without these things there is no devotional life. And by your example many others will also become strong.

Regarding my coming to Mexico City and Caracas, yes I want to come there very much. Now we are in Bombay trying to get permission from the government to build our temple. And it appears that we will possibly be getting the permission next week. If this works out then I will immediately be going to Honolulu and from Honolulu I can go directly to Mexico City, then Caracas, and then to Australia by the end of Jan. If the Bombay situation is not settled up I may have to stay till mid-Jan. or so and then in mid or end of Jan. I will be going to Australia to stay for one month. After Australia we had planned to go to S. Africa for two weeks, but if this does not work out then I could come to Mexico City and Caracas at that time. Anyway I will let you know as soon as our plan becomes definite. I am always anxious to hear your reports of new book publications and sales.

I hope this meets you in good health.

My dear Ramesvara,

Please accept my blessings. I am in due receipt of your telegram dated Dec. 17, 1974 reading as follows; "Great success, book sales for weekend of Dec. 13 thru 15. Tripurari BBT Party 1346 big books, L.A. 1002 big books, N.Y. over 950 big books, Atlanta Airport over 650 big books, in one day. Distribution definitely doubling in USA, Hare Krsna, Ramesvara" This kind of wonderful news is very pleasing to my heart and I thank you all again and again. I think this is the first time in history that ever before so many religious books have sold so popularly. Four thousand books in one day is a very unique figure. Keep distributing as many as possible in huge quantities. This is my pleasure. We must make a large propoganda program for Krsna Consciousness by distributing these books everywhere, all over the world. Just like the communists they are very expert in distributing their literature, their propoganda. At the present moment they are distributing their literature here in India in nine different languages and it is quite effective. Therefore we must print hundreds and thousands of books and distribute them at the same speed and thus we will have a great effect on the mass population of Europe and America. If we can get the masses in the Western countries like Europe and America to become Krsna Conscious, then all the rest of the world will follow. That is a fact. So please, I beg you, continue distributing my books in this way and Krsna will pour His blessings upon you all. Please keep me informed from time to time of the book sales statistics.

I hope this meets you in good health.

Government of India Nuclear Physics Division Bombay

Dear Sri Raghava Charyulu,

Please accept my greetings. I beg to acknowledge receipt of your letter dated 7th Nov, 1974 addressed to my Los Angeles headquarters. I was so much pleased with your interesting letter and I wish you will understand more and more through your learning of mathematics and physics about the intricacies of God's creation. It is the duty of a learned scholar to glorify the Supreme Personality of Godhead by his talent of knowledge, austerity, penance, etc. Why one should become great mathematician? What is the perfectional stage? That stage is when he describes the glories of the Lord by utilization of his talent of education. So I request you to observe more and more the cosmic manifestation; how it is created by the energy of the Supreme Lord. Actually by the evolutionary process when a living entity comes to the status of human life it is his duty to solve all the problems of life. The chief problems of life are collectively birth, death, old age and disease. Bhagavad-gita gives information how to solve these four problems. It is the essence of all Vedic knowledge presented by the Supreme Personality of Godhead, Krsna. I am so glad to learn that you have taken so much interest in my book, Bhagavad-gita As It Is. I shall be staying in Bombay up till mid-Jan. and I wish to cordially invite you to see me at your convenience. Generally I can be seen between 5 and 7 p.m. Thank you once more for your interesting letter.

I hope this meets you in good health.

My dear Dr. Ghosh,

Please accept my greetings. I beg to acknowledge receipt of your letter dated 15th December, 1974 and have noted the contents. I thank you for your kind appreciations. Our movement actually has been predicted by Sri Caitanya Mahaprabhu. He said that in every town and village all over the world His name would be heard and it is actually happening. Our centers are developing so nicely even in the Muslim countries and countries where Buddhism is the major religion. That proves that this Vaisnava, Sanatana Dharma is not some sectarian philosophy. It proves that what Krsna speaks in the Bhagavad-gita is universal and is applicable to anyone and everyone throughout the world. Therefore they are actually accepting and they are taking to our restrictions. They are chanting Hare Krsna and learning Srimad-Bhagavatam and therefore their lives are becoming happy. I am simply trying to repeat the words of Sri Krsna without any adulteration or twisting and I have full faith that by doing so His message will become well-known throughout the world. Now our books are being so much accepted throughout the universities and colleges as well as amongst the general mass of people. It is really astounding. We are selling literally thousands and thousands of full sized volumes of Srimad-Bhagavatam everyday, in different parts of the world. I am glad that you enjoyed our article in the Bhavan's Journal.

You are cordially invited to come and visit us anytime here in Bombay at your convenience. I am planning to stay in Bombay until mid-Jan. and then I shall go to Australia.

Letter to: Sri Srinivasan

Tiruchy Junction 1, India
Dear Sri Srinivasan,

Please accept my greetings. I beg to acknowledge receipt of your letter dated 19-12-74 and have noted the contents. Your life will become perfect if you can engage yourself fully in the devotional service of Sri Krsna. As stated in your letter now you are retired from your job and your daughters are getting married. This means that your grhastha life is almost finished. Therefore, according to Varnasrama Dharma you should spend the rest of your life simply engaged in there devotional service of the Lord. It has been the ancient custom that the man in the later years of his life, usually after the age of 50, prepares to leave home and takes the order of vanaprastha, taking pilgrimages to different holy lands. Then eventually he may take sannyasa, the renounced order of life, with no connection with family whatsoever. This is actually necessary as it is recommended by Sri Krsna Himself. So you have asked my advise and I think the best thing is for you to either go to our Vrndavana center or our Mayapur center or our Bombay center and live there for the rest of your life, chanting Hare Krsna, feeling the bliss of being fully engaged in the service of Sri Krsna. By association of devotees and eating Krsna prasadam, constantly engaged in the service of the Lord you will become purified from all unwanted things and it will be very easy for you to absorb yourself in thoughts of the Supreme Lord only. Then when it comes time to leave your body at the end of life you will go to Krsna. You will not have to take another birth in this material world. But you will go to the spiritual world, the Vaikuntha world. I was also grhastha but now I am sannyasi. As grhastha I was thinking it would be very difficult to leave my householder life and take up preaching full time. But actually it has become very easy by the grace of Sri Krsna. Now there are no difficulties. So I recommend that you also take up this life. Now that your household duties are more or less finished I think this is your best alternative. All great previous personalities such as Arjuna and the Pandava brothers, Maharaja Rsabhadeva, King Bharata, so many great kings and great saintly persons all finished the last part of their lives living as mendicants, sannyasis. Therefore following in the footsteps of the authorities we should understand the Supreme Lord Sri Krsna. If there are any difficulties concerning my request to you to leave your home then if you like you can write me for further advise and it will be my duty to serve you in this way.

I hope this meets you in good health.

London

My dear Malati,

Please accept my blessings. I am in due receipt of your letter dated 21, Dec. 74 and have noted the contents carefully. I want you to stay there in London. This is my order. Hamsaduta cannot make you leave. If necessary you can show him this letter. To prove that your Guru Maharaja wants you to stay there and execute your devotional service in London.

Concerning that remark by Himavati about your being guilty because you are the wife of Syamasundara. who has done horrible things, therefore you must suffer, that is not a fact. Your husband has done nothing horrible. Maybe he has made mistake but he has not done anything horrible.

I have asked Brahmananda Swami to go to London as soon as possible from Hawaii and investigate the situation there. I am very concerned about this problem and I hope Brahmananda Swami will be able to clear things up there. When he comes you can inform him of what has happened there.

If your husband, Syamasundara. is not even keeping correspondence with you how can we know what is his position. Please try to advise him to return the money he owes as soon as possible. Chant 16 rounds, follow all of our regulative principles then everything will be alright in a very short time. I am hoping he will do like this. So you please continue your devotional service, cooking etc, and you can also keep giving Bhagavatam class if you like. Women in our movement can also preach very nicely. Actually male and female bodies, these are just outward designations. Lord Caitanya said that whether one is brahmana or whatever he may be if he knows the science of Krsna then he is to be accepted as guru. So one who gives class, he must read and study regularly and study the purport and realize it. Don't add anything or concoct anything, then he can preach very nicely. The qualification for leading class is how much one understands about Krsna and surrendering to the process. Not whether one is male or female. Of course women, generally speaking are less intelligent, better she has heard nicely then she will speak nicely.

I hope this meets you in good health.

Coconut Grove, Florida

My dear Yadubara,

Please accept my blessings. I am in due receipt of your letter dated Dec. 16, 1974 and I have noted the contents carefully.

I just saw your film last night and it was very nice. We can collect a lot of money with this film, for ISKCON Food-relief program. But not a single farthing of that money should be used for any other thing. It should all go to our ISKCON food-relief fund, nothing else. Otherwise we will definitely run into trouble, such as Hamsaduta has in Germany.

As far as your future films are concerned I do not think it is possible for the BBT to continue financing these films. BBT is strictly for construction of temples and printing books. My idea is that you can use the original capital that BBT gave you. You don't have to pay that back. You can somehow or another, by business tactics increase that capital and employ it again to make a new film. Then again use the capital from that film or use the profit from that film to create another film, etc. In this way you can make many films. But I do not think that BBT should finance it. These films are very nice and they can be effectively used for our preacing work. Generally people enjoy seeing any film. But when a film has something substantial such as our Krsna Conscious philosophy to offer then it becomes a real pleasure. Therefore our films should be the most popular films ever produced. Try to distribute this and your original first film as widely as possible and in this way the finances will be easily obtained for producing further films.

Please continue chanting 16 rounds daily, rising early, attending mangal arati and classes, and following the 4 regulative principles. By following this simple formula as I have given from the very beginning your life will be completely free from anxiety.

I hope this meets you in good health.

My dear Durgesh,

Please accept my blessings. I am in due receipt of your letter 10-12-74 and have noted the contents carefully.

It has been recommended to me by the leaders in London that you should move into our temple as a permanent brahmacari and that your father will allow it if I also recommend. After studying your letter carefully and seeing the devotion and sincerity that you possess I am also very much in favor of your staying at our temple as a brahmacari. In my previous letter I had said that you could go to school during the week and live in the temple on the weekends. But I did not know how serious and determined you were to become Krsna Conscious. Someone as determined as you should be given facilities to spend cent percent of his time in Krsna Consciousness. Therefore I would be very happy to see you living in the temple, following all of our principles of pure life and becoming an expert scholar in Vedic knowledge, through studying my books diligently. This is real education. The so-called education that they are teaching in the schools and universities today is simply useless knowledge which is all based on atheistic and speculative theories. The teachers themselves are following no real authorities in wisdom neither do they set any good examples for their students. By going to school today there is always the danger through bad association of becoming entangled in so many unwanted things such as illicit sex, intoxication etc. Therefore definitely the best thing for you is to live in our temple in London. Please request your father on my behalf to let you do this. If there is any hesitation on his part please request him to write me and I will try to clarify things. If you go to live at our temple, because of your age, you should have a written statement from your father showing that he has given permission. Then authorities will not think that you are a run away.

I hope this meets you in good health.

My dear Gopijanavallabha

Please accept my blessings. I am in due receipt of your telegrams dated the 23rd and 24th of December and have noted the contents which reads as follows "WE WOULD LIKE TO INTIMATE THE FOLLOWING QUALIFIED DEVOTEES FOR ABHISEKA CEREMONY JANUARY 1 DOUGLAS CURRIE FRANK NATALI GABRIEL FRIED BHARAT JAGERNAUTH ORVILLE GRIFFITH PAUL HERSHEY TAB MATTLER KAREN SILVERSTEIN KATHY MCGUIRE PAULA GENSTSCH FOR SECOND BHADRA SEN LOKA MANGALA SADACARA TIRTHAPADA ALARKA DUKHAHANTRI HARANETRANI THEY HAVE ALL WRITTEN NICE PAPERS RUPANUGA CAN CHANT BEADS IF PRABHUPADA AUTHORIZES PLEASE WIRE NAMES AND AUTHORITY FOR 7 BRAHMANAS CAN ALL INTIMATED DISCIPLES POUR WATER ON SMALL DEITIES AT ABHISEKA AS IN LA YOUR SERVANT GOPIJANA BALLAVA DAS" "PLEASE INCLUDE BHUMI DASI AND MATSYA DAS FOR SECOND INITIATION GOPIJANA BALAVA DAS."

I have answered your telegram also by telegram but I am confirming with this letter and also enclosing threads and mantra sheets for the second initiations. I have accepted as initiated disciples for first initiation the following; Douglas Currie-Darpaha, Frank Natali-Pravartaka, Gabriel Fried-Gopisa, Bharata Jagernauth-Bhtadi, Orville Griffith,-Arcita, Paul Hershey-Paramaradhya, Tab Mattler-Taraka, Karen Silverstein-Kamra, devi, Kathy McGuire-Kamalini devi, Paula Genstsch-Parasakti devi. Their beads should be chanted on by a sannyasi preferably Kirtanananda Swami if he has not already done so.

I have accepted the following for second initiation Bhadra Sen, Loka Mangala, Sadacara, Tirthapada, Alarka, Dukhahantri, and Haranetrani. Also Bhumi dasi and Matsya das.

I hope everything is going nicely there. Always keep yourself engaged in Krsna's service and maya will never attack.

My dear Hamsaduta,

Please accept my blessings. I have just received one letter from Tamala Krishna Goswami which is very encouraging regarding his preaching program in the United States. He has requested to take a loan from BBT for $30,000 to purchase three more buses. I fully authorize this. Therefore please do the needful. Fifty percent of BBT funds ar for printing books and fifty percent are for construction of temples. So these buses are like temples, moving temples. Therefore you should give him the loan.

My dear Hrdayananda Maharaja,

Please accept my blessings. I am in due receipt of your letter dated December 17, 1974 and have noted the contents carefully. Also I have received the books newly printed in Spanish language; Krsna, vol. 1, Beyond Birth and Death and the new Spanish BTG. The printing job is done very nicely. I hope to see many, many more of them coming in the future. Especially as you mention in your letter, Bhagavad-gita complete by the Mayapur festival this year. That will be very nice.

It is very good that people are pleading for devotees to come in Brazil. You should send some competent men there to help direct them and establish two centers there if possible.

As far as my coming there is concerned, I can come immediately. And the programs that you mention in your letter would be very nice. Try to arrange many such programs with all different kinds of respectable gentlemen, philosophers, scholars, educationalists, etc. We will be coming by way of London where we will probably stop for a few days. Also we will be stopping in Bermuda on the way from London to Mexico City for one or two days to have a program there if it can be arranged. In this connection we have contacted Rupanuga das. One telegram has already been sent to you to inform you of this and to request tickets immediately. If you have not sent the tickets as of yet please send them without delay. The tickets should be sent to the Quantas office in Bombay. They should be Bombay to London by Quantas Airlines, London to Mexico City by British Airways or Quantas if possible, via Bermuda and Nassau. The tickets should be open so that we can make reservation as is necessary according to our schedule. The tickets should be made out to A.C. Bhaktivedanta Swami, Paramahamsa Swami and Neal Gorton Delmonico. Three tickets are required. If you wire them to the Quantas office in Bombay it will only take a few days. If you can arrange nice programs in Brazil then I will also be very pleased to go there. It sounds as though the people there are very eager for Krsna Consciousness. So let us have a program there also.

Thank you again for printing so many nice books. Continue distributing them in huge quantities and Krsna will shower His blessings.

I hope this meets you in good health.

My dear Jayatirtha,

Please accept my blessings. I have received your latest receipt from Bank of America dated 15, November, 1974 confirming $4235.43 that was sent to the Punjab National Bank in New Delhi. But I have not received as of yet any statement from them, indicating that the money has come. I have written them for that statement. Gurukrpa has deposited $63,752.54 to Dai Nippon under Credit note no. 134, dated December 19, 1974. Kindly animate this amount to Bank of America, International Society for Krishna Consciousness, Mayapur-Vrndavana Fund, account no. 16026 in Bombay.

I am enclosing one letter from Urdhvareta das to you and I request you to look it over very closely, make copies and present its proposal to the different GBC members. Ask them to send their opinions to you. Then please summarize these opinions and send them to me. Then I can decide on this matter.

Thank you very much for installing the very nice Radha-Krsna Deities in Denver which I have named Sri Sri Radha-Govinda. The photographs which I received from the installation where very, very beautiful. I appreciated them very much. So do like that in every village and town. The matter is in the American hands. It must go on very nicely. That is my desire.

My program is now to go to Mexico City and S. America on invitation from Hrdayananda Goswami. I will probably be stopping over in London on the way. I should arrive in Mexico City a little after mid-Jan.

I hope this meets you in good health.

My dear Panca Dravida Maharaja,

Please accept my blessings. I am very interested to know how the program in Bangkok is going. I have just written Trivikrama Maharaja in Hong Kong that you and he can work cooperatively together and maybe arrange some big programs in Hong Kong, and you can go there, or arrange big programs in Bangkok and he can come there. Anyway you are both very near so this may be beneficial for both of you. Please make sure that you and your assistances are keeping yourselves fit in Krsna Consciousness by chanting 16 rounds daily and following all the principles very strictly, holding classes, rising early etc. Then the program there will be sure to be successful.

My dear Parvati,

Please accept my blessings. I am in due receipt of your letter dated Dec. 21, 1974 and have noted the contents carefully.

Thank you very much for trying so hard so many times to send me milk sweets, like sandesh, etc. Unfortunately this last time they went bad on the way here, therefore they were not in offerable condition. The fact that you have offered them to me is what counts. Not so much whether I have personally eaten them or not. So thank you for your sincere efforts in pleasing me. Under all circumstances you must remain in the association of devotees. Do not let yourself fall out of this association. Even if it is very difficult and there may be many problems or disagreements still simply by remaining in the association of devotees and follow our regulative principles, chanting 16 rounds, rising early etc., you will become purified. If you leave the association of devotees to follow these regulative principles will be very difficult. Therefore stay in the association of devotees and continue making nice milk preparations for the Deities. And when I come there this spring I will be glad to accept them three times a day.

I hope this meets you in good health.

Letter to: Trivikrama

-

Bombay 27 December, 1974

74-12-27

Hong Kong

My dear Trivikrama Swami,

Please accept my blessings. I have just received one telegram from Brahmananda Swami. He said that there is one Chinese initiated devotee there who is giving money and has already translated three chapters of Bhagavad-gita. This is very wonderful. You can immediately print those first three chapters of Bhagavad-gita into a book. And let him translate three more chapters and then print that into a book. Then three more etc., etc. In this way we can introduce our Bhagavad-gita As It Is in Hong Kong also. He also stated that the temple can be maintained by the Indians. That is good. Let them give some donation for Krsna's service and gradually they will also become Krsna Conscious. Brahmananda Swami seemed to think that you need more men there. His telegram reads, "Trivikrama alone, more men required urgently." I do not understand what he means by alone. What is this alone? Vaisnava is never alone. When I first came to the United States I was seemingly alone for one year. But I never felt alone. I always felt the presence of my Guru Maharaja. Myself, I was cooking, I was printing books, I was selling books, everything seemingly alone. But I did not lose my determination. Actually you should know this, you are never alone. So local men are coming daily. By good association, good preaching, nice prasadam etc., they can all become devotees. This is Lord Caitanya's mission to go to every town and village and create Vaisnava spirit in the local men. I have also sent one letter to Pancadravida Swami in Bangkok that his party can come there sometimes for big programs if you can arrange. Keep in touch with them. Their address is; Pancadravida Swami, c/o D.H. Carturchand, 238 Samteng St. Bangkok, Thailand. Please keep yourself strong and fixed up in Krsna's service by following all of our regulative principles, chanting 16 rounds daily, rising early, attending mangala arati and attending classes. I hope this meets you in good health.

Bombay 28 December, 1974

Evanston

My dear Sons,

Please accept my blessings. I am in due receipt of your letter dated December 6, 1974 and have noted the contents carefully.

Krsna says in the Bhagavad-gita, chapter 18; sarva-dharman parityajya, mam ekam saranam vraja, aham tvam sarva-papebhyo, moksayisyami ma sucah [Bg. 18.66]. So why you want to worship someone else. Krsna, Himself, recommends mam ekam, he alone. Therefore we must do like that. If one wants to water the tree he waters the root. There is no necessity of watering the branches. The demigods are all different parts of the universal form of the Supreme Lord. But Krsna is even more than that whole complete universal form. He is the origin of that universal form. Therefore I do not encourage you to worship this demigod, Ganesa. It is not required, it is not necessary. Simply worship Krsna. Perform nice devotional service to Krsna. Then your lives will certainly become perfect. Of course if one has got some sentiment for achieving the blessings of Ganesa for accumulating large sums of money to serve Krsna, then he may perform this Ganesa worship, privately, not making a public show. But first of all he must give me $100,000 per month. Not a single farthing less. If he can supply this amount, $100,000 per month, then he will be allowed to do this Ganesa Puja. Otherwise he should not do it. It will not be good. That is my order. So all of you keep yourselves strong in Krsna Consciousness by following all of my basic principles. That is of the utmost importance. Do not fail to chant 16 rounds daily, rise early, come to mangala arati, come to classes and follow the 4 regulative principles. In this way your life will become free from all anxieties. Please try to distribute my books in huge quantities more and more. This is very much satisfying to me.

I hope this meets you in good health.

Letter to: Jagadisa

Bombay 28 December, 1974

74-12-28

Toronto

My dear Jagadisa,

Please accept my blessings. I am in due receipt of your letter dated Dec. 9, 1974 and have noted the contents carefully.

Regarding your first question, you have not committee. such a serious offense. My request is that you atone for your actions by engaging in devotional service with great enthusiasm. Wherever your health is good, you should remain there and serve.

Regarding Gurukula I am very happy to hear that the financial crisis has passed. That is very good. This is real management. As far as the children are concerned, people are accusing us sometimes that our children are undernourished, underfed and note cared for properly. So it is good that you are seeing that they are happy and healthy. They should be given milk at least 8 ounces a day if possible 16 ounces a day. Dahl, capati, rice, vegetable this will keep them fit. If possible a little bit of fruit also. As for fixing up the Deity house in Dallas with marble altars, this is not necessary for now. We shall see later on. For the time being organize the health, education and care of the children and continue the Deity worship as it is going nicely now. Deities are satisfied with bhakti not marble. Therefore try to increase the bhakti.

I think that you should immediately try and get the church in Toronto. Take it immediately. Church is always cheaper as there are not many other purchasers. This way we can bargain with them and bring the price down. The psychology behind it is that the Christians will hesitate to tear down a church. They would rather see it still standing. Gradually you should buy all the churches and make them into temples. There are so many churches actually they should give us these churches free, if they were actually God-conscious. But they are sectarian. Anyway purchase this church immediately. It is not very costly. $200,000 you can arrange. If it is available from BBT at this time then I have no objection. You can make the $150,000 loan from BBT. I do not know though if that much is available.

Increase the Rathayatra festival in Chicago. Make it twice as big, that will be very nice. This festival must be introduced wherever possible. It is so nice.

In connection with your using your efforts to make television shows, no, that is not important now. Don't waste time in this way. Better to have nice festivals like Rathayatra festivals. If they see us on television show then the next moment they will forget. But if they come to a festival and participate that is eternal benefit.

Now you are raising your third child. So more and more you are becoming responsible for these living entities who are your dependents. You must see that they do not take birth again in this material world. That is your duty. Therefore you and your good wife must endeavor strongly together to become fully Krsna Conscious through this simple, sublime process that I have given. By simply following this process without deviation, chanting 16 rounds, following the four regulative principles, attending classes and mangala arati, rising early, these things will gradually bring you to the platform of pure love of Krsna.

I hope this meets you in good health.

Bombay 28 December, 1974

San Francisco

My dear Jagadisa Pandita,

Please accept my blessings. I am in due receipt of your letter dated nil and have noted the contents.

My opinion is that it is not necessary for us to utilize these different musical talents for spreading Krsna Consciousness. I would rather see people follow strictly the path of Lord Caitanya and His Sankirtana devotees. We are using mrdanga, karatala, that is enough. We are not musicians. We are Krsna bhaktas. Therefore we do not stress so much importance on these different musical talents. Sri Caitanya Mahaprabhu is God Himself. Had He thought it would have been better to spread Krsna Consciousness by another way He would have done so. But no, simply with mrdanga and karatala, traveling and chanting Hare Krsna, asking everyone to chant Hare Krsna, preaching simply Srimad-Bhagavatam philosophy, this is the process. There is no need for us to try and add anything to this simple method. It will only be a distraction. Therefore I request you to follow the simple path of Lord Caitanya Mahaprabhu and help me spread this wonderful mission all over the world. Keep yourself pure and fixed up in Krsna Consciousness by following the basic principles that I have given; chanting 16 rounds daily, following the four regulative principles, rising early, attending mangala arati and classes etc. This is of the utmost importance.

I hope this meets you in good health.

Denver

My dear Kurusrestha,

Please accept my blessings. I am in due receipt of your letter dated December 12, 1974 and have noted the contents carefully, along with the photographs and installation souvenir. I thank you very much for your kind donation of $100.00. Your report is very encouraging and I was very, very happy to see the wonderful photographs of your installation ceremony there. That installation was very, very auspicious. From the photographs it appeared so nice and Vedic. I was looking at those photographs again and again. Such a wonderful ceremony. So now you must see that the service to your Deities will go on very nicely. You should make it first class, just like in our Los Angeles and New Vrndavana centers. You have a very nice temple room there and now Radha and Krsna have come. So you must treat Them very nicely. Then many many devotees will be attracted by the bhakti. I am also glad to hear that in your temple no one misses mangala arati and that everyone is becoming steady and peaceful in their service. It sounds as if you are taking care of your men very nicely. This is first class management. Please continue in this kind of management.

Regarding your farm, that will be very nice. But be sure to maintain your temple there in Denver. It is a very beautiful temple. Do not loose it. Also your idea of forming a trust between ISKCON and the leading men in the Indian community is approved by me. That is very nice. Let the Indians take part in our movement and help us to push on this mission of Sri Caitanya Mahaprabhu. In that trust you must be very careful to make sure that my name is registered there as the founder-acarya and that I am to be the ultimate authority. In other words, in any case of necessity of vetoing or cancelling any decision made by the other trustees, I should be able to do like that. My decision should over-rule all the other trustees combined.

I have accepted the following devotees for first initiation; Martin Babor-Madhvacarya dasa, Bruce Roberts-Bahulavan dasa, Jenny Roberts-Jalasayi devi dasi, Steve Schecter-Siddhanta dasa, Joe Asheraft-Jitadusana dasa, Tove Olson-Trpti devi dasi and Richard Santoro-Rangaji dasa. Their beads can be chanted on by Kirtanananda Swami. I have accepted the following devotees for second initiation; Svavasa dasa Adhikari, Tadit devi dasi, Dhanvir das Brahmacari, Arthada dasa Brahmacari. Their threads and mantra sheets are enclosed herein. Make sure that they hear the gayatri mantra from the tape of myself. They should hear through the right ear.

Your Deities names are Radha-Govinda.

I hope this meets you in good health.

Seattle

My dear Sukadeva,

Please accept my blessings. I am in due receipt of your letter dated December 4, 1974 and have noted the contents carefully.

A real Vaisnava, of course, will never say that he is superior to anyone. He will say that he is the lowest of the living entities. If he says that he is superior then actually he is not superior. You mentioned in your previous letter about this person being sexually agitated. If there is agitation in the mind then there is no fault. Actually this is only natural in this material world, unless the mind is fully purified in Krsna Consciousness. But by engaging in devotional service gradually the mind will become purified and the agitation will vanish. So if there is simply agitation in the mind there is no fault. But if there is indulgence in sex fault, then there is big fault. If one engages in illicit sex life he has broken the promise to the spiritual master and that is a great offense.

In regards to your question about how the relationship between a sannyasi and the temple president should be, my hope is that you will all be able to cooperate together. The temple president is in charge and the sannyasi should not contradict the instructions. Although if he does see something wrong or if he sees a fault or defect he should bring it out directly to the temple president. And then work it out in a Krsna Conscious way. Not that he will try to over-ride the temple president's authority. I want that you all work together cooperatively. Please continue your programs there with great enthusiasm and try to strictly follow all of my regulations without any deviation. Keep yourself always fixed in Krsna's service. Don't let even a spit moment go by being engaged in the service of maya.

I hope this meets you in good health.

Brooklyn

My dear Tamala Krishna Goswami,

Please accept my blessings. I am in due receipt of your letter dated 12-11-74 and have noted the contents carefully.

I was extremely pleased to hear your report from your travelling buses. It sounds as if your program is very very wonderful and I am very encouraged to hear that such a program is coming along so nicely. I am glad that you have understood the importance of my books, therefore I am stressing it so much. Let everyone take these books. If he simply reads one page then he is getting something substantial, a real eternal benefit. Or if he hands it over to his friend and he reads one page the same result is there. So continue these festivals constantly and make them all Krsna Conscious. Overflood the whole country by this preaching work. Let the whole United States become Vaisnavas, then everyone else in the whole world will follow. That is my real ambition. Therefore your program is very glorious. This is really preaching. Your intelligence is being properly utilized. In the beginning you took up the distribution of BTG's and you sold the most. Now you have taken up this van program and you will also be successful in the same way. This preaching spirit will make you recognized by Krsna. There is so much wonderful potential in USA for this type of program. So organize hundreds of such parties. This is fulfilling the mission of Sri Caitanya Mahaprabhu. I am very glad to hear that not only you are maintaining such program but that you want to expand it. Yes, this is our philosophy; anandambuddhi vardhanam. It means to expand or to increase. Therefore I strongly encourage you to double your program by getting three more buses if you can do it. There is no difficulty. BBT will help. I have written Hamsaduta one letter to give you the loan of $30,000. BBT means fifty percent is for printing books and fifty percent for construction of temples. So your buses are all moving temples. Don't worry. There will be no scarcity of money. Go on with your program and increase and increase more and more. In the end of your letter you mention that people are not very much eager to go to Temples but with your program you are bringing the temples to the people. Yes, this is a very important point. You have picked up this idea very nicely, of bringing the temples to the people. In this way you will give everyone the opportunity to step in the direction of back to Godhead, back to home. So you and Visnujana Maharaja and all of your nice brahmacaris continue strongly with great enthusiasm and determination to spread this Krsna Consciousness movement all over your country and Lord Caitanya will certainly be pleased with you.

N.B. Regarding the Appearance Day Festival, yes do it. Your idea of booths for each center to display our books from all over the world is very important. Arrange for it. I am herewith sending one booklet from the Frankfurt Book Fair where our stall was exhibited. So in this way make different stalls so that people may see the work going on in all the different countries of the world. I received a letter from Hansadutta, and he is doing very nicely in Germany, and he has gone to Moscow. He has sent some nice photos, and they can be exhibited. I am sending the photos to Bhadraj, so he can take care to do it nicely. You also instruct him. I also want one new book of Caitanya Caritamrita be published for the Lord's Appearance Day. At least one volume must be ready for distribution of 400 pages, hardbound edition. You can also have photo exhibits of all the Ratha Yatras we hold in London, San Francisco, Melbourne, Toronto, and Philadelphia.

I am herewith returning the map of the fencing where I have indicated that the gate near the residence house is not necessary and should be removed.

My dear Uddhvareta,

Please accept my blessings. I am in due receipt of your letter dated nil and have noted the contents carefully.

Regarding your proposal, I shall have to consult the GBC men first before making that decision. I have sent your proposal to Jayatirtha Prabhu and have asked him to make copies and send it to the GBC men and have them give opinions. Then send these opinions to myself. Then I will give my judgement, after hearing those opinions. I am always praying to Krsna that my disciples will not fall away from the path of Krsna Consciousness. In the Bhagavad-gita it says; bahunam janmanam ante [Bg. 7.19]. After many many births one finally comes unto Me. Sa mahatma sudurlabhah, such a great soul is very rare. My simple request is that you very strictly follow all of our regulative principles without any deviation whatsoever. And thus by example show others how to do the same. Engage in devotional service according to your propensity and the direction of my appointed authorities. Always pray to Krsna so that He may keep you engaged in His transcendental service. Avoid the service of Maya like poison.

My dear Mandakini,

Please accept my blessings. I am in due receipt of your letter dated 22, December 1974 and have noted the contents carefully.

You mentioned in your letter that you are getting only a tourist visa for Moscow. But my original plan was that by marrying this man you would be able to get a permanent resident/permit there in Russia as his wife. But apparently this is very difficult. Therefore I think for now you should remain there in __, executing your devotional service, preaching nicely, caring for the Deities nicely. Try to get some type of permanent residence permit for Russia. If you can not get this residence permit then I think it is better not to go there. We shall see as Krsna desires.

Please continue engaging in Krsna's service with staunch determination, not to be defeated and engaged in Maya's service even for one second.

I hope this meets you in good health.

My dear Mr. Punja,

Please accept my blessings. I am in due receipt of your letter dated 12th December, 1974 and have noted the contents carefully.

I think also that Vijayadhvaja das must not be very responsible if he has sold this van in his own name and appropriated that money to his own use. Therefore he should not be in charge there. Because you are eager to distribute my books and magazines and because you are chanting 16 rounds daily I think that you are trustworthy and qualified to be in charge there. So you can go ahead and register our Society there with taking all proper and necessary steps. Before the finalization of registration takes place I would request you to send me one copy of the constitution for our society there so I can approve it finally. My name should be there as the founder-acharya, A.C. Bhaktivedanta Swami. I should have full authority in all matters. Vijoyadhvaja das can continue to preach there and kirtanas if he likes. But it is my desire that he leaves the management and handling of money and registration to your good self. He should be encouraged to help by being a strong preacher and attracting many devotees amongst the local men. As of now I do not know if I will be going to Fiji or not. I am thinking of leaving Bombay for London sometime in the beginning of January. Then I will be going from London to S. America.

You mention in your letter that you will be going to the United States and London in May or June. I may also be there at that time. Please keep me informed of the progress there.

I hope this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear Vijayadvaja,

Please accept my blessings. I am in due receipt of your letter dated nil and have noted the contents carefully. My feeling is that Mr. Punja should be encouraged as much as possible. He can help our movement there a great deal in Fiji. I have written him one letter asking him to take charge of management, handling of money and the registration of the society. I request you to also remain there, work nicely with Mr. Punja and take charge of the preaching, kirtanas, prasadam and book distribution programs. This is actually the work for a brahmacari. If you absorb yourself in this work you will feel very blissful. Keep that center that Subala Maharaja has opened and try to invite as many guests as possible. Make sure to keep yourself and the boys with you in full Krsna Consciousness by following our regulative principles very strictly without fail; chanting 16 rounds, rising early, attending mangala arati, attending classes, eating only Krsna prasadam, etc. In this way the whole atmosphere will become Vaikuntha, no anxiety. Please try to do like this with all sincerity and Krsna will give you all facilities. Please keep me informed of the progress there.

I hope this meets you in good health.

Dear Sir:

Please refer to the enclosed True Copy of a letter sent by myself on December 3, 1974 by registered mail. Up to this date I have not received any acknowledgement of receipt from you and I am very concerned in this matter. Please inquire as to why it has taken so long and immediately notify me as to whether you have received the document and the check which I enclosed in my letter of December 3rd or not.

Thanking you.

My dear Bali Mardan,

Please accept my blessings. I am in due receipt of your letter dated nil and have noted the contents. I have to talk with you in detail. Everything can be adjusted by our sincere will to serve Krishna. I do not know why Sudama and yourself are trying to organize another party by some reason or other. The best solution was suggested by me that both you and your wife may stay with me. After all, both of you are my disciples. It is my duty to guide you for spiritual advancement.

So, I wanted to go to Hawaii immediately, but the Bombay business has obliged me to stay here a few days more. After this, I have a program to go to Mexico, so I was thinking of going via Hawaii and to meet you all to study personally what can be done for all the misunderstandings that have taken place. The money you wanted to return, kindly send directly to either of these banks in Bombay: Bank of America, a/c no. 16026, INTERNATIONAL SOCIETY FOR KRISHNA CONSCIOUSNESS "MAYAPUR VRINDAVAN FUND." or First National City Bank, Bombay a/c no. 17168, "ISKCON MAYAPUR VRINDAVAN FUND."

My dear Gopala Krishna das,

Please accept my blessings. I am in due receipt of your letters dated December 16th and 21st, 1974 and have noted the contents. The only thing I am thinking is that you are getting good money to be used for Krishna. So anyway, if you look after Spiritual Sky business, I have no objection. Hamsaduta is here and I have discussed with him. I have given the decision over to the GBC men. Whatever they decide, I shall accept.

Regarding Gurudasa, he is in L.A. and has engaged himself in preaching work, so I have advised him separately.

My dear Guru das,

Please accept my blessings. I am in due receipt of your letter dated, December 28th, 1974 and have noted the contents. You also organize a party like Tamala Krishna's and preach like that. I like that-more of preaching. If Yamuna has left you, why remain as grhastha? Better take sannyasa like Tamala Krishna Gosvami. I know Yamuna has Krishna in her heart. She'll not be spoiled, but let her have some temporary independence and be more Krishna Conscious. I am glad you have sent the money to India that you have collected. Now, you left Vrndavana on account of Yamuna, but she has left you there also, although you wanted to live with her. Anyway, try to forget all this material attachment and try to be attached to Krishna more and more. Actually, I want many parties like the party of Tamala Krishna and Visnujana, and they can preach all over-USA especially. So, Tamala Krishna has attained experience in this type of preaching work, so you also take advantage of this experience. If you like, you can stay with him for some time. If you can preach there, it is better that you remain in USA. Vrndavana will be managed somehow or other.

I hope this meets you in good health.

My dear Gurukrpa Swami,

Please accept my blessings. I am in due receipt of your letters dated December 20th and 22nd, 1974 and have noted the contents. Also I have received one Credit note no. 134 from Dai Nippon for the amount of 63,752.54 in US dollars. You take this project in Hawaii. Brahmananda Svami is there, so talk with him about it. It will be nice if you make your headquarters in Hawaii. You go sometimes to Tokyo and again come back.

If there is any US bank (I think there is one Liberty Bank), you can remit through their Hawaii branch. I have got an account at that Liberty Bank in Hawaii.

After you give that 100,000 dollars to Ramesvara on Jan. 10th, then you can send money to Hawaii. Until then, the money should come to India. We require it here. The Liberty Bank pass book is with Jayatirtha. You can open an account, HONOLULU TEMPLE CONSTRUCTION account.*

Also regarding sending money out of Japan, you can find some firm in Japan who has to take payment in USA and the matter will be solved. Many Japanese goods are sent to USA. So, payment can be exchanged exactly like with Dai Nippon.

If you can take attention as much as possible in Hong Kong, that is very good.

Regarding your trip to USA, you'll get men, as many as you require.

So far as Central and South America is concerned, that is Hrdayananda's jurisdiction.

Regarding Ganesa Puja, I have received some letters from persons requesting to also perform it. I have explained to them that ultimately it is not required, but if you have some sentiment to get the blessings of Ganesa in order to get huge sums of money for service of Krishna, then it can be done, but privately. I have instructed them that if they want to do it, they must send me at least 100,000 dollars monthly-not less.

I hope this meets you in good health.

My dear Hamsaduta das,

Please accept my blessings. Now, considering the European situation in a meeting between Myself, yourself and Bhagavan das, I think Madhavananda should become president of London and Prabhavisnu should become president of Amsterdam and you can arrange this.

Regarding the grhasthas living in the temple, I have already discussed with you in detail, so do the needful. The principle is that we make propaganda for devotees to come. Don't ask any of them to go away. That is not our principle. So, make nice arrangement for all the devotees there.

My dear Pancadravida Svami,

Please accept my blessings. I am in due receipt of your letters dated December 18th and 20th, 1974 and have noted the contents. Sankirtana if it is not possible, never mind. Try to organize a meeting and impress upon the people Srimad-Bhagavatam philosophy by explaining. Manasvi can explain in Hindi and you can explain in English. This is also Sankirtana although not singing. So, where sankirtana is hampered, we can go on with kirtana and distributing magazines, that is more important than sankirtana. That is Brhat-mrdanga.

Getting registered we must. I may come there as soon as the Bombay business is finished. Regarding Mr. Sachdeva, instead of writing him, because I am unknown to him, I am thinking of going to talk with him directly.

Sankirtana within the Hindu community is prohibited? If it is very difficult to pull on there, then there is good field in Fiji.

My dear Ramesvara,

Please accept my blessings. I am in due receipt of your letters dated Dec. 15th and 27th and have noted the contents. Hamsaduta is here and we have discussed many of the points and questions in your letters. You can discuss with him for the details. You are secretary so, you should go on with normal business, budget the money and write regular reports.

Your idea of letting New York have the 200,000 dollars worth of books to help them get the building is good. Do it.

Regarding the length of books, it is alright if it goes a little over 400 pages, but don't let it become 500.

Whatever fund is collected for food distribution should be sent to India. Why is it not sent? The other funds coming from sales of books can be accounted for properly, so where is there any fraud? Sometimes a salesman can say something extraordinary in order to sell something, but that is not fraud. Just like they are selling this oil, saying that if you rub it on your bald head, hair will grow. Where is the case where a bald man's hair grew from this oil? But the government is not charging with fraud. Don't use these UNICEF cards, that will not be good. You can make ISKCON FOOD RELIEF cards. But the money collected using this card must be sent to India where we are actually feeding people. If we simply speak nicely to a person and try sincerely to get him to take the book he'll take it. Why should we adopt unfair means? We should not do anything which will create a bad impression or make us unpopular. People are after these books, they are hankering for them. We don't need to take cheating method. I never had to use any cheating method when I first began. I simply presented the real thing.

Basically and practically speaking everything that is done sincerely for Krishna's satisfaction is perfect. But we have to be very very careful in our dealings with others so that they will not take the wrong view. Just like the gopis. They left their homes in the dead of night to go and meet this young boy Krishna for kissing and embracing. To the ordinary person, this is sinful, but to the devotee, it is worshipable and it is considered the highest form of devotion even by Lord Caitanya who was himself a very strict sannyasi. Therefore we are very careful not to discuss this rasa-lila in the presence of ordinary men because they will only misunderstand and commit offense. While dealing with the ordinary men, we must spread this movement in such a way that they will not misunderstand us and take offense. Try to sell as many of my books as possible to your best ability.

I hope this meets you in good health.

The thing is, we should have a little common sense in all activities. The example can be given that women by nature do not forget to dress very nicely although always engaged in household affairs. Deity worship or lecturing in the colleges is just as important as book distribution. So, these things must be done very nicely and at the same time, book distribution should be done. Not that we should do one thing at the sacrifice of another. That requires a little common sense. Factually, we should be engaged 24 hours in Krishna's service and everything should be done very nicely and perfectly.

Dear Sir:

I thank you very much for your kindly visiting our land the other day. Along with your secretary, Mr. Ramanbhai B. Tolat. The thing is that we are in a little difficulty on account of our entrance road being very narrow. Therefore, I request you to give up your strip of land in front of our Hare Krishna Land for opening the road which will facilitate the traffic congestions. Our Hare Krishna Land is an international institution for preaching Krishna Consciousness all over the world. So, I am seeking your sympathy for these world-wide activities. The other day, your secretary informed me that you will construct a community hall on the road-side, but I know that the strip of land in front of our land will not be required by you. Neither it can be used for any other purpose. So, if you will kindly recommend your committee. to give for this great cause, Krishna will be very much pleased upon you without any doubt.

Thanking you,

My dear Pancadravida Svami,

Please accept my blessings. I am in due receipt of your letter dated Dec. 29th, 1974 and have noted the contents. I am sending this letter via one friend who will be coming to Bangkok tomorrow. He will deliver the letter to a Mr. Panikar who will bring it to you. This Mr. Panikar has been recommended to me by one of our life members here as someone who can sign the registration. Along with him, there is a Mr. Raman and a Mr. Chaisrikyl (Thai citizen). Mr. Panikar should be able to advise you how to get in touch with these men also.

Regarding sending men to Bangkok, let us see who is a spare man or is having visa problems. But our policy as you know is not to import devotees, but to make devotees out of the local men there. That is better.

Regarding the German situation, it is an attempt to suppress our movement there. We have become very popular there and now the Christian church, as well as the police are very much feeling pressure that ”now this movement is increasing.” The son of one big police officer has joined us and so his father has a grudge and has tried to cause counter-propaganda to be spread.

Please go on with your work there with continued enthusiasm. The Bombay business is still not yet finished so I have not been able to fix up my journey out of Bombay yet.

Regarding book distribution, this is my foremost desire to have my books circulated profusely. I have just discussed with Hamsaduta about lowering the prices for England. Keep the grounds there nicely. That is important. I am glad to hear how nicely the cows are doing. Send some milk here.

Madhavananda is being sent to Hong Kong to collect for Krishna-Balarama Mandira in Vrndavana.

As far as the initiations are concerned, Hamsaduta was not so sure about all of them, so he can go over the list with you in London, and after hearing from him, we shall consider.

So, all your desires are fulfilled. You must be very cautious, being president that you set a perfect example so others will not be misled. Always chant 16 rounds and observe our other rules and regulations strictly.

I hope this meets you in good health.

My dear Yasomatisuta das,

Please accept my blessings. I am in due receipt of your letter dated Dec. 19, 1974 and have noted the contents. I am very glad to hear of your translating work there. This is very encouraging. Please continue it with full enthusiasm. I was told by Brahmananda Svami that you have finished 3 chapters of Gita already. So, I have asked that it be immediately printed and then as soon as you translate 3 chapters of Gita already. So, I have asked that it be immediately printed and then as soon as you translate 3 chapters more it can be printed. In this way the whole book will be done in six volumes.

Regarding your question, you can always use some equivalent to the words Supreme Personality of Godhead. That will save the situation. The real thing is that you are trying to serve Krishna, He will give you all intelligence.

I hope this meets you in good health.

My dear Ajita das,

Please accept my blessings. I am due receipt of your letter dated Dec. 27th, 1974 and have noted the contents. Regarding dishonest means being used I have never advised or taught anyone like that. That is not my idea. This record distribution has caused havoc. It should be stopped immediately. I have also asked Hamsaduta to stop it. Book distribution is our real business. If we give them a record, they simply hear some magical sounds and take it for sense gratification, but if they receive one of our books and read even one page, they get eternally benefited. Therefore I am stressing this book distribution, not other things. Stop record selling completely. This is my order.

I have accepted Gauracanda dasa brahmacari and Sriharini devi dasi as duly twice-born brahmanas and their threads are enclosed along with mantra sheet. You can hold a fire sacrifice and let them hear the mantra through the right ear from the tape of myself saying it.

I hope this meets you in good health.

My dear Mr. Bagai,

Please accept my greetings. I am in due receipt of your letter dated Dec. 30th, 1974 and have noted the contents. You have now got you identity card, so you can go if you like to any of our centers and live there for some time. If you like the atmosphere, then we have no objection to accept you into our institution. You should remain with us for some time, otherwise how will we know what work you are fit to do? You should understand of course, that we do not pay anyone in our society. After you have stayed with us for some time, then we shall discuss initiation, name and mantra. These things are not awarded immediately. When you take sannyasa, you can use the word svami-not before.

We are not interested in these things like hatha-yoga and swimming. We do not encourage such useless activities. We would never take to such activities for earning money. We get money enough. We don't require to adopt any unauthorized means. At present we spend 8 lakhs of rupees every month and Krishna sends all money. Our process is to chant Hare Krishna. That is sufficient.

You are welcome to Vrndavana anytime.

I hope this meets you in good health.

My dear Hamsaduta das,

Please accept my blessings. I have considered this matter of record distribution and have decided that it should be immediately stopped. It has simply caused havoc. It should be stopped everywhere. The stress must be on books, nothing else needs to be sold. If someone hears a record, he will not understand anything of our philosophy. He will simply enjoy it as sense gratification. But if he gets a book and reads even one page, then he may very likely be induced to take part in our movement. These records are not important. My books are important. You should make arrangement to distribute them in as much quantity as possible.

Enclosed is one letter from Ajita das (president of Stockholm) wherein he expresses anxiety and confusion coming from this record distribution.

I hope this meets you in good health.

My dear Pancadravida Svami,

Please accept my blessings. I am in due receipt of your letter dated Dec. 29th, 1974 and have noted the contents. I have sent one letter already responding to your most recent letter, via one life-member, but in case of it not reaching you, I am sending another. Three men have been recommended to me by one of our life-members here in Bombay as men who may be able to help by signing our registration there. Their names are, Mr. Panikar, Mr. Raman, and Mr. Chaisrikul (Thai National). We have sent word to Mr. Panikar to come and visit you and to bring the addresses of the other two gentlemen so you may contact them. I think it is all right to have men who are non-life-members sign our registration if they are good men, sympathetic to our movement. But, you should try to make them members if possible.

As far as sending more men to Bangkok is concerned, we shall see if any of our men are forced to leave India on account of visa difficulties. They can go there. But my policy, as you know, is not to import devotees, but to create devotees out of the local men. That will be better. I did not import any Indian devotees when I first came to your country. Print as much as you can into the Thai language. That will be a great asset.

Regarding the German situation, it is an attempt to suppress our movement there. We have become very popular and important in a very short time and now the Christian church, as well as the police are feeling much pressure that "now this movement is increasing". The son of one big police officer has joined us and therefore his father has a grudge and also one newspaper reporter came to our temple incognito and has some grudge. In this way they and others are trying to spread some counter-propaganda to destroy our reputation.

It is not yet fixed up when I am leaving Bombay, but I will notify you beforehand of my arrival there. Please go on with you work with great determination.

I hope this meets you in good health.

I have received you telegram dated Jan. 3rd, 1975 which read as follows: TELEPHONED ALFRED FORD PROPERTY TRANSACTION REGULAR GOING LA MONDAY THEN LONDON GERMANY PER DEC 23 LETTER JAYATIRTHA SAYS RUMOR YOU COMING HERE PLEASE CONFIRM BRAHMANANDA SVAMI. See what is the actual situation there in London. Study it very carefully and let me know how things are going. Hamsaduta was giving stress to selling records using all tricks, by any means. The incident in Germany has caused havoc all over the world. It is hampering our reputation everywhere. I do not want this record distribution to continue. It must be stopped immediately. I have already informed Hamsaduta. Distributing books is our real business, not these records. Has anyone ever become convinced in Krishna Consciousness by listening to this record? No. He will simply think it is nice magical sounds, that's all. But, if he reads one book, he will be convinced about spiritual life. That is our success. So, stop this record distribution immediately everywhere. And stress book distribution more and more.

Enclosed is one letter from Ajita das who is the Stockholm temple president. He is expressing the typical type of anxiety and confusion which arises from this record selling business.

The Bombay business is not yet finished. I am thinking to go to Honolulu as soon as it is finished and then on to Mexico and South America.

London

My dear Devamaya devi dasi,

Please accept my blessings. I am in due receipt of your letter dated Jan. 6th 1975 and have noted the contents. Thank you for your burfis. Regarding your questions, there is no special planet for the Lord in His form of Lord Jagannatha. This particular lila was performed with His brother and sister when They were on this planet. If you are attracted to worshiping this form of the Lord, then you will go to Krishna. Lord Jagannatha is Krishna. You ask about what kind of food He likes to eat most. That you cannot prepare. If you sometimes come to Jagannatha Puri, then you can see. You should not give them any clubs to hold. It is not necessary.

Regarding astrology, you should not listen to any of these so-called astrologers-strictly avoid. Don't even see them. What is the use of seeing them? Astrology is meant for the materialist, but a spiritualist does not care for the future. Everything is dependent upon Krishna. So where is the necessity of astrology? The devotees' principle is, let there happen anything as Krishna desires. Let me remain sincere devotee, that's all. Pure devotee is never interested in this astrology.

So, continue nicely with your deity worship there and read my books very carefully, and without fail chant 16 rounds on your beads daily.

I hope this meets you in good health.

Letter to: Rupanuga

Bombay 9 January, 1975

75-01-09

Brooklyn

My dear Rupanuga das,

Please accept my blessings. I am in due receipt of your letter dated Jan. 2nd, 1975 and have noted the contents carefully. Regarding the new building, if it is suitable, never mind if it is a little more or less, you should get it. We can rent the unused space, and the householders can live in the building as long as they have separate floors. One thing is that they must be fully engaged. Don't make a hotel for free boarding and lodging. Everyone must be full-time engaged and the best engagement for them is to sell books. That will be very nice. Don't allow anyone to simply eat and sleep. All should attend classes 2 or 3 times daily, chant 16 rounds, and go out for street sankirtana. Eating should be minimized. Too much eating leads to too much sleeping, and then sex desire. So, management should be done very carefully to see that there is not easy-going, lazy attitude which will only end in fall down.

Regarding the controversy about book distribution techniques, you are right. Our occupation must be honest. Everyone should adore our members as honest. If we do something which is deteriorating to the popular sentiments of the public in favor of our movement, that is not good. Somehow or other we should not become unpopular in the public eye. These dishonest methods must be stopped. It is hampering our reputation all over the world. Money collected for feeding people in India should be collected under the name ISKCON Food Relief. Not any other name. And every farthing of that money must be sent to India, or better yet, buy food grains there and ship them here and we will distribute. But every farthing collected for that purpose must be used for that purpose. I have already sent one letter to Ramesvara explaining these points.

I hope this meets you in good health.

Yes, I'll come there, but the first opportunity may be in April. I am also hankering to go there. Please take great care, you are experienced. Co-operate with Prabha Visnu and make an ideal place for devotional service there.

Regarding the incident with Mr. Mody, it was a mistake by Kausalya. Don't commit anything which will cause mistrust. This is not at all desirable. Keep peaceful situation with all men. There is no question of taxing someone for a donation. They can give donation and we will accept on friendly terms. Nobody should be pressured for contribution.

Impure atmosphere can be counteracted by having kirtanas twice and thrice daily with dancing. So, keep the atmosphere very peacefully. Go on chanting and hold classes in Bhagavatam, etc. Don't allow anyone to engage in eating and sleeping alone or the devil's workshop will develop.

75-01-12

My dear Kirtiraja das,

Please accept my blessings. I am in due receipt of your letter dated Dec. 31, 1974 and have noted the contents. Any householder devotee who is working full-time (with his wife) as a sankirtana book distributer, of temple managerial duties, artist, cook, etc. shall be provided food, shelter, and other bare minimum necessities by the temple itself. They should not cook their own meals separate from the temple meals. If they have children, then some minimal allowance may be given according to the number of children. If they want anything extra or over and above what the temple president sees as absolute necessity, then they should work outside-the temple cannot pay for anything beyond the bare necessities. And definitely, the BBT cannot pay any salary to anybody. Our philosophy is "simple living and high thinking"-not sense gratification. The temple presidents and leaders (elder students) must show this by example. Temple or asrama means for renunciation and renounced persons. If one is engaged in self-realization process, then his material necessities become almost nil. Persons who do not like this can work outside.

Regarding food-stamps and welfare, if we have to fabricate some lie, that is not good. It can be done only if it is completely honest.

I hope this meets you in good health.

Navadvipa

My dear Sripada Sridhara Maharaja,

Please accept my humble obeisances at your lotus feet. I beg to inform you that I have arranged for the opening of the temple in Vrndavana on Sri Ram Navami day by the 20th of April 1975. Perhaps you know it that the ceremony was to take place on last Janmastami, but as the temple was not finished at that time, it could not be. Therefore, it was postponed. I wish to know whether your Holiness will kindly participate in this ceremony during that time to install the deity properly according to the Hari-bhakti-Vilasa regulations.

His Excellency, the Governor of Uttar Pradesh has kindly consented to join us during the ceremony.

So, I shall be very glad to hear from you in this respect by return post.

I am obliging.

I hope this meets you in good health and thanking you in anticipation for an early reply.

Yours obediently, A.C. Bhaktivedanta Svami ACBS/ps

My dear Abhirama das,

Please accept my blessings. I am in due receipt of your letter dated Jan. 7, 1975 and have noted the contents. I have accepted the ten persons whom you have recommended for second initiation and their threads have been enclosed along with mantra sheet. I have also accepted the three you have recommended for first initiation. Their names are: William-Isa das, Eric-Ahobala-Nrsimha dasa, Nancy-Nartaka Gopala dasi. Their beads may be chanted on by Kirtanananda Svami.

I hope this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

Enc: 7 threads and mantra sheet.

N.B. You must make sure that all of these devotees are following the regulative principles very nicely. Everyone must rise early, take bath attend mangala arati, chant at least 16 good rounds, attend class, and follow the four regulative principles strictly. If these things are lax, then there is no question of spiritual life. Any one who does not accept these things staunchly will have to fall down. You must teach them by your own personal example otherwise how will they learn. If you are loose in your habits, then everyone in your temple will also be loose in their habits. So, as one of my elder disciples, be strong. Do not deviate and you will be blessed.

My dear Ādi Kesava das,

Please accept my blessings. I am in due receipt of your letter dated Jan. 8th, 1975 and have noted the contents. Regarding your proper engagement, you should first discuss that with your GBC and try to work something out together. Regarding your questions. I have already answered the most important question. "How to please Krishna?"-by following all the regulative principle that I have given you, chanting 16 rounds and reading my books scrutinizingly. Everyone must do these things, otherwise they cannot understand Krishna Consciousness.

I have accepted the four persons that you have recommended for second initiation and their threads and mantra sheet are enclosed herein. I have also accepted the six persons you have recommended for first initiation. Their names are: Edward-Sadasiva dasa, Robert-Rupa dasa, Susan-Sitapati dasi, Theothora-Tryadhisa dasi, Mildred-Mahalaksmi dasi, David-Dharmasetu dasa. Their beads can be chanted on by Kirtanananda Svami.

My dear Aksayananda Svami,

Please accept my blessings. I am in due receipt of your letter dated 11-1-75 and have noted the contents. Stridish das was just here and he has brought you the answers to your questions I hope. Your program sounds very nice there.

You have mentioned the idea of having a pandal in Madras between the Mayapur and Vrndavana festivals. This will be nice, if it is practical. If you can arrange it co-operatively with the other leaders, then I shall also come there at that time. So, you can consult amongst yourselves and see if it will be possible or not.

My dear Bhrsakapi das,

Please accept my blessings. I am in due receipt of your letter dated nil and have noted the contents. Thank you for distributing my books so enthusiastically. Please increase this book distribution as much as possible. Regarding the Mayapur and Vrndavana festivals coming up, you can come to one of them or both of them as it is convenient to you.

I have accepted the three devotees that you have recommended for 1st initiation and their names are as follows: Ben-Bhavanatha dasa, Jeff-Yadunatha dasa, Jim-Yajna dasa. Their beads may be chanted on by Kirtanananda Svami. I have also accepted the three men that you have recommended for 2nd initiation. Their threads and mantra sheets are enclosed herein. Let them hear the gayatri mantra through the right ear from the tape of myself saying it. Please make sure that these new devotees (as well as the old ones) follow all of my rules and regulations strictly. They must chant 16 rounds, rise early, attend class, etc. Without these things, there is no spiritual life at all.

My dear Mr. Gold,

Please accept my greetings. I am in due receipt of your letter dated 12-30-74 and have noted the contents. I am so glad to see that you are so much absorbed in our philosophy and comparing it to other philosophies. I have written many books already which are full of the different aspects of this deep philosophy of Krishna Consciousness. I request you to study them carefully and you will find a treasure house of scientific information in relation to the ultimate goal of life and conquering the major problems of life, birth, death, old age, and disease. Visit our temple there in Brooklyn as much as you can. By associating with the devotees there, your spiritual life will become fully developed.

My dear Rupanuga das,

Please accept my blessings. I am in due receipt of your letter dated nil and have noted the contents. Why is it that money that has been collected on behalf of ISKCON Food Relief program has not been sent to India? Where is that money? This is not good. If you are not intending to send for food distribution, then do not collect in the name of Food Relief. Whatever is collected for India food distribution, must be sent as soon as it is collected, to India. You should send it to: Bank of America, International Society for Krishna Consciousness, Mayapur-Vrndavana Fund, account no. 16026 in Bombay. It must be sent, otherwise it will be a discrepancy. The plan that the lawyer has proposed to you is very good. There can be two separated accounts, ISKCON Food Relief, and BBT.

Mr. Badruka came and talked with me about the land, but I don't know whether he wants to sell it or give it to us. It is not clear. But he has invited me to see the land when I come to Hyderabad. I have agreed to this.

So far the Nellore property is concerned, that is a nice proposal. Now, we should have self-sufficiency. This means to make our own food grains grow and to weave our own cloth-like in Mayapur. If we have food grains, milk, and cloth life becomes easy and we can save time for preaching and chanting. Not that everyone should do these activities of farming, but if one is less intelligent, or not intelligent enough to preach nicely, he can do. If one is capable, then he should preach. On the whole, our society should be divided into 4 divisions, but such divisions are not material. Just like Krishna belonged to the Vaisya community, but he is worshiped by the brahmanas. We shall utilize everything for Krishna's service.

My dear Satsvarupa Maharaja,

Please accept my blessings. I am in due receipt of your letter dated Jan. 5th, 1975 and have noted the contents. Thank you very much for doing your work so nicely. I was very pleased to receive the review on the 1st volume of the third canto of Srimad-Bhagavatam written by professor Mehta from the University of Windsor. If you can send more similar reviews on my books, I would very much appreciate it. I am keeping a folder on such things and we can print a small book to distribute that will contain such reviews so that people will see what a great impression our books have on the intelligentsia of the world.

Regarding your question about the controversial talks going on, this kind of talk is not befitting my advanced students. This is childish. In Krishna's service, there is no inferior and superior. Deity worship is just as important as book distribution. It is not material. As mentioned in the Bhagavatam.

sravanam kirtanam visno smaranam pada-sevanam

arcanam vandanam dasyam sakhyam atma-nivedanam Sravanam kirtanam is the beginning-to chant and hear. Book distribution is under this category of sravanam kirtanam. The next item is smaranam. If somebody simply remembers the Supreme Lord, that is also as good as sravanam kirtanam. Then there is arcanam. That is also as good as the others, but one who simply becomes engaged in arcanam and does nothing of sravanam kirtanam, his position becomes in the material field. Any one of the nine processes is as good as the other. There is no question of inferior or superior. But out of all of them sravanam kirtanam is very important. Sri Caitanya Mahaprabhu while instructing Srila Rupa Gosvami, has said how the seed of devotional service sprouts and increases by watering the root by the process of sravanam kirtanam. So, these two items are very important in devotional service, but that does not mean that the other items are inferior. Srila Jiva Gosvami has stressed kirtanam especially in the age of Kali. Even if there is arcanam for sanctifying the contaminated mind, it must be accompanied by sravanam kirtanam.

So, you are all advanced students. You should understand the importance of each and every item of devotional service. Do not make any misunderstanding by devaluating any of the spiritual activities. You are one of the advanced students. One who distinguishes a particular type of service as inferior or superior, he does not know the value of devotional service. It is all transcendental. Whatever item is suitable, that is accepted as very elevated. Just like Maharaja Pariksit. He simply listened to Sukadeva Gosvami. That is sravanam. And Sukadeva Gosvami simply narrated Srimad-Bhagavatam. This is kirtanam. Prahlada Maharaja simply contemplated-smaranam. Prthu Maharaja simply did deity worship-arcanam. Arjuna only remained as friend of Krishna-sakhyam. Hanuman remained only engaged in carrying out the order of Lord Ramacandra-dasyam. And Bali Maharaja surrendered everything to Krishna-atma-nivedanam. So, any devotee executing any one of the nine is transcendentally glorious. One devotee may be proud that his process of service is the best. That is not inglorious. This is called transcendental competition. Everyone should feel proud of his particular type of devotional service, but that does not mean that other types of service are inferior. Everyone should feel proud of becoming sincere servant of Krishna, but the pure devotee never minimizes the importance of other devotees. Krishna is the enjoyer of varieties of service. It is not stuck up with any particular type of service. Krishna takes pleasure with devotees even by fighting service. When Grandfather Bhisma was trying to injure the body of Krishna by sharpened arrows, in full devotion in the mellow of chivalry, Krishna was feeling the piercing of the arrows as good as worshiping him with soft rose flowers. The conclusion is that everyone should be very very sincere. There is no more the question of inferior or superior.

I hope this meets you in good health.

My dear Tejyas das,

Please accept my blessings. Herewith please find the corrected copy of Gita Gana. Do the needful immediately. The bearer of this letter, Krishnagraja das, is going to Delhi on a mission to see the Home Member. So, give him all help in this connection. If you have got the Hare Krishna film, please make it available for his use.

My dear Amsu das,

Please accept my blessings. I am in due receipt of your letter dated Jan. 10th, 1975 and have noted the contents. Thank you very much for distributing my books in such severe conditions of cold. This is Krishna Consciousness. No matter what the conditions, still a devotee will always try his best to please his spiritual master and Krishna.

I have accepted Kati McIntosh as my initiated disciple. Her name is Karanakarana devi dasi. Her beads can be chanted by Kirtanananda Svami.

I hope this meets you in good health.

My dear Madhudvisa Svami,

Please accept my blessings. I am in due receipt of your letter dated Jan. 4th, 1975 and have noted the contents. Thank you for settling things up nicely in Fiji. Enclosed, please find one copy of a letter to Vijoya das requesting him to work co-operatively with Asta Siddhi das.

Try to get some nice farm. That will be very good. If we can produce milk products and grain, there will be grand success. I was so much pleased with your book distribution there. I am sure that the coming year will be even better. I am very much encouraged by big book distribution. I have received information from Ramesvara that 50,000 big books will be distributed every month in 1975. Introduce the books as far as possible. That is the success of our mission.

Please send the next shipment of ghee immediately, as it takes quite a while for it to reach India. Shipments should be sent regularly every six months. The amount that you sent last shipment was good, send that much twice a year.

You are so humble and so sincere, this is a sign of your success. May Krishna bless you more and more. Krishna has placed you in that position. Now, you should always be fully conscious of your great responsibility.

I hope this meets you in good health.

My dear Niranjana das,

Please accept my blessings. I am in due receipt of your letter dated Jan. 9th, 1975 and have noted the contents. Thank you very much for translating my books. It is so much important to me to have my books printed in all languages of the world. But, why are you sending the work to Ksirodakasayi for publication. I would rather have you send them to Bombay. You can send them to Yasomatinandana das adhikari here in Bombay. He can do the final editing as well as see to it that they are printed nicely. For the translation of the Supreme Personality of Godhead, you can say either Paramesvara or Bhagavan. Paramatma or Antaryami is good for localized Super-soul. If you can give the meaning of all the sanskrit words, that will be best.

I am glad to hear things are going nicely in Edinburgh and Glasgow.

I hope this meets you in good health.

My dear Radhavallabha das,

Please accept my blessings. I am in due receipt of your letter dated 1-7-75 and have noted the contents. Regarding the book on Kapila's philosophy, you can call it "the Sankhya Philosophy of Kapila, (the Son of Devahuti)". You can give the roman transliteration for the sanskrit and the English translation and then the lecture. There is no need of the original sanskrit (deva-nagari), or the synonyms. For the time being, I shall consider regarding the dedication, and introduction. After it is ready, I will tell you. You can use pictures from the Srimad-Bhagavatam. That will be alright.

Finish the Caitanya-Caritamrta as soon as possible.

My dear Bhagavan das adhikari,

Please accept my blessings. I am in due receipt of your telegram reading as follows (dated Jan. 25th, 1975): NEED SANCTION LETTER FROM PRABHUPADA FOR MANAGING OTHER EUROPEAN TEMPLES FORWARD TO PARIS GERMANY-BHAGAVANDAS. So far our movement is concerned, actually it is not a so-called religion movement. People throughout the whole world are more or less disgusted with the man-made religious systems. Therefore the government of different states is gradually banning the preaching of religion. People in general also think that this is also another type of so-called religion. So, gradually, they will take steps for banning our propaganda also, unless we present our system very scientifically based on philosophy. Of course, by Krishna's grace, the higher learned section is appreciating our books. That is the only hope for pushing on. But, I am very much depressed by the recent incidences in Germany. It is now evident that some of our top men are very much ambitious and there has been so many fall-downs. In his last letter, Hamsaduta said as follows: I am exhausted, my brain is exhausted, I do not know what to do, so you can just tell me what I should do and I shall do that . . . I cannot understand your mind or actions, I do not know what you divine grace wants, or what you want from me. So, at this moment I am just going to sit and chant till I hear from you, because everything till now has come out wrong, so please just instruct me what to do. Sorry to be the bearer of bad news again. Please forgive me, I am so helpless and spiritually weak. Please save me. What more can I say, please save me. In India you said, "Every rumor contains a grain of truth." So the police, the karmis, newspapers must also bear a grain of Truth. I feel discouraged now. All my godbrothers and your Divine Grace are dissatisfied with me, so I have lost my enthusiasm.

Under the circumstances, I have asked Hamsaduta to come to me at Hawaii. There I shall try to rectify the mistakes and as previously arranged, the GBC's should act as my secretary at least one month in a year. So, he may come and remain with me and in the meantime, you work conjointly with Brahmananda Svami. Try to manage Germany, London, and Paris. The main business in Germany is to reply the charges and rescue the frozen money. In England, we have to revive the Rathayatra festival which is now stopped by the police intrigue. In Paris, you require a larger place to accommodate devotees, so find out a suitable place.

I am going to Honolulu by Wednesday (29th) and if Brahmananda Svami is absolutely required, I'll call him to South America. Otherwise, both of you co-operatively, execute the most important business in Europe.

Kindly send in regular reports and oblige.
I hope this meets you in good health.

My dear Tamala Krishna Maharaja,

Please accept my blessings. I am in due receipt of your letter dated Jan. 16th, 1975 and have noted the contents. Your report is very very encouraging. It means really preaching Sri Caitanya Mahaprabhu's message. Do that and be blessed. Krishna has given you a special duty, so carry it very faithfully and enthusiastically. The more you preach, the more you become recognized by Krishna and the more He gives you intelligence how to preach. You are a good representative of Radha Damodara. You are very fortunate that Radha Damodara is traveling with you and giving strength and intelligence. All glories to the assembled devotees.

Regarding your meeting with Satsvarupa Maharaja and your 3-fold attack plan for preaching on the campuses, it is a very good idea. Do it. I know that you are practical. Instead of talking 100 times and doing nothing. That I want. This is a very good plan. You can call Revatinandana Svami also to join you. He is a good preacher also. If you think in terms of Krishna's instructions, then

Krishna will give the intelligence how to execute. Strictly adhere to Krishna's instructions and He'll give intelligence how to execute them from within your heart.

Regarding the idea of having the younger boys travel with you, the question is whether the government will object or not to our taking small boys in a sankirtana van. If there is no objection, then you can adopt this program immediately. It will be a very nice program.

The US has got immense potentiality for accepting Krishna Consciousness. So, do service to your country-men, as well as Krishna simultaneously. Your country has been glorified on account of her children like you. Krishna has has own plan for using your country-men for this movement. So, accept Krishna's mercy and do the needful. It is not just my desire, it is the desire of Lord Caitanya, then my Guru Maharaja, then it is my desire, and that desire should be executed by you all; then it will be accepted. Sri Caitanya Mahaprabhu accepted the Bharata-bhumi, but at least one person from Bharata-bhumi has accepted this cult and handed it over to you so, see that this desire takes practical shape.

Your photo is very nice. I'll keep it to show others. Very encouraging. I want to organize such a program in India.

I hope this meets you in good health.

My dear Bhakta das,

Please accept my blessings. I am in due receipt of your letter dated Jan. 16th, 1975 and have noted the contents. I have been informed by Jayatirtha prabhu that you have decided not to get the farm and that you want to get a building in Berkeley. I have discussed with him and that idea is approved by me.

The boys that you have recommended for 1st initiation are accepted by me. Their names are: Ed-Hrdayagovinda dasa, Nagaraja dasa and Jamie can be called Jiva dasa. Kirtanananda Svami can chant on their beads.

Concerning Ganesa worship, it is not actually necessary for us. But, if someone has a sentiment for getting the blessings of Ganesa in order to get large amounts of money for Krishna's service, then it is alright, but anyone who takes up this kind of worship must send me at least 100,000 dollars monthly-not less. If he cannot send this amount, then he cannot do Ganesa worship.

Please continue distributing by books as many as possible.

My dear Govinda dasi,

Please accept my blessings. In reply to your letter dated nil and have noted the contents. I beg to advise you to come to India and live in Mayapur comfortably in association of devotees. If you go, then I shall arrange to give you a very nice room completely for your use and you can peacefully engage in your painting work and read Srimad-Bhagavatam as well as join in with the devotees for regular kirtana, arati, and prasadam. What you have to do in this connection is as follows: 1) immediately you go to New York and take an entry visa from the consulate general of India. 2) ask your father to send the 200 dollars monthly to the Bank of America-Bombay branch, account number 16026, (International Society for Krishna Consciousness Mayapur-Vrndavana Fund.) This money will be kept for your expenditure. I think 500 rupees monthly will be sufficient for your food and lodging (60-70 dollars). And the balance you can spend as you like. I think this arrangement will be very nice for you according to my idea. Now you decide what to do.

My Dear Hari Krishna Das,

Please accept my blessings, I am in due reciept of your letter dated January 18, 1975. I am glad to note that your Amsterdam center is improving and that new devotees are joining. Example is better than precept, so you follow the regulative principles, chant 16 rounds daily, attend morning and evening arati and as much as possible go for sankirtana distributing my books.

I have already written Puranjana, that whatever money is owed to the BBT that should be paid. You may continue to distribute records, providing a book is given with each record.

Do not manufacture records, but take from Germany. They are already doing so you take from them. Hamsaduta is here with me now and other GBC members, they are consulting all problems and trying to relieve me of management, so in future you may consult with the local GBC and work co-operatively, that will give me relief for printing my books.

My dear Mr. King,

Please accept my greetings. I am in due receipt of your letter dated Feb. 1, 1975 and have noted the contents. I am glad that you enjoyed our chanting. You are welcome to come again and again if you like. You should understand though that we are not very much concerned with the principles of Hatha-yoga. We practice Bhakti-yoga strictly and since Bhakti includes all other results obtained from practicing other yogas as it is declared in the Bhagavad-gita to be the culmination of all yogas it becomes unnecessary for us to apply any other techniques besides simply chanting and hearing about the Supreme Personality of Godhead, Krishna who is called Yogesvara or the master of all yoga. Of course, it is certain that if one sits with straight spine it may be of some help in his ability to concentrate, but it cannot be considered as essential by any means. That thing which is really essential in Bhakti is to develop one's eternal dormant love for Krishna.

I hope this meets you in good health.

My dear Prabhanu dasa,

Please accept my blessings. I am in due receipt of your letter dated 1-31-75 and have noted the contents carefully. Regarding your problem, first thing is that the philosophy of the Bhagavad-gita is that one must learn to tolerate the sufferings due to the frailties of the material body. Whenever there is a material body, we have to expect birth, disease, old age and death. We don't want these things, but they are forced upon us, therefore we should try to attain that position in which these miseries will not be forced upon us-eternal life in the kingdom of God. Material life means great risk-at every step there is danger. But, a devotee is not jolted by this. He simply tries to render whatever service possible and accepts everything as the mercy of Krishna. So, you should carefully consider these points and do the needful.

I hope this meets you in good health.

My dear Puranjana,

Please accept my blessings. I am in due receipt of your letters dated Jan. 6, 13, and 17, 1975 and have noted the contents carefully. Hamsaduta is here with me now and I have given the letters to him. They have all been read and discussed by the GBC members who are present here. I want that the GBC should relieve me of this management burden and in the future, all such questions should be taken up with the local GBC member. If no satisfactory solution can be reached, then other GBC members may be consulted. The GBC can formulate proposals and submit them to me for approval. So, kindly co-operate with Hamsaduta and thereby help me use my time to finish my translating work in my old age.

Whatever money is owed to the BBT, that should be paid. As far as record distribution is concerned, if you have no big books, you may temporarily continue, but give a book with each record. With record distribution alone, the result is temporary. They will hear it for some time and throw away. Book distribution is solid. Even if they do not read, simply by touching they are benefited. It is so much powerful.

You can purchase records from Hamsaduta. Do not manufacture yourself. The BBT fund there has money, so your Bhagavad-gita in Dutch language can be printed with that money. I shall be anxious to see it. Anyway, work combinedly and everything will come out successful.

I hope this meets you in good health.

My dear Ravindra Svarupa das,

Please accept my blessings. I am in due receipt of your letter dated Jan. 26, 1975 and have noted the contents. Thank you for distributing my books there very nicely. Try to increase it more and more. You mentioned in your letter that you are doing a lot of deity worship and cooking due to lack of sufficient brahmanas. So why don't you ask your GBC man for some brahmanas (at least one) to come and releive you of this service so that you can spend more of your time preaching and distributing books. A temple president should have more time for preaching. That is important.

Regarding your question about the loan for the building, Ramesvara and Jayatirtha have suggested that you be given a 4,000 dollar loan from the BBT. So, I think that will be nice.

I have accepted Joe and tim as my disciples and their new names are respectively; Yamunapriya dasa and Tattvavada dasa. Their beads may be chanted on by Kirtanananda Svami. I have also accepted upon your recommendation, Kamalatika devi dasi for 2nd initiation. Let her hear the gayatri mantra through the right ear from the tape of myself chanting. Try to solve all problems with the local scale. The GBC men who are here now have considered this point and decided that it would not be wise to sue the Govt. at this point.

According to Jayatirtha prabhu, Jagadisa's proposal for BBT loan has already been rejected.

BTG is not meant for advertising ISKCON Food Relief.

Regarding instruments for temple kirtanas, karatala and mrdanga are sufficient. There is no need of other instruments.

My dear Sahadeva das adhikari,

Please accept my blessings. I am in due receipt of your letter dated Feb. 1, 1975 and have noted the contents. What is the difficulty if you immediately start preaching in the colleges? At the present moment, Tamala Krishna Gosvami is looking for men who are interested in preaching at the colleges. Why not contact him and work together with him? That will be very nice. There is no necessity of your going to India. Better to begin preaching work immediately.

I hope this meets you in good health.

My dear Mr. Sauvageau,

Please accept my blessings. I am in due receipt of your letter dated Dec. 17, 1974 and have noted the contents. I am very pleased to know that you have taken such a great interest in our Hare Krishna Movement. You are an educated man and you can use your education very nicely in the service of Krishna. I like the idea of yours to continue on for PHD presenting our books and philosophy in your thesis. This will be a great service for you to perform and I shall be very grateful to you if you can do it. Please therefore go ahead with obtaining PHD and become a learned scholar in the science of loving Krishna.* This will be a wonderful credit for you and you will surely get recognition from Krishna for such an attempt.

Keep in touch with Jagadisa dasa and he can give you all assistance.

I hope this meets you in good health.

My dear Sukadeva das,

Please accept my blessings. I am in due receipt of your letter dated Jan. 24, 1975 and have noted the contents. If you can acquire that building in Seattle, it will be very nice. Jayatirtha like it very much and he recommended that you should be given the loan for 10,000 dollars. So, if it is there you can take it.

Regarding my coming there on this tour, I think it will not be possible this time, but maybe next time after Mayapur and Vrndavana festivals when I come back to the U.S., I can come there and visit you temple.

My dear Tusta Krishna Svami,

Please accept my blessings. I am in due receipt of your letter dated Jan. 12, 1975 and have noted the contents carefully. Thank you for the 1,000 dollars (in checks). I am very happy to hear your report. Krishna is giving you facility there to develop a very nice varna-asrama society in New Zealand. Try you best to develop an ideal society there to set a perfect example for the human society of how one can live very simply, chanting Hare Krishna and developing love for Krishna. Make sure that you keep the whole program pure by carefully following all of the rules and regulations that I have given, rising early, attending mangala arati and holding classes, chanting 16 rounds daily, observing the four basic principles, no intoxication, meat-eating, etc. Then everything will be a great success. You are an intelligent boy, so, I think you can understand how to manage things very nicely there. I hope to be seeing you in Mayapur this year. The festival begins about the 25th of March.

I hope this meets you in good health.

My dear Yadunandana das,

Please accept my blessings. I am in due receipt of your letter dated Jan. 22, 1975 and have noted the contents. Regarding your child, the vedic philosophy is that the miseries of the material body must be tolerated. When material body is there, we must expect so many problems. Considering these things, it is up to you to decide what to do.

It seems to be the best thing to continue our Gurukula program in Dallas, at least for now. However, the GBC is considering building another school at New Vrndavana since one very wealthy man has offered to do so. You can contact Kirtanananda Svami in this connection.

I hope this meets you in good health.

My dear Gauri dasi,

Please accept my blessings. I am in due receipt of your letter dated Jan. 23, 1975 and have noted the contents. You are a very expert book distributer, so I do not want you to give it up altogether. If you like, you can also do some painting, but you should still distribute books two days out of the week (at least).

Always strictly follow all the rules and regulations, rising early, attending mangala arati and classes and without fail chanting 16 rounds daily. This will make you strong in Krishna Consciousness which is the most essential thing. Always be engaged 24 hours a day in the service of Krishna and be happy.

My dear Kusa devi dasi,

Please accept my blessings. I am in due receipt of your letter dated Jan. 30, 1975 and have noted the contents. I have studied your situation carefully and I encourage you to live in the temple in the association of fixed up devotees who are following my teachings strictly. If your husband cannot follow our principles properly, you are not to think that you should let that hamper your spiritual life.

You should stay with us and cultivate spiritual life peacefully under Krishna's protection and care. If he is not interested in spiritual life, let him do as he pleases. I have given all of my disciple instructions to follow for making spiritual advancement, but if they do not have the desire to follow, then what can I do? Anyone who is unwilling to follow our regulated principles, you should not live or associate closely with such a person.

I hope this meets you in good health.

My dear Patita Uddharana das,

Please accept my blessings. I am in due receipt of your letters dated Jan. 18th, and 27th, 1975 and have noted the contents. Your column in the Gujarat Samachar is a great way to preach Krishna Consciousness to the Indians there in London. They will become very much familiar with our ideas and goals by reading it regularly. Please continue it nicely.

Regarding the other points mentioned in your letter, Hamsaduta prabhu has said that he can take care of these matters. Actually, I have requested that these type of matters be brought before the GBC instead of me. I am trying very hard to find time to write my books, so I want to be relieved from so many questions. Please work co-operatively with Hamsaduta and everything will be very successful.

I hope this meets you in good health.

My dear Giriraja das,

Please accept my blessings. I am in due receipt of the two copies of the Governors' letters but nothing from you. I do not know how far you have advanced in the matter of constructing of the building as sanctioned by the municipality. I hope everything is going on nicely there and please send weekly reports as I am anxious to know.

As advised by Sri M. Channa Reddy, have you seen the Chief Minister or not? If you've seen him, let me know the result. But I think the Governor is personally examining our case. So, what is the use of seeing the Chief Minister.

Regarding the bus, now I am serious to purchase one bus at least and I have secured money. So, arrange for this immediately with the help of Sridhara. We do not want the seats-it should be vacant. As such, the price should be reduced considerably. Gurukrpa Svami will go to India to lead the party, but at least 6 Indian men must go with him. As soon as I return to India, I shall take up this Bus sankirtana very seriously.

One copy of our book, Lord Caitanya in Five Features may be handed over to Svami Cinmayananda as our humble presentation. If somebody, or youself sees him personally, give him thanks for his letter recommending our admission in the temples and present this book to him. That will be nice.

As far as possible, all big Mayavadis sannyasis should be presented with this book.

Hope this meets you in good health.

My dear Audolomi das,

Please accept my blessings. I am in due receipt of your letter dated Feb. 2, 1975 and have noted the contents carefully. It is the mercy of Krishna that you are getting fair warning of your nearing death. Now, you must become very serious to prepare to meet death without fear of being fully absorbed in the lotus feet of Krishna. You must be very careful and always praying to Krishna that you will not forget Him at the time of dying.

If your heart is weak, do not take part in so much active service. It will be better for you to chant more, read books, eat less-like that you can engage yourself. Everyone has to die sometime, but the problem is that most men your age are thinking, "I will live another fifty years", but now you have been informed that in your case, you will not live so long. Take advantage of this advance notice, consider it a blessing and prepare yourself to go back to home, back to Godhead.

I hope this meets you in strong Krishna Consciousness.

My dear Brahmananda Svami,

Please accept my blessings. I have heard that you want to make apologies to the police and others. This policy is not at all good. We cannot apologize. We have not done anything wrong. Our policy should be to protest against this persecution if they are determined to suppress our movement there. However, everything can be settled peacefully, if they agree to drop the charges and give us facility to push on our movement without further harassment in the future. These are the two points to be considered, so, discuss with Hamsaduta and Bhagavan and do the needful.

My dear President,

Please accept my blessings. Recently in Germany the government, police and church have started heavy persecution against our movement by arrests, investigation, and blocking our monies in the bank. By unfair and slanderous newspaper and television propaganda, they have ruined our reputation and turned the general public against our movement. We cannot sit down and be idle. Even killing of our devotees has been attempted in Berlin by shooting. Hamsaduta prabhu has formulated a plan for protesting at all German Embassies all over the world. This plan has my sanction. My dear Sri Govinda das,

Please accept my blessings. I am in due receipt of your letter dated Feb. 3rd, 1975 and have noted the contents. Regarding your purchasing marble Gaura-Nitai deities, it is not necessary when you already have brass ones. Simply take care of the ones that you have very nicely. There is no need for buying others.

Concerning the woman's duty, if she gets married, that does not necessarily mean that she must give up any of her service in the temple or on sankirtana, but she must also see to it that her household duties are not neglected.

Yes, I want to come there again this year for the Rathayatra festival and presently you can arrange that interview with Hugh Hefner, if it is possible to have it during that time.

I have accepted the devotees that you have recommended for 1st initiation and their names are as follows: Randall-Rathayatra dasa, Joseph-Jayakrsna dasa, Rodney-Ramakeli dasa, Ron-Ramananda dasa, Susan-Suprabha devi dasi, Deby-Danasila devi dasi. Their beads can be chanted by Kirtanananda Svami.

I have also accepted, upon your recommendation, the five men for 2nd initiation. Let them hear the gayatri mantra through the right ear from the tape of myself chanting it. Their threads are enclosed along with mantra sheet. Make sure that everyone is pure by following the four regulated principles and chanting at least 16 rounds daily. Without these things, there is no spiritual life.

Navadvipa Personal

My dear Sripada Sridhara Maharaja,

Please accept my humble obeisances at your lotus feet. I thank you very much for your kind letter dated 1-1-1975 and I have noted the contents with great pleasure. I left India on the 26th January from Bombay and I went to Hong Kong and Tokyo. Then I went to Hawaii and I received your letter there. Then I went to Los Angeles. Now I am staying at our Mexico City temple at the address below. Here the Mexicans are taking part in sankirtana and Deity worship very nicely. They have become very good devotees. In the neighboring countries like Venezuela, Argentina, Puerto Rico, Brazil, Trinidad and the Dominican Republic we have also got our temples. So, I am touring in these temples to see how things are going on, and by the grace of Krishna, everyone is becoming Krishna Conscious.

I shall be reaching India by the 15th of March and by the 20th of March, I shall be in Calcutta. If possible, Sriman Govinda may see me in Calcutta in our temple at 3 Albert Road, near Camac St. off of Theater road. At that time, I may be informed about your health and then I shall do the needful. As you have mentioned in your letter under reply that you cannot take any active part in executing the performances, I have asked my assistants in Vrndavana to take help from the local panditas in Vrndavana to do the needful. I have asked them to invite all different categories of saintly persons and devotees to take part in the ceremony. I am very much thankful to your Holiness for your good wishes in the matter of my preaching work. Factually, it is all being done by the grace of Prabhupada and Sri Caitanya Mahaprabhu, otherwise it was not possible. Srila Prabhupada was very much fond of publishing books and he especially advised me to preach in English language. So, by his blessings, we have now about 30 big books of 400 pages and more than 20 small booklets in English and all of these books and booklets are being translated into French, German, Dutch, Spanish, Portuguese, Chinese, Japanese, Swahili, Hindi, Bengali, Gujarati, Italian, etc.

Thanking you once again for your kind letter and more when we meet.

Yours affectionately, A.C. Bhaktivedanta Svami ACBS/ps

Gobernador Tiburcio, Montiel No. 45 San Miguel, Mexico 18, D.F. W.D. Currier, M.D., Inc. 960 East Greet Street Pasadena, California 91101

My dear Doctor Currier,

Please accept my greetings. I am in due receipt of your letter dated Feb. 7th, 1975 and have noted the contents carefully. Thank you for your kind suggestions and interest in our movement. In brief, I have always instructed my disciples to eat only healthy foodstuffs which will be beneficial for the body and mind. Not only that, but I have also instructed that whatever they eat must be first offered to the Supreme Lord Krishna for His pleasure and then they can take the remnants which are called Prasadam or mercy of the Lord. We are very practical. Whatever is necessary for the maintenance of the body and mind, we will accept. I have never said that my disciples should sever all relationships with friends, relatives and others, but sometimes an inexperienced devotee may do it out of fear of being too much attracted to the materialistic way of life by associating with such persons. An experienced devotee is strong enough not to be affected, rather he can help others to become purified by his association. For more information, I suggest you visit one of our centers there in California. Thank you again for your concern.

I hope this meets you in good health.

My dear Govardhana dasa,

Please accept my blessings. I am in due receipt of your letter dated Feb. 8th, 1975 and have noted the contents. Thank you for the photo of Sri Sri Radha Kunja-Bihari. It is very nice photo. They are looking very beautiful. I have accepted the following for 1st initiation: Bruce-Brajendralala, Miriam-Mukhya, Jeff-Jayavamana, Robin-Rajendranatha, Kim-Kaviraja, Karl-Kapiladeva, Sue-Sukti. Their beads may be chanted on by Satsvarupa Maharaja. Be sure and help them become first class devotees by following all the rules and regulations, very carefully, especially, they must rise early for mangala arati, chant at least 16 rounds and attend class.

Your list of qualifications for choosing candidates for 2nd initiation is very good. Regarding Rudra dasa, he can worship Gaura-Nitai in his home. The most important element for their worship is the chanting of the Hare Krishna Mantra. They can have at least one arati and whatever foodstuffs are prepared can be offered. Regarding my books, everyone should read. I am also reading. Everyone should be engaged 24 hours. That is the sum and substance. How much you should read and how much you should do other types of service, that has to be decided by each individual devotee. Eating and sleeping should be minimized-not a single moment should be misused.

I hope this meets you in good health.

My dear Jennifer,

Please accept my greetings. I am in due reciept of your letter dated Jan. 6th, 1975 and have noted the contents. Thank you for your donation of 20 dollars. We are Vaisnavas. We are not concerned with male or female position in life. That is simply bodily concept of life. It is not spiritual. Whether one is male or female, it doesn't matter, simply chant Hare Krishna and follow the four regulative principles and your life will be perfect.

Regarding initiation, it is required that you be recommend by one of our temple presidents to me and then I shall consider it. First of all, one must have followed the regulative principle for at least six months without deviation. It is not necessarily required to live in the temple, but you must observe the rules.

I hope this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear Svarupa Damodara dasa,

Please accept my blessings. I am in due receipt of your letter dated Jan. 20th, 1975 and have noted the contents. I was very glad to receive your letter and to hear that you are feeling very happy in Krishna's service. I will be coming to Atlanta around the first week of March. Rupanuga prabhu has informed me that he will call a meeting of all the scientists in the movement at that time in Atlanta. So I will be seeing all of you there.

I hope this meets you in good health.

My dear Yadhavacarya das,

Please accept my blessings. I am in due receipt of your letter dated Feb. 6th, 1975 and have noted the contents. I think in connection with film making, you should contact Yadubara das adhikari in Los Angeles temple. He can help you and give you advice as to how is the best way to work in this way. He is experienced in this field.

I understand from your letter that you are now in prison. Anyway, you can use such a situation as an opportunity for preaching Krishna Consciousness. I am very glad to hear that you have already distributed some books in prison. Please try to keep yourself fixed in Krishna Consciousness by chanting 16 rounds daily and following the four regulative principles strictly and reading my books very carefully. These things will keep you nicely in Krishna Consciousness so that wherever you are you will remain strongly fixed in the service of the Lord.

I hope this meets you in good health.

My dear Dina Bandhu das,

Please accept my blessings. I am in due receipt of your letter dated Feb. 6th, 1975 and have noted the contents. Thank you very much for the 300 dollars daksina. Thank you again and again for distributing my books with great enthusiasm. Now, try to double this enthusiasm. Anyone who even touches one of our books gets such great benefit. Give them to everyone. Because you are all very sincere and working very hard, Krishna is giving you all facilities.

I have accepted upon your recommendation the three persons for 1st initiation and their names are as follows: Dave-Devarsi, Michele-Maladhari, Andrea-Abhaya. Their beads will be sent to you by separate post. I have also accepted Anantatma dasa for 2nd initiation. His thread and mantra sheet are enclosed herein. Let him hear the tape of myself chanting the gayatri mantra. It should be heard through the right ear.

I hope this meets you in good health.

Dr. Santosh Kumar McMaster University Hamilton, Ontario, Canada Dept. of Medicine St. Joseph's Hospital

My dear Dr. Kumar,

Please accept my greetings. I beg to acknowledge receipt of your letter dated Jan. 18, 1975 and have noted the contents carefully. Regarding your question, the Supreme Personality of Godhead is recognized through the sastras not otherwise. For instance, in the Srimad-Bhagavatam, first canto, third chapter, all the major incarnations of Godhead are listed. Many times the scheduled time of appearance and family, etc. are also mentioned. The incarnation of Godhead must be indicated in the scriptures, otherwise we cannot accept him as being incarnation. Today, there are so many bogus incarnations, but we do not accept them. The Supreme Lord can appear in this world at any time, but he does so according to the regular scheduled appearances mentioned in the sastras. According to the sastras, the last most recent incarnation was Sri Caitanya Mahaprabhu who appeared in West Bengal about 500 years ago. We are following in direct line of disciplic teaching from Him.

Another point is that the words of the Lord have been recorded in the Bhagavad-gita, so if someone comes claiming to be incarnation, but also contradicts the Bhagavad-gita, then we can be sure he is phony. Please try to read and understand my books very carefully. All these things are explained.

I hope this meets you in good health.

My dear Guru das and Prajapati,

Please accept my blessings. Regarding the dance troupe, I request you to prepare 7 different dances (a new one each day) from the Caitanya Caritamrta for displaying and performing during the Mayapur festival. Also, I request you to prepare 7 different dances from the Krishna book for performing during the Vrndavana festival. When you come to India, I shall also give you some personal direction concerning these dance performances. There are so many nice stories that can be performed. We can have a party of about 15 persons who can go all over and perform these dances. It will be very attractive, if nicely done and people will be inclined to buy books and even buy tickets to see such a performance. In this way all the expenses of going from one place to another will be covered. So, organize this program nicely and it will be a great success.

I hope this meets you in good health.

My dear Govinda Datta,

I am in due receipt of your letter dated 1-1-75 and have noted the contents. I am very glad that you are eager to see our foreign temples and that you wanted my advice in this connection. So, I am now on tour and very soon, by the 15th of March, I will return to India. Maybe, by the 20th I will be in Calcutta and you can see me there. I shall advise you personally. You are also invited to participate in our Mayapur festival during Sri Caitanya Mahaprabhu's appearance day ceremony, as well as the opening celebration of our Krishna-Balarama Temple in Vrndavana on Rama-Navami day. The governor of U.P. will also come there to participate and many other important and respectable gentleman will also be coming. I hope you will also come with your wife and son and mother, and encourage us by taking part in the festivals.

Mrs. Mohini H. Singh Consul (Culture) & Director Indian Cultural Center 215 Market Street San Francisco, California 94105 USA

My Dear Mrs. Singh,

Please accept the blessings of Lord Krishna. I thank you for your kind letter of invitation dated 21st of Feb., 1975. I am just on my way to London from here (New York), and from there I shall have to go to Tehran, Iran, and then back to India by the 15th of March, 1975 for arranging the birthday anniversary of Lord Caitanya Mahaprabhu at our Mayapur center, (District Nadia), West Bengal, India. Therefore I am very sorry to inform you that I shall not be able to attend the auspicious meeting which you are going to hold on the 23rd of March. I am advising therefore my senior disciple, His Holiness, Kirtanananda Swami to attend the meeting and I hope he will be able to present the proper view of our Krishna Consciousness movement. Our movement is completely a spiritual movement, therefore sometimes it appears to be a little different from the materialistic cultural movement. In the Bhagavad-gita, the spiritual hint is there in the beginning of the lesson to Arjuna. Krishna wanted to pick up the spiritual soul from within the body: dehino 'smin yatha dehe kaumaram yauvanam jara [Bg. 2.13]. So, the spirit soul is within the body. Unless we catch up the spirit soul within the body, there is no question of spiritual life or culture. Still, we are trying to push this movement in the western countries and many of them are taking it very seriously. I hope Sriman Kirtanananda Maharaja will be able to convince you further in the meeting and I hope you will give him some time to speak on the subject matter on my behalf. Further in order to convince people more about this movement philosophically and scientifically, we have published up to date about 50 books. So, if you kindly give me a nice booth for demonstration of the books, it will be a great opportunity to introduce our literature amongst the intelligent class of men. Our books are already recognized by the academic section of universities. They are a standard, authorized collection and I hope you will give us proper facilities to utilize the opportunity.

Thanking you once more for your kind invitation.

Yours sincerely, A.C. Bhaktivedanta Svami ACBS/ps

Personal

My dear Sripada Madhava Maharaja,

Please accept my humble dandavats. I thank you very much for your letter dated Feb. 5th, 1975, addressed to our Hawaii temple. I started from Bombay on the 24th of January, and then via Hong Kong and Tokyo, I reached Hawaii on the 29th of January. Then, I left Hawaii for Los Angeles and Mexico. From Mexico, I went to Caracas, South American countries, Miami, Atlanta, Dallas, and New York. And just last night I arrived in London at the below address. Your letter arrived in Hawaii after I had already left that place and I received your letter redirected to New York only two days ago. So, just now, I am getting the opportunity to reply your kind letter.

A similar letter was addressed to Sripada Sridhara Maharaja inviting him, but he has not objected to the temple being open on the Srim Rama Navami day. Sridhara Maharaja on account of his uncertain health condition will not be able to take any active part in celebrating the ceremony, but he has promised to come provided his health permits. I have therefore entrusted the matter to a learned pandita, brahmana, Bhimasena Vedacarya, a great astrologer and learned brahmana. He has agreed to conduct the ceremony. Details may be discussed as soon as I return to India by the 16th of March in Bombay, then we will have a detailed program. Another thing is that I have invited the Governor of U.P., Mr. Channa Reddy and he has also agreed to join the ceremony. Under the circumstances, I don't think it will be possible to change the scheduled date. If we change the date, the Governor may not be available because he has his program fixed up.

On my return to India, I shall again try to revise the whole situation as far as possible and let you know.

I hope this meets you in good health.

Yours obediently, A.C. Bhaktivedanta Svami ACBS/ps

Please accept my blessings. I have received notice from Saurabha in Vrndavana that we owe 25,000 rs. to the Mukutwala and another 12,500 rs. to Lalita Prasada, and he says that still there are many other deity goods that only been ordered and not paid for. So, I request you to please send the equivalent of at least 30,000 rs. to Vrndavana because there are no collections coming in at this time for the deities and you have ordered this paraphernalia. You should send this money to the Bank of America in Bombay in favor of the International Society for Krishna Consciousness (Mayapur Vrndavana Fund) account number 16026. My dear Manasvi das,

Please accept my blessings. I am in due receipt of your letter dated Feb. 28th, 1975 and have noted the contents. I am very glad to hear that things are going nicely there. Our Honolulu center is very nice. Give Siddhasvarupa Maharaja nice facilities for preaching. He can attract many people by his preaching. Regarding the shortage of men that you mentioned, I have spoken to Kirtanananda Svami and asked him to try and arrange for more men to come. And regarding the cows on the farm, try to make some ghee also. That will be very valuable.

I have accepted the persons whom you have recommended for 1st initiation. Their names are: Linda-Lilasravana, Kathryn-Kamini, Cynthia-sita, Joe-Yasodala, Ronald-Ranganatha. Their beads can be chanted by Kirtanananda Svami. Also I have accepted Laksmana dasa for 2nd initiation. His thread and mantra sheet is enclosed herein. My dear Augusto and Romeo,

Please accept my blessings. I am in due receipt of your letter dated Feb. 17th, 1975 and have noted the contents. It is not compulsory that one live in the temple, but in order to make spiritual advancement, one must follow all the rule and regulations of Krishna Consciousness, just as the devotees in the temples do. One must rise early, hold mangala arati, have class and chant at least 16 rounds daily as well as follow the four regulative principles. It is always best to associate with devotees as much as possible if one cannot live in the temple. I think Mahavira dasa is in charge of our Brazil temple, so you can co-operate with him nicely and follow his advice.

Regarding Siddhasvarupa Gosvami, he is preaching nicely in our Honolulu temple.

My dear Bhanutanya dasi,

Please accept my blessings. I am in due receipt of your letter dated March 6, 1975 and have noted the contents. You should understand that Krishna Consciousness is a purificatory process. One may not be purified immediately, but since he is on the right path for purification, one should not criticize him for some faults that he may still have. Just because some body has made some mistakes does that mean that you should give up your whole career in Krishna Consciousness? What will that accomplish? Simply more rebirth and death. The fact that you have left our movement just on account of some minor disagreements shows that you are not actually serious about going back to home, back to Godhead. I suggest that you become serious about spiritual life and try to overlook the minor offenses of others. You should keep yourself in the association of devotees, chant at least 16 rounds, read my books and follow all of the rules and regulations very strictly.

I hope this meets you in good health.

My dear Mr. Dennany,

Please accept my greetings. I am in due receipt of your letter dated Jan. 28th, 1975 and have noted the contents. Thank you very much for reading and appreciating my books. Please continue to do so as much as possible and visit our temple in Miami frequently. You mentioned in your letter that you had read many other Bhagavad-gitas before you read mine and that none of them revealed as much to you as Bhagavad-gita As It Is. The reason is because we do not change the actual meaning of the gita at all. Many other commentators due to poor fund of knowledge tamper with the lines of Bhagavad-gita and twist the meaning for their personal motives, but we do not do like that. We present it exactly as it is; without any additions or subtractions. That is perfect in every way and therefore it is actually having a tremendous effect all over the world. The original words of Lord Krishna have unrivalled potency and anyone who is fortunate enough to hear those words and tries to apply them to his life becomes perfect.

I hope this meets you in good health.

My dear Mr. Lourenco,

Please accept my greetings. I am in due receipt of your letter dated 18-9-74 and have noted the contents. Thank you for reading my books and appreciating them. Please continue to do so. That will help you advance nicely in spiritual life. By reading my books and chanting Hare Krishna, your life will become perfect. The reason for the Japa beads is so that you can keep track of how many times you are chanting Hare Krishna mantra daily. It should be chanted a steady amount of times regularly. We chant at least 16 times around the string of 108 beads daily (one full mantra on each bead). This keeps us strong in spiritual consciousness. Try to visit our temples in London, Paris, Rome, etc. as much as you can. The association of the devotees there will help you to become fixed in Krishna Consciousness. If this is not possible then you can correspond with the devotees at those temples.

My dear Tirthanga dasa,

Please accept my blessings. I am in due receipt of your letter dated Feb. 28th, 1975 and have noted the contents. Regarding your questions, the main things is that whatever is required by you and your family to live nicely in Krishna Consciousness, that much you should accept. Do not take more than what you actually need. And you should give what ever you can to the temple as donation. Nothing is compulsory. Whatever you kindly pay, that will be accepted.

Regarding sending children to Gurukula, that is also optional, not compulsory. The most important things are that you follow very carefully all of the rules and regulations such as rising early, and having mangala arati and classes, etc. and that you chant at least 16 rounds daily without fail. These things are most essential for your spiritual advancement and then everything will be alright.

I hope this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear Vaikunthanatha and Bahulasva,

Please accept my blessings. I am in due receipt of your letters dated March 1, 1975 and have noted the contents, along with the newspaper article. Thank you very much for sending this article. It is very good news. It appears that this scientist has become very intelligent. Yes, try to meet with them somehow and make arrangement for them to meet with me when I come for the San Francisco Rathayatra. That will be very nice. Such persons should be given the chance to study our books very carefully. In this way they will actually understand what is science.

I hope this meets you in good health.

My dear Yogamaya devi das,

Please accept my blessings. I am in due receipt of your short note (dated nil) and poem. The poem is very nice. You are understanding the philosophy nicely. Keep yourself strongly fixed in Krishna Consciousness by following all of the rules and regulations. Rise early, attend mangala arati, and class. Chant 16 rounds daily without fail and observe the four regulative principle. In this way, you can realize Krishna in every step of life.

I hope this meets you in good health.

My dear Dr. Ghosh,

Please accept my greetings. I am in due receipt of your letter dated Feb. 8th, 1975 and have noted the contents. On my world tour, I have received your letter redirected to New York City. I started from Bombay on the 24th of Jan., then via Hong Kong, Japan, Hawaii, Los Angeles, Mexico City, Caracas, Miami, Atlanta, Dallas, New York, and London, now I am here in Tehran in our center as above mentioned. I shall be starting from Bombay tonight and will be staying for 2 or 3 days. Then I shall go to Calcutta from there. And after that, I shall go to Mayapur to hold our annual ceremony celebrating Lord Caitanya's Birth day. You are cordially invited to attend our ceremony there and then also our ceremony in Vrndavana. I wish that you may visit our temple along with your wife Mrs. Ghosh.

I hope this meets you in good health.

My dear Sri Radheswarananda Goswami,

Please accept my humble dandavats. I thank you very much for your letter dated Feb. 8th, 1975. I am now on world tour. I left Bombay on Jan. 24th, 1975 and traveled to Hong Kong, Japan, Hawaii, Los Angeles, Mexico City, Caracas, Miami, Atlanta, Dallas, New York, London, and now I am at our Tehran center as above mentioned. And again, I am going back to Bombay tomorrow. So, your proposal is very nice. I wanted to take a party of sankirtana movement all over India, if some of the leaders like you co-operate with us. So, I am reaching Bombay tomorrow and I shall stay there until the 19th. If possible, please come and see me at my Bombay center as follows: Hare Krishna Land, Gandhi Gram Road, Juhu, Bombay 400 054. Or, if the letter does not reach you in time, I am inviting you to come to our festival at Mayapur from the 23rd-27th of March. Then we have also got the opening ceremony for our Vrndavana temple on April 10th, 1975. If it is convenient for you, please try to come and join the ceremonies.

My dear Gandharva dasa,

Please accept my blessings. I am in due receipt of your letter dated Feb. 7th, 1975 and have noted the contents. We are very eager to give everyone a chance to become Krishna Conscious, but if someone repeatedly causes a disturbance then he may be asked to leave. That is not our business to ask people to leave our association but if they are actually causing too much disturbance by not co-operating with authorities or by not following the rules properly (especially the four regulative principles), then we are forced to do the necessary. If someone who has been asked to leave sincerely wants to be given another chance, following the rules strictly and co-operating with authority, then he may be admitted again. That is the Krishna Conscious system. Any way, whatever your position may be simply follow the rules carefully, chant 16 rounds and read my books and you will be saved from Maya. Regarding your writing, it is a little off-time. I suggest that you read my books more carefully and present things as I have presented them.

I hope this meets you in good health.

My dear Hanuman,

Please accept my blessings. I have received one letter from Narayana dasa, saying that he has been informed by some of your men that you are GBC there and that he must subjugate to your authority. I never said that you were the GBC there. You cannot say that. If you are unable to work under the direction of Hrdayananda Gosvami, then you must work under my direction, but you are not independent. You cannot interfere with the programs that are now going on there. If you can work co-operatively, that is wanted, but if you cannot work with Narayana, that doesn't mean that you can disturb his program. He is working hard under the direction of Hrdayananda Gosvami. He is not under your authority. If you want to preach there, that is alright, but you cannot interfere with the work that Narayana is doing. If there is any difficulty, we can discuss it in India.

I hope this meets you in good health.

My dear Lata devi dasi,

Please accept my blessings. I am in due receipt of your letter dated nil and have noted the contents. Krishna Consciousness is the only truth that exists. Without Krishna Consciousness everything is illusion. You must not waste this life away thinking that everything belongs to you. Everything belongs to Krishna and it must be used in His service. Even your body and mind belong to Krishna and it must be used for Krishna's glorification. Otherwise, if you use your body or mind any other way, you will have to suffer so many future miseries such as rebirth, etc. So, I request you to please try and chant 16 good rounds daily and to follow the four regulative principles as well as to read my books carefully. And give up all these foolish ideas. If you sincerely try to do this, Krishna will reciprocate by giving you the necessary intelligence and determination to carry on in Krishna Consciousness.

My dear Miss Nedungadi,

Please accept my greetings. I am in due receipt of your letter dated March 6th, 1975 and have noted the contents. Thank you so much for your kind appreciations. I am so much grateful that you have enjoyed studying my books. Many young intelligent persons such as yourself are studying these books in the colleges and universities all over the world. Actually anyone who tries to understand these books will become a great realized devotee of Lord Krishna gradually. The original potency of the sastra remains in these books because I have not added or opinionated anything of my own. I have simply presented the scriptures such as Bhagavad-gita and Srimad-Bhagavatam as they are. Therefore just see the effect they have on the world. At present, we have about 100 centers worldwide and about 10,000 fully dedicated students in those centers. You are welcome to visit or stay in any of our centers for your spiritual advancement. We have a nice center in Madras: 50, Aspiran Gardens, 2nd St., Kilpauk, Madras-600010. You can get all the books there. I will be in Bombay at the end of April and beginning of May. So, if you can come then, I shall see you there. In the meantime please correspond with or visit one of our temples.

Please accept my greetings. I have received your kind offering of guava jam through your daughter, Urvasi devi dasi. I wanted to thank you very much for becoming so much interested in our Krishna Consciousness movement. Actually, because Krishna Consciousness is the nature of the soul, it is not unusual that one becomes attracted to the method. We are trying very hard to give everyone in the world, in all walks of life, a chance to hear the message of Krishna and to take up the process which is recommended in the Bhagavad-gita for becoming freed from the cycle of birth and death, and thus go back to the kingdom of God to render eternal service to Him. I sincerely hope that you will continue the process as your good daughter has done and achieve the perfection of human life.

My dear Alfred,

Please accept my blessings. Gurukrpa Svami has referred your latter dated March 12th, 1975 to me for final approval. I think your idea is very good. You are giving your forefather's hard-earned money and I don't want to see it spoiled in any way. In a year or so you can turn the property over to: A.C. You are sincerely trying to please Krishna, and therefore He is giving you all intelligence-how to do it.

After the opening of our Vrndavana temple here in India, I shall start for Australia by May 5th to install Gaura-Nitai deities and then I shall go to Fiji for a few days to see how our center is doing there. After that, I shall arrive in Honolulu by May 17th. This time, I will stay there for some time, most probably until the beginning of July, when I will be going to the American mainland for our annual Rathayatra festival in San Francisco. If it is convenient for you, I would like to have you come and stay with me while I am there in Hawaii. I will arrange a nice room for you and any other facilities you may require. My dear Dr. Ghosh,

Please accept my greetings. I am in due receipt of your two letters dated March 20th and March 23rd, 1975 and have noted the contents very carefully. I thank you very much for your kind invitation and, tentatively, I accept it. Most probably, we shall go to Allahabad from Vrndavana by the 28th of April, 1975 and stay there for a week, and then start for Bombay on the way to Australia by the 5th of May I wish to hold classes on Bhagavad-gita and Srimad-Bhagavatam for one hour in the evening and one hour in the morning. I do not know if gentlemen there will spare so much time. If not two hours, then I shall hold one hour Bhagavad-gita class, and I wish to see how people there appreciate our missionary activities. It is strictly on the basis of Lord Krishna's teachings as they are presented by Sri Caitanya Mahaprabhu. That is our mission. So, if people become interested in our philosophy, then we shall consider the other two items, namely, the nursery school and dispensary. So far dispensary is concerned, we have none all over the world. It will be a new attempt. So far the school is concerned, we have got in Africa and America, and we have got men experienced to teach on our line. But for dispensary, we have no experience at all.

I do not know how you are at the present moment about your health but I request you again to come to Vrndavana about the 20th of April. Then we shall discuss elaborately and make a decision. Otherwise, if you do not come, we will go as already decided and open a nice center there if possible.

My dear Mr. Karl,

Please accept my greetings. I am in due receipt of your letter dated March 20th, 1975 and have noted the contents carefully. I wish to thank you very much for your reading our books so carefully and scrutinizingly. Any man who read these literatures will find a storehouse of transcendental information. I hope you will continue to study so nicely on a daily basis as you have described in your letter.

Regarding your question, you may refer to Ādi-lila, Chapter 6, Text 79 along with the purport, (Caitanya-caritamrta). The answer is there. The basic understanding is that Sada-Siva is an expansion of Maha-Visnu and that same Sada-Siva incarnates as Advaitacarya. Therefore, since Advaitacarya is an incarnation of Sada-Siva who is non-different from Maha-Visnu, we can say that Advaitacarya is an incarnation of Maha-Visnu. It can be said both ways, that He is an incarnation of Sada-Siva or Maha-Visnu.

I hope this meets you in good health.

Please accept my blessings. I am in due receipt of your letter dated March 8th, 1975 and have noted the contents. Regarding your idea for writing articles for different legal journals, that will be very nice. I think it will be best if you take a little help from the editors who will be in Los Angeles soon. They can help you to make sure that nothing is stated improperly. They are experienced, so consult with them. Jayadvaita and the others are now here in India, but they will be back by the first of May, so take their advice in this matter. Please continue your work, and most of all try to rigidly follow all of the rules and regulations and chant at least 16 good rounds daily without fail.

I hope this meets you in good health.

My dear Krsnanandini devi dasi,

Please accept my blessings. I am in due receipt of your letter dated March 3rd, 1975 and have noted the contents carefully. Regarding Bhumata devi dasi's affliction, she should simply take the proper treatment. Make the best out of a bad bargain. This material body is a bad bargain because it is always miserable. So, to make the best out of this bad bargain means to render devotional service in any circumstance. The dust from the lotus feet of the spiritual master is never to be used for material benefit. That is a great misconception. The best thing is that the girl tries her best to chant 16 rounds daily and to follow all of the rules and regulations even if she is afflicted with something, and in this way, she willfully understand the mercy of Krishna and the spiritual master.

I will be in Hawaii in May and June and then American mainland for about 6 weeks. She can send her offering to Hawaii.

I hope this meets you in good health.

My dear Mr. Roy,

Please accept my greetings. I am in due receipt of your kind letter dated 27th march, 1975 and have noted the contents carefully. The process of opening a center somewhere is that we go there and hold classes for one week on the teachings of Bhagavad-gita and if the people like, then we'll open a center. Actually, the teachings of Sri Caitanya Mahaprabhu that in every town and village there will be a center of Krishna Consciousness, is essential. People must co-operate. If not, then they will have to suffer. So, I am very glad that you have come forward, being one of the leaders of the cultural community. I am very much enthused by this. Our ideology is standard. It is not anything new, but it is very old. It is not anything concocted. ajo nityah sasvato 'yam purano na hanyate hanyamane sarire [Bg. 2.20], The living entity is unborn, eternal, ever-existing, undying and primeval. He is not slain when the body is slain. (Bhagavad-gita 2/20).

I would like to take this opportunity to invite you to our Vrndavana festival which will be held on the 20th of April up to the 27th of April. We will be opening our temple there. If you can come, then we can talk in detail about a center at Nagpur.

I hope this meets you in good health.

This body belongs to Krishna and therefore we must always keep it in healthy condition to the best of our ability, but if due to some past sinful activities, we are suffering some bodily miseries we should not become discouraged. Karatiey Mahadevia A-11 Sea Pace Park Bhulabhai Desai Road Bombay-400 026

Dear Karatiey,

Please accept my blessings. I am in due receipt of your letter dated 27-4-75. The enclosure of the Gujarati paper clipping was received but I could not read the Gujarati language. I could although understand the purport of it. I have already decided to make a trust board for Hare Krishna Land in which there will be twelve trustees. Out of them seven will be Indians and five will be foreigners. Foreigners means, not only Americans, but members of the Commonwealth like England, New Zealand, Australia, etc. I have selected you also one of the trustees out of the Indians. I am reaching Bombay on the morning of the 5th instant, so kindly see me so that before leaving for Australia on the 6th I want to immediately make a document of trustees and get it signed by all concerned.

Regarding Ahmedabad program, in Vrndavana, I was certainly a little indisposed, but I have come here in Delhi invited by some MP Ministers in the Central Government. We had one meeting at the place of Brahmananda Reddy, the Home Minister, as well as at the place of Mr. Tripati, the railway minister last night. The meeting was very much successful. They were very much pleased to understand our activities. I am also invited by Mr. L. N. Handa, the late Prime Minister in the central government for a conference at Kuruksetra. We are going there with our party, the morning of the third instant and most probably, I shall come back the same evening. On the fourth instant I shall take rest and then on the fifth morning I shall go to Bombay. This is my present program. I shall be very glad to see you in Bombay on the fifth morning, and we shall discuss how to improve our activities in Hare Krishna Land, Juhu, Bombay.

I hope this will meet you in good health. My blessings for your wife and children.

We came here on the invitation of two big ministers, the Home Minister and the Railway Minister and we had two successful meetings here. Now, on the third instant, we shall go to Kuruksetra invited by Mr. G.L. Nanda. Then I shall come back on the same evening. On the fourth, I shall take rest and on the fifth, I shall go to Bombay. I do not know how much you have proceeded about the land donation by Mr. Hari Prasad Badruka and brothers. If Hari Prasad Badruka donates the land as stipulated, then I wish to make him one of the trustees of Hare Krishna Land, Bombay. I am going to make a trust board for the Bombay Hare Krishna Land in which I wish to include Sri Panalala Pithi, Hari Prasad Badruka, as well as yourself as members of the trustee board. What is your opinion? If possible, please see me in Bombay on the fifth instant, and we shall discuss on this point. If Hari Prasad Badruka and brothers are serious about donating land to us, then my decision is to make one of them especially Hari Prasad become the member of the trust of the Hare Krishna Land. I hope you will understand my views. I shall be glad to see you in Bombay on the fifth before starting for Australia on the sixth instant.

Dear Panalalaji,

Please accept my blessings. I am now staying in New Delhi and I am going to Bombay on the fifth instant. You wanted me to send you news when I am reaching Bombay. You also wanted to come at that time. So, would it be possible to come to Bombay on the fifth instant and do the needful?

Now I have decided to make a trustee board for Hare Krishna Land, Bombay. I wish to select trustees-twelve altogether. Out of them seven will be Indian and five will be foreigners. Foreigner means those who are members of the Commonwealth like Australia, New Zealand, England, Canada, etc. After all, this is an international institution, but the majority of the members of the trustees will be Indian. Namely, out of twelve members, I will make seven Indians and five foreigners. Therefore, I have decided to make you one of the trustees. If you come to Bombay on the fifth instant, we shall discuss on this matter. If not, please send me your letter of acceptance in which you agree to become one of the trustees of the Hare Krishna Land. Kindly treat this as urgent and do the needful.

My dear Lalita Priya devi,

Please accept my blessings. I am in due receipt of your letter dated April 10th, 1975 and have noted the contents. I am happy to know that you are feeling blissful in our Krishna Consciousness movement. We should follow in the footsteps of Lord Caitanya and the six Goswamis of Vrndavana. They were always serving Krishna in the mood of separation. They never said that "now I have seen Krishna" or "last night I danced with Krishna"-No. They were crying where is Krishna, and they were always searching after Him, wondering when they would finally be able to see Him. We should also desire intensely to see and be with Krishna, but first thing is to become purified through devotional service. It is not possible otherwise. So, keep on helping me to spread this Krishna Consciousness movement, following the rules and regulations very carefully, and your life will be perfected and you will see Krishna.

I hope this meets you in good health.

My dear Giriraja,

Please accept my blessings. I am very much anxious to receive report of the Bombay activities, about construction and everything. Please send full report to my Hawaii address: 51 Coelho Way, Honolulu, Hawaii, USA.

We have got many enemies, especially our tenants. Therefore, things should be very carefully done. Whether the tenants union is legally alright and whether by their united action, they can encroach upon the rights of the landlord. We wanted to build up a wall and the tenants, by force, have broken the wall. Does it mean that the tenants unit can encroach upon the landlord's right? Have you formed any advisory committee. of the persons we selected? I think the advisory committee. should not be more than ten persons, very important from the list. The other day, I saw Mahadevia's attitude not in our favor, but in favor of the tenants, being influenced by Acarya. These things should be considered very carefully. For the time being, we have stopped the wall construction, but it was not at all congenial that the tenants broke the wall illegally.

Now, plans should be made how to utilize all the lands available. Sumati Morarji wanted some land for her school on lease. I think we shall negotiate with her on favorable terms. Things in the past were done very irregularly. Now, everything must be done very carefully and cautiously.

I hope this meets you in good health.

Prof. O.P. Goel 7, Krishna Kunj Plot 143, Tulsipipe Road Matunga, Bombay-26, India

My dear Sriman O.P. Goelji,

Please accept my greetings. I beg to acknowledge receipt of your letter dated April 1st, 1975. Please excuse me for my late reply, as I was very very busy in Vrindavan for the opening ceremony of our Krishna Balarama Temple. As I was scheduled to come to Bombay after the ceremony, I thought I shall call you at my Bombay residence, (Hare Krishna Land, Juhu, Bombay) and talk with you in detail. But circumstantially, I stayed in Bombay for a few hours only because from Vrndavana, I went to Delhi, then to Kuruksetra as I was invited by Sri G.L. Nanda in a big meeting, and again I came back to Delhi, then to Bombay and on the same night, to Perth, Australia, where I am now staying.

Your proposal for co-operation with ISKCON is welcome. I very much appreciate your proposal. The mass problem at the present moment in India is actually a food problem. I have therefore decided to start some village organization program-namely, people should be invited to live in the village, produce their own foodstuff (grains, fruits, and vegetables), maintain a sufficient number of cows to get a large quantity of milk, produce their own cloth, eat sumptuously for keeping fit in health, and then they can regularly sit down and chant the Hare Krishna Maha-mantra. I shall arrange for the irrigation of the land and the people living there should give their labor for their own food and clothing, and then chant Hare Krishna Maha-mantra and cultivate Krishna Consciousness. Besides that, our men should go from village to village with Sankirtana party, hold festival, namely distribution of Bhagavat prasadam and induce them chant and join with us in vibrating the Hare Krishna Maha-mantra. In India, they are not less than 95% villagers and Mahatma Gandhi wanted this village organization. I think this is a solid program. The people must eat sumptuously-not voraciously and make them fit for working and chanting. In this way, they will be purified and everything will be nicely organized. We require some men only like your good self to co-operate with this movement. The necessary things in this connection will surely be supplied by Krishna. Simply we want some sincere worker like your honor. Up to date, I am working chiefly with my foreign assistants and disciples. In India, for them there is the language difficulty, otherwise they are ready to work in Indian villages also. Besides that, they have visa problems. Under the circumstances, I require immediately some willing, educated worker for this purpose. So, kindly reply this letter to my Honolulu center. The address is as follow: 51 Coelho Way, Honolulu Hawaii, USA.

By the by, I be to request you to see His Excellency, Sri Aliyavar Jung, the governor of Maharashtra in connection with our temple construction, the sanction for which is pending in his hand. The Governor of U.P., Dr. Channa Reddy, approached him on my behalf on December 18th, 1974, the copy of the letter is enclosed herein. The Governor of Maharashtra acknowledges

which is giving me too much anxiety. I have established about 100 big big temples all over the world. Unfortunately, I am getting too much anxiety in my country and I do not know why. If you kindly solve this problem, it will be a great relief for me and a great service to Krishna.

Thanking you in anticipation.

My dear Mahamsa Swami,

Please accept my blessings. I am in due receipt of your telegram which read as follows: MISSED YOUR GRACE BY HOURS AGREEMENT DRAFT FOR FARM LAND SENT TO YOU PLEASE SANCTION RS 30,000 URGENT TRANSFER TO PREPARE FOR UTILIZING THIS MONSOON -MAHAMSA SWAMI. But, I have not received the draft copy as informed by you. Regarding the money, rs. 30,000, of course, if need be, it must be paid, but one thing is that you must be very careful that our temple portion must be completed by Janmastami so that the Deity can be moved there. This is very important that the temple portion be completed by Janmastami. Whatever money was available, I have given 1-1/2 lakhs to Jayapataka Swami and 2 lakhs to Giriraja. So, you have to take this money from Giriraja. Please arrange like that and let me know what is the progress of Hyderabad activities at my Honolulu address: 51 Coelho Way, Honolulu, Hawaii, USA.

My dear Radheswaranand Goswami,

Please accept my humble dandavats. I beg to acknowledge receipt of your letter dated 23-3-75. I expected you at our opening ceremony of the Krishna Balarama Temple in Vrndavana. The Governor of U.P. came and the festival continued for 7 days. Then I went to Kuruksetra, then I have come here in Australia for installing Gaura-Nitai deities in Melbourne. Then I shall go to Fiji and on to Honolulu.

Regarding opening a center in Saurastra, it will be my pleasure to do it immediately if the local important men like you will co-operate with me. I wish to open centers in the villages. My dear Bhagavata dasa,

Please accept my blessings. This is to introduce Sriman Svadhin Kumar Mullick of 50A, Hari Ghose St., Calcutta-6. I do not remember whether I have seen him before, but his grandfather was my very intimate friend. This boy is coming from a very respectful family, Mullick. I think he is slightly deformed by one hand. Anyway, please admit him to be trained up to be a devotee. He appears to be educated. Let him read our books, follow the regulative principle, and be trained in our line. Then, when I go to Calcutta, I shall see how much he has advanced and then we shall give him some definite engagement.

Hyderabad

My dear Jamuni devi,

Please accept my blessings. I am in due receipt of your letter dated March 28, 1975 and have noted the contents. Your husband recently came to Delhi and Vrndavana and he has sold so many properties of ISKCON through the Mukutwalla. His only business is to acquire money. He is collecting money like anything and is not contributing to the society. So what can I do? I did not say anything to him. I am simply praying to Krishna for his welfare.

It is good that you are now living separate from him. Wherever you live, you can follow the regulative principles and my instructions along with chanting. That will make you happy. Do not deviate from the path I have chalked out for every one of you.

Some years ago, in San Francisco, both you and your husband wanted to live in Vrndavana and I was training both of you to take up the charge of Vrndavana center very expertly. Unfortunately, both of you fell victim to sense enjoyment and now both of you are fallen from the service especially your husband. So what can I do? But if both of you again come to your consciousness, Krishna consciousness, Krishna can lift you again from the fallen condition. That much I can assure you.

Tejyas was complaining that Madira has also gone with Gurudasa. Recently, I was in Delhi for participating in a meeting at Kuruksetra, and he informed me like that.

Anyway, the Vrndavana opening ceremony was performed very gorgeously for 7 days. The Governor of U.P. participated for 2 days. There was a big crowd all the days and it was a grand success. The total expenditure for the opening ceremony was about 60,000 rs. or more and I was feeling your absence. Your husband was present, but his business was different. Anyway, what can I do? I can simply pray to Krishna for revival of your old Krishna Consciousness.

I hope this meets you in good health.

Sri K. C. Nigam Convenor-All India Spiritual Conference 108/119 Durgadevi Road Kanpur-208012, INDIA

My dear Mr. Nigam,

Please accept my blessings. I am in due receipt of your letter dated March 11th, 1975 and have noted the contents. Now, I am on world tour. At present, I am staying in Perth, Australia, then in one week, I shall go to Melbourne, then Fiji, then Honolulu where I will stay for at least one month. Then I shall go to Philadelphia and San Francisco, etc.

I am very glad that you are holding some spiritual conference, but my only request is to follow the standard method of spiritual consciousness. One must know first of all, what is the spiritual basis. Anyone who is accepting this body as the self, he is no better than the cats and dogs. One must know what the spirit soul is within this body. He is eternal part and parcel of God, therefore, his only business is to revive his eternal relation with God and work on that fundamental basis so that he can achieve the ultimate goal of life. The whole thing is instructed in the Bhagavad-gita and if we accept the teachings of Bhagavad-gita, as it is without unnecessary commentary on it, then our spiritual movement will be successful. But, if we manufacture something out of our own concoction, it will never be successful. This is confirmed in the Bhagavad-gita (16/23):

yah sastra-vidhim utsrjya vartate kama-karatah na sa siddhim avapnoti na sukham na param gatim [Bg. 16.23]

”But he who discards scriptural injunctions and acts according to his own whims is headed for a hellish destination.”

I hope this meets you in good health.

Please meet him and hand this letter over to him or forward it by post as is convenient for you. Please also keep in constant contact with Laxman S. Agarwal and his genius wife also. Try to encourage them to construct the temple in their factory as soon as possible.

Also keep in constant contact with that Oriya Minister of Defense. I forget his name. Try to get some acres of land near the Buddha Jayanti Park. I wish to develop a Janmastami Park there and invite all the residents of New Delhi there to observe a grand festival on Janmastami day. I wish to construct a grand temple of Krishna Balarama and keep many cows in this park. The residents of New Delhi will be very much encouraged to visit this park. That is my ambition. Both the Deputy Minister of Defense (the Oriya Minister) as well as Mr. Agarwal can give us substantial help in this progress.

My dear Yadunandan,

Please accept my blessings. I have just been informed by my servant, Srutakirti, that the young children, under twelve, are not allowed to use their japa beads while chanting. This policy is not good. Why this change has been made? I never said they should not use their beads. That is our business. They must be taught how to respect their beads. How they can learn unless they use them? That is the trouble with you westerners, always changing. No changes should be made without first consulting with my GBC representative. So, the children should immediately be allowed to chant on their japa beads.

My dear Ramesvara,

Please accept my blessings. Caitanya caritamrta is complete (12 parts) and only 3 parts are published, and now the 5th Canto is almost finished, so why these books are not being published? This is our first business. Immediately, these pending books (17 in total) must all be published. Why the delay? The US printer's binding is better than Dai Nippon. So, some may be printed in US and some in Japan, but the pending books must be finished in a very short time. When I see so many books pending, it does not encourage me to translate. When I see books printed, I become encouraged to write more and more. We can talk this over more in Hawaii. Now, you and Hamsaduta expedite the publishing work. That is your business. And push on the selling. You request Tripurari Maharaja in this connection along with the others. Now, Bhavananda Swami and Gargamuni Swami are there. They are also expert in pushing this on. By combined effort, publish as quickly as possible and immediately Caitanya-caritamrta should be done.

My dear Dinanatha,

Please accept my greetings. Since I saw you last at your house, I had gone to Kuruksetra, Delhi, and also attended our Vrndavana temple opening ceremony, and now I've come to Australia to open another temple here. Just this evening the function is completed. From here, I shall go to Fiji and then Hawaii (USA). I was wondering whether you will be willing to join this Krishna Consciousness movement in your ripe old age. Your beloved son goes to our temple in Calcutta along with your daughter-in-law. I am very much pleased upon them. I also understand that you do not move very much nowadays, therefore you cannot come in the temple, but at home you can render some valuable service for this movement. So far I know, you are a good Hindi scholar as well as in English. So, if you like, you can translate our books into Hindi and I shall be glad to hear from you in this connection. I do not know whether you shall receive this letter because your house number is not known to me. I have simply given an idea of your address on the envelope. I am asking somebody in our temple to go to you with the copy of this letter.

Please accept my blessings. I am in due receipt of your letter dated May 4th, 1975 and have noted the contents. Thank you for boldly infiltrating into the intellectual circles there. By attracting intelligent men to our movement, automatically, others will also be attracted to come. By preaching in this way, one becomes firmly convinced of the philosophy of Krishna Consciousness himself, and gradually it becomes easier and easier for him to convince others also. Most important thing is to follow all of the rules carefully, chant 16 rounds, and read our books carefully. This will make you spiritually strong.

My dear Gunagrahi dasa,

Please accept my blessings. I am in due receipt of your letter dated May 8th, 1975 and have noted the contents. Thank you very much for doing such nice preaching work there. Train our men to follow all of the rules and regulations very carefully, as well as to chant at least 16 good rounds daily and to read all of our books.

Regarding the festival on July 6th, the best thing is to simply hold big kirtana and have plenty of prasadam distributed. Generally, the public masses are not so much interested in hearing philosophy. After five or ten minutes, their attention is lost. You can speak a little philosophy, but the stress should be on kirtana and prasadam and selling my books.

I accept Sharon Swanson for 1st initiation. Her name is Sandamini. Her beads may be chanted on by Satsvarupa Maharaja. Also I have accepted Sajjane Jivana for 2nd initiation. Let her hear the gayatri tape (of myself chanting) through the right ear. Her mantra sheet is enclosed.

My dear Hamsaduta dasa,

Please accept my blessings. I am in due receipt of your letter dated May 15th, 1975 and have noted the contents. Your pair of slippers is very nice. Thank you very much. Thank you for sending my coat to Melbourne. It is a little cool here. Your program in Germany is a good one. There is no need of establishing a deity for the time being in these places you have mentioned. Simply make a nice preaching center. Yes, while you are in India you may appoint other competent devotees to take responsibilities. I am very pleased with the life member program as well as the annadan program. That is a very good idea.

Regarding BBT affairs, European publications are your main business, but for the time being, you must also see to the accounts and managing of the BBT in USA. Bhagavan can also be another BBT trustee. His name can be added to the list. It is approved by me that you get the books for only 20% above the cost of printing.

Regarding the farm, whatever money I had, they have taken 3 1/2 lakhs in India. Giriraja tooks 2 lakhs and Jayapataka Swami took 1 1/2 lakhs. So, you can provide the funds from Europe I think. As far as machines are concerned, it is better to avoid using them as far as possible. I am enclosing one letter that I have recently written to Mahamsa Swami concerning the farm for your information.

I hope this meets you in good health.

My dear Hrdayananda Goswami,

Please accept my blessings. I am in due receipt of your report dated April 30, 1975 and have noted the contents. When our Mexico City branch is open, how can we close it? That building there is very nice and we have been there for five years now. I am not at all in favor of closing such a temple. Stay there in that building somehow or other, and if you like, you may also open a center in Guadalajara. We can keep men in Mexico City who are approved by the government, why should we close it? Jagadisa prabhu is there, so, work together with consultation so that we may remain in that building. Jagadisa has met one good lawyer and he is helping us. It looks favorable for us. You and Jagadisa please arrange it so that we may not have to leave Mexico City. That is my desire.

I hope this meets you in good health.

My dear Mahamsa Swami,

Please accept my blessings. I am in due receipt of your letter dated 7-5-75 and have noted the contents. Please find enclosed the copy of the draft agreement with my corrections made therein. The money you have requested can be paid, but unless there is a solid transference of the land over to ISKCON, then how can we invest any of our funds? It is not good business to invest money when it is not sure yet that the land will actually be transferred in the name of ISKCON. This must be considered very carefully before anything can be spent. Immediately send me one copy of the original trust document as drawn up by the settlor and I will examine it. After I have seen it, I will give my next instruction. Send reply to this letter along with copy of document to my Hawaii address: 51 Coelho Way, Honolulu, Hawaii, USA.

My dear Ramesvara dasa,

Please accept my blessings. I am in due receipt of your letter dated May 7th, 1975 and I have noted the contents. I am extremely happy to hear that a firm of young lawyers are now working with us to help us spread this movement by helping us to flood the world with our books. This is very welcome news. Things are looking very favorable for us, now we simply have to try even harder to sincerely carry out Sri Caitanya Mahaprabhu's orders and He will be pleased to provide us with more and more facilities. Co-operate nicely with one another and strongly push on this mission by printing and distributing our books in unlimited quantity.

Dear Sir,

While I am in Australia (Melbourne) at the above address, I received your Hindi newspaper "Vraja-Garima," but unfortunately, I don't see anything written about Brajendra-nandana, Krishna. So far we are concerned, we are preaching the glories of Krishna throughout the world, to glorify Brajendra-nandana Hari. Our Krishna Consciousness movement is going on in the Western world very appreciatively. We have published about 50 books of 400 pages each and they are going well. Recently, we have received a report from our headquarters in Los Angeles, California, USA, how our books are being accepted by the authorities. I think if you want to glorify Vraja, as you like to say, "Vraja-Garimi," then we can co-operate very nicely. We can publish many books in Hindi translated from our English books, and distribute them to the Hindi knowing public, both in India and abroad. If you are interested, please correspond with me at the following address; where I will be going very soon: 51 Coelho Way, Honolulu, Hawaii, USA.

My dear Srutadeva dasa,

Please accept my blessings. I am in due receipt of your weekly sankirtana newsletters. I am always happy to hear of increasing book sales. These reports are very encouraging to me. Our real business is to print and distribute books. By doing this business, you are all becoming recognized by Krishna. Please try to continue working so nicely for Krishna, following the rules and regulations, chanting 16 rounds, and studying my books and you will finish your business in this material world in this life and enter into the spiritual world to live with Krishna eternally. Don't become discouraged by an so-called problems. Make your program simple, that is to say, always make sure that you are somehow or other engaged in Krishna's service, and the best service is preaching or engaging others in Krishna's service. So continue in this way and be happy.

My dear Kerry,

Please accept my blessings. I am in due receipt of your note and your hand-knitted sweater gift. Thank you very much for this sweater. I have been using it here in Melbourne as it is a little cold here. Please continue living nicely in Krishna Consciousness, chanting 16 rounds daily minimum, rising early, following the rules and regulations, reading my books, and make your life perfect. Regarding your initiation, I will be pleased to accept you as my disciple if Tusta Krishna Swami gives me his recommendation. It appears from your letter that you are following everything very nicely, so if Tusta Krishna Maharaja will recommend you to me, then I will be very happy to accept both you and your wife for first initiation.

My dear Madhava dasa,

Please accept my blessings. I am in due receipt of your letter dated nil and have noted the contents. You go to those rascals and they will convert you. You are not so strong that you can convince them and convert them from their foolishness. It is distinctly said in the Bhagavad-gita that the purpose of Vedic knowledge is to understand Krishna, vedais ca sarvair aham eva vedyo, [Bg. 15.15]. So, we are presenting Krishna in so many ways, politically, socially, economically, philosophically, and religiously, etc. We are describing Him in 75 books of 400 pages each. Better read these books thoroughly and be firmly convinced yourself before going to these demons for convincing them. if you are weak yourself, while trying to convert them, you will be converted by them. Don't try any hard task before you are very strong. Chant 16 rounds daily, follow the rules and regulations, and read our books. Don't become very big preacher immediately.

I hope this meets you in good health.

Please accept my blessings. I am in due receipt of your letter dated May 13rd, 1975 and have noted the contents. I am very sorry that you have taken to homosex. It will not help you advance in your attempt for spiritual life. In fact, it will only hamper your advancement. I do not know why you have taken to such abominable activities. What can I say? Anyway, try to render whatever service you can to Krishna. Even though you are in a very degraded condition Krishna, being pleased with your service attitude, can pick you up from your fallen state. You should stop this homosex immediately. It is illicit sex, otherwise, your chances of advancing in spiritual life are nil. Show Krishna you are serious, if you are.

My dear Aksayananda Swami and Dhananjaya,

Please accept my blessings. I am in due receipt of your letter dated May 17th, 1975 and have noted the contents. I was very much encouraged by this nice report you have given. Continue to organize the guest house. This is very important. Do it very nicely with the co-operation of Dr. Verma. In the evening, you must have many varieties of first class ghee-cooked preparations offered to the Deity and you can sell the prasadam. The L.A. standard is good, but still you should have a better standard. You should make kacoris, samosa, etc. If it is required, a professional confectioner may be employed. The Deity worship must be done very gorgeously. The 24 hour chanting is very encouraging to me. Please continue all as I have given you. I have full faith in both you. Kindly execute the routine work very nicely. Please send me a weekly report of how things are going on.

Keep the accounts carefully and occasionally, they may be audited by Vishvambara's brother. Also, what about the Punjab National Bank opening a branch at our temple? Either Syndicate Bank or Punjab National Bank must open a branch on our land and pay 300 rs. rent. If they are not willing, then approach State Bank of Central Bank. Ask Gopala Krishna to complete the negotiations for the 5,000 sq. yds. of land. He's in charge of that.

I hope this meets you in good health.

Thank you for being attracted to this Hare Krishna movement and engaging yourself in chanting Hare Krishna. You are most fortunate to be giving up your sinful activities and chanting the name of Krishna. Please continue and go to visit our temples as much as you can. After you have followed our principles for a while under the instructions of one of our temple presidents, I shall, upon his recommendation, give you a spiritual name and initiate you into the chanting of Hare Krishna. For the time being, it is not necessary for you to have a deity of Krishna. That will come later. For now, just chant Hare Krishna and read my books, and try to follow our principles in association with devotees.

I think it is very obvious, even you have admitted, that the problem is that you are not following the basic principles of our society. The fact that you have not chanted your rounds for a long time is enough to make you without any spiritual strength. The best thing for you is to seriously try to follow all of the rules and regulations very strictly under the guidance of the temple authorities. My dear Hasyakari,

Please accept my blessings. I am in due receipt of your letter dated May 17, 1975 and have noted the contents. If the GBC has no objection to your going to India to help with the cow program, then I encourage you to go there. This program is very very important. If you can help to organize our cow program in Mayapur, it will be a great credit for you. We must be able to grow our own fodder for the cows. We don't want to have to purchase food for the cows outside from some other party. That will run into a great expense. Cow protection is the business of the vaisyas and along with our preaching, this is the most important work. We must have a good section of Brahmanas in our society and we must also have a good group of vaisyas who can grow grains and tend cows, and thus supply the society with food-grains and milk products from the cow like ghee, curd, cream, etc. If you can help in Mayapur it would be very much appreciated.

I have accepted the devotees you have recommended for initiation. Their names are: Stephen-Sundarakara, Janet-Jaganmurti, Patricia-Premaka. Their beads may be chanted by Kirtanananda Swami. The thread for Phanamandita dasa is enclosed and the mantra sheet is also enclosed with the gayatri mantra. Let Siladitya devi, Mahavegavati devi, and Phanamandita dasa all hear the tape of myself chanting the gayatri mantra through the right ear. My dear Vahna dasa,

Please accept my blessings. I am in due receipt of your letter dated May 12, 1975 and have read the Cintamani poetry book. It is indirect, impersonal and useless. Who will read these things? Krishna's name is only mentioned in two poems in the whole book. What is this? There are so many poems written by great acaryas. Why do you try to concoct something like this? It is not in our line. How is that our Kirtanananda Swami is there and he has approved printing this? It is a waste of time, paper, money, ink, and labor. There is so much work to do for spreading this Krishna Consciousness. Who will become attracted by such things as this. You should all spend more time reading my books very carefully and stop all this unnecessary manufacturing.

I hope this meets you in good health.

N.B. Why there is no picture of Krishna on the cover? If you have the desire to write poetry, better if you read one chapter of Krishna book very carefully. Then put it into poetry. My dear Hrdayananda Gosvami,

Please accept my blessings. I am in due receipt of your letter dated May 21, 1975 and have noted the contents. Try everything to remain in that house in Mexico City. I like that house very much. The best thing to do in Guyana is to kick out Mr. Rama, but if it is not practical, then let him buy us another house of our choice for our use-at least as good as that house, if not better. Regarding registration in Guyana, you simply have to show in court how we are an international society, not for any particular creed, race, or nation. Show them that we are a cultural movement. You should not back away when things get difficult.

Regarding your spanish literature, I am very happy to hear that they are selling nicely. Now, print more and distribute more. I saw one photo there of Bharadraja's doll studio along with the others. You can tell him that we want many Panca-tattva Deities made out of cement or plaster paris. They can be made the same size as the L.A. Gaura-Nitai Deities.

Regarding your sarod playing, I shall hear you play when I come to Los Angeles next.

My dear Kirtanananda Swami,

Please accept my blessings. I am in due receipt of your letter dated May 23, 1975 and have noted the contents. Your report is very nice to hear. If you give the right protection to the cows, then they will give so much milk, that the ground of New Vrndavana will be muddy with milk. European and American civilization will be finished on account of this sinful activity of killing the cows. Actually, one should not circumambulate when the Deity is open. It is stated in the Nectar of Devotion. I think you can close the doors to the Deity room during Tulasi puja and then open them again afterwards.

Regarding my coming to New Vrndavana, yes, I can stay there for the month of August. That will be very nice.

I hope this meets you in good health.

Honolulu 31 May, 1975
75-05-31
New Delhi
My dear Prabhakar,

Please accept my blessings. I thank you for your letter dated May 20, 1975. I have not yet received any reply from Nandaji. So, immediately, what I want is in the Kuruksetra university a class should be opened for studying Krishna Consciousness and there are already about 50 books in English and Sanskrit, so if the university offers degree, B.A., M.A., and P.H.D. in different grades of understanding, I can arrange for many foreign students to come there. My first business is to spread Krishna Consciousness all over the world. Actually, this movement is not to be limited in India only-that is the mission Lord Caitanya Mahaprabhu. As desired by you, I can immediately take up the task of opening a center there and to open a varna-asrama college there affiliated by the university. In this college we shall train up pure brahmanas, (qualified brahmanas), Ksatriyas and Vaisyas. That is the injunction of Bhagavad-gita. And this institution will be open for all without any discrimination. As I am training these European and American boys, most of them coming from Christian and Jewish families, and they are accepting to become a pure brahmana and then a pure sannyasi. This system should be introduced. They must sit for proper examination after being trained. And then why not accept them as real brahmana by quality and work? This procedure is recommended both in the Bhagavad-gita and in the Srimad-bhagavatam.

In the Bhagavad-gita, it is said that the brahmana, ksatriya, vaisya, sudra should be selected by quality and work. Similarly, in the Srimad-bhagavatam, it is said that if quality and work is present in a different varna, that is to say, if the quality of a brahmana is visible in a person born in sudra family, such person on account of quality and work, should be accepted as brahmana. So, if we start a varna-asrama college in terms of Bhagavad-gita instructions and approved by Srimad-bhagavatam, why the university will not give degree to a qualified person as approved brahmana. This is the necessity of the present day. In the days past, when Prthu Maharaja was the emperor, his government was inspecting to see whether a brahmana is acting actually as a brahmana, whether a ksatriya is acting as a ksatriya, and all the different castes were engaged in all their respective duties. At the present moment, even though one is qualified brahmana, he does not get sufficient opportunity to act as brahmana, and therefore he is obliged to accept the occupational duty of someone who is outside the brahminical post. But if we accept the principle of varna and asrama as they are recommended in the sastra, and if we push on the Krishna Consciousness movement, surely everyone will be engaged in his occupation and the question of unemployment will be finished. Therefore, I think if we propagate this movement on the principles of Bhagavad-gita, all the problems of the human society will be solved. I can do all this business if some leading man of India co-operate with me. When I was in Delhi, Nandaji met me and I spoke to him exactly as I am writing now, but he said that immediately, these things cannot be introduced. But, I think it can be introduced immediately without any loss of time, provided you are serious about it.

I am so pleased that you are ready to help me in spreading Krishna Consciousness in India. So, kindly decide it finally and immediately upon my return to India, maybe by the end of August, you meet me anywhere I am (of which I shall inform you duly). In the meantime, you can let me know what is the position of the Birla temple at Kuruksetra. What is the form of Deity being worshiped there? How the management is going on? Who is the chief Birla under whose direction the temple is being managed? My idea is that if this temple can be used for our movement, then we do not need to construct a separate temple. If it is not possible to utilize this temple, then we can construct our own temple and for constructing temple and varnasrama college, we shall require a big plot of land-at least 10-15 acres or more. Whether this plot of land is available through the government acquirement. So, these are the immediate questions which I place before you. Kindly let me know the answers as soon as possible.

I hope this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

ACBS/ps N.B. On May 18, 1975 we just opened a very large headquarters in Melbourne, Australia. The festival took place with great pomp and it was a great success. Many outsiders came and took part in the festival. I installed two very large, beautiful Deities, Gaura and Nitai in a very beautiful all-marble temple room. Things are going on very nicely in the western countries.

My dear Jayananda dasa,

Please accept my blessings. The book, "Hare Krishna and the Counterculture" written by Professor Judah, the copy of which was presented to you was lying here at Honolulu temple. I have read it with great interest. Just to congratulate the Professor, I am enclosing herewith a letter to him. I do not know his address therefore I am sending it through you. I wish to present him also one copy of the book titled, "Lord Caitanya in Five Features." So, kindly immediately see him with my letter and the book and congratulate him on my behalf.

My Dear Professor Stillson Judah,

Please accept my humble greeting and blessings of Lord Krishna. Since I have come to Honolulu from Melbourne, I got the opportunity to read your nice book "Hare Krishna and the Counterculture" with profound interest. I am also very much obliged to you as you have shown to me so much mercy, even by illustrating my photograph instead of your goodness. The presentation has been done just fit for ready by all scholars and educationists. If you so permit I can ask my assistants to publish some important extracts from your work in our magazine BTG for benefit of all our readers. Besides that we can sell your book also along with our other books by arrangement. I don't know what is exactly your address and therefore I am dispatching this letter through my disciple Sriman Jayananda Adhikari. I shall be very glad to meet you again when I go to the mainland. You have taken so much pain for writing this book and I thank you very much again & again. May Lord Krishna bless you more & more.

Yours very sincerely

My dear Mahamsa Swami,

Please accept my blessings. I am in due receipt of your letter dated 24-5-75 and have noted the contents. Regarding Acyutananda's preaching, what is the use of criticizing Sai Baba and creating some enemies? Do not do this in public meetings. It is different to do it in a private meeting. You can discuss all details about the farm with Hamsaduta and then do the needful. He will be coming there very soon. Anyway I am forwarding your report to him for his information. Regarding registration with the Endowments dept., you can discuss this with Gopala Krishna.

My dear Mr. Sharma,

Please accept my blessings. I am in due receipt of your letter dated 1-5-75 and have noted the contents. The best thing is if you continue to visit our temple regularly in Vrndavana at Raman Reti. The temple manager there is His Holiness Aksayananda Swami. Since I am overseas and cannot personally interview you, you please request Aksayananda Swami to recommend you to me for initiation, and then do the needful as he may suggest to you. By this process, it may be possible for you and your wife to be initiated as my disciples. We are very strict in the selection of disciples. We are not after large numbers. In order to be initiated by us, one has to chant at least 16 times around his japa beads daily (the Hare Krishna maha-mantra), he has to follow strict rules such as: no meat, fish, eggs, no intoxication-including tea and cigarettes, no illicit sex, and no gambling.

I hope this meets you in good health.

My dear Krsna Vilasini devi dasi,

Please accept my blessings. I am in due receipt of your letter dated May 29th, 1975 and have noted the contents. There are many examples in history of persons who have been very much disabled physically, but still have executed Krishna Consciousness. Still, up to date in places like Vrndavana, India, there are many persons who are blind, crippled, lame, deformed, etc., but they are determined to practice Krishna Consciousness to their best ability. So, you should also do like that. Simply be determined to practice the process of Bhakti-yoga with whatever abilities you may have. If you are really sincere, then Krishna will give you help. If you require any medical help, you can take as much as is needed.

I hope this meets you in good health.

My dear Gopala Krishna,

Please accept my blessings. I am in due receipt of your letter dated May 26, 1975 and have noted the contents. It is a great credit that you have met with the Chief Minister and now he will give us all help. Why you did not apply immediately for the NOC? You should do it immediately, if you have not done so already.

Regarding Bangalore, I am not much interested in staying there. I have already got so many places to stay, but I cannot stay in any of them for more than a few days.

Why the guest house in Vrndavana is not yet organized? You have not even mentioned it in your report. That will pay for the maintenance budget if you simply organize it. You must do it immediately. Pranava and Dhananjaya together can organize it, or anyone else who may be able to do it, but it must be done. Why is there delay? Stop construction for the time being, and clear all of the debts.

Regarding Hong Kong, Bhurijana is in Melbourne and he is again ready to help there if he is needed. Yes, try to start a center in Malaysia. That Malaysian boy can help in this connection.

I hope this meets you in good health.

My dear Pranava,

Please accept my blessings. I am in due receipt of your letter dated May 26, 1975 and have noted the contents. I agree to give Sri Ghanshyam das amount that you have mentioned, and he must donate the 25,000 rs. and he can be a patron member with his brother. But, why you are asking for so much? You do not need 1 1/4 lakhs. You only need 75,000 rs. Anyway the money can be paid by PNB upon my request, but first you make the sales agreement, then you take the owners' documents to our lawyer to make sure they are actually bona fide, and the lawyer will give a title certificate, if they are bona fide. Then you make the deed conveyance, and take it to the registration office for being registered. Then upon registration, at that time, you give the payment. Not before that time. So, by the time you have done all this, the money will be ready for you. The land should be put in the name of International Society for Krishna Consciousness, Mayapur-Vrndavana Trust, Founder-Acarya A.C. Bhaktivedanta Swami Prabhupada.

Letter to: Satsvarupa

-

Honolulu 4 June, 1975

75-06-04

Los Angeles

My dear Satsvarupa dasa Goswami,

Please accept my blessings. I am in due receipt of your letter dated May 31, 1975 and have noted the contents. Thank you very much for working so hard to distribute my books in the Libraries. This is very much pleasing. You will make your whole country Krishna Conscious in this way. Regarding the book review booklet, it can be included in another small booklet which I have just told Ramesvara to print called "The Hare Krishna Movement." The Miami situation is a great discredit for us because we have made such a bad impression on the neighbors that they have had us kicked out. This is because of nasty management. Rupanuga was the GBC, and now you are, why it cannot be made clean? Abhirama has proved his poor management, so he must be replaced. If you sell the old buildings and buy some land as proposed, it may be very nice. One thing is though, if the management continues to be so nasty, then that place will also be ruined. Management must be done very nicely otherwise it is useless. Regarding your staying in Houston, yes, but do not neglect your other business. Jagadisa can take over New Orleans management. Yes, you will be my GBC travelling secretary in August.

Regarding, Bon Maharaja, I am actually authority accepted by authority. In the Caitanya Caritamrta it is said, krsna sakti vina nahe nama pracar. So, now the Hare Krishna movement is world known, and learned scholars, etc. give plaudits to me as Professor Judah has. So, then why I am not authority? Nobody says Bon Swami has done it, or Vivekananda, or any other swami. There are so many yogis and swamis coming, but nobody is giving credit to them, they are giving the credit to me. So, why I am not an authority? If Krishna accepts me as authority, then who can deny it? Besides that, in 1933, Bon was given the first chance to preach Lord Caitanya's movement in London. He remained there about four years and not a single person could be converted to become a Vaisnava and he was receiving regularly 700rs. per month for his expenditure, being supported by the whole Gaudiya Math institution, and still, as he could not do anything appreciable, he was called back by Guru Maharaja. Then where is his authority? Our authority comes from Parampara system. If the Guru was not satisfied with him and called him back, and since then, he gave up connection with Gaudiya Math and started his own institution, then how he becomes authority? And in spite of all these things, if he is still authority by his own imagination, then people should ask him what he has been doing for the last 40 years, about the objective of Gaudiya Vaisnavism. Even if he thinks that he has done, certainly he has not done better than me. Under the circumstances, accepting him as an authority, I am greater and better authority than him. So, all Vaisnavas are authorities to preach Krishna Consciousness, but still, there are degrees of authorities. On the whole, if his motive is to supress me and that is why he has come here, how we can receive him? He has already given one Professor a wrong impression. He may be treated as a guest, if he comes to our center, give him prasadam, honor him as an elder Vaisnava, but he cannot speak or lecture. If he wants to lecture, you can tell him that there is already another speaker scheduled. That's all.

I hope this meets you in good health.

Preaching is our life. Follow strictly the principles, read, chant,-then there is success. And if you don't do this, spiritual strength is reduced. Regarding your question at the end, yes, the soul is eternal and it is transmigrating from one body to another. Therefore the body is undergoing evolution, not the soul. Just like if I come to the USA from India, I have to change my residence. I personally do not have to change, but my residence changes. My dear Mooljibhai Patel,

Please accept my greetings. Since a long time, I did not hear from you. Hope you are all doing well with your business and family affairs. Recently, we have purchased one building at Berkeley and the Deities, I have understood are being removed by the 1st of July. I understood also that the Gujarati Vaisnavas there are not happy on account of the temple being moved to Berkeley. The San Francisco temple, not being situated in a nice quarter, they are trying to remove to somewhere else. Now they have got a Berkeley temple. It is not my policy to close any temple, but if there is inconvenience, we change the place. If we can get another nice house in San Francisco in good quarters, we can immediately re-open another temple in San Francisco. Sriman Citsukhananda das Adhikari is also enthusiastic in this connection, therefore, if your good self along with other Hindu Vaisnavas help us in this connection, it will be my pleasure to get another temple in San Francisco as soon as possible.

My dear Caityaguru dasa,

Please accept my blessings. I am in due receipt of your letter dated June 6, 1975 and have noted the contents. The idea of the Bhetnama system is that the man pays the cost of the room and we make a plate with his name on it saying, "the cost was payed by such and such person." Whenever he may come, he can use the room. And when he is gone we will use the room for other guests, but if he may come the room will immediately be made available. After his death, his heirs cannot make any claim on the room. While staying with us, they must follow the principles and there should be a certain limit to how long they can stay. For the details, I think Giriraja can find out how it is done at Tirupati and other temples in India and let you know. I will ask him to do so and inform you.

I hope this meets you in good health.

My dear Radha Krishna Dhawan,

Please accept my greetings. I am in due receipt of your letter dated April 29, 1975 and have noted the contents. Yes, we are trying to set a perfect example according to the Bhagavad-gita as it is, how to execute simple living and high thinking. We are not interested in any material comforts of life which are limited and temporary. We are interested in solving the real problems of life, birth, death, old-age, and disease. These problems must be solved, and Krishna gives the formula in the Bhagavad-gita. So, we are preaching that simple formula given by Krishna, and people are trying it and finding real happiness in life, therefore the Hare Krishna movement is an undeniable success. Everyone is accepting. I am very glad that you are also accepting. Please visit our temple there in Juhu as much as possible, and try to read our books. We have many books, about 50 400 pages long each, as well as many smaller ones. Study this movement carefully and you will find it very rewarding.

I hope this meets you and your good wife in good health.

My dear Sudhindra Kisora Roy,

Please accept my blessings. I am in due receipt of your letter dated 21-4-75 and have noted the contents. Please continue to visit our temple in Calcutta as often as possible. I cannot very well understand what your letter says due to typing errors and spelling and grammar. But even if there may be some problems, always try to remain in Krishna Consciousness. Do not give up chanting the Hare Krishna mantra simply due to some external difficulties. Under all circumstance you should always chant Hare Krishna Hare Krishna Krishna Krishna Hare Hare Hare Rama Hare Rama Rama Rama Hare Hare. This will protect you from all danger of being influenced by Maya or the material energy.

My dear Mr. Van den Tak,

Please accept my greetings. I am in due receipt of your letter dated 1-6-75 and have noted the contents. Your endeavor to prove scientifically the existence of re-incarnation is not very practical. It is like bringing a cannon to kill a mosquito. It is not required to bring a cannon to kill a mosquito, similarly any sane man can understand the principle of re-incarnation. There is no need of giving some long so-called scientific explanation. Explanation is already given in the Bhagavad-gita, as it is. Krishna, the Supreme Authority has already explained, and you should accept and understand His explanation and then try to make others understand. You should visit our temple in Sydney. Professor Stillson Judah Graduate Theological Union Library 2451 Ridge Rd., Berkeley, CA. 94709

My dear Professor Stillson Judah,

Please accept my greetings. Your kind letter dated June 6, 1975 in hand, I thank you very much for this. The chapter 5 of Caitanya-caritamrta is already dispatched yesterday by post. It is my great delight that you have realized how Krishna Consciousness has transformed lives from drug addicted hippies to loving servants of Krishna and humanity. Loving service of Krishna is so exalted, that it automatically turns loving service to humanity. Krishna is just like the root of the tree and if you pour water on the root, it automatically reaches other parts of the tree. It is said in the Srimad-Bhagavatam, yasyasti bhaktir bhagavaty akincana sarvair gunais tatra samasate surah harav abhaktasya kuto mahad-guna manorathenasati dhavato bahih [SB 5.18.12]. If a person has unflinching devotion at the lotus feet of Hari (God), then all the good qualities of great personalities like the demigods, automatically becomes manifest in the person of a devotee. Whereas a nondevotee, even he is decorated with material qualities, he is forced to act on the material plane and he stays in temporary field of activities. The idea is that spirit-soul is eternal and the material body is temporary, or for the sake of sense gratification. The mental plane is also material. People being forced to stay on the material platform, they are planning for temporary happiness, and being frustrated, they are jumping from one platform to another which are all temporary. But, fortunately, if one becomes situated on the platform of Krishna Consciousness, then his jumping over material platforms becomes ceased. It is confirmed in the Bhagavad-gita as follows: yam labdhva caparam labham manyate nadhikam tatah-Upon gaining this, he thinks that there is no greater gain. So, at the present moment, there is great necessity to give to the human society Krishna, or God. Everyone speaks of God, but nobody has clear idea what is God, or where is God. We Hare Krishna people are trying to do our best to say, "here is God, Krishna". So, please try to co-operate with this movement and I am sure the world will be happy. I am coming to Los Angeles on the 20th of June, and more when we meet.

Yours very sincerely, A.C. Bhaktivedanta Swami

My dear Mr. Ogata,

Please accept my greetings. By experience, we gather that Japanese ladies and gentlemen are very much interested with our Krishna Consciousness movement, especially with our literature, and more specifically with Srimad-bhagavatam. Here in Hawaii, many Japanese gentlemen, they purchase Srimad-bhagavatam simply by hearing the name, but they have got the language difficulty-they don't know English. So, if our books were translated into Japanese language, it will be a great help to us and to you also because it will be another opportunity for printing books. So, why not give us a good translator who can regularly translate all our books into Japanese? This will be another enterprise for printing in your press. So, if you can arrange for this with a Japanese scholar, or if you take this responsibility, then it will give me great pleasure.

I hope this meets you in good health.

Calcutta

My dear Dinanatha,

Please accept my greetings. I thank you very much for your letter dated 30-5-75. I am very sorry to say that I did not receive your letter addressed to me at Mayapur. I am still in Hawaii and I shall leave this place by the 20th of June for Los Angeles. Our temple there is situated at the following address: 3764 Watseka Ave., Los Angeles, California, USA 90034.

I am not returning to India by Rathayatra festival because there are programs here in America and Europe-Rathayatra festival in five different places like, London, Philadelphia, Chicago, San Francisco, and Melbourne. So, I am introducing this Rathayatra festival in the Western countries and the idea is received everywhere very very enthusiastically.

I am enclosing herewith one Back to Godhead magazine specifically dedicated to describing the Rathayatra activities.

After leaving India, I went to Australia and there we have constructed a very nice temple of Sri Caitanya Mahaprabhu, Radha-Krishna, and Lord Jagannatha at Melbourne. This movement is being highly appreciated by the higher educated circle. One professor in Berkeley, California University has written one big book in favor of this movement, "Hare Krishna and the Counterculture".

I am glad that you are now writing books about Lord Ramacandra. It is a very good idea. I think you are a devotee of Lord Ramacandra, and because you are my very old and dear friend, I will suggest now in your old age (when your sons are grown-up and well-situated), why not join this movement and retire from family life? According to our vedic principle, a person, especially a Brahmana, should leave home after the 50th year and accept the order of Vanaprastha. Then after a few years of Vanaprastha, one should accept the Sannyasa order for the rest of his life and devote himself fully in the service of the Lord.

There is a great need of the Krishna Consciousness movement all over the world. If educated persons like you take active interest in this movement, and preach the cult for the benefit of the mass of people, that is the success of life.

You will find on the 2nd page of the enclosed magazine, a list of our important centers all over the world. In big cities like London, Chicago, New York, Paris, Rome, Geneva, Tokyo, Toronto, Los Angeles, San Francisco, and in India, Vrndavana, Navadvipa, Bombay, Calcutta, Hyderabad, etc. I wish that you may retire from family life and live in one of our so many centers wherever you like, and preach the cult of Krishna Consciousness. That will make your life successful.

Because you are my very intimate friend, from college life, I take this opportunity to give you a suggestion, and I shall be glad to hear from you.

I hope this meets you in good health.

Yours very sincerely, A.C. Bhaktivedanta Swami

N.B. One travel agent in New Delhi has told us that two of her clients (American) were going to Johannesburg with visa, sufficient funds onward ticket, passport, etc., and due to some change all of the sudden in the Government, they were thrown into jail, and the next day, they were sent, at their own expense out of the country. The travel agent said that it could be even more severe for an Indian citizen, so, if there is any risk, it is not a very good idea. So, you should find out if there any risk at all and then let me know at my Los Angeles address. ACBS ACBS/ps

My dear Bhakta, Jayananda, and Bahulasva,

Please accept my blessings. I am in due receipt of your letters dated June 13rd and 15th, 1975 and have noted the contents. It sounds like things are going very nicely there. I will come for Rathayatra festival and then I shall see the new building also. The photos were very nice. Regarding the sannyasis convincing men within the temple that they should leave and go with them on their parties, that is not at all good. I have never approved of this action. You can tell them. Everyone is concocting something of their own. It must be checked. The sannyasis should work with what men they have got and they cannot secretly convince men in the temples to leave their duties. Those duties also must be done and they are just as important as any other service.

Regarding the books being sold for less than $4, that we shall discuss in L.A. with Ramesvara.

Honolulu 18 June, 1975

75-06-18

Tehran

My dear Karandhara,

Please accept my blessings. I am in due receipt of your letter dated 6/9/75 and have noted the contents. Any position we remain in, we must have full dependence on our spiritual life.-chanting 16 rounds daily, following the four regulative principles, etc. This will maintain our spiritual strength. And if we maintain our spiritual strength, then anywhere we live, we live under the protection of Krishna. A Narayana-para or a person who is fully surrendered to Narayana is not afraid to live even in most dangerous place. He is always safe, under the protection of Narayana.

To help the preaching work, that is also preaching. If you can get money to help expand our preaching activities, that is preaching. We require money. Laksmi is the immediate assistant of Narayana. Narayana is always preceded by the word Laksmi. The Mayavadi philosophers do not touch laksmi, but we accept for the service of Krishna. We are not of the mentality of Ravana who took Laksmi from Narayana and became ruined. Keep Laksmi and Narayana always together and you will become as powerful as Hanuman. He is always worshiped along with Lord Rama and Laksmi-Sita. There are many temples of Hanuman in India.

Regarding investing money there in Iran, I have no objection if it is kept in Atreya Rsi's name. He is one of our men. Please send the complete details in this connection and I shall decide.

I hope this meets you in good health.

Vrndavana

My dear Dhananjaya and Aksayananda Swami,

Please accept my blessings. I am in due receipt of your letter dated 7th June, 1975 and have noted the contents. You can go on offering ten plates. In the Radha-Damodara temple, the offer Bhoga to the Six Goswamis. Offer ten full plates, 8 puris, 2 kacoris, 2 samosas, varieties of sweets (2 each), and varieties of vegetables. Make many palatable things such as Jhuri, Dhal-mot, Jalebis, Rauta and many other nice dishes. You can keep a nice stock of these things, so that when a big man comes you can give him a nice plate of free prasada. In this way, our temple will become very popular, because everyone will know that if they come to our temple, they will receive very nice prasada. For the other guests, continue to sell the prasada daily. This is very nice program. Make all the prasadam very first class.

Regarding Tulasi devi in the courtyard: For the time being, put one stone pot in each corner and when I come there I shall see if any other thing is to be done in that connection.

In Delhi, the Home Member, Mr. Brahmananda Reddi, has promised me that 50 of our members will be allowed to stay as permanent residents. He said it may take a little time to arrange, but Tejyas can see him.

My dear Dr. Wolf-Rottkay,

Please accept my blessings. I am in due receipt of your letter dated June 14, 1975 and have noted the contents. Biological evolution is taking place on account of the soul's desire. It takes place because of infection. If a man has smallpox virus, then he is subjected to smallpox. It is not that everyone is infected and everyone is attacked with smallpox disease. Only the person who is infected, he is attacked.

In this connection Krishna says in the Bhagavad-gita, purusah prakrti-stho hi bhunkte prakrti-jan gunan karanam guna sango'sya sad-asad-yoni-janmasu [Bg. 13.22]. Purusa means the living entity, or the soul. He is subjected to be infected by the modes of material nature. There are 3 modes of material nature, sattva-guna, raja-guna, tama-guna. And when they are mixed up, they become 3 x 3 = 9, and 9 x 9 = 81, and in each quality, there are millions of forms. Therefore the total number of forms is 8,400,000.

So, the diseases are there and the forms of disease are also there. Material form means diseased form. Therefore, one has to change this form-death. And he carries with him the infection and he develops another disease. In this way, the soul although part and parcel of God in diseased condition, they are forced to change body. That is transmigration of the soul from one body to another.

To be more clear, the disease is there. Just as the Small-pox disease is there. One has to become diseased, being infected. Similarly, the forms of the body are there. One has to infect the form and it develops. karanam guna sango'sya sad-asad-yoni-janmasu. Because he is infecting different diseased forms, therefore he is developing different forms of body. There is no such case of Small-pox changing into Malaria. Small-pox is Small-pox, and Malaria is Malaria. By the desire of the living entity, he becomes infected with a certain disease or body. Krishna Consciousness is the vaccine for all the diseases (different forms of material bodies).

Krishna says,

mam ca yo 'vyabhicarena bhakti-yogena sevate sa gunan samatityaitan brahma-bhuyaya kalpate [Bg. 14.26]

Brahma-bhuyaya is the immune stage or Krishna Conscious stage when one is always fixed in Krishna. When one reaches this perfectional stage he no longer has to accept these different types of diseases, or bodies.

Regarding the German translation work, if you feel difficulty because there is no good scholar there in Germany in our temple, then do whatever you can. Do not feel pressured. Whatever you can do is very much appreciated by me.

I hope this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear Dr. Currier,

Please accept my greetings. I am in due receipt of your kind letter dated June 16, 1975 and have noted the contents. If you are willing to offer your medical services to my students, when it is required, that will be very nice. It is important to keep the body fit and healthy so that we will not meet the obstacle of ill health while serving Krishna. Ill health may hinder one's service, so, we want to avoid it as much as possible. Enclosed herein is the question sheet sent by you, duly filled out by me for your information and signed by me. Thank you.

I hope this letter finds you well.

My dear Gopijanavallabha dasa,

Please accept my blessings. I am in due receipt of your letter dated June 16, 1975 and have noted the contents. I accept the devotees that you have recommended for 1st initiation. Their names are as follows: Nick-Nandaki, David-Durjaya, Frank-Pharnesvara dasa, Jimmy-Jita-manyu, Joe-Jara-sangha, Kurt-Kesiha, Luis-Lokasvami, Wilfred-Vidisa, Linda-Laksmirniranjana, Judy-Jaganmata, Merylee-Murti-vandya. Their beads may be chanted on by Kirtanananda Swami. I have also accepted Bhaktivinode, Pankajanabha, Preraka, Vipramukhya, Agnideva, Urmila for 2nd initiation. Their threads and mantra sheet enclosed herein. Let them hear the tape of myself chanting the Gayatri mantra through their right ear.

Please train our boys and girls to follow the principles very strictly. They must chant 16 rounds daily, follow the 4 principles, read our books very carefully, and always be engaged in the transcendental loving service of Lord Krishna. These things will give them real spiritual strength and their lives will be perfected.

I hope this will meet you in good health.

Letter to: Gopala Krsna:

-

Los Angeles 21 June, 1975

75-06-21

Bombay

My Dear Gopala Krishna das:

Please accept my blessings. I am in due receipt of your letter dated June 14, 1975 with enclosure hand delivered by Palika dasi, and I have noted the contents carefully. Yes, I have received your letter dated May 26, 1975. So it is good that you are meeting with the Government officials and they are taking interest. Yes, you arrange for a big festival in Bombay and get them to come. That will be very nice, but not exactly on Gaura Purnima as we will be in Mayapur, but afterwards.

Why are speaking of a loan for Bombay construction when you have already taken two lakhs from the Book Fund? What do you mean that you want another loan? Why are you again asking for a loan? Why is Giriraja not writing?

Regarding the Vrindaban Gurukula land, yes, I shall arrange to pay. Don't worry. I have already told Pranava. The money will be paid. This I have already said. Complete the negotiations and the money shall come. All instructions have already been given.

Regarding the maintenance for Vrindaban, that must come from Tejiyas in Delhi. Whatever he is sending, that you must use. If he can send only Rs.. 7,000/-, then you should maintain with that Rs. 7,000/- per month is no joke. Are other temples there spending like that, , Rs. 18,000/-per month? I do not like that Madras should pay for Vrindaban maintenance. Neither should Aksayananda Swami go out of Vrindaban on a collecting party. His business is to remain there and organize the temple program. I have heard reports that Dhananjaya is not following the schedule. So Aksayananda Swami must be there if Dhananjaya is not so expert. Also, the guest house should be organized to make income. Why have we invested so much money in the guest house? Please organize this.

Regarding your making Yasomatinandana das BBT administrator, I have no objection, but I think he can be better engaged in printing work. Actually he has no business experience. Of course he may be trained up, but in the meantime he should not be in charge. I have given him charge of the publishing work, but what is he doing? Better not to change. Yes, the accounts must be kept very carefully. The book inventory must be recorded, and what is collected and what is spent must be there.

One thing I want is for the book sales to be organized there in India. There are many English books selling there on the market, and there are many English publishing houses. So why it cannot be organized? Even if our own men cannot do the selling, we can hire some agents to do it. Our books are very much appreciated in India, and the people will purchase. Even the clerks they can purchase the small books. We have so many small books. This kind of preaching work is very important. The people must be given some impression of our philosophy.

Regarding the food distribution program, you spend whatever is collected. Why are you asking me?

Regarding Vrindaban construction, you may have all of the creditors submit their final bills and together with the accountant you check them vigilantly and make a full settlement. Then conveniently we shall see how the further work will be done. Now I am very much doubtful. I think there has been some cheating.

It is my habit to see that money is not being squandered. If money is spent unnecessarily, I feel very badly. You are collecting with great effort, and I do not like to see it spoiled. I am thinking that Guru-krpa's collections may be used for book publishing only. He can print books in Japan and send there to you for selling in India. From these sales, you can spend 50% on construction and 50% on Hindi publishing. And anyone who can manage such an organization, he can manage the BBT. But one must do it. It is simply a matter of organization. We can send you unlimited number of books. You simply have to apply your brain how to sell them. Then you will have plenty of money. This my mission you know started when I came alone to your country by selling my books, and still whatever money we are getting it is coming from the book selling. So it is already proven how important the book-selling is.

I hope this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My Dear Gurukrpa Swami:

Please accept my blessings. I am in due receipt of your letter dated June 9, 1975 and have noted the contents carefully. I can understand that you are feeling something regarding your collecting program. These things can be decided by the GBC. One thing is that I may take up one project of constructing a Varna Ashrama College and Temple in Kuruksetra in India. I am presently negotiating for this, and if we get the opportunity, I shall spend the money here first. So in Japan you go on collecting, and I shall tell you how to spend.

Anyway you don't feel any botheration. Dai Nippon has agreed to take money in exchange of books. Whatever money you pay, you print books and send to India. You can also send to Australia or to USA if they want. You begin with Srimad-Bhagavatam and the small edition of Bhagavad-gita. Our work must go on. The world is suffering on account of not taking up Krishna consciousness, so we have to try to save them. You kindly help me to do this.

I hope this meets you in good health.

Please accept my blessings. I am in due receipt of your letter dated June 19, 1975, and I thank you very much for it. I am glad that you are very serious about Krishna consciousness even at such a young age. This is the instruction of Prahlada Maharaja who was a young boy like yourself. He said that now is the time to become Krishna conscious no matter what is one's age. We may die at any moment. There is no guarantee. So you please stick to this line you have taken and chant Hare Krishna every day without fail. You will be very happy, and I shall pray to Krishna for your advancement.

Please accept my blessings. I am in due receipt of your letter dated June 21, 1975 with enclosed photo. Generally it is not good for the women with babies to worship the Deity, because a baby means uncleanliness. You have to touch the baby and there is so many dirtiness, so how can you remain sanctified? But if you are doing it nicely, then it is okay. But, if you have to take care of the baby, then it is not good.

Letter to: Svarupa Damodara

Atlanta

My Dear Svarupa Damodara dasa:

Please accept my blessings. I am in due receipt of your letter dated June 20, 1975 with enclosures, and I thank you very much for it. It is very good that you are progressing with the book proving scientifically that Lord Sri Krishna is the origin of life. Yes, do it slowly but surely. It is important work for our preaching mission.

As you say you are thinking of retiring from the university, yes, as you are not a family man, you can do it for better service to the Lord. Regarding Manipur, you said that there is a Govinda temple there and that they are willing to hand over the management. I think somebody came to see me in India about it, but I don't exactly remember the name. The best thing will be for you to retire and take charge of such a noble project.

Regarding your question about the jiva soul in the heart and the jiva soul within the cells, they are separate. Both are jiva atmas, but a particular jiva belongs to a particular body. There is the jiva in this body, but there are also jivas within the cells. Just like I am living within this apartment, but does it mean that no other living entity can live here. There are so many ants, flies, bugs, they are also living within the apartment. Even in my stool there are thousands of living entities.

Your second question is not very clear what you want to ask, but the fact is that each and every living entity is covered by two kinds of bodies, one subtle and one gross. So the subtle body causes the living entity to take another gross body. We have got experience that in dreaming the gross body is inactive while the subtle body is continuing activities; and again in deep sleep the subtle body is continuing activities. The living entity after being carried by the subtle body to another gross body, it sometimes remains in deep sleep in the womb of the mother. Then gradually the subtle body begins to act within another gross body. When this gross body is fully developed befitting to come out of the mother's body, that is called another birth. Again he changes to another gross body imperceptibly. Just like in the film thousands of pictures are moved imperceptibly. It looks that the body in the picture is moving, but the audience cannot understand that there are so many pictures in the spool. They think that the picture is moving. Similarly every second every moment we are changing the body.

Those who are not sober cannot understand how the spirit soul is changing from one body to another. Krsna therefore says that this change of body can be appreciated only by the dhiras. dhiras tatra na muhyati [Bg. 2.13]. While those who are not dhiras cannot understand how the soul is changing from one body to another. There are two kind of men, dhira and adhira. The modern education is producing only the adhira class who are neither sober or educated. Therefore the majority of the population cannot understand how the soul is transmigrating from one body to another. They are only interested in wine and woman under the impression of the bodily concept of life. Therefore out of so many scientists in this country only you and the few others are understanding the importance of this subject matter. manusyanam sahasresu [Bg. 7.3]. So please work very hard, following our rules and regulations and you will always remain in the fire of Krsna consciousness.

Regarding your asking me to come to Atlanta, it may be possible. That I shall see.

I hope this meets you in good health.

Marriage means that one's service becomes doubled, but at the same time we have to be very careful not to fall into sense gratification. That tendency is there, and we have to be always vigilant. Best thing is to chant carefully our 16 rounds on the beads and always think of Krsna.

Mr. Morris Lapidus 439 Henry St. Brooklyn, New York 11231

Dear Mr. Lapidus:

Please accept my blessings. I am in due receipt of your letter dated June 21, 1975. Actually we are not fond of having businesses. Although for spreading Krsna consciousness we can use millions of dollars, yet we do not like to employ many of our men at great endeavor in the competitive business world. In order to manufacture and market your own inventions it would be a great struggle and too much time and energy would have to be spent, as you have stated. It also requires great business expertise to succeed and not be cheated.

You should regard your main business as trying to become Krsna conscious through reading my books and associating with the devotees in the Sankirtana movement there in Brooklyn temple. You are an older man, 68 years old, so I appreciate it if you can help my disciples in New York in cooperation with the President, Gopijanavallabha.

At any rate we do not know how long we shall live. So we have to concentrate on reading, chanting, and distributing books, and in this way try to become Krsna conscious completely before the next death.

I hope this meets you in good health.

My Dear Nityananda das:

Please accept my blessings. I am in due receipt of your letter dated June 28, 1975 with the enclosed photos. Your farm appears very nice, open plain land. The cows are very nice and so are the sheds. This farm project you should consider very important. The idea is that people can be self sufficient and raise their own foodstuffs and have sufficient milk to save time and chant Hare Krishna. Why should they work so hard in the hellish factories? Let everyone live simply and be Krsna conscious.

Upon your recommendation I accept Paul Warren Menard as my initiated disciple. His spiritual name is Pana dasa. Please see that he maintains the Vaisnava standards and chants always 16 rounds minimum.

I hope this meets you in good health.

My Dear Sat Krita dasa:

Please accept my blessings. I am in due receipt of your letter undated June 23, 1975 and have noted the contents. I have organized the GBC for the purpose of spreading Krsna consciousness all over the world. In this way I am trying to become free from the management in order to translate my books. Therefore there is no need to form a separate new committee. of 64 members. Let each zone and center push on in their area of the world. If such an international committee. is to be formed, it can be done by the GBC. You can make your further suggestions to Jagadisa.

Bombay

My Dear Giriraja das:

Please accept my blessings. I have received your report via telephone and it is a very good news that you have received the NOC for the construction of the temple. So, you begin the work, and money will come to you by the grace of God. Don't worry, just finish the buildings as soon as possible and somehow or other money will come. In Bombay you collect as much as you can, and the balance money will be sent rest assured. I am instructing Ramesvara to send Gurukrpa's collection to Bombay. So you just finish all the buildings as soon as possible. You must also keep proper account. Not a single farthing should be wasted. I will see the accounts personally when I return to Bombay.

Regarding the money you are taking for the rooms, this must be carefully done. As soon as you take money and allow a person to stay in your place, then the money can be considered by him as rent. The Rent Act is so subtle in India. If you have to call the police to eject a man, the police will not do it. They will see that the man is living there only, but they will not ask how he got there. That is a matter for the courts to settle. And in India court business is very troublesome. Practically it is useless because you have to bribe. This is Kali Yuga; you have to pay money to get justice. Neither will it be sufficient for you to print on the registration form that the visitor signs that you have some right to bar entrance. Making your own law on the registration form has no value. You know of that Mr. Mukherjee who refuse to leave our place even when you called the police.

In Tirupati they have a nice system. You have to see how the hotels and dharmasalas are doing it. What laws there are to protect them. People are very cunning nowadays, and we have to be careful. You should manage the whole thing very nicely, just like in Tirupati they are managing so many buildings very carefully.

India to organize large scale book distribution. He can help Yasomatinandana Prabhu. Yasomatinandana is sincere but not a business minded. But, if sincerity is there, other things will come.

I hope this meets you in good health.

Your ever well wisher, A.C. Bhaktivedanta Swami

N.B. All money sent to Bombay from L.A. is BBT money and must be paid back by you to the BBT account in Bombay. The money sent to you is on loan basis and must be paid back. You can pay back conveniently. We shall help you, but you must pay back.

Also One of the rooftop blocks may be dedicated for stocking books as go down. You may select the largest one available. If you fit it with book shelves that are away from the wall and not touching one another; i.e. the shelves should be wide enough to accommodate only one row of books and each shelf should be separated by a space wide enough for a man to pass; then you will not have the rat problem.

The Chand Society flat may not be sold. It can used as office and residence of Vaikunthanatha and Yasomatinandana. Two rooms used as residence and one room office and stock. The BBT should provide facilities for offices and stock go down. BBT should pay for the rooftop go down. By my calculation you should be able to sell in India at least four lakhs of Rupees worth of books per month. You simply have to organize it.

What is the report of Hyderabad?

My Dear Sripada Bon Maharaja:

Please accept my humble dandavats. I thank you very much for your letter dated June 18, 1975 and I have noted the contents carefully. I left Honolulu on the 30th of June for Los Angeles where I stayed for one week, then I left for Denver where I stayed for one week, then I have come to Chicago, and I am staying in our temple at the above address. Enclosed are two newspaper clippings from the Chicago newspapers concerning my arrival.

Here we shall observe the Ratha Yatra festival on the twelfth of July and grand arrangement is being prepared with the cooperation of the local authorities. The Ratha will be taken downtown to Chicago as usual.

So after making all these arrangements I shall have to go to go to Philadelphia where I shall attend the Ratha Yatra ceremony, and then I shall go to San Francisco where as usual our Ratha Yatra will take place for the seventh year. The Mayor of the city of San Francisco has declared two days local holiday for this particular ceremony. This will take place on the 20th of July. If you could have found the time to come to Hawaii, I thought I would take you with me to all these places and surely you would appreciate my humble attempts. I thank you very much for your appreciation, ”A wonderful job in this country.”

Sripada Sripada Sridhara Maharaja also appreciated my service. He said that Caitanya Mahaprabhu’s prediction: prthivite ache yata nagaradi grama/ sarvatra pracara haibe mora nama, would remain a dream only, but he congratulated me that I have done it practically.

I do not know how things are going on automatically by His Divine Grace Srila Prabhupada, because I have no other assets except his causeless mercy. I am glad to know that you visited some of our centers in Canada. Prof. O’Connell is well known to me. Last he met me in London. He sent a copy of his review of Prof. Stillson Judah’s book, Hare Krishna and Counterculture. This book is a favorable presentation of our movement of Hare Krishna in this country, and he has done it very scholarly. I have seen in the book that your good name and Sripada Tirtha’s name are also there. We are also having good sales of our books about 50 in number amongst educated circles both in America and Europe with good appreciation. Enclosed is one pamphlet published in Dutch. We are publishing in all languages.

Last time we met in Vrindaban in that matter of your institution. I gave you my decision, and you were to reply your decision, but I never heard from you in this connection. If there is any possibility of co-operation I am still ready for it. Apart from this, I wish to start a Gurukula Institution in Vrindaban for educating small children attached to my temple. You have enough land still vacant. Therefore I request you to spare some land in the front of my Krsna Balarama temple. It will be a great mercy on me. I hope by this time you have gone back Vrindaban. You can reply this letter to my San Francisco address as follows: ISKCON BERKELEY, 2334 Stuart St., San Francisco 94705.

Please accept my blessings. I am in due receipt of your letter dated June 17, 1975 and am very pleased to read the contents. I have also received the copies of the Dutch pamphlet. The get up is very nice. I thank you very much. The picture of Krsna on the inside front cover is very nice. It is very natural. Krsna is so young, and I see on the following page that everyone is getting old. That is the difference of the spiritual world and the material world. On the whole this pamphlet is very nice.

Regarding your proposal for printing the condensed version of Bhagavad-gita, yes, do it. From your figures of book distribution you are doing real preaching. Which books are you distributing? Your prasadam program is also very important. Continue it. By chanting and giving prasadam you will get so many devotees. Yes, as you say the purity is attractive to people. Continue it. Our only asset is our purity. pavitram paramam bhavam. You cannot reach Krsna without being pure, because He is the supreme pure. Yes, on my next visit to Europe, I will certainly visit your temple.

My Dear Gurukrpa Maharaja:

Please accept my blessings. Regarding your request to divert $5,000.00 from your collection to purchase a vehicle for the Hawaii farm costing $8,000.00 does the farm require this? Does it mean that without this truck they cannot develop? Actually I do not think it is a very good place. There is no water arrangement. The temple is not being maintained properly. They are keeping long hairs and not living responsibly. I do not think it is good to put good money after bad. So I have asked the GBC's that are here to discuss this, and the conclusion was that if you can make profit from selling the property, then it should be done. They said that the property was purchased for $60,000.00 and now is worth $100,000.00 So why not sell it and make profit.

If the restaurant is making profit daily of $200.00 as was reported, then they may purchase the truck by paying $100.00 per day. On the whole I am not in favor of investing in this property.

Regarding Manasvi's going to India, it appears that he is doing well in Hawaii. If the restaurant is going on, then Manasvi's presence is required. Then why should he change? In Bombay there is already a qualified accountant, so why should Manasvi be chief accountant? Occasionally he may go to India if his presence is required.

I hope this meets you in good health.

My Dear Mrdapriya devi:

Please accept my blessings. I have received your letter undated and noted the contents. You should not feel that it is impossible for you to surrender to Krsna or that you are not a devotee. You are already a devotee, that is clear from your statements. Of course an advanced devotee feels sometimes hopelessness, just like Caitanya Mahaprabhu prayed: "O my Lord out of kindness You enable us to easily approach You by Your Holy Names, but I am so unfortunate that I have no attraction for them."

However in the neophyte stage it is best to develop firm faith, that just by chanting the Hare Krishna Mahamantra everything else will come, and try to avoid the ten offenses. So please continue to chant 16 rounds daily and follow carefully the four rules and regulations, and Krsna will help you more and more.

I hope that this meets you in good health.

My Dear Mahavir Prasad Jaipuriaji:

Please accept my blessings. Last time we opened our Vrindaban temple under the leadership of the Governor of U.P. Dr. Channa Reddi. I expected your presence also. Perhaps you could not attend due to prior engagement.

So this Vrindaban temple is being visited by many devotees to the extent of 500-1000 per day, and we have got a very nice guest house. I request you to come there at your convenience and see how it is nicely done especially for the retired gentlemen, vanaprastha.

You are Jaipuria, so you can help me in completing such an institution in Jaipur also. Jaipur is visited by many Vaisnavas as a holy place of pilgrimage. Especially Gaudiya Vaisnavas go there to see the duplicate Vrindaban Deities such as Govindaji, Radha Damodaraji, etc. So I want to open a duplicate Krishna Balarama temple in Jaipur. I am sending separately copies of pictures of our Krishna Balarama temple in Vrindaban. Of course there is also Radha Krishna and Gaura Nitai. I wish that you have some land in Jaipur and to help us in constructing a duplicate temple like Vrindaban.

When I was a guest in your house I saw you a great devotee of the Lord, and I hope you will try to fulfill my request as abovementioned.

I hope this meets you in good health.

Your ever well wisher, A.C. Bhaktivedanta Swami

My Dear Narottamananda das:

Please accept my blessings. I am in due receipt of your letter dated July 4, 1975 and have noted the contents. Regarding your taking a second wife, you cannot do this. At least you cannot stay in our temple in Vrindaban. If you want to take a second wife, then you have to leave our Vrindaban temple. Whether you can maintain them and take some job and earn? Our temples cannot support you and your two wives. You will then want three, four, and more. Anyway as an American it is illegal for you to do this. We are trying to minimize sex and you are trying to increase it. Please give up this idea.

I hope this meets you in good health.

My Dear Tejiyas das:

Please accept my blessings. I am in due receipt of your letter dated July 1, 1975 and have noted the contents. It is nice that Mr. Agarwal wants to construct a temple for us in Meerut. It is a good, big city.

Regarding the Jaipur land, yes it is situated in an important place, a good locality although a little deserted. If Mr. Jaipuria gives the land and builds the temple, we can take it. Many pilgrims go there. I am enclosing a copy of my letter to him.

It is a very good suggestion to open the vanaprastha institute. The elderly people can live there according to the Vaisnava principles and worship the Deity and take prasada. I also want to open the Varna Ashrama College there as there is sufficient land.

I hope this meets you in good health.

Your ever well wisher, A.C. Bhaktivedanta Swami

N.B. You should check with the authorities that we can get an import license for importing printing paper in an equivalent amount to all the foreign exchange we have sent to India. We can print the books there, and many will be exported to Africa, U.K., Fiji, etc. ACBS/bs

Letter to: Giriraja:

Philadelphia 14 July, 1975

Bombay

My Dear Giriraja das:

Please accept my blessings. I am in due receipt of your letter dated July 6, 1975 and have noted the contents. Why are you making concessions to the tenants? There shall be no common area for the tenants to sit. Why are you doing this? This shall not be allowed. It is not in the Rent Act. This is all nonsense concessions. They should be placed in their rooms, that is all. We have to construct buildings on all the vacant lands. The common reading room is for the public and not for the tenants.

You now have to make a program for building on all the vacant land. Every inch of available land will be built up. In the back side of my apartment the single story tenants should be induced to occupy temporarily the rooftop flats, and we shall construct a three or four story building where their houses are on their plot and shall then give them the same area to live in the new building. Now make this plan. Every drop of land must be filled with buildings. We cannot spare any land for any other purpose. Take sanction and make plans for these buildings. If the tenants become devotees and follow our principles, arising early like the others, then we can forgo their rent, but no nonsense concessions of sitting room. This is all rubbish things. So make plans for all vacant lands for buildings. We actually do not want anyone to live there who is not a devotee. Note this policy and do the needful.

Regarding the internal road, this has to be decided in the court. How can it be a public road? We have purchased it and there never was any mention of a public road. Go to the court. If in the court they prove that the road is public, then you can agree to surrender your claim for compensation for the setback land. But, this is all Matre's program. It will be very, very, bad if this road is public road. Immediately make plans for constructing the land behind my quarters with buildings.

Regarding finances do not worry. Whatever is required, Krishna will send. Don't be bothered. Ramesvara has now transferred Dollars 50,000.00 to Bank of America.

Yasomatinandana is reporting that the publications are coming just now, but this has been going on for 300 years.

I hope this meets you in good health.

Bombay

My Dear Gopala Krishna das:

Please accept my blessings. I am in due receipt of your letters dated July 4, 6, & 8th, 1975 and have noted the contents. Regarding Vrindaban, yes purchase immediately that land at Rs. 20/-. I have already advised the bank to issue one letter of credit for up to Rs. one lakh. If the cost is more, then we shall pay. Atul Krishna Goswami has given a good certificate. Yes, everybody says like that, that I am incarnation of Caitanya Mahaprabhu. Actually Krishna and Krishna's representative are not different. Anything that is Krishna's is not different from Krishna. Therefore it is said saksadharitvena 'samasta sastrair. The spiritual master is accepted by all advanced devotees as Hari.

Regarding Narottamananda das, no he cannot marry a second wife. If he wants to do so, he can leave our temples. We will not support him and his wives. I have written to him separately in this matter.

Yes, you can use BBT payments from the temples for printing the books. I paid Giriraja three lakhs from the Book Fund and Gargamuni was also given money from the Book Fund. Besides this there are the regular collections, so use this money.

The paper sample you have sent is not at all good. It is third class. If good paper is not available then we shall not print. If the printer is getting import license to import books for selling, why we are not getting? What have we done that we are not getting this license? Why are we prohibited from selling our books, and the others can do it? How are they paying for the books? Are they sending out foreign exchange as payment? The best thing will be for them to get import license to import paper. We shall supply them the paper. But this paper you have sent is not approved. It is not even half as good as the paper supplied from Japan.

Who is writing complaints? I have not received any complaints about your management.

I have no objection to Bhurijana going to Hong Kong and Pancadravida Swami going to South America. That is nice if you can arrange it.

Regarding Bhagavata das, I received report that he was talking privately in his room with a woman, and if anybody would try to come in, then he would get angry, saying get out, get out. What is this? In India private talks with woman are immediately condemned. He is a good preacher, but it is very dangerous to close the door with woman, and then he becomes angry if anybody comes. Lust is so strong that if it is obstructed it turns into anger. Brahmananda Swami and Bhavananda Swami also confirm that he has this tendency. All women should be sent from Calcutta to Mayapur. No women should be in Calcutta. Woman is good and man is good, but if you combine them, then both become bad, unless there is regulation.

I hope this meets you in good health.

My Dear Jayapataka Swami:

Please accept my blessings. I am in due receipt of your letter dated June 25, 1975 and have noted the contents. The Gurukula and poor feeding programs should be developed and it will make us very popular. The wrestling is all right. The program for Nitai Cand to visit the villages and preach and make men join is very good.

Make everything green there. Why not install your American sprinkler system? I have seen in Denver a very nice arrangement in the park for watering the grounds. You have got your own pumping water, so it will be easy for you. There you have got enough water.

Move the dirt from the pukur. It is not nice. I have sent to Bhavananda Maharaja the photos of how it should be done. It may be cleared and the dirt put along the sides where we shall make rooms at a high level for the flooding. The lake water should be clear. What is a charan on the front gate?

I have asked Jayatirtha that Ranadhira may immediately go to Mayapur.

I hope this meets you in good health.

My Dear Paramahamsa Swami:

Please accept my blessings. I am in due receipt of your letter dated July 11, 1975 and have noted the contents. It is a good idea to send the fiberglass shells to India for fitting and testing. You can easily pack two or three in a crate and send air mail. Your Hare Krishna pineapple program is very nice. Continue to distribute. The name is already nicely advertised and there you can easily get pineapple.

Regarding the restaurant, why they should get salary? There should be no salary. You are working without salary, so why they should take. They are not very important men. So after this month arrange for no one to get any salary there. That will be nice.

Regarding the farm, if by getting money from the cash crops, then do that and improve the place. Construct temple and residential quarter. Somehow or other you have to keep the men who are there engaged. If they are allowed to become idle gradually they will again become hippies. If the farm cannot be utilized, then it may be sold. What is the use of keeping a bad cow? But if you are utilizing, then we can purchase the truck to help. But, what about the idea of selling the bus and repaying me Dollars 3,000.00? What happened to that idea? I had lent Dollars 5,000.00 and that should be repaid somehow or other. Everyone I advance money to, they repay. Brahmananda Swami took Rs. 16,000/-, and he has returned, so why not you also? Anyway, if there is some potential there then keep it and go on. But, if you are able to make profit, then why not you purchase the truck?

So far I have studies Siddhasvarupa, he is not a bad boy, but he has his own philosophy, from the very beginning. It is almost inevitable that there should be enviousness amongst the godbrothers, just like amongst my godbrothers. What kind of business is that which the man is giving Dollars 5,000.00 monthly profit?

It is very nice that you are getting that other property. You are gradually getting men, so try to develop it. If men are required, then you can get them from the mainland.

I hope this meets you in good health.

Bombay

My Dear Gopala Krishna das:

Please accept my blessings. I am in due receipt of your letter dated July 12, 1975 and have noted the contents. So it is all right that Aksayananda Swami travels and collects provided that the management of Vrindaban does not suffer. This collecting is also preaching. But not only collection, but expenditure must also be stabilized and srutinized. Nothing should be spent extravagantly. That you have to see. Do not bother my brain how to do it. I have put you in charge how to do it.

Regarding purchasing a car, why not purchase one Mercedes car, so when I am in India I can utilize it. I do not like very much the Ambassador car.

Regarding the festivals you are having at the Vrindaban temple, I suggested in my previous letter to make phool wadi of flowers. Please make this possible. Regarding the purchase of the adjoining plot, why not take the help of the D.M. regarding the negotiations. Take his permission that there will not be government enquiry so that there is nothing for the seller to risk. Explain that this man has agreed to sell, but he is now hesitating for this reason. He should help us in this matter.

Yes, you can take out the Deities in a cart for Sankirtana. Yes, you can make the name Mandir and Ashram instead of Guest House.

Formally you said that you would complete the Bombay project in six months if I sent money, and now you say one year, so why is this?

Syamalal Gupta is well known to me. He is an able man, and if he likes he can help us in so many ways. You can inform him that we are selling our books all over the world between 30 to 40 lakhs worth per month, but not in India are we selling because we do not have any sales organization. But, to give him the exclusive rights, they have to guarantee some minimum amount of order per month. We are selling 30-40 lakhs around the world so we shall expect at least sales in India of one lakh per month of Rupees.

So on experimental stage we can make them the exclusive sales agent for six months to one year, if they can guarantee a certain reasonable amount of monthly order. If the agree to Rs. 1 lakh per month than for the first four months they must pay us Rs. 50,000/- per month and then Rs. 1 lakh per month upon delivery. Yes, you can print small books as much as possible. The paper sample you sent in your last letter is all right if it is acceptable for the Indian book market. If the sales will go on, even if the paper is inferior, then it is all right. S. Chand Co. they are able to sell 1 lakh of Rs. of our books per month. They can do this if it is organized properly. But, they should not get any commission on books we sell ourselves, nor will we sell our books at prices below that of the retail shops.

For printing additional small books you can use the loan repayment from Bombay. I gave so much loans and that must be paid back. Or you can take from the Dollars 50,000.00 that was just now sent. But, money will come do not worry. Did the Oberoi-Sheraton purchase the books? The hotels must purchase the books for putting in their rooms. Incidentally, it is my 80th birth anniversary, not 79th.

My Dear Dhananjaya das:

Please accept my blessings. I am in due receipt of your letter dated June 14, 1975 and have noted the contents. Yes, if you get guests there in the asrama you can easily make them Life and Patron members. For a gentleman who stays with us there is no difficulty in paying one or two thousand Rupees for this purpose. They come there to Vrindaban to spend for religious purpose their money. But, those who stay with us must be well behaved. From our side we will attend to their needs and make them comfortable, and from their side they must be clean and attend the aratis. Somehow or other they must be induced to take interest in spiritual life. Then it will be successful. You will get money and they will get spiritual profit. Both will be benefited by the grace of Krishna Balarama.

Continue your prasada distribution. This is very important. Yes, make the whole place full of gardens. Especially the small separation wall between my quarters and the temple should be filled with plants and creepers where there are the holes for putting in the plants.

My Dear Abhinanda and Gopesvara das:

Please accept my blessings. I am in due receipt of your letter dated July 15, 1975 from Bhuvaneśvara and was very glad to read the contents how you are selling books there. You have done a great service, and I am very pleased with you. So far for selling books in India, we do not require a license. We are already selling our books there. From where have you gotten this idea? Perhaps they clear the books from the customs on this plea. Anyway, why not obtain an import license and do the needful.

Regarding a book agent, we have got our agent, India Book House in Calcutta. Find out if they are importing. Also Gopala Krishna is arranging with our printer in Delhi who can also import books.

Regarding reducing the sale price of the Srimad-Bhagavatams, Gopala Krishna is arranging for a new printing of Volume One Number 1 in Delhi. For what the book is costing to print, it should be sold for @ Rs. 50/-, but for a poor man we can reduce the price by 25% so it could be sold for Rs. 38/.

You appear to be a very intelligent boy. We have got a land in Bhuvaneśvara. Can you develop it?

Your proposal for travelling and distributing books all over India is very good. Krishna will bless you with His mercy. Take books and sell and spend for your expenses.

My Dear Cyavana Swami:

Please accept my blessings. I am in due receipt of your letter dated July 2, 1975 and have noted the contents. I am glad to see that you are working enthusiastically there in Africa to spread Lord Caitanya's movement. This I want. It is especially important that you train up the Africans there. Do this carefully.

Now I have received one letter from Bhakti Mati and she has some complaint. She also says there was some physical attack against Navayogendra. This is not good. So I think they can open a separate temple in Mombassa for the Asian community. The Africans and the Asians will not like to mix. So there is no harm in opening separate temples. Both will preach Krishna consciousness and the kirtanas will go on. So do like that.

Regarding your questions, you have to decide amongst yourselves if Jagad-guru is to come, but if you require his assistance since Brahmananda Swami is not there, that is different thing. Yes, there can be a separate bank account for Spiritual Sky. The idea of the travelling ship seems a bit utopian, but at the next GBC Mayapur meeting it can be thoroughly discussed.

His Holiness Swami B.H. Bon Maharaja, D.Lit., I.Ph.D., D.D., D.D., D.Theos., D. AEH. Institute of Oriental Philosophy Vrindaban, Dist. Mathura U.P., INDIA

My Dear Sripada Bon Maharaja:

Please accept my dandabats at your lotus feet. I thank you very much for your kind letter dated July 15, 1975 and have noted the contents carefully. Your letter was addressed to our San Francisco temple, and it is forwarded to me here in Los Angeles. The day after tomorrow I am going to San Diego via Laguna Beach. Then I shall go to Dallas, New Orleans, Detroit, Toronto, Montreal, New York, and then New Vrindaban, West Virginia. From there I shall go to Europe to London and Paris, and then I shall return to Bombay perhaps via Africa by the month of October.

Regarding your proposal for a guest house, we have already got it, a guest house of 75 rooms well equipped. The Governor Dr. Channa Reddy was very pleased with it, but we can extend the guest house program more if we get suitable land. So I can immediately accept your proposal for Gurukula and guest house provided you give us the vacant land in front of our temple. This land is lying vacant without any use. So if you spare this land just behind your college building, we can immediately begin the construction work.

The best thing will be that if you charge some nominal price for the land or as you like it. Then we can use the land independently according to our plan. Immediately we do not require any guest house, but in expectation of a future influx of guests we can construct another house along with the Gurukula building. So either in the newly constructed guest house or the guest house already constructed our scheme is to receive paying guests. So for the Gurukula it will be very suitable if you spare the front land or back side of your college building. That will be very kind of you.

Our Philadelphia Ratha Yatra was very attractive and successful; similarly the San Francisco Rathayatra was also. Some of the Indian saints Shushil Muni Maharaja and Yogi Bhajan and many others attended the ceremony. They also appreciated our activities.

I have not received any report from Saurabha das about his meeting with you in Vrindaban. Nowadays the construction of a guest house is a very costly affair. We have spent about Rs. 50 lakhs for our temple and guest house in Vrindaban and with great difficulty.

Regarding the library building, I am only interested in Caitanya philosophy. As it is stated in the Caitanya Caritamrta, "sri krsna caitanya daya karaha vicara/ vicara karile citte pabe camatkare." If you are indeed interested in logic and argument, kindly apply it to the mercy of Sri Caitanya Mahaprabhu. If you do so, you will find it to be strikingly wonderful. (Cc. Ādi lila 8.15) But, in the library other books may be kept for comparative study by the scholars. I have no objection, but our main purpose will be to accelerate the grandeur of Caitanya philosophy. On this basis I have full cooperation. Besides that I have got about a half a dozen students who are Ph.Ds in different subjects, but they are all expert in Caitanya philosophy. If you so desire, their service can be utilized in this connection. If we fully cooperate on this Institution plan, I can attract students from all over the world such as America, Europe, Canada, Australia and the Middle East. In all these places we have got our centers and there are many students.

So when I arrive in Vrindaban we shall discuss these things in detail, and if possible we can take up the library program at that time. In the meantime if you decide to give us the land in front of our temple we can immediately begin the construction.

I hope this meets you in good health.

My Dear Saurabha das:

Please accept my blessings. I have received one letter from Swami Bon Maharaja regarding his meeting with you to show you the land he is willing to spare for our Gurukula project. Which land did he show you? What is the area of the land? Is it suitable for Gurukula?

I want the land just in front of our temple. The entrance to the Gurukula will be on the road, and we shall partition this land from the rest of the land with a wall.

I shall talk further in detail with Bon Maharaja personally when I return there to Vrindaban.

I hope this meets you in good health.

Dear Urvasi dasi,

Please accept my blessings. I am in due receipt of your letter dated July 18, 1975 and have noted the contents. I am glad to learn that you are taking up Krsna Consciousness under the guidance of Shaktimati prabhu. You should follow her example. She is an experienced devotee. You assist her and help spread Krsna consciousness especially amongst the Asian community there. I have given permission for Shaktimati and Navayogendra to combine together for establishing a temple there in Mombassa especially for the Asian community so you also assist in this endeavor. Be sure to follow the regulative principles of chanting 16 rounds without fail each day. Also, we do not take any coffee, tea, or cigarettes, meat, fish, or eggs, illicit sex, or any gambling. Be sure and read my books very carefully, Bhagavad-gita, then Srimad-Bhagavatam, and then Caitanya Caritamrta. You should read every day without fail and become fixed in our philosophy. If you are going to England, we have our temples there so there should be no difficulty for you to remain in Krsna consciousness.

I hope this meets you in good health.

My Dear Aksayananda Maharaja,

Please accept my blessings. I am in due receipt of your letters dated June 22, and July 3. So I am glad to know that you have had successful program in Kampoor. Yes, I think I remember Radha Krsna in Sadaf Agharwal from Kampoor. What was the name of his shop, is it a bottle shop? Yes, this traveling preaching program is a good idea. It is very nice, and you are a good preacher, so I am sure that you will do it nicely. It is a good idea also to train up other good preachers there in India. This is our need there.

Regarding the Madjar center, sending funds for the deity maintenance in Vrndaban, you are already collecting money, so it is not required that Madjar send money to Vrndaban. Rather the money in Madjar should be used for printing. Not that we should use all collected money for maintenance. Better to print books and distribute.

I hope this meets you in good health.

Sriman D.N. Mishra 179, Balarama Dey Street Calcutta-6

My Dear Dinanatha:

Please accept my greetings. I am in due receipt of your letter dated June 27, 1975 and have noted the contents. Regarding seeing your book on Lord Ramacandra partly translated into English, I am very much eager to see it. I am returning to India by the month of October, therefore there is no hurry. When I return I shall be glad to see your book either in Bombay, Vrindaban, or Calcutta.

I have to translate all the Puranas, Ramayana, Mahabharata, and many other theistic literatures left by the Gaudiya Vaisnavas headed by the six Goswamis like Rupa, Sanatana, Jiva, etc. I have already translated about 50 big books of 400 pages each, and my books are selling all over the world in universities, libraries, learned professors, and the public also is receiving my books with great respect. Of course they are not my books, since I have simply translated; but my purports for each and every verse from the Bhagavad-gita and Srimad-Bhagavatam do very much appeal to the people in general as well as learned circles. They are very much appreciating and we are selling to the extent of 30-40 hundred thousands of Rupees per month. Out of this we spend 50% for the maintenance of our different temples all over the world and 50% we spend for reprinting my books.

I do not take any royalty or any profit out of it. Similarly if you agree not to take any profit or royalty then our Bhaktivedanta Book Trust will publish your book on Lord Ramacandra.

I have a great desire to translate the Valmiki Ramayana because that is authorized. Tulsi das' Charit manas is already translated into English by some clergyman, but I do not exactly know his name. Therefore I wish to translate Valmiki Ramayana exactly in the way I have done Srimad-Bhagavatam. I am sending herewith a copy of our monthly paper "Back to Godhead" in which you will find the mode of translating of Srimad-Bhagavatam. It begins after page 14. It will give you an idea in which way we want to translate. Or you are welcome to come to our temple along with your son at 3, Albert Road, Calcutta. There you can see in my books the mode of translation by giving the purport of the verse in English.

I therefore suggested in my last letter that now you are in ripe old age, so you can accept vanaprastha life which is your duty as you are born in a brahmana family. According to our Vedic principle a brahmana is supposed to accept the four asramas, namely brahmacari, grhastha, vanaprastha, and sannyasa. Others are not do not accept sannyasa, but a person who is a brahmana must accept sannyasa at the end of his life.

So I would suggest that you now retire from family life and accept at least vanaprastha order of life keeping your wife with you as assistant and fully engaged in translating the Vedic literature as far as possible.

It appears that in the Western countries there is a great demand for real knowledge of Vedic literature. So you are a learned scholar both in English and Hindi, and you can do this completely devoted to the service of Lord Ramacandra.

I have opened many temples all over the world, numbering 100. Enclosed herewith are some of the photos of some of the Deities in some of the temples.

Very recently we have established our temple in Vrindaban at a cost of 50 lakhs of Rupees or more. The Governor of U.P., Dr. Channa Reddy was present for two days for the opening ceremony. All the goswamis and sannyasis like Akhananda Swami all attended the ceremony. We have got a guest house there containing about 80 rooms, and the recent report is that not less than 500 men are coming daily to visit the temple. Prasad is being distributed to the poor, and others are purchasing prasada (pakki) to the extent of Rs. 100/- per day. We are selling our books also.

Now I wish to establish some temple of Ramacandra, Sita Ram. Of course it depends on the mercy of Lord Ramacandra. Therefore I am still requesting you to join our movement completely retired from family life and engage yourself in translation work for the rest of your life.

More when we meet. I hope this meets you in good health.

Please accept my blessings. I am in due receipt of your letter dated July 14, 1975. Regarding the temple that Ramananda is expecting to construct, who will pay for it? Has he mentioned this to you? Anyway, I will be speaking with him when I next go to India. I thank you for your report of the Rathayatra. Please ask Hamsaduta to send me a complete report of the Rathayatra festival in London. Yes, go ahead with your translation work. This is very important and work together with Yasomatinandana. We want very much to publish Hindi publications and distribute throughout India. My Dear Sarvavit dasa,

Please accept my blessings. I am in due receipt of your letter dated July 15th, and I am very glad to read the contents. I am glad to learn that you are getting good training by Cyavana Maharaja and you should take your post of temple president as a very serious matter. It is your responsibility to always exhibit a Krsna conscious example. You should always be thinking how to spread Krsna consciousness to the African people. This is our mission-to save suffering humanity from the path of repeated birth and death. The way to become free is only by becoming pure devotee of Krsna. You should simply stick to our principles and everything will come out all right in our preaching work. You should publish profusely literature in Swahili and distribute. This is very important. This mission has been established simply on the publishing and distribution of my books. So get them translated and published as soon as possible.

Dear Vrnda devi dasi,

Please accept my blessings. I am in receipt of your letter, undated. Regarding the booklet, "A Guide to the Care of Srimate Tulasi devi," yes, the book is very nice. It is approved. But one thing is that no sprays can be used, not at all. Tulasi is a worshipable plant so there is no question of using any sprays. My Dear Cyavana Swami:

Please accept my blessings. I am in due receipt of several letters from Shakti Mati, also your telegram reading as follows: REGARDING OPENING OF SEPARATE TEMPLE MOMBASSA ASIANS ATTITUDE AND MOTIVES OF NAVAYOGENDRA HIGHLY QUESTIONABLE AND MAKE SUCH A PROPOSITION QUITE IMPOSSIBLE SITUATION HERE DIFFICULT AS IS AND WE CANNOT UNDERSTAND THE VALUE OF A SPLIT IN OUR EFFORTS TO SPREAD KRISHNA CONSCIOUSNESS AFRICA FULL REPORT WILL FOLLOW AND CAREFUL CONSIDERATION IS HUMBLY REQUESTED-YOUR SERVANTS CYAVANA SWAMI AND MANAGING COMMITTEE ISKCON AFRICA. I have also received a letter from Shakti Mati's son.

I have been very much disturbed to learn of the difficulties in Africa. As the leader there you should not have allowed this dissension to take place. Shakti mati is an elderly woman and can do important work with the cultured Indian society, and she also speaks Swahili. She must be given an important position as a manager. She can work under Brahmananda Swami.

They may have had some disagreement with you, but expert management means to engage all of the devotees and not allow them to split into different parties. Your action of sending a letter to the pleader has disturbed me. Why have you taken this rash action without consulting me or Brahmananda Maharaja? You should immediately withdraw that letter.

I want that you approach Navayogendra with all humility and ask his forgiveness for the beating. In this way you can rectify things. You must bring them back. Otherwise if you cannot do it, then you should come here to me and we shall discuss it personally.

I hope this meets you in good health.

My Dear Gurukrpa Swami:

Please accept my blessings. From your telephone conversation with Brahmananda Swami I understand you have paid DNP another $28,000.00. You are keeping 10 men there in Japan, and even if the collection will not be so much as you were doing, that is all right, just as long as it goes on. Regarding setting up a jewelry business in Japan, that is all right. That the men started with $50 and now have $25,000 worth of stock is a good business. Are they our men?

Regarding investing in a new restaurant, it doesn't matter it may be $100,000. If there is profit there, then you can invest. I want that all of our householders be engaged in managing these restaurants.

You cannot sell the Hawaii house. It is a good house, and I do not approve selling it. If you want to expand, then you can purchase other houses for residences. I do not want any of our houses to be sold. I have no objection to your moving the farm on the same island with the temple, but you can purchase a farm separate and keep the present house. What will be gained by selling the house? I do not like this idea.

I hope this meets you in good health.

Bhaktivedanta Manor

My Dear Hamsaduta das:

Please accept my blessings. I am in due receipt of your letter dated July 21, 1975 and have read the contents carefully. I am very glad that you had a nice Ratha Yatra there, and that even more people attended this year. It doesn't matter that the ratha was smaller. The people know that the police have reduced the ceremony. Anyway, do not try to agitate the police. Whatever they say, you follow. We want the ceremony, that's all.

Regarding getting a different house in the City, that's nice. In the City purchase a first class house, and the Indians will pay for it. Now the Indians are interested to come to the temple, and in the City they will take more interest. Yes, utilize the land at the Manor, and purchase a first class building in the City. There are many churches that are vacant. Find out one. I saw many nice churches when I was there with Dayananda. He has much information about them, but he does not remember. If required he can go there for one month and find out some church and negotiate. There is one Paddington Church. Also there is one I saw with a weak roof, but we can repair it. There was also a YMCA building available near our temple. So you find out some nice building or church.

You can send the new German publications to New York. I am going to New Vrindaban on August 20th. I am glad you are selling the books nicely there in Germany. Therefore I have elected you BBT Trustee. Sometimes you should come to L.A. to see the BBT affairs. Ramesvara and Jayatirtha they are doing it, but still sometimes you may come and check. Sometimes you may come and sometimes Bhagavan das may come.

Regarding your being depressed, you are becoming older, but so also am I an old man. But, you should not be depressed on account of advanced age. Krishna will help you. I do not think you have done wrongly in your management, and still now I do not think you have done wrongly. Rather you are wrongly depressed. But, for you this feeling of insufficiency is good for progress. No one should think that now I am complete. It is good to think that I am incomplete and useless. Actually Krishna is unlimited, and our energy is limited. Actually we cannot serve the unlimited, but Krishna's unlimited mercy induces us to serve, and He accepts. Actually we are unworthy. He is so kind that He accepts our little service as if it were very big and great.

Regarding your wanting to leave your family and take sannyasa, what is your family? You live aside from your wife, and you have no children, so you are already sannyasa. Anyway we can consider later on. First we have to push this movement. That is most important thing. Grhastha or sannyasa it doesn't matter. First we have to know the science of Krishna consciousness. Caitanya Mahaprabhu never said everyone had to take sannyasa. We should just be after becoming the pure servant of Krishna.

Regarding my coming to London, yes I will come immediately after Janmastami and Vyasa Puja from New Vrindaban. So it will be in the very beginning of September.

I hope this meets you in good health.

Lautoka, Fiji

My Dear Deoji Punja:

Please accept my blessings. I am in due receipt of your letter dated July 28, 1975 with enclosed plans for the Fiji temple. Regarding the land, if it cannot be transferred then you should give the use of the land to ISKCON with a formal lease for 99 years with an option to renew. Your purpose that the land cannot be transferred will be served because a temple on leased land cannot be sold or transferred. So your purpose will be served. ISKCON is locally registered with yourselves as the incorporators, and the lease can be made. So do the needful. The adjacent land, that can also be purchased. The money can be collected locally.

Regarding my coming there, yes I shall go there again and again because there is temple there. I was always thinking of how Fiji can be developed and organized. It is a nice place.

Regarding the plans you sent, it is not clear whether the front stairway leads to the temple or the first floor rooms. There should be a space for a large kitchen for preparing mass prasadam. The first floor kitchen seems too small for this purpose.

I hope this meets you in good health.

Dear Jacquetta Buell:

Please accept my blessings. I am in due receipt of your letter dated July 21, 1975 and have noted the contents. It is a very good sign that although you are not happy now you know it is only because you are not in the company of Krishna and the devotees. It is true that in the past there was some mismanagement in our Honolulu temple, but I was there recently, and it is nicely organized. But, since you have moved to San Francisco, I advise you to go there to our very nice temple in Berkeley. All the things you say you are yearning for are there. Radha Krishna are being worshiped, and there are many devotees there. So I am sure that if you go there and join with the devotees, all your problems will be solved, Krishna Consciousness is so nice.

As for your desire to follow the path of the gopis, that can only be done by following the rules and regulations of devotional service in the association of devotees. Once you have joined the temple, then we can see about Deity worship.

I hope this meets you in good health.

Mr. Gordon T. Gattone Art-Craft Associates 114 Evergreen Ave. Woodlynne, New Jersey 08107

Dear Mr. Gattone:

I am in due receipt of your letter dated July 20, 1975 and have noted the contents. Your feeling on seeing the Ratha Yatra in Philadelphia, which you say cannot be expressed in words but which has since given you great peace in your life-is not astounding. In the authoritative transcendental literature which we have published as The Nectar of Devotion, it is stated that one can be liberated from all material suffering simply by seeing the Ratha Yatra cart passing.

You say, "I am not sure I want to learn more," but a human being should desire to know the science of God consciousness, which is the most important part of human life. Krishna consciousness is not sectarian. One should not think that because he is a Jew or a Christian he should not read the Bhagavad-gita. The Bhagavad-gita As It Is is pure knowledge. It tells us of our relationship as eternal spirit soul with the supersoul Lord Krishna the Supreme Personality of Godhead.

In no other philosophy will you find such a clear conception of God. So I request you to kindly study with seriousness our books, and you may compare Krishna consciousness with other philosophies.

Yours sincerely, A.C. Bhaktivedanta Swami

My Dear Daughters:

Please accept my blessings. I am in due receipt of your letter dated July 29, 1975 and have noted the contents. Regarding the problem of how to be aggressive on Sankirtana and submissive in the temple, my request to you is that you should go on being aggressive on Sankirtana. I myself was aggressive in coming to your country. No one invited me. Even you boys and girls did not invite me. But, I came and I preached aggressively, and therefore you are now my disciples. So now you well know you have to approach the men and women of your country, and it may appear that superficially that you have to disturb them. They are doing their business peacefully, and you come and disturb them, "Please take this Krishna book."

Of course it is good that you are concerned about being chaste, shy, and submissive amongst your godbrothers. Canakya Pandit said that every man should see all other women as mother, and similarly a woman should see all men as son. So what is your difficulty? If you are completely aggressive on Sankirtana, there should be no material aggressiveness and pride remaining. You have to distinguish between devotees and non-devotees.

Aggression for the cause of Lord Caitanya Mahaprabhu is pure. If you become completely absorbed in such aggression to spread Sankirtana Movement, there will be no question of wanting to lord it over in the temple. Preaching purifies us of these material tendencies for sense gratification. It is simply a matter of time that you will see this. Do not worry. Krishna will help you.

I hope this meets you in good health.

75-08-03

Hyderabad

My Dear Mahamsa Swami:

Please accept my blessings. I am in due receipt of your letter dated July 22, 1975 and also the enclosed literatures, and I thank you very much for it. Now you have the land, but the temple construction is not being done. Is it that you are doing too much? You should not become overburdened with too much management responsibilities because then you will not be able to accomplish anything.

Regarding the batai sharing arrangement for the farm, one thing is that if we cannot do ourselves then our attention will be diverted and the preaching will be hampered. As soon as some misunderstanding will be there with the third party then there will be litigation and the preaching will be stopped. The Batai should be done so that the man may not claim proprietorship over the land. That is the risk.

Anyway without court permission we shall not take the land. In the meantime it is all right that you invest only in moveable property. Of course you should not be thinking to sell any of the crops for profit. That is not our purpose. The village organization is that the local people produce their necessities like grain, vegetables, milk, and cloth; and for recreation they have the chanting of Hare Krishna. They should live there comfortably and have spiritual recreation. They should not come to the cities. I wish to introduce this ideal now. Then if we are successful this cheating civilization will stop. They have made these cities as hell. If people do not cooperate with them, then how will the factories run on? And, if the people are satisfied by this arrangement, then what will the communists do?

Regarding registering with the Endowments, will they force our men out? Endowment means that as soon as there is income, they will interfere.

The literature you have published is very nice. The Explosion is very good. I started out with this kind of paper, only I was the only writer, the only editor, the only publisher, and the only distributer. So go on with your publishing. At least each month one Hindi and Telegu magazine should be published from Hyderabad. Arrange like that.

Regarding the Malaysian trip being called off, everything must be done very cautiously because our Indian people they are very poor and are prone to steal. We collect money with so much hard labor. But, one thing is that the money is not important. If the man goes away taking our money that is our discredit. The man is more important than the money. We admit everyone to our society, including the cheater, the drug addicted, all qualified. We should take the responsibility to train them. Why has he left? It is our responsibility to train and rectify them.

I hope this meets you in good health.

My Dear Saurabha das:

Please accept my blessings. I am in due receipt of your letter dated July 25, 1975 with enclosed sketch and I have noted the contents carefully. Regarding the land offered by Bon Maharaja, if it cannot be in our name then we shall not take it. Why he cannot lease the land, or sell it to us? He wrote me that I can develop the Gurukula "as I desire," but who will possess the land? I am prepared to cooperate with him, but if our money is there, then also our management must be there. What does it mean that he would like to come with me for preaching? Does he want to travel with me?

Regarding the east side adjacent land, why don't you purchase it? The price has already been settled at Rs. 20/- per sq. yard. You should immediately purchase. The money is there in the bank, so go to the bank. Why there so much delay? So many men are there, Gopala Krishna, Pranava, etc. What is Pranava doing? The M-V Trust will pay, so do not worry about Vishvambar. What is his family business? Anyway, purchase the land first, then we shall see about the scheme. If there is some difficulty about investigation of the sellers properties, then go together to the D.M. and arrange for the seller not to be investigated if possible. You are all simply writing letters to me. Without my personal presence there you cannot do anything. Simply correspondence. Anyway, be careful there is no underhanded dealings in this transaction. It is very much risky, so be careful.

Regarding Bombay, yes the tenants have no right for recreation area. They are paying for the rooms at much less price, so they can remain in their rooms. They cannot have playing ground. This is not in the Rent Act. We cannot spare any land. We will construct land on all available space. They can go to the public park for playing. All vacant land should be developed with buildings. We want sufficient income.

Yes, please send me regular report of the Bombay construction. I am very much anxious and will be glad to receive your regular reports.

I hope this meets you in good health.

Bombay

My Dear Giriraja das:

Please accept my blessings. I am in due receipt of your letter dated July 15, 1975 with enclosures redirected to from various places. I am enclosing herewith a check for Dollars 50,000.00 from Bank of America in favor of ISKCON, so you can deposit in your account. It is good that you are contacting interested persons who want to donate. Bhogilal Patel is a perfect gentleman. He has got money and also heart. His son is also good. Yes, get the tax exemption, and they can donate to us each year regularly. It costs them nothing and we get money.

You can present to them for the exemption that all over the world in different parts we are training men to live in the interior parts of the country and to produce their own food grains, sufficient milk, and produce cloth also. The attraction is Krishna consciousness, spiritual enlightenment. The foreigners in Europe and America is where we have already started such centers. In Hyderabad, India we are attempting such a center.

The idea is that local inhabitants will be satisfied with their bare necessities of life and their attention will be diverted towards spiritual development of life. That is the aim of human birth. We are trying this also in Africa, and it is partially successful. The whole scheme is that if a man becomes a devotee all good qualities inherent in him become manifest, whereas a person without being a devotee even though he has so-called academic qualifications, he will remain on the mental platform and will again be brought to the material field of activities which will always bring dissatisfaction. The total scheme is for simple life and high thinking and exalted character of the human society. As a matter of fact all of our members refrain from eating meat, gambling, intoxication, and illicit sex. In this connection Prof. J. Stillson Judah of the University of California, Berkeley, has remarked, "Krishna consciousness has transformed lives from drug addicted hippies to loving servants of Krishna and humanity."

Yes, you can accept donations there for the project in Bombay and not promise them anything. On the whole it should be run on the hotel principle. They come and stay, and upon entering they sign one "Visitors Register." Such a book should be maintained. Every dharmasala they keep such a book. He writes wherefrom he is coming, how long he will stay, where he is going next. Not that there should be big forms to sign. They will resent it, and also they may be able to find some legal fault with the forms. Make it simple. Keep this Visitors Book. And as far as possible let visitors stay together in a room, two or three men together, not each man alone. This will discourage them from over-staying.

Yes, what is the use of approaching a poor man to contribute. A poor man will simply think how can I occupy. Regarding the retired persons staying, retired means vanaprastha. They cannot live with family. Husband and wife must sleep in different rooms. One room should be for two or three retired men, and they will live together. So there will be no accommodation together with the wife. And, husband and wife must follow all the rules and regulations.

When you go to Ahmedabad, you see the following gentleman and invite him to come to Hare Krishna Land. He can recommend many men for becoming life patrons. His name is Dr. Y. G. Naik, N.Sc., Ph D., Retired Principal, Gujarat College, 66, Hemdeep, Sharda Society; Ahmedabad 7, Phone 85516. He wrote an favorable comment on my original edition of Easy Journey to Other Planets.

Regarding Malaysia, postpone it. Hamsaduta sent to Hyderabad L1,000. Where is that money? Please check it. Yes, it is nice that you go to Ahmedabad for collecting only. It is also good that you are selling books in the Santa Cruz Airport.

I hope this meets you in good health.

My Dear Gopala Krishna das:

Please accept my blessings. I have read your letter addressed to Pancadravida Swami dated July 23, 1975. So a temple may not be wanted there now. But, someone must stay there and print literature. Keep Guru Gauranga altar. But there is no good preacher. Even Pancadravida fails. Trivikrama failed. You should simply print literature and distribute. Get the smallest rental place. Let Yasomatisuta do it. Give up the present flat if necessary.

Bhurijana wanted to go there, but if he is spiritually weak, then there is no need. Print literature and distribute, or if it is impossible, then close it. Yasomatisuta should be assisted by somebody. He is a good boy. Therefore I do not like to close it.

Why you have not mentioned anything about Bombay?

I hope this meets you in good health.

My Dear Madhudvisa Swami:

Please accept my blessings. I am in due receipt of your GBC report and have noted the contents carefully. Yes, it is good that you are sending everybody on Sankirtana party, and also that everybody is taking prasada together. This is all very good. And, the cutting of the long hairs is also good. They should all adopt our means of life, and we should behave in such a way that others may follow.

Regarding Sydney, that the President has left, if one does not follow the regulative principles, then he will leave. That is a fact. Has somebody else been elected? This is the function of the GBC, to see that one may not be taken away by maya. The GBC should all be the instructor gurus. I am in the initiator guru, and you should be the instructor guru by teaching what I am teaching and doing what I am doing. This is not a title, but you must actually come to this platform. This I want.

Regarding Adelaide, unless you are sure that the Deity worship will go on nicely, do not install the Deity. Simply have kirtana and keep the Panca-tattva picture, that's all. What are the ingredients of the Lord Caitanya murti? Metal or wood is best, but not ordinary wood. Neem wood which is never attacked by moth is best. Regarding New Zealand Spiritual Sky, that you must decide. Spiritual Sky is not important.

Regarding Fiji, you can decide what to do there. I have written Mr. Punja to lease the land to us in the name of ISKCON for 99 years. Yes, it is all right for you to observe Caturmasya if you can manage in the mornings. The Deities should be offered the regular prasada. The Deities are not devotees. They are Lords. But, it is a fact that Lord Caitanya observed, as we find in Caitanya Caritamrta, but it is not necessary for Them to follow there in your temple.

Regarding your Ratha Yatra and my visit, nothing should be done according to my schedule. I am an old man. My visits should remain independent. As far as possible I am travelling, but nowadays I am feeling a little inconvenience. Still I am thinking to go to Australia during December or January as you like.

I hope this meets you in good health.

My Dear Vedavyasa das:

Please accept my blessings. I am in due receipt of your letter dated July 8, 1975 and have noted the contents. Regarding your going to Los Angeles, if Dr. Wolf suggests that you come, you should do it. At least you can come as tourist, so there should be no difficulty. So you should consult with Dr. Wolf.

Regarding your questions, you may not be so advanced that you will take the karmi remnants as prasada. The karmis should not be given so much that there is waste. You can give them a little, and then if they like you can give them more. This system should be introduced everywhere. I have seen myself that so much prasada is being left. This is not good. Regarding the attitude for taking prasada, if you think it is something palatable, so let me take more and more, then that is sense gratification. But, still it is prasadam so it will act. Prasad is transcendental, but one should not take too much. Sannyasis may take the maha-prasada but not to overeat. Caitanya Mahaprabhu was taking, but on principle he was avoiding.

I hope this meets you in good health.

My Dear Candradevi dasi:

Please accept my blessings. I am in due receipt of your letter undated and have noted the contents. It is a very good idea that you have to be more attached to the Deities above marriage. But, it is not good to live at home because there is where meat is eaten. That will be offensive, so how can you worship the Deity under such circumstances. If your whole family become devotees, then that is another thing.

Actually I think that you can move from the Lord Jagannatha Deities to the Gaura Nitai Deities if that is your desire. That will be best.

I hope this meets you in good health.

Toronto 7 August, 1975

75-08-07

Dr. Y. G. Naik, M.Sc., Ph.D. Retired Principal, Gujarat College, 66 Hemdeep, Sharda Society Ahmedabad, 7 INDIA

Dear Dr. Naik:

Please accept my greetings. I am in due receipt of your letter dated July 11, 1975. After long years it is pleasing and surprising to receive an affectionate letter from you. I think I met you sometimes in the year 1958. Since then in 1965 I came to America and started this missionary activity from New York in 1966. Now the Society has got about 100 branches all over the world. And, everywhere we have got Deity worship; Guru Gauranga, Radha Krishna, and Jagadisa.

Prasadam in this country means a full meal. From the very beginning even when I was alone, I was cooking myself for at least one dozen men, and I distributed full meals. According to Caitanya Mahaprabhu philosophy, prasadam should be taken up to the neck, akantha. In Jagannatha Puri Caitanya Mahaprabhu's only occupation was holding Sankirtana at least four hours every day and distributing prasadam to the devotees. It is stated in the Caitanya Caritamrta that the Lord was so liberal that He would give to every man prasadam quite sufficient for being eaten by two or three men. So we are trying to follow by distributing prasadam very liberally, and we invite everyone without any discrimination. Everywhere we have got temples we distribute prasadam especially to the poorer men. I am enclosing one issue of our "Back to Godhead" magazine which contains photos of our prasadam distribution starting on page 12. This prasadam distribution is going on all over the world.

Regarding the free distribution of books, there is no need in this country. They have sufficient money and sometimes they pay more than the price. Here in this country if literature is given free of charge, they throw it away. In most cases we offer our books and ask for a contribution. And, sometimes they pay three rimes or four times the requested price. So about money matters they are very liberal. Krishna has given them money, and they spend it very liberally.

You will be interested to know we are collecting about Dollars 250,000 per month. This means about Rs. 20 lakhs per month from book sales. I have written about 50 big books of 400 pages each and about a dozen small books, and all of them are being sold in the above mentioned figures. We spend also very liberally, and whatever we collect we spend it also. The first book was started with your foreword, Easy Journey to Other Planets. Now they are selling revised editions and perhaps it is the best selling item. Since I have come to this country, I might have sold this Easy Journey about one half million copies. My Krishna books are selling more than that. So by Krishna's grace our books are being appreciated by universities, libraries, and respectable professors, and some are being used as textbooks in the universities. I am enclosing herewith a copy of our book catalog which contains some of the comments of the professors. I hope you will enjoy it. Also I am enclosing a copy of one book, Scientific Basis of Krishna Consciousness, written by one of my Ph.D. students. You are also a scientist, and I hope you will enjoy it.

In India we have got a program of membership and patronship costing Rs. 1,111/- and 2,222/- respectively, and all of our members and patrons are receiving all of the books free of charges. So any member can come to our temples and live as long as he likes and take free prasadam. So if any Indians students come here as our member, we shall welcome him and give him a place as well as prasadam free of charge.

We have already organized the Ratha Yatra ceremony, and we hold a great Love Feast festival every Sunday in everyone of our branches. Now I advised to organize more festivals during Janmastami, Lord Ramacandra's Appearance Day, and Gaura Purnima, the Appearance of Lord Caitanya Mahaprabhu.

I am addressing this letter to your Indian address because I could not properly reply your letter earlier because your letter has been redirected to me from the many places I have been on tour. I am also sending a copy of this letter to your address in USA in care of your son. I am very anxious to meet you again. I am returning to India by October, and I am inviting you to come to our Vrindaban temple and live there for some time. I have got a very nice Guest House there, and I would suggest humbly that since you are already retired from service and your sons are well situated, that you may retire from your family life and live in Vrindaban in the vanaprastha order. Our Vrindaban temple is appreciated as the best in this quarter. The Governor of Uttar Pradesh stayed with me for two days recently, so at least for a few days you may come there and live with me.

Learned scholars like you are now needed to represent the cause of Krishna consciousness because without this consciousness the human society is doomed. So I require the help of respectable, learned scholars like you for spreading this movement more and more. According to the Vedic system this body is perishable and the ultimate form of this body is to become ash, stool, or earth. Therefore it is advised by the great pandita Canakya that the body should be sacrificed for a better cause. That is the idea inherent everywhere, especially in India. Everyone is advised to achieve the result of pious activities by engaging this body for such purposes. That is the greatest gain. According to the Vedic varna asrama it is compulsory that one retire from his family life and engage this body for Krishna's service at the end of his life. As it is stated in the Srimad-Bhagavatam:

tat sadhu manye 'suravarya dehinam sada samudvigna dhiyam asad grahat hitvartma patam grham andha-kupam vannad gato yad harim asrayet [SB 7.5.5]

I hope you will try to understand my point of view and join this movement to make it more appreciable by the people in general all over the world.

Thanking you once more for your letter, and more when we meet.

I hope this finds you in good health.

Sincerely yours,

A.C. Bhaktivedanta Swami

Please accept my blessings. I am in due receipt of your letter dated August 1, 1975 with enclosed currency note of 50 dollars. Thank you very much. I am glad to know that you have applied for your Hong Kong visa. You were happy there, so why not return there. Pancadravida Swami is leaving to go to South America, and Gopala Krishna cannot send any man there. You started there in Hong Kong, and I have full confidence in you to make it successful.

I am presently en route to Bombay, and I have stopped here for one day. Here we have got a very nice land of 250 acres with a big French castle. They are starting to grow vegetables, fruits, and flowers, and they are keeping cows. It is a very nice place about 180 miles from Paris. So you may keep me informed of your program by replying to me in Bombay.

Swami B.H. Bon Maharaja Rector, Institute of Oriental Philosophy Bhajan Kutir, Madan Mohan Ghera P.O Vrindaban, Dist. Mathura U.P. INDIA

My Dear Sripada Bon Maharaja:

Please accept my humble dandabats at your lotus feet. At the present moment I am staying in our French castle in the village of Lucay-le-Male. We have purchased recently 250 acres of land with a big palace. Some photos are enclosed herewith. I am now organizing in Europe and America many farm lands so that my devotees can live there peacefully, grow their own foodstuffs, produce cloth, and save time for chanting Hare Krishna. This scheme has been successful in New Vrindaban, West Virginia; New Orleans; and Pennsylvania. So the same attempt is being made here in France. This place is a little interior from Paris about 180 miles, and there are about 100 devotees already. They are growing vegetables, fruits, and flowers, and keeping cows with great enthusiasm. They are chanting Hare Krishna also village to village in buses, so the propaganda work is going on nicely.

I have received recently one letter from Dhananjaya in which amongst other things he gives me the following information: ”Now Bon Maharaja is prepared to make a proposition regarding allowing the construction of the Gurukula on two acres in his college property. He has assured us that the land will be registered in the Society’s name.”

I have received your letter dated July 15, 1975, and I have replied from Los Angeles. I am very much anxious to start this Gurukula scheme immediately, and as you have kindly agreed to give us the vacant land for our Gurukula, I am starting for India immediately by cancelling other programs.

From here I shall go to London for one or two days, and from there I shall take one Quantas plane which goes directly to Bombay in eight hours. Then I shall see Bombay affairs where we are constructing a very big temple and residential quarters. There are six houses of two stories already on a spacious land of 20,000 sq. yards. We have already constructed one floor more on each house to accommodate our devotees, and still we are constructing another two towers for receiving guests, as well as a very big temple in that land.

After inspecting for a few days how things are going on there, I shall go back to Vrindaban via New Delhi, and if you kindly give us the land I shall begin the constructing of the Gurukula building immediately.

I am coming here via Toronto and Montreal, and it was a great pleasure for me to know that you saw our temples there. Next time if you kindly come either to Europe or America please visit all our temples, especially I will request you to visit our temples in Los Angeles, Detroit, London, and Paris (Lucay-le-Male.)

I hope this meets you in good health.

Affectionately yours,

A.C. Bhaktivedanta Swami

My Dear Dhananjaya das:

Please accept my blessings. I am in due receipt of your letters both dated July 30th, 1975 and have noted the contents. Regarding the plot of Bon Maharaja, I will speak with him personally. I am returning to India, and shall reach Bombay by the 14th instant. After seeing Bombay affairs I shall come to Vrindaban via New Delhi.

Regarding men for Vrindaban, when I was in Toronto one British householder with wife and child has agreed to come. Please send me the list of all devotees there in Vrindaban giving their passport names, nationality, and passport number, and date of arrival in India. Send this list to Bombay. Krishna will arrange more men for you there. Do not worry. I have requested them to send more men from Canada.

I am very glad to note that you are having the Phool bangla. It will be very popular. Tell me how it was held. That you are expecting 30,000 people for Jhulana Yatra is wonderful. You should distribute liberally prasadam. Aksayananda Maharaja will supply money. Let each man be given prasadam. That is our special program.

I thank you very much for the photos you have sent. The translation specimen is all right. Please arrange to have this man come and see me when I come there. Navayogendra can also personally guide the translators. The temple there should be kept very nicely. Some one was saying that the front well has been spoiled.

Regarding the adjacent land for sale, yes, it is not to be done in this indirect way. Let them take money from us openly and give us the land. We are prepared to pay for 5,000 sq. yards Rs. 20/- per sq. yard. If Bon Maharaja gives us land, still we can purchase this land for future expansion.

I hope this meets you in good health.

My Dear Tejiyas das:

Please accept my blessings. I am in due receipt of your letter dated July 26, 1975 and have noted the contents. Regarding the importation of printing paper, it will not be as gift, but it will be paid for from India in foreign exchange. We have sent so much foreign exchange from America and Europe, now we want permission to send out the same amount for purchasing foreign paper. Just like in 1967 when I returned to India. When I wanted to go out, for purchasing my ticket, they would allow only if I had brought in foreign exchange. I showed the bank receipts for encashing the foreign exchange I had brought in, and they immediately granted permission for me to purchase my ticket. So following the same principle we want permission to purchase printing paper up to the amount of foreign exchange that we have sent into the country.

In this connection you can find out in the Import/Export Department on e Mr. Mukherjee who is the son-in-law of the late Mr. N.C. Chatterjee. Mr. Chatterjee was my personal friend, and some 10 years ago promised to help me. So if you find Mr. Mukherjee, he can help you.

Regarding your feeling yourself as unqualified, whatever you can do, then do it, but you should try your best for Krishna. This is important. Ultimately everything is depending on Lord Krishna. You just have to always remember this.

I hope this meets you in good health.

My Dear Mahamsa Swami:

Please accept my blessings. I am in due receipt of your letter dated August 2, 1975 and have noted the contents carefully. The photographs show that the Nellore land is very nice and that a nice center can be constructed there. Yes, you did the right thing in getting the Gift Deed registered. I am sending herewith the Power of Attorney in this connection that you have asked for. Gopala Krishna informed me that you plan to build the temple in Nellore with the help of local life members. This is a very good idea. You may construct a library and a meditation hall to please the donors, but as far as possible the library should carry our books and books of other Vaisnava acaryas. The meditation hall you may put pictures of Krishna on all four sides. The construction may start as soon as you have raised enough money to local help. If the climate there is nice, then I may also come there.

Regarding the Hyderabad construction, it should not be stopped. I have received your request for the additional Rs. 40,000/- that I have agreed to give you, and this is all right. _ you a loan you have requested for Rs. 60,000/-, but one thing is that it must be paid back. So many loans are given and they do not pay back. Please send me in writing that you agree to repay as soon as possible. Regarding the farm, we should not invest any money until it is transferred into our name.

If we are offered land in the future, you can consult with me or Gopala Krishna before accepting it. I would like to have a temple in every village in India and invite everyone to come and eat prasada, and live with us provided they follow our principles. The only problem is that we do not have enough devotees to manage so many centers. But, if you can make local devotees who have management ability, then you may accept as many plots of land as are offered.

I hope this meets you in good health.

Please accept my blessings. I am in due receipt of your letter dated August 5, 1975 and have noted the contents. The news clipping was nice. Regarding your festival of Ratha Yatra, you have got my blessings. Either with or without my presence, you will be successful, so do not worry.

I have seen your farm, and it is very nice. Develop it very nicely. You have already done nicely, so develop it further. That is very nice that you are saving money U.S. 250.00 per month on cow feed. Grow for animal and man food as far as possible. That is Krishna's order. annad bhavanti bhutani [Bg. 3.14]. It is also nice that you are making so much profit from your Spiritual Sky. Use it wisely.

Upon your recommendation I am accepting the following disciples as initiated and their names are as follows: Thomas White-Padavja dasa; Henrietta Whelan-Jayaprada dasi; Katherine Kern-Kamarikanta devi; Jim Tucker-Jagatkarta dasa. I also accept for second initiation Sanatanai devi dasi. The mantra sheet is enclosed. I think you can inquire from Jagadisa about getting the tape. Hold a fire sacrifice amongst the devotees and let her hear the tape through the right ear.

I hope this meets you in good health.

My Dear Radhavallabha das:

Please accept my blessings. I am in due receipt of your letter dated August 15, 1975 and also the copies of the Vyasa Puja book. It is done nicely, but why it is mentioned my 79th birthday. It is my 80th birthday. That is correct. You do not know this? One of the GBC articles says 79th birthday. Big GBC man, so many editors, and it is not detected? You are all mudhas, what can I do? Anyway it is better to remain a mudha before your spiritual master. Just like Caitanya Mahaprabhu, He said that My spiritual master saw Me as mudha.

Do not worry, in spite of war, Srimad-Bhagavatam will be distributed. We don't care for war. Our preaching business will go on. Your desire for the complete Srimad-Bhagavatam will be fulfilled. The Sixth Canto I have already completed and I shall begin the Seventh Canto within a fortnight. When I am relieved from the administration work, then it will be done.

I hope this meets you in good health.

Please accept my blessings. I am in due receipt of your letter dated July 12, 1975 and have noted the contents. Yes, when Krsna was present, the religious principles were going on nicely, but when He retired back to His abode, then deterioration infiltrated. But Srimad-Bhagavatam is the sunshine Purana by Vyasadeva to open the eyes of the conditioned souls. It is the sound representation of Lord Krsna.

Regarding your desire for all twelve cantos, you will get it, rest assured. Your so much ardent desire will be fulfilled by Krsna.

I hope this meets you in good health.

My Dear Rupanuga das:

Please accept my blessings. I am in due receipt of your letter dated August 3, 1975 and have noted the contents. Regarding the Washington temple why are you selling the present building? Why are you changing it? We are not businessmen that we sell for profit and then move the Deity. Develop the farm in New York nicely. Show by example what it means plain living and high thinking. Regarding the letter to the lawyer, I have heard from Brahmananda Swami that the lawyers did not like the letter and threatened to Ramesvara that if it was not retracted then they would bring suit. So if necessary then retract it. Do not write in a way to accuse them. Just terminate their service. So after retracting, then write a new one.

Regarding your questions, no, the large Deity can never be moved, not at all. Regarding remarriage, no, remarriage should be always discouraged. Remarriage means encouraging sense gratification. Our mission is to curtail sense gratification. Three times marrying in a year, this is not good, and they are doing this.

I hope this meets you in good health.

Regarding Manasvi you immediately inform the police that he has misappropriated so much money. He must give the account or we shall prosecute. Yes, Srutakirti he is a good boy, so he can be made the President as you suggest.

You are GBC so you must stop all this from going on. The best procedure is that the Treasurer takes all money collected and immediately writes it in the book and then daily deposits everything in the bank. None of the collection should be used for spending. All expenditures should be done by check as far as possible. Check means two signatures, so in this way this nonsense will be stopped. Please see that all temples are following this system. These report are very much disturbing to me. How can I translate?

My Dear Jagannatha Suta das:

Please accept my blessings. I am in due receipt of your letter dated August 18, 1975 and have noted the contents. I have received the new issue of "Back to Godhead," No. 9 and it is done so nicely. It is all very pleasing to me, and I thank you all for this service. The printing I think is actually better than the Japan printing. Long, long ago when I was alone I was thinking of printing like this, but there was no way to do it. Now you American boys and girls are helping me, so I thank you in this regard. I pray to Krishna for your continued enthusiasm in spreading Krishna consciousness.

The article on Marxism is very much appreciated. We can say all these big so-called philosophers are all simply mudhas. Perhaps I am the first to do it. Our philosophy is perfect, and we cannot be defeated by anyone. So it is up to you to learn it and be able to present it nicely. Now you have everything, respect, philosophy, money, temples, books, all these things I have given, but I am an old man and my notice is already there. Now it is up to you all how to manage it. If you cannot increase it, you should at least maintain what I have given you. You cannot accuse me that I have not given you anything. So it is a great responsibility you now have.

I am enclosing a copy of the latest ”Back to Godhead”, and I am requesting that in your Janmastami Festival meeting you read the article under ”ISKCON NEWS” about the Ratha Yatra Festival. The point is that in the foreign countries they are accepting this a bona fide religion and making holidays and our Ratha Yatra is regularly established. But, in our own country they are giving so many hindrances. Anyway, after all we have got the permission. I am also sending you a copy of the corrspondence with Raj Kapoor. This should also be discussed in your meeting how prominent people are giving us respect, why are others making false propaganda? Dear Sri Kapoorji:

Please accept my greetings. I am in due receipt of your letter dated August 14, 1975 with enclosed check for Rs. 2222/- and Membership form. Sometimes in the year 1954 if I am correct I had the chance of meeting you in Jhansi. At that time I was trying to organize my movement with the help of some young men at the Bhakti Bhavan, Jhansi.

So after ten years of struggle, in 1965 I went to USA, and by the grace of Krishna it has become successful all over Europe, America, Canada, and Australia. As it is stated in the Bhagavad-gita; yad yad acarati sresthas, tad tad evetaro janah, sa yat paramanam kurute, lokas tad anuvartate [Bg. 3.21]. ”Whatever action is performed by a great man, common men follow in his footsteps. And whatever standards he sets by exemplary acts, all the world pursues.”. Your donation to this movement and your becoming the Patron Member is a very great thing, and it will ensure others who will also follow in your footsteps. So I am very much grateful to you.

Please visit our Hare Krishna Land Juhu for Janmastami and Vyasa Puja Day on the 30th instant. I think the Mayor of Bombay will preside over the meeting.

My Dear Sripada Bon Maharaja:

Please accept my humble dandabats at your lotus feet. Your letter dated August 7, 1975 addressed to my Los Angeles address is just now received having been redirected from there. Please take our invitation card for the Janmastami and Vyasa Puja Day. Kindly attend if possible because I understand that you are sick. The other day Sripada Brahmananda Swami and Sriman Gopala Krishna das Adhikari and Sriman Dhananjaya das Adhikari went to see you, but they were not allowed to disturb you on account of your sickness.

Now I have studied your letter under reply. Regarding the land, if you can't sell then you can lease it to us for 99 years. I think there is no objection. The land is lying vacant from a long time 50 years. Now if it can be utilized for the benefit of the Institute why there should be objection.

The other day while taking my morning walk from the backside of your land I reached on the main road. So much land is still vacant without any utility. If you can spare all these lands on lease terms we can immediately use them properly. Now when you lease out the lands for some income, I don't think there is any objection by the Trustees. So if you come on Janmastami or Vyasa Puja Day we can talk on this matter, or if you are sick, if you give me some appointment I can go and see you.

So far other proposals, if the Institute is given for our management, we can fulfill all your desires mentioned in your letter under reply.

Hope this meets you in good health. Thanking you once more.

Letter to: Sri Rameshji Mahalingam:

Dear Sri Rameshji Mahalingam:

Please accept my greetings. I am in due receipt of your letter dated August 12, 1975 and have noted the contents carefully. I am very sorry for the incidence which has taken place between you and my devotees. So you may please note it that I am dealing with these foreign students and teaching them to become Krishna devotees, and some of them being neophytes may sometimes commit some offense. There is nothing surprising in this, but their ardent desire to convey the idea of Krishna consciousness is always laudable.

Of course we have to speak the truth but very palatably. These neophyte devotees have not yet learned how to speak the truth palatably, but gradually they are learning. Certainly Hindu culture does not allow illicit sex, eating meat, fish or eggs, taking intoxication, or gambling. If Indians, after going to the foreign countries, learn this behavior, certainly it is not good. The only fault on the part of the devotee is that he could not present the things very politely. So you know the nature of the Western young men, so toleration is needed by you considering the position of the other party. Anyway I beg to apologize on behalf of my student, and shall solicit the pleasure of your goodness to visit our temple regularly. One should not be angry and eat his meals on the floor just because someone has stolen his plates. This is a Bengali saying. The logic is that if one's plates are stolen by a thief, we should not become angry and decide not to purchase new plates and eat on the floor.

I hope this meets you in good health.

My Dear Svarupa Damodara das:

Please accept my blessings. I am in due receipt of your letter dated August 6, 1975 with enclosed photo of the Gaura Nitai Deities. It is very nice how you are worshiping the Deities. Our movement of Krishna consciousness is not dry. Your letter was pleasing to me. I am glad that you have keen interest in the Institute program. Be ready, as I am negotiating. As soon as it is complete, I shall send a telegram for you to come. In the meantime request all GBC's to send lists of all our disciples who have B.A., M.A. or Ph.D. degrees.

I am glad to know that you are getting nice cows for your farm. If you have good cows then you will have good milk, which is the most important food. We are giving cow protection in the very place where they are eaten. At Bon Maharaja's Institute there is enough land for also keeping cows.

I was not able to come to Atlanta because I was called here to India on urgent business. Also I was feeling inconvenient by so much travelling. Regarding your question, so long they are not getting the human form by natural elevation, they are under the laws of nature. "prakrteh kriyamanani, gunaih karmani sarvasah [Bg. 3.27], "Material nature is helping to bring him to the human body, or human species. When a human being is civilized he can take knowledge from Vedic literature. So in Kali Yuga the Srimad-Bhagavatam is the essence of Vedic literatures: nigama kalpa taror galitam phalam [SB 1.1.3].

So by study of Srimad-Bhagavatam under the bona fide spiritual master, one becomes aware of the full value of life, and then he revives his original Krishna consciousness. That is the perfection of life. The individual soul is already under specific material nature, and the process is going on in lower grades of life, but in the human form of life by advancement of education, one can become above the modes of material nature. That chance is given to him. This is stated in the Bhagavad-gita: "yanti deva vrata devan [Bg. 9.25]." So if he likes he can go back to Godhead, "yanti mad yajino 'pi mam," and stop this transmigration process. Then he comes again perfect in Krishna consciousness. We are trying to bring the human society to this stage of life.

In human life even in the lower stage of modes of nature, he can come to the higher stage. That is our movement. In the animal form there is no chance, only in the human form. Unfortunately the modern mode of education is to kill the chance. In animal stage of life it is very dangerous.

I hope this meets you in good health.

Your ever well wisher, A.C. Bhaktivedanta Swami

N.B. The negotiation with Bon Maharaja is not very feasible. It is too much encumberous. So if it possible, you start the Institute in USA. Do you think it is possible here in India or in USA? ACBS/bs

Minister for Land & Revenue Government of Uttar Pradesh Civil Secretariat LUCKNOW Re: Land for Community Development
Dear Sir:

I have been told by Sri Ram Pandey who is the Editor of INPF Samachar Samiti, Allahabad, and the District Youth Counsellor for the District Planning Office, Allahabad; that there are enough barren lands that are not suitable for agricultural use that are lying unused in Allahabad District. If you could kindly give over these lands to use we could develop it into a self sufficient community producing foodstuffs, grains and vegetables, milk products, and cloth involving the local peoples for their greater benefit, as we are already doing at our Mayapur Candradaya Community Development Project in West Bengal, Dist. Nadia, and which we are now planning near Hyderabad, Andra Pradesh.

I hope you may enquire into the availability of lands for such a complete development scheme which will benefit the people at large.

My Dear Alanatha das:

Please accept my blessings. I am in due receipt of your letter dated August 22, 1975 with enclosed copies of your new Swedish Back To Godhead magazine. It is very nicely done. The printing and paper are very good. You have published on the first page the first photograph of my preaching in America. It is an historical photograph. Even though I was alone completely in a foreign country, still I was not appearing forlorn. I was confident, that can be seen in my photograph.

I think the translation work was done by Vegavan and Ajita Prabhus. So encourage them in this work. This translation work is very important. It is not simply a matter of ABC's, but it requires spiritual realization to do it properly. I understand that you are a good sankirtana man and book distributer. So you all cooperate. They translate, and you print and distribute. What more do you want? In this way you flood Sweden with transcendental literatures.

I am very glad that you are getting so much interest from persons coming from the Eastern Europe countries. You should give the two devotees from there all facility in translating. Now I am requesting Hamsaduta and Bhagavan to make vigorous propaganda in Eastern Europe. In the latest issue of Back to Godhead English edition there is my discussion about Marx philosophy. It will appeal to any sane man. Lenin has murdered the Czar, that was his only accomplishment, but any gunda could do that. This article should be read and translated.

Upon your recommendation I am accepting Vaclav and Jan as my initiated disciples. Their spiritual names are Paragati dasa and Turiya dasa respectively. See that they chant regularly 16 rounds and follow our principles. Then they will remain strong in Krishna consciousness. Their beads can be chanted upon by Hamsaduta dasa.

-

Vrindaban 1 September, 1975

Bahu Rupa Das P.O. Box 4758 Long Beach, CA. 90804

Dear Bahu Rupa Das:

Please accept my blessings. I am in due receipt of your letter dated August 16, 1975 and have noted the contents. How can you prove that Vedic culture did not exist before 5,000 years? Darwin's theory says millions and millions of years in calculation. So how are these millions of years existing?

Mundane archeologists are mistaken because they say from monkey the human beings have come into existence, but at the present moment both the human being and the monkey are existing. The monkey is not extinct. So these theories are not correct. Nobody has seen a monkey giving birth to a human being. As the monkey and the human being are existing side by side at present, so for millions of years they were existing like this. That is our theory. The modern material archeology has no meaning for us. Our realization is depending on the spiritual platform. Transmigration of the soul does not depend on history.

There is Vedic literature that gives proof of Lord Parasurama driving out the ksatriyas. We do not take these mundane histories as authority. Regarding the dating of the Srimad-Bhagavatam, the Battle of Kuruksetra took place at the beginning of Kali yuga, and Kali yuga has passed more than 5,000 years. The Bhagavad-gita was also spoken at the beginning of the fight, so we take it as 5,000 years ago. From the Bhagavad-gita we learn it was spoken by the sun god millions of years ago. We take this as authority. If you don't accept my authority, then I don't accept your authority. That is the way of evidence, to accept the Srimad-Bhagavatam and the Vedic literature. The calculation is that the Kali yuga is 432,000 years, out of which we have passed 5,000 years.

I hope that this meets you in good health.

My Dear Jayananda das:

Please accept my blessings. I am in due receipt of your letter dated August 11, 1975 and have noted the contents. What you have done is good. Why should you remarry? Rather you should take sannyasa. Now you are getting very good training. Why has Jayatirtha suggested you to remarry?

In Delhi there is a certain kind of laddu which has such a taste, that anyone who has tasted it once, he laments, oh how I would like to taste again. And anyone who has never tasted, he also laments, oh I have never tasted. So one who has tasted, and one who has not tasted, both are lamenting. Wife is like that. You have already tasted, now you are lamenting. But my advice to you is not to try to taste again, otherwise your lamentation will increase. You have got no children, so you are free, so take sannyasa.

Sex life is nasty, but out of illusion we think it is nice. Now you are experienced, so don't take sex life again. You should not take sannyasa out of sentiment nor artificially, but it is better to accept it anyway.

I think I may stop all touring and just sit down here for translating. You have taken seriously the publishing and also the distribution of these books, and that is the success of our mission. You have taken seriously this work and I know that my guru maharaj is pleased with you because he wanted this. So by this your endeavor you will all go back home back to Godhead.

Let me first of all finish Srimad-Bhagavatam, then we can take up others. So I wish to also thank you for your cooperation. Because of your cooperation, therefore I has been possible. For me to publish alone the first three volumes, I had to take so much trouble, but by the cooperation of you American boys and girls now this has become possible.

You promised on Vyasa Puja Day, and it has come, although Nitai has come a little late just after our ceremony. Anyway, what you have done is good. Nitai has said he has brought advance verses for 7th Canto, and this will help me. Nitai was to come on the 20th but now he has come with the substance, so I am very much pleased.

The pictures are all wonderful. The artists tease me with so many questions, about this and that, but they have done nicely, so it is all right. So you all go on with your work, and I will pray to Krsna for your ever advancement in His service.

I hope this meets you in good health.

My Dear Omkara dasi:

Please accept my blessings. I have seen your letter dated August 17, 1975 and have noted the contents. I never said there should be no more marriage. By all means legally you can get married. How can I object? They misunderstand me. Unless it is there from me in writing, there are so many things that "Prabhupada said."

I have no objection to marriage, but to bless it by a fire sacrifice, that I am thinking that if they don't stay together, then it is not good. But if they can remain together for one year, then there can be fire sacrifice. But changing three times in a month husband and wife, that is not good.

I hope this meets you in good health.

Dr. Jagadisa Bhardawaj, M.A., Ph. D. Professor Hindi Division Atmaram Sanatana Dharma College New Delhi

Dear Sriman Bharadwajji:

Please accept my blessings. I beg to thank you for your presentation of two books, Krishna Lila he Lila Varnanani and Krishna Lila Vimarsa. I have gone through some of the pages of these books. It is done very scholarly. We are presenting Krishna consciousness all over the world. In future many devotees will be interested to read your books. We understand from the Srimad-Bhagavatam that everyone should utilize his talent in the service of the uttamasloka, Krishna.

idam hi pumsas tapasah srutasya va svitasya suktasya ca buddhi dattayeh avicyute 'rthah kavibhir nirupite yad uttama sloka gunanuvarnanam [SB 1.5.22]

Learned circles have positively concluded that the infallible purpose of the advancement of knowledge, namely austerities, study of the Vedas, sacrifice, chanting of hymns and charity, culminates in the transcendental descriptions of the Lord, who is defined in choice poetry." (Bhag. 1.5.22)

Generally it is very difficult to understand Krishna tattvatah, as it is confirmed in the Bhagavad-gita, manusyanam saharasresu/ kascid yatati siddhaye/ yatatam api siddhanam/ kascin mam vetti tattvatah. "Out of many thousands among men, one may endeavor for perfection, and of those who have achieved perfection, hardly one knows Me in truth." (Bg. 7.3) But, Krishna is available through the process of devotional service, bhakti yoga, bhaktya mam abhijanati [Bg. 18.55], and anyone who actually understands about

Krishna, about His appearance and disappearance, he goes back to home, Back to Godhead, janma karma ca me divyam/ evam yo vetti tattvatah/ tyaktva deham punar janma/ naiti mam eti so ’rjuna [Bg. 4.9]. Therefore in the Brahma Samhita we learn: vedesu durlabham adurlabham atma bhaktau [Bs. 5.33]. It is further stated in the Padma Purāṇa: atah sri krsna namadi na bhaved grahyam indriyaih/ sevonmukhe hi jihvadau svayam eva sphuraty adah [Brs. 1.2.234]. ”No one can understand the transcendental nature of the name, form, quality, and pastimes of Sri Krishna through his materially contaminated senses. Only when one becomes spiritually saturated by transcendental service to the Lord are the transcendental name, form, quality, pastimes of the Lord revealed to him.” Krishna cannot be known by the materially blunt senses. When you utilize your tongue in the service of the Lord then Krishna reveals Himself. You cannot order Krishna please come and I will see you.

So you are a learned scholar, and you have tried to use your energy for the service of the Lord. That is your success. I thank you very much for your endeavor in spreading Krishna consciousness.

With my best regards, I beg to remain,

Yours sincerely, A.C. Bhaktivedanta Swami

Did Dr. Wolf-Rottkay help edit this book? I do not see his name mentioned. He is professor, so if you mention his name in the book, it will be impressive. When I was in Los Angeles he was coming to see me everyday. Also on the spine of the book under the BBT logo the words ”Bhaktivedanta Book Trust” must appear. Nairobi

My Dear Cyavana Swami:

Please accept my blessings. I am in due receipt of your letter dated August 14, 1975 with enclosed copy of letter to Shakti Mati and the proposed BBT and Spiritual Sky argeements. So it is good that Shakti Mati is again living in the temple. Keep her nicely. She is woman, so you call her Mother. As soon as you call her Mother, that I am so fallen please save, you are so great, then she will be very pleased. She is very talented and can organize the Pujari Dept. You say that the devotees are not enthusiastic, but this is important for spiritual life. Without Deity, then we are just sleeping and eating, and again they will return to hippie life. They must take care of the Deity very carefully. I saw once the film of the Deity installation there, and it was done very nicely, so why are they now slackening? Shakti Mati can teach others how to do things. They should assist her.

It is very good that the Government is cooperating by giving land. It is a good opportunity. Do it nicely. Do not worry about the political situation. Try to convince the African leaders that we have nothing to do with politics. We are trying to unite the whole human society under the flag of Krishna consciousness, love of God. That is our mission. If we get African devotees, then we are successful. So already some are coming. Now keep them fixed, and they will bring others. That is nice that the Africans from South Africa are coming from there and joining you. The philosophy of South Africa is simply on the bodily platform. It is all nonsense. Can they be sure that in their next life they will be South Africans?

The BBT arrangement you have made is all right, but Brahmananda Swami says that it may be difficult for the temples to maintain by giving to both the Book Fund and the Building Fund. So if it is not possible that the temples maintain themselves by giving 45% to the BBT and 45% to the Building Fund, then use the Building Fund for maintenance. But the BBT must get its money. That is the prime responsibility of every temple. So let the temples pay the BBT 50% and when you require money for construction, then we shall see.

I understand you want to print Swahili literature with Dai Nippon and it will cost U.S. 8,000. So Dai Nippon gives BBT-L.A. credit, so let them order, and you pay L.A., even if you can transfer funds yearly. It doesn’t matter. This publishing work is very important. I approve for you to get books from BBT-L.A. at reduced prices, at the cost price, the same as India is getting. You can inform Ramesvara that I give my sanction.

Regarding my coming there, I want to come, especially your Mauritius program is attractive, but my present state of heath will not allow me to travel outside of India. I am not having any appetite so I am eating less. By eating less where is the energy for travelling?

Upon your recommendation I accept the children of Rasa-lila as my disciples. There spiritual names are Radhika devi dasi and Sanatana das Brahmacari. You can chant on their beads. I know the devotees there are working hard, especially as you have mentioned Prabhanu, Sharma, Dinanath, Jnana das, Caitya-guru, Jalakara das, and Pusta Krishna Swami. Because you are all cooperating with me, so much has been done. When I was alone I was taking so much trouble, but now there are so many assistants. But now you have to manage things very carefully and relieve me from the management so I can translate my books. But I do not want to see that everything deteriorates by your management. If you cannot increase then you should at least maintain what I have established.

Yes, you are correct in feeling sorry for mistreating Shakti Mati and Nava Yoginder. Hitting the devotees is not good. We have to teach by our example.

I hope this meets you in good health.

Your ever well wisher, A.C. Bhaktivedanta Swami

N.B. Now I have decided that I must come to Africa. So my visa for South Africa is valid up to October 18. Therefore I shall leave from Bombay approximately October 1 for Mauritius and stay there for one week. Pusta Krishna Swami may come there and take me to South Africa since none of my servants have S.A. visas. I shall stay in South Africa for one week. Then Pusta Krishna

Swami may take me to Nairobi and I will stay there for one week and go to Mombassa if you think. Then I shall return to Bombay by the end of October. So you arrange this program.

ACBS I shall decide later on. ACBS/bs

My Dear Deoji Punja:

Please accept my blessings. I am in due receipt of your two letters dated August 6th and August 15th together with the revised plans for the temple. The pujari room on the first floor behind the temple is not meant as living quarters for the Pujari. It is meant for storing the Deity paraphernalia, making flower garlands, etc. No toilets should be on this floor. Water taps will be needed however for washing the Deity utensils and prasadam plates of the Deity. Also on the Ground Floor on the first plan there were living quarters, but on the second plan there is only one big Library. Where will our men live? Living should be on the Ground Floor.

Regarding the adjacent piece of land, if you can donate, then the adjacent land owner can also donate. The management of affairs should be in the hands of my devotees. Your program for making Life Members is approved by me. You should work under the supervision of the GBC.

Regarding Manasvi, you should immediately prosecute. The charge should be Breach of Trust and Misappropriation of Funds. I have received today the Oath of Allegiance duly signed by him and notarized. When required it will be supplied to you. Therefore I wanted this declaration. Immediately prosecute.

Regarding the restaurant, that is the defect, that if we divert our attention more on business. Therefore it is very difficult. Things should be adjusted so that temple programs are not hampered. The brahmacaris and sannyasis must stick to the temple activities. Only the grhasthas can take part in the restaurant. Our aim should not be to work for profit. You American boys and girls can make very large profit, but why you have taken to Krishna consciousness? You are not meant for profit making but for advancing in spiritual life. So we should not take to the restaurant for profit making at the cost of slackening of spiritual life. This is dangerous.

Sharon Suzuki P.O. Box 742 Keaau, Hawaii

My dear Sharon Suzuki;

Please accept my best wishes. I am in due receipt of your letter and I have noted the contents carefully. It is quite evident that you are feeling anxiety in your mind. The best way to overcome this, the way to control the mind is to become Krsna conscious. This is stated in the Bhagavad gita in the sixth chapter, that one has to control the mind otherwise the mind will become his worst enemy. The process for Krsna consciousness is that we control the mind through hearing and chanting. We hear the maha mantra, Hare Krsna Hare Krsna Krsna Krsna Hare Hare Hare Rama Hare Rama Rama Rama Hare Hare and we hear the lectures from the spiritual master and read his books. Also we speak by preaching and by chanting. This is the easy method for controlling the mind, by hearing and chanting.

So my advice to you is to somehow or other fix your mind on Krsna then you will experience peace of mind and your mind will be your best friend.

I hope this meets you in the best of health.

Letter to: Sri Arjuna:

Arjuna Das Lecturer in Commerce St. John's College Agra, U.P.

My Dear Sri Arjuna Das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated August 31, 1975, and it is very encouraging that you have tried to understand our philosophy so quickly. As I am travelling all over the world, I see that people are not satisfied. The dissatisfaction of the whole human race is being manifested in different ways. As sometimes the root disease becomes manifest by different symptoms. So far we understand from authoritative sources the dissatisfaction of the human race can be mitigated only by the acceptance of Krishna consciousness. The Bhagavad-gita confirms this: bhoktaram yajna tapasam/ sarva loka mahesvaram/ suhrdam sarva bhutanam/ jnatva mam samtim rcchati [Bg. 5.29]. Another example can be given that if by taking care of the cage of the bird without taking any care of the bird within the cage, certainly the bird will be restless and unhappy and create disturbances.

We require the help of many, many young men like you to understand this philosophy thoroughly and preach this movement in an organized way all over the world. Fortunately some young men cooperated with me in the USA, therefore I have been able to push on this movement in the western countries. Similarly if some of the young, educated men like you in India join this movement, we can change the present situation of poverty and restlessness all over India.

In the Bhagavad-gita the procedure is described very elaborately for acting in all fields. We have to simply understand it and accept it, then everything will be peaceful and in a happy situation. Krishna appears for this purpose. He leaves behind His instructions so that in the future people could take His help and guidance. But, if you do not accept His instructions, then how can you be happy?

I am here in Vrindaban for some time. If you conveniently come and stay with me along with some of your interested friends, I shall be happy to convince you how this Krishna consciousness movement is so needed all over the world.

I hope this meets you in good health.

More when we meet.

My dear Balavanta das,

Please accept my blessings. I am in due receipt of your letter undated with enclosed check for $500. Thank you very much. I am very glad to hear that everything is going on nicely, especially your developing your new 250-acre farm. Yes, if you can get the government to support our project, that would be big triumph for us. They are spending millions and millions of dollars trying to keep the young people from turning into hippies, drug-addicted, and we are actually doing it. So why they should not give us some support?

Upon your recommendation I am accepting the following as twice-born initiated brahmanas and their sanctified threads and mantra sheets are enclosed: Ballabadra Bhattacarya das Brahmacari and Mahejya das Brahmacari. I also accept as my initiated disciples the following and their spiritual names are: Dr. Richard Thompson, Ph.D.-Sadaputa das; Mike Dunn-Vedaguhya das; Chuck and Diana Sanders-Munjakesa das and Madamohini dasi; and Cindy Barber-Janmasunya dasi. Please see that they are chanting 16 rounds without fail. You should hold a fire sacrifice and let the second initiates hear the mantra from my recorded tape through their right ear. Paris, France

My Dear Bhagavan das:

Please accept my blessings. I am in due receipt of your letter dated August 29, 1975 with enclosed copy of Italian Back to Godhead. This is very encouraging. Thank you very much. Regarding the farm, you can call it Bahulaban.

Regarding the question of second marriage, it cannot be done. Neither the law will allow it and neither we can encourage it. If they want to marry more than one wife, they must live outside our temples in their own arrangements. We have no objection if he does it, but it must be done outside the temple. It cannot be done inside the temple jurisdiction. Outside he can work, earn money, and if he wants he can maintain 16,000 wives. But he must go outside the Society. Within the Society only one marriage can be allowed.

I thought these boys and girls will be married and be happy. But, I see that they are not satisfied. In the Western countries they are trained up in a different way. Jumping from one to another. Another wife, another husband. This is the disease all over the world. Simply by agreement, then cancelled, then another agreement.

Everyone wants more than one wife. That is human nature. This means their mind is not being diverted to Krishna. Because they are not madan mohan, they are madan dahan, they are in the Cupid's fire. You want them to have more wives under GBC supervision. You will supply the maintenance? What is this nonsense? They must go outside the Society to do it. And, the sort of marriage where they are not satisfied cannot be allowed. Nor can women with child strictly she cannot marry again.

Regarding Spiritual Sky, yes you can be appointed. Gopala Krishna has suggested that the Board meet bi-annually, and I approve of it.

I hope this meets you in good health.

Regarding the incident with Nava Yogendra, now this can be forgotten and you go on with your work. We are not concerned for these things.

So I am coming there shortly and I will see how you are doing. I am glad to learn that one Moslem girl has joined. I do not know why there should be opposition from her community for wearing sari. In Bengal many Moslem women, they wear sari and there is no objection. Similarly, in other parts of India Moslem women, they wear sari and there is no objection. The fact that the Moslems are saying Hare Krsna to you on the street, that is your success. We do not care for Moslem, Christian, this or that. Dear Mahavirya das:

Please accept my blessings. I am in due receipt of your letter dated August 9, 1975 redirected from Los Angeles. I am very glad to hear that you are working so nicely in developing the project there. It is very important, and I am very encouraged that you are taking it seriously.

The modern civilization is a condemned civilization. The innocent people are being dragged from the villages and exploited in the cities. But in the Bhagavad-gita Lord Krishna recommends them to remain where they are and produce grains: annad bhavanta bhutani. Grow your food, eat sumtuously, and chant Hare Krishna. This is real life. If we establish such projects all over India, we shall be the proprietor of India. Similarly in the USA. And if USA and India join together in such Krishna consciousness projects, then the whole world will be paradise. Krishna provides everything, but we mismanage it. Even in this condemned world He has provided everything complete. He is so perfect. Krishna wants us to pass on our days here in Krishna consciousness, and then go back home, back to Godhead.

This village program is for the ordinary class of people, and for the intellectuals we have got our books. We are not lacking in anything.

I hope this meets you in good health. I very much like that place in Hyderabad. That tree is very nice. I was sleeping underneath it. It is a pleasant place. Now develop it first class.

Sri P.R. Jalan Kunjlal Street Upper Bazzar Ranchi, Bihar 834001

Dear Parasuram Jalan,

Please accept my greetings. I am in due receipt of your letter dated September 1, 1975. Becoming a life member of this movement is not the necessary thing. Life membership is a side issue. We want people like you to co-operate with this movement. We want you to work for this movement. This is essential. You must know the philosophy and try to co-operate. Money is not important thing. Money is sent by Krsna.

The thing is that unless one understands the philosophy that the human life is meant for understanding Krsna, then simply a group of men such as you propose of the Jaycees, this will not help us. We have to impress upon all men the importance of this movement. Therefore people should be given the chance to hear somehow or other, to hear the philosophy of Krsna consciousness.

So my suggestion is that some of the intelligent men of Ranchi are welcome to stay here with me and try to understand the philosophy of Krsna consciousness. Then it'll be easier for you to start a center there. So you are invited to come and one who cooperates with this movement, he is the real life member. I hope this meets you in good health.

Yours sincerely, A.C. Bhaktivedanta Swami

My dear Stokakrsna das,

Please accept my blessings. I am in due receipt of your letter undated and have noted the contents. Yes, you can come here and I know you can do many things, but whether you will stay here. It's like Nanda Kumara. He came and after one day he wanted to leave and return. So you should not uselessly spend money. If you are going to come, then you should remain and do work. You can come on tourist visa and stay for 6 months.

Letter to: Ed Gilbert:

Vrindaban 9 September, 1975

Mr. Ed Gilbert 3101 West End Ave. No. C4B Nashville, Tennessee 37203

Dear Ed Gilbert:

Please accept my greetings. I am in due receipt of your letter dated August 19, 1975 redirected to me from New York. Regarding your question, God does not discriminate, but so long as we have got forms we have to discriminate. Without God consciousness the discrimination is there. Why should think that you are American or that he is an Indian? Upon this platform of discrimination the whole philosophy of nationalism, communism, this ism and that ism is going on. When one learns how to see individual persons without discrimination, then he becomes perfect. That is described in the Bhagavad-gita: vidya vinyaya sampanne/ brahmane gavi hastini/ suni caiva svapake ca/ panditah sama darsinah [Bg. 5.18]. "The humble sage by virtue of true knowledge, sees with equal vision a learned and gentle brahmana, a cow, an elephant, a dog, and a dog-eater (outcaste.)" It is only on the spiritual platform or Krishna consciousness or God consciousness platform that there is no such discrimination. So if you remain on the material platform and artificially desire no discrimination it is not possible.

We are preaching therefore this Krishna consciousness movement so that we may not have material discrimination. The soul has nothing to do with the body. The body is of different varieties calculated to be 8,400,000 forms. The soul is the same passing through different bodies by the process of transmigration. It is exactly like gold passing through business transaction, but when it is in the hands of somebody he thinks that it is "my gold," and when it is passed through another's hands, he thinks it is "my gold." Similarly the soul being as gold when he is situated in a particular body, it identifies with the bodily position, and each and every body is different from the other. So long the soul is in ignorance and identifies with the body, how can there be equality? So unless one is raised to spiritual understanding, there is no question of equality on the bodily platform. This is a scientific calculation.

Women claim to be equal, so that now they are thinking that they do not want to become pregnant, so they are killing their own child. What kind of equality is this that it creates another's suffering? As soon as the body is different how can there be equality? We see that woman cannot work so hard as a man, and women can do work that a man cannot do, so where is there equality?

I hope this meets you in good health.

Yours sincerely, A.C. Bhaktivedanta Swami

Bhaktivedanta Manor

My Dear Hamsaduta das:

Please accept my blessings. I am in due receipt of your letter dated September 3, 1975 with enclosed clippings and the booklet on Cow Protection. Cow protection is one of the items of the Krishna consciousness movement: krsi goraksya vanijyam. raksya means protection. It is especially mentioned. Mukunda has done a great service. I am asking them to reprint it here. It will be very useful for preaching to the Indians. If you are sending men they can bring copies with them.

This time that there were 10,000 Indians for Janmastami is very encouraging. Yes, they are good supporters. Yes, I approve of your program. We work where there is a good field. Do it nicely. You have noted that is the secret of success. Please continue this policy of straight forward dealings. Regarding Bury Place yes, for raising money to purchase there will be no difficulty. Try to keep our temple there. Purchase it and then repair it nicely and it will be a permanent establishment. We are staying there for the last two years. How we can be moved from there? You can hold the day after Diwali the Anakut Govardhana ceremony. There should be heaps of prasadam.

Regarding the farm, our business is not farming. Our business is to spread Krishna consciousness. So in favor of Krishna consciousness whatever policy is suitable that we should take. Even if you move the farm, how will it be conducted if your devotees are not interested? No, it is not a good idea. It will mean our attention will be diverted. If you have got more men, then it can be tackled.

The clipping on the Janmastami day mentions specifically that the Manor was purchased by George for us. Keep this article for future if there is some trouble. Actually he purchased for this purpose. Encourage Alanatha in his publishing, and also in German language publish as many books as possible. Enclosed are letters about Hyderabad.

I hope this meets you in good health.

If this scheme is successful, it will be a great fortune for us to capture Indian ideals and the support of the Government. Yes, Hamsaduta can supply Rs. 2 lakhs for irrigation. Also I am asking that he may request that English devotees may be sent. The Nature Cure Hospital as you have described it is all right.

Regarding the libraries taking the books, they can be given up to 25% discount. We shall take a standing order from them, and supply whatever we can, and the balance by and by.

Yes, you can rotate the profits from the milk products and agriculture for future developments.

I hope this meets you in good health.

My Dear Satsvarupa Goswami:

Please accept my blessings. I have been informed by Brahmananda Maharaja that only six temples have sent copies of the Affidavit that I have requested from each temple. Please see why they are not sending.

From St. Louis I have received not only the Affidavit but also a "Quit Claim Deed." This decree very nicely expresses very clearly that the property cannot be sold without written permission by myself or the GBC. Such a declaration should be from all centers. Please see to this.

Also I want that all centers follow the following procedure for handling the money. Whatever income is there, every cent must be given to the treasurer. Immediately he records it in the book. Then daily he deposits everything in the bank. For the expenditures, he withdraws from the bank the petty cash by check signed by himself and the President. Then the expenditures are checked by the President to see how the money is being spent. The important thing is that all monies must be given to the treasurer and he records it and every day deposits everything in the bank. And whatever is spent that also is withdrawn from the bank. This will stop the embezzling that is going on. Please arrange for this and inform me.

I hope this meets you in good health.

Please accept my blessings. I am in due receipt of your letters dated August 22, 29th and September 5th with enclosed Dollars 50.00, 159.61, and 126.50. You say that someday you hope to be useful, but you are already useful-you are sending checks. This is the best useful. You are remembering me and chanting Hare Krishna. This is Krishna consciousness.

Regarding the other matters, a difference between godbrothers is natural. That difference of opinion will continue, what can be done. Siddhasvarupananda Maharaja and his group, whenever they see me they give me money. So they are not against me. So it is a natural thing for the brothers to fight, as long as they all stay obedient to the father.

You do whatever you like, but do not forget chanting and following the rules and regulations. That will save you.

My Dear Giriraja das:

Please accept my blessings. I have the copy of your letter addressed to K.T. Charitable Trust dated July 29, 1975 regarding the sale of one guest room. But, what you have agreed to is not satisfactory. We cannot make such agreements with Trusts because it will go on perpetually. It can only be in one person's name and for his lifetime.

The following scheme should be followed hence forth. We have Guest Rooms and Devotee Rooms. The Guest Rooms can be used by anyone who pays the fees, in advance. Any Life Patron Member can live in a Guest room for a period not exceeding three days free of charge. If he wants to stay with us longer for any reason, then he may move to the Devotee Rooms, where he must live as we do, following all devotional practices as we do.

Rooms can be sold on bhetnam basis, but only to an individual and for his lifetime. A person who purchases a room can stay there as long as he likes for his lifetime and the room cannot be transferred to his sons, heirs, or assignees. His individual name will be put on a plaque on the room. Trust or Companies can nominate one man in whose name the room can be sold.

No Guest Rooms can be given to anyone free of charge. Everyone must pay for the accommodation, except Life Patron Members for three days. When a Guest comes he signs in the book how many days he will stay, and then pays in advance. Small kitchens can be provided for the use of Guests for preparing their own tea. Smoking is strictly prohibited. All men who live in the Devotee rooms must attend mangal arati or starve.

The price for rooms on bhetnam basis in Vrindaban are Rs. 60,000/- for a double room and Rs. 50,000/- for a single room.

I hope this meets you in good health.

The system for calculating is as follows: the first day of birth is the first birthday. The next year that day is the second birthday; i.e. the second birthday means that one year has been completed. So it is my 80th birthday, and I have completed 79 years.

According to the Hindu system, on the first birthday there is jata karma ceremony and all big, big astrologers assemble and give the horoscope. In the Srimad-Bhagavatam the birthday of Maharaja Pariksit is there.

My Dear Giriraja das:

Please accept my blessings. I am in due receipt of your letter dated September 6th, 1975 and have noted the contents. Regarding the tax question, our Krishna consciousness movement is cultural. We are preaching Bhagavad-gita As It Is. Our mission is to spread the instructions of Krishna so that people may become happy, hopeful, and peaceful. The central point is to understand Krishna as the supreme proprietor, the supreme enjoyer and the best friend of all living beings. He is the best friend of the human society because He gives perfect social order, perfect economic development, perfect philosophy, perfect religion, and perfection of life.

Religion is described in the English dictionary as a kind of faith. Of course when we accept Krishna's instructions perfectly we become automatically perfectly religious person. Therefore Krishna consciousness movement is not a sentimental fanaticism of so-called religion. But, it is the perfect culture for peace and happiness of the whole human society.

I am glad that you had a nice Janmastami celebration in Bombay. Continue your dilligent work, and Krishna will give you all success.

My Dear Ramesvara das:

Please accept my blessings. I am in due receipt of your August BBT Report and the August BBT Trustees Report. What is the Prabhupada Maintenance a/c? How is the money collected and how is it dispersed? I have received the latest appreciations from the professors. These should be all collected and published in a booklet. I see from your report that you are planning this. 1,000 copies should be sent here to India, and you may send 250 copies of this and your new catalog to Vrinda Book Co., 30/1B College Row, Calcutta-700009. They are attempting to sell our books all over India.

Nitai has sent additional chapters of Sixth Canto with Tamala Krishna. He is also expecting to send more in a couple of days.

You have written: "The BBT is capable of keeping up with Prabhupada's pace at this time and we humbly request all devotees to respect Prabhupada's desire to fulfill his dreams of publishing and distributing thousands and millions of volumes of Srimad-Bhagavatam in Twelve Cantos all over the world by not disturbing him at this time with problems and decisions that can be made by his direct representatives, the GBC Secretaries." Yes, this is wanted. I want to increase my work. Brahmananda Swami and Gopala Krishna were suggesting that I go to some other place in India, but if Tamala Krishna flies 10,000 miles to lodge some complaint against Jayatirtha what can I do? If you all leaders cannot work together, then how can you expect the others to cooperate with you? Differences may be there, but still you have to cooperate together, otherwise where is the question of my being relieved of so many problems and decisions?

That is good that you are taking discount from the unsatisfactory printing from Donnelly Co. Hardbound abridged Bhagavad-gita will be nice.

Sri Ram Kumar Magistrate and Tehsildar P.O. Bassi (Dt. Jaipur)
My Dear Sri Ram Kumar;

Please accept my blessings. I am in due receipt of your nice letter and am very pleased to read the contents. It is rare that an important man like yourself understands the prime importance of the Krishna consciousness movement. In the Bhagavad-gita Lord Sri Krishna says that it is the specific duty of the leaders of society to give an example of Krishna consciousness so that the common people will follow, yad yad arcarati srethas [Bg. 3.21]. Elsewhere in Bhagavad-gita the Lord says that it is the leaders of the society who can understand rightly this transcendental knowledge; imam rajaso vidhuh.

So it is very good that you have understood and are following the Lord's instructions in this way. Now you should perfect your knowledge on a solid basis. At your request I am sending a set of my Krsna Books. Enclosed is the bill. You have enquired about Life Patron Membership, and the necessary form is enclosed. The donation is Rs. 2222/-, and when you become the member you receive these Krishna Books and all other books and magazines for the rest of your life. So you can either send payment for the enclosed bill, or you can send payment for the membership and keep the books.

In this way you are rendering very nice service and the more you render service, the more you advance. This is the only way. Therefore the Vedic regulation is that whenever one goes to see some saintly person or to visit a temple, he must offer something. That will help him. It is enjoined that one should first of all dedicate his life and if it is not possible to do that, that one should dedicate his money. If he has no money, then he should utilize his intelligence how to spread Krsna consciousness. Or if he has no intelligence, then he should utilize his words that, "Yes, they are doing nicely. This is a nice movement." This is the process for advancement in Krsna consciousness.

My dear Satsvarupa Maharaja,

Please accept my blessings. I am in due receipt of your GBC monthly report for August dated September 7, 1975 and have noted the contents. I have received a copy of the review written by the Cornell professor and it is very encouraging. I am having them reproduce it here for distribution to the libraries in India. I have also requested Ramesvara to make a booklet of all these reviews.

I'm glad to hear that Miami has got their new property and temple. I understand they have many mango trees there. When is the mango season there in Florida? I am very fond of mangoes and when they are produced on our own property, then they become more palatable. It is a fact that if you purchase fruit in the market, it is not as palatable as if it comes from your own tree. Even Caitanya

Mahaprabhu's devotees were very fond of mangoes. Caitanya Mahaprabhu, He immediately produced one mango tree at the house of Srinivasa and He was daily distributing mangoes.

Regarding Houston temple, it is best thing if they recruit their own men as the other temples are doing. I find that in the United States and also in Europe there are many Indians in every city. Encourage them to take part in our programs.

Regarding St. Louis, I know that Makhanlal is a very good boy. Perhaps it is better for him not to have such a wife. I thank you very much for your report. I hope this meets you in good health.

My dear Srutadeva das,

Please accept my blessings. I was in due receipt of your Sankirtana Newsletter, Volume 2, Number 23. The report from Denver regarding the legal judgment of Judge M. Winner is giving intelligence to the judge also. It appears that the airport officials are defeated. I have heard that in some of the airports they are making announcements telling the people not to purchase our literature. This is impeding our religion and is therefore blasphemy. This cannot be allowed. You should take this to the courts; let people know what they are doing. They cannot impede our right. It is simply wonderful that Carudesna dasa has distributed in one day 210 big books.

I hope this meets you in good health.

My dear Gaura Govinda Swami,

Please accept my blessings. I am in due receipt of your long letter dated September 12, 1975 and your letter dated September 17th and have noted the contents. Regarding your returning to your own village, a sannyasa is not supposed to go back to his own village. If you are doing some substantial work, you should not agitate your mind for opening a center in Orissa. I talked here with Anandapanda and he said after October the season in Orissa is better. I have proposed to him also for arranging for us to go there and during that season we may go there in a party and preach there and if possible open a center.

I understand that you are doing well in Hyderabad so there is no necessity for immediate change. I am going now on tour of Africa and when I return I shall see you and we shall do the needful. I may go to Hyderabad when I return.

I hope this finds you in good health.

My dear Mahamsa Swami,

Please accept my blessings. I thank you very much for the affidavit which you have sent. It should be followed by all other centers. It is very good that people are already coming to see the temple. That means that there is great interest. Regarding the need for money there, if it is a case of emergency, then more money can be lent to you. You have already borrowed Rs. 60,000/-. If you want immediately money, then I am prepared to lend to you at 10% interest. So if there is emergency, you can send account number of your bank and we shall do the needful. I am starting for Delhi on September 23rd and on the following day, September 24th, will go to Ahmedabad for some programs. From Bombay I will start for Mauritius on September 30th.

You have invited me to come to Hyderabad and yes, I will certainly come. It is a very nice place there and I shall come either by the end of October or early November. Yes, if you like we can also go to Nellore. Your idea for the bullock cart sankirtana is very good. So now do it. And your program for distributing the literature, the charity and the prasadam, this is all very nice. And that you yourself will do it personally, that I thank you very much.

My dear Radhavallabha das,

Please accept my blessings. I am in due receipt of your letter dated September 13, 1975 with enclosures. Regarding 6th Canto, Nitai has just yesterday sent off Chapters 5, 6, 7 and 8 and next week he expects to send off Chapters 9 through 13. This will be sufficient for you to publish one volume. I expect before leaving India on September 30th to have finished the 6th Canto. I have received a letter from Jayadvaita das dated September 8th regarding the Upadesamrta book. The title of the book can be Nectar of Instruction. We already have the Nectar of Devotion so now you will have the Nectar of Instruction. You can make it just like the set-up of the Nectar of Devotion book. The words Sri Upadesamrta do not have to appear in the title. A dedication is not required because it is not a big book. The suggestion for the picture of Rupa Gosvami's Govindaji Temple is approved. Regarding the conclusion of the book, yes, it says in the text that the most fortunate devotees execute devotional service near Radha-kunda. That is stated in the book. I am enclosing the introduction for the book; please find.

Regarding the corrections you have sent, this kind of changes is admissible. There is no harm.

Regarding your managing production of Spanish and German books, yes, it is approved by me. Why not?

I hope this meets you in good health.

My Dear Jagadisa das:

Please accept my blessings. I am in due receipt of your letter dated September 6, 1975 and have noted the contents. Regarding the difficulty with Gurukula what can I reply? This is your responsibility. The GBC can decide what to do. Instead of spending money there, if the government is specifically passing the act against us, then we can spend that money in the Gurukula in Vrindaban. We are getting land adjacent to our temple and on Radhastami I laid the foundation stone for a Gurukula. We shall put up a suitable building there. In India there is no such government regulative law.

I see that all the temple presidents are not to your liking. So how will you manage? If all the presidents are bad and not to your liking, then let the GBC consider what to do.

I hope this meets you in good health. You say that Karandhara was being supported by Jayatirtha, but Karandhara does he have any position still? He has no official position I do not think.

My Dear Kirtiraja das:

Please accept my blessings. I have seen the latest reviews that you have sent with your letter and I thank you for them. The linguistics professor has correctly remarked. It was my intention in presenting the books that anyone who would read, they would learn Sanskrit. For example almost all of my disciples are pronouncing Sanskrit very nicely just by reading my books. He says that there is no pronunciation guide, but it is there is it not? The best thing would be is a recording. Therefore our process for learning is by hearing. Hearing is so important.

The other professor has remarked that my books will be appreciated by students of consciousness. That is very good. Our books are meant to educate people in consciousness. And, it is very good that the other professor has recommended the Krsna Book for undergraduate study. This book should be introduced as a Krsna study book. As soon as the book is discussed in the class the books will be purchased by the students.

Now you should publish a booklet of all these quotes. It will be very effective. This must be done.

The questionnaire for Religious Who's Who is enclosed.

Letter to: Kurusrestha:

75-09-26

Denver

My Dear Kurusrestha das:

Please accept my blessings. I am in due receipt of your letter dated September 13, 1975 and have noted the contents with pleasure. The District Court has given us the permission ”for as long as the country lasts.” Were these exact words used in the judgement? This is very funny. The judge is a very funny man. He should be sent a congratulation letter. This should be quoted. Actually any gentleman should be a little humorous.

So Krishna has given you the chance to spread Krishna consciousness so long your country lasts. So try to sell a similar quantity of books every day as you are now doing and that will encourage me. And you can offer your heartiest thanks to the justice because he has given us such a great facility. May by the grace of Krishna your country last forever, and may the justice also live a long time and may you go on selling books. That is my desire.

Your country is very much liked by me, and I am sure that if your country takes this Krishna consciousness movement than nobody will be able to vanquish America at any time. With this aim in view try to convert your great country to become krishna conscious. There is a good chance for it, so if you try, you can do it. That is my opinion. I like America very much. So many good boys have come to me from America. Unless your country is good, how could good boys and girls come? You are not poverty sticken. That is a great qualification. You have all good qualities. You are open-minded people. So please go on breaking every month the records of how money you send to BBT. The more you go on in this way, the more your country will go on everlastingly. I see in your country that the girls are being exploited. They are taught to be independent so they become the playthings for sex. So where is the freedom? I want that they live, man and wife together, chant Hare Krishna and be happy.

When I was in Denver I saw the temple very nice. You have great potential for spreading Krishna consciousness there. So if you organize things, it will be very nice. That the people are receiving you nicely, these are all signs of improvement. You have to be determined in your preaching, and at the same time remain humble. The two brother Jagai and Madhai injured Lord Nityananda, but still he continued to preach, and they became great Vaisnavas. In the beginning we have to face awkward situations, but if we stick to our principles and continue to preach, things will come round to our favor. The University wants you because they have seen it is as a good movement. Stick to our principles and be humble even if there is provocation; and things will come out successful. This is the instruction of Caitanya Mahaprabhu, trnad api sunicena.

Regarding your festivals with prasadam, yes do it occasionally. There is no need of accumulating wealth more. You can get wealth more, and also spend wealth more. This is brahmanaism. Get and spend, but not to spoil and squander. This example should be shown to others. That the City was paying you means that they are appreciating. Gradually they will all appreciate very much.

Upon your recommendation I am accepting the following as my initiated disciples and there spiritual names are as follows:

Mike Puglise-Govardhanadhari das

Cheryl Puglise-Gopanandakari devi dasi

Christina Mills-Pradhanagopika dasi

Scott Byrnes-Yajnopabhokta das Please see that they follow the four regulative principles strictly and chant 16 rounds daily, and they will remain strong in Krishna consciousness. I also give brahminical initiation to Puja dasi. The mantra sheet is enclosed. She can hear at the fire sacrifice my tape recording through the right ear.

It is the great mercy of Krishna that you are feeling like this that you want to serve me. Do not lose this opportunity. The whole world is suffering for want of Krishna consciousness. Although the subject matter is very simple and easy, still fools and rascals will not take to it. This is the influence of maya. Ahmedabad 28 September, 1975

Prem J. Batra Ruparel College, Sr. B.A. Matunga, Bombay 400 016

My Dear Prem Batra:

Please accept my blessings. I am in due receipt of your letter dated September 19, 1975 and have noted the contents. I am very glad that you are seriously trying to understand our Krishna consciousness philosophy. It is Srila Jiva Goswami who has presented very high philosophy in his Six Sandavas.

Regarding your question about the difference between the mind and the soul, in the Bhagavad-gita it is directly said that the mind is inferior energy in a subtle form, and soul, jiva, is superior energy. So they are completely distinct. Mind is not spiritual, but mind is a subtle material form. When the soul becomes captivated for enjoying the material world instead of rendering service to Krishna, that is the beginning of his falldown. When the living being thinks himself to be the enjoyer, that is called false ego. His constitutional position is to serve Krishna. So this false egotism degrades him to pollute the intelligence and the mind.

So mind and intelligence are already there in the soul, but in the conditional stage the same mind and intelligence become polluted as false egotism or enjoyer. The bhakti process is to purify everything. The mind is not the soul but is a venue for expressing the soul's desire. So if the mind is purified, then things go on nicely in its original position. If he does not go on rightly he falls down in conditional life. The whole yogic system is to convert the mind from matter to spirit. You can utilize the mind in both ways. When the mind is spiritually trained up it is the best friend of the soul, and when the mind is materially polluted, it is the worst enemy. The Bhagavad-gita states:

bandhur atmatmanas tasya yenatmaivatmana jitah anatmanas tu saturve vartetatmaiva satruvat [Bg. 6.6]

For those who are grossly materialistic persons, for them the yogic system is recommended, otherwise if the mind is directly engaged engaged at the lotus feet of Krishna, the senses automatically become engaged in Krishna's service; and that is the liberated stage. Chanting of the Hare Krishna mantra is the direct process for curing the mind of all materialistic contamination. Take to this process and be happy.

You have asked many questions, and I am glad that you are going to join our movement. I am going to South Africa tomorrow for one month, and when I return to Bombay, you can come and see me at that time.

I hope this meets you in good health.

Ahmedabad 29 September, 1975

75-09-29

Brooklyn

My Dear Gargamuni Swami:

Please accept my blessings. I am in due receipt of your letter dated 25/8/75 and have noted the contents. Regarding the disturbance made by the women devotees, they are also living beings. They also come to Krishna. So consciously I cannot deny them. If our male members, the brahmacaris and the sannyasis, if they become steady in Krishna consciousness, there is no problem. It is the duty of the male members to be very steady and cautious. This can be done by regular chanting like Haridasa Thakura did. Whenever there is a young woman, we should remember Haridasa Thakura and beg his mercy to protect us, and we should think that these beautiful gopis are meant for the enjoyment of Krishna.

It is a dilemma for our Society that we cannot deny these girls, and at the same time they are a great dangerous allurement to the young boys. Yes, as you say, I never think in terms of Indian or American regarding my students. I take you all as part and parcels of Krishna.

Regarding your program, that is your fortune, that wherever you go, you do nicely. One thing is that in your absence the Calcutta center is not being managed very nicely. You were making progress for making a Calcutta temple. Who is there who can do that now? Those men cannot do that. Anyway you are doing greater service there by distributing so many magazines and also books.

Your program of travelling to Europe and then by vehicles to India is a very good idea. I quite appreciate that idea. Do it. Come to India and preach. Six months in America and six months in India. Such a program of world touring work is very nice, and you are the competent person to execute this program. At the same time chant Hare Krishna regularly. That is my request.

Bhaktivedanta Manor

My Dear Hamsaduta das:

Please accept my blessings. I am in due receipt of your two letters dated September 10th & 16th, 1975 and have noted the contents carefully. Regarding the propaganda for Russia, it is a very good idea to include the interview and the Marx discussion in the same book. After publishing the book, there is no question of distributing it underground by smuggling it into Russia. Sell it openly outside of Russia. It will be for people coming to visit our temples who come from there. You can advertise that ISKCON Books in Russian language are available in such and such place. That they cannot stop.

Regarding the logo of the German Caitanya Caritamrta, it is o.k. Regarding the Bury place temple, the girls are taking care of the Deity, so how can you completely stop it. Not many women should stay there, but at least five can stay in a room. Why should they occupy two floors? Only one floor may be given to them.

Regarding your dealings with Bhagavan dasa, when two GBC's are concerned, the whole GBC must consider. What can I do? I have appointed the GBC not to fight amongst yourselves but to manage. If there is fighting then how will you manage? So the whole GBC committee. must decide if there is fighting.

Regarding the Hyderabad project, you will be the principal man for finances. I have received report that they have planted 20 acres of paddy, some being bashmati and rest local variety. Regarding Dr. Wolf, why has he gone against us? First of all consult with Svarupa Damodara. What is his complaint? Regarding the reports of Japan, therefore the police have stopped Gurukrpa. I have sent Trivikrama Maharaja and one man to go there and maintain the center and preach. There is good potency there. I do not want to see it closed.

Regarding your idea for a Gujarati newspaper, no it is better to sell our Gujarati books. We shall print and sell our own books. Yes, you can open a restaurant in Edinburgh. Regarding Bharadraja, I have no objection to him coming. What is he doing in L.A.? Only on Sunday can you keep the Deity curtains open throughout the afternoon.

Regarding the Frankfurt temple and the Deity program, unless we have got our own building, this proposal of installing Deity should be postponed. Do not install, unless we have got our own building, the large Deities. And, the Nrsimha Deity should be installed only in a separate temple building. The Deity must have its own temple.

I hope this meets you in good health.

Make some bargain as far as possible to get the best price, and take it. We shall try to get the money. Ask Ramesvara. He is now getting money from book distribution, so money is coming. I do not know if the centers can contribute. 40 centers would have to contribute U.S. 5,000 each to raise U.S. 200,000. As far as taxing the centers for the maintenance, that should be considered amongst the GBC.

It is a good idea to also have the Vedic Institute there also on this property. So negotiate and develop it cojointly.

My Dear Ramesvara das:

Please accept my blessings. I am in due receipt of your letter dated September 19, 1975 and have noted the contents. Why has Dr. Wolf gone against us? What is his complaint? Just consult with Svarupa Damodara.

Regarding the airport distribution, I have personally seen that they do not create any disturbance. They speak quietly and on the side, and no one is disturbed.

Yes, Swami Bon is envious. What can be done?

Here the Hare Krishna People film by Yadubara is very much appreciated. Just encourage Yadubara to make more films. He can do nicely.

I hope this meets you in good health.

My Dear Rupanuga das:

Please accept my blessings. I am in due receipt of your letter dated September 19, 1975 and have noted the contents carefully. What is the street address of the new building in New York? The consent letter has been sent from Vrindaban. You should minimize the expenditure and increase the income, otherwise how will you liquidate the debts? I understand that you are saving on the milk bill by supplying your own milk from the farm. This is wanted. If these farm projects are successful, then all this industry will be closed. We do not have to make propaganda, but automatically people will not want. The people are innocent. The rascal leaders say it is primitive to remain on the farm, but to do business in the city and become rogue and rascal, that is advanced. They have dog race, horse race, gambling, coca cola, pepsi cola-all unnecessary. There is no use for it but the business is going on. They take to cigarette and T.V. because they have no good engagement. They are chewing the already chewed. That is nice that the parents are donating. They will donate more and more, because they see here is something good.

Regarding the new New York house, yes, let me know when I shall have to go there to see. I have more houses than anyone else in the world, but I am not allowed to stay. The richest man in the world does not have such facilities. They have one or two, but in each place it is fit for prince, and they do not have as many as I have. And, the wife of Bali Mardan how was she giving such a bluff? This woman is very dangerous.

I see that in every center we are getting good income, and it is all from the sale of the books. Philadelphia temple must have a proper place. Regarding Washington temple yes Brisakapi can be now recognized as the temple president. I give my consent for the present temple to be sold and you may purchase the other one as you have described it.

Regarding Boston, yes you may utilize the funds as you have indicated. People are coming forward to donate. They are actually seeing. These boys were drug addicted, and now they are saintly. They do not smoke even. They talk only of God.

So you get from all the farms all your necessities, then it will be successful. Fodder, milk, grains, vegetables, and animals and man will be satisfied, and you can chant Hare Krishna. No unnecessary cow killing, and no unnecessary needs of the body. The woman's SKP party, that is very good.

I hope this meets you in good health.

My Dear Arvind Shah:

Please accept my best wishes. I am in due receipt of your letter dated September 12, 1975 and have noted the contents. I cannot quote immediately from sastra, but psychologically we can understand that there is no such things as Hindu religion, but according to the Vedic sastra there is varna-asrama, the religion of varna and asrama. The whole varna-asrama system discourages sex life. Circumcision is a facility for sex life. So in other systems of religion or throughout the whole universe the tendency is to enjoy sex life, whereas the varna-asrama system discourages sex life. Sex life is the cause of bondage of the conditioned soul to remain in the material world. If one can conquer over the sex impulses voluntarily, he conquers over the influence of material nature. So the ideals being different, I think in the Vedic system such circumcision is prohibited.

I hope this meets you in good health.

My Dear Svarupa Damodara das:

Please accept my blessings. I am in due receipt of your letter dated September 16, 1975 addressed to Brahmananda Swami. The purpose of the Institute is to achieve the distinction of human life. The human being is meant for understanding his real identity. If a human being becomes entrapped with this body which may be American, Indian, brahmana, ksatriya, and so many other designations, then he remains on the platform of cats and dogs. A dog or a cat is thinking he is such and such. Similarly a human being thinks he is this and that designation, then he remains in the dog and cat category.

The Institute will be primarily for those who have not entered our temples. The subject matter will not be different from what is taught in our temples. There will be no difference between our temples and the Institute, but the Institute will be official for the general mass. It will be a formal education and they will get degree. It will be open for everyone, including those who have already entered our temples, they may also participate. But, the subject matter should not be different from what is in the temples.

I hope this meets you in good health. I have heard that Dr. Wolf has turned against us. What is his complaint?

Mauritius 5 October, 1975

Sriman Bhagavan das Adhikary ISKCON 4, Rue Le Sueur Paris, 16 France

My dear Bhagavan das:

Please accept my blessings. Here in Mauritius there is a very good potency for introducing Krsna consciousness on a wide scale. The government is not opposed to our movement. Yesterday we had one meeting and all big government officers, ministers, ambassadors came to hear me speak. And they appreciated.

Most important the local boys, Indians, are coming, and now they want to do something. They are convinced that this is a good movement. They are organizing a program of getting boys from the villages for me to instruct them. So I am prepared to personally take up this program and remain here. The boys here are educated and intelligent and speak English and especially French.

What is required immediately is some French speaking devotees to come here for preaching. You kindly arrange for this. Sober, intelligent men are required who can preach. Now we have so many French literatures, so there is a great opportunity. Not only here but in other islands. And these local Indian boys can in future be sent to India to preach to their people. So on the whole there is great potential here. Enclosed are some cuttings from the newspapers here.

I hope this meets you in good health.

My Dear Revatinandana Maharaja,

Please accept my blessings. I am in due receipt of your letter dated Sept. 19, 1975 and I have noted the contents carefully. It is best that you travel with Visnujana Maharaja and Tamala Krsna Goswami. Our mission is a continued effort and we need not give up the association of devotees simply because there is a difference of opinion how to preach our philosophy. If your conviction is strong and evidential, then try to convince them of your ideas for spreading Krsna Consciousness. Our principle is to simply repeat what we have in our books. But, it is very dangerous to live outside the association of devotees. If you must live a more solitary life for some time, then you can go to our temple in Mayapur or Vrindaban, and they can give one small room there and you can chant and read. I can advise the temple authorities there to permit you to do so without disturbance. In either case you can take boiled vegetables, boiled rice, a little milk, once a day, and this is very easily digestible. I am also taking like this. Living outside the association of devotees is dangerous and unnecessary. You must, however, give up the association of Jamadagni and Kanupriya. Their company will not be beneficial to your Krsna consciousness.

I hope that this meets you in good health.

Please accept my blessings. I am in due receipt of your letter dated Sept. 25, 1975 with enclosed daksina and I thank you very much. So far as name for Portland Yatra is concerned, you may call it Manipur.

Upon your recommendation I am accepting both boys for my disciples. Their names are Girijarata dasa-Marty, and Amoghavirya dasa-Michael. Also, I am accepting Edhaniyasvabhava das brahmacari and Lila devi dasi as twice born brahmanas. You will find enclosed one brahmana thread duly chanted on. Now everyone must strictly follow the principles of chanting sixteen rounds japa daily, and refraining from illicit sex-life, intoxication, gambling, and animal slaughter and then they will not be blown away by the material energy. You may perform fire-yajna and brahmanas should hear a tape of me chanting Gayatri mantra through the right ear. I thank all of you for assisting me in spreading Lord Caitanya's Movement throughout the world. People are simply being cheated by so many rascals who pose themselves as big, big leader so you must all strictly follow the principles that I have established and for the general mass of people give them chanting, prasadam, and have them take some of our literature. That will benefit them and gradually they will come to the standard.

Letter to: Swami Sahajananda

-

Durban 12 October, 1975

75-10-12

His Holiness Swami Sahajananda, Divine Life Society of South Africa, P.O. Box 19069, Dormerton, Durban, 4015

My dear Swamiji,

Please accept my humble obeisances. I beg to thank you very much for your kind letter dated 10th October, 1975 and it is very encouraging as you write to say: "As many spiritual leaders are often deriding the Godhood of Lord Krishna, it is gratifying that your great movement is disseminating His greatness and thus keeping alive our devotion to Lord Krishna." It means that Your Holiness is a great devotee of Lord Krishna. So, out of your natural humbleness you have presented yourself as my "humble child." Certainly, in consideration of age, you are my child but I see in devotion you are greater than me. So as you are a devotee of Lord Krishna you are my guru. Thank you very much.

It has become a fashion nowadays amongst the politicians, scholars, and so-called swamis to deride Krishna. This is very dangerous position. Any blasphemous activities to Krishna will not affect His body. He has no material body, therefore prayers or accusations do not affect Him. He is always kind and equal to everyone.

samo 'ham sarva-bhutesu na me dvesyo 'sti na priyah ye bhajanti tu mam bhaktya mayi te tesu capy aham [Bg. 9.29]

"I envy no one, nor am I partial to anyone. I am equal to all. But whoever renders service unto Me in devotion is a friend, is in Me, and I am also a friend to him." But, those who are deriding the Godhood of Krishna are considered as demons and raksasas. There was only one raksasa at the time of Lord Ramacandra who did not care for the Lord and attempted to kidnap his wife so he took away maya-laksmiji from Narayana. The result was that he became ruined with his whole family and kingdom. In this age of kali there are a number of Ravanas deriding the Godhood of Lord Krishna and Lord Ramacandra, and they will meet with the same result as it was done in the case of Ravana. So it is a dangerous position of the whole world that they have become all godless or atheists in different degree or manner. It is the duty of saintly persons to save these rascals from ruination. So, I wish that a devotee of Lord Krishna like you may conjointly work in propagating Krishna Consciousness to save the fallen souls from going down to the darkest region of hell. I am quoting one verse from the Srimad-Bhagavatam, Canto 7, chapter 5, verse 31:

na te viduh svartha-gatim hi visnum durasaya ye bahir-artha-maninah andha yathandhair-upaniyamanas te pisatantryam-urudamni baddhah [SB 7.5.31]

Thank you very much for your kind letter. With my best wishes and regards, I beg to remain,

Yours sincerely, A.C. Bhaktivedanta Swami

75-10-16

Taunus, West Germany

My dear Hamsaduta dasa,

Please accept my blessings. I am in due receipt of your letter dated September 29, 1975 and I have noted the contents carefully. It is a good idea to have the Russian teacher in Czechoslovakia to do the translating, but it must be checked afterwards by our men with the help of someone competent. It is encouraging to hear of your book distribution there and if you can manage locally by selling books, then I have no objection. If you want to print another cassette of books, that depends on your good discretion.

Why Bhagavan should interfere with Stockholm. I appoint GBC for peaceful management of affairs and now you are creating disturbances amongst yourselves. So how can I be peaceful to translate my work. So all these things should be kept in abeyance for the time being and when we meet in Mayapur we can discuss amongst the entire GBC. If Stockholm is in your charge why Bhagavan and Jayatirtha should dictate, and why Ajita should join with them. On the whole why there should be difference of opinion amongst the GBC? If there is some difference of opinion how is it that it can not be adjusted amongst you? The Spiritual Sky questions and all other questions of this nature will simply have to wait until we discuss it in Mayapur.

I hope that this meets you in good health.

My dear Jayatirtha das,

Please accept my blessings. I am in due receipt of your letter dated September 28, 1975 and I have noted the contents carefully.

There is no question of removal at the present moment. We shall sit together in Mayapur if there is any complaint against one another. At the Mayapur meeting, whatever we have decided that is good for one year. So if anything has to be done it will be decided by majority decision of the GBC. I do not wish to give any decision without the GBC's verdict. My only grievance is that I appointed GBC to give me relief from the management but, on the contrary, complaints and counter-complaints are coming to me. Then how my brain can be peaceful. Naturally, I want to see that all of my centres are going nicely, so is it not possible to mitigate the differences of opinion and work smoothly, conjointly. So best thing is that we wait for the Mayapur meeting and decide there combinedly what to do.

The local management has to be done by temple president, GBC should see whether management is going on nicely, and if there are any discrepancies that will be discussed at the GBC meeting in Mayapur. That is the process. Sannyasis are meant for preaching only. That is the principle. But, contrary to the principle if things are being embezzled then how can I save them. How one man can manage the whole world affairs? This is my concern.

So far I know you are approved manager, so why complaints are there I do not know.

I hope that this meets you in good health.

In any case, it appears that Jnana das is restless. It is not a good idea for him to bring Lilavati's daughter to Kilifi as he has described the living conditions as very poor and now she is at least nicely situated in Gurukula. Also, he speaks of going to America, and who will supply him the money for this? So, all these unnecessary expenditures should be stopped. We can discuss the matter further when I am in Nairobi. Dear Prabhus,

Please accept my humble obeisances. All Glories to His Divine Grace, Srila Prabhupad. It has come to our notice that one Godbrother of Srila Prabhupad's, Swami Bon Maharaj, has been spreading damaging propaganda against Srila Prabhupad and against our movement. Satsvarupa Maharaj recently informed Srila Prabhupad that one Professor in Canada refused to take a standing order of Srila Prabhupad's books because he associated with Swami Bon at his Oriental Institute in Vrindaban, and Swami Bon so much made untrue accusations against our beloved Spiritual Master Srila Prabhupad. Swami Bon recently made a tour of Canada and Satsvarup Maharaj reported that his statements were "poisonous, saying many false things about Krsna consciousness." Recently, one professor, Dr. Hines, of Indian Religious Studies at Yale marked: "I think Swami Bon is just jealous of Srila Prabhupad."

Under the circumstances, we shall fully non-cooperate with this Swami Bon and neither we shall form any kind of association with any person whose aim it is to blaspheme the Lord or his pure devotee.

I hope that this meets you all in blissful serving mood,

Karatieya K. Mahadevia Bombay

My dear Karatieya,

Please accept my blessings and offer the same to your wife, Gauridevi, and your children. I am enclosing herewith some foreign stamps for your beloved son, Kirtana. I am very much pleased that now you are taking more active part in the propagation of our missionary activities. Regarding Ahmedabad Centre, we must have a place there. I am also very much eager to open a centre there, Ahmedabad being one of the most opulent and important cities of India. Last time when we held our festival in Ahmedabad it was certainly very encouraging. People are naturally Krishna Conscious there. If we organize properly, people will get enlightenment more and more and they will be happy. We have to organize in the neighboring village from where the Raja Saheb came to offer his respects to me. He has promised to hold a meeting of the agriculturists of 20,000 people minimum and this will be a great opportunity. Now, our next program will be to organize farming land to set an example to the whole world how people can be peaceful, happy, and free from all anxieties simply by chanting Hare Krishna Maha-mantra and living an honorable life in Krishna Consciousness. In India especially people are religiously inclined. They like to live in village and also like to love Lord Rama, Lord Krishna. This idealism is running through their blood and veins. We have to organize their natural tendency and elevate them again back to Home, Back-to-Godhead. Please think over these points very seriously and as soon as I return we shall take up the program. My beloved sannyasi disciple Swami Pusta Krishna has promised to give me a car, and as soon as I get it I shall move from village to village along with some selected assistants and organize this farming village development program.

More when we meet, in the meantime I hope that this will meet you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

Sriman Visvambhara Dayala Agarwal, Vrndavana

My dear bhaktaji,

Please accept my blessings. Since I have left India I have received no report from Vrindaban, how things are going on. I am very much anxious to know. Kindly immediately on receipt of this letter send me a report especially touching on the following points:

1. Whether the Gurukula land is purchased by this time.
2. Whether Kasiramji has given the front land legally.
3. Whether temple management is going on without any loss of money.

Herewith please find one letter for Digambhar Singh Chowdhury your friend. The letter speaks for itself, as you will see, and now we have to hold meetings for organizing the Krsan community, better the Vaisya community, for producing food and milk. I have given the idea, now you have to organize it properly.

I hope that this will meet you in good health, and please reply this letter along with Digambar Singh Chowdbury's reply to Bombay address where I am returning by the end of this month. Please offer my blessings to all your friends, especially Sethji Bisanchand and Kasiramji.

Digambar Singh Chowdhury

My dear Digambar Singh:

Please accept my blessings. Since I have left India I am touring so many places. Now I am in Johannesburg and on the 25th of October I am going to Nairobi. Regarding our farming scheme, it is almost settled that we shall get some land. Now we have to organize carefully. In this respect, I am counting upon your good help. On my return to India I wish to hold immediately one meeting of Krisans or agriculturist society. The idea is that the land is there and Krisans may be engaged to grow food both for men and for the animals, namely the cows. The cow should be maintained very healthy so that they can give sufficient good milk. The Krisans shall live comfortably in the cottages. They should produce their food, their milk, and their cloth. Everything produced will be used by themselves. If there is any excess production then the question of trade will arise. That we shall see later on. All the products produced will belong to Krishna-Balarama. Everyday at least thrice, all the Krisans meet in the local temple of Krishna-Balarama, chant Hare Krishna Maha-mantra, and take prasadam. In this way they should live peacefully locally without going outside for their livelihood. This is the general program.

Now we have to itemize so that things may go on very nicely. So I am returning to India by the end of this month. Please arrange to hold a meeting successfully for this purpose. I do not know your address therefore I am forwarding this letter through Bhaktaji Sriman Visvambhara Dayala Agarwal. I hope this meets you in good health.

My dear Nitai dasa,

Please accept my blessings. Herewith please find the copy of one letter received from Karunasindhu in the matter of asking my permission to allow Purusottama das Brahmacari to scrutinize final printing. The letter has come from Karunasindhu suggested by Kirtiraja. Did you suggest this proposal to Kirtiraja? If not, then please enquire who suggested this proposal to Kirtiraja. I do not like that anyone should scrutinize our publications without my sanction. Kindly enquire into the matter and let me know the report to Bombay address. Also, send me a general report of Vrindaban affairs.

My dear Radhavallabha dasa,

Please accept my blessings. I am in due receipt of the 4 volumes of Caitanya-caritamrta and your letter dated October 1, 1975 and I have noted the contents carefully.

Concerning the synonyms, henceforward I am adding the synonyms myself. From yesterday night I have begun adding the synonyms as it doesn't save very much time to have the synonyms.

The Upadesamrta can be composed in the Bhagavatam format in the size of the pocket NOD.

I hope that this meets you in good health.

My dear Sama dasa,

Please accept my blessings for you, your wife, and your new baby daughter, Sarada devi dasi. I am in due receipt of your letter dated October 8, 1975 and I have noted the contents carefully. Thank you very much for the pictures of Baltimore yatra, especially I have appreciated the beauty of the Gaura-Nitai Deities which you are going to install. Where were these Deities made?

I herein accept your proposal for first initiation as of Francis (Tulasiballabha das) and Carol (Ujjvalaprada dasi). Now, I am accepting them on your recommendation so you must convince them of the seriousness of following the four regulative principles and chanting a minimum of 16 rounds japa daily. Hold a fire-yajna and do the needful in this connection.

I hope that this meets you in good health.

Letter to: Satsvarupa

•

Johannesburg 21 October, 1975

75-10-21

Los Angeles

My dear Satsvarupa das Maharaja,

Please accept my blessings. I am in due receipt of your letter dated September 29, 1975, and I have noted the contents with care. Concerning your debate with the professor who claims that if God knows everything then His foreknowing makes men very much like puppets or machines.

Persons who think of God like himself has no knowledge of God. He immediately becomes a mudha, fool rascal. Avajananti mam mudha [Bg. 9.11] . . . God is omniscient and omnipotent. He knows everything what is going to happen. Therefore to save the living entity from future calamity He says, sarva dharman parityajya mam ekam saranam vraja [Bg. 18.66]. . . So although He knows what is going to happen in the future, He can cancel all that was going to happen by His Grace, that is God's omnipotency. For a devotee, the future destiny is changed as confirmed in the Brahma-samhita:

yas tvindra-gopam athavendram aho sva-karma- bandhanurupa-phala-bhajanam atanoti karmapi nirdhahati kintu ca bhakti-bhajam govindam adi-purusam tam aham bhajami [Bs. 5.54]

"Let me offer my respectful obeisances unto the original Personality of Godhead, Govinda, Who regulated the sufferings and enjoyments of fruitive activity for everyone-from the heavenly King Indra down to the smallest insect (indra-gopa). That very Personality of Godhead destroys the fruitive karma of one engaged in devotional service."

So anyone who surrenders to Krishna, his destiny is changed by the omnipotency of God. He takes charge of the devotee and guides him how the devotee can go back to Home, Back-to-Godhead. This is the Mercy of God. He knows everything and still He says "sarva dharman parityajya mam ekam saranam braja . . . [Bg. 18.66]" But, you are thinking God like you, what is destined is going to happen and even God cannot change it? Then God is impotent? This is their version, not God's. God says surrender to Me and I shall cancel all your destiny, aham tvam sarva papebhyo moksayisyami ma sucah . . . God will save you from the destiny that you have created by misuse of your independence. He knows but still He is so kind. Surrender has nothing to do with your destiny, that will depend on you (the spirit-soul) because you have a little independence, a little freedom. Theirs is atheistic argument. God is not only omniscient, but also Almighty. Predestiny is there but it is cancelled if you surrender to Him, otherwise God is not the controller. Theirs is like karma mimamsa philosophy, that God is our servant and He must reward me according to my activities. If you surrender to Krishna there is no more predestiny. He knows if you do this you must suffer, so why do you suffer. You take His advice. Even if he says predestined, so why don't you surrender to Krishna now, and get out of this material condition.

Concerning our use of analogy. We do not bring in imperfect analogy, but we follow the instructions of the Sastras strictly. Our authority is on the basis of Sastra, not analogy. So, Vyasadeva while giving the history of creation says "Janmadyasya . . . adhikavaye" . . . so He impregnated the heart of Brahma with all the designs of creation. So what is wrong there? If I instruct someone you do like this, and he does it, then what is the difficulty? This is the system. Our authority is sastra. We give analogy for the general mass of people who have no faith in sastra. Analogy is not proof; sastra is proof. Foolish people cannot understand or accept, so we use analogy. The conclusion is not drawn from the analogy but from the sastra. We don't use a combination of logic and authority, we use authority. Logic we use to convince someone who doesn't accept the authority. The basic principle is authority. Vedas say that cowdung is pure and we accept it. There is no logic, but when we practically use it we see that it is correct. The logic of using analogy is called in the sastra "sakha candra nyaya." It is easier to focus on the moon through the branches of a tree. The moon is great distance away, and you say that it is just through the branches. So you can focus more easily on the moon because 2 points joined make a straight line. So focusing on the nearby object helps us to focus on the far-away object. This is the use of analogy.

So there is no question of stagnation in Krishna Consciousness. Krishna is unlimited. The more we advance in Krishna Consciousness, the more we understand about Him. We cannot finish the process of understanding Him. The little more that we advance, we see still that He is far away. Even Krishna couldn't understand His position in relationship to Radharani, therefore, He took the position of Radharani to understand Himself as Sri Caitanya Mahaprabhu.

I hope that this meets you in good health.

My dear Giriraja dasa,

Please accept my blessings. I am in due receipt of your letter dated 11-10-75, and I have noted the contents with care. Now that you have received the order from Indian Govt. that our men can get two year visa you should send this to our centres from where men will be coming to India, such as New York, San Francisco, London, Paris, Johannesburg, Nairobi, Etc. This way they can show a copy of the order at the port of entry and get the two years at the port of entry. The persons coming to India, however, must be experienced older devotees, not new men. Navayogendra sent telegram saying it was 3 year visa and you say two years, but never mind, it is a good opportunity all the same.

Do the account under Mr. Vyasa' instruction. They must not remain loose. Accounting is simple, receipts and expenditures. Why complicated? From all centres receipts and expenditures should be taken and everything properly adjusted in the Bombay centre. Do it nicely.

It is very nice to hear of the book distribution. I shall be going to Mauritius from here on Oct. 24, meeting with the Prime Minister there, and then returning to Bombay by November 1.

I hope that this will meet you in good health.

-

Mauritius 24 October, 1975

Atlanta

My dear Svarupa Damodara das,

Please accept my blessings. Since a long time I have not heard from you. About a week before when I was in passing from Durban to Pietermaritzburg, South Africa, I saw several factories for preparing chickens. The modern scientist, they say, from chemical life has come, or life from matter. So, I suggested that a little chemical composition may be made by the scientists with some yellow color, and why not put this artificial egg in an incubator and get more and more chickens. If they cannot produce even a chicken or even an egg of chicken, how can we believe their very big, big talks.

In the words of Bhagavad-gita, they are described as mudhah, mayaya-apahrta jnana. Besides that, can you tell me what is the scientific opinion of the days being consecutively Sunday then Monday, then Tuesday, Wednesday, Thursday, Friday, and last Saturday? What is the history of this set-up? (from Sunday to Saturday).

According to our sastra, sun is first, then moon, then Venus, Mercury, Mars, Jupiter, and Saturn, like that. In other words, from Bhagavatam we understand that the moon is 1,600,000 miles above the sun. If that is true, then is it possible to go to the moon planet by persons who can never imagine to go the distance to the sun planet? Under the circumstances, if we say that they have never gone to the moon planet, is it exaggeration? You are a scientist, I hope you will reply these 2 points scientifically. If the moon planet is actually far away from the sun planet, how they can go there and publish in the paper that the moon planet is the nearest planet.

Enclosed you will find one form for application to a new professorship that has opened up in the big university here in Durban, South Africa. It is a university only for Indian students, and the rector there is very much impressed and eager to have one of our men with the educational qualifications to come and take the seat of professor there. Dear Mr. Ali:

Please accept my blessings. I am in due receipt of your letter dated October 13, 1975 hand delivered to me by my disciple Jnana das Adhikari and I am pleased to note the contents. I am glad to note your determination to be freed from the material entanglement by chanting Hare Krishna mantra. This is the recommended process for this age of disagreement for achieving Krishna consciousness. It is authorized, very easy, and it does not cost anything. I understand that you have got japa beads, so this is very good that you are seriously taking to the process. So if you continue Krishna will bless you, and you will go back home back to Godhead. I also understand that you have Bhagavad gita As It Is, so try to read something regularly, but do not neglect the chanting, that is the important thing.

I hope this meets you and your family members in good health.

My Dear Madhudvisa Swami:

Please accept my blessings. I am in due receipt of your letter dated October 21, 1975, and I thank you very much for it. Now I am getting old, so if you can do things without me, that will be a great pleasure for me. You are an experienced devotee and know how to manage things, and you have good men there to help you so I am sure that you can carry on things nicely. Still if I get the chance, I will come for the Ratha Yatra festival.

I hope this meets you in good health.

My Dear Mayapurusasa das:

Please accept my blessings. I am in due receipt of your letter dated Oct. 9, 1975 and have noted the contents. Regarding this matter with your child, I cannot say, but at least I would not have agreed that the doctors perform this operation. In New York in 1968 when I was in the hospital they tried to operate my brain, but I left the hospital tactfully. Therefore I say that you never call a doctor for me or send me to the hospital. So it is up to you, but I would have not agreed.

My Dear Deoji Punja:

Please accept my blessings. I am in due receipt of your letter dated October 14, 1975 with enclosed altered plans for the temple. You are doing solid work, even alone, and I am very pleased. This is the test for a sincere devotee. Simply by depending on the mercy of the Lord and carrying out the order of the spiritual master, ones success in spiritual life is guaranteed. I thank you for your endeavor.

So far the plan is concerned, I shall consult with some of my experienced disciples in this matter and shall let you know. One thing is that the domes should be like the ones we have constructed on our Krishna Balarama Mandir in Vrindaban.

Yes, try to get the preaching permit, so that men can come and help you. Upendra das is in Vrindaban, and he is wanting to come and assist you.

It is good that you are taking the leading part in the raising of the funds. By your sincerity and determination, I do not think you will have any difficulty.

My Dear Suci devi dasi:

Please accept my blessings. I am in due receipt of your letter as I was leaving the temple to come here to Bombay. You have rightly said that the best way to associate with the spiritual master is to follow his instructions. There are two ways of associating, by vani and by vapu. Vani means words and vapu means physical presence. Physical presence is sometimes appreciable and sometimes not. Therefore we should take advantage of the vani, not the physical presence, because the vani continues to exist eternally. Bhagavad-gita for example is the vani of Lord Krishna. Although Krishna was personally present 5,000 years ago and is no longer present physically from the materialistic viewpoint, still Bhagavad-gita continues. So you have correctly concluded.

Nairobi temple is very nice, and there is great potency there. Now just cooperate with Shakti Mati and organize things nicely. This is wanted. Also you may thank Parvati for making the sandesh I took on the plane. She has made it very nicely. She learned the art.

I hope this meets you in good health.

My Dear Madhudvisa Swami:

Please accept my blessings. I have seen your letter to Brahmananda Swami dated October 9, 1975. They promised before me to follow the principles. If they are not, then they are not allowed to initiate, but if they are actually following, then they are allowed. These things should be raised in our next meeting in Mayapur and decided.

My point is that even if somebody does not go in one line with the rest of the godbrothers, he can remain separately, but it does not mean that he may disobey the principles that I have laid down. So long as one follows the principles, he continues to be my disciple.

My Dear Nitai das:

Please accept my blessings. I am in due receipt of your letter dated October 28, 1975 and have noted the contents. Regarding the matter with Purusottama dasa, you immediately go and take back whatever books of ours that he has in his possession. You may inform him that we do not require his editing, neither should he correspond with our men in Los Angeles. He is a very heinous man. He wants to become more important. Who sent him books from Los Angeles without asking me? Who has given him the books he now has? You take them back immediately. If this man comes to see me in Vrindaban, I do not wish to see him.

Regarding your enrolling in the Sanskrit school, if you get a certificate and you can get the extended student visa, then it is all right, but first of all get it.

It is not at all good that the Deities do not have warm clothing for the cold weather. They are still spending so much for construction, spending spending, but the Deities are not clothed properly. What is this?

My Dear Ramesvara das:

Please accept my blessings. I have received your report on the telephone to Harikesa. This is very funny thinking in our society that you want to spend for this boat, and that Tulsi das wants to take sannyasa because he is feeling sex agitation. First of all there is no sanction to purchase this boat from the BBT. We are not interested.

Tulsi das is affected by sex, and he wants to take sannyasa? This is nonsense. Is sannyasa so cheap? He will be a victim. He is not fit for sannyasa. His mind is not fixed up. Everyone wants to fulfill their whimsical desires; this is going on. Let him stay with Tamala Krishna for sometime, and if he is recommended, then he can take sannyasa. He cannot make any separate program. He is not fit to stay separate. He must remain with another experienced sannyasa and be trained up.

Another thing, why are you always calling on the telephone? Are you such important men that you have to call all over the world? We are poor men sons, what can I do? But, why are you always calling on the telephone?

I hope this meets you in good health.

Please accept my blessings. I am in due receipt of your letter dated October 17, 1975 and have noted the contents. You are happy because you are chanting, dancing, reading Srimad-Bhagavatam and all the books. If you do these things regularly, then your life is a success. I am glad that things are going on better there. For lecturing, any one of our members can speak. Simply one has to memorize the purports and then speak in one's own language. Anyone who chants and follows the rules and regulations, where is there room for anxiety for him? You are an old, experienced devotee; so you behave like this and teach others to do so wherever you may stay.

You can preach independently as you have suggested, but do not deviate from our principles. You can start out small and then increase it if is successful. I want our men to go town to town village to village to preach Krishna consciousness.

To collect so much from visitors is Krishna's grace. This is very good. If you simply please the visitors, you will get so many Life Members. Simply I want that by the local collection and the receipts of the Guest House you maintain everything. We are considering to get a temple in Kuruksetra, so the collection from Delhi may be employed there. So it is a good sign that the visitors are becoming Life Members. You mention about the well-renown psychologist at Harvard who is interested in finding about man's true nature. Man's true nature is to render service. Originally the living entity was meant for rendering service to Krsna and as soon as the living entity misuses this marginal position, he becomes conditioned by material nature.

You are rendering first quality service to Krsna by your preaching success. Be blessed and continue your efforts and Krsna will recognize you very quickly. Anyone who preaches like this is very much appreciated by Krsna.

My dear Hayagriva das,

Please accept my blessings. I am in due receipt of your letter dated September 23, 1975 with the proposed Table of Contents for the philosophy book. By the grace of Krsna you have got a special capacity to do this work. I am very glad that you have revived your activities in the editorial work. So Krsna will certainly help. Do not neglect chanting 16 rounds at least. Yes, you can come and see me wherever I am, either at Mayapur in the spring of next year or it may be that I may go to Imphal in Manipur after the Vrndavana festival. The Table of Contents are nice and you can come and we shall discuss further. Yes, you have got a nice farm in New Vrndavana. If you are not there, then let others stay. That is all right.

Regarding the scientists, they will always find something new because their knowledge is not yet standardized. They will go on making new discoveries, on account of their imperfect knowledge. The modern scientists despite their experience of imperfectness, they take everything that they find out as the last word of perfection. Again they find out something which they find out as a further improvement and so they have to adjust everything new. They do not know that the senses are imperfect so any advancement of knowledge with imperfect senses must always remain imperfect.

Our process is different. We admit that we are in the conditional stage and our source of knowledge is not the senses because they are imperfect. We cannot find the right knowledge from the imperfect senses. We therefore take knowledge from the most perfect personality, Krsna, and His faithful servants and the result is that despite all of our imperfect senses, we have perfect knowledge. You have to keep this point of view in your front and pray to Krsna for enlightenment and then we shall be able to understand what is written in the Vedic literature. This is confirmed in the Vedic literatures: yasya deve para bhaktir, yasya deva yatha guru [ŚU 6.23].

I hope this meets you in good health.

Dallas

My dear Jagadisa das,

Please accept my blessings. I am in due receipt of your letter dated October 10, 1975, together with enclosures. Regarding the Dallas Army base property, you can forward this offer to Svarupa Damodara and in this connection you may correspond with him. We may require it for the Bhaktivedanta Institute for Higher Studies. Do not reject this military base. We can use it for this purpose. You can use the Illinois property for the Gurukula and the army base for the Bhaktivedanta Institute. Send details to Svarupa Damodara of the military base.

The military academy property in Illinois sounds very nice. You can consider amongst the GBC and do the needful. Regarding your proposal to reduce the number of students in the Dallas school, and sending them to New York and Los Angles, that is a good idea. You can do that. Anyway, this should be considered by the GBC together and do the needful.

I am glad to hear that Govardhana Prabhu is doing nicely now. I am very happy. If there is any discrepancy, we have to request them to correct, not changing or dismissing. Our whole process is to humbly request, sometimes falling down on the feet and flattering. The vivid example is Nityananda Prabhu converting Jagai and Madhai.

So study my books and reproduce the purports in your own language. You should instruct your temple presidents to preach like this. This is preaching. We haven't got to invent something by our fertile brain for preaching. Everything is there. One who is expert for presenting these things before the audience so they can conveniently understand, this is a successful preacher. You have only to speak what Krsna has said. Then you become a preacher. I am also glad to learn that Sripati Prabhu is traveling with you. Keep him nicely.

I hope this finds you in good health.

My dear Kapoorji,

I thank you very much for your letter dated September 30, 1975 and also the one on the 22nd which has been forwarded to me. Yes, I left Vrndavana and went to Delhi, then Ahmedabad, then Bombay. And then I went to Mauritius, South Africa and again Mauritius where I met with a major motor accident in my car. All my men got slightly injured and they were saved by Krsna. The accident was very disastrous, but still Krsna saved. Anyway, then I went to Nairobi and from there I have come just the day before yesterday to Bombay. Perhaps I may stay here for some time for finishing our temple construction on this land.

My dear Karuna Sindhu das,

I can understand this cunning Purusottama das has taken advantage of your simplicity. So any one of my godbrothers cannot help me in this way of book writing because they are unfortunate in the matter of preaching work. They are simply trying to infiltrate our society to so something harmful by their attempt. So please do not have any correspondence with this Purusottama or any of my godbrothers, so-called. My dear Lokananda das, and Ramesvarai dasi,

Please accept my blessings. I beg to acknowledge receipt of your letters dated October 17 and October 20, 1975. With regard to your son, let him see the Deity and ask him to offer obeisances. He will see and learn it. Yes, the body is received according to karma, still it is not an impediment to advance in Krsna consciousness by being deaf. Just teach him to see the Deity and how to offer obeisances and he will take prasadam. These things will elevate him to Krsna consciousness. Later on if Krsna desires, he can develop his hearing power. Krsna is almighty and He can do whatever He likes. What is the use of the karmi deaf school. Better to sit him down before the Deity and see and offer obeisances.

Dela Plain, Virginia
My dear Rupanuga das,

Please accept my blessings. I am in due receipt of your letter dated October 21, 1975 and have noted the contents. It is not good that all of the temples are spending more than they are receiving. They should rather save more and not exceed on the expenditures. I do not think that the jewelry business should be encouraged. We are after preaching, not money. Their endeavor should be utilized for selling books. That is different from the endeavor of selling jewelry. I do not think that this attempt should be encouraged. Our principle is tyaga, or renunciation, which means to renounce material activities as far as possible. What plans are there for the book distribution for the bicentennial celebration in Philadelphia?

Regarding Baltimore, again deficit. This is not a good sign. Regarding the Sankirtana Newsletter, then stop it. If the BBT does not pay for it, then stop it. The temple cannot afford to publish it, and if the BBT does not pay for it, then stop it. But it is good attempt.

Regarding Atlanta, everywhere again expenditures more. Why was the airport distribution closed down in Atlanta? I am glad that their farm project is successful. Milk, fruits, flowers and also food grains can all be produced in the farm. Cannot flowers be produced in the farm? This will reduce their expenditure and tulasi also.

It is good that the New York income was more than the expenditures. The description of my room there in the new building sounds very nice.

My dear Satsvarupa Maharaja,

Please accept my blessings. I am in due receipt of your letter dated October 11, 1975 from Boston along with enclosed clippings and enclosures. You are doing solid work. Krsna will be pleased with you. You are a sincere student from the very beginning of your spiritual life and I wish that you may advance more and more.

The clippings for Nalini Kanta who is running for the mayor of Phoenix is a good advertisement and we are getting good publicity. But be careful not that he may be implicated too much. There is a proverb which states that one should pick up the fish without touching the water. I think you can understand me on this matter.

Yes, my books should be introduced as regular reading in all courses. There are many evidences of the professor's certificates, so these can be utilized as proof of how our books are being appreciated. Now Cyavana Swami has made one inquiry from the Nobel Foundation for getting myself recognized as Nobel Prize for literature. Enclosed is the correspondence and you will see that one can be nominated by professors of literature and theology at universities and university colleges; so I think if you take up this matter and pursue it, you can get some professors to make the recommendation, such as Professor Judah, who is very familiar with our movement. Also, enclosed is one letter from Karttikeya MahaDevia who suggests in this regard and also Mukunda Prabhu from London has telephoned that the Encyclopedia Brittanica will be containing an article of 350 words on myself in their publication. So far your lecturing is concerned, you simply put in your own language the purports of our books. That will make your lectures successful. And everywhere you can refer to the book, Hare Krsna and Counterculture, written by Professor Judah.

So in the Western countries they are selling their churches and farms which we require. That is also Krsna's plan. In U.S.A. there is enough land and if we organize we can become very big party-Hare Krsna party. We can occupy America and make them all become Krsna conscious. Regarding the St. Louis farm, yes, we can work and build some small cottages with thatched roofs provided we get men. It is very encouraging; you should get this farm. Ten at least are sufficient to run a farm. Regarding Denver, it is very good that they are regularly having kirtana in the colleges and that three new brahmacaries have joined. Just see the result. And also one new householder couple. Regarding the devotee taking a second wife, it is all right from Vedic culture, but is not right from American law view point. That you have to adjust.

Regarding Miami, it is very good news that they have gotten their land and they have got cows and it is good news to know that the cows will live on eating the mango leaves. This is the injunction of Krsna in Bhagavad-gita to produce enough food both for human beings and the animals and you become happy. The animal is happy. If the animal is happy he will produce enough milk so what is the use of killing them.

By these activities I am must trying to satisfy my spiritual master and you are all trying to help me, so I am very much obliged to you. This is real co-operation on the platform of love.

I hope this meets you in good health.

My dear Sukadeva das,

Please accept my blessings. I am in due receipt of your letter dated October 3, 1975 and have noted the contents. Regarding your question about prosecuting Manasvi, this is a local management problem. Do I have to say on this matter? So Gurukrpa has given you the instruction. So therefore you should issue some warrant. But why has Gurukrpa advised you if you are unable to do it? Why are you asking me this question? Stop this business.

Regarding putting in the new temple floor, marble, and extending the Deity room, yes, that is nice. And your plans to have marble Panca-Tattva Deities, that is also good. You ask whether you should make your life's endeavor to have a temple on every island, but I say first of all improve the present temple, then talk of others.

Regarding your request for initiation. I am accepting the following as my initiated disciples and their names are as follows: Steve Frederick Ricciardi-Puranarsi; Eric Duncan Botts-Santiparayana; Michael Stanely Misiak-Dharmajivana; David John Smith-Ādi Karta; Ronald McClelland-Sarvasatya; Michael Delare Bodhaine-Munisvara; Carissa Annette Crammer-Mahavisnupriya. And for second initiation I accept the following as twice-born brahmanas: Godruma das Brahmacari, Bharata das Brahmacari and Daksa das Brahmacari. Enclosed are their sanctified threads and mantra sheets. You should hold a fire sacrifice and it is your responsibility to see that these devotees strictly follow the rules and regulations such as minimum chanting of 16 rounds daily and following the four regulative principles as well as attending the aroti and the classes. You should lecture to these devotees on the importance of this for their progress in spiritual life, otherwise they will again be carried away by maya.

I am glad to learn of your success at the Chicago airport for distributing 800 big books and collecting $4000. I think you should distribute more parties to go in different parts of the U.S.A. Regarding adding the name Krsna to the airport name, anyway you tried. This is Caitanya Mahaprabhu's blessings that everyone of us should become a sadhu and preach Krsna consciousness. So far Krsna consciousness is concerned, we have got new and sufficient number of books and if we read them carefully and reproduce the purports in our own language, that is perfect preaching.

I am very much obliged to you and your government that both the people and the government of America do not put any hindrances in distributing our books. This kindness of your nation will cause the blessings of Lord Caitanya to be showered upon them and the higher section of American people will all of them become Krsna conscious. My dear Tusta Krsna Swami,

Please accept my blessings. I am in due receipt of your letter dated October 16, 1975 along with the enclosed letters from persons you are recommending for initiation. I have no objection to your recommending these devotees, but whether you are acting as a sannyasi and observing all the rules and regulations and keeping yourself in sannyasi dress? On your confirmation I shall accept all these boys and girls as my disciples. So long as one continues to follow the rules and regulations, he continues to be my disciple wherever he may be.

Regarding the restaurant, this is a very good program and I am glad to hear of it. We have also started a restaurant in Honolulu and it is going on very nicely and we are getting good profit. If you take details from Srutakirti das Adhikari, he is in charge of the Govinda's Restaurant and he may be able to help you.

It is a very good idea for people to come to our vegetarian restaurant and take so many nice things, especially the panir, fried cheese, and sandesh, kachori, rasagulla, samosa and in this way they will forget their meat-eating. If you make a soup of fried panir with asafoetida and ginger, this will replace lobster soup nonsense. Of course we are not interested in giving them vegetarian food; we are wanting to give them prasadam. Then gradually they will become devotees.

The varnasrama college means to train people in varnasrama life. In human society a section of people must act as strict brahmanas. Similarly, another section must act as strict ksatriyas, still another as strict vaisyas, and the rest will be considered as sudras and less than sudras or the candalas. This is a materialistic division, but spiritually anyone can be elevated to the transcendental position simply by devotional service. This is the sum and substance of the Vedic education. If you and Siddha Svarupa Maharaja can organize such an institution following yourself the rules and regulations then it will be very glorious thing and I shall be very happy. But in any case both of you do not forget to come to Mayapur during Caitanya Mahaprabhu's birth ceremony. Let us act co-operatively, maybe sometimes separately, but the central point and aim should be one-Krsna.

Your idea for the scholastic institution as discussed with you and Siddha Svarupa Maharaja is a very good idea. Now we have got so many books-almost 50 books of 400 pages-so this institution can be affliated with some nearby university. Then the students will get their degrees of Bachelors and Post Graduates Pd.D. We have enough matter to qualify a person in academic career. At least we can offer the degree of DD-Doctor of Divinity by affliating ourselves with some neighboring recognized university.

The farming and opening the restaurant are correlative-in farming you produce enough milk and milk products, at least ghee, and the ghee is dispatched to the restaurant in the city and with that you prepare first-class samosas, kacoris, vegetables, halava-so many things people will like very much. The principle is that not a drop of milk should be misused.

I hope this meets you in good health.

Your ever well wisher, A.C. Bhaktivedanta Swami

My dear Visvakarma das,

Please accept my blessings. I am in due receipt of your letter dated September 3, 1975 with the enclosed statement about Van Maharaja. So I have now issued orders that all my disciples should avoid all of my godbrothers. They should not have any dealings with them nor even correspondence, nor should they give them any of my books or should they purchase any of their books, neither should you visit any of their temples. Please avoid them.

I have received your telegram that you have purchased the church which I have seen when I was there in Toronto. So this is very good news. Please send me the details.

Upon your recommendation I am accepting Rodney Mort as my disciple and his name is Jitakandarpa. I also accept Nakadi das Brahmacari for brahminical initiation. Enclosed is his thread and mantra sheet. So you should hold a fire sacrifice and lecture on the importance of following the rules and regulations, chanting 16 rounds and all the devotional principles. This is your responsibility as the president of the temple. You must do it yourself and see that they also do it. This is the perfect way of teaching.

I hope this meets you in good health.

Your ever well wisher, A.C. Bhaktivedanta Swami

N.B. What about that devotee from England who was to come to India? When I was in Toronto you agreed to send him. Now he is immediately required here in Bombay for construction supervision. I received your cable that you have purchased that church. Congratulations. What are the details? My blessings to Mr. Batra. ACBS ACBS/BS/mdd

My dear Alanatha das,

Please accept my blessings. I am in due receipt of your two letters dated 26th and 27th September 1975 and have noted the contents. Upon your recommendation I am accepting the following as my initiated disciples. Their names are as follows: Johnnie-Jamadagni das; Maggie-Vedatita devi dasi and Christine-Samhartri devi dasi. I also accept for second initiation Vrsnivallabha das Brahmacari. Enclosed is the sanctified mantra thread and mantra sheet. It is your responsibility as the president of the temple to see that these devotees strictly follow the rules and regulations such as chanting 16 rounds minimum on the beads. 16 is the minimum; one can chant more. There is no harm, but one at least must chant the fixed number of rounds. You should hold a fire sacrifice and they may hear the mantra from my recorded tape through the right year. The beads may be chanted on by Hamsaduta.

Regarding the controversy that is going on there in Stockholm, what is the reason. This must be considered at a full meeting of the GBC. You may suggest a way to mitigate this difficulty and if it is not accepted, then both of them should resign. I know that Hamsaduta is very expert in selling books but books are not only for selling but also for reading. Now has the GBC become more than Guru Maharaja? As if simply GBC is meant for looking after pounds, shilling, pence. The GBC does not look after spiritual life. That is a defect. All of our students will have to become guru, but they are not qualified. This is the difficulty.

I hope this meets you in good health.

My dear Bahudak das,

Please accept my blessings. I am in due receipt of your letter dated September 23rd and have noted the contents. I am glad to note that you are taking out the traveling party. I hope that you have good success. Just do everything very soberly. Regarding the instruments, stringed instruments are Vedic, but the real Vedic instrument is mrdanga and karatala. Anyway, you have to do according to the time and circumstances if you use these other instruments. So you have got my approval and you can go on.

Regarding complaints by the sannyasis, these things shall be discussed in everyone's presence at the Mayapur meeting. There is no question of change but sometimes change is invigorating.

I note that your wife has given birth to one girl child. Are all your other children also dasi's or do you have any das's? We want more das's than dasi's.

I hope this meets you in good health.

My dear Jayatirtha das and Manjuali dasi,

Please accept my blessings. I am in due receipt of your card dated October 25, 1975 along with the beautiful photographs of Sri Sri Rukmini-Dvarakadhisa of New Dvaraka. So do it nicely. I have invited Krsna and He may not be insulted by disrespectful behavior. I have introduced this system of Deity worship amongst the non-believers, the atheists, the mlecchas, the yavanas and I pray to Krsna that I am inviting You to come, so please, because You are seated in their hearts, please give them the intelligence how to serve you so that You may not be inconvenienced. I have introduced this system to the mlecchas, the yavanas and the lowest and the fallen, but still it is successful. I think that you are doing nicely.

As soon as one thinks that he is greater than his spiritual master that is the greatest offense. Krsna will give one everything, but to these offenders everything is lost. I thank you very much. You know how to dress and how to worship and I am very much pleased. It is a question of heart how to please Krsna. One simply has to agree to be trained up how to do it. You have done very nicely. I am very much pleased. And now you should teach others how to do it. This is very important business, Deity worship. The more the Deity is decorated, the more your heart will be decorated with Krsna consciousness. This is the way for the neophyte devotee how to absorb his mind in Krsna consciousness.

Never think of the Deity as made of stone or wood. Every worshipper must remember that Krsna is personally present. He is simply kindly presenting Himself before us in a way so that we can handle Him. That is His mercy, otherwise He is unapproachable.

atah sri-krsna-namadi na bhaved grahyam indriyaih sevon mukhe hi jivadau svayam eva sphuraty adah [Brs. 1.2.234]

"No one can understand the transcendental nature of the name, form, quality and pastimes of Sri Krsna through his materially contaminated senses. Only when one becomes spiritually saturated by transcendental service to the Lord are the transcendental name, form, quality and pastimes of the Lord revealed to him." (Padma Purāṇa).

I hope this meets you in good health.

New Vrndavana

My dear Kirtanananda Swami,

Please accept my blessings. I am in due receipt of your letter dated September 24, 1975 together with your check for $1,111. I thank you very much for it. I was thinking that Kirtanananda Swami is angry upon me because I did not go to New Vrndavana, but what can I do? They are dragging me in so many places and it was arranged for me to see Indira Gandhi, the Prime Minister of India. Therefore, leaving aside all other programs, I had to come here. Of course it has become a little effective because since then the government of India is not considering us an enemy, but they are giving us more and more facility to extend the visa. Then again I had to go to Mauritius, South Africa and East Africa. In Mauritius for the first time in my life I had to meet a very disastrous type of motor accident. We were four in motor carriage, the driver, Brahmananda Swami, Pusta Krsna Swami and myself. The driver was especially injured and we got a little bruises and cuts. Anyway, I have come to Bombay on November 3rd. Here the temple construction is now being undertaken seriously and we are looking after things.

You say that you may be a broken gong, but you will never be broken. You are standing solidly by the grace of Krsna. Have faith in guru and Krsna and your attempt will be successful. You know how I started in the U.S.A. with faith both in the spiritual master and Krsna and they are certainly helping me. I am always praying to Krsna that the New Vrndavana attempt will be more and more successful and ideal for your country. That is my only prayer. I am glad to note that Indians are coming and that you are constructing a large kirtana and prasadam hall and also guest rooms. Yes, so you should do it and it will actually be a New Vrndavana in America. According to our program we will have to construct seven temples, Govindaji, Gopinatha, Madana-Mohana, Syamasundara., Damodara, Gokulananda and Radha-Ramana. And later on if possible, Rangunatha also. These guests rooms, it is very good you are constructing because they were needed.

I am glad also that you have a new gosala. Let other farms see what is our behavior for the cows and how we derive benefit from them and that will be the living example to persons who are using cow flesh rather than cow milk.

Regarding the palace, when will you expect to finish it so I may go there.

I am glad to note that Pittsburgh temple management is going on nicely. This is wanted. We want cooperation. Why there should be non cooperation between ourselves. That is not good. Regarding your desire to be relieved of managing these other centers, I may request you to continue until the next Mayapur meeting and then you can make some other arrangement conveniently.

Regarding your question about the dancing, the dancing should be done enthusiastically by raising the hands like Panca-Tattva. You can also dance enthusiastically by raising hands. All of Lord Caitanya's followers used to dance with raised hands. If someone dances with ecstasy, that is all right, but it is better to dance with raised hands.

Regarding the topics of the Krsna book, this is Istagosthi. Istagosthi means discussion between ourselves but that should not be taken as a competition. It is not the subject matter for competition. It can be discussed in a small group of devotees. That is Istagosthi. This is better than competition.

Regarding your recommendations for first and second initiation; I accept the following for first initiation: Ann Shotland-Sukulina dasi and Diana Alpert-Gopalasyapriya dasi. And for second initiation I accept the following as twice-born brahmanas: Janaladha das, Manipuspaka dasi, Manisa dasi, Damodara Pandit das, Kalanidhi das, Uttamauja das, Ajitananda das and Mudhakari devi dasi. Enclosed are their sacred threads and the mantra sheet. Please see that they follow the rules and regulations. This is not to be taken lightly. If it is then surely they will again fall under the influence of maya. Mama maya duratyaya [Bg. 7.14].

I hope this meets you in good health.

Your ever well wisher, A.C. Bhaktivedanta Swami

N.B. I am in due receipt of your letter dated November 6, 1975 with enclosed check for U.S. 1111.00 which replaces your previous check which you have cancelled. I am glad to see that the Brijbasi spirit is improving in get-up. Yes, it is all right to close the Buffalo farm. It is also all right to move Radha Madhava to Nandagram and keep Gaura-Nitai and Lord Jagannatha at Madhuban. ACBS ACBS/BS/mdd

Letter to: Madhudvisa

Bombay 10 November, 1975

Melbourne

My dear Madhudvisa Swami,

Please accept my blessings. I am in due receipt of your letter dated September 16, 1975 together with the nice photographs and the professor's review. From the photo it appears that everything is very nice. I am very glad. In Melbourne, Australia who dreamt that there would be such a nice temple, Radha-Krsna, and that local men would be worshiping. And still anyone who is sincerely serving, he will get inspiration how to do it nicely. Krsna is there in his heart. As is stated in Bhagavad-gita:

tesam evanukampartham aham ajnana-jam tamah nasayamy atma-bhavastho jnana-dipena bhasvata

"Out of compassion for them, I, dwelling in their hearts, destroy with the shining lamp of knowledge the darkness born of ignorance." [Bg. 10.11]

As a child when I was going to the neighboring Mallik temple, I was thinking then when will I have such a nice Deity to worship and now Krsna is so kind that I am establishing so many nice temples all over the world. Now I want that there should be established 108 temples before my death, so you think how to do it. Make some program, train up devotees. All temples in Melbourne, London, Paris, Bombay, all are very nice. Everything is very bright and brilliant. The Deity is proof of the sincere service. It is the duty of the GBC now to maintain this. Their duty is how to enthuse them and maintain.

You mention about the wrist-watch given to the Deity. Was it made in Melbourne? Or somewhere else. Was it made in Japan?

The dresses are made very nicely. It appears from the photographs. Some of the dressmakers may come here to India, one or two of them. Krsna is supplying the ideas for you to take photos like this, so you will be recognized by Krsna. Sarvasya caham hrdi sannivistho/ mattah smrtir jnanam apohanam ca [Bg. 15.15].

Regarding the review, the professor has got the real picture. We do not want any compromise. Indological means you have to have the correct view.

Regarding your questions, the first question, when a soul reincarnates, does he associate with the souls he associated with in his lives, that is not necessarily so. Even if he associates, how can he recognize them because everyone changes his body. Regarding your question about karmic debt, yes, it is generally that the debtor is obliged to take birth and also the creditor. Sometimes the creditor takes birth as the son of the debtor and after being a very affectionate son for a few days, he dies and thus the debtor becomes aggrieved very much. This is the punishment. In this way in every transaction the participants are becoming involved in their resultant action of karma. This is karma-bandhana, in Bhagavad-gita, or the bondage of different fruitive activity. It is advised that one should act only for Krsna, otherwise he will be involved in karma-bandhana.

Regarding your second question, whether a person who is a Negro, Chinese, Indian, etc. are they different species of life making up the 400,000 species. Yes, so far their body is concerned. Your question whether woman in each one of these species is another separate species, no, the species means both man and woman of the same type. Of course, strictly speaking the woman is taken differently, otherwise how would Krsna say striyo vaisyas tatha sudras.

Regarding Rathayatra, yes, if possible I will go and I shall let you know timely.

I am glad to note that you are sending men to India. This is very good. Thank you very much. Since they are Australian, they will not require any visa. Now in India we require very good men, men who are steady, who follow the rules and regulations and who are willing to work hard. Here in Bombay we have started our Bombay construction and so on. Men who come here, they should be prepared to stay here for at least two years. And they must be very strict in following the rules and regulations. Now the government is recognizing us so we do not want that there should be any incidences.

I hope this meets you in good health.

Mr. A. D. Nyamiaka District Commissioner Office P.O. Box 29 Kilifi, Kenya East Africa

Dear Mr. Nyamiaka,

Please accept my greetings. I am in due receipt of your letter dated October 18, 1975, delivered to me by my disciple Jnana das Adhikari. I had requested Jnana das for you to come and see me in Nairobi and he said you were to come, but unfortunately I did not meet you. Anyway I am glad that you are appreciating this Krsna consciousness movement which is meant for the welfare of all living entities in the universe. Our philosophy is that there cannot be happiness or peace unless everyone serves the Supreme Lord. Just like the body cannot be nourished unless food is supplied to the stomach. When the food is supplied to the stomach, then the entire body becomes nourished very nicely. But if I foolishly think let me put the food not in the mouth hole but in the ear hole or the eye hole, then that is simply foolishness and there will be no good result. So at the present moment, we are thinking let us serve this ”ism” or that ”ism” or so on, but actually we should serve God and then everything will be taken care of. This is not some sectarian faith but it is eternal truth.

I am glad that you are reading Bhagavad-gita. Try to do this regularly. Chapter 2 is very important because it explains that we are not this body, that we are spirit soul, part and parcel of God. One has to have this preliminary understanding if he is to advance in spiritual life.

We want very much to spread this highest welfare activity there amongst the Kenyan people and we are very thankful for your cooperation. Please try to give us more and more facility. We want the people to live simply but to think highly. We want to make projects whereby the people produce their own food, food for themselves and also for the animals. In this way they can produce their own necessities and not live on any artificial standard. My disciple Jnana das Adhikari is there for this purpose of establishing our program. The main thing is to chant Hare Krsna and take the remnants of foodstuffs that have been offered to the Lord. This is our main program and please encourage him for this program within the village people. Everyone will like to sing and dance and to eat nice foodstuffs. This is our simple process for God realization. I hope this meets you in good health.

Yours sincerely, A.C. Bhaktivedanta Swami

My dear Abhinanda das,

Please accept my blessings. I am in due receipt of your letter dated October 18, 1975. Yes, this is very good that you have taken seriously our programs here in India such as the book distributing. This is very important. It is a very good idea for the Seattle temple to finance the purchase of a vehicle as well as monthly finances for travel and maintaining and operating expenses of the vehicle. So you can take a leading part in this program. In your party here you can take some Indian devotees. That will be very effective.

So you should take from there an entry visa. You apply for one or two year entry visa, saying that you are student of ISKCON and you are coming to India to study the Vedic culture, live in our temples, and learn Deity worship. If you come all with an entry visa, then there will be no difficulty for you to renew.

Letter to: Mr. K. T. Desai

-

Bombay 12 November, 1975

75-11-12

Mr. K. T. Desai Kambli Block Nehru Road Ville Parke East Bombay 57

Dear Mr. Desai,

I am in due receipt of your letter dated October 14, 1975 with your enclosed article. You mention God, but who is God? If you do not know who is God, then how can you say that He is the Super Joy?

You mention transcendental meditation, but what is transcendental meditation? We do not find it in any authorized scripture, but jnana-yoga is there in the Vedic literature and the yogis practice this type of yoga. These things are explained in the Bhagavad-gita 6th Chapter very nicely. And in the other Vedic literature we find that a yogi by concentrating his mind can see the Supreme Personality of Godhead within the core of his heart. Bhagavad-gita states:

yoginam api sarvesam mad-gatenantaratmana sraddhavan bhajate yo mam sa me yuktatamo matah [Bg. 6.47]

And of all yogis, he who always abides in Me with great faith, worshiping Me in transcendental loving service, is most intimately united with Me in yoga and is the highest of all.)

So this is the perfection of meditation. One must have faith and great love for the Supreme Lord. He must be a devotee. Therefore bhakti is the perfection of meditation.

I do not know what is this transcendental meditation, but I have seen so many advertisements for transcendental meditation in America wherein it was advertised there is no need of religious principles or regulative principles nor is any faith required. But our Vedic culture is chiefly dependent upon regulative principles. It is not possible to perform meditation without performing regulative principles. So in your article, if you support your statements with quotations from the Vedic literature, then we can publish. Otherwise we regret that we cannot do anything.

So far meditation is concerned, sex life is strictly prohibited. But the followers of the transcendental meditation, they do not follow this principle.

Regarding education, that education begins when one understands that he is not the body, but where is that education? That you will find in Krsna consciousness.

Yours, sincerely,

A.C. Bhaktivedanta Swami

My dear Gurudasa Swami,

Please accept my blessings. I am in due receipt of your letter dated October 21, 1975 and have noted the contents with much pleasure. So I thank you very much because I see you are doing very good. Now you are doing something. So you should continue in this way. Do practical solid work. This is required. You are an old experienced devotee and I have personally trained you in so many things, so now it is your responsibility to train others otherwise what is the meaning of my training you? So do it with sincerity and know that Caitanya Mahaprabhu, He will give you all facility and you will be a success.

This preaching and managing of the sankirtana parties is our real business. Do it more and Krsna will bless you more and more. It is very good that they are paying something for the lectures.

Upon your recommendation I am accepting for brahminical initiation Locasvara das. Enclosed is his sanctified gayatri thread and also the mantra sheet. I also accept for initiation Chris Nell and hs spiritual name is Srutisagara das. His beads may be chanted on by Tamala Krsna Gosvami. A fire sacrifice should be held so the brahminical initiate can hear the mantra through the right ear from my recorded tape. You should impress upon them of the responsibility for following the rules and regulations and chanting 16 rounds minimum each day. This will save them from maya. My dear Svarupa Damodara das,

Please accept my blessings. I am in due receipt of your letter dated October 11, 1975. I had never received your letter of September 21st and the invitation for going to Imphal for Manipur Gita Mandal. So I have now written them a letter as per enclosed and please find enclosed the copies. So we shall go there in April, 1976 and I will take some of my disciples who are good kirtana men. So you also should come and join in this program. Please arrange for that.

Regarding your letter of September 21, yes, it is a very good idea to have a meeting at the Mayapur meeting time to thoroughly discuss the Bhaktivedanta Institute. So please do the needful. It will be a great service if you can organize such an Institute in the U.S.A. In Dallas there is one former army base which is now vacant that has a number of buildings and enough land. It is located about 70 miles from the city of Dallas. So you should immediately correspond with Jagadisa. It is very big and nice. I think we should take it for the Bhaktivedanta Institute. The climate there is also nice.

I am glad that you are doing lectures in the various universities. When you go, take all of our books and keep them in your front. We have got so many books for study.

I am forwarding you the letter which Dr. Wolf has written me. I have not replied it, but you can reply it as you think fit.

Also enclosed is one article sent to me by Hayagriva about the new discovery which creates turmoil and confuses the physicists. The material scientists, they are discovering so many particles, but they have not yet discovered the soul. In Bhagavad-gita we learn:

apareyam itas tv anyam prakrtim viddhi me param jiva-bhutam maha-baho yayedam dharyate jagat [Bg. 7.5]

That the jiva-atma is the superior particle and these other particles are all inferior. So this is their business, to discover the inferior particles and neither have they discovered the superior particle which is one ten-thousandth the tip of a hair. Simply they are wasting their time. I hope this meets you in good health.

My dear Alanatha das,

Please accept my blessings. I am in due receipt of your letter dated November 4, 1975, with the enclosed copies of the Yoga Library in Swedish language. The get-up is very nice and I think they will sell very, very well. Just see what books we are publishing all over our Society in all the languages. Where is the CIA message in our books that they are claiming? They are claiming that we are CIA's, but where is the CIA message in our books? Our books are simply on the basis of Krsna consciousness. What better service are we doing than publishing these books?

But one thing is disturbing me, are these reports coming from Sweden. These books are translated by Vegavan and Ajita, so they are rendering good service to you. Do not deal with them by force. They are competent hands, so why fight with them? Do everything amicably. This fighting is going on everywhere. It is not a good sign. I know the fight spirit is there in you, within the Westerners, that even if you do not care to fight, someone will induce you to fight. Rather, you should make vigorous propaganda for making people understand the utility of the Krsna consciousness philosophy. It is not something speculative. Make your plans, organize, and then execute in order to increase all of our Krsna consciousness programs. This will be better.

I hope this meets you in good health.

My dear Gargamuni Swami,

Please accept my blessings. I am in due receipt of your letter undated from El Paso, Texas and I have noted the contents. So I am glad to see that you are doing well. Similarly, now we are getting literature published all over the world. I just received very nice books in Swedish and also Italian Isopanisad and similarly our Bhagavad-gita is being prepared in Dutch language. And also our literatures are being received very nicely. Bhagavan das in Paris has reported that they are collecting $20,000 per week in literature distribution. Our Bhagavad-gita in French language is being received very enthusiastically by the people, libraries and schools.

All other reports are also very good. Tamala Krsna is also distributing many big books and also magazines and having many college engagements. Here in India the government is beginning to give us facility for our men to remain here. I am here in Bombay and I am supervising the construction of our temple here. It is a very large project. The temple is larger than our Vrndavana temple. We are trying to get it done as quickly as possible.

I have just received a report from Mukunda in London that the Encyclopedia Brittanica wants to carry my biography article in their publication. So this is all welcome news. So I am very pleased by all of the progress, how you boys and girls are working very sincerely to push on this movement of Sri Caitanya Mahaprabhu. The only difficulty is the fighting that is going on. Why there should be fighting in our society? This is not a good sign.

I hope this meets you in good health.

My Dear Hrdayananda das Goswami:

Please accept my blessings. I have seen your letter dated October 13, 1975 addressed to all GBC's. Brahmananda is accused, but I shall explain that Pusta Krishna Swami since the last three years was trying for my visa, so out of natural compassion for him I thought let me go to South Africa and come back before sitting down tightly. He was expecting me for a very long time, and South Africa is a strict place in the matter of visa and so on. After going there I was very much satisfied with how my movement is being received there. After my lecture in the University the Europeans clapped and they were very enthusiastically purchasing my books.

Now I have come back, so let me stay in India. I will remain in Bombay, Vrindaban, and Mayapur. As you have desired, now let me do that, to sit down tightly and concentrate on the translating business. But, if you disturb me, then my mind will be disturbed. I want that what I have established may go on nicely, but I see that some of the devotees are reviving their old "good" qualities. That is the difficulty. If the old habits come back, then everything is finished. If my mind becomes disturbed in this way, then how can I concentrate on book writing. It is not possible. Better not to inform me anything, and let me sit in Vrindaban.

I hope this meets you in good health.

My dear Palika devi dasi,

Please accept my blessings. I am in due receipt of your letter dated November 27, 1975. Yes, the separation of man and woman is desirable. If Yamuna and yourself can develop such an institution of a woman's asrama, that will be nice. You are all elderly devotees. I think that this will be a good idea.

If you produce milk, you should not drink milk very much. Rather, you should save it and convert it into ghee and then sell it to the householders and centers and thus maintain your asrama. The excess quantity of ghee may be exchanged by trade. Kirtana is our first duty. The Deity worship should be simple and the eating should be as meager as possible.

I hope this meets you in good health.

My dear Prabhavisnu das,

Please accept my blessings. I am in due receipt of your letter undated and accept upon your recommendation the following as my initiated disciples. For first initiation, their spiritual names are as follows: Martin Webster-Akhandadhi; Gordon Stocker-Prithvipati; John Morgan-Dharanidhara; Frank Jokson-Yajnanga; Terry Maloncis-Ādi Kurma; Lynn Avionis-Sri Kama dasi. I also accept the following as twice-born brahmanas and their threads and mantra sheets are enclosed: Krpamoya das, Yasodadulal das, Sarvasagara das, Gokulananda das; Ragudvaha das, Cittavinodama das, Vamsivadana das, Anjana devi dasi. You should have a fire sacrifice and the second initiates should hear through the right ear the mantra on my recorded tape. The beads may be chanted upon by Hamsaduta. It is your responsibility to see that these devotees that you have recommended strictly follow the rules and regulations, chanting 16 rounds, attending the classes and the mangala aroti and refraining from the four prohibitions. You should lecture on these points at the initiation ceremony so that everyone understands fully. And by your own example you should teach.

I hope this meets you in good health.

Rome

My dear devotees of ISKCON Rome,

Please accept my blessings. I have received from Haihaya recommendations for the following devotees for initiation and I am glad to accept them. Their spiritual names are as follows: Bhakta Tonino-Narakantaka; Bhakta Franco-Sjjanasraya; Bhaktin Miriam-Amohamoha; Bhaktin Subrena-Yoganandakari; Bhaktin Luciana-Vicitravasini; and Bhaktin Micaela-Citrarupini. So the beads may be chanted on by Bhagavan das and be sure to see that all these devotees follow all our rules and regulations, chanting minimum 16 rounds and attending the mangala aroti and the Srimad-Bhagavatam class. This is very important because the maya is very strong, mama maya duratyaya [Bg. 7.14]. But we can easily cross beyond it if we take cent per cent shelter of the lotus feet of Krsna. Mam eva ye prapadyante/ mayam etam taranti te.

I have asked Haihaya to remain here in India for helping in the management of the Krishna-Balarama temple in Vrndavana and he has gone there.

I hope this meets you in good health.

Letter to: Tamala Krsna

Bombay 13 November, 1975

Tampa
My dear Tamala Krsna das Gosvami,

Please accept my blessings. I am in due receipt of your letter undated and I was very pleased to read the contents. This is Lord Caitanya's blessing upon you that you are executing his order. Prthivite ache yata nagaradi gram/ savatra pracara haibe mora nama. You are doing this very nicely. I heard that the Western Zone distributed more than your Radha-Damodara Traveling Sankirtana Parties. Is there a competition between you and Jayatirtha Prabhu? That is nice.

The BBT says that they are publishing at the speed of my translating and that you will distribute at the pace of their publishing. That's nice. But still I am ahead in my translation work. They owe to me now the 6th Canto of Srimad-Bhagavatam. I am working on the 7th Canto already.

I am very pleased that already you have held 50 festivals in the colleges. Param vijayate sri-krsna-sankirtana. And param vijayate American boys. Yes, you are doing very nicely. So many Vaisnavas have taken birth in America. Now America is going to be glorified. So many people are afraid of the American CIA. But now they will welcome Americans as American Vaisnavas.

Now maintain your status quo. You are in a very good position. To manage a sankirtana party nicely is more precious than all other activities. That is the verdict of Bhagavad-gita and the mission of Lord Sri Caitanya Mahaprabhu.

We have received good reports from Europe, Paris, Geneva, Amsterdam. And Bhagavan is doing very well. We have just now received Italian Easy Journey and Isopanisad.

The Bombay temple progress construction is now begun. It was started by you. It is a very nice project. The temple is very large and magnificent and there are so many facilities for guests, restaurant, theater. So I am remaining here to see that the temple construction is completed. We hope that it may be completed within three months.

Now it is understood from the report of Ramesvara that Jayatirtha's zone is Number 1 and that you are Number 2. How is this?

I hope this meets you in good health.

My dear Bhagavan das,

Please accept my blessings. I am un due receipt of your letter dated October 23, 1975 together with enclosures. So far your misunderstanding with Hamsaduta is concerned, it is not substantial. But in the presence of all GBC, the matter should be settled though. Don't worry. I have received the weekly cash reports. It is very good that you have the same treasury system and reporting system in all your temples. This is wanted. Please keep the accounts very correctly so that we may remain always above suspicion. I am glad that you now have 20 devotees in Geneva. This is very encouraging. Try to train them up and gradually leave the matters to be managed by them, in the hands of the Swiss devotees. When I started this movement, I wanted to bring some men from India. The problem was that in India the men who joined the Gaudiya Math mission were not very educated. So I declined to bring them in the Western countries and by the grace of Krsna I was able to train the local men. And thus gradually, things became successful. The Western people, they are Aryans and ksatriyas in their origin, but due to bad association with the aborigines, they have taken all bad habits and become degenerated. Now we have to revive this Aryan civilization and rectify things. If we do it nicely, then all the Western people will be happy and they will glorify Lord Caitanya. This is Sri Caitanya Mahaprabhu's prediction, "When they will take this Vedic culture, they will applaude Me." So our mission should be how to have Sri Caitanya Mahaprabhu applauded all over the world. His statement is param vijayate sri-krsna-sankirtanam. That statement will be fulfilled. That we want to see. It is very good that the new house in Geneva temple was former German Embassy. It is a very good honor that the people voted in favor of giving us the lease. Is this new place near to the river?

Regarding Rome, that is very good that you have 50 devotees. Are they all Italian? Yes, that is nice that you are looking for a new building in Rome. Rome is a crowded city. We must have there a very big building. The climate there is also nice. It is always sunny. In Rome I have seen many houses exactly like Indian houses. Also in Paris I have seen this. I have received the Italian new literatures and they are very, very nice. Thank you very much.

Regarding Spain, yes, don't risk anything. You've got sufficient engagement in the other European cities. Do everything slow but sure. The new French Back to Godhead is very nice. Amsterdam temple has also grown to 55 devotees. This is a credit, not that the temple should be a place simply for good residence. It should be a place where there is constant activity in Krsna's service. The Westerners have good brains, but they do not have any good leader. Now the Krsna consciousness movement will provide them with good leader if they take it seriously. Regarding the contract with the incense manufacturer, don't supply them if they do not pay. That is very good to separate the Spiritual Sky business from the temple.

Regarding Paris, the house there in the city must be kept very nicely. It is a very nice house. I always remember my quarters there. Also the Parisian people are very intelligent. So you are selling 100 French Bhagavad-gita's per day at $12 per book. That's $1,200 per day. This is no joke. That means there is very good reception. When are you going to print the next edition? Yes, try to place the books in stores and libraries. Are you liquidating your debts for the farm? You borrowed money on the farm. Are you repaying the loan? It is very good that the farm will be providing foodstuffs for both the farm and the temple in Paris. That is wanted. The farm program should be: grow your own food, produce your own milk, cloth and everything and chant Hare Krsna. It is good that you are repairing the buildings. They are dilapidated, but they can be repaired very nicely.

So your book distribution is very good. I think our books will never keep us in a poverty-stricken condition. This is the blessings of His Divine Grace Sri Srimad Bhaktisiddhanta Sarasvati Gosvami Maharaja Prabhupada. He is very pleased that you are distributing so many books. The American program for distributing books is very successful in this connection. So you collected $20,000 in one week. Now you are a rich man. We are also constructing the Bombay temple and the work has begun and if you so desire, you can send some contribution. Also we now have got Hindi and Gujarati publications. Do you require any for the Indians there? Now you are going to print the small Bhagavad-gita. One thing is if the people will get the small Bhagavad-gita at the cheap price, then will they want to purchase the bigger one? Will that be good? How will you distribute the bigger ones at the more expensive price when there is the cheaper one also available?

Your program in the schools, that is very nice. That is your success, that even the unruly students were well-disciplined. Dhiradhira-jana-priyau priyakarau nirmatsarau pujitau. "I offer my respectful obeisances unto the six Gosvamis, who are always engaged in chanting the holy name of Krsna and dancing. They are just like the ocean of love of God, and they are popular both with the gentle and with the ruffians because they are not envious of anyone."

I hope this meets you in good health.

Sri V.S. Murthy Lecturer in Physics Maharani Sri Jaya College Bharatapur, Rajastan

Dear Sri Murthy,

Please accept my greetings. I am in due receipt of your letter dated 8/11/75, and have noted the contents. At present I am at Bombay and you are welcome to come and see me and we shall discuss these things broadly. And if possible I am prepared to go to Bharatapur and speak my views on spiritual advancement of life.

So for our guidance Krsna has spoken everything in Bhagavad-gita. Unfortunately so-called scholars and saintly persons have misguided the people by making different interpretations of the divine instruction unnecessarily. That is the cause of the ruination of our culture in India.

There is all round guidance in Bhagavad-gita for social, political, religious, educational, cultural and philosophical and in all matters of guidance, but instead of taking guidance from Bhagavad-gita, they are now enamored by the external feature of modern civilization. It is said therefore, na te viduh svartha gatim hi visnuh: "They do not know that the supreme self-interest is to know Visnu."

I am very glad to see that you have detected the deficiency in our educational system, but still there is time before complete ruination if we take seriously this Krsna Consciousness Movement.

If you can, come here, we shall provide for your staying here for some time. We have got guest rooms and arrangements for prasadam.

I hope this meets you well.

My Dear Pusta Krishna Swami:

Please accept my blessings. I have today sent you one telegram reading as follows: IMMEDIATELY GO NAIROBI TO TAKE CHARGE INSTRUCTIONS MAILED NAIROBI-A.C. BHAKTIVEDANTA SWAMI.

One telephone call has come from Dinnath that Sharma the president has left Africa because of fighting with Cyavana Swami. When I was in Nairobi I took away from Cyavana all managerial duties. There were so many complaints against him from our men and from outsiders. He could not manage nor could he collect. I had wanted that Sharma and Shakti Mati manage themselves without any interference.

Now I want you to manage things there. The management was not being done properly when I was there. The accounts were not being kept properly, and they were spending everything. Please rectify the situation. Cyavana Swami should go to Europe for preaching and travelling. Caitya-guru das may be sent here to India for starting our Kuruksetra Project.

My dear Ramesvara das,

Please accept my blessings. I am in due receipt of your October BBT report dated November 5, 1975 and have noted the contents. The report of the BBT Library Party is very encouraging to me that the main library of Harvard told us they would be honored to complete the collection of our books. Just see. This is wonderful. Still University of New Brunswick has ordered our books even though they do not order religious books. This is a success. This quote by the head of their religion department of Oberlin is very important: "I think the best feature of the Hare Krsna Movement is that it is providing scholars with authorized translations of the rarest books on Krsna-bhakti." This should be quoted and printed in a pamphlet. Also the fact that at Colorado Springs Library that 8 volumes of their Bhagavatams had been take out 7 times in the past year. This should be published. You print one poster, big type, and put the quotation of the Oberlin professor. You can title it: How Our Book Are Being Received and have the quotation of the professor, the professor's remarks. This will be a good advertisement for our books.

This book distribution, that was my Guru Maharaja's purpose. He said that I have got so many temples and now in Calcutta I have got a marble temple, but I would have wished that if by selling the marbles I could publish and distribute books. Now by the mercy of His Divine Grace Sri Srimad Bhaktisiddhanta Sarasvati Gosvami Maharaja Prabhupada I am doing both by the co-operation of my American disciples. I am constructing so many marble temples and I am distributing so many books on Krsna consciousness. This does not mean that I am excelling my Guru Maharaja, but it is the mercy of my Guru Maharaja that he is giving me the facility for doing both.

That is good that Ranadhira is taking over BBT mail order.

I hope the meets you in good health.

Letter to: Sri P. D. Shastri

-

Bombay 14 November, 1975

Sri P.D. Shastri Advocate Dairy House Savasi Baroda, Gujarat

Dear Sri Shastri,

Please accept my best wishes. I am in due receipt of your letter undated as well as your handwritten book, the Gita as it has appeared to me. Lord Caitanya Mahaprabhu strictly followed Krsna. That is his grace: yare dekha tare kaha krsna upadesa/ amara agajnyaya guru hana tara ei desa: [Cc. Madhya 7.128] "Instruct everyone to follow the orders of Lord Sri Krsna as they are given in the Srimad-Bhagavatam and Bhagavad-gita. In this way become a spiritual master and try to liberate everyone in this land." (Caitanya-caritamrta, Madhya-lila, Chapter 7, Verse 128.)

This means that Caitanya Mahaprabhu advises everyone, especially every Indian, to become a guru under His order. And when there is a question what is His order, that is explained in the next line: you simply repeat the instructions of Krsna, that is, Bhagavad-gita, to everyone whom you may meet. Therefore Caitanya Mahaprabhu's mission is as good as that of Krsna, but sometimes non-devotees misunderstand purposefully or foolishly the instruction given by Krsna in the Bhagavad-gita. Sri Caitanya Mahaprabhu says that you strictly follow the instructions of Krsna and preach it to everyone. Therefore our Krsna consciousness movement is based on the advise of Sri Caitanya Mahaprabhu to preach the Bhagavad-gita As It Is.

I hope this meets you well.

My dear Paul Diglio,

Please accept my blessings. I am in due receipt of your letter and I am glad to know that you have a sincere interest in this Krsna consciousness movement. Now you should try to become strong in Krsna consciousness. The first thing is to chant 16 rounds minimum on the beads and it is best to do this in the association of others who also desire to progress in spiritual life. So you should try to remain at one of our temples; that will help you. You should also read my books very carefully and you should render service. Tad viddhi pranipatena/ pariprasnena sevaya [Bg. 4.34]. Service must be there. So you have to find out some service that you can render. Then your progress will be very quick.

So, if you are strong enough to preach Krsna consciousness there, that is very good; that as long as you chant your 16 rounds and follow the four regulative principles, then you will get the strength. The process is that you should memorize the purports of my books and then speak them in your own words. Do not adulterate or change anything. Then you will be the perfect preacher. You should also distribute our books as far as possible. If you do this sincerely, then you will be successful.

Please accept my best wishes. I am in due receipt of your letter dated October 21, 1975. I am glad to learn of your interest in Krsna consciousness. You should take up this chanting of Hare Krsna mantra very seriously. The devotees in the Frankfurt temple will instruct you how to do it. In this way you can become cured of any mental anxiety. Krsna consciousness is something non-sectarian. It does not depend on Hindu religion or Moslem religion. My dear Bharadraja das,

Please accept my blessings. I am in due receipt of your letter dated November 1, 1975 with enclosures and thank you very much. From the photographs I see that the work you have done is superexcellent. It is very, very nice. I very much appreciate it. The dolls of Lord Damodara are very nicely done. The face is so nice.

Your plans for including restaurant and bookshop in the museum is very good. So far your future plans are concerned, you should understand that at every center there should be such doll exhibitions. So wherever it is suitable, you should take up in that place first. We want that at every center there should be this doll exhibition. In the new New York building, one flat should be for this exhibition.

The name of your exhibition is approved by me and it is a very good idea that you want to get federal funding. So far the Garuda Stambha is concerned, from the photograph, yes, it is approved what you have done. It can be placed in the Los Angeles temple in front of the Deity underneath the balcony. It must be underneath the balcony, otherwise how can it be done. It is better if it is not underneath, but if there is no other space for where to do it, then you will have to do it like that.

Regarding the Nrsimhadeva Deity, yes, that can be done, however to worship Nrsimhadeva requires a separate temple structure, not that Lord Nrsimhadeva can be worshiped in the same temple as Radha-Krsna. Regarding your question about offering aroti to the form of Damodara, no, the Deity worship that you are now doing is sufficient during the Damodara-vrata.

Regarding my head for the statue, that will appear in the museum, all of them, they are perfectly done. Locana has done very, very well. Yes, it is good if you prepare a mold so that these life-sized murtis can be available. I am sending these photographs with Saurabha to Jaipur for their making the murtis here for the Bombay temple.

Regarding the fruit decorations, it is not proper for them to be on the head of the throne. This should not be done.

Regarding the mrdanga-making, this is very, very important item. It will open a great scope of our activities, so it should be done very carefully. I want to see large production.

I note the signatures of all your assistants and I very much appreciate their activities. Make them all experts. All of them require to be experts because they will have to go to all centers because we want to have this transcendental exhibition in all our centers around the world.

I hope this meets you in good health.

Detroit

My dear Govardhana das,

Please accept my blessings. I am in due receipt of your letter dated November 7, 1975. It is a very good achievement that you have gotten this new building in Detroit. It is very aristocratic and prestigious. Do everything very nicely there now. You now have very good facility for broadcasting our Krsna consciousness propaganda. Just do everything very carefully and soberly. As soon as everything is set up, I will go there. You can call the new Detroit temple Devasadhan, meaning celestial.

Upon your recommendation, I accept as twice-born initiated brahmanas Ramananda Raya das and Visvatomukha das. Enclosed are their brahminical threads, duly sanctified and the mantra sheet. Hold a fire sacrifice and impress upon them the importance of following the rules and regulations so that they may not be affected by the influence of maya. There is two things: there's Krsna and there's sex life. So if you want to have Krsna, one must be above illicit sex life. That requires some strength. So you have to impress upon them that following these rules and regulations, especially by chanting Hare Krsna, one will become strong. Unfortunately, we have no taste for this chanting. This is our misfortune.

I hope this meets you in good health.

My dear Madhudvisa Maharaja,

Please accept my blessings. I am in due receipt of your letter dated October 11, 1975 and have noted the contents. Regarding your coming to India and travelling with me, oh yes, you are welcome. It is very good that you have been observing Catur-masya. I have already sent through Brahmananda Swami a telegram approving your travel program. That's very nice that you will travel to the Southeast Asian countries, Indonesia, Thailand, Malaysia, Hong Kong and also China. That is very nice.

Regarding the Gaura-Nitai Deities, yes, they can be installed, but let me see the photographs first. That is very good that you are growing your own flowers at the Melbourne mandir. This is very important.

Regarding China preaching, so far as I know Chinese people, although communists, they are not devoid of God consciousness. If they are sincere communists, they will accept our philosophy. Our philosophy is that every living being is the son of the Supreme Being and whatever we see within our vision-either living beings on the land, on the water-everything belongs to the Supreme Being. Every living being has a right to enjoy the Supreme Father's property. So everyone means not only the human being, but also other living entities, those living in the sky, water, trees, plants, creepers, ants, beasts, birds-all living beings, they are sons of the Supreme Being in different forms.

So we should be compassionate to every living being, accepting them as sons of the Supreme Being. That is the real communistic idea, perfectly enunciated in the Srimad-Bhagavatam. So any communist country, if they take help from us, their communistic ideal will be perfect. Let the leading men of any communistic country come and talk with us about our philosophy and they are sure to make him convinced about this loftiest philosophy of Krsna consciousness. We do not criticize the communistic idea, but we want to make it perfect.

I hope this meets you in good health.

My dear Ghanasyama das,

Please accept my blessings. I am in due receipt of your letter dated November 4, 1975 and was very pleased to read the contents. On the whole it is very encouraging that the professors like our books. This is our success. This quotation is very important: ”One professor went on to explain that the other books were mostly dealing with speculations in contrast to our books which presented religion as a way of life based on authentic writings.” This is a very good quote. This should be publicized and it should be published in the new book that is being presented of all the quotations, The Hare Krishna Movement is Authorized. As I had ordered you to preach and distribute to the libraries, so you are doing it. So I am very pleased with your activities. Now continue and increase. Everyone will want our books. We will always have customers. This is Caitanya Mahaprabhu’s mercy.

Bombay 20 November, 1975

Dallas

My dear Jagadisa das,

Please accept my blessings. I am in due receipt of your letter dated November 8, 1975. Regarding your letter of October 11th, I have replied it November 9th, so you should have received it by now. Regarding the Illinois property, I have also agreed that it is a nice property. That is good that the GBC men have agreed to the tax proposal. Regarding your use of manpower in the Texas Gurukula, that is very good what you are doing now. There should not be more than twelve students for one teacher. This is tutorial system. I am also glad to see that you have 9 devotees doing full-time book distribution. That is nice and also it is sufficient. Book-selling is our most important engagement.

Regarding Chicago, it is very surprising how they distributed 800 big books in one day. Here in India we could not sell 800 books in one month because there is no market. Here there is only a market for technology and black market. This is the advantage of the Western countries. There is enough resources, but simply it should be used in Krsna’s service. Then it will be nice. Yes, you should develop better relations with the Indians in Chicago. 30,000; that is no joke. In the London temple the Indian devotees are doing everything for the maintenance of the temple. So as soon as the Indians in Chicago come to know, then they will help you. Here in India the temples are maintained by the grhastha bhaktas.

Regarding Toronto, I am glad that they have gotten that church. I have sent them congratulations. Regarding Detroit, I note that Sudama Maharaja was there. Has he left Tamala Krsna’s party? Alone Sudama Maharaja is not safe. He should not leave Tamala Krsna’s party. Regarding the Detroit house, even though you will move there after Christmas, some devotees may go there immediately to take possession, and make the necessary repairing. If you can take out a mortgage for only $70,000, then what is the use? Anyway, this you have to consult among yourselves.

Regarding Montreal, yes, it is required that the temple be ventilated nicely. That you will style it after the Krishna-Balarama temple in Vrndavana, that is very nice.

Regarding the New Orleans’ farm, do not make sugar. Just boil it and make molasses. You can eat the molasses instead of sugar. Just boil it and keep boiling it until granule forms and then keep in a pot. Don’t try to make sugar and sell it. That will simply increase the botheration. If you start trading business, then so many problems will be there. You should produce just enough for our own use. Trading leads to envy and jealousy and cheating, then everything is lost. I am seeing now that the business activities in our society, they are increasing. Originally I allowed that Gargamuni could start the incense business. I thought that the Ramakrishna Mission, they are doing and the incense we are using, so if we make some and sell it, then what is the harm. But now I see that Spiritual Sky, they have so many products. And now there is jewelry business going on. So why should the business increase? Nanda Kumar, he came here to India simply for doing business. This is not required. So I have given him sannyasa and now he is finished with all business, and he will go to Africa to preach. So this business should be discouraged, otherwise, if they do it, our men will again become karmis. Our business is simply book distribution. So far increasing the New Orleans' farm, yes, if you have got more men, you can get more land. You should make a stock of ghee from the farm and if possible open a restaurant in the city for attracting people. You can prepare samosas, kacoris, rasgullas, sweetballs: In Honolulu they are doing nicely, this restaurant. You can take information from Srutakirti das. And the farm will get money by selling ghee to the restaurant. And also you can sell the ghee to the Indian people in the city.

Regarding the Deities of Gurukula, Lord Kalacandji, why you should move? The Deities shall stay. If you want you can install another set of Deities in a new place. There's no question of selling the building; it must be maintained.

Enclosed is some correspondence I had with one Mr. Kumarachar. So he is now in London and he has his ticket up to New York, so if you want him to be Sanskrit teacher in Gurukula, you will have to pay for him from New York to Dallas. I do not know what he has been doing so long for 1 1/2 years since I wrote him April 17, 1974. Anyway, you can see if he is useful and if so, then you should keep him. So you can bring him to Dallas.

The new Gurukula buildings are very nice. We shall invite children there from all over the world. If big Indians here in India understand that Vedic culture in English medium is given, they will want to send their children. This is a unique opportunity. We shall induce big life members to send their children. Sanskrit and Indian culture through English medium-this is what they want if their children will not be trained up to do business. If we organize very nicely, the Indian families will send their children. The whole world is misled. You must apply your brains how to spread Krsna consciousness. I am an old man. I can give you the idea. Now you have to carry it out.

Upon your recommendation, I am accepting the following devotees as my initiated disciples and their spiritual names are as follows: William C. Rich is Kanupriya das; Gregory Furgeson is Gopala das; Melinda Pickup is Yogamaya dasi; David Sliman is Sesadeva das; Sam Santoro is Pralabaha das; Kelly Griffin is Yugapriya and Tracy Smith is Vamana-devi. I also accept for second initiation Rajendranandanana das, Lokahita dasi. Also from Winnipeg, I accept for second initiation Dharmaprana das, Natha das, Lalita devi dasi and Misrani devi dasi. The sanctified gayatri threads are enclosed and also the mantra sheets.

I hope this meets you in good health.

Berkeley

My dear Jayatirtha das,

Please accept my blessings. I am in due receipt of your letter dated November 12, 1975 with enclosed photographs and also your letter of November 8th. I note that starting December 15th there will be a monthly deposit in the amount of $1,900 in the Mayapur-Vrndavana fund account. You have got a good business brain and you worship the Deity very nicely. Therefore I like you.

I am very glad to see that you have out-collected the Sri Sri Radha-Damodara party. This is good competition. So now is Tamala Krsna defeated by you? So one month you defeat him and another he can defeat you and in this way Radha-Damodara service will be increased by transcendental competition. This is very nice.

Regarding San Diego temple, from the pictures it appears very nice. So you can get this building. It is a good house. They are all selling to ISKCON, the Christians and the Jews. They are all going to liquidation. So take it without any doubt.

I am very pleased with the distribution that the new Dvaraka temple is going. When I hear of your advancement of devotional service by book distribution, it invigorates me although I am an old man. Although I am traveling all over the world, my mind is always in Los Angeles. So do everything very nicely so that very soon I may go there and see the improvement. The mrdanga-making is very important. The new bhaktas, they can be engaged in the mrdanga-making and also help Bharadraja with the doll-making. The nursery school program is very good. That is good that the mothers are being freed to increase their devotional service. It is not that women should only produce children, but they are meant for advancing in devotion. The sign Hare Krishna Colony is very good idea. You can add, the words Come and Join. Why are the French books not being composed on our own equipment? We have got so many nice machines there. I think it will be better if we do it on our own machines and save money.

Regarding Berkeley temple, I note that permission for living in the building is not yet finalized. Please keep me informed. Portland is a very nice city. I am glad that we have our temple there. That is very good that Seattle does not have any debts. This is proper management. This is very much wanted. It is also very good that Jayadvaita is in Laguna Beach and is preaching there. This is our process of preaching, that one shows by his personal example, not that we preach something and then do something else. That is called cheating and that is going on in the religion, especially. We are not that kind of cheaters. And we are not that kind of so-called religionists. Yes, so you keep an eye on things there in Laguna Beach, and see that whoever takes over as temple president is trained up.

Regarding the Vancouver farm, yes, the log cabin type structure you have mentioned, that is nice. Whatever is suitable, that you should do. This is the meaning of plain living and high thinking. If the chanting of Hare Krsna is not there, then there will not be any high thinking.

I hope this meets you in good health.

My dear Ramesvara das,

Please accept my blessings. I am in due receipt of your BBT Trustees report dated November 11, 1975 and have noted the contents. I note that under transfers you have sent $25,000 to Gurukrpa Swami in Bombay. When was this and why was it done? Please send the details. I note that for the new printing of the abridged Gita, Dia Nippon, there were mistakes. Why there should be mistakes? Mistakes makes the book useless. You must be very, very careful. It will be detrimental to the sales.

Regarding the proposal for a new warehouse, what is the rent that you are presently paying for your warehouse? I think if you can go on renting, that is better. Personally I do not have a financial brain. But my Guru Maharaja, he prefered rented house rather than one's own house. At least India, a rented house is prefered than possessing one and that is practical.

I have received your telegram regarding the one million copies of Back to Godhead printed and also the Spanish Gita. This is solid work. Thank you very much. I have also received a batch of letters of appreciation from professors such as from Anderson College, Alderson-Broaddus, University of Leicester, University of St. Andres and Brandeis University. All these letters are very valuable and they may be added to the quotation book, The Krsna Consciousness Movement is Authorized.

Gopala Krsna has informed me that you have deducted $77,000 for the last shipment of books to India. But this was to be a gift. This money is meant for construction, so you should not deduct this amount.

I hope this meets you in good health.

Your ever well wisher, A.C. Bhaktivedanta Swami

N.B. Whether you think it is necessary to bring the artist Indra Sharma to U.S.A.? He says that his daughter is also required to assist him, so you will have to pay for two tickets. What will be the advantage of his coming there? So far I see there is no objection against our art work, but if you think it is necessary I have no objection. I do not want to see money wasted, that's all. ACBS/BS/mdd

My dear Satsvarupa das Gosvami,

Please accept my blessings. I am in due receipt of your letter dated November 10, 1975 and have noted the contents. Krsna will guide you how to increase the library distribution. Do not worry. Just do it sincerely and with a cool brain. Regarding Miami temple, you say it is a paradise. So that must be because it must be better than the former place. But they must keep the whole temple site very neat and clean. This is very important and please instruct them on this. Abhirama, he is an intelligent boy. He can do and he can manage. Simply you have to encourage him and see that he shows good example to all the devotees and they will all work very enthusiastically under his leadership.

Regarding Denver, why are they doing business? This creates a bad atmosphere. We shall only do one business and that is book-selling. That's all. As soon as you become karmis after business, then spiritual life becomes damaged. This business should not be encouraged any more. Doing business and not sankirtana, this is not at all good. Visaya chadiya kabe suddha ha'be mana/ kabe hama herabo sri-vrndavana. "When the mind is completely purified, being freed from material anxieties and desires, then I shall be able to understand Vrndavana and the conjugal love of Radha and Krsna, and then my spiritual life will be successful." One has to engage himself in devotional service, giving up the engagement of manufacturing pounds, shilling, pence. Sankirtana is very good, but grhasthas under condition can do other business, only if they give at least 50%, but sankirtana is the best business. Our Denver temple is situated in a very nice place. It is our own house, so it must be managed very nicely. Please encourage Kurusrestha in this regard. He is very good devotee, very sincere and intelligent.

I have seen the photograph you sent of the Houston temple. It is very impressive building. It looks like a secretariat building. I want that our Mayapur festival there should be booths showing our activities. There should be one booth showing all the photographs of our temple buildings. This will be very impressive. Even big, big businessmen, they haven't got such branches all over the world as we have got. And our business is with honor. Why not purchase the Houston temple? And I am glad to note the successful program in Gainesville temple.

Regarding the Africa preaching, in South Africa it was very successful. Although they do not like Indians there very much, still in the university when I spoke, all the European audience, they clapped after and then they purchased my books very enthusiastically. It was very encouraging. Anyone who is not biased and fanatically sophisticated will like our books. Yes, I am doing Srimad-Bhagavatam, trying to finish. I am trying my best.

I hope this meets you in good health.

My dear Bhumata devi dasi,

Please accept my blessings. I am in due receipt of your letter dated October 13, 1975 and also your poem enclosed and have noted the contents. I am very glad to note your enthusiasm for spreading Krsna consciousness and that you want to increase your propaganda work. This is the main thing-to always be anxious how to spread the glories of Sri Caitanya Mahaprabhu's mission. I note that you have got this dedication and I am very pleased.

I have noted your ten requests and I think that yes, there should be a GBC man who I have delegated who can take care of these matters. So Satsvarupa Maharaja, he is the right man. Regarding your request for Krsna consciousness marriage, oh yes, certainly Satsvarupa Maharaja, he can perform the ceremony.

Regarding sending the gifts and offerings, is it cash or kind?

I hope this meets you in good health.

My dear Acyutananda Swami and Yasodanandana Swami,

Please accept my blessings. I am in due receipt of your letters dated November 16th and November 18th with all the enclosed clippings which I have read with interest. I am glad to see that your preaching programs are going on. I think Acyutananda Swami, he is a very good preacher. The process is simply to read the books and learn the purports and then speak to them in your own words.

One thing is, where is Gurukrpa Swami? I have not heard anything from him. I do not know where he is.

That you have been victorious in preaching to the big Mayavadis, that is the mercy of Krsna. Now the Western higher circles, they have admitted that the greatest contribution of the Hare Krsna Movement are these authorized translations of the Vedic literatures. This has been said by one professor.

I hope this meets you in good health.

My dear Nalinikanta das,

Please accept my blessings. I am in due reciept of your letter of November 9, 1975 and also your telegram to Brahmananda Swami reading as follows: "ASK SRILA PRABHUPADA IF WE SHOULD BUY SMALL CHURCH IN PHOENIX TWO BLOCKS FROM UNIVERSITY WITH $15,000 to $20,000 LOAN FROM BBT. WIRE BACK IMMEDIATELY AS MAY BE SOLD SOON. NALINIKANTA." So this matter I cannot say because I do not know what money is available. You have to consult this with Ramesvara. Regarding taking sannyasa, this mentality that either I will have sex life or I will take sannyasa, this is not proper. Sannyasa means that one is finished with material life. So you have gotten married and you are in family life. So you should remain there. So you thought that by getting married you would expand your service. So you should do that. Actually all my disciples are sannyasis because they have surrendered everything in the service of Krsna.

I have read the clipping and you have also mentioned of the women wearing karmi clothes and going into sex movies and bars late at night for collecting. So this kind of canvassing should be immediately stopped.

Upon your recommendation I am accepting the following two brahmacaris as my initiated disciples. And their names are Malcolm Perey is Yamunapata das and Monte Flynn is Kalatita das. It is your responsibility since you are recommending them that they follow strictly the rules and regulations and remain strong in Krsna consciousness. They must attend the mangala aroti and the Srimad-Bhagavatam class and Bhagavad-gita class and chant 16 rounds minimum daily and also follow the four rules and regulations.

I hope this meets you in good health.

My dear Svarupa Damodara das,

Please accept my blessings. I am in due receipt of your letter dated November 9, 1975. Regarding Manipur, I have replied your letter on November 12th and have informed them that we will be able to go to Manipur in April of 1976. And I am glad to note that

Dr. Wolf is ready to help the German translation work. I know that he is a sincere devotee and I pray for his ever advancement in Krsna consciousness.

I am glad to note that your book about the origin of matter and life is progressing very well. This will be a great challenge.

From the Srimad-Bhagavatam we learn that the universe is like a tree with the roots being upwards. The pole star which is situated within the Asking question starts constellation is the root. The universe is pivoting around the pole star. That is one movement. The second movement is that the sun is revolving around the universe, or as if it were going around the tree. That is the second movement. The sun is not fixed. If this is proved, then their whole scientific theory collapses. According to them, the stars are all suns. The stars may have the same composition as the sun but they are not suns. The Brahma-samhita says that the sun is the king with unlimited light and temperature. The Srimad-Bhagavatam sublime literature describes all these things and it was written five thousand years ago. And they say that five thousand years ago there was no civilization. That Srimad-Bhagavatam has this information proves that Indian civilization is the oldest civilization.

I hope this meets you in good health.

Bombay 21 November, 1975

Dr. W.H. Wolf-Rottkey 12915 Venice Blvd., Apt. 37 Los Angeles (Marvista), California 90066

My dear Dr. Wolf,

Please accept my blessings. I am in due receipt of your letter post dated November 12, 1975 and have read the contents carefully. So it appears that the sun planet comes first and then the moon planet. That is the statement in Srimad-Bhagavatam. How do modern scientists say that the moon is nearest from the earth? What is their authority? But according to what is stated by you, the sun is first and then the moon. That is the verdict of Srimad-Bhagavatam. If the moon is beyond the sun, then how they can go to the moon while they are unable to go to the sun? This is the problem I am thinking and if you can make a solution, that would be nice.

According to Srimad-Bhagavatam the moon is above the sun planet by 1,600,000 miles. The scientists say that the sun is 93,000,000 miles from the earth and if the moon is beyond the sun planet, the distance from the earth then would be 95,000,000 miles. So the moon being 95,000,000 miles away, how can they go even if they travel at the speed of 18,000 mph, how can they go 95,000,000 miles in four days. It is not possible. In four days they can go only 1,728,000 miles.

If they say the moon is 240,000 miles from the earth, then why is the moon not mentioned first? Why not Monday being the first day of the week? According to Srimad-Bhagavatam, the sun is first, the moon is second and therefore we have no objection to the first of the week being Sunday and then Monday. Why is it universally accepted in all languages that Sunday is first and then Monday? Why is it not Monday and then Sunday?

I have noted that you are working with the German translation department. Kindly continue your cooperation. It is Krsna's business and He will be very, very happy.

I hope this finds you in good health.

Sri Himtsinh J. Bhatia and Srimati Manjula H. Bhatia P.O. Box 82855 Mombassa, Kenya East Africa

Dear Mr. and Mrs. Bhatia,

Please accept my blessings. I have understood from Sripada Nava Yogendra Swami that you have taken keen interest in our Krsna Consciousness Movement. So I am very pleased to hear this and I thank you for your service in helping to push on this mission of Sri Caitanya Mahaprabhu. Our mission is that especially those who have taken their birth in India that it is their responsibility to become perfect in the science of Krsna Consciousness and to deliver everyone in the world. In this way everyone is expected to become guru. But how to be a guru? It is said that one simply has to repeat the instructions that Krsna has given. If he repeats without adding or subtracting anything, then he is qualified as guru. Actually there is only one guru-Krsna, the Supreme Personality of Godhead. So those who simply repeat His words, they also become guru. But of course a guru never thinks himself as being God. He only thinks himself as the servant of the servant of the servant: gopi bhrtya pada-kamalayo das dasanudasa [Cc. Madhya 13.80].

Recently I visited Africa and I could see that the management was not going on properly. So now I have given Nava Yogendra sannyasa order and am sending him back to Africa. He will be the president of the Mombassa temple, so please help him to make our mission there very solid.

I hope this meets you in good health.

Miss P. Boodhena Clairfonds Road Vacoas, Mauritius Indian Ocean

My dear Miss Boodhena,

Please accept my blessings. I am in due receipt of your letter dated November 10, 1975 and have noted the contents. I am very glad to see that you are taking keen interest in this sublime movement of Sri Caitanya Mahaprabhu for benedicting the entire world with the holy name, Hare Krsna, Hare Krsna, Krsna Krsna, Hare Hare, Hare Rama, Hare Rama, Rama Rama, Hare Hare. It is very good that you are taking serious interest in reading our books. This is very important. I think it will be easier for you to get our Srimad-Bhagavatam from our devotees who are there in Mauritius. If they cannot supply, you can write to our Nairobi temple at P.O. Box 28946, Nairobi, Kenya.

You should chant Hare Krsna every day and read our books and in this way you will make advancement in Krsna consciousness. We have to understand that we are not animals like cows and asses. We should not live like the hogs, but we should realize the higher goal of Krsna consciousness to understand that I am not this body, but part and parcel of the Supreme Lord Sri Krsna. This state of consciousness can only be achieved by following the instructions that Krsna gives and that his representatives teach us.

I hope this meets you in good health.

Your ever well wisher, A.C. Bhaktivedanta Swami

My dear Cyavana Swami,

Please accept my blessings. I am in due receipt of your letter dated 16/11/75 and am glad to read the contents. I am glad that you are traveling and preaching. This is the business of a sannyasi. Please follow my order in this regard. Africa is huge field, so you have plenty of opportunities for traveling and preaching. This will keep you enthusiastic. So do not neglect it. Of course if the young people there are interested, then you should stay there to instruct them. Then if you can collect and send money to Nairobi, that is very good. In this way their debts can be paid. I am also glad to see that you are taking seriously the Life Member program. So many Life Members they are complaining they are not receiving books or they are not being treated nicely. So if you can rectify this situation, that would be very good.

So far your becoming GBC is concerned, yes, I had wanted that, but there are so many complaints. This is not good. GBC must mean that by his managing, there is not any complaints so that I can be relieved in order to do my translation work. Anyway, you go on with your preaching program and we shall discuss this matter in Mayapur meeting time. In the meantime I am sending Brahmananda Swami to rectify the situation in Nairobi and later on we shall see.

I hope this meets you in good health.

My Dear Brsni Das Prabhu,

Please accept my blessings. I am in receipt of your letter dated September 9, 1975, I have noted the contents carefully.

Regarding the Gaura Nitai deities, I think 100 dollars is too much to pay for one pair of deities. Better you carve them from wood. In India the carvers have always used a wood bitter in taste, this keeps the worms from eating it, best is nim wood if such wood (bitter in taste) is available there then why not make Gaura Nitai from wood.

In New Vrindaban we have so much woodland, it is not that deities have to be made in Hawaii, why not in New Vrindaban and supply all our centers? let me know.

I hope this finds you in good health.

My Dear Ramesvara Prabhu,

Please accept my blessings. I am in receipt of your letters dated November 18th and 20th 1975. I have noted the contents carefully.

The incident with Purusottama is now a closed chapter, in the future be more careful, we have got enemies as well as friends, we have to be careful.

I was very happy to receive the new edition of Bhagavad gita the make up is very nice. Every time I see a new publication of my books it gives me so much enthusiasm that my life is increased by 100 years. Thank you for helping me so much.

The report of Ghanasyama Prabhu selling standing orders to the head of the Mormon church is very encouraging to me, may Krishna bless this boy. Practically speaking there is no religion in the world, the only true religion is Bhagavata Dharma, that is the original religion of the human society, whatever else there may be passing as religion has come after Vedic literature. The whole world is in darkness, so we are bringing light in the shape of Srimad-Bhagavatam. Therefore this is the best service one can render to the human society, to give knowledge, how to go back to home back to Godhead.

The BTG No. 12 is also nice. In India the biggest circulated spiritual magazine is Kalyana printed by Gita press at 95,000 so you have far surpassed them, thank you, the magazine is very nice.

I hope this meets you in good health.

My Dear Tikandas J. Batra,

Please accept my blessings. Thank you for our letter dated Nov. 26, 1975. I do not know where one could find copies of the old Back to Godhead started by me back in 1944 it is a long time ago. If you write to our Los Angeles center they may be able to send you some of the back issues of the more recent publications.

Regarding your question about Brahma Samhita, it was found by Lord Caitanya Mahaprabhu in a temple on his travels thru south India. There are supposed to be 100 chapters, but this is the only chapter which is known to date.

Regarding your question about Vaikuntha; the example is The King and the bed bug, both of them are sitting on the same throne, but the business of the King is to rule and the bed bug's business is to bite. The place is the same, but the consciousness is different. It is said the Lord is situated in everyone's heart, so that means Krishna is also in the heart of a hog, and he is also in the heart of a demigod, but that does not mean that God has become a hog, or a demigod, God is always in Vaikuntha. Similarly, those who are God conscious, Pure devotees of the Lord, they are always in Vaikuntha, there is nothing like material for them.

I hope this letter finds you well.

Letter to: W.J. Carpenter

•

New Delhi 30 November, 1975

75-11-30

My Dear W.J. Carpenter,

Please accept my blessings. I beg to acknowledge receipt of your letter dated nil.

Material life means attachment for women, children, friends, countrymen, position, wealth, and good name. In the Srimad-Bhagavatam material existence is compare to a forest full of plunderers, dacoits, jackals, tigers and other ferocious animals. The jackals are compare to one's wife and children. In the dead of the night jackals cry very loudly, and similarly one's wife and children in this material world also cry like jackals. The children say, "Father is wanted: give me this, I am your dear son." Or the wife says, "I am your dear wife. Please give me this. This is now needed." In this way one is plundered by the thieves in the forest. Now knowing the aim of human life, one is constantly being misguided. The aim of life is Visnu, or Krishna (Na te vidhu svartha-gatim hi visnum) Everyone works very hard to earn money, but no one knows that his real work is to serve Krishna, the supreme Personality of Godhead. Instead of spending money to advance the cause of Krishna consciousness, one spends his hard earned money on clubs, brothels, liquor, drugs cigarettes, slaughterhouses and so forth. All these activities are sinful, and because we are engaged in such sinful activities constantly we are constantly reaping the result of our sinful work, which is suffering in one way or another.

But even if one is pious he cannot escape from the sufferings of material existence in the shape of Birth, death, old age and disease. Therefore the only solution to all problems of life social economic, or political is to surrender to Krishna. Krishna says "the material nature is very difficult to overcome, but one who has surrendered unto me can very easily cross beyond it." So to surrender to Krishna is not difficult all we have to do is follow the instructions given by Krishna in Bhagavad-gita under the guidance of his representative, the spiritual master.

So you are already chanting Hare Krishna, now simply try to give up these four habits of sinful life, and the best way to be successful in this attempt is to associate with the devotees of the Lord. Therefore we have established so many temples of Krishna. You simply go there, the devotees are very kind, you will be welcome and by their association automatically you will make advancement and purify your life. We have got a temple in London, 7 Bury Place WC I and one in Herts. Given to us by George Harrison. So you go there and everything else will come.

I hope this letter finds you well.

My Dear Manasvi Prabhu,

Please accept my blessings. I beg to acknowledge receipt of your letter dated Nov. 18, 1975. Now you are living peacefully with your family, that is good. Best thing is if you continue your employment at the book store, try to sell my books there if possible. Visit the New York temple regularly with your family and try to help them as far as possible, I think you should not attempt to make life members at this time. Maintain your wife and children by working honestly, attend the temple programs as far as possible and in this way live peacefully as a grhastha following the four regulative principles of spiritual life and chant Hare Krishna on beads and at home with family. That will keep you pure.

My Dear Cakravarti Prabhu,

Please accept my blessings. I have accepted the following list of Boy and Girls as my duly initiated disciples. So you are the president there at Schloss Rettershof, it is your duty to see that the standards of Krishna Consciousness are always maintained, especially chanting 16 rounds daily, observing the four regulative principles, no meat, fish, eggs, no intoxication, no gambling, and no illicit sex life. The students must all attend morning and evening arati and classes. If we follow this simple program along with regular sankirtana, distributing the books and preaching, then there will be no fall down. Just like if one keeps himself clean and properly nourished by eating regularly, he will not infect disease, but if there is neglect, then there is room for infection, he becomes weak and fall prey to disease. So Krishna consciousness is the medicine for the material disease, and chanting Hare Krishna mantra sincerely is the basic ingredient of that medicine.

Due to traveling I have not received it till just now, but in the meantime I have learned from Hamsaduta Prabhu that you have already arrived in Germany. So you work with Cakravarti and Alanatha Prabhu, they will give you good advice and help.

I am very happy that you are taking a chance for Krishna, do everything very carefully and sincerely, Krishna will help you. Lord Caitanya predicted that in the modern age this movement would be spread to every town and village of the world. So by the sincere help of you American and European boys and girls it is actually happening. It is not bogus, like communism, socialism and so many isms going on in the world today. But is purely spiritual authorized by the disciplic succession tracing all the way back to Krishna himself who spoke this science of life 5,000 years ago on the battlefield of Kuruksetra. The battlefield is still there and you will be happy to know that yesterday we have been at that very spot where Krishna spoke to Arjuna, and we will build a gorgeous Krishna Arjuna temple there. People will come from all over the world to see it and understand the authority and sublime message of Lord Krishna.

Please keep me informed how you are progressing with your mission. I hope this letter finds you and your good wife well.

The list of devotees to be initiated have been named as follows;

Mike Harris-Pandavagrya Das John Antonopaula-Nagendra Das Gail Netherlands-Vimoha Devi Dasi Martha Kriek-Venurati Devi Dasi

You may chant on their beads, and instruct them nicely in the regulative principles and philosophy of Krishna consciousness.

75-12-02

My Dear Tusta Krishna Swami,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 21 November, 1975. Every student is expected to become Acarya. Acarya means one who knows the scriptural injunctions and follows them practically in life, and teaches them to his disciples. I have given you sannyasa with the great hope that in my absence you will preach the cult thruout the world and thus become recognized by Krishna as the most sincere servant of the Lord. So I'm very pleased that you have not deviated from the principles I have taught, and thus with power of attorney go on preaching Krishna consciousness, that will make me very happy as it is confirmed in the Guru vastakam yasya prasadat bhagavata prasadah just by satisfying your Spiritual Master who is accepted as the bona fide representative of the Lord you satisfy Krishna immediately without any doubt.

I am very glad to inform you that Sudama Vipra Maharaja is also now following my principles. So I am very very happy to receive all this news. Thank you very very much.

Keep trained up very rigidly and then you are bona fide Guru, and you can accept disciples on the same principle. But as a matter of etiquette it is the custom that during the lifetime of your Spiritual master you bring the prospective disciples to him, and in his absence or disappearance you can accept disciples without any limitation. This is the law of disciplic succession. I want to see my disciples become bona fide Spiritual Master and spread Krishna consciousness very widely, that will make me and Krishna very happy.

I hope this letter finds you well,

My Dear Ramesvara Prabhu,

Please accept my blessings. I am in receipt of your very encouraging letter dated November 27, 1975.

Your report of book sales is over encouraging. You are all becoming very very dear to my Guru Maharaja. I started this movement by book selling. I was never a beggar for money, but I was writing books and selling. My Guru Maharaja very much liked my writing and he used to show others in my absence "Just see how nicely he has written, how he has appreciated." He encouraged me, and my Godbrothers, they also like my writing. After I wrote that poem for Vyasa Puja of my Guru Maharaja they used to call me Poet.

Anyway, I was working writing books and publishing BTG alone, but I could not give the thing shape, so I decided to go to U.S.A. and now you all nice boys and girls have helped me so much, it is all the mercy of Krishna. Thank you very much.

You can send one full ticket for Gopala Krishna's wife E. Khanna and one ticket (If necessary) for his son 2 1/2 years old D. Khanna to Gopijanavallabha in New York. The money many be taken from Gurukrpa's money. New York, Bombay, Delhi, immediately.

-

Vrindaban 4 December, 1975

75-12-04

My Dear Aja Prabhu,

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 17, 1975. I am very pleased to note that you are attempting to preach seriously in the schools and colleges. Prahlada Maharaja, a great devotee and authority in our line said, Krishna consciousness should be taught from the beginning of Childhood. The defect of modern education is that the children are taught all nonsense things. They do not receive even the first point of knowledge, that I am pure spirit soul part and parcel of God. Everyone is interested in the body only, which is compared in Bhagavad gita to a dress, "As a person puts on new garments, giving up the old and useless ones, similarly, the soul accepts new material bodies, giving up the old and useless ones." [Bg. 2.22] this simple fact they have yet to learn. So if you can teach them just this one point it will be a great success, because this is the basic platform of advancing in spiritual understanding. If we want to read and write, then it is essential to learn first of all A, B, C's.

Whatever knowledge they have got now is on the platform of this body, which is a lump of matter only, there is no knowledge of the soul which is entrapped within the lump of matter, and so people are suffering because of ignorance of this simple point. So try to enlighten them on this point and make them happy, that will please me and krishna, and thus you will become perfect yourself.

My blessings to Sivananda Prabhu, he is a good boy, he singlehandedly started the European movement. I hope this letter finds you well.

My Dear Mark Phillips,

Please accept my blessings. Thank you for your letter dated 4th November, 1975. Yes we are eternally related to the Lord as servant, so naturally when we forget our eternal relationship as servants of the supreme master, Krishna, we suffer. A child is naturally subservient to the parent, but if he rebels then the child suffers in so many ways. Therefore Krishna advises everyone in Bhagavad-gita to simply surrender to him, and he will take care of us.

In Australia we have got our temples, consult the Back to Godhead magazine for the temple nearest you. Please visit the temple and take advantage of the pure spiritual atmosphere, this will immediately extinguish the burning fire of material suffering in your heart. Meanwhile I humbly request you to chant Hare Krishna Hare Krishna Krishna Krishna Hare Hare Hare Rama Hare Rama Rama Rama Rama Hare Hare. My Dear Dr. Yogi Raj Dev Svarupa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated Nil. In thank you very much for your kind appreciation. Because you are teaching in a respectable University I request you to study some of my books, especially Bhagavad-gita as it is. As stated in the Bhagavad-gita, manah samyamya mac-citto, yukta asita mat parah "One should meditate upon me (Krishna) within the heart and make me the ultimate goal of life." [Bg. 6.13-14]. Western people are now becoming more and more interested in yoga practice, but unfortunately because they have no authorized source of information, they are being mislead by unauthorized teachers and concocted methods of yoga practice. Actually the astanga yoga system practiced thousands of years ago is not practical for this age, therefore Lord Caitanya Mahaprabhu introduced the simple process of chanting the Holy name of Krishna for the people of this fallen age of Kali. It is said in the sastras that the same result that was formerly attained by difficult sacrifices or yoga practice is easily achieved in this age simply by chanting the Holy name of God, Hare Krishna Hare Krishna Krishna Krishna Hare Hare Hare Rama Hare Rama Rama Rama Hare Hare.

In all our temples we are doing that, and we have more than 40 big volumes of authorized books, Srimad-Bhagavatam and Bhagavad gita, etc. Intelligent people are accepting this movement all over the world, so if you are serious about joining this mission, then why not study these books, understand the philosophy and teach.

I hope this letter finds you well.

My Dear Saksi Gopala Prabhu,

Please accept my blessings. I beg to acknowledge receipt of your nicely decorated letter. Thank you very much. From your letter it appears that you are a little confused. This means that the consciousness is not clear, brahma-bhutah prasannatma, na socati na kanksati [Bg. 18.54], the clear stage of consciousness is free from hankering and lamentation. As long as we are on the material platform, bodily conception of life we will hanker for so many things required for material supremacy. Therefore to clear this cloudy consciousness Caitanya Mahaprabhu recommended that one should simply chant the Holy name of God sincerely and hear it with attention. To chant dance, take prasadam and be happy. Marriage is not recommended. Are you prepared to get a job, live outside the temple in apartment, provide the wife with bangles saris and sex? Better you concentrate on this chanting and hearing process, teach others and give them prasadam. So you and Bhumadeva are doing this already, now be steady and increase it more and more. Hamsaduta will guide you in this engagement, he is there to help you execute your program.

I hope this letter finds you well.

My Dear Rupanuga Prabhu,

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 24, 1975. Upon seeing the pictures of the doll exhibit I thought it was some of our devotees play acting. This boy Saptaratha Das has done the dolls very very nicely, now make a museum for the public. This doll making was one of the programs of my Guru Maharaja, and the exhibit used to tour India. That same exhibit, although falling apart, is still touring India today and people are appreciating it. So develop this program, I am very pleased with this boys work, encourage him.

Our cows are happy, therefore they give plenty of milk. Vedic civilization gives protection to all the living creatures, especially the cows, because they render such valuable service to the human society in the shape of milk, without which no one can become healthy and strong. In your country the dog is protected, and the cow is killed. The dog is passing stool and urine in the street, he is considered the best friend of man, and the cow is all pure, stool, urine, and milk, but they are taken to the slaughter house and killed for food. What kind of civilization is this. Therefore we have to preach against all this nonsense.

How is the New temple building in New York?

I hope this letter meets you well.

My Dear Sivarama Prabhu,

Please accept my greetings. From your report I can understand that things are going on there very nicely. When I first came to America I never imagined that this movement would spread so far and wide. I thought that my Guru Maharaja has ordered me to try to spread his teachings in the English language, so let me try. In a country where everyone is trained from childhood to indulge in sinful activities who will accept these restrictions, no meat fish and eggs, no intoxicants, no gambling, no illicit sex life. These things are the life and soul of western people, and I never imagined that even one person would accept. But by the mercy of my spiritual master and Krishna the thing has taken shape. I am so much indebted to you nice boys and girls who are helping me in this mission that I always pray to Krishna for your advancement in Going back to Godhead more and more. Thank you.

I am accepting the student you have recommended for Brahmin initiation, their names as follows; Dharmaprana das Brahmacari, Natha Das Brahmacari, Misrami Devi Dasi, and Lalita Devi Dasi. Hold a fire ceremony, and let the students hear the mantra from the tape recording through the right rear. Brahminical life means to be very very clean, inside and out. Inside by chanting and hearing, and outside by bathing three times daily, if not possible at least two times, but never less than once. Bathing after passing stool. The qualifications of the Brahmanas are described in the 18th Chapter of Bhagavad gita verse 42 ”Peacefulness, self-control, austerity, purity, tolerance, honesty, wisdom, knowledge and religiousness-these are the qualities by which the brahmanas work.” So see that these instructions are being followed nicely.

I hope this letter finds you well.

My Dear Yasomatinandana Prabhu,

Please accept my blessings. You wanted one white assistant for facilitation of your work in Ahmedabad, so we have selected the best man for this work, Sriman Hai Haya Das Adhikari. I understand that you wrote one letter to Gopala Krishna disapproving sending Hai Haya. He is approved manager and why you thought that there is some politics. I am very much surprised to hear all this.

My Dear Yogescandra Prabhu,

Please accept my blessings. Thank you for your letter dated December 2, 1975.

You always have my blessings, the father always wishes that the son may be more successful than himself. This is the spiritual conception. If one is doing well, then the materialistic persons become envious and try to check his progress. This was actually so with Prahlada Maharaja, he was only 5 years old, he was preaching Krishna consciousness to his school friends, and the father Hiranyakasipu became so envious that he attempted to kill his 5 year old son in so many ways. Krishna consciousness is just the opposite, if someone is doing well then the attitude of the devotee is to give him all facility to go on and improve more and more.

Yes we are running on the mercy of the spiritual master, to understand this point is to get mercy more and more. Yasya prasadat bhagavata prasada.

I hope this letter meets you well.

Letter to: Sri Krishna C. Batra

-

Vrindaban 8 December, 1975

75-12-08

Sri Krishna C. Batra Sri Aurobindo Ashram, Pondicherry-605002

Dear Sir,

In reply to your letter dated 26 November 1975, I beg to submit herein that our International Society for Krishna Consciousness is a Bhakti yoga asram as it is enunciated in the Bhagavad-gita. The main purpose of the society is to understand the nature of God and our relationship with Him. The very word yoga means connecting link with the supreme being. We accept Krishna as the supreme being, and nobody is equal to him or greater than him. How he is supreme is lucidly explained in the Bhagavad-gita, and we try to revive our eternal relationship with him. In the Bhagavad-gita itself there are different processes of yoga systems, karma yoga, jnana yoga, dhayana yoga, hatha yoga, bhakti yoga and so many patterns of yoga. Others may practice different patterns of yoga, and we can understand that everyone is trying to pass on the path of yoga, but bhakti yoga is the ultimate goal, and if anyone is actually interested to understand God as he is, he has to come to the platform of bhakti yoga.

It is stated in the Bhagavad-gita that after many many births of practicing yoga, when one is actually mature he surrenders himself at the lotus feet of the Supreme Personality of Godhead. Bahunam janmanam ante, jnanavan mam prapadyate, vasudevah sarvam iti sa mahatma sudurlabhah [Bg. 7.19].

So this bhakti yoga is practiced by varieties of rendering service to the Lord, They are divided into nine prescribed methods as it is called sravanam, kirtanam visnoh, smaranam pada sevanam, arcanam vandanam dasyam, sakhyam atma nivedanam [SB 7.5.23]. The actual path to understand God is bhakti yoga as it is confirmed in the Bhagavad-gita, bhaktya mam abhijanati, yevan yas casmi tattvatah, tato mam tattvato jnatve, visate tad anantaram. [Bg. 18.55] "One can understand the Supreme Personality as he is only by devotional service. And when one is in full consciousness of the Supreme Lord by such devotion, he can enter into the kingdom of God." This bhakti yoga is identical with Krishna consciousness this is also confirmed in Bhagavad-gita, Yoginam api sarvesam, mad gatenanteratmana, sraddhavan bhajate yo mama, sa me yuktatamo matah. (Bg. 6.47) And of all yogis, he who always abides in me with great faith, worshiping me in transcendental loving service, is most intimately united with me in yoga and is the highest of all.

So we teach our students how to think of Krishna 24 hours and thus become devotees of Krishna. When one becomes a devotee he worships Krishna by the above nine varieties of bhakti processes and remain always an obedient servant of Krishna, and the vivid example is Arjuna, how he engaged himself on the battlefield of Kuruksetra although he was not willing to kill the enemies on the other side, although they happen to be very near and dear kinsmen of Arjuna.

The conclusion is, when one gives up his concocted ideas of perfection and takes to Krishna consciousness just to render service to the Lord by following his direct order this perfection is actually attained by a pure devotee, so much so that a pure devotee constantly engaged in the service of the Lord can get direct orders from the Lord, and then follow perfectly the instructions of the Lord.

Our society is open to everyone without any discrimination of cast, creed, color, sex, or position, anyone can join us and be trained up in Krishna consciousness. That is evidently proved that we have got more than 100 centers all over the world, including Africa, or other supposed backward countries. Everywhere the Hare Krishna Maha Mantra is being chanted without any difficulty and all of them are becoming pure Vaisnavas. They are completely giving up the four principles of sinful activities, namely illicit sex life, meat eating, intoxication, and gambling, and thus they are making progress in the matter of understanding Krishna consciousness very perfectly.

The addresses of our India centers are listed as follows, ISKCON Bombay, Hare Krishna Land, Gandhi Gram Rd. Juhu 54. ISKCON Hyderabad, Hare Krishna Land, Nampally station Rd. Hyderabad. ISKCON Delhi, 19 Todar Mal Lane, Bengali Market, New Delhi. ISKCON Calcutta, 3 Albert Rd. Calcutta 17 (Near Hindi High School). ISKCON Mayapur, P.O. Sri Mayapur Dham, Mayapur District Nadia, West Bengal.

Just this month we have sent preachers to Ahmedabad and Kanpur for opening centers, and we are planning to build a gorgeous Krishna Arjuna temple at Kuruksetra in co-operation with the late home minister G.L. Nanada.

We have published more than 50 big books in the English language such as Bhagavad-gita as it is, Caitanya Caritamrta, Srimad-Bhagavatam, and others. For a complete catalog of our publications write the secretary at New Delhi temple.

Thank you for your interest.

My Dear Mahamsa Maharaja,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 5, 1975 and have noted the contents. So Gaura Govinda Maharaja has to go to Orissa to get that land in Bhunesvara, so I have given him the documents for necessary action. Unless he is absolutely required in Hyderabad he may go there with the other Orissa devotee. I have seen his Orissa literature about our movement and it appears to be very nice, any common man can understand it, and it is set up very nicely. He is very much hopeful to sell our books there amongst the higher class. I have already given him all instructions how to organize a center there. So I wish that he may go there and do his best to show his ability.

You have taken a loan from me to the extent of 2 laks but I think you have not returned even a part of this. So kindly send me as statement of accounts. I require a huge amount for the Kuruksetra project, not less than one crore, so now I wish to get it back.

By 15th December I will be in Bombay, so you can reply this letter to the Bombay address.

Please accept my blessings. Thank you for your letter dated December 6, 1975. In the beginning of publishing Back to Godhead I was printing with Sarasvati Press in Calcutta, but the others I cannot remember.

Regarding your question, There is really a place as Vaikuntha, beyond this dark material universe. In the material world if our consciousness is changed to Krishna then even here is vaikuntha consciousness. This is very easy to understand. Suppose one is a foreigner in India, but still he can continue his European or American consciousness. The process for doing this is bhakti yoga and the beginning of that process is hearing and chanting the Holy Name of Krishna, Hare Krishna Hare Krishna Krishna Krishna Hare Hare, Hare Rama Hare Rama Rama Rama Hare Hare. Please chant Hare Krishna and be always in Krishna consciousness.

I hope this letter finds you well.

The deities in the picture you sent appear nice. Also the article, Visa to the Kingdom of the spirit looks favorable, although I cannot read the language.

Your idea of printing a deluxe edition and an ordinary edition is all right, everyone should get a book that is the idea, so do it.

The idea of GBC changing zones for 2-3 months of the year is also good. Bring up this point at the Mayapur meeting and vote on it.

I accept the below listed students as my initiated disciples their new names are given and you may hold a fire ceremony and chant on their beads. Instruct them to chant 16 rounds daily and refrain from the four sinful habits of material life. The second initiates should hear the Matra from the tape recording through the right ear, instruct them in habits of cleanliness, and brahminical qualifications and behavior. Brazil

My Dear Uttamasloka Prabhu,

Please accept my blessings. I read your Sankirtana news letter with great relish. Europe and America are in great danger, this Hare Krishna movement is enveloping them. The Sankirtana devotees are very very dear to Krishna. Because you are doing the field work of book distribution, Krishna has immediately recognized them as true servants. Just like during war time, a farm boy or ordinary clerk who goes to fight for his country on the front, immediately becomes a national hero for his sincere effort. So Krishna immediately recognizes a preacher of Krishna consciousness who takes all risks to deliver his message.

It is called Dhira vrata-determination. These boys and girls are mahatmas, mahatmanas tu mam partha, daivim prakrtim asritah, bhajantyananya manaso, jnatva bhutadim avyayam [Bg. 9.13] "O son of Pritha, those who are not deluded, the great souls, are under the protection of the divine nature. They are fully engaged in devotional service because they know me as the Supreme Personality of Godhead, original and inexhaustible." This verse is applicable here, if these boys were under material nature they would not take so much risk, they are mahatma, they are real mahatma, not that long beard and saffron cloth mahatma. They are unswerving in their determination, dhira vrata. All glories to the American devotees!

I hope this letter finds you and all the sankirtana devotees well.

Naturally the sankirtana men traveling with the bullock carts are blissful. It is Lord Caitanya's engagement. Lord Caitanya personally traveled all over India for 6 years. His program was simply kirtana and prasadam distribution. Lord Caitanya never spoke philosophy in public. When he met big scholars like Sarvabhauma Bhattacarya he spoke philosophy, otherwise for the mass of people, kirtana and prasadam distribution. Letter to: Svarupa Damodara

Bombay 17 December, 1975

75-12-17

Atlanta

My Dear Svarupa Damodara Prabhu,

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 29, 1975. I have noted the contents carefully. Your book is selling very nicely in south India, people are appreciating it very much. This scientific book should be done very carefully, so that people in general may not be mislead by the over intelligent scientists. There are so many contradictory things, but we have our authority and they have their authority. Our knowledge is from vedic scriptures which we accept as definite and without any mistake. A modern scientist believes that there was no civilization before 3,000 years, our Bhagavatam was spoken by Sukadeva Goswami 5,000 years ago and he is explaining "as I have heard it from authority", so we have got parampara system for millions of years. If there was no civilization before 3,000 years, then how this subject matter of knowledge could be discussed? How could it be received through the param-para system? So there is contradiction certainly. But the statement that there was no civilization 3,000 years ago can be adjusted by the conviction that there was civilization, millions and millions of years ago.

For more information regarding vedic astronomy you can consult any learned astronomer, there are many in Calcutta, my Guru Maharaja was also very learned in this field.

My point is life comes from life. They say life has come from chemicals, so how these things can be adjusted? Besides that the scientists change their theories after some years, this proves that they have no perfect knowledge, otherwise where is the necessity of changing? That is the basic point of our argument. Perfect knowledge is never changeable. If we can prove that life comes from life, or the soul is from the supper soul, then all other things can be brought into serious consideration. So you try to prove that chemical combination can never bring about life, this is our main argument. If we can prove this particular subject matter, that the soul cannot be manufactured by combination of chemicals, then gradually we can prove that vedic knowledge is perfect, while other sources of knowledge by speculation and imagination are all wrong.

The other day I was talking on the morning walk about the sun globe. They say because it is fiery there cannot be any life there, but sometimes we see a big iron factory is full of flames from the chimney at a long distance, but does it mean there is no life in the factory? Fire is one of the five material elements, and Bhagavad-gita says that the soul is never burnt by fire. So in the sunglobe globe if the living entities have a fiery body, just as fish have body suitable for living in the water, so how is it that there is no living entity in the sun globe if they have a body suitable to live in the sun globe? In the vedic literatures it is said that there are germs (agni pok) within the fire. There are so many contradictions, but we have our own defence. Why should we blindly accept imperfect scientists, they are imperfect because they are changing their position in the name of progress. The word progress is used when there is imperfection at the beginning. So this regular changing of standard knowledge in the name of progress proves that they are always imperfect. It is a fact that they are imperfect, because they gather knowledge with imperfect senses. At any rate we cannot deviate from vedic knowledge. Regarding coming to Mayapur festival, you must come, because after that we are going to Manipur.

I will send your corrections to the editors. Thank you.

I hope this letter finds you well.

My Dear Acyutananda and Yasodanandana Maharaja,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 11, 1975.

The books are already on the way. Sankirtana will always be appreciated, because it is the special blessings of Lord Caitanya Mahaprabhu on the people of this fallen age of Kali. Sukadeva Goswami says, this age is an ocean of faults, but there is one boon, in this age one gets the same result as was achieved in former ages through elaborate temple worship, costly sacrifices, or introspective meditation, simply by chanting the Holy Name of The Lord. It is for this reason only that this Hare Krishna movement has spread so quickly all over the world. The people of this age are so fallen they are like cats and dogs. What cats and dogs will understand about philosophy? If a dog is barking and you speak with him very nicely ”my dear dog, please try to control your barking, it is very disturbing” will he be able to understand? therefore we simply throw him a bone, and he is satisfied. So distribute prasadam, and chant Hare Krishna. For the mass of people this is the only medicine. Lord Caitanya never spoke philosophy in public, he held kirtana and distributed prasadam. When he meet Sarvabhauma Bhattacarya he talked high philosophy, otherwise, Chanting and prasadam distribution.

I hope you are well.

Bombay 18 December, 1975

Denver

My Dear Bhakti Steven Knapp,

Please accept my blessings. I beg to acknowledge receipt of your long letter how you are appreciating this philosophy. It is said in the Bhagavad-gita that out of thousands of men, only one takes an interest in the perfection of human life. The perfection of human life is to develop one's dormant love for God, and thus be released from the terrible cycle of birth and death. People are so foolish that they simply waste time in temporary pursuits of material happiness, eating, sleeping, defending and enjoying sex life. Especially sex life. The sum and substance of material life is attraction for the opposite sex. The sum and substance of spiritual life is attraction to Krishna.

So to develop attraction for Krishna is not difficult, you simply have to hear about Krishna, his activities, his name, his form and his teaching in Bhagavad-gita. Naturally you will develop love for Krishna, because we are all part and parcel of Krishna. The beginning process is to Chant Hare Krishna, follow the four regulative principles and associate with devotees, and take Prasadam of Krishna. I think you are now living in the temple of Krishna, so these things will be very easy for you to practice.

I hope this letter meets you well.

My Dear Tamala Krishna Maharaja,

Please accept my blessings. Thank you for your letter dated December 4, 1975 I have noted the contents with great pleasure. Your letter is very very encouraging to me. I do not know how you are selling so many books. There is no instance in history where religious books were sold with such enthusiasm and success. Is there any such history? The Christians have spread their teachings all over the world, and they have only one book, so we have got already 40, Big books published in English, therefore if we distribute, as you are distributing we cannot even imagine the result. Your program is very nice, please continue more and more.

Yes we can print instead of 20,000, 50,000 copies of the first editions of each book, ask Ramesvara to do it.

Your idea for holding Jagannatha festival in the big cities is approved by me, do it. yes you come in January.

Letter to: Tulsi

-

Bombay 18 December, 1975

75-12-18

Taunus, West Germany

My Dear Tulsi Das,

Please accept my blessings. Thank you very much for your nice letter. I can understand from your letter that you are very intelligent. Generally India people are not taking up this movement, although it is their original culture, they are now in favor of economic development and technological advancement which can never do any good to the people in general, neither material nor spiritual. After all a living being lives by the grace of God. He cannot eat nuts and bolts, however nicely they may be manufactured. We live by food grains, vegetables and milk products as it is stated in the Bhagavad gita ”All living bodies subsist on food grains which are due to rains come by proper proformance of sacrifice” Human life is meant for sacrifice to please Visnu. Bhoktaram yajna-tapasam, sarva-loka-mahesvaram [Bg. 5.29], ”The sages knowing me to be the ultimate purpose of all sacrifices, the Supreme Lord of all planets, and the well wishing friend of all living entities, attain peace from the pangs of material miseries”

So if we want to be happy in this life and the next we have to worship Visnu. But Gandhi did to satisfy Visnu? He was trying to satisfy his country, and his country killed him. He manufactured so many things which were never found in Bhagavad-gita. Throughout the Bhagavad-gita Krishna is encouraging Arjuna to fight, and Gandhi manufactured non-violence from Bhagavad-gita. Everyone in India knows the Mahabharata, the great battle of Kuruksetra, 640,000,000 soldiers gave up their life in that battle, and Krishna was personally instructing Arjuna to fight, and Gandhi took Bhagavad-gita and preached non-violence. So what was his understanding. At the end of his life he frankly said, ”I don’t believe there was ever such a historical person as Krishna”. So what did Gandhi know about Bhagavad-gita?

My only credit is that I have presented Bhagavad-gita as it is, without any speculation, or interpretation, therefore for the first time in the history of the world people are accepting it and living practically according to the principles of Bhagavad-gita.

I understand that you are translating Bhagavad-gita as it is into Malayalam language. Hamsaduta has spoken to me about you. Please send me a sample, and we will see about it’s publication and distribution in India. Maybe in the future you will like to come to India and help preach this message to your countrymen.

I hope this letter meets you well.

My Dear Kirtiraja Prabhu,

Please accept my blessings. I am in due receipt of your letter dated December 7, 1975. I am very please to note your activities in Warsaw Poland. Yes if you can arrange for the translation of my books in Polish language that will please me very much. We do not have to manufacture anything new. We are getting perfect knowledge from krishna through the disciplic succession, so our position is very firm. Whatever we hear from the bona fide spiritual master should be practiced in life and the same message delivered to whomever we meet. In this way you become spiritual master.

We have got so many big big books now, so any sane man will appreciate them, you simply have to present them, that's all. Is it very difficult? It is being done all over the world and professors and scholars are appreciating them by writing reviews and introducing them as standard text books in their university courses. So try to present my books there. It is assure of success because Lord Caitanya predicted, "In ever town and village of the world, my name will be known" The whole world is full of rascals presenting concocted ideas and everyone is suffering. Caitanya Mahaprabhu came just to deliver these rascals. How?

hare nama hare nama hare nama eva kevalam kalau nasty eva nasty eva nasty eva gatir anyatha

Chant Hare Krishna, induce others to chant, and distribute prasadam. This can be done everywhere, who will object. Temple or no temple, you simply chant and give prasadam and it will act.

I am very please that you have taken so much courage and I pray that Krishna will bless you with more and more success. Please keep me informed of your activities and send copy to Hamsaduta and Cakravarti in Germany so that they may help you as far as possible.

I hope this letter finds you well.

My Dear Mahavisnu Prabhu,

Please accept my blessings I am in receipt of your letter dated December 12, 1975.

It is very unfortunate that Savitri devi dasi met with such a bad accident. The material world is full of danger at every step. Even a great devotee like Bhisma met his end by being pierced with hundreds of arrows, but he was so powerful that he waited in that condition to see Lord Krishna before he passed away. These are the examples of Bhagavatam, and we have to try to follow the instructions of such great personalities. Please offer my blessings to this nice girl and prayers for her well being.

Regarding your getting married, I have no objection. However as a brahmacari you are not obligated to marry, what is the advantage to your getting married? That should be considered. If one can remain brahmacari that is best. Finish this life and go back to Godhead, that is the basic idea of Krishna consciousness movement. So you decide.

The Edinburgh temple may be moved. However Hamsaduta Prabhu has suggested that if it is to be moved why not move it to Birmingham or Manchester where there will be more facility to preach and make life members and devotees.

I hope this letter meets you well.

Your ever well wisher, A.C. Bhaktivedanta Swami

P.S. As you have recommended, I accept Jagaddhatri devi dasi for 2nd initiation. Now you must hold a fire ceremony. She should hear the mantra from the tape recording through the right ear. Brahmana initiation means to be very clean, inside and outside. Inside by chanting the glories of the Lord, and outside by bathing regularly, washing hands and mouth after eating. My dear Ramesvara Prabhu,

Please accept my blessings. Thank you for your letter dated December 15th, 1975. I have noted the contents carefully.

Regarding the suggestion for book selling, the point is that the Temples must pay the cost of printing. Then they may sell for whatever price they like.

The transcendental competition is nice. If Jayatirtha Prabhu defeats Tamala Krishna Maharaja, then Tamala will have heart failure. Go on selling books. My Guru Maharaja was very much anxious about selling books and preaching, so you are pleasing him by this bombastic flood of books all over the world. Thank you.

I hope this letter meets you well.

Your ever well-wisher, A.C. Bhaktivedanta Swami

ACBS/hda/tkg N.B. Your letter dated December 27, 1975 has been delivered by Tamala and I have noted the contents. In regard to sending money for the India projects, after covering the costs of printing, whatever balance is left should be sent. The printing cannot stop, it is the first consideration. But if there is more printing then there is more income, so what is the difficulty? One thing however, is that we have just engaged the best and most experienced construction company in India, Larson and Turbrow, to complete our Bombay project. We have had to guarantee them seven lacs Rupees per month for the next nine months. And thereafter we shall immediately begin the Mayapur temple. So I think $50,000 will not be sufficient. Gopala Krishna Prabhu suggests that in addition to sending this amount, if the Radha Damodara Party is given books at the printer's cost, then whatever else they collect they can send directly to me in India. In this way we shall be able to meet the Rs. 7 lacs per month. So please make this arrangement to send $50,000 per month as well as supplying Radha Damodara Party at cost. Begin this immediately.

The new Sixth Canto Bhagavatams are very nice. Yes, actually they are worshipable Deities. Be careful that our books do not appear like Bible printing. Sometimes the Christians also put gold guilding on their books, but people are adverse to purchasing Bibles. Neither our books should be given free, there must be some renumeration, otherwise it will be like Bible selling.

Hoping this finds you in good health.

My Dear Trivikrama Maharaja,

Please accept my blessings. Replying your letter dated December 17th, 1975, I beg to inform you that until the next meeting of the GBC no new arrangements can be made. Now Gurukrpa Maharaja is being sent to Japan, and as he is already the GBC, you both should work cooperatively. That is the best thing. After all, it is all Krishna's business; there is no personal considerations. When you all come to the Mayapur festival, at that time all suggestions will be heard and the needful will be done.

I am very glad to know that you want to recruit devotees. Unless we get local devotees it is very difficult to maintain. So try to maintain the center with local devotees, that is my urgent desire.

Regarding the "dust" supposedly brought from the moon, that dust can be gotten anywhere. It has already been openly admitted that the same dust is available on this earth planet. These astronauts and scientists are all bluffing. But Srila Vyasadeva is the correct authority. Just study Srimad-Bhagavatam carefully with full faith in Krishna and Guru and all knowledge will be revealed.

My dear Hrdayananda Maharaja,

Please accept my blessings. I beg to thank you for your letter dated December 22, 1975. I am glad to learn that everything is going nicely in your zone. In South America the people are not so rich nor so enlightened as their North American neighbors, but they are very nice people and somewhat pious and that is their credit. Now just try to deliver Sri Caitanya Mahaprabhu's message to them. As you are doing go on publishing books, more and more, in Spanish and Portuguese.

It is very good that you have concentrated all the production of Spanish and Portuguese literature to Los Angeles. Please thank all the devotees of the Spanish BBT for the beautiful edition of Bhagavad-gita As It Is. This book publishing was the most important work of my Guru Maharaja and he ordered me to continue in the Western world. So I am very much indebted to all of you who are helping me to carry out the order of Srila Bhaktisiddhanta Sarasvati Goswami. Please see that all of our books are translated as nicely as this edition of Bhagavad-gita As It Is.

Jagadisa Prabhu also is thinking to come as my GBC secretary for the month of February. If you come in February I have no objection, I can have three dozen secretaries. If your business will not suffer, you are welcome anytime. I wish to remain with all my disciples together, but we have to do preaching work and therefore have to remain separate. But actually there is no question of separation for one engaged in Lord Krishna's service.

I accept Sriman Raghava Caitanya das Brahmacari for second initiation. Enclosed please find his sacred thread duly chanted on. Now you must hold a fire ceremony. My Dear Radhavallabha Prabhu,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 27th, 1975 and I have noted the contents carefully. Also, I wish to thank you and all the devotees serving at the BBT for helping to produce these new volumes. Thank you very much.

This type of decoration on the books, the gold guilding and gold stamping, is generally found on Bibles and Shakespearean texts. Whether people will now confuse our books with these others? Our get-up is already approved, you should not unnecessarily increase the price. You say that these additions will be especially useful for libraries, but if the price is increased they may not accept them. Of course, it depends on the local sellers-they can say whatever is best. You should only make these changes if the sales will actually be increased. I don’t want the BBT or the temples to lose.

The Nectar of Instruction has come out very nice. It is very important and must be immediately read by all devotees. In the near future we shall introduce the Bhakti-sastri examination for second initiation and this shall be one of the required books of study. Anyone who reads it will immediately understand what Krishna Consciousness is. Some minister in Bombay recently asked me how to create morality amongst the students, because the students are all vagabounds. If this book is introduced for study in the schools and colleges it will give a clear idea of what morality actually is. It is a most important book.

Yes, I have already seen the Gopala coloring book.

I will have to see personally what are the mistakes in the synonyms and also how you intend to correct them. I was not satisfied with the corrections that were made before. I saw some changes which I did no approve. Nitai may correct whatever mistakes are there, but the corrected material must be sent to me for final approval. So reprinting the volumes will have to wait until the mistakes are corrected and approved by me. In the meantime you can supply the standing orders whatever new volumes are published.

Yes, try to supply the damaged books to the prisoners. That is a very nice idea. The books should not be wasted, just for some small defect.

Please dedicate your life to publishing all our books. It is our most important work. I hope this meets you in good health.

My dear Satsvarupa, Maharaja,

Please accept my blessings. I beg to thank you for your monthly GBC report dated December 14th, 1975. I have noted the contents carefully.

Now you and all of your men are experienced in distributing books to the libraries. If you can get our books placed in the public libraries it will be a great victory. Do whatever you think bet to make this possible. Yes, the reviews you are getting are very important. Many times I am showing them to influential gentlemen.

Everything should be done co-operatively. ”Our” and ”your’s” are material conceptions and have no place in our Krishna Consciousness movement. If the members of our movement are unable to co-operate it will be very difficult to spread the mission of Lord Caitanya.

Gaura Nitai deities should not be taken into university classrooms. The professors and students will think we are fanatics. It is better to keep a big picture of Gaura Nitai which can be seen by everyone, rather than taking deities into a classroom.

Yes, as a Sannyasi and GBC your first duty is to read my books. Otherwise how will you preach? In order to remain steadily fixed in Krishna consciousness there must be a sound philosophical understanding. Otherwise it will become only sentiment. Whenever you find time please read my books.

Shortly we shall be introducing the system of examinations for those students who are ready for second initiation as well as sannyasa. According to the degree, devotees will be expected to read and assimilate our different books.

Our first business is this book distribution. There is no need of any other business. If this book distribution is managed properly, pushed on with great enthusiasm and determination and at the same time if our men keep spiritually strong, then the whole world will become Krishna conscious.

I hope this will meet you in the best of health.

To All Governing Body Commissioners

Re: Examinations for awarding titles of Bhakti-sastri, Bhakti-vaibhava, Bhaktivedanta and Bhakti-sarvabhauma. Your response is requested immediately by Srila Prabhupada.

Dear Prabhus,

Please accept my most humble obeisances. Srila Prabhupada has requested me to write you in regard to the above examinations which he wishes to institute. Here in India many persons often criticize our sannyasis and brahmanas as being unqualified due to insufficient knowledge of the scriptures. Factually, there are numerous instances when our sannyasis and brahmanas have fallen down often due to insufficient understanding of the philosophy. This should not be a point of criticism nor a reason for falldown, since Srila Prabhupada has mercifully made the most essential scriptures available to us in his books. The problem is that not all the devotees are carefully studying the books, the result being a fall down or at least unsteadiness.

His Divine Grace therefore wishes to institute examinations to be given to all prospective candidates for sannyasa and brahmana initiation. In addition he wishes that all present sannyasis and brahmanas also pass the examination. Awarding of these titles will be based upon the following books:

Bhakti-sastri - Bhagavad-gita, Nectar of Devotion, Nectar of Instruction, Isopanisad, Easy Journey To Other Planets, and all other small paperbacks, as well as Arcana-paddhati (a book to be compiled by Nitai Prabhu based on Hari-bhakti-vilasa on Deity worship)

Bhakti-vaibhava - All of the above plus the first six cantos of Srimad-Bhagavatam

Bhaktivedanta - All of the above plus cantos 7 through 12 of Srimad-Bhagavatam

Bhakti-sarvabhauma - All the above plus the entire Caitanya-caritamrta

Anyone wishing to be initiated as a brahmana will have to pass the Bhaktisastri exam and anyone wishing to take sannyasa will have to pass the Bhaktivaibhava examination as well. This will prevent our Society from degrading to the level of so many other institutions where, in order to maintain the Temple, they accept all third class men as brahmanas. Any sannyasis or brahmanas already initiated who fail to pass the exams will be considered low class or less qualified. Anyone wishing to be 2nd initiated will sit for examination once a year at Mayapur. Answers will be in essay form and authoritative quotations will be given a bigger score. During the exams books may not be consulted.

Srila Prabhupada wishes to begin this program at this year’s Mayapur meeting. He requests that you all send your opinions and comments here immediately so that everything may be prepared in time.

Hoping this meets you in the best of health and Krsna Consciousness.

My Dear Aksayananda Maharaja,

Please accept my blessings. I am in due receipt of your letters dated 24th December and 31st December, 1975, and have noted the contents of each carefully.

Regarding the land of Sri R. N. Bhargava, since he is offering it to us for our unconditional use, why not take it? Naturally, if we start a Gosala there, later on we can start a Vedic school for the higher class of people. Study of the Vedas is not meant for children. You should ascertain definitely by asking some knowledgable persons, whether or not the Ganges will come again. Another point is whether the government can be induced to build a road there. So, if there is possibility of developing the land, then we can take it.

The other piece of land near the Kailash Temple is the most important place in Kanpur. Please enquire from Mr. Kapur what is the actual size of the land and what would be the conditions for transferring it to our name. That land would be most ideal for establishing our center in Kanpur.

I am very glad to hear that Sri Mungturam Jaipuria wishes to stay at our Guesthouse when he visits Vrindaban. He is a very big man, one of the big industrialists like Birla and Dalmia. Please deal very nicely with him, for if he is pleased with us he can be very helpful.

I am glad to know that new men are coming to help with the activities in Vrindaban temple. The kitchen department should be very clean and things should not be wasted. This is the first consideration. Yesterday we have visited a very old and famous Ranganatha Temple here in Nellore. Everything is being managed very nicely and there are very nice arrangements for those who come for darsana. So similarly our temple in Vrindaban must be managed expertly that everyone who comes is given caranamrta and prasadam of the Deity.

The translation of Dr. Radha Raman Gupta is not very good. We have sent Mr. Singh and Mr. Mitra for this purpose.

I accept Govinda das Brahmacari for second initiation. Enclosed is his sacred thread duly chanted on by me. Now you have to hold a fire ceremony and let him hear the gayatri mantra from the tape recording in his right ear. If he is going to engage in the Deity's service, he must be taught to be very clean. Brahmin means to be clean-internally by chanting the Lord's glories and externally by regular bathing.

I hope this will meet you in the best of health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My Dear Dina Dayala,

Please accept my blessings. I beg to thank you for your letter dated December 12, 1975, giving a report of your preaching in Greece.

Lord Caitanya Mahaprabhu desires that in every city, town and village Krishna Consciousness should be preached. Therefore I left Vrindaban to come to your country. And now you have left your country also on behalf of Sri Caitanya Mahaprabhu, therefore your life is glorious. May Krishna bless you that your preaching attempt becomes successful. As soon as a devotee endeavors to serve Krishna, Krishna immediately wants to help that devotee. Krishna will certainly protect and maintain you. You are an intelligent sincere boy so try to introduce this movement to the people of Greece. Everyone in the world is suffering. Despite so many attempts on the parts of the governments and planning commissions of the world, still the suffering continues. People are thinking that by more education, hospitals, food and so many other things they will become happy. But we actually have the ingredient which alone can make them satisfied-Krishna Consciousness. So please deliver Krishna to everyone you meet; instruct them in the philosophy of Bhagavad-gita As It Is. If it is possible to get our books translated into Greek that will be very helpful for your preaching. In the meantime as you are preaching to intelligent persons such as the lawyer you met, they will be able to read English, so you can give them our English books.

I cannot read the news clipping you have sent. But as you say Lord Krishna's name appears four times, then it is very nice. My Guru Maharaja always see if Krishna's name or Lord Caitanya's name appeared in someone's writing and would appreciate the writing for this alone.

Yes, your idea to teach English by having the students read KRSNA book is very good. When you were in Mayapur you saw Bhavananda Maharaja doing this and it was very successful. Simply repeat this. Have them also chant the Hare Krishna mantra and as far as you can arrange, feed them nice Krishna prasadam. That is our entire process. I started this movement just in this way. It is not very difficult. The important thing is that you behave nicely, chant all your rounds and follow strictly the regulative principles. Example is better than precept. These spiritual practices are our actual strength.

I hope this meets you well.

My dear Bhakta Ralph

Please accept my blessings. I beg to thank you letter, undated.

There is no reason why you cannot associate with any of my disciples, providing that they adhere to our principles. As long as Siddha Svarupa Maharaja and Tusta Krishna Maharaja act as sannyasis, ie. dress in dhoti, keep shave headed with sikha, follow strictly the rules and regulations and preach from my books, I have no objection. Sometimes there will be a little misunderstanding between Godbrothers, that is even going on amongst liberated souls. What is important is that everyone must engage in Krishna's service under the direction of the spiritual master.

I hope this meets you well.

My dear Brahmananda,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 17th, 1975.

As you report that things have deteriorated in Africa, you can stay there if necessary. Your decision to send Dinanatha to join Tamala is a good idea. Tamala is here now. He says that before coming he telegrammed you to phone him but there was no response.

The first business is that the GBC must see to the management of their zones. Still, I require a permanent secretary. In addition, one GBC man may come and go.

Here we have been given a nice piece of land measuring nine acres. The local people are very enthusiastic and the plan is to construct a Radha Krishna Temple complex.

I hope this meets you in the best of health.

My Dear Brisakapi,

Please accept my blessings. I beg to thank you for your letter dated December 12th, 1976. I am very pleased that we have now got such a wonderful property in the nation's capitol, Washington, D.C. The photos show that there is good opportunity to develop it into a very important center, and since you say that it is in a most aristocratic location, it is certainly Krishna's mercy. If you can make arrangements for me to meet with the President, I shall surely go.

As far as your desire to have Sita Rama Deities, it is a good idea, but you should wait for some time. First see that you have sufficient brahmanas who are very well trained and qualified, then you can consider to install Sita, Rama, Laksmana, and Hanuman. They are the ideal King and it will be very suitable that They reign over the capitol of America. Now you have got Gaura Nitai Deities, so you can go ahead and get Prabhupada and Bhaktisiddhanta Deities immediately. Guru and Gauranga worship is standard for all our temples.

I am very much pleased to see how much you and all the devotees have increased sankirtana in the Washington area. This you should all make your main business. For a long time there was not so much book distribution done there, but now that you are all concentrating on it there will be no shortage of anything. It is wonderful how many big books you are able to distribute.

I accept John Weber as my initiated disciple. His new name is Ramasena das Brahmacari. See that he chants daily sixteen rounds and follows strictly the rules and regulations. Similarly, I accept Krsna Gopala das, Vardhanya das, Puspuvan das, Gabhira das, Ambujaksa das, and Megha devi dasi for second initiation. Now you must hold a fire ceremony. Enclosed are the sacred threads for the brahmanas. They should be allowed to hear the Gayatri mantra through the right ear from the tape recording. Brahmin means to be very clean-inside by chanting the Lord's glories and outside by regular bathing. Teach everyone by your personal example. Also you must see that the brahmanas are given sufficient time to read the books. Soon we shall be introducing the Bhakti-sastri examination which all brahmanas will be expected to pass. It will be based on Bhagavad-gita, N. O. D., Nectar of Instruction, Isopanisad, and the small paperback books like Easy Journey. A brahmana should be pandita.

I hope this meets you in the best of health.

My dear Madhu-dvisah Maharaja,

Please accept my blessings. I beg to thank you for your letter dated 10th December, 1976. I have noted the contents carefully.

Mr. Deoji Punja came to see me in Bombay. If any of the trustees are to be dropped, this has to be discussed between the trustees themselves. These are all important men and we should be careful lest they become offended. If I say something it will not look well. If some of the trustees are not abiding by the principles or not chanting 16 rounds, then they should be induced by the other trustees who are following, to step down. I think you can follow what I mean.

Now Upendra is waiting in Hawaii, so please direct him how he should proceed. I have also asked him to write Mr. Punja.

I hope this meets you in the best of health.

My dear Upendra,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 13rd December, 1975, and I have noted the contents.

Sri Deoji Punja came to see me in Bombay and he explained the whole situation, of how you missed him. Now you may write him and he has promised me that he will do the needful. Be determined and Krishna will surely help.

As to your question concerning whether relationships between devotees are eternal, the answer is ”yes.” This is confirmed by Sri Narottama dasa Thakura: ”cakhudana dilo yei, janme janme prabhu sei”, he is my Lord birth after birth. In this way you have to understand, by studying carefully the philosophy. We have got so many books now and I want all of my disciples to read them carefully. Soon we shall be instituting Bhakti-sastri examinations and all brahmanas will have to pass. So utilize whatever time you find to make a thorough study of my books. Then all your questions will be answered.

I hope this letter finds you in the best of health.

My dear Abhirama,

Please accept my blessings. I beg to thank you for your letter dated 8th December, 1975. I have replied your previous letter. I do not know why you have not received it.

I accept all the candidates for first initiation as my duly initiated disciples. Their spiritual names are:

Bhakta Wayne Melton-Visvavrksa dasa

Bhakta Michael Cremo-Drutakarma dasa

Bhakta Sunil Awatramani-Adridharana dasa

Bhakta Andrew Hooper-Srimaya dasa

Bhaktin Bernadette-Andharupa dasi

Bhaktin Antoinette-Harestanu dasi Now you must hold a fire ceremony. Everyone must vow to chant faithfully 16 rounds minimum a day and follow strictly the rules and regulations. This will insure spiritual strength.

They newly initiated brahmanas are Nandanacarya das, Raghunath Puri das, Langaganesh das, Janardana das, Trimalla Bhatta das, and Nartaka Gopala dasi. They should participate in the fire ceremony and afterward should hear the Gayatri mantra from the tape through the right ear. Brahmin means cleanliness-inside by chanting and externally by regular bathing. Teach them this, not only by precept but by your personal example.

Now you have got very excellent land, so develop it very nicely. Miami is a tropical climate, so it should be made very lush with fruit and flower trees. I was very glad to see how your temple is now amongst the big leaders of book distribution. This is a sure sign of spiritual strength, for where there is preaching there must be life. Please go on increasing more and more the book distribution. You are working in the right direction.

I hope this meets you and all the devotees at New Naimisaranya Forest in the best of health.

My dear Yasomatinandana,

Please accept my blessings. I beg to thank you for your letter dated 3rd January, 1976 and I have noted the contents carefully.

I have sent you a telegram reading as follows: "Gandhi asrama house useless Letter follows." As described by you, there are so many disadvantages of that building. Therefore, forget it. We are not at all interested in it. The entire structure would have to be dismantled.

The other house which you describe sounds very nice. You can accept the offer immediately and begin living there. You say they are prepared to give it for a good cause. What is more public welfare than Krishna Consciousness? To awaken everyone's original consciousness is the best public welfare in the whole world. So occupy this house and show some good work and in this way they may be induced to let us stay. Even if you can only stay for three months, what is the loss? You can always look for another place. Now people are seeing how genuine our movement is, they are coming forward to offer us so many places. We simply have to maintain our strict principles, keeping ourselves pure, Otherwise, there are so many bogus institutions doing business in the name of God and simply cheating the people. We have to be careful not to degenerate like these others. Our strength depends upon regular chanting the required 16 rounds and rigidly adhering to the regulative principles.

Regarding Dr. Ashok's address, my secretary shall be sending it to you by separate post.

Hoping this meets you in the best of health.

My dear Nitai,

Please accept my blessings. I beg to acknowledge receipt of your unsigned letter dated January 1, 1976.

Regarding the translators, I like the work of Nrsimha Vallabha Goswami best, and I want to settle up with him. I have already written Visvambhara in this regard. Sri Tripathi is after money, so we do not want him. Dr. Premlata Paliwal's translation is not bad. Later on we can decide on her. So far Dr. Radharamana Gupta is concerned, first let us have a Gurukula, then we shall see who will be the headmaster. We will consider about him later, but his translation was not very good.

Now beginning from this year's Mayapur festival the devotees will begin preparing for Bhakti-sastri examination. Therefore we require a guidebook for Deity worship, arcana-paddhati, based on Hari-bhakti-Vilasa. All brahmanas will be responsible to learn this book. I would like to have the manuscript ready as soon as possible, preferably my Gaura Purnima. So please work diligently for this. Pradyumna began this, but I do not know what he has done with his work.

I hope this finds you well.

Auckland, New Zealand

My dear Tusta Krishna Maharaja,

Please accept my blessings. I beg to thank you for your letter sent in September, which has only now reached me, having been redirected a number of times. I am very pleased to get your report.

Your home to home preaching is very good. The important thing is to make arrangements that they hear and chant. That will make your preaching successful. Once they begin chanting then automatically they will want to follow the rules and regulations, attend Arati, take Prasadam, etc.

Yes, try to encourage book distribution as much as possible. Books are the basis of our Movement. Whatever appreciation we are getting on account of our books, it is because we are following the path chalked out by exalted devotees. We are not writing something whimsical. So far devotees being hesitant to distribute books on account of pressure, sometimes pressure is required, especially when one is not so advanced. Of course it has to be applied properly, otherwise there may be some bad taste. But spontaneous service can only be expected from advanced devotees. Just like a child by pressure goes to school and is made to read. Then after some time he wants to read, even without pressure. We have all got experience of this. It is vaidhi bhakti-vaidhi means "must." Sometimes devotees are promised a plate of maha-prasadam for the biggest distributer. There is no harm. Actually one should try to serve Krishna to his or her full capacity without thought of reward-service is itself the reward. But this takes time to actually realize and until that platform is achieved some pressure or inducement is required.

I am glad to know that a restaurant has been started. In Hawaii you may have seen that the restaurant is very successful. Now that boy's money will be used properly. Instead of maintaining a slaughterhouse, he is paying for prasadam distribution. Very good. But we should not waste time encouraging vegetarianism as opposed to meat eating. We want to encourage prasadam taking and that is automatically vegetarian. The karmis are concerned for vegetarian-non-

Bhakti-sastri, Bhakti-vaibhava, Bhaktivedanta, and Bhakti-sarvabhauma. All our brahmanas and anyone wanting to become brahmana, will have to sit for examination once a year at Mayapur. They will be expected to know Bhagavad-gita, Nectar of Devotion, Nectar of Instruction, Sri Isopanisad, a book soon to be published on Deity worship, as well as all the small paperbacks. If they pass the examination they will be awarded Bhakti-sastri certificate. Sannyasis will be asked to sit for Bhakti-vaibhava examination which will include the first six cantos of Bhagavatam.

In our Vedic Universities we will not encourage anyone to be merely a bookworm. There must be life-rising early in the morning, attending mangala arati, taking prasadam, etc. The man who is studying will be brahmana, the farmer will be vaisya. In this way there will be divisions, but they are all one in service to Krishna.

I hope this meets you in the best of health.

My dear Pusta Krishna,

Please accept my blessings. I beg to thank you for your two letters dated December 23rd and 24th respectively.

I have just sent you a telegram: "Yes Purchase Mercedes." For so long there has been contemplation to buy this car. But where is the car? We are spending crores of Rupees to finish this Bombay construction, but whenever I arrive at the airport, I am picked up in a borrowed car. What kind of impression is it to the members that we always have to approach them to borrow their car? Please get it. But one thing is that I have heard that you are taking the money from the BBT to pay for it. There is one story that a guru went to his disciple's home and was greeted very elaborately. When he enquired how was it possible for his disciple to afford such nice arrangements, his disciple told him: every-belongs to you. Later the guru saw that he had no money left in his bank account and he could understand that his disciple had spent all of his money. So whether you are also making such arrangements? I do not want to spend the books fund money for such things. If you can not pay for it, then Tamala Krishna says he will pay Ramesvara who can send you the money.

Thank you for appreciating Sri Caitanya-caritamrta. There is no need to feel sad at the end of a chapter or a volume because there is always another chapter and another volume. There is no scarcity. You want more nectarine and the supply is also there. Those who are actually looking for spiritual culture will find immense wealth in Caitanya-caritamrta.

I hope this meets you in good health.

My Dear Svarupa Damodara,

Please accept my blessings. I beg to thank you for your letter dated December 26th, 1975, and I have noted the contents carefully.

Your plan to have the Bhaktivedanta Summer Institute in one of our farms is a very good idea. But you say that there is a chance that none of our farms will be suitable. Why not? Anyway, you will be discussing it at Mayapur at which time you should fix-up everything definitely.

I have read the aims and objects of the Institute and it is done very nicely. I am satisfied that you are properly understanding the philosophy. The analysis you have given in the section "What is the Bhaktivedanta Institute", regarding the scientists, technologists, and other so-called authorities is most accurate. According to Bhagavatam, they are all asses and cows, sa eva gokhara.

I have also suggested for the GBC's consideration, that we introduce a system of examinations for the devotees to take. Sometimes there is criticism that our men are not sufficiently learned, especially the brahmanas. Of course second initiation does not depend upon passing an examination. How one has moulded his life-chanting, attending arati, etc., these are essential. Still, brahmana means pandita. Therefore I am suggesting examinations. Bhakti-sastri-(for all brahmanas) based on Bhagavad-gita, Sri Isopanisad, Nectar of Devotion, Nectar of Instruction, and all the small paper backs. Bhakti-vaibhava-the above plus first six cantos of S.B. Bhaktivedanta-the above plus cantos 7-12 S.B. Bhakti-sarvabhauma-the above plus Caitanya-caritamrta. These titles can correspond to entrance, B.A., M.A., Ph.D. So just consider how to organize this Institute. At Mayapur we shall finalize everything.

Hoping this meets you well.

My dear Viswakarma,

Please accept my blessings. I beg to thank you for your undated letter.

Yes, it is the mercy of Krishna that we have got such an important building in Toronto. It is a top-most triumph. If you can fix up a neon sign always moving with the maha-mantra Hare Krsna Hare Krsna Krsna Krsna Hare Hare Hare Rama Hare Rama Rama Rama Hare Hare, that will be a great achievement. The sign can be on from evening to mid-night, that will be the proper utilization of such an ideal building and location. Christianity is now declining, therefore they are having to sell all their churches to us. Because they have got no clear idea of God, people are not satisfied with them. But we can explain what God is, so people are appreciating more and more our Movement. Now by Krishna's grace you have a beautiful Temple, use it to preach very vigorously. If you all strictly follow the principles and chant sixteen rounds, your spiritual strength will be insured, and our Movement will become increasingly prominent.

I accept the recommended devotees as my initiated disciples. Their spiritual names are:

Errol Lewis-Ugresa dasa

Craig Harper-Asuramarjara dasa

Subash Batra-SubhaVilasa dasa

Asha Batra-Ashalata dasi Now you have to hold a fire ceremony. Instruct everyone to faithfully chant 16 rounds and follow the regulative principles. Teach them by your personal example.

Please accept my blessings. I beg to thank you for your letter dated December 15th, 1975 and I have noted the contents carefully.

I was very glad to learn how our devotees are coming out victorious in the preaching to the university professors and students. Other groups have no philosophy nor do they have any idea of spiritual life, what to speak of living it. Our movement is authorized. Our books are based on the statements of the most exalted devotees. And if we follow strictly the guidelines for devotional service as they are given in the Nectar of Devotion and Nectar of Instruction, then no one can touch us. Our position is definitely due to our books, therefore I am always pressing on this point. All the groups are declining including the Christians. We are being harassed by the authorities and they are all Christians. Because they are losing ground, and we are increasing, they are trying to stop us. There is always this battle between the demons and the devotees, but the devotees always win because they are protected by Krishna.

It is good that you are again the President of the Vancouver temple. Of course the farm projects are important but more stress should be given to Sankirtana. We require so much money here in India. So Jayatirtha has said right. Whatever we are doing in India is from the BBT fund. Continue to go out on Sankirtana. Example is better than precept.

The harmonium may be played during bhajan if there is someone who can play melodiously. But it is not for kirtana and arati.

All of the devotees you have recommended I accept for initiation. Dharmarupa das, Subavrata dasi, Mahojjvala dasi, Sthanur das, Jagadadija das, Damagosh das and Kanti-mati should after holding a fire ceremony, be allowed to hear the Gayatri mantra through the right ear from the tape recording. They must always keep clean, internally by chanting the Lord's glories, and externally by regular bathing. In addition they should regularly study Bhagavad-gita, Nectar of Devotion, Nectar of Instruction, Isopanisad and all the paperbacks because soon we shall be holding examinations based on these books for the brahmanas. Those who pass will be given the title Bhakti-sastri. Gail Bergeron's spiritual name is Paratpara dasi. She that she chants minimum 16 rounds daily and strictly follows the regulative principles.

I hope this meets you and all the devotees there well.

Letter to: Kirtiraja

-

Bombay 11 January, 1976

76-01-11

Taunus, West Germany

My dear Kirtiraja,

Please accept my blessings. I beg to thank you for your letter dated 3rd January, 1976, giving a report of your preaching in Poland. I also received your letter dated December 7th, 1975 and replied it.

Yes, you should get my books translated into Polish. Wherever our books are being distributed, our movement is established on a firm basis. Therefore I came to your country with books. So try to get the books translated.

You ask what you should do about your wife and child. What can I advise if your wife doesn't want to take inconvenience. Preaching means some inconvenience. There is no reason why you have to be settled in one place. The actual education of a child doesn't begin until five years. Before that the child is free. Thereafter, the child may be sent to Gurukula in Dallas. This is the Vedic system.

The most important aspect of our preaching is Kirtana. Induce the people to chant, that is the only thing. Then everything else will follow. The goal is to make devotees and books; both are required. Distributing the books will make devotees. To make a devotee means to make someone purified. Reading the books will purify the intelligence. A purified heart and mind means Krishna Consciousness.

Don't try to become big very fast. That is not possible. Go slowly.

My advise is that you and your wife should preach together. But your wife doesn't like this so what can I do?

Hoping this meets you in the best of health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

New York

My dear Rupanuga,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 26th, 1975, and I have noted the contents.

The bombastic distribution of Krsna Trilogies in New York is wonderful. I have read the report given in the Sankirtana Newsletter. But one thing is whether they have collected enough to cover all the costs. I have heard that despite all this distribution, now there is a big debt to the Book Fund. The GBC has to manage so expertly that there will not be debts. This debt to the Book Fund must be cleared immediately, if possible by the Mayapur meeting. Now we require so much money for the Temple projects in India, but if the Temples do not pay their book bills from where will I get the money?

Svarupa Damodara has written me about the Bhaktivedanta Summer Institute. It is a very good idea. If possible try to accommodate it on one of the farms we already have. To buy another farm simply for this purpose is not very practical. The Institute should not only stress book study but there must be equal time given to kirtana, arati, prasadam, etc. There must be spiritual life, then book study will have meaning.

Many people have mentioned the nice prasadam distribution program in our New York Temple. I have heard also that on Sundays there are 500 people attending. So there is tremendous scope for preaching. Now this building must be organized very expertly. I want to come in April or May, but whether my quarters are ready or not?

In the six day book distribution, Eastern zone was first. This is our most important work. All the leaders should tax their brains for increasing the sales of our books. I have always said that if we simply rely on book distribution all our needs will be met.

We shall never use this artificial fertilizer on our farms. It is forbidden in the sastras. If you plant easily grown crops once in the year, then the earth will not become exhausted. Don't overuse the land.

I accept Bhakta John as my disciple and also Padmamalini dasi for second initiation. His name is Amara das. Now hold a fire ceremony. She may be allowed to hear the mantra through the right ear from the tape. Instruct them both on the meaning of first and second initiation respectively.

I hope this meets you well.

Los Angeles

My dear Ramesvara,

Please accept my blessings. I beg to thank you for your letters dated December 18th and December 25th respectively.

The quote book, ”The Krishna Consciousness Movement is Authorized”, is very important. From each city find out important persons names and post it. You can send it to important members of the Government, businessmen, entertainers, sportsmen, etc. Another device is that you can address it to ”Any Respectable Gentleman, Post Office . . ., City . . ., State . . .”. The postman will then deliver it to some respectable gentleman. Everyone who gets it will think: ”I am a most respectable gentleman because he has give it to me.” The best thing is to find out the customers list to some big magazine like ”Time” or ”Life”, and post it to them. I think the post office can give concession rate for huge numbers of postings. Yes, go on adding any new important quotes in the reprinting.

Regarding the improvements of gold stamping and gold guilding on the Bhagavatams, I have already advised Radhavallabha Prabhu. Simply to make fashionable and increase the price may hamper the sales. Rather decrease the price.

That so many people are purchasing our literature in Los Angeles indicated that it is being advertised: Oh, I have got a very nice book. Then their acquaintances want the book also. The books distribution in Los Angeles during the six day period is transcendental samadhi. They are working in trance, not on the material platform. No common man can work so hard, it is not possible. Working without sleep means no death. Sleeping is dead condition. ”Jiv jago, jiva jago, gauracanda bole, kota nidra yao maya-pisacira kole.” Your book distribution is really intoxication.

Please thank Jagannatha suta for the 10 copies of BTG. Thank you for printing the photo of the Mauritius meeting.

I hope this meets you in the best of health.

Dear Ramesvara Prabhu,

Please accept my humble obeisances.

In regard to Bhargava Prabhu, I discussed with Prabhupada and His Divine Grace asked me to write you. Bhargava is spending money of the BBT frivolously. He is taking and spending more than he is supposed to. Unless he gives very strict account of how he spends, he should be recalled. All money is collected under such difficulty, it should be spent only for Krsna. Srila Prabhupada said he was surprised to see how this boy comes everywhere he goes. Please do the needful.

Also, we received a letter from Ranadhira dasa regarding the request of Dr. Shyam Sundar das Brahmachari for complimentary subscription to BTG. Prabhupada said we should not correspond with him and not reply.

Also please find enclosed a letter with insufficient address which we therefore cannot reply.

Why Saurabha should be consulted for Temple functioning and maintenance? He cannot give you any idea for these things. He is busy with other matters.

Dramas are alright if you can perform them nicely. Even if you don’t speak them in English, they can be rendered into Hindi on the microphone while the drama goes on. But the puppet shows should be stopped. It is nonsense.

What are those Bengali dramas that Nitai is working on? He should work on arcana-paddhati, not divert his attention here and there. He should make Hari-bhakti-Vilasa into short cut, not more than twenty pages. He can consult Nrsimha Vallabha Goswami for help in this matter. This should be his first consideration now.

I hope this meets you well.

Our movement is so large it requires expert management and strong vigilence. Now you are finding out so many things were mismanaged, but why didn't you find out before? What is the use of complaining now? It is your fault that you remained absent for so long. The GBC's first business is to manage their zones. You said you were training Cyavana. Anyway, just try to mend things and restore it to its original position.

The $1900 payment should be used half for Gurukula and half for the Temple.

Regarding Yamuna and Dinatarine, they want to live independently, that is the defect. A woman cannot live independent. According the the Vedic culture a woman is always to be protected by a man. Why they should purchase a house? We already have Los Angeles. If they want they can have a separate asrama supported independently of ISKCON. Every woman in America has money, so why do they want support? No, the BBT cannot give them loan. You may check that they are chanting and following the rules but do not get involved with their management. So far your suggestion that they sew clothes for the sannyasis Deities it is not possible. Sannyasis may have no connection with women.

Letter to: Sri K. Raghupati Rao

-

Calcutta 13 January, 1976

Sri K. Raghupati Rao 5 Raja Annamali Road, Madras 600084

Dear Sri Rao,

Please accept my blessings. I beg to thank you for your letter dated 5th January, 1976.

You say that there is some contradiction in the Bhagavad-gita, that is your defective understanding. The direct meaning of the 15th Chapter 7th verse is that every living entity is the eternal part and parcel of Krishna. How can you think of contradiction in the Bhagavad-gita? Krishna is not an ordinary human being. How can you think that Krishna is contradicting Himself in His own statements? It is your concoction. The jiva is jivatma and Krishna is paramatma. Where is the contradiction? Why do you manufacture ”iva”? That is the defect of Mayavadi philosophy. They concoct ideas.

Yes, Krishna can enter into anything. The body is also His energy. ”Bhumir apo 'nalo vayuh” [Bg. 7.4]. And in Srimad-Bhagavatam in the prayers of Queen Kunti, Krishna is described ”antar-bahih”, within and without. In the Brahma Samhita it is stated by Lord Brahma about Krishna: ”andantara-stha-paramanu-cayantara-stam”, He is present in His fullness in every one of the atoms.

Where are the words ”iva” and ”sadrsa”? You cannot rectify Bhagavad-gita with new words of Sankara. And even if you take sadrsa it can be taken to mean qualititative. ”Nityo nityanam cetanas' cetananam”, the Supreme Absolute is the supreme eternal being amongst all other eternal beings. This is sadrsa, not eternal in quantity, just in quality. Krishna never falls into Maya. Therefore His name is Acyuta. But the living entities can fall into Maya so how can they be sadrsa in all respects? If you take gold and a little fraction of gold, the quality is the same. Only the quantity is changed. This is common sense.

There is no question of ”breaking” as you have mentioned. The jiva is eternal, sanatan. Just like the sun and the sunshine. The sun is a combination of bright molecules and both are eternally existing. Similarly, Krishna and His qualitative fragmental parts are also eternal. Therefore the jiva is explained in the Bhagavad-gita as acchedyah (2:24) so how can it be broken? It is eternally existing as vibhu and anu. Svarupamsa is not jiva, it is Visnu Tattva. Visnu tattva is known as svansa and the jiva is known as Vibhinamsa.

Letter to: Yamuna, Dinatarine

Calcutta 13 January, 1976

76-01-13

My Dear Yamuna and Dinatarine,

Please accept my blessings. I beg to thank you for your letter dated December 24th, 1976.

I am very pleased to see the nice photos of your Deities Radha Vanebehari. The singasana has also come out very nicely.

You can attract the fair sex community. Most of them are frustrated being without any home or husband. If you can organize all these girls they will get a transcendental engagement and may not be allured to the frustration of life. Your engagement should be chanting and worship of the Deity Jiva Goswami advises that in the Kali-yuga sankirtana is the principle worship. Even if one chants many mantras it must be preceded by glorious sankirtana. Sankirtana is the maha-mantra.

Yes, you are right, women are generally after sense gratification. That is the disease. Chant 24 hours a day and don't dress nicely to attract men. It is better that you don't make a large program. Remain a humble program. In bhakti there is no grotesque program. A humble program is better. We are doing all these grotesque programs to allure the masses. My Guru Maharaja used to say that no one hears from a person coming from a humble, simple life. You remain always very humble.

So far as giving loans, I think it won't be possible because in India we require a huge amount of money for Bombay and Mayapur. We also have to build nice Temples at Kuruksetra and Jagannatha Puri. The Americans are accused of being C.I.A., so counteract this. We want to prove how Americans have constructed very large temples. Certainly it is not for C.I.A. propaganda.

Sita Devi, Mother Laksmi, wife of Lord Ramacandra, went to live with Valmiki Muni in a cottage. Although she was a King's daughter and a King's wife, she preferred to live very humbly in the cottage of Valmiki Muni with two sons in the absence of Ramacandra. That should be the ideal example. Women when not with husband must live very very humbly and simple life.

I hope this meets you well.

-

Mayapur 18 January, 1976

76-01-18

Sweden

My dear Dvarakesa,

Please accept my blessings. I beg to thank you for your letter dated Narayana 21.

You have asked how you can thank me. Whether you thank me or not, if you understand the importance of this Krishna Consciousness Movement, that is my success. The whole world is thinking in the bodily conception of life and thus remaining like animals. The animals cannot be happy but people want to keep themselves like animals. For peace they are barking in the United Nations. Croaking toads who think they are making a big conference, and then one day the snake of death comes and swallows them up.

If there is possibility to preach amongst the communists, you must do it immediately. The intelligent communist people will very easily understand our philosophy. We can convince them on the basis of samah sarvesu bhutesu, a Krishna conscious person is equally disposed to every living entity (B.G. 18:54). You become a communist and make the present imperfect idea of communism perfect. The idea of the communist philosophy is that the state should be benefited. But the state being imperfect, the living entities other than the human beings cannot derive any profit. It is therefore no better than the capitalists. For the benefit of the human beings, the capitalist kills the poor animals. Similarly, the communist does the same thing. Where is the difference? Perfect communism is in the Srimad-Bhagavatam wherein it is stated that you feel for the poor animals as well as the human beings. Srimad-Bhagavatam instructs that even if there is a snake or lizard in the house, it is the duty of the householder to see that they are also eating, not starving. So you have to begin your preaching with such broader idea of communism.

So this is a good wish for Krishna's service. If it is possible take immediate opportunity for it. So far as coming out of Hungary once you enter, if you can preach what is the need of coming out?

Hoping this meets you in the best of health.

Bhakta Mark-Parivadi dasa

Bhaktin Sue-Brahmapatni dasi All of them must agree to faithfully chant 16 rounds minimum daily and rigidly abide by the four regulative principles.

I accept Sriman Ram das and Sriman Dayasara das for second initiation. Their sacred threads are duly chanted on and are enclosed. Brahmin means to be clean-inside by always chanting the Lord's glories, and outside by regular bathing. Brahmin also means pandita, so they must be able to support their preaching by quoting sastric references. Particularly, they should study Bhagavad-gita, Sri Isopanisad, Nectar of Devotion and Nectar of Instruction as well as all the small paperbacks. There will be a yearly examination for all Brahmins based upon these books.

Now you must hold a fire ceremony. Afterwards, the brahmanas may hear the Gayatri mantra through the right ear from the tape recording. Teach everyone to follow the principles by your personal example.

Hyderabad

My dear Mahamsa,

Please accept my blessings. I have already informed you what is our purpose in the matter of the Nellore establishment. The ladies must be clearly informed that we are not at all interested to be dictated by them. We cannot construct a meditation hall with Sarasvati and Ganesa or create a library with hodgepodge books. We can simply have our Radha Krishna Temple with facilities for the people in general to study our philosophy joining us in our Krishna Consciousness Movement and as we are doing in our other centres we shall act accordingly.

If they refuse to give us in so-called charity the whole land then we can purchase the vacant land at the price mentioned in the document and because we have already installed the foundation stone, we do not wish to go back. We shall construct the Temple and Residential Quarters as we see fit. But we cannot follow their dictation. The idea is that the land, both vacant and occupied, must be given in a real charitable mentality, not to take advantage of our ability and get a temple and then create some trouble. This is not at all possible. We are also prepared to purchase the main land with garden and building by paying the the fixed price. If they are not interested in selling, we can accept charity. But in either case we can allow the two sisters to live in one portion of the building as devotees.

On these grounds you should make a document and do the needful.

Hoping this meets you well.

76-01-18

Los Angeles

My dear Ramesvara,

Please accept my blessings. I beg to thank you for your sending the monthly BBT newsletter. The results for December and for 1975 are wonderful.

In the material world competition one thinks my competitor can do so much, how can I bring him down? In the spiritual world there is appreciation: he has done so nicely, I could not do so well. Just like in the material world there is attraction between men and women and this attraction is stronger than anything else. In the spiritual world there is also beautiful men and beautiful women and there is attraction but this attraction is not so strong as the attraction for chanting the Lord's glories.

The results show that there is no limit to our book distribution. Our books are qualified to be distributed unlimitedly. We are not fiction writers. It is a fact that no expert booksalesmen can compete with our men. The Librarian has noted the difference between our men and other publisher's men. We are working for heart and soul, not for money. Such expert salesmen would have to be paid at least $1000 per month. That means if the had as many men as our Library Party they would have to pay at least $15,000 per month.

You are charging too much for the "Krishna Conscious Movement is Authorized". It should not cost the Temples more than 10 cents or whatever the cost price is. This is our advertisement and is meant for mass distribution. I have already suggested to you how to do this.

The Nectar of Instruction is also over-priced, in comparison with other books of its size. Print at least 100,000 and charge the appropriate price according to the other books.

Hoping this meets you in good health.

From the December ratings there appears over $800,000 was received. There should be $400,000 for construction.

My dear Dr. Wolf,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 17th December, 1975 and also your most recent letter, undated, both with enclosures.

Karmis are considered like asses because they are working so hard day and night without profit. The Bhagavad-gita states: antavat tu phalam tesam/ tad bhavaty alpa medhasam [Bg. 7.23]. "Men of small intelligence worship the demigods, and their fruits are limited and temporary." The karmis benefits are temporary and those who are seeking after such benefits are "mudhas." Srila Vishvanath Cakravarti Thakura has identified mudhas with karmis. So we are servants of the acharya, therefore we also cannot give any good position to the karmis. According to Narottama das Thakura: karma-kanda jnana kanda kevala visera bhanda. "The paths of karma kanda and jnana kanda are just like pots of strong poison". Therefore according to the principles, of bhakti, one has to avoid the karmis and jnanis.

Regarding your letter to me send to Nairobi, I have handed it over to Svarupa Damodara, so I do not possess it.

I hope this meets you well.

Letter to: Jayatirtha

-

Mayapur 20 January, 1976

76-01-20

My Dear Jayatirtha;

Please accept my blessings. Regarding the ISKCON Gurukula presently situated in Dallas-The Gurukula must be based on the principle of renunciation; vairagya vidya nija bhakti yogam [Cc. Madhya 6.254]. Bhakti is based on the principle of the renunciation of material desires beginning from the earliest age; kaumaram acaret prajna dharman bhagavatan iha [SB 7.6.1]. From the very beginning, a boy must be trained to perform devotional service to the Supreme Personality of Godhead, and not to be attached as the fruitive workers, the karmis, to the so-called fallible soldiers; dehapatya kalatradisu atma-sainyesu asatsv api tesam prammato nidhanam pasyanapi na pasyati [SB 2.1.4]. The karmis are attached too much to their bodies, children and wives, who are like fallible fighting soldiers who must ultimately be destroyed. Although they are sufficiently experienced, they still cannot see this.

Therefore our young men must be trained at the earliest age to not be attached to so many things like the home, family, friendship, society, and nation. To train the innocent boy to be a sense gratifier at the early age when the child is actually happy in any circumstance is the greatest violence. Therefore; brahmacari gurukulae vasan danto guror hitam [SB 7.12.1]. The brahmacari lives at the place of the spiritual master and works for the benefit of the spiritual master by begging for his maintenance, by cleaning, learning the principles of Krsna consciousness, and engaging in the process of bhagavata dharma, whereby his life will have a firm, sane foundation with which he can overcome the forces of maya by strong training in the beginning.

The karmis cannot accept this because they are too much attached to their bodies and cannot tolerate any austerities. Since they are too attached to their children they are even more insistent that the child be drowned in bodily consciousness so that he may avoid all types of austerities and enjoy life to the fullest, thereby going to hell at the earliest age; mahat sevam dvares ahur vimuktes tamo-dvaram yosita sangisangam []. Those who associate with the mahatmas through service to them become eligible for liberation whereas those who are associating with woman or those who are too attached to woman are paving their way to hell. Therefore the school systems require so many codes and regulations so the children will not feel any inconvenience. The training is geared to producing cats and dogs who will feel quite at home in a society of sense gratification.

Therefore how can they accept our school system which teaches that the young men must undergo tapasya to become purified? Tapo divyam putraka yena sattvam suddhyed yasmad brahma saukhyam tv anantam [SB 5.5.1]. They will never accept that one must undergo austerities to break the influence of the modes of material nature upon the living entity in order that he may experience the transcendental bliss on the platform of pure goodness. Therefore they see our school as a threat and a cruel punishment to the children. If we were to run our school as it was actually to be run, they would close it down, and factually they will place more and more codes and restrictions as the school develops to water down the process until it becomes unrecognizable and useless.

We cannot be forced to follow the standards of the mlecchas and yavanas. One may build so many buildings to follow this and that code, but the basic principle of such codes is sense gratification which we are against. There are so many thousands of buildings in the west which are filled with illegalities, but how is it that we must come to a perfect standard or be closed down? This is not the standard of law, but prosecution. If in illusion we think that we must spend money to come to that standard what guarantee is there that they will not simply find another standard for us to follow which will cause so much more trouble and cost so much more money and ultimately they will pass some law making the gurukula illegal.

Therefore the school should be moved to India, specifically to our new gurukula project in Vrindaban, where the facility will be just to our needs and the needs of the brahmacari to develop spiritually because it is based on authentic scripture. To live in Vrindaban is the highest perfection and to grow up in Vrindaban the greatest fortune. Who can compare Vrindaban to the nasty western culture? Even to live in Mathura-mandala for a fortnight guarantees one liberation. In Vrindaban no one will place restrictions on the school and it will be encouraged by the government. The people will see such a school and the example will encourage thousands to send their children there to be trained as human beings and devotees. The cost for maintaining such a place is minimal and when compared with the exchange rate in dollars, a very substantial savings. Some have objected to the cost of transport to India for the child, but children ride at a very reduced rate and require no visa. The one way fare can be arranged at a very small cost which will be made up in no time. For the child it costs $100 per month in the USA, but in India the cost will be a fraction of that amount. The average Indian makes about Rs. 400 per month ($50) and supports an entire family nicely. The savings will more than compensate for the ticket and maintenance, and once in a year, during the hot season of April, May and June, the child may return to the parents. Certainly the government will give cheap rates on a return ticket once they find out about the program. This is much cheaper than altering the present building or building a new one to meet the so-called codes.

The atmosphere in Vrindaban is beyond compare and the teachers are far more experienced as we have many men willing to work there who are retired and qualified professors, what to speak of our own scholars who are living in Vrindaban and starting this gurukula project. Many people will contribute to expand this program and the Krishna-Balarama Mandir is the finest in the world. All the devotees in Vrindaban, especially the children are in fine health and their needs are being guaranteed by the members. They can even beg from door to door and collect enough to feed themselves nicely. This is the system. This is the required training. But if this is done in America, they will accuse us of child cruelty although this is actually the saving grace of the child and he becomes very blissful. Therefore in all ways it is obvious that the best place to have this gurukula is in Vrindaban and this should be done before the US Government starts to cause a disturbance which will harm us, and before we have to waste large sums of money on a risky endeavor which may turn out to be a complete failure.

I hope this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

Please accept my blessings. I beg to acknowledge receipt of your letter dated 17th January, 1976.

Madhudvisa Swami has come here from Australia and as he is free I am sending him to New York. I have discussed with him how I want my rooms to be. As things have generally not been so well managed there I have asked him to be ad-hoc President of New York Temple until the coming GBC meeting.

Dear Sir,

Please accept my greetings. It is understood from His Holiness Babaji Advaitanandan das Bhaktibhusan that some respectable gentlemen, headed by your Honor, have selected me as the President of Sri Krishna Caitanya Sangeet College, Bhaktivedyalaya Bisramtala, at Serampur. I wish to speak in detail about this institution. For this purpose I should like to invite you on Sunday, 1st February, 1976, or if this is not convenient, then on such day as is convenient to you. I am here in Mayapur and it will be a great pleasure for me to see you along with your associates. I invite you also to respect noon-day Prasadam with me. Please confirm through Babaji and we shall arrange to receive you.

My dear Jagadisa,

Please accept my blessings. I am in due receipt of your letter dated January 3rd, 1976 and I have noted the contents carefully. Jayatirtha has also written me about the future of Gurukula. He was suggesting to have a Gurukula in Santa Cruz. I have replied his letter and am enclosing a copy for you. It is my opinion that considering all points, we will do best to move Gurukula to India. In the letter I have explained everything fully.

Another thing, is that you are expecting a BBT loan of $150,000. but the BBT has already taken responsibility for Bombay, Kuruksetra, Mayapur, so this money has to go to India. Therefore, I do not think the BBT can give this loan. Actually it is the responsibility of the parents to maintain Gurukula. By taxing the Temples or taking loan from the BBT the parents are being allowed to avoid their responsibility. Before having a child the parents should see whether they shall be able to pay for their child's education. The GBC should make an injunction that if they beget children, then whatever the expenses are for supporting Gurukula they must pay for it. In another letter to Jayatirtha I have suggested how the parents can earn money for their children's support. So you can discuss everything together and do the needful.

Hoping this meets you well.

Mayapur 22 January, 1976

Berkeley

My dear Jayatirtha,

Please accept my blessings. I beg to thank you for your letter dated December 12th, 1975 reporting on your Zone for November, which arrived late due to having been redirected a number of times.

Your Zone's book distribution is most commendable. It is to your credit as a good manager that there are now no longer any debts to the Book Fund from the Western USA Temples. Now you will have to meet a very stubborn competitor, Madhudvisa Swami, who I have sent to New York to organize the new building and preaching activities.

All of the leaders should study my books books very carefully, since now everyone will have to appear for the examination. But I don't get any time to go into seclusion. My Guru Maharaja also did not approve of seclusion. He used to say: "Dusta mana, tumi kisera Vaisnava? Pratisthara tare, nirjanera ghare, tava hari-nama kevala kaitava." My dear mind, what kind of Vaisnava are you? Simply for cheap adoration you sit in a solitary place and pretend to chant the Hare Krishna maha-mantra, but this is all cheating.

Many times in the past it has proven difficult to get the support of the Indians in San Francisco. Because Citsukhananda said there were many men who were willing to help I was encouraging. Now abandon it. Citsukhananda should join Berkeley instead of wasting time. The Berkeley project is actually important. Your idea for establishing a center in San Jose is nice, so you may bring it up before the GBC at Mayapur. As you are finding a good preaching field at the colleges in Berkeley, you will find all places similarly receptive. Human psychology is the same-simply you have concentrated on Berkeley thus far. Now make this propaganda very vigorously every where.

Regarding the donation of $6000 for distribution of books, you can send one or two copies to very distinguished men. You can address them: Sir, kindly have a glance over these books. If you like you can keep them and send the price or if not you can return them at our cost. In this way you can write them. But don't give them freely. There should be either the option to pay or return. Neither you should give the books to the Librarians of public and hospital libraries, it will not be fruitful. They have their managing committee's, so approach these men individually to purchase books for the libraries.

Regarding your question about having a Gurukula in Santa Cruz, I have replied this in a separate letter enclosed, a copy of which I have also sent to Jagadisa. You may consider carefully the points and do the needful.

You have suggested that some men are best engaged in doing business. I agree. All grhasthas who are interested in doing business should do so in full swing. Yat karosi yad asnasi, yaj juhosi dadasi yat/ yat tapasyasi kaunteya tat kurusvamad arpanam [Bg. 9.27]. Let this be the guiding principle. So let all the grhasthas who wish to, execute business full-fledgedly in the USA and in this way support Gurukula. Business must be done by the grhasthas, not by the sannyasis or brahmacaris. Neither the sannyasis or brahmacaris can be expected to support Gurukula. The parents must take responsibility for their children, otherwise they should not have children. It is the duty of the individual parents. I am not in favor of taxing the Temples. The parents must pay for the maintenance of their children. Neither can the BBT be expected to give any loans. Now the BBT 50% for construction is pledged to the projects in India-Bombay, Kuruksetra, Mayapur. The profits from the businesses should first go to support Gurukula and balance may be given for the local Temple's maintenance. Grhasthas can do business. It is best if the Temple Presidents are either sannyasis or brahmacaris. If the grhasthas want to do book distribution, they should be given a commission of 5 to 10% of which part must go to Gurukula. For any others who are engaged in important Society projects, they must get something for maintaining their children at Gurukula. So far as Prasadam and residence, they are already getting that free. But sometimes, grhasthas make their own arrangement for cooking. For that we can give no expenditure. Just try to improve the Prasadam system so nicely that one will not want any other arrangement. Another thing, is that the grhasthas may be encouraged to do agriculture. In the Indian villages like in Vrindaban, they get enough ghee for their personal use, and sufficient excess to be sold to the merchants, who then also get some money. Cow protection means good food and good trade. So I can give you suggestions how to manage everything, but it is up to the GBC to practically execute all these points.

You cannot survive without my mercy and I cannot survive without your mercy. It is reciprocal. This mutual dependence is based on love-Krishna Consciousness.

I hope this meets you well.

My Dear Satsvarupa,

Please accept my blessings. I beg to thank you for your Zonal report for December dated January 13rd, 1976. Your November report was also received by me and I have replied it on the 5th January. By now you should have received it.

I am always very much pleased with our Library Party's preaching. Their work is most important. Ramesvara has sent me some recent review from Professors and there is no doubt that these intelligent men are deriving benefit from reading my books. These reviews make me very encouraged. also, the Krishna Consciousness Movement is Authorized has come out very nicely. The review or appreciation of your lecture sent by the professor shows that they are appreciating how nicely our men can present this perfect philosophy of Krishna Consciousness. Go on vigorously expanding this preaching. You are proceeding in the right way. It is good that now you have arranged for independent support of the party.

The church proposal in Houston is a good offer. I think somehow or other the BBT must give you loan for it is a worthy cause. The photographs of the St. Louis farm appear very nice. There seems to be ample grazing ground. In India you can't get such nice land, but there is enough good land in America. Just introduce this new type of Krishna Conscious civilization and the whole world will thank you.

I have seen that the Temples in your zone are now leaders in Book Distribution in their respective categories. Particularly Miami, Gainesville, and Houston. I am glad to see that Abhirama is doing well. He is a very intelligent boy. Now he is concentrating on book distribution so there will be no difficulty. This should be our first business. Temple opening is secondary. Yes, I approve Amarendra's program to have the men go out on book distribution and distribute the feast at the Temple instead of at the college. Regarding closing the Phoenix center, since there is no Deity installed, it can be closed if you decide to do so.

I hope this meets you well.

Dear Sri Chaudhuri ji,

Please accept my greetings. I was very pleased to meet you at the airport in New Delhi. I think it was ordained by Lord Krishna because I need your help in the service of Lord Krishna.

The bearer of this letter is the secretary at our Mayapur establishment, and he will explain to you about our activities there. I am presently at Mayapur and it would be a great satisfaction if you could kindly visit our establishment and see how things are being conducted. We are developing a plan to be self-sufficient. Namely, to produce our food grains, maintain cows, for drinking milk, and weave cloth for garments. We have plans for erecting a magnificent international city based on this Vedic culture. For this purpose we want a considerable tract of land, and I therefore wish that the Government may acquire some land for us so that we may develop our plan. I hope you can help me in this connection. I would be very glad if you could come to Mayapur, see our activities, take noon-day Prasadam and discuss with me.

My dear Gopala Krishna,

Please accept my blessings. I beg to acknowledge receipt of your two letters dated 13rd and 20th January, 1976 respectively, and I have noted the contents.

You say my apartment will be ready by mid-March but without an elevator, how can I use it? Here in Mayapur we have begun construction on a 67 room Residential Quarters along the Northern boundary of the land to be ready for use by Gaura Purnima. I have asked Tamala Krishna to send his Radha Damodara party's collections to pay for it. Caitya-guru is engaged to help oversee the construction.

I have already sent by separate post the authorization for the Rs. 22,143/49p to be transferred to the B. of Hyderabad a/c.

Regarding the Government trying to acquire our land, I have already told you to finish the Temple immediately. So far paying for Bombay construction, what is the wrong if I issue cheques as per your advice? Bank of America should send credit advices whenever they receive funds. You make a photocopy of the advice and against it I will send cheques. ECC only has to paid after 30 days, so what is the hurry?

Haridasa told me he was going to Bombay. If he can't be trusted then let him work in Bombay under supervision.

You say you have enclosed copies of the land deeds from Nellore, but I did not receive them.

I hope this meets you well.

Mayapur 23 January, 1976

Los Angeles

My dear Ramesvara,

Please accept my blessings. Last year at the Mayapur meeting it was decided to build another residential building. Now the festival is fast approaching, so construction has begun today on a very long residential quarters. Due to urgency, I have asked Tamala Krishna to supply funds immediately. So whatever money his Party sends should be credited against their book bill. Also in the ratings it should be shown for book distribution, not as a Mayapur-Vrindaban Fund donation. They are sending the money as usual, simply I have asked them to send it directly to India.

I have received a letter from Pusta Krishna Swami. He has already paid for the Mercedes from his own money and he intends paying his debt to the Book Fund entirely in the future. Considering this, there is no need for Radha Damodara Party to pay for the car. Their money is already engaged for construction.

Another point is that BBT cannot give loan to Dallas for Gurukula construction. That is not possible. Jagadisa Prabhu is expecting a loan of $150,000 from the BBT. So I have told him that the money is already needed for construction here in India, in Bombay, Kuruksetra, and Mayapur. The best thing is that Gurukula should be moved to India.

Somehow or other arrange to give a loan for $40,000 for a new Temple in Houston. It is a worthy cause.

I hope this meets you well.

Please continue to work on the Arcana-paddhati and finish it. We can not be sure that Pradyumna will come in time. Also, you can go on translating the drama of Girish Ghosh. Everyone here has appreciated it. As you translate the scenes, there should be people rehearsing it.

In the syllabus of Nrsimha Vallabha Goswami, the Sankhya-karika must be by Kapiladeva, Devahuti putra. The other is atheistic. There are two sankhyas-theistic and atheistic. The Sanskrit in the Visnu Purana is even easier than in Raghu-vamsa. Yes, Bhagavad-gita As It Is should be studied from the beginning. There must be study from my books also. Whatever the syllabus you make up, the point is to somehow or other get recognition. The syllabus can always be changed later on. If we can get equivalency for our degrees that will be even better than affiliation. But whichever is possible that you should get. It is very important because as soon as we are recognized then our students will be able to come very easily.

Sri Tikandas J. Batra Bombay

Dear Sri Batraji,

Please accept my greetings. I beg to thank you for your nice letter dated January 20th, 1976.

Those who take Indian philosophy and scripture as mythological are not at all intelligent. They have been described in the Bhagavad-gita as "sinful", "rascals", "lowest of mankind", "bereft of all knowledge", and "atheistic". Na mam duskrtino mudhah prapadyante naradhamah/ mayayapahrta-jnana asuram bhavam asritah [Bg. 7.15]. This psychological conception of the so-called Indian philosophers has killed Indian civilization. There is no question of mythology when Krishna says: dehino 'smin yatha dehe kaumaram yauvanam jara/ tatha dehantara praptir dhiras tatra na muhyati [Bg. 2.13]. A baby grows to become a child, and a child grows to become a boy, and a boy grows to a young man, and a young man develops to middle age, and grows to an old man, and then what is next for the old man. The so-called mythologists don't know what will happen to the old man. Neither they believe in the next life, and even if they do believe they don't know what will happen to the old man or what kind of life he will get next. Therefore they are all fools and rascals.

How a rascal can become a professor? That is the defect of modern day education. It is said in the Srimad-Bhagavatam: Na te vidhuh svartha gatim hi visnu. Philosophy means to find out the actual source of everything. Our Vedanta philosophy begins athāto brahma jijñāsā, to enquire about Brahma, that is real philosophy. And the Supreme Brahma is described as the original source of everything: Janmady asya yato [SB 1.1.1], etc. Srimad-Bhagavatam is the real philosophy because it describes the original soruce of everything-Janmady asya yatah. The first chapter of Srimad-Bhagavatam begins with this verse. Accept this, all other philosophies are simply jugglery of words to mislead the less intelligent class of men. You are benedicted by Lord Krishna that you are doubting the philosophical speculation of the mudhas. Please try to read real philosophy-Vedanta Sutra and its right commentary by Vyasadeva, Srimad-Bhagavatam. And the preliminary study, Bhagavad-gita. If you

directly in the Bhagavad-gita.

My request is that you read carefully the Bhagavad-gita As It Is and do not be mislead by the fools and rascals. The fools and rascals have spoiled Bhagavad-gita simply by their interpretation. We have published it As It Is. Try to visit our center at Juhu-Hare Krishna Land-and associate with the devotees. They will be able to answer all your philosophical questions.

Regarding supplying the Radha Damodara TSKP books at discount, there is no harm. The BBT should charge them the printing cost only and the balance they will send to India. It is the same as before, but instead of the money being sent to the BBT and then to India, this is shortcut and the money will go directly to India. As their collections depend entirely on book distribution, whatever amount they transfer here plus the amount paid to BBT in Los Angeles may be combined for listing in your monthly ratings as book distribution. In this way they will be encouraged to go on increasing the book distribution more and more and at the same time they will be encouraged to send more and more for the construction. There is no question of discounting them ore money than is needed in India, because we require crores and crores of unlimited funds. America has the money, so this is co-operation between the blind men and lame men. This will be a good name to your country, that Americans are building such nice buildings. It will make good relations between India and America. The next chance I have for meeting with Indira Gandhi I shall inform her about how much foreign exchange we are sending. After receiving your encouraging assurance that as book distribution increases the amount BBT sends will also increase, we are now going to attempt the Kuruksetra project and the Jagannatha Puri project. For the time being we are spending in India, but eventually we will spend everywhere. This will greatly enhance the American's spiritual position.

Always remain dependent on Guru and Krishna and your progress will always be assured.

I hope this meets you well.

Sri Ajita Kumar Chatterjee Calcutta

Dear Sri Chatterjeeji,

I beg to thank you for your letter dated January 23rd, 1976. Please come with your articles and see me at Mayapur, we shall discuss on the articles and if they are correct, then we shall publish them. It will be our great pleasure. But first I must see how they are written. We have got sufficient place so you can stay here and we shall read them together.

Your theme is O.K. There were many devotees of Lord Caitanya like Advaita Acarya, and even Lord Nityananda who were grhasthas. Lord Caitanya left His grhastha life. It is a matter of understanding Krishna-that is the real qualification. Whether one is grhastha or sannyasi, how well he knows Krishna. Srila Narottama dasa Thakura has sung: ”grhe va vanete thake, he gauranga bole dake”. Lord Caitanya says

kiba vipra, kibra nyasi, sudra kene nyaya, yei krishna tattva vetta, sei guru haya

So please come and we shall discuss your articles.

I hope this meets you well.

My Dear Jnanagamya,

Regarding making a movie to help people become Krishna Conscious. If we show such devotional activities as worshiping the Deity, the karmis will think it is some sentiment, people worshiping a statue. Unless they hear from devotees and then practically perform devotional service themselves, what benefit will there be? As far as your point that those who say movies about Hitler identified with him and followed him, Hitler was still finished despite so much propaganda. Napoleon, Mussolini, Churchill-they all made so much propaganda-but the French, Italian, British, and German empires are all lost now. Our real propaganda is to chant the Hare Krishna Maha-mantra, and let the mass of people chant and dance with us. If this movie induces people to chant and dance it is O.K. If it aids our cause then it is welcome. The best thing is for you to give this subject matter to your GBC for discussion at this year's GBC meeting in March.

The photos you have sent are very nice. Thank you. I hope this meets you well.

Where ever you deliver your lectures to students try to introduce at least our small books. If the students purchase these cheaper, smaller books, they will get a permanent impression of Krishna Consciousness. Especially present them Easy Journey to Other Planets, Topmost Yoga, Beyond Birth and Death, Krishna Trilogy, and Nectar of Instruction-these are cheaper and they can purchase them and read them easily.

Yes, for returning to England you should consult Hamsaduta.

When you come to Mayapur and Vrindaban you will very much appreciate how everything has developed since you were last there. There are also very nice accommodations for the devotees living.

My dear Aksayananda,

Please accept my blessings. I beg to thank you for your letter dated 23rd January, 1976 and I have noted the contents.

I have read the letter of Mr. Kapur. I am agreeable to coming to Kanpur; the question is when. You are planning a program at the Prayag Narayana Mandir on the 15th Feb. I know that Temple, it is very famous. If some program is held there, all Kanpur people will come. Just now I am resting at Mayapur, so if it is possible to hold this program without me, then I may not come. Otherwise, if my presence is required* then I can come. Following the Vrndavana festival there is a tentative program for me to go to Manipur. At that time I can easily visit Kanpur on my way to Manipur. Visiting at that time would be very convenient. We should certainly have a centre in Kanpur. It is the third most important city in India after Bombay and Calcutta.

It is not possible to give you definite answer on the land of Mr. Bhargava at this time. We have to wait to see what is the condition of the land during monsoon. If it is not too disturbed we can take it. We will have to wait until July at least to decide. If we get the Kailash Mandir land and this land has a Gosala, it will be a good combination.

I am glad that you are developing the mukut business. Now the devotees must learn so that in the future professionals will not be required.

Regarding holding feasts on Dvadasi days, we don't want to invite some beggar class of men. Don't invite now. When Randas Shastri and Vishvambar think best then we shall invite.

I hope this meets you well.

My dear Karandhara,

The photos of my murti are very nice. The murti of the Spiritual Master should be treated as good as the Deity. Saksad-dharitvena samasta-sastrair, uktas tatha bhavyata eva sadbhih/kintu prabhor yah priya eva tasya **, The guru should be treated as good as God. This is stated in all the sastras. The difference is that God is master-God and guru is servant-God. So the installation ceremony for such a murti should be similar to that done for other Deities. All Temples can have this Deity if they like. But Temples which have only Panca-tattva painting worship should not be given this Deity.

You should make a murti of Srila Bhaktisiddhanta Sarasvati and then they may be worshiped together as is now being done in our Krishna Balarama Temple. They should be placed with Gaura Nitai-Guru Gauranga.

Music class can be based on the Sama Veda. In the Political Science class Maharaja Prthu's life may also be studied. Mayapur 29 January, 1976

Los Angeles

My dear Dr. Wolf,

Please accept my blessings. I beg to acknowledge receipt of a copy of a letter sent to Sriman Vedavyasa dated January 14, 1976.

Mundane books are written by imperfect persons. Everyone has his own theory, which means he is imperfect. The Srimad-Bhagavatam says if there is a real presentation of spiritual understanding, then even if it is presented i broken language, it is accepted by high, saintly persons, because it glorifies the Supreme Person. On the other hand, if literature is highly metaphorically composed, if it does not glorify the Lord, it is compared to a place inhabited by the crows.

Actually, if some literature doesn't carry any real knowledge, what is the use of ornamental language? We are not interested in presenting ornamental language.

In India the system is that people go to see the Jagannatha Deity. The Deity is not very beautiful from the artistic point of view, but still people attend by the thousands. That sentiment is required. Similarly with our kirtana we are only using drums and karatalas, but people come to the point of ecstasy. It is not the ornamentation, it is the ecstasy. This ecstasy is awakened by sravanam kirtanam by devotees. I hope this makes everything clear.

Hoping this meets you well.

My dear Ramesvara,

Please accept my blessings.

Enclosed please find a conversation between Dhrstadyumna das and a Professor Verdu of the University of Kansas. It was a television program as you can see from the enclosed photos. The professor has very much appreciated the discussion and he has written that he will now teach a course with special attention to the teachings of Sri Caitanya Mahaprabhu. This conversation can be published as a small pamphlet similar to the one published originally as the "Vedic Way". The photos can be used for the front and back covers. The letter from the Prof. Mr. Verdu, can also be included. You can also include some reviews from important professors on Caitanya-caritamrta. There should be an advertisement for Caitanya-caritamrta 1st Part _ pp.; 2nd Part _ pp.; 3rd Part _ pp.; Complete _ pp. It should be printed so that Temples can give to persons who offer small donations, even too small to give a BTG to. It will also impress all intelligent people, that our students can present our philosophy so nicely and authoritatively.

Now work is proceedingly full scale here on the new residential building and in Bombay work is beginning under the guidance of Larson and Tubrow. So Rs. 7 Lakhs will be required immediately this month for Bombay. In your BBT Trustees report you say that $200,000. has been put in fixed deposit for one month. That one month is now over so you can immediately transfer $100,000. to the Bombay Bank of America account. The balance can be put on fixed deposit for another month and transferred to B. of America Bombay in the beginning of March when it matures.

Dear Elaine,

Please accept my blessings. I beg to thank you for your letter dated October 20th, 1975. Your letter must have been forwarded a number of times and I have also been travelling, so I have just now received it.

It is your great fortune to be chanting Hare Krishna Mantra. This is the special purpose of human life. In the other forms of life like the animals, this opportunity is not available. So make your life perfect by becoming Krishna Conscious.

Spiritual life means to become pure, and chanting Hare Krishna will automatically make you pure. But just as when a physician prescribes a certain medicine, he also describes the conditions under which the medicine will be most effective. Similarly, the chanting will have the most effect if you can abide by the principles of purified living: First, no eating of meat, fish, or eggs. Second, no gambling. Third, no taking of any kinds of intoxicants such as drugs, alcohol, cigarettes, coffee or tea. And fourth, no illicit sex life, which means sex life only within marriage and then only for the purpose of procreating Krishna Conscious children. If you can follow these principles and chant Hare Krishna, you will make great spiritual advancement. The best thing is for you to associate with the devotees at the Dallas Temple, then it will be much easier.

I hope this letter finds you well.

If the gold stamping on the bindings will increase the appeal of the books then it is O.K. Yes, I have also seen that the old cover cloths were very poor quality. It is good that you have improved them.

You can add to the Songbook the poem I wrote before arriving at the Boston Port when I first came to America. This can be printed at the beginning of the books.

Ramesvara has asked some questions regarding the art work for the 7th canto, 1st volume. Please inform him of the following:

1. The sketch showing Hiranyakasipu very big is the better of the two. Yes, you should show fire emanating from his head.
2. There should be no effulgence around Prahlada. Hiranyakasipu should not be shown with a pipe. He was a non-smoker.
3. Krishna killing Sisupala took place inside, not outside.
4. To illustrate Prahlada being protected when he is thrown of the cliff, there should be a semi-visible Krishna waiting below, as if to catch.
5. Yes, you can show dead bones, skulls, and snakes in the dungeon. Prahlada was not actually attacked with the tridents, just threatened.

Please also inform Ramesvara that in future any transfers to Bank of America, Bombay, he should send me a photocopy of the bank advice to wherever I am.

The membership pamphlet is very nicely done. That you have got $20,000 in 1975 from the members is certainly very noteworthy. Develop the program more if the results are so good. Also, along with the pamphlet and The K.C. Movement Is Authorized you can send our book catalog. Then the philanthropists will be able to purchase our books.

The reviews have very much encouraged me. Especially those of Prof. Bhatt and Prof. Vajpeye. I have personally written a letter of thanks to Dr. Bhatt, that he has so much encouraged me. Dr. Vajpeye's review we are gong to print and widely distribute, especially in Bombay and Madras, where there is so much propaganda from these bogus gurus and yogis. He has got practical experience of how they are cheating the innocent people in foreign countries and he has written; ”The authorized edition of Bhagavad-gita will help to stop the terrible cheating of 'gurus' and 'yogis' who are false and unauthorized.”

Regarding the examinations, the idea is that anyone, after studying the books, who wants to gain the title of Bhakti-sastri, can take the exam. This is academic. Just like a brahmana with sastric knowledge and a brahmana without. It is optional-one who wants may take. The real purpose is that our men should not be neglectful of the philosophy. The examinations will begin on Gaura Purnima, 1977, not this year, so there is no reason why any of the devotees should give up their normal engagement.

So far your idea for teaching classes, this should be discussed at the GBC meeting. If it does not hamper our normal procedure then it is welcome.

The spirit soul is equal in either a man or woman. One who is actually engaged in the service of Krishna, there is no such distinction as man or woman. In the Bhagavad-gita, 6th Chapter, 1st Verse it is stated anasritah karma-phalam karijam karma karoti yah/ sa sannyasi ca yogi ca na niragnir na cakriyah [Bg. 6.1]. Anyone acting for Krishna, he is a sannyasi or sannyasini. It is also stated: striyo vaisyas tatha sudras te'pi yanti param gatim. So spiritually everyone is equal. But materially a woman cannot be given Sannyasa. But you should not be bothered because you are serving on the spiritual platform.

Please accept my blessings. I am in due receipt of your news letter of January 22, 1976 and I thank you very much. Your sincere endeavor to engage new devotees is very much appreciated. It is especially encouraging that these new devotees are taking on responsible service within our communities. They should follow our regulative principles, chant Hare Krsna and engage all day in the service of Lord Krsna. That is the only way that they will become satisfied.

Please continue with your service. Encourage everyone to take up this Krsna conscious life and set a high standard by your own good example.

I hope this meets you well.

My dear Sravanananda and Bhava Bhuti,

Please accept my blessings. I beg to thank you for your letter dated January 30th, 1976.

In Madras we have to construct a very gorgeous temple. In Nellore the owners of the land are putting so many impossible conditions that we cannot construct. So that foundation stone can be brought to Madras and used for the Madras temple. Now immediately find out some land and begin the construction. Never mind what the cost will be. We are not concerned with the amount of money, but we want a very attractive temple. The money should come from the gentlemen of Madras. The foreign funds are reserved now for Bombay, Kuruksetra, Jagannatha Puri and Mayapur. But if absolutely required, something may be arranged. Go on sending funds to Hyderabad. That construction should be completed as soon as possible. But whatever amount you have sent there, Hyderabad will repay you after their Temple is finished.

I hope this meets you well.

My dear Sukadeva,

Please accept my blessings. I beg to acknowledge receipt of your letter undated.

I am very glad to know that you have worked so diligently that the BBT debt has become almost nothing. It is very good that you have gone to Hawaii. It is a very good preaching field and our house there is one of the nicest in ISKCON. It simply requires very enthusiastic preaching and side by side very careful management. So I am confident that you can do both.

As you say that the mango season is fast approaching, then I will come and visit by April or May. Everyone knows that I am very fond of mangos. Actually amongst all fruits I like them most. They are considered the king of fruits. And Hawaii has very excellent mangos.

The Panca-tattva should not have long hair. It should only come to Their shoulders as you have shown in the drawing. Please correct this.

I hope this letter finds you well.

Dear Sukadeva dasa,

Please accept my blessings.

I have received the names of the candidates for initiation which you included in your recent undated letter and I accept them all as my duly initiated disciples. Their new spiritual names are as follows:

Scott Wheeler Whitley-Sauri das

Howard Lee Sewell-Haravapu das

Roberta Marie Rivet-Radhanarupini dasi

Shinna Theresa Diaz-Sakhi dasi

I also accept Kanva das Brahmacari for second initiation. Enclosed you will find his sacred thread which I have chanted on. Now hold a sacrifice, a fire ceremony, and afterwards the brahmana initiate may be allowed to hear the Gayatri mantra from the tape recording through the right ear. First initiate devotees must vow to always chant minimum 16 rounds daily and strictly observe the regulative principles. The brahmanas must practice cleanliness internally by chanting the Lord's glories and externally by bathing regularly. You personally should set a high standard for the new devotees to follow.

I hope this meets you well.

My dear Ramesvara dasa,

Please accept my blessings. I have received your letter dated January 27, 1976 and have carefully noted the contents. Regarding the Nectar of Instruction, why not distribute it to the common men? Every book is meant for everyone, but especially for the devotees. Please try to print a large number so that it can be distributed just like Sri Isopanisad.

Regarding Krsna Consciousness is Authorized, the first thing you should do is arrange to have a few thousand sent to India immediately. They can be sent to the Calcutta temple but addressed to me. I am organizing an office of book distribution under my direct supervision, and I shall post these books to officers, professors, lawyers, etc. I think that the mass mailings of this book can be done by the BBT Mailorder department and BBT can cover the whole cost. But because we will be distributing it freely for the most part, you should try to get the cost reduced as far as possible. You can try to get a good response from your mailings, but regardless of the response, we should distribute this book indiscriminately to selected persons as I have already indicated: renown business, medical men, government officials, scientists etc. Your new membership publication should be included with the Krsna Consciousness is Authorized in any mass mailing.

Regarding the money for Bombay, you may send it by the first week of each month. There is no need to ask Gopala Krsna. Following each transfer of money, please send a xerox copy of the transfer slip to me.

Hoping this finds you well,

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear Brahmananda,

Please accept my blessings. I beg to acknowledge receipt of your letter dated January 18, 1976.

It is good that you are paying your debt to the BBT. Please continue to do that.

As far as entering crematorium is concerned, no, we cannot go. That is social system, but we are sannyasis. A sannyasi is in spiritual life, not in social life at all.

We cannot pay for Shakti Mati to see her children. Concerning her scheme, who will pay the rent and who will manage? We cannot. It must be solidly discussed. We can consider at the GBC meeting. Things cannot be whimsically proposed and adopted.

That was a foolish letter sent by Cyavana. He was crazy. These things should not be done without first asking.

Regarding the devotees in Mauritius, first of all they must take care there. So some may come to Mayapur-1 or 2-but they must take care there.

I hope this meets you well.

To the members of the family of Hirjibhai Gelabhai Baba. Respected ladies and gentlemen of the family:

I am very sorry to learn that His Holiness Hirji Baba has recently disappeared from this material world. Last time when I was in Nairobi, I had some talks with him when we were preparing to take lunch at the house of Damji Devji. That was our last talk. So it is a great shock that he is not visible to our eyes. But as we know, the living being does not die. It is said about the saintly persons: moro va jivo va which means that the saintly person devoted to the lotus feet of the Lord is always glorious, either physically present or not present. So I wish that the devotees who took shelter of this saintly person continue to progress in spiritual life. May Krishna bless all of you in spiritual life.

Therefore I have instructed him to call you when he returns to the United States. He has assured me that his college programs are very organized and he is very enthusiastic to increase.

Regarding publishing books, these books can be published by you and men in your rank. Ordinary man cannot write such books. So therefore if a book is written by one man with "Bhaktivedanta" or "Bhakti-sarvabhauma" and it is of high quality then it may be considered by me for publishing.

My dear Ajita Kumarji,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 7th February, 1976.

The message of Lord Caitanya Mahaprabhu was to give the same message as Krishna in the Bhagavad-gita: ”surrender to Krishna”. The pastimes of Radha-Krishna relationship are confidential and are not for the distribution to the ordinary public. Caitanya Mahaprabhu used to discuss with Svarupa Damodara, Ramananda Ray, Sikhi Mahiti, but not publicly. Ordinarily he was chanting the Hare Krishna mantra with ordinary devotees at the Jagannatha temple. So I think you should not discuss Radha-Krishna pranyayavikritih openly among ordinary conditional souls.

My dear Bhagavan,

Please accept my blessings. I beg to acknowledge receipt of your letter dated February 2.

Regarding the first volume of Srimad-Bhagavatam, your ideas are very good. Yes, print Krishna-Balarama on the front and the creation on the end pages as you have said.

The Bhaktisastri test will not be held this year, but it will be held next year.

So from your letters, I think things are going nicely, please continue. The book is also nice. Now sell them in huge quantity and print again.

Yes, it is good that you are opening a small centre in Belgium.

The boys you have recommended may be initiated. Hold a fire sacrifice and they may vow before the deity, the spiritual master and the fire that they will chant minimum 16 rounds daily and follow the four regulative principles. Their names are as follows:

Please accept my blessings. I am in due receipt of your letter dated 12 February, 1976 and have noted the contents. I am very pleased with your monthly Bhagavata-Darsana. That is a solid program. Please continue it steadily. One thing is, you must be careful with the subscription books so that they are not counterfeit or used by cheaters. One man, Agarwal, was cheating us in

Kota and is now captured and given to the police. Unless one is authorized no one should be given a receipt book. Therefore you must have printed on each receipt: ”NO BEARER CHECK; NO CASH; ACCOUNT PAID CHECK ONLY-MAKE PAYABLE TO INTERNATIONAL SOCIETY FOR KRISHNA CONSCIOUSNESS ONLY.”

Yes, I approve your distribution ideas, namely subscriber agents, news agents. The subscription drive is a solid program. And if you regularly publish and get registered, you can get a one or two paise charges (postal concession). All right, you may take advertisements. Go ahead and educate the public regarding our philosophy and ISKCON activities. Also in the future there are many cities such as Bombay, Surat, and Calcutta with large numbers of Gujaratis, you may arrange for getting subscriptions there. Gradually as you work there, you will get local men to join you.

My dear Krishnanga devi dasi,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 4th February 1976.

Do not let your mind be disturbed by so many things. Our movement is for chanting Hare Krishna. One can be happy under any condition. Samah duhkha-sukham dhiram. Krishna Consciousness does not depend on any external arrangement. You should not go outside of the shelter of this ISKCON. Just try to be happy by chanting Hare Krishna and following the regulative principles.

I hope this meets you well.

Dear Tejiyas,

Please accept my blessings. I am in due receipt of your letter dated 8 February 1976 and I have noted the contents. Regarding our sending someone to see Mr. S.M. Patnaik at Bhuvaneśvara, we can do this immediately, however, we may not get a good reception from this man. I would like to have a letter of introduction sent here from Mr. J.B. Patnaik. When we have a positive letter introducing our organization, we can send one man to see Mr. Patnaik in Bhuvaneśvara.

Hoping this finds you well.

Mayapur 16 February, 1976

Gainesville

My dear Gadi das,

Please accept my blessings. I beg to acknowledge receipt of your letter dated January 27, 1976.

Regarding your questions; Arjuna, Yudhisthira Maharaja, and Draupadi were not killed in the battle. They are always personal associates of Krishna. Wherever Krishna goes, they go. The Bhagavad-gita says: bahuni me vyatitani janmani tava carjuna. ”Both you and I have passed many lives; I remember, but you do not.”

And at the time of death somehow or other Krishna takes special care. He says: aham tva sarva-papebhyo moksayisyami.

Regarding distribution of my books, somebody may say something, but that doesn’t matter. Somehow or other they are taking our Krishna book. However it should be done so there is not legal implication. And aggressiveness is not good. That should be checked.

So you may hold a fire sacrifice and Hiowana Nivens (Hatari das) should vow to chant minimum 16 rounds and keep strictly the four regulative principles. Paramatma das may hear the mantra in the right ear. He should keep clean internally by chanting Hare Krishna mantra always and externally by bathing regularly. You yourself must set the example. Satsvarupa Maharaja can chant on the beads and you can find enclosed brahmana thread duly chanted on by me.

I hope this meets you well.

Letter to: Madhava

-

Mayapur 17 February, 1976

76-02-17

Boston

My dear Madhava das,

Please accept my blessings. I am in due receipt of your letter and article entitled ”Matter Comes from Life”.

It is very nice and why not publish in BTG? It must be published in BTG. And you must also publish in other journals. That is our business. Let them protest or accept. If they protest, we will reply them again. If they accept, then that is victory. It must be recognized that we are not just a religious sect. People are being kept in darkness, so we are trying our best to give this to the world; we must work in that spirit and become qualified.

Regarding your questions, matter originally is spirit and when spirit is not distinctly understood, that is matter. Just like a tree is also a manifestation of spirit soul, but the consciousness is covered. When the tree is cut, it does not protest. But the moving entity has stronger consciousness than the tree. There is consciousness in the tree though. Also consciousness in a dormant state is matter; consciousness in a completely developed state is spirit. Matter is the symbol of undeveloped consciousness.

Thinking is a subtle form of matter. Just like it says in Bhagavad-gita: ”bhumir apo ’nalo vayuh . . . [Bg. 7.4].” Like the ether is subtle, the mind is more subtle-subtle form of matter.

As for your third question is concerned everything is in the spiritual world. Krishna is the sum total of spirit and everything is coming from Him. Aham sarvasya prabhavo . . . [Bg. 10.8]. Matter, spirit, everything comes from Him. He is the supreme life, the origin of spirit and life. Therefore matter emanates from life. Nityo nityanam . . . He is the Supreme Consciousness of all other consciousness.

The moon is situated 1,600,000 miles above the sun. You may refer to the fifth canto and read carefully.

By the grace of Krishna you are already able to increase your service to me.

It is very nice to hear that the students and teachers appreciate our philosophy. Your program will also help them. I am very much pleased with your program. Thank you very much.

I hope this meets you well.

My dear Raja Laksmi dasi,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 9 February, 1976.

My advise is always chant 16 rounds minimum and follow the four regulative principles. All of my disciples must agree on this point otherwise they are not my disciples. Let one live anywhere, but stick to the principles. Disagreements will continue in this material world. So one may live in a suitable place, but one must follow these five principles. My disciples must follow these principles living either in heaven or hell.

My dear Sri Karani,

Please accept my blessings. I beg to acknowledge receipt of two checks, one for U.S. $8,000.00 and the other for U.S. $4,000.00 from you and your brother. I thank you very much.

The monies will be deposited into our Bhaktivedanta Book Trust account for printing books. I am instructing our Los Angeles BBT headquarters to send half of all of the books printed to you and half to your brother. One full set of all of our books between you. They will send air freight prepaid.

Recently we have received many acclaims by prominent educators, scholars and scientists throughout the world for our books. Dr. R. E. Asher, Professor of Linguistics, University of Edinburgh, Edinburgh, Scotland said, ”It is axiomatic that no book can be expected entirely to satisfy all it’s potential readers. Her is one, however, which can be said to come remarkably close to ideal…Here we have the ideal of what an edition of a Sanskrit text for a western audience should be…It is beautiful planned and printed…”

My dear Rupanuga,

Please accept my blessings. I beg to acknowledge receipt of your two letters dated January 30 and February 13, 1976 respectively.

Regarding the examination, I never meant that the examination would be held this year. It will be held first next year. The examination is meant for the intelligent class, not all. Neither it is compulsory. So to pass the examination means one must have knowledge. There are higher intelligent class of disciples, otherwise it is not compulsory. So how to organize it, how to do it, you GBC can decide. I have given the idea, now how to do it is up to the GBC.

Regarding the purchase of the Washington temple, that is all right if it is certain that all the monies paid out will be applied toward the cost price. Better purchase than rent. And I think that Brisakapi should follow the example of Rupa Goswami. Rupa Goswami took sannyasa and gave 50% in charity, 25% for family use, and he kept 25% for emergency. Krishna wants to see that the life is sacrificed, but also accumulation, money, should be given to Krishna. Life to Krishna and money to wife is not a good decision.

Thank you for getting this chaplaincy. Now it should be done nicely and started in other places. It will be very nice if we can get it in every school.

It is nice they are maintaining and increasing the Rathayatra program in Philadelphia. Last year's program was very nice. That is good they have sold the jewelry business; we have got so nice book business, why shall we have this? You say Atlanta has pledged $33,000, that is nice, whose business can give us profit like that?

Yes, this supplying of milk to the temple is wanted. Thank you. In the way that Atlanta is doing, every center must have a farm so we can get all milk and if possible vegetable, even fruit, flowers and milk.

They are getting a flat-bed truck, then no blocking. They can sit comfortably and chant and people will hear. He (Madhava das) is giving a class at MIT, that is very good. I challenged them where is the technology to understand the distinction between a dead man and a live man.

Regarding relocating New Kuruksetra and beginning the Bhaktivedanta Institute there, first of all decide among the scientists, Svarupa Damodara and party, and if they agree then I have no objection.

I hope this meets you well.

The thing is cow protection is not possible for women. You can keep two or three cows, but on larger scale it is not possible. You should not try to take care of more. It is not women's business. Women's business is getting milk and making milk preparations. On the whole larger scale is not to be attempted by women. Manage a small asram, but don't try bigger scale, then you require the help of men.

Don't try manual exertion, then again there is mixture and that is not desired. Simply keep yourself aloof from men-chanting, many more times as possible, read books, worship the deity. I am very much pleased with this girl Svati-she has adopted this white dress. She must not be attractive at all. A widow is forbidden to use ornaments, nice sari, decoration, combing the hair nicely. These are forbidden for the woman who is not with husband.

I hope this meets you well.

Dear Ramesvara,

Please accept my blessings. I beg to acknowledge receipt of BBT trustee's report dated February 13, 1976.

Regarding the devotees coming to Mayapur-Vrindaban, I would have liked they come all at least once in a year, so let the other trustees consider. If they come once every five years, then it will be five years vacant. the installment plan is better.

Jayatirtha is experienced; he is very good at negotiations. It is nice that he be retained as consultant/negotiator. The others are neophyte; sometimes they are cheated. George Harrison was cheated 20,000 pounds by reality men.

I have asked several times that you send a copy of the transfer slip when you transfer money to Bombay. You must send it regularly, whenever you transfer. What is the use of Radha-Damodara monies going to Los Angeles; he is sending direct. He will send and you can note.

It is good that the philosophy book is being arranged properly by Hayagriva.

Regarding the BBT book catalog and Mailorder catalogs, do not mention the commission. That will be settled up by the sellers.

Sudama Vipra Maharaja is here and he has advised me that he will order 10,000 Bhagavad-gitas, abridged edition. You can give him concession rate as far as possible and he will pay cash down something.

Padampat Singhania can himself build the whole gurukula. Similarly Banthuram Jaipuria who is our member, I think, can build the whole thing. If anyone gives the whole money for the building, then we can call the building in his name. The mercantile community is advised to follow the brahmanas. So you are bona fide brahmanas. My dear Srinath Das Khanna,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 15th January, 1976.

It is too bad that you are suffering too much. However this may be taken as the mercy of the Lord. If the Lord gives us some inconvenience then we may take it that He has reduced our actual punishment and just given us a token punishment. So you remain fixed up at the Lotus Feet of the Supreme Personality Sri Krishna and by always thinking of Him and trying to render some little service to Him, everything will come out all right.

It is nice that you are chanting the Hare Krishna maha-mantra and reading the Bhagavad-gita As It Is. Continue that and Krishna will surely give you protection as He states: kaunteya pratijanihi na me bhakta pranasyati [Bg. 9.31].

I hope this meets you well.

My dear Mr. Mohapatra,

Please accept the blessings of Lord Krishna. I am in due receipt of your letter dated February 21, 1976 and I have noted the contents with care. Here in Mayapur we are trying to create a place of inspiration for people throughout the world. It is in Mayapur that the Supreme Personality of Godhead, Sri Caitanya Mahaprabhu, appeared. This information comes to us from the Srimad-Bhagavatam.

krsna-varnam tvisakrsnam sangopangastra-parsadam yajnaih sankirtana-prayair yajanti hi sumedhasah [SB 11.5.32]

"In this age of Kali those who are intelligent perform the congregational chanting of the Hare Krsna maha-mantra, worshiping the Supreme Personality of Godhead, who appears in this age along with His associates to inaugurate the sankirtana movement, or chanting of the Holy Names. That incarnation is yellowish in hue." This description is there in the Srimad-Bhagavatam, and there are other references also in the Mahabharata, etc. This sankirtana of the Holy Names is the Yuga-dharma and all intelligent men will appreciate, as you are also appreciating the importance of this movement.

As you know March 16 is the birthday celebration of Lord Caitanya Mahaprabhu, and you are welcomed at any time to visit our centre in Mayapur. I thank you for your interest and look forward to your visiting our Mayapur centre with your family in the near future.

I hope that this meets you in good health.

My Dear parent,

Please accept my blessings. There has been a serious mistake. I do not wish that Gurukula should be closed down in Dallas. So you kindly arrange to send your child back to Gurukula.

One thing is at least for the time being, you must arrange to pay the tuition for your child. If you like, you can get my books and sell them and you can pay tuition in that way. You purchase at the temple's price and sell them and with the profit you can pay your tuition.

I hope this meets you well.

My dear Harikesa Maharaja,

Please accept my blessings. I am in due receipt of your letter dated March 1, 1976 and I have noted the contents with care.

I have marked how they are attracted to our kirtana and prasadam there in Hungary. If they consider our philosophy too revolutionary, there is no necessity to print books immediately. First, the heart must be cleansed by chanting Hare Krishna and taking Krishna prasadam. To take birth in such place is due to impious past so it is not easy for them to immediately accept our philosophy. Just give them chanting and prasadam. You must be very tactful to preach in such places. If you like you can print one record there as you have suggested.

If the young people become very serious, if you find it is detrimental to have them wear dhoti and shave head, that is not necessary. Simply introduce the chanting and prasadam distribution and gradually they will be elevated to being Vaisnava. A Vaisnava is aloof from all material conditions of life, so even under such circumstances a Vaisnava will not feel inconvenienced. Kirtiraja should be returning to preach in Eastern Europe so you can work together to introduce Lord Caitanya's sankirtana movement in this part of the world.

I hope that this meets you in good health.

My dear Robert,

Please accept my blessings. I am in due receipt of your letter dated February 18, 1976 and I have noted the contents with care.

You mention that the scientists try "to simplify the problem at hand by neglecting any complex factors that may be present." What is that simplification? That there is no God. Their position is "sour grapes." They try by their speculation to understand things, and being unable they say there is no God. So we can use this science to defeat them, just as I have many other disciples, such as Svarupa Damodara. He is Ph.D. in Chemistry and now he is using his scientific background to defeat their atheistic arguments. There is a Bengali proverb: tor shil tor noda, tor bhangi dater goda. I take your mortar and pestle and I break your teeth. This means that we use the scientists own weapons and with them we defeat their atheistic philosophy. There is another example. A hatchet is sitting before a tree. The tree asks, "what are you doing here?" The hatchet replies, "I have come here to cut you down." The tree then said, "You can not cut me down, alone, but with the help of my descendants you can do it." The idea is that the ax-handle is made of wood, and so without the assistance of the wooden tree, the hatchet is useless. Similarly, we can use our materialistic knowledge to defeat the atheistic philosophy of the scientists. So you also can continue your studies and learn what is shil and noda (mortar and pestle) so you can break their dater goda (break their teeth).

I hope that this meets you in good health.

Dear Sri Acaryaji,

I beg to acknowledge receipt of your letter dated 24th February, 1976. It was addressed to Calcutta temple but on account of not mentioning the zonal number, it was delivered very late in Calcutta, then it was redirected here in our above temple.

However, I am so glad to receive your letter and I reply that I require your good help in my preaching work. We are preaching all over the world with great success and you'll be pleased to know that we are selling our books tremendously. The general estimate is collection of Rs. 1 lac to Rs. 5 lac daily. Our preachers are very much enthusiastic but in India they have got a language difficulty. If you cooperate with us along with other learned devotees, we can immediately take up preaching work in India with great enthusiasm.

We have got 8 big and small buses and one very nice car for my personal use. If you will start sankirtana movement from town to town and village to village with the cooperation of other learned Indian men like yourself, I'm sure that in very short time our endeavour ill be successful.

Kindly see me on the 30th March, 1976, at Vrindaban in my Krishna-Balarama Temple either in the morning between the hours of 10-12 or in the afternoon between the hours of 5-7 p.m. along with this letter.

Thanking you once more for your willing cooperation.

Letter to: Dr. Chittaranjan Mohapatra

-

Mayapur 21 March, 1976

76-03-21

Dr. Chittaranjan Mohapatra, Krishna Youth Club Jasotikiri, Akhuapada, Balasore, Orissa 756122

Dear Dr. Mohapatra,

Please accept my greetings. In reply to your questions of your letter dated 16-3-76 addressed to my secretary, I beg to offer you the following on the basis of the sastras. Krishna is the Supreme Personality of Godhead. The dictionary defines God as the Supreme Being, therefore, Krishna is the Supreme Personality of Godhead. This is confirmed in the Bhagavad-gita: Mattah parataram nanyat, kincid asti . . . [Bg. 7.7] ”There is no Truth superior to Me. Everything is resting upon Me, as pearls are strung on a thread.” And in many other sastras Krishna is accepted as the Supreme Personality of Godhead. All the acaryas such as Ramanuja, Madhvacarya, Nimbarka, Lord Caitanya, and innumerable others have come to this conclusion: that Krishna is the Supreme Personality of Godhead.

Concerning your question as to why we should sacrifice everything to Him; because He is the Supreme Personality of Godhead, He is the Proprietor and Enjoyer of everything; Bhoktaram yajna tapasam sarva loka mahesvaram . . . [Bg. 5.29]. Everything belongs to Him. We have unlawfully encroached upon His property this is mine, that is mine . . . Krishna comes down to teach us real knowledge, therefore He tells you to give up encroaching on His property. Better to deliver it to Him. Therefore, perfection of life is when we deliver or return everything to Him, and He tells us this for our benefit! The sooner we return everything to Him, the better it is for us. Our Krishna Consciousness Movement is teaching this fact all over the world.

One should not think that Krishna is an ordinary man. If you think like that then you do not know anything about Krishna. Avajananti man mudha manusim tanum asritah . . . [Bg. 9.11]. ”Fools deride Me when I descend in the human form. They do not know My transcendental nature and My supreme dominion over all that be.” All the mudhas or rascals consider Krishna to be an ordinary man, but He is not ordinary, He is the Supreme Being. Where do you get this information that Krishna is an ordinary man like us? In no Vedic Literature is it said that Krishna is an ordinary human being. In the Brahma-Samhita it is said: Isvara Parama Krishna . . . He is described as the Supreme Being. I do not know on what authority you can say that Krishna is an ordinary human being like you or me?

Sacrifice does not mean murdering. The real work is yajna. Yajna means Visnu. In the Bhagavad-gita, yajna is prescribed. Yajnarthat karmano ’nyatra loko ’yam Karma-bandhanah . . . [Bg. 3.9]. ”Work done as a sacrifice for Visnu has to be performed, otherwise work binds one to this world.” Yajna is prescribed in Vedic literature. Yajna means satisfying Lord Visnu. Lord Visnu’s another name is Yajna-purusa. One must satisfy Him anyway that He likes. ”Patram puspam phalam toyam yo me bhaktya prayacchati . . . [Bg. 9.26]. If one offers Me in devotion a leaf, flower, fruit or water, I will accept it.” Not that whimsically offer.

You also mentioned that how can I give up attraction for woman; when you learn to love Krishna, then you can forget your lusty desires for women. Krishna’s another name is Madan-Mohan. When Krishna is within the heart, then the Madan or lusty desires become defeated. If we learn to love Krishna, our lusty desires will be finished, otherwise not.

I hope that this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

New Vrindaban

My dear Kirtanananda Maharaja,

Please accept my blessings. I am in due receipt of your letter dated March 8, 1976 and I have noted the contents carefully. Why should they complain about the way we are living there? We have our cottages and we take our own food. However, if it is necessary to make alterations, you can do. Concerning plumbing indoors, that is not difficult. This can be done very easily if you have a high water tank, and sufficient water there. Just like sometimes we see at big, big factories. If the water supply is sufficient, there is no question of insanitation. Disease comes when there are dirty conditions. Also, don't eat more than necessary. As soon as palatable food is offered, they eat. That is the disease. Concerning the outhouses, if they are not approved then you can have a septic tank, or pass stool in the open field. I was doing that. I never liked to go to the nonsense toilet so I was going in the field.

Your request to take out a loan in books can be arranged so it is good idea. I hope that this meets you in good health.

Sri Kashinath Mullick, 39 Jatindra Mohan Avenue, Calcutta-5

My dear Kashi Babu,

Please accept my greetings. Last night at the Thakura Bati we had a very nice meeting, so I wanted to talk with you of improvement of the Uddharana Dutta Thakura Path. I know you are managing the establishment so nicely till now but still further improvement can be done if you cooperate with us. We want to establish a small gurukula as mentioned in the Srimad-Bhagavatam, accommodating willing Vaisnavas who will follow the Vaisnava behavior strictly; arranging worship of the Deity by the sincere devotees who will not take any remuneration and who follow the Vaisnava principles.

I do not know how many devotees are staying there for taking prasadam, but I want at least 25 devotees to stay there regularly for taking prasadam, occasionally holding festivals also for distributing prasadam to anyone who visits the temple. I am thinking in this line. I am hoping that you can give me your considerate opinion as to how it can be done. Furthermore, I wish to be enlightened to know how much land the mandir possesses for cultivation because I wish the temple community to be self-sufficient by producing their own food grains. In foreign countries we are organizing our centres on this principle. Here also in Mayapur we are doing the same thing, and we have just taken on another place, Haridasapur, the place of Haridasa Thakura. There are 6 bighas of land and they have donated it to us, and we are trying to develop it according to the above mentioned program.

I hope that this meets you in good health.

My dear Citta Hari das,

Please accept my blessings. I am in due receipt of your letter dated 18 March, 1976 with enclosed daksina and I thank you very much.

Now the new devotees must all be trained very nicely how to render devotional service by chanting 16 offenseless ds daily, and following the 4 regulative principles. Kindly set a nice example yourself for everyone and in this way make your lives perfect in full Krishna Consciousness.

I hope that this meets you in good health.

Chairman, Managing Committee., The 14 Cooperative Societies, Juhu Ville Parle Development Scheme, V.L. Mehta Marg, Juhu, Bombay-56

Dear Sir:

As you may know, our Hare Krishna Land is very popular with the residents of Bombay, in particular the local residents and devotees of Juhu Beach and surroundings. Many visitors regularly attend religious services and we are trying to provide suitable facilities to this end.

Now with so many devotees visiting from the colony, it is necessary that we have access from the colony side to the temple. At present we only have access to the temple from the sea-side and it is proving a great inconvenience to visitors coming from the colony side. We therefore request that access be kindly granted to us on the colony side for the benefit of the many worshipers who regularly visit the temple. We request that you kindly give us permission to construct a suitable access to our property from the colony side and that you kindly provide us such land for use as may be necessary.

Thanking you,

Yours faithfully, A.C. Bhaktivedanta Swami

My dear Pranada das,

Please accept my blessings. I am in due receipt of your letter dated March 16, 1976, and I have noted the contents with care.

Concerning your questions about tantric sastras; the Vaisnava tantras are bona fide literatures, just like Narada-pancaratra, but not the atheistic tantra which have nothing to do with the Vedic literatures.

sat-karma-nipuno vipro, mantra-tantra visaradah, avaisnava guru na syad, vaisnavah sva paco guruh (Padma Purāṇa)

”Even if a brahmana is very learned in Vedic literatures and knows the six occupational duties of a brahmana, he cannot become a guru or spiritual master unless he is a devotee of the Supreme Personality of Godhead. However, if one is born in a family of dog-eaters but is a pure devotee of the Lord, he can become a spiritual master.”

The point is that Krishna is the Supreme Personality of Godhead, and He is always purusa (male) not female (prakrti). ”purusam sasvatam divyam, adi devam ajam vibhum.” Worship of the mother aspect is prakrti, not recommended by Krishna for the intelligent class of men.

I hope that this meets you in good health.

The Ambassador of the United States of America, Canakya Puri, New Delhi

May it please Your Excellency,

I beg to introduce myself as the founder-acharya of the above institution. Our mission is to preach Krishna Consciousness (God-Consciousness) all over the world, and in your country alone we have got about 40 branches in all the important towns of America. In all the countries, the majority of my disciples are Americans. I met Mr. Kenneth Keating, your former ambassador to India and he was a personal friend to my disciple, Sri Gurudasa Adhikari. A copy of his letter is also enclosed herein.

I have seen a house situated at 12 Ring Road, New Delhi, which is your property. Immediately we need a house for our residential purposes. My disciples are mostly Americans. Our main activities are to preach philosophical and cultural literatures, a list of which is also enclosed. It is understood that the house is for sale and if you kindly give us some concession rate we can immediately pay you. So kindly do the needful. I am sending you Gurudasa Adhikari to take care of this on my behalf.

Thanking you,

Yours sincerely, A.C. Bhaktivedanta Swami

Prem J. Batra, 97, Amatragar, Chakala Kurla Road Ardhes; Bombay 400-043

My dear Mr. Batra,

Please accept my blessings. I am in due receipt of your letter dated March 27, 1976 with enclosed article. Concerning your questions raised, the process is simply to hear from authority and accept it. From the Bhagavad-gita we can understand Krishna because He is explaining Himself. What is the difficulty to understand. There is somebody Superior in all aspects of material activities. The sun rises exactly on time, the seasons changing, fruits appearing, and flowers. There is no change in the law of nature. Don't you think that there is a Superior Being managing these things. Why not accept this proposal. It is no explanation that it is simply accident that all these things are going on so nicely. "Mayadhaksena prakrti suyatte sacara caram . . . This material world is working under my direction, O son of Kunti, and it is producing all moving and unmoving beings. By its rule this manifestation is created and annihilated again and again." [Bg. 9.10].

Reasoning is there if you simply explain that Krishna is full in 6 opulences: strength, knowledge, wealth, beauty, fame, and renunciation. No one can excel Krishna in opulence. Nobody is equal to or greater than Krishna, therefore He is God.

The word for philosophy is tattva darsana-the Bhagavad-gita recommends that one approach a spiritual master who is tattva darsana, one who has seen the truth. This is philosophy.

I hope that this meets you in good health.

My dear Deoji, (and Upendra das)

Please accept my blessings. I am in due receipt of your two telegrams from Fiji, and I can inform you of the following. I am scheduled to leave Vrindaban for Bombay on the 12th April and then departing for Melbourne en route to Fiji from Bombay on the 18th April. Allowing some days in Australia, we could be in Fiji on or about the 24th or so of April. The only delay could be that I am scheduled to meet the minister of Haryana concerning the donation of land to us at Kuruksetra. If the meeting is favorable it may be necessary for me to attend a conference in Kuruksetra in late April, April 29th. However, that is not settled yet and so far my plans to arrive in Fiji on or about the 24th April stand. I shall inform you immediately as soon as I know of the Kuruksetra land. In the meantime, you should honor the contract, and if necessary do whatever is required. If I am delayed beyond the date of beginning the construction contract then I shall give you further details what to do.

I hope that this meets you in good health.

Letter to: Mr. Dhawan

Vrindaban 2 April, 1976

Mr. Dhawan Sunenri Dham Mohalla Dehra, Manimajra, Chandigarh

Dear Sir,

I beg to acknowledge receipt of your kind invitation dated Chandigarh, 19-3-76, addressed to my Bombay address. I am very glad to learn that you are endeavouring to understand the prime goal of life, without which the facility of human life becomes futile. I have just come back from Delhi yesterday and I'm preparing for going to Australia by the 10th April, therefore, I am very sorry that I must inform you I will not be able to attend the function, however, I am sending herewith the answers to your questions, as far as I know. As we have received this knowledge from the greatest authority, Krishna, these answers will be acceptable in every sphere of spiritual activity.

First question: What is the true aim of human life?

Answer: The real aim of life is to go back to Home, back to Godhead. We all living entities in different forms of body numbering 8,400,000 forms beginning from the aquatics up to the best advanced form of human life, there is a regular evolution by the laws of nature. The real fact is that we living entities although part and parcel of God, on account of our own disobedience have come down to this material world under different circumstances. We have different types of material dresses to fulfill the tendency for sense gratification, and this by the laws of nature, by association with the 3 modes of material nature. We are transmigrating through different forms of life. So this human form of life is given to us as an opportunity to understand our position because in the human form of life we have more developed consciousness than the lower forms of life like the aquatics, insects, plants, birds, beasts and the civilized and uncivilized human beings. So the point is that a human being must know the aim of life is to go back to Home, back to Godhead.

Question #2: Which is the exact path to attain this aim?

Answer: God is great and we are all subordinate to God. In other words, God is the Supreme Master and we are all living entities, servants of God. Therefore, the path which teaches this fact, that a living entity is eternal servant of God, that is the only single path which leads one back to Home, back to Godhead.

Question #3: How many leaders have actually achieved this aim?

Answer: This aim is a fact, and the path is a fact, and anyone who takes this path, he can achieve the goal. According to our authorities who have achieved this goal, there are many, many acaryas. In the recent years, within 1500 years, the following acaryas are actually leaders of this goal of life. They are Ramanujacarya, Madhvacarya, Visnu svami, and Nimbarka, and latest within the last 500 years is Lord Sri Caitanya Mahaprabhu. There are many such leaders who have achieved the goal of life and if you want to follow them, the path is very clearly mentioned.

Question #4: why all the present religions and spiritual systems came into existence, contradicting each other when humanity is meant to follow only one religion?

Answer: Religious system means the law given by God. In every system of religion the order is to follow the instruction given by God or His representative. Unfortunately, the so-called followers deviate from the orders of the master and sometimes create their own concocted religious system. Otherwise, there can't be different religions. We therefore accept only one religion which teaches one how to love God. Any religious system which doesn't teach this, how to love God is not religion, but is cheating system. The conditioned souls who have come to this world on account of forgetfulness of his eternal relationship with God is prone to be cheated, but a person who is sincere is not cheated, but he takes up the path which leads one to the perfection of life, how to love God. The present religious and spiritual systems in varieties come into existence on account of imperfect leaders who defied the authority of God. My suggestion is therefore that the leaders who actually agree as eternal servant of God may sit together and find out the ways and means of one religious system in this world. God is one. There cannot be many gods, otherwise there is no meaning of God. In the English dictionary, you find that God means the "Supreme Being." There are unlimited number of living beings, but God is one Supreme Being. Supreme Being must be one. Nobody can be equal to Him, and nobody can be greater than Him, otherwise there is no meaning of God. At the present moment it has become a fashion to become God very cheaply, therefore, such system being very cheap and not authorized, there are so many religious systems. Otherwise, God is one, all living entities are His eternal servants, and therefore, the real religious system is to learn how to serve God.

Question #5: What has Hasur Mohammed Sahib said about 14th Century and why?

Answer: I have not sufficient information about the instruction of Hazur Mohammed Sahib, but if you mean Mohammed, the inaugurator of Islam religion, I accept him as empowered servant of God because he preached God consciousness in those parts of the world and induced them to accept the authority of God. He is accepted as the servant of God and we have all respect for him. I do not know what he has said about the 14th Century, therefore, I cannot answer this point. You are mentioning the Holy Names of Nanak, Krishna, Kabir, Christ, Mohammed, etc. Out of all of these names we accept Krishna as the Lord and all others representative servant of God, Krishna. In the English dictionary, it is said God is the Supreme Being, and when Krishna appeared on this earth He proved to be the Supreme Being in all respects. We are spreading this Krishna Consciousness Movement all over the world and if all the leaders would accept this philosophy of the Bhagavad-gita As It Is, then I am sure that the world would be fortunate to follow one type of religion, and accept one God without any faulty conviction.

I thank you once more for your invitation and I regret very much that I will not be able to attend but it will be a great pleasure for me if the leaders of the conference will like to correspond with me regarding our conclusions as above mentioned.

Thanking you once more,

Yours faithfully, A.C. Bhaktivedanta Swami

My dear Hamsaduta Maharaja,

Please accept my blessings. I am in due receipt of your letters dated March 29 and March 30, 1976 and I have noted the contents with care. Concerning your need for some competent Hindi speaking devotees to assist the village program, I am authorizing that Lokanatha Swami can go with the buses. Also, I am aware of the shortage of manpower at Mayapur and I am sanctioning Bhavananda Maharaja to do the needful and also for some men to go from here, but whether they actually are being sent?

If it is not possible for you to come to Vrindaban immediately, that is alright. You can manage conjointly with Gopala Krishna by correspondence. So far Himavati's engagement is concerned, she is organizing the nursery here in Vrindaban for the young children. There is a meeting with one minister of Haryana and if it is favorable we may be given some land in Kuruksetra area. It may then be necessary for me to attend one large function there in late April if we are given the land, anyway, however, nothing is fixed up yet. Otherwise, if my presence in Kuruksetra is not needed, I will be flying to Bombay the morning of April 12, and then leaving for Australia, Fiji, and Hawaii about the 18th of April.

I hope that this meets you in good health.

My Dear Niranjana das,

Please accept my blessings. I am in due receipt of your letter dated 16th March, 1976 and I have noted the contents with care. Concerning your translating into Hindi, you had translated some small books into Hindi, where are they? Please send them to Bombay address. Also, you can write small articles for the Hindi magazine here, "Bhagavata Darsana." Also, translate more small books into Hindi and send them to Bombay.

There was one Hindi translation of "Bhakti-rasamrta-sindhu" which I saw, I do not know the name of it. It was published in Benares and I saw it at one friend's house. One of my Godbrothers attempted also to translate the same into Hindi with Sanskrit slokas but he only completed a few pages. If you like his address is Sridhara Maharaja, P.O. Navadvipa, Dist. Nadia, W. Bengal.

Your program of visiting the local Hindu temple and giving discourse on our philosophy is nice. Try to follow the four regulative principles and chant 16 rounds daily and you will gradually make progress in Krishna Consciousness.

Dear Sri Viswesha Tirtha Swami ji

Please accept my greetings.

I have received your letter from Guntur inviting me to Udupi through my disciple Yasodanandana Swami. I am very eager to come however due to prior comitments my program has already been scheduled. I am building one Kaliya-Mardana temple in the Island of Fiji and I will go there via Australia, where we have 4 centres, then New Zealand, where we have a center in Auckland, then on to Fiji. Afterwards I will visit my centre in Hawaii, Los Angeles (California) and New York.

In spite of my preaching program overseas, the scheduled program in Udupi on the 11th 12th 13rd may may go on and my sannyasi disciples Yasodanandana Swami and Acyutananda Swami will carry on the program there. Please help them to make this program a success.

Yasodanandana Swami has written an article on Madhvacarya and Udupi and it has been submitted to my monthly journal Back To Godhead, which has a circulation of 10 lakhs copies monthly.

This Sanatana Dharma pracara is the real path followed by all pure acaryas such as Madhva, Ramanuja, Sri Caitanya and others. Kindly help us to spread this Krishna Consciousness movement all over the land of Bharata Bhumi.

I hope this meets you in good health.

He has 12 rooms (10 are small and 2 are big), and they are located in the vicinity of Krishna Bhakti asrama in Raman Reti. You can make inquiries just where it is and survey the facilities.

Now there is some commotion about all the householders and children at the Temple so they can move there and we can use the 2 big rooms as a Gurukula for now. It does not matter that the land is not ours, that we can negotiate later, but we can utilize for the time being and negotiate later to purchase or not, or even he may contribute outright to us.

You can see the property and let me know promptly of the outcome. I shall send you a letter of authorization from Mr. Taparia in short time.

They are attempting to open a beautiful Hare Krishna Restaurant there and they say it is a good place. Ambarisa is prepared to make substantial investment to do this and the problem is that they require some householders to assist in the maintenance and cooking there full time. They need about 8 devotees to work full-time who are dedicated and would like to assist in the opening of the restaurant. It is also a good opportunity to see practically how this is done as Srutakirti and Ambarisa have good experience from the Hawaii Restaurant.

Letter to: Punjabi Premanand

Bombay 16 April, 1976

76-04-16

Bombay

My dear Punjabi Premanand,

Please accept my blessings. I am in due receipt of your letter dated 13 April, 1976, and I have noted the contents with care. Concerning your questions: Yes, it will help to read Bhagavad-gita but to have to hear from the realized person. Without the help of guru, if you read independently, you may be misguided. Therefore, so many politicians, scholars, etc. not being guided by the parampara system, have simply misled the public. The Bhagavad-gita is the standard book of knowledge in India and many eminent persons like Gandhi, Aurobindo, Dr. RadhaKrishnan, etc. they tried to understand the Bhagavad-gita, but could not do it. They were themselves misled and on account of their big position they misled so many followers. Our system, the Vedic system, is to approach the right person and hear from him exactly as Arjuna listened from Krishna. Mental speculation will not help. Hearing is the main point. In the Bhagavad-gita, it is written, dharmaksetre kuruksetre . . . when you hear from a realized soul, a person who knows things, he'll explain that Kuruksetra is a place where religious ritualistic ceremonies are performed from time immemorial, from the time before the Battle of Kuruksetra. But, if you read the books of some cunning politician, he'll mislead you and you'll learn that Kuruksetra means this body which is not actually the fact. That is the difference, hearing from devotees, the sound vibration coming from the realized person. Reading the book is the same thing . . . tattva-darsana-hearing from one who has seen the truth. Reading or hearing from the realized person there is no difference, but hearing the sound vibration from the realized soul is still more effective, better.

Concerning your offering of doing padayatra, travelling village to village; what is the use of getting the land in the hands of politicians who cannot properly utilize the land according to the instructions of Krishna. That's a fact, but if Indian young men join me I am immediately ready for this travelling touring from village to village, town to town. However, my foreign disciples have the language defect, they can't speak the village language, otherwise I would have started this program long ago. If some young men like you would join me then along with some foreign disciples I can immediately take up this program. If you are very eager, please get hold of at least half a dozen young men like you then with another half dozen foreign disciples, I can immediately take up this program and tour village to village and town to town. It will be very, very effective, I know that.

To think of Krishna 24 hours a day, if you are serious this can be done. It is not very difficult. Your associates are harassing you for your interest in spiritual culture, yes, that is due to India's great misfortune. They're impressed with so-called politicians and scholars of the modern age. The example is given in this connection that when a man is ghostly haunted, he speaks all nonsense. At the present moment they're all ghostly haunted and in this delirious condition the only cure is chanting the Hare Krishna Mahamantra.

I hope that this meets you in good health.

My dear Ambarisa das,

Please accept my blessings. I am in due receipt of your letter dated March 22, 1976 and I have noted the contents with care. I am happy to know that you are appreciating our work amongst the academic community. This is very important work to gain the acceptance of the academic world. If scientific men and scholars accept, the more that is a great stride. Here we have seen also in India. Burdwan University in Calcutta has taken a standing order. Also, in Benares the university there took 14 Standing orders. Please let me know how the restaurant is developing there, and also assist me in getting our books recognized by the academic circles there in Boston. That will be very nice.

Dear Mrs. Blasko,

Please accept my blessings. I am in due receipt of your letter dated March 12, 1976 and I have noted the contents with care.

Now that the Dallas Gurukula has been closed we have opened many smaller regional Gurukulas on some of our farming communities, such as our farms in Vancouver, Pennsylvania, and also Mississippi as well as others. It is best if you go to one of these regional Gurukulas where you can be nicely engaged in Krishna's service, and your young daughter can go to Gurukula.

Concerning the 88 acres of land there in Alabama, you can contact our GBC secretary for that area, Balavanta das Adhikari, c/o Iskcon Atlanta, 1287 Ponce de Leon Ave., N.B., Atlanta, Georgia 30306. He can assist you in this connection.

My dear Madhudvisa Maharaja,

Please accept my blessings. I am in due receipt of your letter of April 11, 1976 and I have noted the contents with care. I have sent you and I have experience that you have done nicely in Melbourne, and so you are the right one to organize the New York centre.

I am here in your temple, I'm feeling your separation. But, I'm seeing everything is going nicely, the same as when it was under your management. The devotees here, they are jumping and dancing very nicely. You can also establish the kirtana hall on the farm and install Gaura Nitai Deities. Gaura Nitai can be established anywhere, and it is simple to worship Them simply chant before Their Lordships. He doesn't mind that you have not decorated very nicely, but if you chant and dance He is very pleased. So you have my permission to take loan for this purpose, as you have mentioned for $25,000.

Rathayatra, that will be your achievement. Nobody has done it before. Rathayatra in New York should have been introduced long ago but there was no competent men to do it. So Krishna has sent you there and most likely I shall attend the New York Rathayatra. New York is the place where I first landed and now we have our own place and books, so if you do it very nicely it will be a great triumph.

I hope that this meets you in good health.

Dear Puranjana das,

Please accept my blessings. I am in due receipt of your letter dated 8 April, 1976 and I have noted the contents with care. Concerning the alternatives, it sounds like the printing cost of $1.25 is best as this will keep the price down and will also allow the full purport to be there. The general practice in deciding such matters shall be to have the BBT trustees discuss amongst themselves, and then they can submit their plan to me for final sanction.

I have noticed how you are producing so many of our books now in the Spanish and Portuguese language. This is very good. I shall be in Fiji by the 28th April, and shortly thereafter in Hawaii.

I hope that this finds you in good health.

The United States Consulate, Visa Section 24 Albert Road, Melbourne, Australia, Attn: Mr. Fagan

Dear Sir:

This is to inform you that I am leaving Melbourne for the United States to visit my disciples in our centres in the U.S.A. We are departing from Australia the 26th April, 1976, and first of all we will be visiting our centre in Hawaii. For the past several months, one of my disciples, Mr. Denis Harrison, holding British passport number P606464, has been my personal secretary and for this reason I require that he accompany me to the U.S.A. I know that he is a good boy as I have had ample time to study is character, and I can assure you as the Founder of the International Society for Krishna Consciousness that our society will take care of all his expenses, including maintenance and upkeep, as well as his air tickets to the next place after America; at this time we are scheduled to go to England after our program on the Eastern coast in New York city. I trust that you will do the needful to help me keep my schedule as I am expected to be in certain places on certain dates, and I require the accompaniment of Mr. Harrison, so kindly if you will issue him the required U.S.A. visa for the 3-4 months that he may be there in time before our departure on Monday April 26, 1976.

My dear sons and daughters,

Please accept my blessings. I am very grateful for all your offerings of daksina to your spiritual master. This is the system. Now all of you must very sincerely follow the regulative principles. Four don't's and one do: No illicit sex-life, no intoxication, no gambling, no meat-eating . . . and always chanting Hare Krishna, minimum 16 rounds daily. If you take very seriously these principles then Krishna will bless you without any doubt.

Los Angeles

My dear Ramesvara das Maharaja and Ranadhira das,

Please accept my blessings. I am in due receipt of your letter dated April 19, 1976, and I have noted the contents with care. Firstly, there is no need to print the Reservoir of Pleasure as if it were an excerpt from Dr. Judah's book. Furthermore, we can use some book review when it is favorable, otherwise reject it. Why should we print the Reservoir of Pleasure as if it were Dr. Judah's writing? Furthermore, you should not distribute Dr. Judah's book. We should not distribute anyone else's book except our own.

So far the sign is concerned, why should we make such an expenditure of so many thousands of dollars for a sign . . . what benefit shall we derive? Whether it will be beneficial or not? Everyone knows that it is Hare Krishna Centre so why should you spend some thousands of dollars? One thing, however, I can suggest. If we display there a new picture or painting of our Hare Krishna Movement regularly, very nicely painted. Also, you can have a book display, with pictures and paintings also. That will be good advertisement.

In regards to the International Yoga and Meditation Conference in Chicago, there is no need for any of our men to participate. However, you can have a Bhakti-yoga bookstall, and paintings, a painting of Dhruva Maharaja as 5 years old alone in the forest. One painting of a devotee sitting in a nice place chanting japa Hare Krishna. We have got yoga meditation . . . and quote authoritatively giving evidence: Yoginam api sarvesam, etc [Bg. 6.47]. One who chants Hare Krishna is the topmost yogi. The highest perfection of yoga is Radharani . . . Krishna goes to Mathura and all night She is crying, "Where is My Krishna?" But what they can understand? So you can have a bookstall, and show paintings, like that.

I am going on to Auckland by the 26th April, then to Fiji for 28th April where we are laying the foundation stone for our new temple there. Afterwards, I shall go to Hawaii and then to Los Angeles at the end of May, or early June. I hope that this meets you in good health.

You have stated that you would also assist in the printing costs. I can write an introduction to the book if it is approved by the others to go ahead and print it.

On your recommendation I agree to the second initiation of Jagaman das Brahmacari. Impress upon him the seriousness to follow the regulative principles strictly, keeping clean outside and inside by constantly chanting Hare Krishna. You can hold fire yajna and play a tape of the chanting of Gayatri Mantra into the right ear.

My dear Giriraja das,

Please accept my blessings. I beg to inform you that I have sent two separate telegraphic transfers in Indian Rupees to the Bhaktivedanta Book Trust a/c 16066, care of the Central Bank, Gowalia Tank Branch, Bombay. I am enclosing the two receipts, one for Rs. 8,857.15 and the other for Rs. 14,797.17. So the total amount is Rs. 23,654.32. Now please see that this is recorded in the passbook and inform me accordingly.

I had taken some Rs. 59,000/- from the BBT account, so you can deduct the Rs. 23,654.32 from this. Hence I must still give Rs. 35,345.68 towards this.

Tomorrow we go to Fiji for some time, and the laying of the foundation stone of our new temple there, then on to Hawaii, and by about June 1st, we should reach Los Angeles. After that we are planning to visit Detroit, New York Rathayatra tentatively scheduled in late June, then New Vrindaban. Before returning to India, we shall stopover in Europe for about 2 weeks, and possibly Tehran.

My dear Mrs. Perera,

Please accept my blessings. I wish to thank you for your kind offering which I have duly given to Srimati Radharani. This is the way, to give the very best thing to Radha-Krishna. Decorated with love, Krishna will accept even the humble offering of a leaf, fruit, flower or some water from His devotee. Anyone, anywhere in the world can worship Krishna following this simple formula.

Now you are placed in some awkward circumstances for rendering devotional service as you have mentioned in your letter to me. Devotional service is so powerful that it cannot be stopped in any circumstance. There are histories of many great devotees, like Prahlada Maharaja, who was living in the house of his demon father, Hiranyakasipu. Hiranyakasipu did not even like to hear the name of Krishna, but Prahlada had perfect faith in chanting the Holy Names of the Mahamantra, Hare Krishna Hare Krishna Krishna Krishna Hare Hare, Hare Rama Hare Rama Rama Rama Hare Hare, and in this way Krishna saved Prahlada in the end. So please be patient and go on chanting Hare Krishna and try to visit the temple as much as possible. Krishna will offer you all protection and make all suitable arrangements for His devotees to engage in His service. Thank you for your keen interest.

Hoping that this meets you in good health.

Letter to: Svarupa Damodara

-

Auckland 27 April, 1976

76-04-27

Atlanta

My dear Svarupa Damodara Das,

Please accept my blessings. Now our Ph.D's must collaborate and study the 5th Canto to make a model for building the Vedic Planetarium. My final decision is that the universe is just like a tree, with root upwards. Just as a tree has branches and leaves so the universe is also composed of planets which are fixed up in the tree like the leaves, flowers, fruits, etc. of the tree. The pivot is the pole star, and the whole tree is rotating on this pivot. Mount Sumeru is the center, trunk, and is like a steep hill, like the alps mountains which also have very high peaks. I have seen in Switzerland one mountain peak which was so high that is penetrated through the clouds. The tree is turning and therefore, all the branches and leaves turn with the tree. The planets have their fixed orbits, but still they are turning with the turning of the great tree. There are pathways leading from one planet to another made of gold, copper, etc., and these are like the branches. Distances are also described in the 5th Canto just how far one planet is from another.

We can see that at night, how the whole planetary system is turning around, the pole star being the pivot. Each planet has its orbit fixed but the sun is moving up and down, north and south. It is not that we shall accept the theory that the sun is fixed up and the others are all going around the sun. That is not correct. Even the 7th star is rotating once around the pole star in each 24 hours. The whole universe is just like a big tree, that is a fact. I do not think that the modern astronomers have any such idea that the whole universe is like a big tree. The planets which are full of living entities are one after another, one above the other. The relative positions of the planets is fixed up but the whole thing is turning. The sun is going north and south, it has its own orbit below the moon. So now you all Ph.D.'s must carefully study the details of the 5th Canto and make a working model of the universe. If we can explain the passing seasons, eclipses, phases of the moon, passing of day and night, etc. then it will be very powerful propaganda.

I am sending this letter to you, and you can make photocopies of it and send to our other Ph.D.'s and begin serious research into the matter in detail. But one thing, I am convinced that the universe is just like a great tree as described therein.

I hope that this meets you in good health.

My dear Ādi Kesava Maharaja,

Please accept my blessings. I am in due receipt of your letter dated April 21, 1976, and I have noted the contents with care. Your plan to have the Rathayatra on July 18th, down 5th Avenue, is approved by me and I shall try to be there definitely. However make the carts very strong, not that while the procession is going on, the wheel breaks on the cart. It is better to have one first class cart. The cart in Philadelphia was done very nicely. If you are unable to make three strong carts, then make at least one very nicely. But, if you can make three very strong, then I have no objection.

Concerning the house in Delhi, I am surprised to hear that the State Department in Washington has not yet received our application from their Delhi office. I am herewith enclosing a true copy of the application with explanatory note to this effect. I want you to see that this is delivered to the proper person in Washington, and if possible you can arrange an appointment with him so that I can meet with him and finalize matters if possible when I visit Washington. I am tentatively scheduled to visit Washington, D.C. between the 2nd July (friday) and the 9th July (friday). If we can finalize this business during this time in my presence, that will be very nice. My dear Giriraja das,

Please accept my blessings. I am in due receipt of your letter dated April 28, 1976, and I have noted the contents with care. Seeing the success of the BBT Library Party, I am therefore stressing so much on the book distribution. Let the higher section accept these books, it will be a great triumph. Then the nonsense remark that "kirtana is nuisance" will be stopped.

Regarding the Taparia land in Vrindaban, take it! Aksayananda Swami sent me a telegram to say that the place is too secluded, with no road and thieves. Never mind, despite all inconveniences, take the land and when I return I shall see the situation and decide how to use the property. Some of our men can go and live there without difficulty, and begin making the necessary repair work.

With regards to the farmland you mentioned; we can not purchase any land for this purpose. If the land is donated, either by this party or that party, we can make use of the land, but we cannot purchase such land.

With regards to the question of our devotees being permitted to remain in India, this point should be discussed in Parliament. The point should be raised why our devotees who are coming from foreign lands should not be permitted to remain indefinitely in the Holy Places? We have nothing to do with politics and our cultural and religious movement is being spread throughout the world. When they become actually devotees, it is the instruction of the sastra to live in such Holy Places as Vrindaban, Mathura, and Dvaraka. The references are there in the Bhakti-rasamrta-sindhu.

Other sects also have their holy places of sanctuary. Even the Buddhists' sect have a place in India, Gaya. Our Vaisnava injunction is there in the sastra, that devotees should dwell in the Holy Dhamas; many hundreds and thousands of devotees live in places like Vrindaban, Haridwar, and many other such places. Similarly, foreigners who have accepted this sect and religious process, they should be allowed on our recommendation to stay in India. So if some Parliament members debate on this question on the basis of cultural platform, it is a glory for India that our Krishna Consciousness Movement is being accepted all over the world, why the government of India should not accept?

Even taking into consideration the economic point of view that India has already got overpopulation, that is not a very sound ground. Even it is accepted, these foreign devotees are ready not to take a grain of India's production. They can bring their own food sufficiently for taking prasada themselves, as well as for distribution to others. There is no question of economic problem. Why these cultural and religious facilities should not be given to the foreigners who have accepted them as their life and soul. Our students from India go to foreign countries for learning higher technology, why the foreigners should be be denied to learn the higher transcendental science in India. In addition, we have already published over 56 books which are highly appreciated by foreign and Indian scholars and the educated section. So it is a great science of God consciousness. The government should take it very seriously and help spread this Krishna Consciousness Movement all over the world.

At least visa should not be limited to three months, six months, like that. The devotees should be accepted as permanent residents on our recommendation. If it is a question of economics, then they can bring food, and cloth from abroad sufficient for themselves and others. Neither they are going to occupy big, big tracts of land for residential purposes. No, they are trained up to lay down on the floor for taking rest. Whatever is required we shall do, but let them stay. The government allows Christian missionaries to stay, and the foreigners come to learn Indian religion, they are not allowed to stay? This is not a very good policy.

I hope that this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear Nityananda das,

Please accept my blessings. I am in due receipt of your letter dated April 17, 1976, and I have noted the contents with care. You can call your farm, Talavana. Concerning constructing a temple at the farm, it is feasible only if you have sufficient brahmanas to take nice care otherwise no. You have seen our Vrndavana temple, also the temple in Melbourne and Los Angeles. So things must be at this standard in order to have a temple. The standard must be very high. Neatness and cleanliness are the first business of temple worship. I shall see later on whether or not that Krishna Balarama can be installed there. You cannot paint the Deity with paint to make bluish. Don't manufacture ideas. What is standard you must follow. Don't make it a farce.

On your recommendation I am accepting the following devotees for initiation:

Lee Sutton-Kuruksetra das Ernie Courey-Vidyapati das Barbara Sutton-Parijata dasi Padavja das Brahmacari (second initiation)

Hold a yajna and instruct the initiates that they must follow the 4 regulative principles: no intoxication, no meat-eating, no gambling, and no illicit sex-life, and chanting minimum 16 rounds of Hare Krishna Mahamantra daily. The brahmanas must cultivate the brahminical qualities as mentioned in the Bhagavad-gita and in the other literatures. They must keep clean externally by bathing regularly each day, and internally clean by always chanting Hare Krishna. The beads of the first initiates can be chanted on by one of the sannyasis and the thread for brahmana initiation is herein enclosed. After the fire yajna you can play a recording of the gayatri mantra played into the right ear of the brahmana initiate.

I hope that this meets you in good health.

My dear Puranjana das,

Please accept my blessings. I am in due receipt of the Spanish edition of the Srimad-Bhagavatam first Canto, Chapters 12-15, and I thank you very much. These books are the life of human society. Others may be disturbed, but they cannot disturb this Srimad-Bhagavatam. Let any man come, but here they cannot touch. We are putting these books for deliberation before the topmost thinkers of human society. Therefore, I have to see that in all languages all of our books are published. If we strain, and if he takes one book home, some day people will come to understand what valuable knowledge they have received. It is transcendental literature. Nobody can challenge it. It is done so nicely, without any spot, the spotless Purana. Please continue like this to print books in all the languages for the benefit of suffering, misdirected humanity.

I hope that this meets you in good health.

My dear Radhavallabha das,

Please accept my blessings. I am in due receipt of your letter dated April 22, 1976, and I have noted the contents with care. Yes, there is no need for corrections for the first and second Cantos. Whatever is there is alright. Once Pradyumna comes to join me here from India, then there will be no need for Nitai das or Jagannatha das to edit the Srimad-Bhagavatam.

I would like to know who has done the advertising layout for the ad on page 98 and 99 of the brochure entitled, Association for Asian Studies, San Francisco, March 24-25, 1975. Please make enquiry and inform me who has done the layout and who placed the advertisement. If you do not know, then perhaps Ramesvara das Swami or Satsvarupa das Maharaja would know.

The Manager, Central Bank of India, Gowalia Tank Branch, Bombay, India

Dear Sir:

Herewith please find enclosed one bank draft for U.S. $2,871.45 (U.S. dollars two thousand eight hundred and seventy one and forty five cents). The check is a Bank of Hawaii check (Honolulu Main Office), draft number FH 099223 dated May 5, 1976. Please credit this amount to the Bhaktivedanta Book Trust savings fund account number 16066 with your branch. This is meant for printing books. Kindly inform me of this transaction upon completion.

Thank you.

My dear Giriraja das,

Please accept my blessings. Herewith please find one copy of a letter to the Central Bank of India, Gowalia Tank Road Branch, Bombay. I sent one bank draft to them by registered post. See that the transaction is executed and have the funds entered in the Bhaktivedanta Book Trust passbook.

On Yasodanandana Swami's plea, I have sent him Rs. 15,000/- care of the Hyderabad Temple. This will be used for printing books by Yasodanandana Swami in South India.

Now, I originally owed Rs. 59,000/-, and I sent 2 telegraphic transfers totalling Rs. 23,654/32 from Melbourne, Australia (see my letter dated 27th April, 1976 to you). So this left the balance at Rs. 35,345/68. However, I gave you Rs. 5,000/- when I (by transfer also) was in Bombay, so the remainder is Rs. 30,345/68. Now, this check for U.S. $2,871.45 is approximately Rs. 25,411/06 at the rate given here of U.S. 11.3 cents equals one rupee. So this leaves the balance at Rs. 4,934/62. This amount will be paid by Yasodanandana Swami. He will give Rs. 5,000/- towards the Bhaktivedanta Book Trust account 16066, and the remainder of the loan, Rs. 10,000/- will be paid into my personal account at the Punjab National Bank, Krishna Balarama Mandir branch, savings fund account number 1. In this way he can repay the loan of Rs. 15,000/- and my debt to the BBT will thus be cleared.

I hope that this meets you in good health.

My dear Aksayananda Swami,

Please accept my blessings. We have just come from Fiji Island where we are about to build our first temple outside India. This Krishna Kaliya Temple will be in many respects similar to the Vrindaban Temple as regarding the architectural work. Therefore, I am requesting you to make photos of the altars, and give detailed dimensions of the same, as well as the Vyasasana. Also take photos of the area outside the altar from where people will view the Deities. These items and others requested by the devotees in Fiji should be sent to them directly so that they can go ahead unimpeded in the construction of the new temple. Please do this immediately. The address in Fiji is

My dear Brisakapi,

Please accept my blessings. I am in due receipt of your letter dated May 2, 1976, and I have noted the contents with care. I also am desirous of visiting Washington, as I have never before been there. I am presently scheduled to go to Washington, D.C. from July 2 to July 9. I am looking forward to meeting with one State Department official, a Mr. Twohi, who is handling a house which we want to acquire to house our Delhi Temple. I believe that Ādi Kesava Maharaja who is presently in N.Y. temple is supposed to arrange this meeting between myself and Mr. Twohie. So far meeting the President is concerned, you can try to arrange, but it is not the most important thing.

On your recommendation, I am accepting Larry Tucker for first initiation, and Bhavanath das Brahmacari for second initiation. The first initiates' spiritual name is Lokaguru das. Have his beads chanted on by one of the sannyasis, and see that the devotees are strictly following the 4 regulative principles: no illicit sex life, no intoxication, no gambling, and no meat-eating. Everyone must chant a minimum of 16 rounds of Hare Krishna Mahamantra daily, and in this way be protected from the frailties of material existence. You will find a gayatri mantra sheet enclosed. After holding a fire sacrifice for both initiates, play the gayatri mantra into the right ear of the initiate. Brahmin thread is also enclosed for Bhavanath das.

I hope that this meets you in good health.

Please accept my blessings. I am in due receipt of your letter dated April 27, 1976, and I have noted the contents with care. The best thing is that you engage yourself in chanting the Hare Krishna Maha-mantra as many times as possible and Krishna will save you. I wish that all your family members should chant, your wife especially, for your prolonged life. Whenever you find time please go to the Bombay temple and offer your sincere obeisances to Lord Krishna. Nobody's life will continue in this material world but if we practice Krishna Consciousness, then certainly by giving up this body one goes back to Home, back to Godhead. As said by Lord Krishna Himself in the Bhagavad-gita:

janma karma ca me divyam evam yo vetti tattvatah tyaktva deham punar janma naiti mam eti so 'rjuna [Bg. 4.9]

"One who knows the transcendental nature of My appearance and activities does not, upon leaving the body, take his birth again in this material world, but attains My eternal Abode, O Arjuna."

As you know, I have requested the devotees here to construct one beautiful temple on the grounds in order that many people may come from all around and see the gorgeous worship of the Deities. It is a big project and will require so much capital. So if possible you can try to follow the formula recommended practically by Srila Rupa Goswami, that 50% of one's income be spent for propagating Krishna Consciousness. That will be very nice, and then your business endeavours will surely be pleasing unto the Supreme Lord, as stated in the Srimad-Bhagavatam:

Letter to: Sri K. K. Joshi

-

Honolulu 9 May, 1976

76-05-09

Sri K.K. Joshi, Secretary Indian Humanist Union Kotwara House, Kaisarbagh Lucknow, India

Dear Sriman Joshiji,

Please accept my greetings. I thank you very much for your letter dated 3/5/76 and I have noted the contents with care.

Just now I am on my 15th world tour and your letter was forwarded to me here in Hawaii from my Bombay address. It will take at least 3 months to return to India. I am very much pleased that you have invited us to cooperate with you in this matter of humanitarianism. I shall be glad to know in detail what is your program. Our program is to awaken the human society to God Consciousness.

The living entity is eternal and changing body by the evolutionary process. In this material world there are 8,400,000 forms of body and the living entity is passing through the cycle. When the living entity is given a chance in the process to become a human being, he has to decide which way he wants to go.

We are preaching on the basis of the Vedic literatures, which are considered to be the most authentic knowledge by Indian scholars, religionists, and people in general. This authenticity is being appreciated now by all scholarly sections throughout the whole world. Our books are being received by all libraries, universities, and scholarly persons, and I wish also that your institution may also order for all these books so that you can understand our point of view. Enclosed is one catalog which vividly describes some of these books. They are available to your institution through our Bombay branch where address is: Hare Krishna Land, Juhu Road, Juhu, Bombay 400-054.

With reference to your statement that you are concerned with this life alone, I could not follow what you mean by this. In this life also, you take care of educating your children. So if the child is not educated for the next stage of life, then how do you account for the child's youth-hood age. Life is a continuation. The baby grows to become a child, the child grows to become a boy, the boy grows to become a young man, the young man becomes a middle-aged man, and the middle-aged man becomes an old man. So with which stage of life are you concerned? I shall be glad to know in which stage of life you are interested. If you don't take care of the child and simply become concerned with the young man, is it possible to act properly in the matter of humanitarianism? And according to the transmigration of the soul, a man can become a dog in the next life. So you take care of this life, and if in the next life he becomes a dog, then what?

Immediately, of course, we do not insist on philosophy, but if people join sankirtana, chanting and dancing and taking prasadam, then immediately we can begin cooperating without any distinction of Hindu, Christian, Muslim, etc. Unless we make our program in an authorized perfect way, anything we try to do will be a failure. So I shall be glad to hear from you further in this matter.

I hope that this meets you in good health.

Yours faithfully, A.C. Bhaktivedanta Swami

Office of the President of the United States White House Washington, D.C. Personal Secretary to the President,

Dear Sir:

On your new $2 note it is stated "In God We Trust," and directly beneath "Declaration of Independence, 1776." On the 200th anniversary of this occasion, why not begin teaching the science of God as described in the Vedic literatures, like the Srimad-Bhagavatam, which is authorized and appreciated by all learned professors in the universities throughout the whole world. This Krishna Consciousness Movement is going on since 1966 throughout the whole world, especially in the United States of America. It is a great fortune for the American people that they "Trust in God." Why shouldn't this spiritual education be given to the American people in an organized way? The whole world is going down and becoming Godless. If the American people, who trust in God, constitutionally, take this movement seriously, it will be a great service to the human society. We are prepared to cooperate in this connection if the American Government takes it very seriously.

Awaiting your reply with interest.

My dear Ajita das,

Please accept my blessings. I am in due receipt of your letter dated April 26, 1976 and I have noted the contents with care.

Concerning renaming your temple, if I have already given a name previously, then what is the need to re-name it. Now I can see that there is good preaching potential everywhere in your country as you mention the good response at the universities. Push on with these preaching activities and distribute my books profusely. They will someday realize how valuable books we have left them.

If you carry out your plan to hold Rathayatra, be certain that the Ratha-cart is very strongly made, so that it does not break during the procession. They had a very good cart made in Philadelphia and you can take hints from the devotees there how they designed their cart.

Upon your recommendation, I am accepting Lilamohana das and Kesava das for second initiation. Their threads are enclosed and you can play the gayatri mantra with accompanying mantra sheets into their right ear. Also, I am accepting Robert Hamilton (Sthayibhava das), and Joseph Hall (Mahamantra das) as my disciples. You can hold fire sacrifice and their beads may be chanted upon by Kirtanananda Swami. They must agree to strictly follow the regulative principles: no illicit sex-life, no intoxication, no gambling, and no meat-eating, and to chant minimum 16 rounds of japa daily. When completed it will be a wonderful building and we want to keep it open for people to visit from all over the world. We are expecting guests like hotel so the rooms must be available. I also want to know what terms you have arranged with persons who gave substantial contributions for building the rooms in the towers. Please relay this information to me immediately.

Also, I am finding that there is one oil which Pradyumna brought with him from Bombay, it is helping to relieve the pressure on the head a little. You can send me 3 bottles of this oil, Brahmi oil, made by the Sadhana Ausadhala; they have a place in Bombay near the intersection of Kalpadevi Rd. and Princess St. It must be packed very nicely otherwise the bottles will break or leak. To stop leakage, you can melt some parrafin, and seal the bottles with the caps on by dipping the side of the bottle with cap into the liquid parrafin, and when it is pulled out and cooled, it will seal the space around the cap. Then also there should be some soft packing around the bottles so that they do not break in transit. Best if someone is coming personally to the U.S.A., they can bring it with them, but if that is not possible at this time, then send it nicely as above mentioned. You can send it to me care of the Los Angeles Temple as we will be there just after the beginning of June. Send it registered and special delivery so that it is handled very fragilely.

My Dear Sriman RamKrishnaji,

Please accept my greetings. I thank you very much for your invitation letter dated April 28, 1976, addressed to my Bombay headquarters, forwarded to me here in Honolulu. When you came to see me in Bombay I had already accepted to become the member of the Co-ordinating Committee. of the Gita Prachar Conference.

As you know I am trying my best to preach the teachings of the Bhagavad-gita all over the world, and I am experiencing some glimpse of success in this connection. Naturally, I'm inclined to preach the teachings of the Bhagavad-gita very fervently in India. India is the land of spiritual culture. But gradually, India, being influenced by the material allurement; Its spiritual culture is being forgotten.

It is the duty of the Indian Leaders to note this degradation. There is no harm to become materially advanced, but if simply for material advancement we forget our spiritual basis, it will be a great loss. Therefore, I am also very eager to revive India's spiritual culture with the help of the Gita Foundation.

The difficulty is, I have come out of India with a program scheduled to continue up to August 14th, 1976, the expected date of return to Bombay. Now, if I suddenly return to India, I will have to cancel all other programs, or if I go to India by the time, June 28th, I would have to return again to complete the scheduled program, which means very heavy expenditures. Two secretaries travel with me inevitably, so I am in this dilemma; whether I shall return and again come back spending heavily. So, I shall be glad to hear from you what you advise. In this connection, you can contact my secretary, Giriraja das Brahmacari, at our Bombay center.

I hope that this meets you in good health.

Yours faithfully, A.C. Bhaktivedanta Swami

n.b. The teachings of the Bhagavad-gita are so potential that if it is practiced seriously, it can bring in a new life and civilization. Now you have established a Gita Pratisthan, so do it very seriously. ACBS/pks

My dear Sevananda das,

Please accept my blessings. I am in due receipt of your letter dated May 9, 1976, with the enclosed 3 copies of the Chinese edition of the Bhagavad-gita As It Is. It is a great triumph, and now you should see that this work continues. It is very important, and Krsna will bless you all for your sincere determination.

Regarding the two initiations, on your recommendation I agree to accept Yasomatisuta das for second initiation. Enclosed you will find his brahmana thread, and a copy of the gayatri mantra. After the fire sacrifice, you should play a tape of the gayatri mantra into his right ear, teaching him how to count on the fingers the prescribed number of times. The brahmana should remain clean outside and inside by regular bathing and chanting of the Hare Krishna Mahamantra. Also, I agree to accept Bhakta Richard as my disciple. A disciple promises to refraim from the four pillars of sinful life: no illicit sex-life, no intoxication, no gambling, and no meat-eating. In addition, one must chant at least 16 rounds of japa daily and in this way progress in Krsna Consciousness. One promises before the spiritual master, the Deity, the fire, the devotees, the Supersoul, so it should very strictly be followed. You can have Gurukrpa Maharaja chant on his beads before the Fire Sacrifice, and present his beads to him at the time of the sacrifice. His spiritual name is Satyasena das. See that everyone is strictly following by presenting an ideal example yourself, and try to distribute these new Chinese Bhagavad-gita as much as you can.

I hope that this meets you in good health.

My dear Trivikrama Maharaja,

Please accept my blessings. I am in due receipt of your letter dated May 10, 1976, along with enclosed pamphlet printed in Korean language and photographs of preaching activities in South Korea.

I am very pleased to know that you are doing something solid there. What should be the objection on the part of Gurukrpa Maharaja that you cannot stay there several weeks until you get your missionary visa? There is no cooperative spirit. So you are actually doing preaching work in South Korea, and our mission is one, so why there is objection that you stay in Japan for receiving visa for Korea?

Under the circumstances, I have no objection to your staying there with your party until you receive the missionary visa for South Korea. Gurukrpa Maharaja should assist you in whatever way he can and both of you work cooperatively together.

My dear Yasomatisuta das,

Please accept my blessings. I beg to acknowledge receipt of your translation into Chinese of the first 6 chapters of the Bhagavad-gita. It is a great triumph and is very well done. Some how or another now push it amongst the Chinese. Don't worry about money for printing books. If you require money, it will be supplied; and I am informing Gurukrpa Maharaja and Tamala Krsna Maharaja in this connection. You simply have to find out the market and push these books amongst the Chinese.

Do not be concerned that there may be some difficulty in preaching to the Chinese. Krsna has designated you to raise them to the higher level. Caitanya Mahaprabhu's mission is to raise the degraded to the higher platform. So Krsna has sent you amongst the Chinese people to save them . . . so don't be disheartened and go on with the work, you'll get strength. Whatever financial help you require, I shall see that it is provided.

As your spiritual master, I have my whole-hearted thanks for your service. May Krsna bless you. You have done a great service for being recognized by Krsna, and continue with this work.

I hope that this meets you in good health.

My dear Gopala Krsna Das,

Please accept my blessings. I am in due receipt of your telegram from New Delhi relating the latest victories of the BBT Library Party.

I have requested Radhavallabha in Los Angeles to send you all the transparencies for printing the color pictures in all of our books. So you can proceed to print all of the books and distribute them profusely. These standing orders need standing respect. So print these books in India using the government paper and see that there is good supply of books to all of our distributers throughout India.

Now, Yasodanandana Swami is going to print some of the small and medium size books for his distribution in South India, so you can supply him with the transparencies and he can return them in good condition to you after he has no more use for them.

I hope that this meets you in good health.

My dear Trivikrama Swami,

Please accept my blessings. Yesterday my secretary received a telephone call from you indicating that everything was mended between yourself and Gurukrpa Maharaja, and then today he received a call from Gurukrpa Maharaja saying that the both of you were not cooperating. So what am I to do? I have appointed Gurukrpa Swami the GBC for Japan and for now at least it will be necessary to comply with him. He has suggested that you leave Japan while waiting for the reply from the S. Korean embassy there, so you can please comply with his request. He suggested one island called Okinawa where you could go for the time being, and if that is not possible then you should come here to me in Hawaii. In any case, for whatever reasons Gurukrpa Maharaja has requested like this and he is delegated GBC by me, so follow this course of action for the time being so that things can go on peacefully in Japan, as you know it is a very touchy situation with the government, and being GBC, Gurukrpa Swami is given sanction by me to develop the program along guidelines which he can choose.

I hope that this meets you in good health.

My Dear Yasodanandana Maharaja,

Please accept my blessings. I am in due receipt of your letter dated May 4, 1976, and I have noted the contents with care.

By this time you should have received the money I sent for your book printing in Hyderabad. I sent you one check care of Mahamsa Swami, bank draft FH 099222, for $1,700, the equivalent of just over Rs. 15,000/-, which you requested as an advance for printing books. I have to this time received no reply from either Mahamsa Swami, and neither an acknowledgement of reciept of the bank draft from yourself. Please check on this, it was sent to the Hyderabad temple address by registered post care of Mahamsa Swami. Further I gave instructions in my letter to you of May 5, 1976, how you can repay this loan to you. I am concerned to see that this arrived safely through the post.

I have informed Gopala Krsna that you may also use the color transparencies for the printing of your books in South India. Radhavallabha is sending Gopala Krsna all the transparencies from all of our books as we intend to print all of our books in India for profuse distribution.

I am very encouraged to hear about the large crowds that are coming to the programs and taking our books. Concerning the new boy who has joined you from the Hubli program, you can keep him with you as you see fit, but be careful about money matters. Sometimes they will join with some ulterior motive. In the beginning, be very careful with money matters.

As regards your desire for Sadbhuja Deity, if your divert your attention to worship, that will not be good. Time is short. You can keep one picture for your darsana.

I hope that this meets you in good health.

My dear Brahmananda Maharaja,

Please accept my blessings. I am in due receipt of your letter dated May 2, 1976, and I have noted the contents with care.

Somehow or other I want that the Nairobi center is maintained, not closed. As sannyasi you can come and go, but my only ambition is that the center may not be closed.

You can inform the Mr. Motichand Shah, the gentleman who has started ”Krishna Industries,” that he can pay at least 50% of his income to the temple. If he wants to serve Krishna and he doesn’t spend anything for Krishna, then it is not at all good.

I am writing a letter to Caitya Guru das to issue one letter of explanation and apology to Mr. Amarshi B. Shretta, P.O. Box 53, Kisumu, Kenya, explaining what the reason was for not bringing his car at the time appointed. Also, please find enclosed one letter from Sarva Vit das Brahmacari in the Mombassa Temple. Please advise him in this matter as you best can judge the situation being there.

My dear Gurukrpa Maharaja,

Please accept my blessings. I have spoken with Sukadeva das Adhikari, the Honolulu Temple President. It appears that because you had made some derogatory racial remarks against him in the presence of other devotees here in the temple, it has become difficult to manage and win the respect of this devotees. If the GBC undermines the efforts of the temple presidents how will things go on smoothly. This situation could have been avoided by sober dealings in a Krsna Conscious manner.

I do not want that Sukadeva be removed from his position as I can see that he is sincerely following the principles at present. The GBC can not whimsically change the temple president, there is a resolution to this effect. Why have you threatened to remove him and unnecessarily created this situation? Please be very sober in your dealings with these temple presidents, they are undoubtedly rendering a valuable service and are worthy of respect and encouragement.

I hope that this meets you in good health.

Bhaktivedanta Manor

My dear Jayatirtha Das,

Please accept my blessings. I am in due receipt of your letter dated May 9, 1976, and I have noted the contents with care.

The house that you mentioned in London, if it is necessary, I approve the L40,000 loan. There is another Hindu very sympathetic by the name of Mr. Modi. See if he cannot be of some service in the absence of Mr. Samani. It is very encouraging to hear the reports of increased sankirtana. Go on like this more and more.

Concerning the situation in Germany: So you are the right man to train them up. It is Krsna's desire that Hamsaduta is replaced by you. I have certified that you are our first class temple manager in our society. A little change is invigorating, so try to serve me to the best of your capacity. As Harikesa Maharaja appears to be very nicely there, why not Harikesa Swami be your assistant.

Your plan to print the books in German language is thoroughly approved by me. Make the same propaganda as in America to attract the scholarly world. Do it immediately. It doesn't matter where you print the books. You can print with Dai Nippon or in India. But why not Germany? We have got money in Germany, and you can present the bill to the bank for payment. Whatever the case may be, print books and present the bill to the bank. It is a good case in our favor. We are printing books in Germany in the German language. So why the money is frozen? Some good lawyer should be gotten. It will be good publicity and at the same time we will have the books. Whether the money was collected illegally or legally, the money is being spent in Germany. it is not going outside so why it is being held up illegally. Let it be spent in Germany. That is our money, there's no dispute. It is not the aim of our society to mislead the public; you can show them our aims. Maybe some workers have done like that but we are trying to enlighten the whole world and the people of Germany with good knowledge. You can show them the full set of books that we are going to print in the German language, and use all of the professors quotes to show how authoritative our books are amongst the scholarly circle throughout the world. So it is not the aim of our society to exploit money for drinking, illicit sex, etc. These are not the aims and objects of our society. If some individual did wrong, the society is not held responsible. The society's aim is to build men and women of character and knowledge. We live a simply life based on the aims and objects of our society. If some individuals have done wrong it shouldn't jeopardize our entire community. People accustomed to all nasty habits have joined our society and are leading pure, happy lives. They want to take the money from us, but who will take payment of all that money that we collected to fulfill the aims of our society? Convince them that, never mind, in your opinion it was collected illegally, but it is being spent in Germany for a good cause. These books are being appreciated all over the world. Let the money be paid to the printer, whatever it may be it is being paid to the German people. In the meantime print the books, that will save us. When the educated circle supports our movement, there is no danger. We have already printed some books in German language.

So what is the loss on their part? We are spending the money in Germany. Print the books; get the government to pay the bill (allow us to spend the frozen money for payment of the books; if the court decides that we must pay the money to the government, then at least we must be able to print the books, pay the bill, and after selling the books we can pay the government as a last resort. Our mission is for enlightenment.

You will require an intelligent lawyer. Collect the opinions and standing orders from all over the world and present it to a first class lawyer to present on our behalf very nicely.

Please keep me informed of the developments there. I hope that this meets you in good health.

Mr. Shretta is very much upset at this and he demands an explanation and an apology. There have been many complaints at the mismanagement in the past and now Brahmananda Swami has worked very hard to regain the respect and support of the Indian community in Kenya. Needless to say they are supporting our movement in Kenya and we must be straightforward in our dealings with them. I want you to write a letter of explanation and apology to Mr. Shretta and also you can send one copy of your letter to Brahmananda Swami at the Nairobi Temple address, P.O. Letter to: All Governing Board Commissioners

Honolulu 19 May, 1976

All Governing Board Commissioners

My dear GBC disciples,

Please accept my blessings. Over the past ten years I have given the framework and now we have become more than the British Empire. Even the British Empire was not as expansive as we. They had only a portion of the world, and we have not completed expanding. We must expand more and more unlimitedly. But I must now remind you that I have to complete the translation of the Srimad-Bhagavatam. This is the greatest contribution; our books have given us a respectable position. People have no faith in this church or temple worship. Those days are gone. Of course, we have to maintain the temples as it is necessary to keep our spirits high. Simply intellectualism will not do, there must be practical purification.

So I request you to relieve me of management responsibilities more and more so that I can complete the Srimad-Bhagavatam translation. If I am always having to manage, then I cannot do my work on the books. It is document, I have to choose each word very soberly and if I have to think of management then I cannot do this. I cannot be like these rascals who present something mental concoction to cheat the public. So this task will not be finished without the cooperation of my appointed assistants, the GBC, temple presidents, and sannyasis. I have chosen my best men to be GBC and I do not want that the GBC should be disrespectful to the temple presidents. You can naturally consult me, but if the basic principle is weak, how will things go on? So please assist me in the management so that I can be free to finish the Srimad-Bhagavatam which will be our lasting contribution to the world.

I hope that this meets you in good health.

Letter to: Gopala Krsna

Honolulu 20 May, 1976

76-05-20

Bombay

My dear Gopala Krishna das,

Please accept my blessings. I am in due receipt of your report dated May 4, 1976, and I have noted the contents with care.

So far that your request for funds to construct Vrindaban Gurukula, is concerned, I approve your plan to take one lac (Rs. 1 lac), out of the money that Bombay receives from Los Angeles. That will leave Bombay with Rs. 6 lacs monthly as you pointed out. I trust that by now you have rented the house in Delhi and there is no immediate difficulty for finding a place in Delhi at present.

You mentioned that the chief minister of Haryana promised to give me land in Kuruksetra for constructing our project there, but where is his letter? We must have this in writing. You mentioned that there is not much land available next to the Bengali temple. That will not suit us. In any case send me a site sketch of the available land, giving length and breadth. However, we do not want some land on one side of the canal and some land on the other side of the canal. All the land must be in one piece, together, not separately. If the government gives us 30 acres of land then we shall attempt, otherwise, let it be postponed. We are not anxious to construct next to the Bengali temple, but send the dimensions of the available land in any case.

The Gurukula in Bombay was to be financed by Brig Mohan Mota. Giriraja, myself, and he talked together.

Now concerning Vrindaban, there is no need to move the mukhuts business to the new house given by Mr. Taparia. It is not safe there, and you will have to employ 3 guards at expense of 500-600 Rupees so what is the use. Let the mukhuts business remain in the guesthouse, however, we must free the other space in the guesthouse. Let all the women and children live in the Taparia house.

The daily Gurukula can also be held at the Taparia house. When the Gurukula construction is completed, then the grhasthas can live on the third floor of the new building, but for now they can utilize the Taparia house for women and children, and the brahmacaris can remain in the guesthouse. The mukhut business should be given one room for working in the guesthouse. Do not move all the valuable stock to Taparia house, as it is risky. For protection of the Taparia house, why use barbed wire. Better to build a wall around it of bricks. Barbed wire can be destroyed very easily. Also, send me a plan of the Taparia house, and do not construct any more rooms there at present. When the Gurukula is completed the third floor will be available. So it is not necessary to spend the proposed Rs. 25,000, and neither the Rs. 10,000 for the extra room there.

The devotees should attend mangala arati at the temple otherwise it will become a household affair. So according to the situation see that if at all possible the devotees staying at the Taparia house can come to the temple for Mangala arati. If not do not insist.

Concerning the rooms for Mr. Badruka in Bombay; they are rich men and they can rent or purchase some other place in Bombay. Why they are utilizing our facility? They have already put us into inconvenience by occupying, but what is this that they are taking it permanently. It is a guest room, not for permanent occupancy.*

Concerning the book printing: why are you having Thompson Press import the paper? We can do it ourselves and save the commission that they would take; also we will not be bound to Thompson Press if we have our own paper. Gurukrpa Swami can send the paper from Japan. In that way he can get money out of Japan in the form of paper, for printing books. Why through Thompson Press we must purchase paper, and then export our books? We can purchase paper and export books ourselves. Simply we pay the printing costs, that's all. First thing you will have to take license of import-export. If we are going to get the Delhi land, we can do the whole business in Delhi, importing through Bombay and Calcutta. If the whole thing turns out cheaper and efficient, then we can print all our books there, so long the quality is not diminished. There is law that what you export, to that value, you can import, so part of the payment can be in paper from Japan, so we get as much as possible paper in profit, in addition to payment for the books. If this can be arranged, I do not know. If Thompson Press can import, why we can't import. Then we can also print where we choose and we save so much money in every respect.

I hope that this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear Revatinandana Swami,

Please accept my blessings. I am in due receipt of your letter dated May 17, 1976, and I have noted the contents with care.

On your recommendation I agree to accept the following persons for first initiation. Their spiritual names are as follows:

Leon Lane-Devala das Mark Haley-Agastya das Chriss Glenn-Devadatta das Lenny Willoughby-Svetadvipa das Wayne Bell-Sankhadhara das Beverly Bell-Dvarakavasini dasi Laura Banks-Candravamsi dasi

You can chant on their beads and give them their names and beads at the time of the fire sacrifice. They must promise to follow the four regulative principles: no meat-eating, no intoxication, no gambling, and no illicit sex-life, and to chant a minimum of 16 rounds of japa daily.

Also on your recommendation I am accepting Padmagarbha das and Papharini devi dasi for second initiation as brahmanas. After the fire sacrifice you should play the gayatri mantra into the right ear of the initiates. Enclosed please find one brahmana thread and copy of the gayatri mantra. The brahmana must be clean both inside and outside by following the regulative principles strictly, and bathing regularly. The initiates as above mentioned are all taking vow before the Deity, the Supersoul within, the devotees, the spiritual master, the fire, and so they are vowing before so many witnesses to keep faithfully these regulative principles. So my request to them is that they take very seriously this vow and make progress in developing love for Krishna.

I hope that this meets you in good health.

There is no hurry to build the exhibition hall in Mayapur if you have not yet made the site plan for the city. Also, the basement of the buildings means a risk of flood, also these buildings are for residential purposes. How can it be used for exhibition? Try to give me more information about these basements which you mentioned as I am not familiar about them, or at least wait until I return before going further on the exhibition hall plan.

Concerning the Vrindaban, I have written Gopala Krishna in Bombay what to do with the women and children in the guesthouse. It should allow for a better situation and sufficient room for guests.

Concerning marriages in the Bombay centre as a means of income, if it does not disturb the daily routine, then it can be done. However, the marriages can not take place before the Deity in the temple. Where in the tower would you plan to have the marriages take place? What rooms would be utilized for this purpose?

I am enclosing a copy of the letter to the Bank of America requesting them to issue payment to the ECC (Engineering Construction Corporation). See that this copy is given to Giriraja das, and he can see that this transaction takes place according to instructions contained therein.

Letter to: Dr. Wolf

-

Honolulu 20 May, 1976

76-05-20

Atlanta

My dear Dr. Wolf,

Please accept my greetings. I beg to inform you that I am in due receipt of your letter dated May 16, 1976, and I have noted the contents with care.

Why should our temples support or denounce Hitler. If somebody says something in this connection it must simply be some sentiment. We have nothing to do with politics. It is after all sentiment, you say something and I say something.

In this material world, to say this is good and this is bad has no value. To us, everything material is bad as it is lacking Krsna Consciousness. Just like wet stool and dry stool. Stool is stool, but somebody is saying that wet stool is better than dry stool. What is this good and bad? The top side of some stool is dry and the bottom side is wet, but anyway that you take it, the material world is stool, and it must be given up. Therefore, we are trying to get out of the material world and go back to Home, Back to Godhead.

But, of course, everyone has got some sentiment. If you want that my sentiment be decried, what is the wrong if I say that your sentiment should be decried. In this world of duality, this is good and this is bad has no meaning, it is called manodharma, mental concoction. However, the real truth is that Krsna says that: duhkhalayam asasvatam [Bg. 8.15], the world is a place of misery wherein repeated birth and death take place. Now this is good misery or bad misery? Misery is misery; and you have to die, good die or bad die? So to us everything material, without connection to Krsna, is to be rejected as stool, otherwise we will waste valuable time needed to solve the real problems of life, namely, birth, death, disease, and old-age.

I hope that this meets you in good health.

In that telegram you mentioned that the ”mantra books” arrived. What ”mantra books” are those that the Russians have ordered?

Concerning the prices of the Srimad-Bhagavatam at Rs. 13/-, is this the printer’s price to us, or our price to the temples? And concerning the price of the Bhagavad-gita that Thompson Press is giving, is that for a soft or hardbound edition? We will have to see what is the price if printed in America or Japan. I have enclosed a copy of the gayatri mantra for them to follow. The initiates are promising to follow the principles of no illicit sex, no intoxication, no meat-eating, and no gambling, as well as chanting a minimum of 16 rounds of japa daily. This promise is made before the Deity, the spiritual master, the devotees, the fire, like this, one should very strictly keep this vow and make progress in Krishna Consciousness. The brahmanas must keep clean externally by bathing regularly, and within by always chanting Hare Krishna. The symptoms of the brahmana are explained in the Bhagavad-gita and one should cultivate these qualities in their devotional service.

I hope that this meets you in good health.

My dear Nityananda das,

Please accept my blessings. I am in due receipt of your letter dated May 18, 1976 and I have noted the contents with care.

If the Varnasramadharma can be instituted it is welcome, but it is a little difficult today to do. If it can be done we want that. Training is required. The things are there but who will take up the training? Otherwise, the symptoms are mentioned in the Bhagavad-gita and if according to the symptoms some training is given, it is alright. But, everyone is after money and as soon as money is there they drink, eat meat, illicit sex, so who is there to be tained as a Brahmin?

On your recommendation I am accepting Danny Miller and Michael McKinly for first initiation into Hare Krishna chanting. You can have sannyasis chant on their beads, and give them their spiritual names and beads at the fire sacrifice. They must abide by the regulative principles; no illicit-sex, no intoxication, no gambling, and no meat-eating, and chanting minimum of 16 rounds daily. Then there will be steady and sure progress. Their spiritual names are:

My dear Satsvarupa Maharaja,

Please accept my blessings. I am in due receipt of your letter dated May 19, 1976 as well as your copies of two purchase orders from two universities for the Bhagavad-gita As It Is.

The public libraries can order many sets, 50 to 100 at a time, for all their branches. Your tactics sound very good. The Indian professors reviews can be used to stimulate American orders, and the American professors' reviews can be used to stimulate orders in India. So now with so many testimonials, why these libraries will not purchase?

The scientists cannot make a machine from a seed. Why not? Can they make a typewriter machine tree, or an automobile tree, that you plant a seed and you get an automobile . . . it gets bigger, bigger, bigger until it is a full size automobile. They cannot make even one egg, and they are going to manufacture life? And we have to believe it? They are lunatics, this is demoniac. They want to compete with God.

Concerning the Deities in Chicago temple, if you want to have large size Gaura-Nitai then I have no objection. Your new travelling mobile temple sounds very nice. I shall be glad to see it when I visit Detroit. Keep yourself comfortable so that you can work nicely. There is no need of dry vairagya.

My dear Giriraja das,

Please accept my blessings. I am in due receipt of your letter dated May 15, 1976, and I have noted the contents with care.

You can make inquiry as to why the amount received was Rs. 4/- less than the amount which we transferred (telegraphic transfer) from Melbourne. From my letter to you dated May 5, 1976, you will note that the Rs. 59,000/- which I borrowed from the Bhaktivedanta Book Trust account is now all accounted for and with Yasodanandana Swami's payment it will be completed. Sri Brijratan Mohatta had promised that he would pay for the entire construction of the Bombay Gurukula, but you mentioned that he is only giving Rs. 10,000. Why only 10,000, Gurukula will require Rs. 10 lakhs?

Concerning the purchasing of other books for the Bombay library, I never gave a list of books to Saurabha for purchasing. Anyway, we may require but I never gave such a list to him.

The devotees must learn Hindi, as many as possible, and take citizenship. What about the Parliament? They were going to raise the question about our men coming to stay in India indefinitely, but I have heard nothing further in this connection.

I received the plan of my house in Mayapur from Bombay address. I do not approve of this plan just yet. I liked one plan which I saw in London. Where is that original plan? Then I can make comparison. There was supposed to be a lift from the ground floor to the first floor. Also, why the guest rooms are upstairs, above me. Guest rooms are alright, but they cannot be occupied while I am there. There is also the question of the kitchen. And moreover, if there is no sunshine it will not be very nice. Will sunshine be able to enter my room? . . (there are over-hanging verandas) . . and is there a place on the roof open to the sun for taking massage? In any case, I want to see the plans which I saw in London for comparison. Also, I do not want to go ahead with the construction of my house is Mayapur until I see the master plan of the Mayapur City. It may be that there in a more secluded, less congested, place to situate my house. Being so near the front gate, and the main road, it may get too noisy at times there. So, you can take up these matters with Saurabha, and have him send me the original plan which I saw in London. The site of the house can also be determined only after we have the master plan.

The facilities in Bombay appear to be very nice. I think it will be very peaceful up so high in the towers, and it may be a very good place for me to translate Srimad-Bhagavatam. Let us see.

Concerning Sri Ramakrishna Bajaj, I sent you one letter dated May 14, 1976, concerning their invitation to me to attend the Gita Pratisthan conference as one of the Co-ordinating committee.. Your letter to me was dated May 15, so you could not have received my letter when you wrote me. I will await a reply from Sri Bajaj before making any decision what we will do in this connection. If they do not honor our request as mentioned in the May 14, 1976 letter, than you will have to read some paper on my behalf which I would send you. However, I will make no decisions in this connection until I have received a reply from Sri Bajaj.

I hope that this meets you in good health.

My dear Ramesvara Maharaja,

Please accept my blessings. I am in due receipt of your BBT Trustee's Report dated May 22, 1976, and I have noted the contents with care.

You have mentioned this Kingsport Press which is now printing our books in America. Where is this located? I am interested to know the details of several expenditures. Firstly, it appears from your report that the BBT is paying for 50% of the Diorama project. Why the BBT should spend money for the Diorama project? Secondly, I want to know how it requires $50,000 per month to maintain ISKCON Press as you have mentioned this on page 2 of the report under "Budget Projections." Concerning the need for a new larger warehouse for stocking and disbursing our books, why not use one entire floor of the new New York building. That will be very nice. There would be a warehouse on the West coast, and one on the East coast as well. The management should not be difficult as Tamala Krsna Goswami is going to make his office in New York and he will have a staff to assist him. Then we could avoid having to locate a new place in Los Angeles for the time being.

I noticed that there is outstanding loan debts of almost $1 million, and also that there is similarly nearly $1 million outstanding owed for books by the temples. What is being done to collect these funds?

Now concerning the London loan, I know that Madhavananda who is presently in Detroit, and Hamsaduta Maharaja both were collecting funds to construct a temple at the Bhaktivedanta Manor. What was done with these funds? And what is done with the money collected from Book sales in Germany and France?

Bhagavan das owes money on a loan which he got for purchasing the Chateau. He can return that money for being used to loan to London to purchase their new temple. Then you will not have to lay out that money from Los Angeles as you mentioned that funds are low this time. Between French and German book sales, it may be possible to loan this money to London. I am sending a copy of this letter to Jayatirtha and Bhagavan to discuss this matter. Since you are all BBT Trustees, you can discuss and come up with some idea how this can be done.

I hope that this meets you in good health.

My dear Yasomatinandana das,

Please accept my blessings. I am in due receipt of your letter dated May 23, 1976, and I have noted the contents with care.

I remember how so many people were coming to visit the temple. The Deities should be very beautifully decorated so that people will be able to see the gorgeous worship in the temple. Now you have also received shipment of books so distribute my books profusely. This distribution is the greatest welfare work for humanity. What will be the benefit of so many skyscraper buildings if in their next life they have to take birth as a cat or a dog? Where will be the advancement in such an arrangement? Actual progress is to become fit for going back to home, back to Godhead.

Concerning the incident where the two boys were killed in what appeared to be a bomb blast, it is unfortunate that the newspapers have made it appear that these boys are Hare Krishna devotees. Of course, anyone can chant Hare Krishna, just like we go on the streets chanting, and others will imitate us. However, in our aims you will not find that our organization is dedicated to such methods or goals. Our aim is to awaken people throughout the world to Krishna Consciousness, God consciousness, by chanting the Holy Names of God. We have published so many books to explain our viewpoint, and why we should sit idly by and allow the press to unfairly take advantage of such a situation to misrepresent the Hare Krishna Movement. In any case, the movement cannot be judged simply by the activities of some individuals, but these men were not in our camp and still the press took unfair notice of all the facts. We should demand at least equal time from the press to explain the entire situation clearly, and when necessary we should file suit against such newspapers in order that things are not distorted. It is not in our aims anywhere to build bombs for any purpose. The same mentality is involved in trying to blow-up a slaughterhouse as is there in meat-eating. Such things will not stop people from unnecessary animal slaughter. It is only by educating people in the science of Krishna Consciousness that they will automatically develop all good qualities. Yasyatma bhaktir bhagavati akincana, sarvair gunais tatra samasate surah. And the nondevotee will not have any good qualities even they may be vegetarians. Harav abhaktasya kuto mahad guna manorathenasati dhavato bahih [SB 5.18.12]. So we should clearly establish our aims in such situations and sit by idly. We must preach very boldly whenever the situation is favorable.

I hope that this meets you in good health.

My dear Balavanta das,

Please accept my blessings. I am in due receipt of your letter dated May 23, 1976, with enclosed newspaper clippings, and I have noted the contents carefully.

In connection with the religious discrimination mentioned in the newspaper clipping from Atlanta; Wherever we live we worship God. We are not official worshippers. We worship wherever we are.

satatam kirtayanto mam yatantas ca drdha-vratah, namasyantas ca mam bhaktya nitya-yukta upasate. [Bg. 9.14]

"Always chanting My glories, endeavouring with great determination, bowing down before Me, these great souls perpetually worship Me with devotion."

Our religion is not a part time transcendental recreation. We live in God. Of course, "Hare Krishna" is there on all these newspaper reports, that I want, that somehow or other hundreds and thousands of men will chant Hare Krishna. They have made all plans to avoid God, and our plan is that they accept God. The struggle will become acute, because formerly they thought we were simply hippies, but now they see our books, that we are here to stay. The professors are writing books, like Hare Krishna and Counter Culture, beginning to realize that Hare Krishna is here to stay. So, now the people are becoming envious that in such a short time we are so well known. Do not be discouraged by these fools and rascals, and simply push on sincerely and Krishna will save you.

I hope that this meets you in good health.

My dear Bhargava das,

Please accept my blessings. I am in due receipt of your letter dated May 25, 1976, along with samples of the Gitar Gan and the cover in for the Bhagavat-darsana.

No, the printing of the Gitar Gan cover this fashion is not at all approved by me. You have done most nonsensically. Why change the cover? When people look to see the Bhagavad-gita they expect to see Krishna and Arjuna, not the picture of Krishna with cow. You have done a great mistake by changing the front picture and it will hamper the sale. In future you don't do any changes without asking me first.

Simply because there is no stock of books, we can do anything whimsically??? Is this logic? Gita is not spoken in Vrindaban, it is spoken on the battlefield of Kuruksetra, but this is Vrindaban picture. That chariot drive by 4 horses, that is the real Kuruksetra picture. It is not that because there is no stock we can do whimsically as we like and lose the idea, that is rasa-bhasa. Because there is no bread, you take stone to eat? There is no stock of bread so you will take stone??? The front picture is most important thing and you have changed it. It must remain standard, and not change. Also, the lettering is not nice on the cover. You could have taken a color picture of Krishna and Arjuna and used it black and white (one color) on the front cover. Just as you did with the inside back cover of the Bhagavat darsana, the original picture of Sri Caitanya Mahaprabhu was in color but you have printed it in black and white. You could have done this on the front cover with Krishna and Arjuna on the Battlefield of Kuruksetra, but the cover must not be changed.

Concerning the Bhagavat darsana cover, this Hindi on the back is not good. Who is translating this? Also, the address on the back of our Vrindaban Temple is not correctly spelled. It has been spelled Chattakara Road; But it should be Chattikara Road. Who is proof-reading?

I am glad to see that some Hindi translating is going on but what about that other boy who was translating The Srimad-Bhagavatam in Vrindaban? Do not do anything whimsically in future, and you can write me if you have questions concerning the printing.

I hope that this meets you in good health.

My dear Haihaya das,

Please accept my blessings. I am in due receipt of your letter dated May 21, 1976, and I have noted the contents with care.

The daily collections from the temple should be counted before 3 persons together. The accountant has nothing to do with these things. He simply notes down the figure in the books. This is how it should be done. Yes, the collections will increase as people come more and more. The temple should become self-sufficient, that is wanted. However, see that stealing is stopped. I am doubtful that things are being stolen, otherwise how is the expenditure so high.

In addition to the picture exhibition in the guests' reception room, you can also have the appreciations for our books exhibited, as was done during the previous Mayapur festival. Fill up the guesthouse with visitors. That is very important.

This business of sleeping devotees should stop. What is the use of such sleeping devotees, simply increasing the expenditures. All of them must be engaged. Women and child should all move to the new Taparia house, and the mukhut business should remain in the Guesthouse for now. Gurukula can also be held daily at the Taparia house, and when the Gurukula is completed, grhasthas may occupy some of the third floor facilities of the Gurukula. But, everyone must be actively engaged.

My dear Hamsaduta Maharaja,

Please accept my blessings. I am in due receipt of your letter dated May 20, 1976, and I have noted the contents with care.

You were there in Kuruksetra when Mr. Gupta, the Chief Minister verbally agreed to grant us land and support. You should personally negotiate with Mr. Gupta as Caitya Guru is not so important to deal with him. I wrote one letter to Gopala Krishna dated May 20, 1976, wherein I mentioned that we must have the land all in one piece, not some on this side of the canal, and some on the other side. If the government gives us 30 acres (which was proposed to me by Gopala Krishna) in one piece, then we can attempt. If the land next to the Bengali temple is too small, we are not particularly anxious to construct next to the Bengali temple. But we must have the land in one piece sufficient for our purposes. Also, I will require a sketch of the available land, giving length and breadth. But you should personally do the transaction with the Chief Minister, don't depend on Caitya Guru.

Caitya Guru can remain on in Chandigarh for now. Was the house there given to us or simply given for our use? In any case, you should guide him as he requires guidance and vigilance. I know that Lokanatha Swami is very nice. I am glad to know that he is doing nicely. So far your program is concerned, do not worry that Gargamuni Maharaja's party is doing more books and collecting more money. Both of you are doing very nicely.

In Solan, if possible take the offer by the Babaji. Land in that part of the country is very nice, with nice climate also. Yes, it will be a good idea if he can give over the asrama to us.

How will you keep the buses in India? Please let me know. As sannyasi, you are competent to spend the rest of your life travelling and preaching. Continue in this way with determination. I hope that this meets you in good health.

My dear Bhagavan dasa,

Please accept my blessings. I am in due receipt of your letter dated May 17, 1976, with the enclosed Dutch edition of the Bhagavad-gita and I thank you very much. It is very nicely printed.

This book production is real progress. It is very good news to hear that you are producing so many books in the European languages. This is most pleasing to me.

Now we are starting new centres in Athens and a new building is being acquired in Rome. So as you have requested you can make a program for Rome, and I can go there just after the program in France. The program in France and Rome will be between July 26, and August 10, 1976, before I will be going on to India to officially open our Hyderabad centre.

I have heard with delight of your preaching attempts in Corsica. That is one of our businesses, to expose these rascals who are cheating and who have no spiritual asset. We don't say publicly that they are rascal, otherwise they will condemn also, but by practical action they will see and compare. Simply chant and dance, distribute prasadam, and where possible some books. Nobody will be grudged. This is our duty, yare dekha tare koha krsna upadesa. Everyone is fed up with this rascal civilization of sex and wine. How long one can artificially live on this. They have no other asset. Therefore, people are turning to Indian culture. Let us push on. Others cannot push on, they have no asset.

Your plan to compose the French books in Los Angeles is approved by me. The composition arrangements are very good here. They should always busy composing books. The article from the French-Soir I have given to Ramesvara Maharaja for possible use in connection with Back to Godhead magazine. Try to introduce Rathayatra and Janmastami, at least 4-5 ceremonies and festivals annually. I recall how in the London newspaper, The Guardian, that when our Rathayatra ceremony was taking place in Trafalgar Square, they commented that Rathayatra was rivalling to Nelson, as there is a statue of Lord Nelson in Trafalgar Square. So in this way they thought that if Rathayatra goes on, Nelson will be killed.

Try to convince them that without God Consciousness, no plan will be successful. Of course, the demoniac class of men will always remain, but unless there is a strong body to present God Consciousness proposals to the leaders of the world, there will be no hope. We have taken Bhagavad-gita as the standard of all human activities. If the leaders of the human society take it as standard, then all the problems will be solved. Raja Sajid Husain, Chairman, Indian Humanist Union, Kotwara House, Kaisarbagh, Lucknow, U.P., India

Dear Mr. Raja Sajid Husain,

Please accept my greetings. I beg to acknowledge receipt of your letter dated May 16, 1976, and I have noted the contents carefully.

Your idea of the "unity" of man is utopian. It will never become. The United Nations has tried for so many years, and they will never agree. If we keep human beings in the status of cats and dogs, in the bodily concept of life, how can they live in peace? They will simply fight like cats and dogs amongst one another. However, when members of the human society come to the spiritual platform, then there is a genuine possibility of unity.

Without God Consciousness, nobody can be ethical. In the Vedic literatures, we find this verse:

yasyasti bhaktir bhagavaty akincana sarvair gunais tatra samasate surah, harav abhaktasya kuto mahad-guna manorathenasati dhavato bahih. [SB 5.18.12]

"All the demigods and their exalted qualities, such as religion, knowledge, and renunciation, become manifest in the body of one who has developed unalloyed devotion for the Supreme Personality of Godhead, Vasudeva. On the other hand, a person devoid of devotional service and engaged in material activities has no good qualities. Even if he is adept at the practice of mystic yoga or the honest endeavour of maintaining his family and relatives, he must be driven by his own mental speculations and must engage in the service of the Lord's external energy. How can such a man possess any good qualities?"

I hope that this meets you in good health.

My dear Narayana das,

Please accept my blessings. I beg to acknowledge receipt of your letter dated May 27, 1976, and I have noted the contents with care.

On your recommendation, I am accepting Bhaktin Shanna Wollerman for first initiation. Her spiritual name is Nilacala dasi. Also, I am accepting Saurani dasi for second initiation. Those who take initiation must vow to refrain from illicit sex life, intoxication, gambling, and meat-eating, and to chant minimum of 16 rounds japa daily. The brahmanas must practice cleanliness internally and externally. Externally by bathing regularly, and internally by always chanting the Mahamantra.

You can perform the fire sacrifice, and at that time give out the japa beads (which should have been chanted on by one of the sannyasis beforehand) at the time of initiation. Also, after the yajna, the gayatri mantra should be played into the right ear of the devotee who is taking brahmana initiation. I am enclosing a copy of the gayatri mantra for learning the gayatri mantra.

I hope that this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear Purusottama Das,

Please accept my blessings. I am in due receipt of your letter dated April 6, 1976, which has been forwarded to me by our Nairobi centre as you had requested there in.

Life cannot be prolonged by heart transplant. You cannot increase the duration of life. One can perhaps give some relief to disease, that is another thing, but the duration of life is destined. From the dead body, one cannot bring life. Similarly, it may appear that one is prolonging the duration of life by medicines or heart transplant, but that is not the case. If one lives 4 years after having had a heart transplant, then by nature's law he was destined to live four years with or without having had a heart transplant. So what is the value of heart transplant?

Only by the yogic process can one prolong the life. By stopping the breathing process, keeping in samadhi, the breath period is not being misused, and he increases the life span. Therefore, destiny can only be changed by devotional service or yoga. Otherwise, what you must suffer, you must suffer, and what you must enjoy, you must enjoy. For a devotee however, whatever it may be, he takes the opportunity to chant Hare Krishna, and if by Krishna's Grace destiny is changed, then it is alright. Nature's law will work. We cannot change that, but Krishna, the Supreme Controller, He can change it; just like if a man is sentenced to be hanged, no one, not even the judge can pardon him, except the king or president. He only can excuse the offender. Similarly, I have to execute Krishna's order, and suppose I have to suffer to execute this order. Therefore, devotional service and the devotee is so dear to Krishna. The devotee is prepared to die at any moment, but he simply wants to be engaged in Krishna's service. "I am suffering, I cannot carry out the order of Krishna. . ." This line of thinking is sense gratification. Suppose a devotee had to suffer in preaching work, just like Haridasa Thakura or Prahlada Maharaja. Prahlada's father, Hiranyakasipu was giving so much trouble, but to Prahlada it was not trouble. He was simply concerned to see that others who were suffering might take to Krsna Consciousness. That is the Vaisnava's concern. For myself, let me go to hell, I can chant Hare Krishna, but the Vaisnava is simply lamenting for the nondevotees who must go immediately from the room? No. The living body or the dead body, either way it is the same, simply earth, air, water, fire, and ether.

What is the proof that they have gone to the moon? Why they are not now utilizing it, and they simply remain quiet? They have simply squandered so much money but there is no proof that they went. A foolish man squanders and does nothing and still we are to believe that they are scientists? According to the Bhagavad-gita, yanti deva vrta devan . . . without the necessary qualification, namely visa, etc., one cannot even go to another country what to speak of another planet, and the moon planet, Candra-loka, being a heavenly planet, how can we accept that they have gone to the moon? Our point is that they are accepting foolish men as scientists.

I hope that this meets you in good health.

My dear Sridhara Maharaja,

Please accept my blessings. I am in due receipt of your letter dated May 25, 1976, and I have noted the contents carefully.

I was very pleased to note that you are willing to go to China as we have just printed a Chinese Bhagavad-gita. I am most eager to see this distributed throughout Southeast Asia to as many Chinese speaking people as possible. For this reason I am sending Trivikrama Maharaja to Hong Kong immediately, and he will be followed by two of the big book distributers on the Radha-Damodara TSKP, being sent by Tamala Krsna Goswami. I wish that you will meet Trivikrama Swami in Hong Kong and combinedly organize distribution of the Chinese Gita profusely. It will be a great triumph. After all, one third of the world is Chinese speaking, and they are also human, they have a very old culture, so why shouldn't they be benefited by Lord Caitanya's movement.

You can go dressed as gentleman because it will be easier to travel in this part of the world. I have given full instructions to Trivikrama Maharaja and the both of you can cooperate in this very important mission.

I hope that this meets you in good health.

My dear Prabhavisnu dasa,

Please accept my blessings. I am in due receipt of your letter dated May 20, 1976, and I have noted the contents with care. Concerning the set of Srimad-Bhagavatams that Dr. Tripati gave us in Aligarh, I happen to know that the complete set should not cost more than Rs. 700, like that. And besides that, the paper may be so brittle that it may be useless. That I can examine when I see the set of books personally in Vrindaban. But, I know that the set of books could not cost so much, Rs. 3,000/-. So wait until I see the books in Vrindaban on my return and then we shall do the needful. At this point there is no need to immediately give Dr. Tripati honorary patron membership. I thought that he was giving the books as an offering.

I hope that this meets you in good health.

My dear Amogha das,

Please accept my blessings. I am in due receipt of your letter dated May 22, 1976 as well as your letter of May 26, 1976 along with the list of standing orders thus far received. The library party is doing very nicely. It is nectar to my ears to hear the list of schools which are taking our standing order.

Concerning the Nitya Svarupa edition of the Srimad-Bhagavatam that was given to us, I was informed by Prabhavisnu das that the professor who has kindly given them is requesting that since the books cost so much he should be given patron membership. I have one set here in Los Angeles however the paper is so brittle that when you touch the paper, it breaks. Practically it is unuseable. Also, the professor has said that the books would cost Rs. 3,000/- but I happen to know that they could only cost about ?Rs. 700/-. In any case, if the pages are brittle, what is the use. We cannot give him patron membership in exchange for the set of books. Anyway, when I return to Vrindaban, I shall see the set of books, and then I can decide further on this matter.

I hope that this meets you in good health.

Bombay

My dear Giriraja dasa,

Please accept my blessings. I am in due receipt of your letter dated May 26, 1976, which was delivered to me by hand, and I have noted the contents with care.

I have received one reply from Mr. Bajaj of the Gita Pratisthan dated May 25, 1976, and it is not feasible for me to attend this meeting so if appears wise you can go as my disciples on my behalf, both yourself and Gopala Krishna. This is the line that you should adopt: We are already propagating Gita, but "As It Is," without changing. This should be the method. Krishna is not going to flatter the politicians and learned scholars, rather Krishna is teaching them how to flatter Krishna. Na mam duskrtino mudhah prapadyante naradhamah, etc [Bg. 7.15]. If one is not prepared to surrender to Krishna, then what is the meaning of preaching Gita. If one has got their own philosophy, then let them preach their own philosophy, but do not do it in the name of the Gita. This is our protest to all of the interpreters of the Bhagavad-gita. If they do not believe in God, Krishna, and they don't want to surrender to Him, then let him preach atheism. Everyone has got the right to do this, but why through the Gita. This is like a man who wants to smoke ganga, but he does not want to be caught. So he takes a friends' hand and smokes it in his hand, and then when the authorities come, he says, "Oh, I have not smoked ganga, see, my hands are clean!" The idea is that if one wants to preach the Gita, then he must preach it as it is, otherwise, don't go through the Gita. So as my students, you can speak very tactfully.

One thing, if they are serious, we are prepared to preach, so together your men, and our men, let us preach. If the Gita is seen as important preaching work, then the Government should help, they should give all facilities. The government can help in the following ways for instance: 1). Our members want to stay and preach but the immigration department is giving us trouble. They are driving us away. So few Indians are coming, but the Americans and the European are coming. Indian educated boys, they are after some service to get income, they are not joining. This must be tackled tactfully. Our mission is to preach Gita. The best thing is that if we can conjointly preach, we can benefit the whole of India, and the whole of the world. Vinobaji is very respected and they can do a great deal to help our preaching mission.

Secondly, just like we require vehicles, we can bring vehicles and men, but they should be allowed to stay without the immigration gagging that we should go out, go out. Unnecessarily we have to spend so much money. So do it very nicely and tactfully.

Concerning the Bhetnama, you can follow the plan of Tirupathi, that guests cannot stay more than 2 months, 60 days, like that. But, there must be space left vacant for receiving foreign guests. Guests must register like dharmasala, where they come and can spend 3 days, otherwise they create trouble. So for ordinary guests, they can stay for 3 days, the ordinary life members. And for those who have paid for constructing one room, they can stay for up to 2 months per year. In Bombay, apartments are very expensive, 2 lakhs, so everyone would purchase an apartment for Rs. 50,000/ if they knew that they could remain permanently. So we cannot have them as permanent residents, only 2 months per year. Precaution must be taken that people don't take advantage like Mr. Badruka who is occupying 3 rooms, it has caused us so much inconvenience. Be careful. Make it clearly understood when they give the donations towards the rooms that they cannot stay more than 2 months per year, otherwise they may cause trouble.

I am anxious to know when my quarters will be ready. In your last letter you gave me an attractive idea of my quarters, so I am anxious for it. Please keep me informed. From Los Angeles, I will go to Detroit, from June 11-16, then Toronto June 16-21, then New Vrindaban June 21-July 2, then Washington, D.C. July 2-July 9, then New York July 9-July 20, then London July 20-26, then Paris farm and Rome July 26-August 10; Then Tehran from August 10-13, expecting to arrive approximately in Bombay August 14.

I hope that this meets you in good health.

Letter to: Jayapataka

Mayapur

My dear Jayapataka Maharaja,

Please accept my blessings. I am in due receipt of your letter dated May 24, 1976, and I have noted the contents with care.

Concerning the "report" which you submitted to the District Magistrate in Nadia District, you mentioned only 300 acres being given to us. I think that we originally had asked for 350 acres. There is no objection that they give the land in two phases as mentioned but the total land required was 350 acres as I recall. What kind of jobs does the M.L.A. want? Yes, in such a big scheme, so many assistants will be required. So any qualified men's assistance will be considered. Do your best and simply depend on Krishna. We are not acquiring the land for sense gratification. It is for Krishna's Glory. nimitta-matram bhava savyascin. 11.33. Just like Arjuna was asked to fight by Krishna, so it was Prabhupada's dream to make Mayapur a transcendental city. What do we care for Madhava Maharaja or Damodara Maharaja. They are figs. We must be fixed. Just see; Madhava Maharaja is against us and he was supposed to be the greatest preacher.

I am very much encouraged by Bhavananda Swami and Gargamuni Swami's preaching attempts. Now we have just published 30,000 Gita-Gan's (although I am not satisfied with the new cover, why they have changed?). So go on preaching very very nicely. Everyone will like our program.

*Concerning my house in Mayapur, I have requested Saurabha in Bombay to postpone any idea for beginning the house until we have the master plan of the city. I may decide to move the location away from the front gate to a more secluded place, less congested area. Also, I am not satisfied with the plan that he had submitted to me. I had seen one plan in London which I would like to compare to the present plan. I am enclosing a copy of the letter which I sent to Saurabha and Giriraja in Bombay concerning this matter explaining in more detail about this. So the house should not be started until I choose a place for it in the master city-plan.

Concerning the fixed deposit with the bank, we must know what is the minimum amount that they would consider, then we can decide on the matter.

Concerning the festivals, it is a very good idea to have festivals on the major celebrations, at least 4-5 each year.

Concerning the request for another vehicle for preaching, you mentioned the cost of $9,500, Ramesvara Maharaja has informed me that Gargamuni Swami still owes $13,000 or so from when he was in America to the BBT. Ramesvara Maharaja has proposed that Gargamuni Swami purchase the vehicle and then Ramesvara could deduct this amount from Gargamuni's debt with BBT.

I have noted how the Block Development Officer was favorable inclined. So the officials are in favor.

Concerning Prabhu Svarupa das of Haridasa-pur, he is a good man so utilize him.

Concerning the deposit slips which you are holding for me, where were these deposits made? And how many deposits were made? What is the amounts? You can hold these deposit slips for me until I ask for them.

So you are using that newsclipping from Melbourne. Actually it is a fact. The United Nations is barking like dogs, what have they done? Any sane man can understand that after 30 years they are simply barking.

I hope that this meets you in good health.

Letter to: B.R. Sridhara Maharaja

-

Los Angeles 6 June, 1976

76-06-06

Navadvipa

My dear Sripada B.R. Sridhara Maharaja,

Please kindly accept my humble obeisances at your lotus feet. Since I saw you last at Mayapur, I left India for my 15th world tour program. From Mayapur we went to Vrindaban, then on to Bombay. Then from Bombay to Melbourne, Australia, then Auckland, New Zealand, and then to Fiji Island where we have observed the foundation stone laying ceremony for our temple there, Krishna-Kaliya Temple. This will be the first temple on that island. There are many Indians on that island but there was no systematic temple worship so we are constructing a temple at the cost of $200,000. In the meantime, I have received one letter from Jayapataka Maharaja in which it informs that Madhava Maharaja and also possibly Damodara Maharaja are making propaganda against our attempt to construct a township in Mayapur, with the centre of attraction being the "Vedic Planetarium." In this connection we have applied to the government for 350 acres of land and the matter is in the process. However, Damodara Maharaja and Madhava Maharaja are trying to frustrate our attempt. I shall quote the portion from Jayapataka's letter to me: "After the report (request for land) was submitted, the District Magistrate sent some land officers to come here to our site to inspect the lands and their position, nature, etc. During this time the local people some how or other came to know about the acquisition. This was mainly transmitted through Damodara Maharaja initially, some persons say. Some local farmers raised a petition against the land acquisition, with about 90 signatures. Petitions for having the development plans go through are also being raised by the local people, the majority of whom support the ISKCON plan. About 2,000 should be raised in total in favor of this project. One supporter, while coming to show me his petition, with 500 signatures on it, was kidnapped and the petition was snatched away. He was taken to Madhava Maharaja's Math doorstep and some of the local cultivators and Prabhu's of the Math threatened him and demanded why he was supporting ISKCON. The supporter was now more determined to raise support in face of the rude behavior. Other persons have been also called to Madhava Maharaja's Math and chastised for helping us. They say our mission is political and we want only the downfall of India and political power. They are so envious." (end of quote). As a matter of fact, I am trying to develop a township in Mayapur spending crores of rupees to give protection against the occasional innundation (flood) and construct a tall planetarium estimated to be 300 feet high. So why they are obstructing this program? What is the harm to them? People are already coming from all parts of the world to see Mayapur and join in the Sankirtana Movement, so if something more attractive is done, more people will come from all parts of the world. So what is their tangible objection? Of course, they cannot do all these things, it is beyond their power, but if somebody else does it, why should they be envious and obstructive to this plan?

They are supposed to be very close associates of Your Holiness, so if you kindly ask them not to obstruct this program, it will be very kind of you. My program is until the middle of August, 1976, in Europe and America. In Europe we are going to open 2 new centres, one in Athens, Greece, and the other on Corsica, a French island. Another good news, we are selling books in Communist countries headed by Russia and Yugoslavia, and learned scholars are appreciating our books. We have published the Bhagavad-gita now in so many different languages, some of which are: English, French, German, Dutch, Italian, Spanish, Portuguese, Swedish, and now Chinese language, and also Russian language is in progress. We are getting very good response, especially where Spanish and Portuguese are spoken, in South America.

My dear Abhirama das,

Please accept my blessings. I am in due receipt of your letter dated May 29, 1976, and I have noted the contents with care.

Our plan is to be presented in the following way: This is for beautifying the park. Our temple is not sectarian. Just as any beautiful spot is attractive to the public, so all members of the public will be invited to come. We shall decorate the park very nicely, and it will be open for all nations, and all sects. Take it from the beauty side. What is the harm? Suppose that a statue is in a museum, does it mean sectarian? It will glorify Vedic culture, so why the corporation will not agree with our plan? (Of course, the Deity must be there). It will be open to the public and we will invite tourists from all over the world. It shall be an artistic exhibition. And we shall spend any amount of money to make it an attractive spot for world tourists.

So try for the sanctioning by all means. Somehow or other, by flattery or whatever, get it sanctioned. It is very important. Convince them it is beautifying the park. And we shall please the corporation, the municipality, in every respect. It is a cultural presentation, not a temple, and it will attract many visitors. Convince them on this point.

Also, what about the corner house, on the corner of the park? You can make inquiries concerning this as well.

Concerning Puri, whether there is potency of vegetation. That we have to examine. If there is no such potency, then we are not interested. And what about transportation across the hot sand? In the summer season, it will be too hot. So, the question is whether in that sand there is possibility of growing trees and plants, whether the sand is fit for that. Otherwise, it is desert and will not be suitable.

I hope that this meets you in good health.

Mayapur

My dear Gargamuni Swami,

Please accept my blessings. I am in due receipt of your letter undated and I have noted the contents with care.

Yes, it is simply time wasting and money wasting the way construction is going on in Mayapur at present. I have seen also when I was in Mayapur that 50% of the workers are simply wasting time. Best will be to get a reliable construction contractor and adopt the same method that has been done in Bombay. We can check their bill according to the contract so that they do not cheat us.

Taru Kanti Ghosh, since he is favorable, there will be government support. So continue this boat program. I do not know about motor launch or not, but you should consult and do the needful. I simply want to see that the preaching goes on. That's all.

In the hot climates, hold programs at nightime, and the daytime can be used for resting. Also, green mango sherbet can be prepared. Roast the green mango, and take out the pulp. Mix this pulp with a little salt, black pepper, sugar, and make a liquid by adding some water, then drink it. This will give protection from stroke from the heat.

Concerning the Rs. 25,000 for continuing the food distribution program, Pusta Krsna Swami has discussed with Ramesvara Maharaja and there is enough money in the Food Relief bank account in Los Angeles to send this amount to India for this purpose. So Ramesvara Maharaja should be forwarding this amount to you for the prasadam distribution program in Mayapur.

If the Jagannatha Puri land is simply desert, sand, and there is no prospect of growing any vegetation there, like grass and trees and plants, then in the hot season it will be difficult to go there and to remain there. So before we consider this plot of land, it will be necessary to see if there is possibility of vegetation or not. What about the Bhuvaneśvara land?

I hope that this meets you in good health.

Vrindaban

My dear Nitai das,

Please accept my blessings. I have received information that some of our devotees are mixing with the babajis in Vrindaban. This has produced so many problems amongst our men and women who visit Vrindaban. Here in Los Angeles, we have found that there is a group of about 40 devotees who privately meet to discuss the intimate pastimes artificially thinking that they can enter into the understanding of the gopis prematurely. This will create havoc in our society, and the result will be that if this is allowed to go on, our preaching work will be greatly hampered. This premature desire to understand the lila of Krishna is due to mundane sex-life desire as we have seen amongst many of the babajis and sahajiyas in Vrindaban. Our Jagannatha das came back from Vrindaban asking me that he had heard some babaji speaking about siddha-deha and he also was listening to these babajis. So I want this immediately stopped. If it continues, this mixing with the babajis, then it will mean spoiling. In many cases, these babajis keep 2 or 3 women. Asatsanga tyagi. Their association is to be avoided and prohibited amongst all of our devotees who visit Vrindaban.

I hope that this meets you in good health.

My dear Saurabha,

Please accept my blessings. I am in due receipt of your letter dated May 28, 1976, and I have noted the contents with care.

Concerning the altars, it is not necessary to have three altars of different style. All the three altars should be of the same style. I am enclosing the copy of the style which I have approved for all three altars. This style is nice, the one which you had chosen for Lord Ramacandra's altar, so you can use this style for all three.

Your plan for holding marriages in the theater, and on the theater roof will be acceptable. What will be the expected income?

For worshiping the Deities in Bombay, including Sita-Rama, there is absolutely no change in worship. Adopt the same method as in our Vrindaban centre, simply with 3 pujaris just like in Vrindaban. They are all Visnu-tattva, Ramacandra, Radha-Krsna, Gaura-Nitai. No additional kirtanas, simply do exactly as in Vrindaban. I want to know what it would cost to have Kaliya-Krsna Deity (with four mermaids offering prayers, Nagapatnis), and also Radha-Krishna with Lalita and Visakha, and also Guru and Gauranga; what would be the approximate cost for production and transportation of these Deities to Fiji Island?

I have already written about the house in Mayapur. No further plan should be done until I see the original London plan and the master city plan of Mayapur City. Then I can select the spot where I want my house to be. There is no hurry, we can wait until the master plan is available.

Concerning the workers who were not allowed to go to America, there is no question of illiterate or literate. They are going to construct a temple. They are good workers so we should take them. Concerning using some Indian gentlemen for managing our buildings, that is a good idea. Mr. Vyasa is a competent man, but the difficulty is that he is not joining. Together, I know that they can manage very nicely. Concerning the Govardhana hill sila (stones), keep them there with you and when I come I shall see.

My dear Gopala Krsna das,

Please accept my blessings. I beg to acknowledge reciept of your two letters dated June 2, and June 3, 1976 with typed copies of book reviews from Russia.

In your letter to me of May 4, 1976 from Vrindaban you said: concerning the Taparia house, "Dhananjaya and his wife and other grhasthas will live on that land (house). . . . Three or four brahmacarinis who are working on the mukhuts can also live there." You suggested like this, so if some women can live there, why not all? Somehow or other, the guesthouse must be freed from all encumbrances. It will be absolutely used by guests. I have received reliable reports that on account of the devotees staying there, guests were sometimes refused places because all the rooms were taken up by the devotees there. Also, the fact that the mukat business takes up 8-10 rooms is very bad. The guest house cannot be occupied by anything. It is already spoiled, and they must move. Why there are so many women in Vrindaban? Vrindaban is meant for retirement, elderly persons in Krishna Consciousness can devote all their time to devotional service. Such men are wanted to live in Vrindaban, not women and children. That is a fact, the holy dhamas are meant for the sannyasis and brahmacaris especially. If necessary, the management must be done by sannyasis and brahmacaris, not grhasthas.

The printing should be managed by the BBT. Yasodanandana Swami is printing through the agency of the BBT, simply for convenience sake due to the inefficiency of the order department in Bombay. Even a letter from Fiji was not replied. However, the accounts should be kept by the BBT. The printing of Yasodanandana Swami is only for some small books. The quality of the big books must remain, and so they should not be printed by Yasodanandana Swami independently. So you can keep the account what is being sold, and what is the profit. But what is the wrong if Yasodanandana Swami prints the books on behalf of BBT for convenience. You are accusing him of so many bogus complaints. What is bogus? What is genuine? If all these complaints come to me it is too much taxation for me.

If the Ahmedabad centre is not making progress then if necessary you can decide to close it temporarily or not.

Concerning the reviews which you sent me of the Russia

[TEXT MISSING]

dictated the review and did not actually hand you a written review? Then what is the value of such testimonial? Please clear it. Testimonial means it must be written or typed on their official letterhead, and duly signed by them. If it is not so, then what is the value of it?

I hope that this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear Tarun Kanti dasa,

Please accept my blessings. I thank you very much for your guru-daksina.

Concerning the initiation of your wife, Revatinandan Swami has approved her being recommended for first initiation, and he has been informed accordingly of her spiritual name. As disciples you must strictly chant 16 rounds of japa, Hare Krishna Mahamantra, daily. Also strictly avoid the unwanted habits of illicit sex-life, meat-eating, gambling, and intoxication, and in this way make progress in Krishna Consciousness and be happy.

I hope that this meets you in good health.

Vrindaban

My dear Lokanatha Swami,

Please accept my blessings. I am in due receipt of your letter dated June 2, 1976 and I have noted the contents with pleasure.

I am very glad to see that you are enthusiastically pushing forward with this preaching work and the young Indians are coming forward to join our sankirtana party. It is very encouraging to me. Anyone who has life he can preach, so go on very enthusiastically and there will be all facility given by Lord Krishna.

On your recommendation I am accepting the following devotees for initiation:

1st initiation: Bhakta Adhira whose spiritual name is Abhayasraya-dasa

2nd initiation: Dharanidhara das Brahmacari, Vrajesvara das Brahmacari,

Enclosed please find a copy of gayatri initiation and two brahmana threads. After the yajna, the brahmana initiates should hear the gayatri mantra in the right ear. The devotees must all bear in mind that they are promising to follow the four regulative principles, i.e., no illicit sex-life, no intoxication, no gambling, and no meat-eating, and also chanting a minimum of 16 rounds of japa daily. This promise is made before the spiritual master, before the Deity, the devotees, Vaisnavas, the Supersoul, and the fire. Everyone should take very seriously this vow and make steady and sure progress in Krishna Consciousness and go back to home, back to Godhead in this lifetime.

When I return to India, I shall surely try to travel with your buses. It is a very nice program and I want to see it go on very enthusiastically. I hope that this meets you in good health.

My dear Mahamsa Maharaja,

Please accept my blessings. I am in due receipt of your letter dated May 26, 1976 and I have noted the contents with care.

Concerning the installation ceremonies, it is approved that you get some leading Ramanuja Pandits from S. India. The Vrindaban Pandits were useless. But one thing. Along with the panditas, our men should also join in.

Concerning the Nellore project, it will automatically be dropped. Simply forget it, and there is no need to go there. Let them rather drop it instead of we dropping it. Let them say, you are not doing anything so we drop it.

You plan to have travelling parties go out village to village preaching and distributing my books in Telegu language is very important. Do it nicely.

Regarding the trustees for the land, first of all get the land transferred to the ISKCON Trust, then I can send you the names of the 6 trustees from our side. I am having the GBC discuss the matter of trustees in New York and at that time the matter can be taken up in detail. I am presently in Detroit and after that I shall be going to Toronto, New Vrindaban, Washington, D.C., and reaching New York by July 9th.

I hope that this meets you in good health.

Madras

My dear Bhavabhuti das,

Please accept my blessings. I am in due receipt of your letter dated June 8, 1976, and I have noted the contents with care.

Before we can begin any construction in Madras we first of all must complete any temple construction that we are presently doing. They are also in want of money. I understand that the Hyderabad Temple is also in want of money to complete the construction, Gopala Krsna knows it. First of all, Bombay and Hyderabad must be finished. The money which was collected in Madras can eventually be used in Madras, but our present projects must be completed, so why are you asking me?

But, where is the local devotees who are coming? You are all foreigners, so how long it will go on? Madras especially they are losing interest in Deity worship. Sometimes the political party is insulting. These atheists class of men who have done this, they should be converted into theism by preaching Bhagavad-gita.

So now there are three GBC's in India and they can consult and make a program how to finance the various programs including the Madras development.

I hope that this meets you in good health.

Vrindaban

My dear Gopala Krsna das,

Please accept my blessings. Concerning the idea of exchanging our books for Russian books, unless we find sellers in India for Russian books (in English language), what will be the value of getting their books. You must ask the prominent book dealers in India what books from Russia (in English) are in demand and to what extent. Then when we exchange our books with the Russians, then we can request these specific books and we can easily sell them to the Indian booksellers. That way we will have no difficulty. If there is no customer for Russian books in India, then let the Russians take order for specific books and we can send them some of our books free of charge. That will prove that the Russians are actually poor.

So you can make this enquiry from the Indian booksellers, "If you are selling Russian books in the English language, if so, kindly send us the list." Then enquire from Russia, "we can supply our books in exchange for particular Russian books in the English language (those titles which are desired in India)."

I hope that this meets you in good health.

Durban, South Africa

My dear Riddha das,

Please accept my blessings. I am in due receipt of your letter dated June 7, 1976 with enclosed newspapers and pictures of Durban yatra.

In that newspaper, The Leader, it is very good indication of our acceptance by the South African community. They are clearly rejecting all these bogus rascals like Sai Baba and in the same issue they are glorifying our Rathayatra festival. So this is good sign that they welcome Jagannatha and so you can arrange to have Jagannatha Deities and Rathayatra festival in Durban. Just like when I first began our Rathayatra in San Francisco, all we had was a flatbed truck for the Ratha-cart. So do it immediately. They are eager for it, and this will give life to the Hindus in South Africa.

Actually these rascals are simply creating magic and jugglery. Even during the time of Krishna, Paundraka was there and Krishna immediately cut of his head. That is the only punishment for them, to immediately cut off the head of such rascals who pose themselves as God. They are simply cheating the people.

Concerning the Rathayatra festival, you can hold it in the warm months, just like in Melbourne, the festival is held in January. Pusta Krsna Swami is going to arrange to have Jagannatha Deities sent from Puri if there is no one expert enough to make Jagannatha Deities in South Africa.

Svarupa Damodara is the best candidate for the post at the university. What the other candidates will know? Therefore he is writing so many books. He has rejected the so-called scientific knowledge. It has no basis. So if he is chosen for the post he can go there to Durban and take up the post.

On your recommendation, I am accepting the following devotees for first initiation:

Bhakta Warrick-Caitanya-carana dasa Bhakta Peter-Krsnasraya dasa Bhakta Mike-Ādi Purusa dasa Nadira-Syamasundari dasi

Hold a fire yajna and you can have Jagat Guru Maharaja chant on their beads. The initiates are vowing before the Deity, the Spiritual Master, the fire, the Vaisnavas, and the Supersoul to follow the four regulative principles: namely no illicit sex-life, no intoxication, no meat-eating, and no gambling, and to chant daily at least 16 rounds of japa. In this way if they hold firmly to this principle there will not be any obstacle to their steady progress in Krishna Consciousness, and one can go back to home, back to Godhead in this lifetime.

There is good potency there in South Africa and the Europeans are also taking up Krishna Consciousness seriously so continue enthusiastically to preach and distribute books and develop a nice center in Durban.

I hope that this meets you in good health.

My dear Palika dasi,

Please accept my blessings. I am in due receipt of your letters of 17th and 25th March, 1972, and shall answer as follows: 1. There is no question of bathing Caitanya deity. Of course He is bathed many times daily by Hare Krishna Mantra, but for bathing of such deities requires Salagrama Sila, and I have not introduced yet, but I shall do so later. Of course you should always cleanse Him with dry or damp cloth from time to time, but no daily bathing process is recommended by me for the time being. 2. You may dress Him in the same manner as Lord Krishna. 3. Deities should be changed in early morning, after mangala arati, before noon offering, and before Sundara arati They should be put on Their fine dress. 4. The Govardhana rock should be returned to Mt. Govardhana as soon as possible. I am very glad that you are doing such a nice service by worshiping Radharani and Krishna so nicely and giving Them so many nice clothes and ornaments and taking such nice care, so now I am very much relieved to know everything is going well in Calcutta during my absence. Now you make Mayapur into a gorgeous palace for Radha and Krishna, and I shall come there immediately and sit down there permanently to stay by Them.

Hoping this meets you in good health,

Your ever well-wisher. A.C. Bhaktivedanta Swami

P.S. Please have my Bengali book Gitar Gan composed by some printer there in Calcutta in the next two or three days, and immediately send it to ISKCON Tokyo. I will correct it personally and hand it over to Dai Nippon for printing. I have asked Jayapataka Maharaja to do this, but he has not done anything yet, so you do it immediately and please do not delay. Books are being sent to our branches in India from Japan, at no cost to you. You may sell them and use the profits for our building funds, 50%, and book fund, 50%. I do not know if we may require the COP permission, so you may inquire this from Gurudasa.

My dear Saurabha das,

Please accept my blessings. I am in due receipt of your letter dated 9-6-76 (June 9th), and I have noted the contents with care.

I do not think that it will be a good idea to construct my residence over the Gurukula as it will be very noisy with the children there so close. You can begin the ”kutir” as you mentioned by the side of the present tank, but it may require some trees and flowers and plants, then it will be alright. It is alright to have the guest rooms as shown in the plan of 3-6-76. I like the idea of being near the west gate as I want to go to the Ganges daily and during the summer I can take bath there.

It may not be a good idea to start immediately as the monsoon will check the work. The monsoon rains have already begun so how you can work? Who will take the contract to construct my house?

It has been suggested that perhaps the kitchen should be separate from the house (like in my Vrindaban house) as there is sometimes much noise coming from the kitchen. You can think this over.

I hope that this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

ACBS/pks n.b. the hand-looms should also be moved if my house is going to be constructed there by the tank.

Letter to: GBC Secretaries

-

Toronto 18 June, 1976

76-06-18

My Dear GBC Secretaries,

Please accept my blessings. I have received messages that Mahamsa Swami requires 2 more lacs to complete the Hyderabad construction by Janmastami, 1976. Already I have given about 5 lacs of Rupees, and I believe that Hamsaduta Maharaja hs also given a sum of money towards Hyderabad construction. So the total amount of the Hyderabad construction was estimated at about 10 lacs, and if I give this 2 lacs then I have given 7 lacs towards the construction so what is the collection in Hyderabad? It is not good that they are always asking me for money. The money is coming from the BBT in Bombay and it will have to be paid back in due course of time.

So I am sending advice to Bank of America to transfer 2 lacs of Rupees to the Bombay construction account at the State Bank of Hyderabad, Juhu Beach Branch, Bombay, and I want that the 3 GBC secretaries for India should discuss together whether or not to give this 2 lacs to Hyderabad centre for completing their construction. If you think that Mahamsa Maharaja will be able to repay the BBT this money then you can go ahead and give the money to Hyderabad. Otherwise, there is no rush to open the Hyderabad temple by Janmastami, 1976, it can be postponed until a later date when the Hyderabad temple can be completed by collections in South India. So if you are confident that he will pay back the BBT then it is alright, otherwise you can use the 2 lacs for Bombay construction and the Hyderabad temple can be finished with local collections.

I hope that this meets you in good health.

If you can arrange with Gopala Krishna then I have no objection to you increasing your preaching activities there. If Gopala Krishna wants to be interim president, then if that is your ”mutual” arrangement, then you can do more preaching work, especially to the government officers. I was very pleased to see how you are getting top-ranking men to read my books. That is real preaching. If all the government officers at least purchase some of our books, it will be a great credit so do it very nicely.

Letter to: Tusta Krsna

-

Toronto 18 June, 1976

76-06-18

Auckland, New Zealand

My dear Tusta Krsna Swami,

Please accept my blessings. I am in due receipt of your letter dated June 11, 1976, with enclosed outline of the temple which is being proposed.

Concerning your questions: First of all, no, you should not have the four symbols of Visnu on the four corners of the temple. Make the temple in our Vrindaban style. Three domes are there, over the Deities, and then you can have 2 domes or either side in the front. The idea is given in the sketch below:

[SKETCH]

On the inside veranda, you can have Gaura-lila carved. It will be a great attraction and I shall be very glad to have it. Either plaster or wood is alright, whichever is easier and cheaper to do, you can do. Of course, it would be very attractive in wood. But it is my fervent request that the devotees not make any ”bombing-lila” as it was publicized recently.

Just like in our Vrindaban temple, you can have 3 Deity compartments. Facing the altar, Nrsimhadeva can be on the left, Guru-Gauranga in the center, and Jagannatha-Subhadra-Balarama on the right so that you can organize Rathayatra. You can begin the construction with cornerstone.

I would like to receive copies of the letters that you have written to the government officials there as you had mentioned, and also the copies of their replies.

Concerning the preaching to the local people, let them chant Hare Krishna mantra, nothing else, and dance and take prasadam. There is no need of teaching them philosophy in the beginning. In America also, neither white nor black like each other, but in our society they are chanting and dancing. This is on the basis of Hare Krishna; everyone can join. On the small invitation it should read: Singing names of Krishna (God).

I hope that this meets you in good health.

I am very pleased to hear that Haihaya is doing nicely as manager. He is a good boy. Now train him to be first class manager. You mention attracting more people to stay in our guest house . . . yes, but when will that attraction be made? First attraction is to clear all children out of the guesthouse, otherwise no one will come. It is very much botheration.

I had written to you about sending dimensions of the altar and vyasasana, etc. to Fiji where we are presently constructing the Krsna-Kaliya temple, but I have received word from Fiji that as yet they have not received this information from you. Please try to do the needful as they are nearly ready to begin work on that portion of the temple.

76-06-24

My Dear Gopala Krsna das,

Please accept my blessings. I beg to acknowledge receipt of your letter dated June 12, 1976 and with enclosed news clipping, and I have noted the contents with care.

That Mrs. Kochar, she should be brought in to court, immediately. The Hare Krishna Cult is bona fide, why she should say otherwise. She must withdraw this statement publically. It is Vedic culture. We have so many letters from professors, parents, other swamis, and even in the Encyclopedia Brittanica. All the Gaudiya Maths and Vaisnava Goswamis should join us in fighting this. This must be done very seriously. She should be removed from her post and a responsible person should be there. Therefore, I have wanted to have this Bajaj meeting. In India we have so many things to do. I am sending some copies of some letters to you which you will find enclosed.

Now you can utilize your knowledge of marketing for Krishna's service. idam hi pumsas tapasya srutasya va svistasysa suktasya ca buddhi dattayo, etc. [SB 1.5.22] This is the perfection of education. Gurukula education should be trained up for their character. I have already mentioned in the Srimad-Bhagavatam. Simply they should be able to read our books in English and sanskrit, and explain. That is compulsory.

This business of Yasodanandana's party giving life membership to libraries should be stopped. I am also informing him in Hyderabad that the program must be standard all over India, just as they have had so much success in America and are very respected also.

Concerning the book exchange from Russia or wherever, first of all see if they can be exchanged, sold, in India. Otherwise we do not want to trouble ourselves with their rubbish literature. If it is not possible to sell their books, then if the Russian institutions take order, we can send them some variety of our books, like Bhagavad-gita, one Srimad-Bhagavatam, one Caitanya-caritamrta, etc., like that. What about the boy in Vrindaban who was translating the Bhagavatam into Hindi? Also, do not print the Back-to-Godhead magazine in English. First of all you organize Hindi BTG up to 100,000 copies, then you think of English. Don't bother too many things at a time. Concerning the book to be written by Mr. Verma, what will he write? Does he know everything about our philosophy?

Concerning the new bhakta program, unless one is educated, we should not admit anyone and everyone without discrimination. One who has got culture and education, he can be accepted. Yasomatinandana would be better to go to Bombay and do the Gujarati publications and from time to time he can organize programs in Ahmedabad. That will be better.

Concerning Hariprasada Badruka, he must leave and not create any inconvenience to us. However, if he gives in writing that he will stay up to the end of December, 1976 only, we can give him one room and a kitchen. That's all.

Concerning Kuruksetra project, I have already replied to you concerning this in my letter to you of May 20, 1976, addressed to Bombay address.

Concerning Saurabha's ideas of having plays, When I go I'll personally see; for the time being however stop all these.

Concerning the printing of the Bhagavad-gita in India, we cannot pay more than America. It must be lower price than America, otherwise it is useless.

Concerning the issue of taxes and tax exemption, the divisional commissioner who was our chief guest one day in Vrindaban the last festival in April, 1976, he is from Agra and he is also favorable. He ordered all of our books and he may be able to help in this connection.

I hope that this meets you in good health.

Concerning Arabic translations, someone has already done one. He came to me in Bombay. Also, there is no need to give commentary on the Koran. There is no other religion in the world in truth than this Bhagavat-dharma. However, something is better than nothing. The communism book that you have written, they say that there are some words that may be irritating to the communists. We have just finished a book which Hayagriva is editing at present. It is called Dialectic Spiritualism and within that book, your comments can be added if need be for preaching in the Eastern European countries.

Don’t try for Vaikuntha players, etc. in Eastern Europe at this time. It will make too much encumbrance and you may not be able to manage it.

Concerning the $12,000 given to me by Jagat Guru Maharaja, that has nothing to do with Nairobi debts. It was an individual contribution to the book fund. Contributions and debt clearing are two different things.

On your recommendation, I am accepting the following devotees for brahminical initiation:

Vamanajana das Adhikari,
Dayalanitai das Adhikari,
Gopavrndesa das brahmacari,
Bahulavana das Adhikari,
Brahmakarika dasi,
Jaganmayi dasi,

Srila dasi, Hold a fire sacrifice and for the male initiates you can give them sacred thread. The gayatri mantra should be played for them into the right ear and the brahmanas should practice the principles of cleanliness both outside and internally. Outside by bathing regularly, and inside by always chanting the Hare Krishna Mahamantra.

You mentioned that the lawyer was working to open the national parks, etc. What about the L.A. airport situation?

I hope that this meets you in good health.

Los Angeles

My dear Ramesvara Maharaja,

Please accept my blessings. I am in receipt of one letter from Srivatsa Goswami, 45 Dumrao Bagh Colony, Assi, Varanasi 221 005, India. He has written that Santosa das met him at his residence in Vrindaban and proposed to give Srivatsa Goswami all of my books in exchange for a set of "Goswami literature" edited by Sri Puridasa; all this was done without my sanction. Why has Santosa asked him for this? No one told him to do so. Write to him and ask him who gave him permission to do this!

What is this swop??? Why haven't they asked me first??? We have nothing to do with any publication by these people. Those books should be returned at once. Do the needful. Already they have sent several of my books to Srivatsa Goswami and Srivatsa Goswami mentions that he received 2 volumes of Caitanya Caritamrta from Los Angeles BBT Warehouse. Who is doing this?

I hope that this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear Vasudeva das,

Please accept my blessings. I beg to acknowledge receipt of your letter dated June 18, 1976, and I have noted the contents with care.

I am requesting the BBT in Los Angeles to forward you the books which you require. There is no need to deal through Australia. You can place your order directly to Ramesvara Maharaja and I am also notifying him to fill your order immediately so that your preaching work goes on there.

Concerning the Deities, I have commissioned Bharadraja in Los Angeles to make them for Fiji, however if anyone else is able to do it nicely and cheaply then it is alright. You can correspond with Bharadraja in Los Angeles concerning this matter.

I hope that this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

n.b. I have also sent a reminder to Aksayananda Swami in Vrindaban to send the dimensions of the altar and Vyasasana of the Krishna Balarama Temple. I trust that you will receive this shortly.

Hyderabad

My dear Yasodanandana Maharaja and Acyutananda ,

Please accept my blessings. I am in due receipt of your letter dated June 10, 1976 with enclosed photographs; especially the one taken in Bangalore of the Bar Association members taking my books was best of all.

The people of Bangalore have again shown nice response to our coming, so keep the relationship very friendly, and deal carefully. I am very pleased to read the letter of commendation from the other sannyasis in South India. Now you can make copies of all these letters and send them to both the Jagannatha Temple in Puri, and the Ranganatha Temple in Vrindaban and get their official reply.

Our movement is for everyone. It is not sectarian. When we speak of no intoxication, it is meant for everyone. You should always remember the statement of Caitanya Mahaprabhu:

yei bhaje sei bada abhakta-hina chara

"Anyone who takes to devotional service is exalted, whereas a nondevotee is always condemned and abominable. Therefore in the discharge of devotional service of the Lord, there is no consideration service of the Lord, there is no consideration of the status of one's family." [Cc. Antya 4.67].

The devotee is great and the nondevotee is downtrodden. And in the matter of devotional service of Krishna, there is no concern of caste and creed. Krsna also says, mam hi partha vyapasritya ye'pi syuh pata-yonayayah [Bg. 9.32]. Even the papa-yonayayah, if he takes to devotional service, he also goes back to Home, Back-to-Godhead. This conception of caste on the basis of birthright has killed the Vedic culture. Also in the Srimad-Bhagavatam it is said:

yasya yallaksanam proktam puso varnabhivyanjakam, yadanyatrapi drsyeta tat tenaiva vinirdiset [SB 7.11.35]

So despite all these things, these people are still insisting that one can only be Vaisnava if born in a brahmana family. That is not a very learned position.

As yet I have not received a confirmation from

[TEXT MISSING]

which I had sent to him c/o Hyderabad temple. Also, the BBT Bombay says that you owe Rs. 83,000 to them. So why haven't you paid yet? You are such a big preacher, why you shall remain in debt?

I hope that this meets you in good health.

Bombay

My dear Gopala Krsna das,

Please accept my blessings. I am in due receipt of your letter dated June 17, 1976, with enclosed reviews from professors in Russia, and I have noted the contents with care.

I think that the idea of pasting the jacket cover picture on the front of the book is a good idea (the half-bound books which you mentioned). It will not be very respectable. I don't like the idea. Make it hardbound and softbound, that's all.

Hitsaran Sharma can not give good quality work at all. Forget him. Last time that we tried him he also did not do good work. You can also get good composition and good prices in Mathura. They have many hindi presses there as well.

The Rs. 15,000 was sent personally by me to Yasodanandana Swami for printing books. What right had Mahamsa Swami to spend this money? He is spoiling.

South India is a good field for our books. The library party of Mahabuddhi and Bhugarbha are doing very nicely. Indeed there is a good potential or better for our books in Indian libraries and universities. Try to get them visa extension or do the needful in this connection to see that this program goes on increasing. This program is very much encouraging to me.

If the Maharastra govt. has given "No Objection Certificate" on the import of our books, then what is the need for the central govt. to approve also? What is the situation? If one government has already sanctioned, then what is the need for another government to sanction?

Concerning the clinic idea in Bombay, that we shall have to consider. When I go there then I shall see to it.

I hope that this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

n.b. enclosed you will find some copies of reviews sent to us by Mahabuddhi's library party. They are very important reviews and they can be used in dealing with that Mrs. Kochar. I wanted to bring this rascal women in the public eyes, that she is worthless and still she is posted in a responsible position. cc: Vrindaban

I very much like the idea, "Declaring our Dependence on God." The scientists can manufacture a big jet airplane 747, but they cannot manufacture a tiny mosquito, so what is their so-called declaration of independence. You can also run the quotes from the scholar's book reviews as mentioned.

Mayapur

My dear Jayapataka Maharaja,

Please accept my blessings. I am in due receipt of your letter dated June 11, 1976, and I have noted the contents with care.

Concerning the doubts of the commission: 1). Christians also convert. It is not conversion from Christian to Hindu. We convert atheist class of men to take God-consciousness. God is one. It is not the question of Christianity, Hindu, Muslim; any religion that teaches to love God is genuine. It has nothing to do with Hinduism, Mohammedanism, etc. 2). Sources (of funds) means we get contributions from all over the world. All of our branches will gladly contribute. Practically this institution is the real U.N. We have the co-operation from all nations, all religions, all communities, etc. It will be an international institute. To see the planetarium and how things are universally situated has nothing to do with sectarian ideas. It is a scientific presentation of spiritual life. 3). The local Mohammedans have already agreed.

Concerning the food relief funds, I am not holding them. The food relief funds go directly from Los Angeles to Calcutta. I have already informed Ramesvara Maharaja to transfer the funds to Calcutta that are available. He has agreed to send Rs. 25,000 already and you should be receiving that soon.

Enclosed are some copies of important book reviews and letters which may be helpful in dealing with the commission. The letter by Subrahmanyam is especially very nice.

I hope that this meets you in good health.

Bombay

My dear Mahabuddhi das and other members of the library party,

Please accept my blessings. I am in due receipt of your letter with enclosed reviews and I thank you very much. The reviews were particularly important.

Why don't you try to arrange with India to extend visa somehow or other? I am very much encouraged by the efforts and response that you are getting from the universities and libraries. Indeed, the field is as good or better than the U.S.A. for this type of work.

That is nice even if the libraries are taking only 6 volumes per year. The libraries that you mentioned: associated with the Ministry of External Affairs, Education, Information and Broadcasting, Defense, and Indian council for cultural relations, they can all take our books. Let them see the certificates given by all these big, big professors.

I remember when I sold the first one volume personally to the Archeological University. I sold them personally long ago. Now you must work conjointly with the other library men in India. Don't let there be undue competition amongst our men. Do combinedly, it is very much encouraging to me.

You can let Vrindaban De work Orissa and W. Bengal and Bihar, and when I go back I shall see how he's working. I am giving him a chance so let me see how he's done. For the time being at least, let him do it until I return.

Now import the books which are needed to carry on supplying all your orders. Gopala Krishna says that he has secured the needed license from Maharashtra Government. It is a very good report so continue to work enthusiastically.

I hope that this meets you in good health.

His Holiness Satsvarupa Goswami ISKCON 1014 Emerson St. Evanston, Illinois 60201

My dear Satsvarupa Goswami,

Please accept my blessings. I am in due receipt of your letter dated June 28, 1976, and I have noted the contents with care.

We are concerned with service. What is the meaning of the post, that is, president, secretary, etc., etc. I am glad to see that Govardhana is doing nicely. I have confidence that things will go on nicely there, but he should be encouraged to faithfully follow the rules and regulations and chant 16 rounds daily.

Why was Gaura-Nitai and Radha-Krsna Deities put on the Ratha cart in Chicago? Who has sanctioned this? This is not authorized. It does not mean that we shall make Rathayatra a conglomeration. Everything should be done by proper sanction.

Concerning the installation of Deities of Srila Bhaktisiddhanta Sarasvati Maharaja Prabhupada and myself, you have my permission to have them for the Chicago temple.

With regard to your question about Bengali style kirtana and mrdanga playing, one or two styles is best. To introduce more styles is not good. It will become an encumbrance. Who is that Krsna das Babaji who is teaching? If we introduce so much emphasis on style of kirtana, then simply imitation will go on. Devotional emotion is the main thing. If we give stress to instrument and style then attention will be diverted to the style. That will be spiritual loss.

I hope that this meets you in good health.

My Dear Giriraja dasa,

Please accept my blessings. I am in due receipt of your letter dated June 24, 1976, and I have noted the contents with care.

I am in the process of answering the questions for Bhavans Journal, and I shall forward this to you when it is completed.

Concerning our proposal to be presented to the Parliament, anyone coming from ISKCON should be given permanent residence. India's original culture and religion is being spread all over the world, and out of their religious feeling if they come to stay in Vrindaban especially, why the government should harass them. Our Goswamis have said:

nama-gane sada rucih, pritis tad-vasatisthale. (Bhakti-rasamrta-sindhu 1.3.25)

A devotee is very much anxious to chant Hare Krishna and to live in that place where Krishna has His pastimes, generally Vrindaban, Mathura, Dvaraka, like that. All of our men who are coming to India for this purpose, they are properly initiated and following the regulative principles. In this connection, the certificates of the S. Indian authorities gotten by Yasodanandana Swami can be used, where in they certify that our ISKCON men are proper Vaisnavas, decorated with tilaka in twelve places, etc., etc.

Take the land for making the road properly, and use it. We shall make a very nice arrangement for parking cars, etc. In this way, from the other side of the Juhu scheme people may take full advantage of the Hare Krishna Land facilities.

Let Brijratan Mohatta help. Personally he can pay 25 lacs or anything. He is a son-in-law of Birla personally and personally he is very rich also. Personally he may give what he wants but let him help collect funds. He is such a big man in Bombay. What I know is that if he likes he can help us, and he is favorably inclined to our movement. Rs. 25,000, he can collect from at least 100 men in Bombay. So he can collect and help raise 25 lacs very easily, although we require about 10 lacs. To pay Rs. 25,000, there are thousands and thousands of men in Bombay who can very easily do it. Bombay is the richest city in India.

Concerning the tax exemption, do it nicely and take help from friends. Ours is a public institution.

Why wasn't the lift for the towers planned from the very beginning? You can go on with your work and try to install the lift as soon as possible otherwise we will have to wait. When I come I shall see the situation.

Mulchand Deomal should be nicely taken care of. He is a very nice gentleman. I know him.

I hope that this meets you in good health.

My dear Upendra dasa,

Please accept my blessings. I am in due receipt of your letter dated June 20, 1976, and I have noted the contents with care.

Unless the temple is fully under our control, we are not interested. Then we shall call it back. I will decide on receipt of the reply to this letter to Vasudeva dasa (Mr. Punja). So far the Fiji constitution is concerned, where it says: "supplying needs to the sick, poor, and orphans, etc." That is not our program. We distribute prasadam to everyone, not particularly to the needy. We make no discrimination, rich or poor.

I think that the enclosed copy of letter to Vasudeva is self-explanatory and I am awaiting his reply in New York where I shall further inform you concerning our project there. We cannot keep the temple in his private name and use our ISKCON name. Please keep me informed of the situation.

Lautoka, Fiji
My dear Vasudeva dasa,

Please accept my blessings. In connection with our ISKCON project in Fiji, I beg to inform you that we are managing our Krishna Consciousness Movement by the Governing Body Commission, GBC. We have got about 20 GBC's looking after the whole world affair, and above the GBC I am there. Below the GBC there are the temple president, secretary, treasurer in every centre. So the temple president is responsible to the GBC and the GBC is responsible to me. In this way we are managing. But why are you proposing a separate trustee for Fiji. We have up to now no separate trustee. If this is for security purposes, that we can discuss.

If you have got some new idea please explain to me how you want to manage. But I think Fiji Temple cannot be managed in a separate way. But still I will entertain some idea if you have difference you can write me explaining.

The deed for the property and temple should be made in favor of "His Divine Grace A.C. Bhaktivedanta Swami Prabhupada, founder-acharya of the International Society for Krishna Consciousness." It cannot be dedicated to any of the office bearers. So I suggest that you become the president of the temple and Upendra become the secretary, and either your brother or your wife can become treasurer. There is no need of trustees.

But in any circumstance the temple can't be a private property in the name of ISKCON. If you want to keep it a private property then the ISKCON name should not be utilized.

I am very much anxious to get your clear reply to this thing. So many things are unclear, so let it be cleared up. I would like you to send me a copy of the deed to New York address along with your reply.

I hope that this meets you in good health.

If you organize you will get so many nice guests and they will contribute. Everything must be neat and clean and silent, then people will come. Safety at Taparia house is that it should not be left vacant at any time. Somebody, at least 4-5 men should be there to remain. Then the thieves will stay away. Everything must be kept under lock and key. You see what is necessary. Previously it was proposed to have a barbed wire fence. I do not know if that is necessary, but if a fence is needed then a high brick wall is better than barbed wire.

On your recommendation I am accepting the following for first and second initiation:

First Initiation:

Bhakta Carlos-Karunamaya dasa

Bhakta Lalo-Lalitagovinda dasa

Bhakta Jonathan-Jyotsna dasa

Bhakta Willo-Visvadeva dasa

Second Initiation:

Minaksi dasa Brahmacari Hold a fire sacrifice and the initiates should refrain from the four pillars of sinful life: no illicit sex, no intoxication, no gambling, and no meat-eating. This is very easy when one chants daily their prescribed rounds seriously, at least 16 rounds daily. Enclosed you will also find one brahmana thread and gayatri mantra. After the sacrifice the tape of gayatri should be played in the right ear of the brahmana initiate. To become brahmana one must be clean outside and inside. Outside by regularly bathing and inside by always chanting Hare Krishna. The beads for first initiates can be chanted upon by Hrdayananda Maharaja and they should be given these beads and names at the time of initiation.

My dear Balavanta dasa,

Please accept my blessings. I am in due receipt of your letter dated June 26, 1976, with enclosures and I thank you very much.

Concerning the distinction between the innocent and the atheists, those who give time to listen to us are innocent. Those who naturally oppose us and have no time are atheists, because we are the only ones talking about God. We don’t talk anything about politics, etc.

The name for the Tennessee community is ”Murarisevak”. On the farms we should have mainly grhasthas. Farms are especially meant for the grhasthas. Brahmins and sannyasis are meant for begging food grains from the grhasthas. They depend on the grhasthas and the grhasthas treat them as their children. As the child is not a burden for the parents, so brahmanas and sannyasis are not burden for the grhasthas. They simply take food grains to survive but they give transcendental knowledge for the benefit of society. They have no worries for producing and securing food. That is the business of grhasthas, but they devote their time to spreading spiritual knowledge. That is the system.

It is alright that the Charlotte temple be moved into the city a bit closer, but our principle is that people may come or not come, it doesn’t matter. We can discuss and chant amongst ourselves.

By coming to America, the Indians have not improved their material condition. It is welcome that they have come to us. Wherever one lives he should continue Krishna Consciousness. The enclosed photo of the Mississippi farm Deities is very nice, super excellent. The Deity must be very nicely worshiped, dressed, and fed, etc. In so doing you will always be peaceful and enlivened. From the extra ghee, you can contact Boston restaurant. They can perhaps purchase it. Sell ghee and you’ll have good income. If possible in the city of New Orleans, open one restaurant. Someone can go to Boston and see how they are organizing things. You can study the history of how cow-slaughter became prominent in the West and then use for preaching.

In Miami there are so many mangos and coconuts. I am enjoying the dobs from Florida. The orange ones especially are very nice. I am taking one each day. From the green mangos you can make pickles. Cut them into pieces with skin intact, and sprinkle with salt and turmeric. Dry them well in the sunshine and put into mustard oil. They will keep for years, and you can enjoy with eating. They are nice and soft and good for digestion. If no vegetable is available, you can eat them with puris, similarly with pickled chilis. When mango pickles and chili pickles are combined, it is very tasteful. The Miami temple sounds to be very nice with bathing place and peacocks, just like Vrindaban. Krishna will supply you everything, don’t worry. Just work sincerely.

I hope that this meets you in good health.

My dear Nitai das,

Please accept my blessings. I am in due receipt of your letter dated June 19, 1976 and I have noted the contents with care.

Continue with your program in the temple. It is a good program and it sounds that you are doing very nice! You may begin translations of Brhad-Bhagavatamrtam, and Laghu-Bhagavatamrtam as requested.

So you stick to Vrindaban some how or another. Use the security rooms below the Deities and look after it nicely and I will give you silver plates for the Deities on hearing from you assurance that they will be properly cared for. Previously I haven't introduced because of insecurity. Yes, be attached to the Deity and your life will be successful. One thing, how is the Deity collection box checked and accounted for?

I hope that this meets you in good health.

My dear Yasodalala das,

Please accept my blessings. I am in due receipt of your letter with enclosed check and I thank you very much.

The only way that we can overcome maya is by seriously and sincerely taking shelter of Krishna. Daivi esa guna mayi mama maya duratyaya, mam eva ye prapadyante mayam etam taranti te [Bg. 7.14]. So chant very sincerely and follow the four regulative principles strictly and very soon you will be able to find shelter from the miseries of material attachment.

My dear Bishambhar,

Please accept my blessings. I am in due receipt of your letter dated June 6, 1976, and I have noted the contents with care.

You can spend the Rs. 10,000 necessary to fix up the Taparia house. Utilize the house properly. There is sweet water well there so all the women and children can go there. It is very encouraging that in May the temple and guesthouse income was Rs. 20,000.

So kindly help the management as Krishna Balarama is your worshipable Deity. Kindly guide our foreign disciples to manage nicely and increasingly you will be able to please Their Lordships Krishna and Balarama. Although I've established their temple, Their Lordships want me to keep outside the temple for touring. So in my absence you kindly manage nicely. Aksayananda Maharaja and yourself are tested devotees and I fully depend on you. I always think of how you are selflessly working for the temple. Please see that the accounts are kept and that no money is wasted. That's my only request. After all money is collected with great hardship. Not a single paise should be wasted.

Concerning Gurukula Construction; Already you have got some money. Begin and try to collect and the balance we shall arrange. Send me the account number and when money will be necessary the money will be transferred someway or another.

The power of attorney needed for filing court action against Baba Sarveshwar Das is coming by separate air freight to New Delhi. Also, there is no need to immediately put HaiHaya das as signer on the bank account. That we shall see. For the time being have Aksayananda Maharaja sign checks and when needed you can have them on hand.

I hope that this meets you in good health.

Very good. Every thing that you have stated sounds very nice. You are experienced man so do it very conscientiously. Your sign reads "The Perfection of Yoga," actually that is a fact. Bhaktiyoga is the best. Yoginam api sarvesam, madgatenantaratmana . . . [Bg. 6.47]. This Hari-kirtana is the best yoga bhakti-yoga. You just follow our regulative principles and teach others and you will be successful, without any doubt. You are trained up, and you speak the language of the local people, so do everything conscientiously and my blessings are always with you. However, don't create any awkward situation that may be criticized. Caesar's wife must be above criticism. Up to now as I have got respectable situation, I wish that all my disciples will have similar respectable position in society. That will keep my name good. Like father, like son.

My Dear Gopala Krishna das,

Please accept my blessings. I am in due receipt of your letter dated June 26, 1976 with enclosed photos of the New Delhi Temple. So many people are coming to the New Delhi Temple because of the nice Deity worship. This is very good. Keep the standard of Deity worship very nicely.

Why should we invest money in a guest room for the New Delhi Temple? After all the house is rented and is someone else's property, so why we should invest money in the house? We cannot receive guests in the New Delhi Temple. It is not possible. Only our own workers should remain. Unpaid guests should be discouraged in New Delhi. This should be discussed in the GBC meetings. No investment should be made. In a rented house we should not spend unreasonable amounts for alterations. To be "big" you must have a dharmasala. One room guesthouse does not make Delhi "big." So far as possible, guests should be avoided in New Delhi and only workers should remain.

What happened to Jagat Purusa in Bombay? He is an experienced man in Bombay so why he should be changed to Delhi? This change of Presidents is to be made in the GBC meeting. In the middle of the year there is no question of change. Tejyas can continue as President. Three times changing president is not good. It should first be conjointly considered by the GBC.

Unless one is initiated they cannot cook. They must be regular disciples then they can do Deity worship. So there is no question of the outsiders cooking in the New Delhi temple.

The Rs. 32,000 should be spent for Gurukula in Vrindaban. Now the construction has begun and it must continue. Do not spend that Rs. 5,000 for alterations in the New Delhi Temple. Unless we have got our own land, where is the question of other projects in New Delhi. Let us continue in the rented house and see how things develop. If local people come and join and take initiation, then we can consider developing. Simply lip-sympathy will not do. They must be regular disciple, follow the regulative principles, and they will develop it themselves. Besides that book distribution and preaching is our most important activity. Opening temples is subordinate. We have to see how books are being distributed and how people are joining wholeheartedly. That is actual development.

The Rs. 11-membership is imagination. What is that membership card? And how will you regularly collect such a small sum from the members? It will engage so much money just to collect this. In any case, this is to be discussed with the GBC. Don't discuss anything new haphazardly. I have no experience of the idea. So far I know, retail business is not good in comparison to wholesale business. The Hyderabad Deity is already installed. Simply they are moving Them to their new temple. The installation ceremony (bathing ceremony) can be at noon. Then again there can be the regular Janmastami function at midnight. Concerning my going to Madras, Delhi, etc. there is first priority engagement contemplated with Mr. Bajaj's group in Poona. Giriraja can consult with Mr. Bajaj and get date fixed up then you can make the program. I have no objection however to the pandal in Madras.

So many standing orders are being taken out but they are not being executed. Why? I have written to Gargamuni Maharaja to gradually repay the BBT for the books that they are getting but you must immediately supply them books to supply their orders. They can gradually repay.

Sridhara Maharaja, if he is in Hong Kong, there is great need of introducing our Chinese literature. Chinese people are interested in India, and Vedic literatures. It is understood that they are purchasing other editions of Bhagavatam from India . . . why not approach the Chinese representative in Bombay for introducing our books. They are establishing good relations with India. In case Sridhara Maharaja cannot stay long in China, that will have to be discussed with Trivikrama Maharaja. But the Chinese Distribution is required.

I received information that Stoka Krishna has left Vrindaban and that they want to put the name of Haihaya on the bank accounts for signing. Kindly confirm, and also in the meantime Aksayananda Swami can sign checks and keep them safely in Vrindaban when Bishambar requires to make payments.

I hope that this meets you in good health.

My dear Yasomatinandana das,

Please accept my blessings. I am in due receipt of your new Gujarati magazine with enclosed letter dated June 28, 1976, and I thank you very much.

Your program in Ahmedabad is very encouraging. Do it. Why not take the government land immediately. If you can publish these magazines you will get many supporters and sympathizers. If the order department in Bombay is not despatching the orders on literature to the foreign temples then you can sometimes go to Bombay and organize things. You are one of the trustees. You can organize it or have some professional shipping agent do it. Ahmedabad is such a big city. Aren't there any shipping agents there? Why from Bombay, why not from Ahmedabad?

The distribution results from the Rathayatra are very nice. There is no question of profit. Distribution is the first consideration.

I hope that this meets you in good health.

Krishna das Mahesavari, Son of Lava Pokaar das Sharma Gali, P.O. Hatras U.P. India

Dear Krishna das, Mahesavari,

Please accept my greetings. I beg to acknowledge receipt of your letter (Hindi postcard) addressed to my Vrindaban Mandir address. You'll be pleased to learn that along with the Hare Krishna Movement in the foreign countries, we are taking care of cow protection very vigorously. There are already dozens of such centres and farms where we are protecting cows like our New Vrindaban community in West Virginia, Bhaktivedanta Manor in London, altogether over 14 such projects have been started throughout the world to date. We are giving protection to the cows with great profit. We are getting huge amounts of milk from which we are preparing lovely yogurt, dahi, sandesh, rasagulla, gulabjamon, etc. We have sufficient quantity of ghee for preparing kachori, samosa, and other very palatable confectionaries. The people of this country are gradually taking this idea very seriously for vegetarian diet and stopping cow killing in a practical way. We have got more than 100 temples all over the world and attached to every temple we are opening farms and in many cities restaurants, and all of them are going on very successfully.

In India the difference is that no enthusiastic young men with education are joining this movement wholeheartedly whereas in the foreign countries hundreds and thousands of qualified respectable men are joining us. I hope that you are a young man and along with other young friends you should also join us wholeheartedly, then we can do the same work in India. It is the duty of the Vaisyas to take to agriculture and cow protection. That is mentioned in the Bhagavad-gita: Krsi goraksya vanijyam, vaisya karma svabhava jam (18.44). Unfortunately in India, the Vaisyas are not very much interested in agriculture and cow protection. They are more interested in opening factories. So how things can be done if the Vaisyas give us free advice for cow protection and then they themselves are more interested in opening factories, then how can cow protection be properly done? If you see me personally in this connection I shall talk to you in detail. I am returning to India on August 14, 1976 and you can reply this letter to my Bombay Office which address is below.

Concerning the proposed meeting with the Pope, I have no objection cancelling or delaying the journey to Tehran if the meeting with the Pope is assured. That is important. But if it is simply a courtesy visit, then what is the use? If he is prepared to discuss seriously how religion is becoming degraded all over the world, then it is worthwhile. Religion is now being taken as a formality. People generally have no real conception of God. Ours is a tangible connection with God. We know who is God and how to serve Him. Everything is fact.

My dear Gopala Krishna dasa,

Please accept my blessings. I am in due receipt of your letters dated July 4, and July 9, 1976, and I have noted the contents very carefully.

The power of attorney is presently at the Indian Embassy and by Friday (2 days from now), after it is certified by them, my secretary will send it to Delhi as per your instructions. I am enclosing a letter to Governor Reddy and this may be helpful when you go to see him. If the other groups that you mentioned have been tax-exempted, then our Society should at least have the same facility.

Of the two types of paper which you sent me, the white paper (cost: Rs. 4.60 per kg.) is preferable.

Why Nitai should be attending lectures outside of our temple? If he is not satisfied with the standard of lectures in our temple, then he should be permitted to give some lectures himself, but this habit of going outside to here others should be stopped immediately. I am writing one letter to Nitai and the copy of this is enclosed for your reference.

I hope that this meets you in good health.

My Dear Saurabha dasa,

Please accept my blessings. I am in due receipt of your letter dated July 5, 1976, and I have noted the contents with care.

The bill which you submit to me should be signed by three persons before we issue payment to ECC. At present you and Giriraja are signing, but I desire that Gopala Krishna also sign. The copy of letter to Bank of America is enclosed, requesting payment of Rs. 5,21,506.60 to the ECC.

The idea to have a wider larger altar for Radha-Krishna is approved however on the plan which you have enclosed it appears that there are pillars separating Lalita and Visakha from Radha-Krishna. There should be no pillars in between the Deity of Visakha Lalita and Radha-Krishna. The scheme should be just like in our Krishna-Balarama Mandir. So from the front there should not be a pillar in between Radha-Krishna and Visakha or Lalita.

Concerning the back road for the land, you should simply acquire the land, but do not begin any construction of the road or gate until I arrive in about one month's time. Simply get the land transferred to us for use and I shall see when I come what will be done.

Concerning the payments for Vrindaban Gurukula construction, you can submit to me bills just as you are doing in Bombay and the funds can be transferred directly from Bank of America to the Punjab National Bank savings account 6685 (ISKCON construction) in Vrindaban.

Concerning Mr. D. Mukerjee, I am always prepared to do anything for spreading Krishna Consciousness. It may be that with our name he will collect from big men. But, the best thing is to wait until I see Mr. Mukerjee when I go to Bombay. Your proposal sounds nice but in Mr. Mukerjee's letter he does not mention anything about anything except to open an audio-visual laboratory. So we don't want to be used by some film producer who might collect money in our name. In any case, I can see him when I return in one month's time, and I am enclosing a copy of my letter to him for your reference.

I hope that this meets you in good health.

New Vrindaban

My dear Damodara Pandita,

Please accept my blessings. I am in due receipt of your letter dated July 12, 1976, and I have noted the contents with care. Concerning the recordings of Krsna dasa Babaji, how can I make any judgment as I have not heard them. However, you should just go on chanting Hare Krishna Mahamantra and the Pancatattva mantra and don't divert your attention. You cannot understand the meaning of the Indian songs and simply parrot like chanting of these songs has no value.

Concerning making a comparative study and critique of philosophy, unless one is very expert it is difficult for him. First of all, let people understand Krishna. We are doing that. Maybe one or two are interested in philosophy and for so few persons we can't spare so much valuable time. Better to induce everyone to chant Hare Krishna and take prasadam. That will be a mass benevolent activity. In the western countries many Ph.D.'s are out of employment because they did not get any service. We do not want to become great philosophers but rather to understand the philosophy in our own books. If we remain strong in our own literature, we can meet anyone else without any fear.

As soon as the palace is complete, I shall go again. I very much appreciated how everyone is living peacefully and happily at New Vrindaban.

I hope that this meets you in good health.

My dear Dhrstaketu dasa,

Please accept my blessings. I am in due receipt of your letter dated July 11, 1976, and I have noted the contents with care.

You can use the nickname Krishna-dasa, or Caitanya-dasa, etc., etc. when needed if you require some more simply name is distributing books. Everyone is Krishna-dasa, or Gurudasa, like that.

Unless absolutely necessary, one should keep head shaven and not allow the hair to grow long. If absolutely necessary, one can dress like an American gentleman, with short hair, but long hair is prohibited. The reason that one with long hair is not my disciple is because he is against the principle. Unless absolutely necessary one should keep hair short, and if necessary one can dress like an American gentleman with short hair. It is not expected that everyone will join. For that reason we can't compromise. The tendency is there to be hippy. When the acaryas are seen with beard, that is during Caturmasya, July-September. If observed strictly there is not simply a beard. There are so many rules and regulations. One can't eat a variety of foods. Only kitri prepared and poured on the floor, and then licked up. There are so many other rules also. That is not always that they kept beard.

Concerning the Vedic statements, if you do not know, what can I do? You have to know it otherwise why do you speak something about what you do not know. If you have heard from the Bhagavatam or other Vedic literatures, what do you want to know more? Have you seen the different inhabitants on the different planets? We have to hear from the authoritative scriptures and accept it. That's all.

I hope that this meets you in good health.

Concerning the domes for the temple, you can inquire from Aksayananda Swami in Vrindaban who did the domes on the Krishna-Balarama Temple. To date I have not received any letter from Vasudeva in reply to my last letter. If perhaps there was some delay, you can send the letter to Paris as I am leaving for London tomorrow and shortly thereafter to Paris.

I hope that this meets you in good health.

My Dear Joan Fields:

Please accept my blessings. I am in due receipt of your very nice gifts and the donation towards the book fund. This is the way to advance in Krishna consciousness. One should always offer to the spiritual master whatever one can. One should chant the Hare Krsna mantra at least 16 rounds daily and follow the four regulative principles then one's life can become perfect. Always try to remember Krsna in all your activities and gradually He will help you to break free of all material attachments of life and along with your sincere desire your path back home back to godhead can be clear. One should always be sincere to please the spiritual master by following his instructions, then life is very easy.

I hope this meets you in good health.

My Dear Giriraja das:

Please accept my blessings. I am in receipt of your letter dated July 17 and have noted the contents with care.

This news of the donation of Mr. Malhotra is very good. Take the land and utilize it. Many good guests will come to such a place and I will also come. Estimate the cost and we shall do it immediately. I will come and see the land upon arriving in Bombay.

You may print in Marathi the Bhagavat Darsana and Lokanatha Swami may edit the translations done by others. We have government paper so you may print with this. I think though, that there is more than one Maharastrian devotee, but anyway there are many sympathisers who would be willing to voluntarily serve by this translation work.

This idea of Mr. Binbani's is very good; you should encourage him. You may say that the entire expense of this issue has been met by the Binani Trust. This will encourage the other trusts to also contribute. It is very nice that he wants to help the printing of literatures. The construction of the temple is going on, now let us have new publications. I am sending by separate registered post the Hindi translation of the Nectar of Devotion. You should print it. Our Bombay center is a general cultural institution for the education of scientific knowledge and spiritual life. I am trying to induce responsible men to fully retire from family life and take to Krsna consciousness.

Ashok's mother is a good lady as are all of them. Please give my blessings to her.

Regarding this research tax exemption, we have got so many Phd's also, and are starting the Bhaktivedanta Institute for making research work for the improvement of the economic condition of the world. We are introducing many farms and they are very successful. We want to introduce this in India also.

I hope this meets you in good health.

Please accept my blessings. I am in due receipt of your letter dated July 18, 1976 and have noted the contents with care. I am very pleased that you are preaching for preaching is our main line. Harikesa Swami was also doing preaching work and now you are also. Preaching is the most important business. Although my personal service is also important, the preaching work comes first. I want everyone of our men to become first class preachers. So you want to preach that is best. Don't be worried, but go on with your preaching and you will be happy.

Please accept my blessings. I am in due receipt of your letter dated July 21, 1976 and have noted the contents with care.

Regarding your meeting me to discuss about the land acquisition matter, I shall inform you later on as to my arrival time in India. For the time being I shall stay at the farm in France. But as far as going to see the Chief Minister is concerned, let him decide on the merit of the report. A full report is there in hand, so let him decide as he likes. I have not seen any one of the officers as yet, but anyone who came I saw. If the Chief Minister comes to Mayapur then that is alright. Otherwise officially whatever he likes he can decide on the merit of the project.

Regarding the approval of the University, we have got both students and teachers and can supply the list to them. But first we must know the conditions which they are asking of us to fulfill. It was very good that they liked the prasadam. Introduce the recitation of Gitar Gan in every school. That will be a nice credit.

Abhirama prabhu should kindly inform me what is the situation of the park. I did not receive the bank statement as yet.

The latest report from Tamala Krsna Goswami is that we are selling $60,000 worth of our books daily. It is because you are helping me that all this has become possible otherwise how can I do anything alone, ekaki amara nahi paya bol, Sri Caitanya Mahaprabhu says that I cannot do anything, alone I am helpless. So Sri Caitanya Mahaprabhu is Krsna Himself and he wants the help of His devotees and what to speak of me.

I hope this meets you in good health.

Please accept my blessings. I am in due receipt of your offering of July 27, 1976 of 108 pounds and I thank you very much for it. Actually you are correct, it is not possible for the disciple to repay the debt to the spiritual master. Therefore the disciple remains eternally indebted to the spiritual master and continually works in such a way that the spiritual master may become pleased upon him for such sincere services rendered. Always follow the four principles, take prasadam, and above all chant your sixteen rounds a day, and thus you will make steady advancement in devotional service. Letter to: Vasudeva

76-07-29

My Dear Vasudeva das;

Please accept my blessings. I am in due receipt of the undated joint letter from you and Upendra dasa and have noted the contents with care. Regarding the situation in Fiji, it is necessary that we come to a proper understanding as to the status of the land and the organization of ISKCON Fiji itself. The first point is that the governing board of ISKCON may have yourself and your brother as members, but must also have the GBC for the zone, Gurukrpa Swami, the GBC Chairman, Tamala Krsna Goswami , and Upendra das as members. The second point is that after ISKCON has been organized in the above way the land which the temple is being constructed on must be leased to ISKCON Fiji with a 99 year unconditional lease with option to renew which I shall approve.

In case you do not like this arrangement then you may keep the temple as your private property and as my disciple I will give you guidance. But you may not use the ISKCON name to collect funds or to take loans. In this connection until this matter is resolved no loan may be taken from the bank or elsewhere and all collections in the name of ISKCON, must stop. If you desire to keep the temple as private property then Upendra das may return to Hawaii and ISKCON Fiji may be dissolved. If you want to consider this project as an ISKCON project then you must abide by the orders and direction of the GBC, which you do not like to do. Now whatever you like let me know.

I hope this meets you in good health.

My dear Rucira dasi:

Please accept my blessings. I am in due receipt of your gift and note dated.

This process of offering whatever one has in one's possession for the pleasure of the spiritual master or Krsna is recommended in the Bhagavad gita by the Lord Himself when he says, "yat karosi yad asnasi yat karosi dadasi yat… [Bg. 9.27]." and "tad viddhi pranipatena pariprasnena sevaya. . . [Bg. 4.34]". This process of offering everything in one's possession or ability is the recommended means for losing all attachment to material things and all attachment to material sense gratification. When one has become purified by this process of offering everything back to the Supreme he becomes simply attached to pleasing the Supreme Lord. This is the perfection of life. It is attained simply by following the four regulative principles, chanting sixteen rounds daily, and regularly offering one's time and effort in the propagation of this Krsna Consciousness Movement.

I hope this meets you in good health.

This Krsna Consciousness Movement is based on the Bhagavad-gita As It Is. We have attempted to present this great philosophy to the world in a pure way, without material motive, and by the grace of Lord Krsna our effort has come out successful. People everywhere are taking to Krsna Consciousness, following the simple principles, and becoming happy. At least no one has ever seen such high character as in our boys and girls. On your recommendation I am accepting the following disciples for first and second initiation: First Initiation: Michael Hyldahl-Vamsimohana dasa Rodolfo Rios-Rasa-Vilasa dasa James Lanclos-Jnana-natha dasa Willie Butch McCord-Vaninatha Raya dasa Second Initiation: Jitamitra das brahmacary

Hold a fire sacrifice and present the beads and gayatri mantra tape with brahmana thread at that time. The initiates should follow our four principles of Godly life namely; no eating of meat, fish or eggs; no gambling, no intoxication, and no illicit sex. All devotees must also chant the prescribed 16 rounds on the beads daily, without fail. Enclosed you will find one brahmana thread and gayatri mantra. After the fire sacrifice the tape of the gayatri mantra should be played into the right ear of the initiate. To become a brahmana means to be always clean outside by regular cleanliness and inside by chanting the Hare Krishna maha mantra. The beads for the first initiates should be chanted on by your GBC man and the names given at the time of the sacrifice.

Your desire to please me is very pleasing and your preaching program in Spain sounds very nice. Please push on this movement in the Spanish and Portuguese languages with great enthusiasm and certainly Krsna will bless you for taking so much trouble to preach His glories. A Vaisnava always feels himself incapable to repay his debt to his spiritual master therefore he works very hard in order to try and repay that debt. He knows that without the mercy of the spiritual master one cannot preach this Krsna consciousness and therefore he always tries to act in such a way that he may please his guru. Letter to: Sumati Morarjee

-

Valencay, France 7 August, 1976

76-08-09

Bombay

Madame Sumati Morarji,

Please accept my blessings. Since I have not heard from you for a very long time, I was very glad to receive your letter dated 29th July 1976. I came here to our temple to install Krsna Balarama murtis, and the function has now been completed. I shall go to Tehran, Iran from here and shall stay there for a few days before returning to India as soon as possible.

I am sorry to learn that you have become a little agitated regarding the publication of an article in our Back to Godhead magazine. It is certainly unpleasant, but the officers who publish the magazine do not know satyam bruyat priyam bruyat, in this material world only palatable truth should be spoken. Unpalatable truth should be carefully avoided. The cause of Lord Sri Caitanya Mahaprabhu's agitation was much the same as your own. As you are irritated by the criticism of Sri Vallabhacarya, similarly Sri Caitanya Mahaprabhu was also agitated when Vallabhacarya criticized Sridhara Svami.

Sridhara Svami is accepted as the original commentator on the Srimad-Bhagavatam. Perhaps you know that there is an edition of the Srimad-Bhagavatam by Krsna Sankara Sastri ”abhinavah sukah” Vedantacarya, Sahitya-tirtha, sribhagavatasudhanidhi, from Ahmedabad. In his book he has given almost all the important commentaries on the Bhagavatam, as follows: 1. Sridhara Svami 2. Sri Vamsidhara 3. Sri Gangasahaya 4. Srimad Viraraghavacarya 5. Srimad Vijayadhvaja Tirtha 6. Srimad Jiva Gosvami 7. Srimad Visvanatha Cakravarti Thakura 8. Srimad sukadeva 9. Gosvami Sri-giridharalal (Vallabhacarya Sampradaya) 10. Sri Bhagavat-prasadacarya, etc..

Among all commentaries, Sridhara Svami’s is given the first position. This parampara has existed for a very long time. It was also accepted during Sri Caitanya Mahaprabhu’s time, but Sri Vallabhacarya violated the system. Instead of acknowledging Sridhara Svami’s pre-eminent position, he wanted to take it himself. I am enclosing herewith some photocopies of the important verses from the original book Caitanya Caritamrta that specifically deal with the subject matter. These verses are from Antya lila, Chapter 7, entitled ”Lord Caitanya meets Vallabha Bhatta”. I would like to draw your attention to verse 113 on page 55 where Vallabha Bhatta says:

”In my commentary on Srimad-Bhagavatam,” he said, ”I have refuted the explanations of Sridhara Svami. I cannot accept his explanations.”

Moreover, verse 114 states:

”Whatever Sridhara Svami reads he explains according the circumstances. Therefore he is inconsistent in his explanations and cannot be accepted as an authority.”

Vallabha Bhatta’s declaration certainly agitated Sri Caitanya Mahaprabhu. Consequently, Sri Caitanya Mahaprabhu remarked sarcastically that He considered that anyone who did not accept the svami (or Sridhara Svami) as an authority was a prostitute. Prabhu hasi kahe; but he smiled and said this jokingly, because they were friends.

Although this point is very controversial, it is not based on hearsay, as you have stated, but it is authoritatively documented by the Caitanya Caritamrta. As you have written in a friendly spirit, I do not wish to discuss this point further. If you will kindly take a little trouble to read this chapter ”Lord Caitanya meets Vallabha Bhatta” you will understand the whole situation. Actually Vallabha Bhatta should not have criticized Sridhara Svami, because even now Sridhara Svami is very respected. Even authorities like Sri Jiva Goswami and Visvanatha Cakravarti Thakura mention in their commentaries, svami caranat, as we have learned it from the lotus feet of Sridhara Svami. So when Vallabha Bhatta criticized Sridhara Svami, Caitanya Mahaprabhu criticized Vallabha Bhatta strongly. This is a fact, but this does not mean that Vallabha Bhatta and Caitanya Mahaprabhu were inimical. Vallabha Bhatta honored Sri Caitanya Mahaprabhu as a superior. Sometimes Sri Caitanya Mahaprabhu would chastise Vallabha Bhatta and sometimes He would favor him, because this was their relationship. Sri Caitanya Mahaprabhu would never refuse the occasional invitations of Vallabha Bhatta.

Everything will become clear if you kindly read this chapter with attention. For example, we see that two lawyers in the courtroom may fight vigorously about a law point, but upon returning to the law library, they talk and embrace like friends. So you should always remember that we have no ill feelings towards Vallabha Bhattacarya. We have full respect for him, so there is no harm if these facts are discussed in the society of devotees. Devotees always humbly offer respect to everyone, but when there is a discussion on a point of sastra, they do not observe the usual etiquette, satyam bruyat priyam bruyat. They speak only the satyam, although it may not necessarily be priyam.

I hope you will understand the whole situation. If you still have any doubts, I shall be glad to hear from you and shall try to satisfy you to the best of my ability. I am presently not in very good health, nonetheless I hope this meets you well.

Letter to: Sons and Daughters

-

Bombay 14 August, 1976

76-08-14

My dear Sons and Daughters;

Please accept my blessings. I am in due receipt of your letter dated August 9, 1976 and the enclosed daksina and pictures of the murtis in New Dvaraka which I am having framed and put on my wall here in Bombay.

If you feel at all indebted to me then you should preach vigorously like me. That is the proper way to repay me. Of course, no one can repay the debt to the spiritual master, but the spiritual master is very much pleased by such an attitude by the disciple. In the Bhagavad-gita it is said, vyavasayatmika buddhir ekeha kuru nandana [Bg. 2.41], ”Those who are on this path are resolute in purpose, and their aim is one." Our only business is to be fixed up in devotional service by pleasing the spiritual master. Those who are not fixed up they have various lines of action (eka means 'one' and bahu means 'many').

The real ocean of mercy is Krsna and it is the duty of the spiritual master to tell his disciple to come to the ocean and be happy. The spiritual master's duty is to lead the disciple to this ocean. I am trying my best and if you try to follow surely you will benefit.

Bhaktivinode Thakura has sung, "Krsna sei tomara, krsna dite para, tomara sakati ache. Ami ta'kangala, krsna krsna boli, dhai tava pache pache." "Krsna is yours and you have the power to give Him to anyone you wish. I am poor and wretched and running behind you shouting Krsna, Krsna!"

Krsna is unlimited, no one can catch Him, but if someone follows the parampara, he agrees to be captured. Everyone is afraid of Krsna, but Krsna is afraid of Mother Yasoda. That is Krsna's special mercy.

I hope this meets all of you in good health.

My Dear Pusta Krsna Maharaja,

Please accept my blessings. I am in due receipt of your letter dated July 30, 1976 and have noted the contents.

If you relieve me of the burden of management, that will be a very great service to Krsna and the movement. See that everything is going on nicely. With great endeavor we have made the framework, now we have to see that things are going on nicely.

Yes, this preaching work is our mission. It is Caitanya Mahaprabhu's mission, my Guru Maharaja's mission, and my mission. It is through the parampara. As I am trying to discharge my Guru Maharaja's mission, you also try and things will go on nicely.

I hope this meets you in good health.

My Dear Radhe-Syama das,

Please accept my blessings. I am in due receipt of your letter dated 5th August 1976, and have noted the contents with care.

I thank you very much for your many gifts to me and your concern for my well being. This is the correct attitude for a disciple. The disciple should be prepared to offer everything he has including his body, mind, and words, in the service of the guru. Anyone who is sincerely serving to his greatest capacity becomes dear in the eyes of the Lord. So continue in your efforts to spread Krsna consciousness and to help Jayatirtha prabhu win this case, and always follow the regulative principles of devotional service without fail.

I hope this meets you in good health.

Letter to: Ramesvara , Radhavallabha

-

Bombay 14 August, 1976

My Dear Ramesvara Maharaja and Radhavallabha das,

Please accept my blessings. I am in due receipt of the package from Los Angeles containing the Vyasa Puja and the latest BBT newsletter and I have found both to be extremely pleasing.

The report of the book printing is both encouraging and surprising. Every time I see this I remember the words of my Guru Maharaja when he told me that wherever there was money it should be used to print books, not that we shall have big big temples and then fight in the court. He asked me to do this and I am trying my little bit, that's all. It is all by his blessings for without his blessings this wonderful thing would not have happened. He said personally to me, "If I could sell this Gaudiya Matha building, that would have been better." He predicted that there would be fire within these walls. So I took it, "O, His Divine Grace wants some books." So I accepted it, "Yes, I shall do it." It is all by his blessings. Mukam karoti vacalam pangum langhayate girim, by his mercy a dumb man can speak and a lame man can cross a mountain.

Regarding the return of Indrapramada to the press, thank him for coming back. Krsna is so kind that anyone who does some service for Him, Krsna immediately captures him. Svalpam apy asya dharmasya trayate mahato bhayat, a little advancement on this path can protect one from the most dangerous type of fear. There are many instances. Tyaktva sva-dharman caranambujam harer bhajan na pakvo'tha patet tato yadi… [SB 1.5.17] "If someone gives up self-gratificatory pursuits and works in Krsna consciousness and then falls down on account of not completing his work, what loss is there on his part? And if one performs his material activities perfectly, what gain is there?" So let us try to render service to Krsna very sincerely. Even a drop will never go in vain, nitya. In this connection Lord Caitanya Mahaprabhu's prayer, ayi nanda tanuja kinkarama patitam mam . . . is very instructive. Let us remain in that attitude and Krsna will give us protection.

I have received the photocopy of the August transfer to Bank of America, Bombay. I think that the reprinted books should have a list of the numbers on the first page. The totals listed will be very good publicity.

I hope this meets you in good health.

All GBC Secretaries

Dear GBC Prabhu:

Please accept our humble obeisances at your feet. It has come to His Divine Grace's attention that many members of our society are engaged in the same business that Rsabhdeva (ex-President Laguna Beach) and devotees of Laguna Beach Temple were engaged in. These devotees were recently in Delhi and Calcutta. Some of them also met one of our GBC men in Hongkong. The list of devotees doing this business includes some senior devotees. Furthermore, it was discovered that some GBC members were backing these projects. Exact details on how these activities are carried out were revealed by a participant and His Divine Grace is thoroughly aware of the entire operation now.

His Divine Grace is very very unhappy about this. He said that under no circumstances can any GBC or Temple President accept any money from these devotees. This business has to be stopped at once immediately. His Divine Grace wants all of you to refer to the instruction of 3rd verse of Upadesamrta. First and foremost our profession must be very hones-above all suspicion. His Divine Grace said "I am trying to retire from management to translate but if these things come then how can I translate. I have set up the framework and everything should be done within the framework. Kindly see that this business is stopped at once."

My Dear Ajita das,

Please accept my blessings. As per your letter of request, I am accepting on your recommendation the following for first and second initiation,

First Initiation Patricia Taylor-Papsudani dasi Diane Zimmerman-Dinadaya dasi

Second Initiation Maharudra das

The names and beads duly chanted upon by your local GBC man, may be given at a fire yajna. The brahmana thread and gayatri mantra which must be heard through the right ear, may also be given at the fire yajna. All initiated disciples must chant 16 rounds a day without fail and observe the four regulative principles very strictly. The brahmanas must become learned in the sastras and very clean internally and externally by regularly bathing with water and the holy name. A brahmana must be fixed up in understanding of brahmana. One should not take it cheaply. This initiation is very serious and one should endeavor to follow the orders of the spiritual master with great determination. Daksina should also be offered when one presents oneself for initiation.

I hope this meets you in good health.

Dear Sampath Kumar,

Please accept my blessings. I am pleased to thank you for your kind help in organizing the Pratistha Yajnas for the opening ceremonies of the Sri Sri Radha-Madana-mohana Temple in Hyderabad.

The Yajnas were conducted very nicely and everything was very clean and neat. Actually in the Kali yuga the real yajna is the sankirtana yajna as it is prescribed in the Srimad-Bhagavatam,

krsna varnam tvisakrsnam sangopangastra parsadam yajnaih sankirtana prayair yajante hi sumedasah [SB 11.5.32]

This is the sacrifice for Kali-yuga, harinama sankirtana.

My request is that you should help us to spread this Krsna conscious brahminical culture over the world.

Mark Phillips-Mahotsaha dasa

Jane Phillips-Jagat-priya dasi

Greg Jay-Gaura Kesava dasa

You may hold a fire yajna and at that time the names of the initiates as well as their beads chanted on by Gurukrpa Maharaja may be given. Make sure that they are well aware of the four rules and regulations and that they are fixed in chanting the prescribed number of 16 rounds daily on the beads. Without these two principles no one can make advancement on the path of regulated bhakti. Teach them the science of the Bhagavad gita and train them to be first class representatives of Krsna. It is not very difficult, simply one has to hear from the perfect authority who is in disciplic succession from Krsna Himself, and then repeat the same message without any change. If one does this then he is qualified to become guru.

I hope this meets you in good health.

My Dear Taksya das,

Please accept my blessings. I am in due receipt of your letter dated July 27, 1976 and have noted the contents.

I am pleased to accept on your recommendation Bhakta Walker for first initiation. His name will be Vayuvahana dasa. You may give him his name at a fire yajna and his beads may be chanted on by Hrdayananda Maharaja. Make sure that he is well aware of our four rules and regulations and that they are followed. Also make sure that he chants the prescribed number of rounds. Every initiated disciple must chant 16 rounds a day without fail. If one follows the rules and regulations of devotional life then he may advance very quickly on the path of devotional service.

Kindly take up the mission of spreading the message of the Lord all over the world with greater and greater enthusiasm. Preaching is our life. But in order to preach one must become firmly fixed in the spiritual practices otherwise his words will not act. It is the duty of every initiated disciple to try and please the spiritual master by rendering service and inquiring submissively. There should also be an offering of daksina whenever one presents himself for initiation.

I hope this meets you in good health.

"Madame Sumati Morarji is a great friend of our Krishna Consciousness Movement. I first met her in connection with the printing of my Srimad-Bhagavatam and she was so kind as to immediately pay me 500 Rupees for it. Later on, in 1965 when I wanted to go to the USA, I appealed to this benevolent lady again to carry me aboard one of her ships to New York, and she immediately arranged for it. I was able to start for the USA on account of her kindness and taking some books with me I safely reached on September 19th, 1965.

When I returned to INDIA in 1970, she gave me a good reception in her office building. Many nice gentlemen also met me at that time. My Dear Tusta Krsna Maharaja,

Please accept my blessings. I am in due receipt of your letter of 10 August 1976 and have noted the contents. Your idea and completion of the kirtana hall etc. is very nice. You can visit our farm projects at New Vrndavana and the New York Farm in Port Royal, Pennsylvania. They do everything very nicely and you can develop your farm on their model. That you are growing all your own grains is very good. It is my ambition that all devotees may remain self independent by producing vegetables, grains, milk, fruits, flowers, and by weaving their own cloth in handlooms. This simple life is very nice. Simple village life saves time for other engagements like chanting the Hare Krishna Maha Mantra.

Generally people are spoiling their lives for decorating the dead body and giving no attention at all to the spirit soul within. Our business is just the opposite, to give more time to the spiritual life and accept material necessities only as required. This makes life perfect. This is the Vedic way of life. We do not reject or accept anything until it is seen in the light of our Krsna Consciousness Movement. Anything favorable for Krsna consciousness we accept and anything unfavorable we reject, anukulasya sankalpah pratikulyam-vivarjanam.

Giving classes and holding feasts is our preaching. We should hold sankirtana as much as possible and distribute prasadam. Gradually when their heart is softened, then we will talk of philosophy, not in the beginning.

I have read your telegram of Vyasa Puja offering and I thank you very much for your nice feelings. I hope this meets you in good health.

LT$_{760824B1}$

My Dear Bhavananda:

Please accept my blessings. I beg to acknowledge receipt of your letter dated January 24, 1972 and have noted the contents carefully. Things here are going on very nicely. Enclosed is one clipping. Last night at the festival meeting one government official spoke very highly of my movement and everyone was very pleased.

Now I am here in Africa and will be returning within a week. From Bombay I shall let you know what is to be done after consulting Tamal Krishna Goswami Maharaj and Shyamasundar, two GBC members. I do not approve the proposal for constructing another new set of temples in the new land. If we construct temple, we must do it according to the big plan in the land already purchased. We have already one cottage in the land, and for three days it is not advisable to construct other houses. Those who have got permits may immediately go and remain in the cottage already there. If need be for three days you can rent some tents and cots. I am surprised that Calcutta cannot arrange even for your food expenditure in Mayapur, then what is the question of the festival?

So far Calcutta branch is concerned, it cannot be closed. It must be maintained. You have got permits for five men, and all of these men must go to Mayapur immediately and perform Sankirtan day and night. If Calcutta cannot supply your maintenance food, then Bombay will supply. So with great difficulty we have of the permits for permission, so with the exception of Bhanu who is going to Tokyo others may go to live there.

I have talked to Brahmananda Maharaj about all these things, and he is ready to take full charge of Calcutta and Mayapur but he is very busy here now. We have purchased a nice house in Nairobi. 50% of the payment, namely 122,000 Shs. has to be paid by the end of February. So after finishing this business if required he will come to India and take charge of things as required. But I am simply surprised why you are so disappointed with Calcutta affairs so you cannot maintain the devotees in Mayapur for ten days even.

I am sending a copy of this letter as well as your letter with enclosures to Tamal Krishna Maharaj, and I am also returning to Bombay and then we shall discuss and do the needful.

I hope this finds you in good health.

My Dear Dinesh Babu,

Please accept my blessings. I am in due receipt of your letter dated 24th June 1976 and have noted the contents with care. I am now staying at Delhi at the above address. From here I shall go to Vrndavana. I am also not keeping good health.

In New York I caught a cold and it continued for about one month of coughing at night without any sleep. But still I am travelling. I went from New York to London to Paris to Tehran to Bombay to Hyderabad to here.

So I am sorry to learn that you are not well. Pray to Krishna and chant Hare Krishna. The body is a temple of disease, janma mrtyu jara vyadhi [Bg. 13.9]. Disease is our inevitable companion. We still have to execute our duty of Krishna consciousness as far as possible and Krishna will help us. We are going to have a very big project at Mayapur. We have to acquire 350 acres of land from the Government and construct a spiritual town at the expense of Rs. 200 Crores. The plans and contemplations are going on in different phases, now when Caitanya Mahaprabhu will be pleased it will be taken up.

After Vrndavana, I may return to Mayapur by the month of December and I hope by that time you will be quite fit to come and meet me. Thank you very much for your enquiry.

I hope this meets you well.

Dear Mr. Gupta,

Please accept my greetings. I am in due receipt of your letter dated 24 August 1976 and have noted the contents.

You may come and see me after September 3rd in Vrndavana where we can discuss all these affairs. There is also a nice guest house there.

I hope this meets you in good health.

My Dear Jagannatha Suta das,

Please accept my blessings. I am in due receipt of your letter dated August 18, 1976 and the separate package containing ten Back to Godhead magazines. Thank you very much for them.

Actually I am dependent on your mercy. If you kindly follow my instructions and continue to push on Krsna consciousness, that will make me very happy. You must very strictly observe the regulative principles and chant sixteen rounds a day and Krsna will give you guidance. This is also stated in the Bhagavad-gita, tesam satata yuktanam bhajatam priti-purvakam dadami buddhi-yogam tam yena mam upayanti te [Bg. 10.10], to those who worship Him with love, Krsna gives the guidance so that they can come back to Him. The more you give service to Krsna, the more you become advanced. Yasya deve para bhaktir yatha deve tatha gurau tasyaite kathita hyarthah prakasante mahatmanah [ŚU 6.23], "Only unto those great souls who simultaneously have implicit faith in both the Lord and the spiritual master are all the imports of the Vedic knowledge automatically revealed." This is the secret of success.

By the way, there has been some disturbance created by the publishing of a few comments on Vallabhacarya in Back to Godhead Vol. 10, No. 8, page 5, column 3, paragraph 2. Kindly avoid comments such as these in future publications.

I hope this meets you in good health.

My Dear Karandhara das,

Please accept my blessings. I am in due receipt of your nice letter dated August 13, 1976. So you are already engaged in the service of Krsna. Stick to it and that will make you perfect. You are following the regulative principles. This is our spiritual strength and you are most fortunate that you have got a very good wife. Your wife met me in NY and New Vrndavana and she is a very great devotee.

I know that you are competent to manage any department, whichever department you like you can render your service and keep yourself peaceful with your good wife. There is no impediment for grhasthas to become fully Krsna conscious. All of Caitanya Mahaprabhu's associates were grhasthas and all of them helped Caitanya Mahaprabhu in His missionary activities. Later on He took sannyasa and specifically He was assisted by Svarupa Damodara, but still He had intimate relations with grhasthas like Advaita Acarya, Nityananda, Gadadhara, and Srivas Thakura.

So, in whichever status of life you may remain, if you stick to the principles, then you are alright. I am going to Vrndavana. If it is convenient you can stay for some time in Vrndavana with your family.

I always think of you as I do think of my other disciples, and surely Krsna will help you to become a very strong devotee of the Lord. Please offer my blessings to your wife and children.

I hope this meets you in good health.

Letter to: Vegavan

76-08-03

My Dear Vegavan das;

Please accept my blessings. I am in due receipt of your letter dated August 1, 1976 and have noted the contents with care.

On your recommendation I am accepting the following disciples for first and second initiation:

First Initiation:

Bhakta Anders-Atma-nivedana dasa

Bhakta John-Yogindra dasa

Karen Johnstone-Kama-gayatri devi dasi

Second Initiation:
Turiya das brahmacari
Jamadagni das brahmacari
Radhanatha das brahmacari
Paragati das brahmacari

Hold a fire sacrifice and the initiates should refrain from the four pillars of sinful life: no illicit sex no meat, fish or egg eating (only Krsna prasadam), no gambling, and no intoxication. All devotees must also chant the prescribed 16 rounds daily on the beads. Enclosed you will also find four brahmana threads and gayatri mantra. After the fire sacrifice the tape of the gayatri mantra should be played in the right ear of the brahmana initiate. To become brahmana one must be clean inside and outside; outside by regularly taking bath, and inside by always chanting the Hare Krsna maha-mantra. the beads for the first initiates may be chanted on by Sriman Jayatirtha das and they should be given these beads and names at the time of the fire sacrifice.

I hope this meets you in good health.

Dear Dr. Chatterjee,

Please accept my blessings. Things are deteriorating on account of the loss of God consciousness. This simple method of chanting the Hare Krsna Maha Mantra will awaken God consciousness, and people will become very grateful all over the world. We welcome you to Vrndavana after the 3rd of September. We have got accommodations and whatever prasadam we have got we can give.

If you want to see me in Calcutta, you will have to wait until December when I may arrive there. I hope this meets you in good health.

Sao Paulo, Brazil

My Dear Jagajivan das,

Please accept my blessings. I am in due receipt of your letter dated July 27, 1976 and have noted the contents with care. I am very pleased that you have taken up this mission of spreading the Krsna consciousness movement all over the world. This is the wish of Sri Caitanya Mahaprabhu that, yare dakho tare kaho krsna upadesa, everyone you see or meet, tell him about krsna; amara ajnaya guru haya tara ei desa [Cc. Madhya 7.128], and by My command you become a guru and save this land. This was also the mission of my guru maharaj and it is my mission. You will perfect your life if you make it also your mission.

People everywhere are suffering on account of being led by blind leaders who are devoid of all knowledge of the soul. Such foolish men lead other foolish men and all concerned suffer. Andha yathandhair upaniyamana, when one blind man leads another, the result is that both of them fall into the ditch. Therefore there is a requirement for a section of society to become first class men, free of the influence of the modes of material nature, who can understand the mission of this human form of life and who can teach it to others. I am trying to create these men, but it is hard, for people have become lost of all intelligence due to the coverings of the three modes of material nature. So I am one man alone, yet now there are so many nice boys and girls like you to help me push on this movement in my old age. I thank you very much for your sincere efforts and you have my blessings that you will without a doubt be successful if you stick to the regulative principles and chant at least 16 rounds a day. Surely Krsna will recognize your service, and as soon as you are recognized by Krsna, then your life immediate becomes perfect. So continue your preaching activities all over South America and try and present this Krsna consciousness as it is without any change or speculation, and distribute as many books as possible, for this will have a very great effect on the lives of all those who are fortunate enough to receive them.

I hope this meets you in good health.

Bhuvaneśvara

My Dear Gaura Gopala (Govinda?) Maharaja,

Please accept my blessings. I am in due receipt of your letter dated August 28, 1976 and have noted the contents with care. Preaching actually done alone, that is the experience we get from the previous acaryas. Caitanya Mahaprabhu was travelling alone and with great difficulty His associates induced Him to accept an assistant.

So far foreign devotees are concerned I can bring immediately 500 devotees from foreign countries but the government will not allow them to stay. If any devotee comes he has to go back again after three months or six months, at 10,000 Rs. expenditure. Still I am struggling and whenever it is possible I am bringing foreign devotees to preach in India and as you say the Indians are cheaters even though not all of them. The majority who come and join us, it has been experienced, they are not sincere. Under the circumstances what can be done, I do not know. Even experienced devotees-perhaps you know Anand Baba-he was asked also to go as there were so many complaints against him. But one hope is there that you are publishing in the Orissan language and it is being distributed and your writing is approved by me. So if you concentrate on these literature printing matters and try to distribute as far as possible that is our great success. You can construct immediately a nice temple there but you say there is no devotees so how temple management can be executed? This is the problem. So you are conversant in the local language. If you bring some sincere souls to join you by preaching then it will be successful. Just like in Europe and America I went singlehandedly and by preaching work the boys responded and therefore we can see some light of success. Unfortunately in India this spirit is lacking. In India generally the young men are after money and woman, this is natural. They have no sacrificing spirit. That is the difference. I hope this meets you in good health.

My Dear Radhavallabha das,

Please accept my blessings. I am in due receipt of your letters dated August 25 and 31 and have noted the contents.

Concerning the editing of Jayadvaita Prabhu, whatever he does is approved by me. I have confidence in him. Your changes which I have seen of the sanskrit synonyms is also approved by me. Tanmayataya refers to the fact that the trees and the father were absorbed in the same feelings.

Titling of the Ninth Canto as Liberation is good, and the Tenth Canto should be called ”The Summum Bonum”. As far as the 11th and 12th Cantos are concerned they shall be named when they are presented. The title which you have given to the Eighth Canto was a little hard to understand at first but if it refers to pralaya, then it is alright. You must consult with me on such matters. Do not manufacture anything.

All of the sketches which you have sent to me while I am in India are approved. The picture of the Mohini Murti capturing the demons should take place outside on grass, there is no floor or walls. Prahlada Maharaja does not have a beard. Always avoid beards. It is not true that there are no shoes in Krsna lila, rather there are shoes except for the Vrndavana pastimes. But the shoes are of another quality, they are beautiful with jewels etc. On the battlefield they must wear shoes. The severed head of Rahu should look like the head of a demon, not round like a planet.

By controlling sex desire one becomes the most perfect sober person, kandutivan manasajivam visaheta dhirah. I hope this meets you in good health.

My Dear Santosh Babu,

Please accept my greetings. After a long time I have received a letter from you with mixed information. I am sorry to learn that one of your sons is in mental disorder, so do your best for treatment and depend on Krsna for the ultimate result. The chequered history of family life is the same for everyone. According to our philosophy we call it samsara dava nada lida loka the blazing forest fire of material life. In the forest fire takes place without any human effort and it burns into ashes all the trees and animals without any relief. The relief comes from the cloud above the head.

Similarly the relief from this material world comes from above as we have got instructions in the Bhagavad-gita. So if you like you can retire from family life-you are old enough-and it may be possible for us to give you some shelter. I am in Vrndavana at present and shall remain here at least for one month. If you so desire you can come here and meet me. With my good wishes for all your family members,

Dear David,

Please accept my blessings. I am in due receipt of your letter dated 6, September, 1976 and have noted the contents with care. Thank you very much for your kind offer to have me as your Permanent Acarya and Honorary Chairman. I will accept this if your organization and members are agreed to follow the four regulative principles which discriminate animal life from human life, i.e. no eating of meat fish or eggs; no illicit sex life outside of marriage and then only for the begetting of God conscious children; no intoxicants, including coffee, tea, or cigarettes; no gambling, not even bingo. Unless one follows these principles, spiritual life is not possible.

I can give you all guidance and direction for there are millions of Christians in the world today. We are not concerned with how, so much as the fact that one must develop his dormant love for God. This is alright that you will chant the names of Christ for after all he was the representative of God. People are lost due to not following a bona fide religious system. If you can revive their God consciousness that will be very good service.

My Dear Balarama das,

Please accept my blessings. I am in due receipt of your letter dated 10th August 1976 and have noted the contents. However the enclosed daksina never arrived for at customs all currencies are confiscated. Therefore do not send cash in the mails again. The beads are duly chanted upon and are enclosed within along with one brahmana thread. The names are, for Bhakta Rarmer __ Vrajaraja dasa, and for Bhakta Ted-Tribhuvanapati dasa. Jyotir Maya das has been accepted by me for second initiation.

Now hold a fire yajna and present the names at that time. The gayatri mantras may be heard by tape through the right ear. All of our initiated devotees must strictly chant 16 rounds a day and avoid the four pillars of sinful life completely. These four regulative principles should be lectured on by some expert speaker, as well as the ten offenses to the holy name. The brahmana must possess the qualities mentioned in the Bhagavad-gita (18.42) and take bath at least twice a day to maintain external cleanliness as well as always chanting the maha mantra for internal cleanliness.

The newly initiated brahmana may hear the mantra from the tape in the right ear at the time of the fire sacrifice which you may perform and the thread is enclosed within. The names of the first initiates may also be given at that time. Their beads may be chanted upon by Ramesvara Maharaja the GBC for your temple.

Please impress upon the initiates the necessity of chanting 16 rounds daily on the beads and following the four regulative principles. And the brahmanas must become clean outside by taking bath regularly and inside by chanting the maha mantra. Avoid sinful life and spiritual life becomes easier. My Dear Dvarakesa and Prabhujaka,

Please accept my blessings. I have noted your letter of August 23, 1976 addressed to Harikesa Swami and have noted the contents with pleasure. Please continue your program of preaching in Eastern Europe for this program is very pleasing to me. You should be supplied all funds for this program by the local GBC men there in Europe. This program is very important.

People are suffering greatly presently due to having lost all proper vision. They are completely without knowledge as to what is the real purpose of life. They have forgotten what is the real purpose of life. It is up to you to reestablish their lost relationship with Krsna by being sincere to preach the message of Krsna purely by yourself following the instructions of the Lord and his bona-fide representative, the spiritual master. If you follow nicely our Krsna conscious program and preach to these unfortunate people, surely Krsna will recognize your very nice service as He states in Bhagavad-gita, na ca tasmad manusyesu kascin me priya krttamma, whoever preaches this message of Bhagavad gita is considered by Me to be the most dear. So continue on this way, you have my full approval and support.

I hope this meets you in good health.

My Dear Gurudasa Swami,

Please accept my blessings. I am in due receipt of your letter dated August 24, 1976 and have noted the contents with pleasure. As far as your danda goes if it is too troublesome to carry there is no need for it. Lord Caitanya's danda was broken by Nityananda Prabhu and He never carried it again. But if you want you can make another although for preaching purposes it may be dropped.

I am very very pleased with your preaching in Poland and you should continue this program with full enthusiasm. Your coming to Vrndavana is not so important and it may wait. Please expand this program more and more for there is a very good and favorable field there. Try and start a center there, it seems possible. Continue this program of kirtana and prasadam for this will conquer their hearts as they have never experienced anything like it before. I know you are a sincere preacher and they will appreciate your good Vaisnava qualities. Please send me reports of your future successes. Thank you very much.

I hope this meets you in good health.

My Dear Satadhanya Maharaja,

Please accept my blessings. I am in due receipt of your letter dated 6 September 1976 and have noted the contents. Please continue this program of preaching and distributing Gita-gan as far as possible for this is our real business.

As far as your visa goes, if you have an entry visa, it can be extended. What is the nature of your visa? I shall telegram you if something can be done here. It is very nice that this publicity has attracted so many people to see our mandir. This is wanted. But are you selling books from the temple? I may be there in Mayapur by the beginning of December.

As you depend on me I similarly depend on you, parasparatam. The brahmanas and ksatriyas should cooperate, that is the Vedic civilization. The hands and legs should cooperate with the brain in order for the whole society to work properly.

I hope this meets you in good health.

My Dear Vikas,

Please accept my blessings. I am in due receipt of your letter dated 8 September 1976. I am very very sorry to learn that your father has expired. Your father was my class friend and neighborhood friend. During the time of your grandfather your whole family was living at Varanasi Ghose St. Our residence was on the same street and because we went to the same college, Scottish Church College, and were in the same class, we were very intimately connected since 1916, more than 50 years.

Naturally I am very very sorry to learn the death news of your father, my beloved friend. So offer your mother my condolences for the bereavement, but there is nothing to be very sorry for. According to Bhagavad-gita your father has not died, he has changed his body, na hanyate hanyamane sarire [Bg. 2.20].

Certainly I shall pray to Krishna for his better situation in the next life. Offer my blessings to your children and wife and I hope that this meets you in good health. I will most probably be in Calcutta in December next and I shall be glad to see you at that time.

My dear Jayatirtha das,

Please accept my blessings. I am in due receipt of your letter dated 13rd September 1976 and also the BBT Trustees report and have noted the contents with care.

Enclosed please find a letter of authorization to Lloyds Bank Ltd. Southampton Row Branch for a transfer to your account in the same branch of pounds 4,500.00. You may deliver this letter and advise me accordingly. Please save the wood and soundproofing from the Bury Place Temple as it was quite expensive to install.

I think there is a very good scope for preaching in Yugoslavia as the recent reports show a good success there. You should encourage this preaching program and support it fully. I have received today the Spanish Edition of Srimad-Bhagavatam 1.4. They have printed 75,000 copies. Similarly you should print in the German language as many copies as possible. That is my only life. When I see that there is publication of the Srimad-Bhagavatam and other books in other languages that gives me life. It is very nice that you will print in Yugoslavian, Hungarian , Polish and Russian. It is approved by me if you want to give less than 25% of the BBT income for the Mayapur construction as you require to print books. Your scheme for an English magazine for Great Britain is nice. You should print more and more books and increase your inventory.

I hope this meets you in good health.

Letter to: Dixit

-

Vrindaban 18 September, 1976

76-09-18

My Dear Dixit das,

Please accept my blessings. I am in due receipt of your kind letter dated 14th Sept. 1976 and have noted the contents with care. I am very much pleased to understand that although you are now living away from Vrndavana, your mind is here. That is a very good sign. This is the symptom of loving affection for Krishna.

I have constructed this temple and all my other temples so that at least some educated retired men shall live here without any material desires, but at the present moment people are so educated that even up to the point of death they cannot give up the enjoyable items, namely money and women. Caitanya Mahaprabhu therefore recommends niskincanasya bhagavata bhajano ’numukhasva.

So if anyone is very serious to go to the other side of this material ocean for him to be completely freed from material attachment is absolutely necessary. Unfortunately people are reluctant to give up material association: that is the difficulty.

So wherever we may remain we can chant the Hare Krishna Maha Mantra without any offense and that will help us in the future how to become detached from visaya and yosit, or sense gratification and women.

So far our Gurukula is concerned, we require some practical assistant who can teach the boys how to be controlled in the mind and senses, how to rise early in the morning, chant the Hare Krishna Maha-Mantra, go to the Yamuna for bathing, then study some Vedic literatures like the Bhagavad-gita and the Srimad-Bhagavatam, remain always for the benefit of the guru, and work for him as a menial servant. These things are recommended for the brahmacari. You will find the statement in the Srimad-Bhagavatam, Canto Seven, Chapter Twelve as follows, brahmacari gurukulae vasandanto gururohitam [SB 7.12.1]. I want my gurukula should be in that way, we don’t want big big scholars, for doing research work; what research work they will do? Everything is in perfect order in the Vedic scriptures summarised so beautifully in the Srimad-Bhagavatam and the Bhagavad-gita is the primal study.

So we want to introduce this system of education for the boys who are at the kaumara age. That is recommended by Prahlada Maharaja, kaumara acaret prajno dharman bhagavatan iha [SB 7.6.1]. So this is the practical application in life of the education mentioned in the Srimad-Bhagavatam. I am also practically finding that if any of our students artificially try to become scholars by associating with unwanted persons they become victimized, for a little learning is dangerous, especially for the Westerners. I am practically seeing that as soon as they begin to learn a little sanskrit immediately they feel that they have become more than their guru and then the policy is kill guru and be killed himself.

So we shall have to teach character and spiritual understanding to the young children. To study other things as a high grade scholar is secondary for us. The first thing is to build up character and be experienced in the understanding of the conclusions of the Srimad-Bhagavatam, hari namanukirtanam, iti nirnitam-it is decided, there is no more need of research work.

So think over these matters. You are experienced and if you take up the charge of our gurukula, it will be a great relief for me, but the principles are described above-we do not want anything more or less. The principles are vividly described in the Srimad-Bhagavatam and we have to follow and accept. I am glad to hear that you are coming here during Diwali holidays and you are always welcome. I hope this meets you in good health.

Bhuvaneśvara

My Dear Gaura Govinda Maharaja,

Please accept my blessings. I am in due receipt of your letter dated September 11, 1976 and have noted the contents with care.

In answer to your question as to why the Indian population is so slack in spiritual life: during the British rule there was a secret policy by the British to cut down the Vedic civilization in India. There was a confidential policy by the British government to kill India's original culture and everything Indian was condemned. From the very beginning they took this position. In our childhood and boyhood we had to read some book by a Mr. Ghose called, "England's Work in India". The purport was that we are uncivilized and the British had come to make us civilized. Later on the policy became successful because in our childhood days any anglicised gentleman was considered to be advanced in civilization.

In Calcutta the Chowringhee quarters were known as the English quarters and the neighborhood places were maintained very nicely. The Indian quarters were known as native quarters therefore even in our own city there was such a division as English quarters and native quarters. Anyway this policy became successful when our leaders took them as fact. Mahatma Gandhi wanted to refute this white prestigious position but he also failed because he did not understand spiritual culture or God consciousness. During the Moslem time, although sometimes fanatically, there were some cases of breaking the temple, but there was no such policy to kill the Indian culture. On account of this during the Moslem period even during the time of Aurangazeb there were Indian Princes and political leaders like Sivaji and Jaya Singh.

So it is a long process how Indians, especially educated Indians, have become victimized by the slowly deteriorating position of Indian culture, but there is no use tracing out the history but generally we have lost our own culture and our leaders are not very serious to revive our own culture to the point. But still the mass of people, not being very much advanced in education, stick to the Indian culture. For example, lakhs of people still visit Jagannatha Puri during the Rathayatra Festival, lakhs still visit the Kumbha mela, and lakhs still visit the holy places of India, but there is no encouragement by the leaders. It is only a continuation of the original culture.

So there is no hopelessness; if we revive Krishna consciousness in a systematic way, within a very short time we can revive our original Indian culture on the basis of the teachings of Lord Krishna and the Bhagavad-gita. So we have to work very hard for this purpose and if you follow the path of Sri Caitanya Mahaprabhu, it will be very easily done.

Arrange for printing the books. We shall supply paper that we have now got from the government. But without the paper you can take estimates from the printers to find the cheapest. I hope this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My Dear Ramesvara Maharaja,

Please accept my blessings. I am in due receipt of your letter dated September 9, 1976 and have noted the contents with care. I am very pleased with your report and your contact with this author and producer. Now you may take it as my direct order that you must finish the Theistic Exhibit before the Mayapur festival, otherwise what is the use of all this endeavor?

Yadubara should be encouraged as he has given good service. Both his wife and himself are both serving nicely. I approve their work and they should be encouraged in all respects. In future we shall get more and more valuable services from them.

These management affairs sometimes disturb me. Kindly manage nicely. I want that the properties should not be jeopardized. So the idea of the declarations from the presidents is absolutely required. Nobody can do anything without my signature; that should be enforced.

In general, if any translator of my books requires the original manuscripts for his work, he should be supplied them by you. If you can succeed in spreading this movement to every town and village throughout the world that will be your great credit. Kindly do this and Sri Caitanya Mahaprabhu will be pleased and my Guru Maharaja will be pleased and I, as their humble servant, will also be pleased. That is our main goal in life, our svartha gatim.

Enclosed please find one check for $1,000.00 from ISKCON BBT Library and College Sales Dept. Kindly deposit this in the ISKCON Mayapur-Vrndavana Trust Fund in Bank of America, LA, and advise me. I hope this meets you in good health.

I thank you very much for your very nice presentation of the issue of birth. You have assimilated the process of birth very nicely through the books. This has pleased me very much and I wish that all my students can become as adept at presenting the information in the books like this. You can make this a grand subject for agitation in that country and your preaching on this point alone will make you very famous. Therefore you should speak everywhere on this subject matter from the Bhagavatam and gita and you will be glorified. As the disciple is glorified so also the spiritual master becomes glorified more. Use this issue to advance your propaganda and become a leader in the society.

My Dear Acyuta das,

Please accept my blessings. I am in due receipt of your letter dated August 7, 1976 and the enclosed Magazine article. The article looks very nice and the pictures are very positively descriptive. Continue your nice preaching work there with great enthusiasm.

On your recommendation I am accepting the following disciples for first and second initiation.

First Initiation

Bhakta Ivan-Indrasena dasa

Bhaktin Dora-Dharma-patni dasi

Bhakta Manuel-Madhupati dasa

Bhakta Mozart-Madhava-priya dasa

Bhakta Ramacandra-Rangapuri dasa

Bhakta Luchie-Lilasuka dasa

Bhakta Paulo-Ananta-padmanabha dasa

Second Initiation

Paravyoma das brahmacari

Durasada dasa brahmacari

Mahayogisvara devi dasi

Madhusvara devi dasi

Please hold a fire sacrifice and the first initiated disciples may receive their names at that time while the brahmana initiates may hear the mantra through the right ear and receive the threads. Hrdayananda Maharaja may chant on the beads and give them to the devotees. All initiates must chant minimum 16 rounds on the beads daily and very strictly follow the four regulative principles to insure success on the path of spiritual progress of life. A brahmana must be clean by bathing and chanting daily. I hope this meets you in good health.

My dear Yasomatinandana,

Please accept my blessings. I am in receipt of your letter dated 19th inst. and copy of Gujarati magazine. It appears to be nice. So you have got a new house very suitable for our purpose; it is very nice. So try to purchase some land as soon as possible.

Regarding against propoganda, it is going on practically everywhere, especially Bengal. So we have to work very sincerely and Krishna will give us protection. The only hope, we can understand that demons are disturbed. That is quite natural. When Krishna was born, from the day of His birth, the demons wanted to kill him in so many ways but practically it was found that demons were killed by Krishna and He established His mission yada yada hi dharmasya glanir bhavati bharata/ abhyutthanam adharmasya tadatmanam srjamyaham [Bg. 4.7]. So if we work sincerely, the Krishna Consciousness Movement is non-different from Krishna. As Krishna killed all the demons, we should also be able to kill all demons if we remain faithful in the discharge of our mission.

My dear Ramesvara,

Please accept my blessings. I am in due receipt of your letter dated 17th inst. including two transfer receipts for $70,000 from BBT to B/A Bombay a/c and $1900 rent to M/V a/c LA.

Regarding the Fiji situation, your solution to amend the constitution is nice. Let Vasudeva become president. Your idea to sell BTGs, collect donations, hold kirtana and distribute prasada profusely, yes, do that. I was given the impression that this temple was to be controlled by the Punja family and our devotees would not have any hand. This was the impression given. We want that a very nice relationship be kept with Vasudeva. It was wanted that he follows our instructions including following the GBC, so that everything can go on nicely. Let one brother be president and one treasurer, and give one good man who can act as secretary. I have not lost confidence in Vasudeva. Now the matter is clear-I'm very much pleased with him so let him remain president and that will please him more, and his brother treasurer with one secretary. If the temple remains permanently in ISKCON Fiji's name and cannot be sold, that is very nice; it is not for selling, it is for improving more and more.

Local men must understand our philosophy, then it will be very successful. We cannot import men from outside. We sincerely want that local men either from Vasudeva's family or any other family which will take on the work. We have to work on that line. Just like some of my Godbrothers wanted to take men from India to London but the attempt was a failure-but when I trained up local men then it was successful. I have no objection if the whole Vasudeva Punja family be trained up and take charge of the temple. Local men should not simply become a visitor but they should be trained up to take charge of the temple. That is what I want. As soon as one is a devotee there is no personal ambition-life is dedicated for Krishna.

If my books can be translated and published there, I have no objection. Since Tamala and yourself are there for some time everything will be alright. Vasudeva must be president. Gurukrpa is feeling inconvenience regarding Australia because of the long distance. His interest is mainly Japan. You or another man may take care of Australia.

Hoping this meets you in good health.

Letter to: Dr. Chatterjee

Vrindaban 27 September, 1976

Calcutta

Dear Dr. Chatterjee,

Please accept my greetings. I am in due receipt of your letter dated 6th inst. and have noted the contents. I have no objection to your proposal and I can finance this proposal also. But I am afraid there will be hardly any students-that is the difficulty. I have seen in foreign countries that practically no students join high philosophical and scientific classes. People nowadays are only interested in money-earning philosophy. Nobody goes to the philosophical classes in universities. A similar institute was imagined by my Godbrother Bon Maharaja in Vrindaban, but it has not become very successful. There are many difficulties in the line, but I like the idea; therefore if some practical solution can be made we can discuss personally, but I appreciate your idea. The only difficulty I'm feeling is whether we can get sufficient students. Some of my disciples who are Ph.D.'s in science, they are also attempting our institution in Boston U.S.A., but I'm still doubtful how far they'll be successful on account of scarcity of students. It is said in the Kali-yuga everyman is on the standard of sudra, and the curriculum suggested by you is meant for the brahmana-that is the difficulty.

We are attempting one Gurukula in Vrindaban and we have already begun building, to train children from the very beginning of life as is advised by Prahlada Maharaja:

kaumara acaret prajno dharman bha gavatan iha durlabham manusam janma tad apy adhruvam arthadam [SB 7.6.1]

But there is also difficulty of getting students because the parents and the guardians are not interested. Before going to America I approached many respectable friends for giving me at least one boy from each family to be trained up in this line of self-realization, but I was not successful. The parents had no interest-the same difficulty of sudra mentality. Anyway, we are attempting again this Gurukula program, so why not begin from this small endeavor and gradually develop to the ideal university. On the whole if you can arrange such university there will be no financial difficulty. So I think if you kindly begin from this Gurukula attempt and then develop to the International University, that will be very practical.

Of course we have to have independent private university because the government is not interested according to Vedic ideology. Bon Maharaja tried for the last forty years to make a Vaisnava university recognized by the government, but he failed.

I am here up to 8th October, but I don't think it will be possible for us to meet. When I go to Calcutta I will let you know the exact date.

Hoping this meets you in good health.

Vrindaban 28 September, 1976

Mayapur

My dear Jayapataka,

Please accept my blessings. I am in due receipt of your letter dated 23rd inst. and have noted the contents. Regarding the Haridasapur land, first give the site plan and boundary statement and then we shall make plan with Saurabha. Yes, Gaura-Nitai Deities can be installed firstly as we generally do, also Lord Jagannatha and then Radha-Krishna, in three compartments. Formerly the construction was estimated at Rs. 50,000/-out of which Rs. 10,000/-is already with Prabhu Svarupa, Rs. 10,000/-we shall see for and Rs. 30,000/-shall be raised. If further investment is required that we shall see to it, but presently Rs. 50,000/-is maximum. Thakura Haridasa's murti can be installed.

Regarding our proposal for West Bengal: West Bengal people may come and join us without any distinction of caste and creed. The occupation will be according to one's capacity. They will be employed in cottage industry backed by spiritual advancement of life, to understand the mission of human life or relationship with God and act accordingly. The idea is that we are prepared to give all facility for maintenance of the body without sinful activities like illicit sex, meat-eating, intoxication and gambling. Everyone should live peacefully in healthy condition of life with the purpose of advancing in spiritual consciousness. In this concept we can accept anyone from any part of the world, what to speak of West Bengal, and give them shelter, food, occupation and enlightenment. I had no contact with Chief Secretary.

Regarding handloom, can they not produce fine cloth? Fine cloth will be received in any part of the world. Regarding food distribution, they may come to take at our Temple. With travelling sankirtana we can distribute wherever we go, but not to the emergency spot, like that.

Who is managing Bengal Bhagavata Darsana? Raghunath Kundau (Radhe Syamasundara.) has come here, and he is now first initiated. He can be used for this preaching work, he's willing. I understand the visitors in our Temple have increased on account of the propaganda. Have we increased distribution of Gitar Gan or not? Yes, whenever strong and probable false statements are made against ISKCON are made, we can take defamation case against them. I have given one statement in English,* Bengali and Hindi which I will send you, this may be published through the English and Bengali Press Trust of India (PTI). Sravanananda has a film on the last New York Rathayatra, so show this in every town, city, and village and present my statement in Bengali. Radhe Syamasundara. is coming there to help, and I will send some newspaper clippings. Go on with our regular work and chanting. You can also show our book distribution figures from Sankirtana newsletters.

You are open to enquire anything from me. There must be my consultation in everything. Who is main acharya after departure of Tirtha Maharaja?

I hope this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

28 September, 1976

Bhagavan Shri Krishna Chaitanya foretold, ”The singing of My name is sure to be spread in every village and in every town throughout the world.” In order to materialize this divine saying both Shri Shri Bhaktivinode Thakur and Prabhupada Shri Shri Bhakti Siddhanta Sarasvati Goswami tried their best and under their direction even at the old age of 70, I started for America. There, for a full one year I had to experience great difficulties in my single handed mission on this account, and at last at New York with the help of a few friends, we were successful to have the International Society for Krishna Consciousness (ISKCON) already formed during my stay there, registered in 1966 under the Local Government Rules. The intention was that the men of that continent may easily grasp the teachings as well as advice of Shri Chaitanya Mahaprabhu.

With the grace of Shri Chaitanya Mahaprabhu by and by ISKCON’s 40 temples in America’s important cities were constructed and throughout Europe in England, France, Germany, Italy and in Melbourne and Sydney in Australia, New Zealand, Auckland, Africa, Canada and Tehran and other places as well in the world all total of 102 such centres of ISKCON for distribution of Krishna cult were established. Amongst all these the very big temples in London, New York, Los Angeles, and Detroit can be specially mentioned. In these temples the minimum number of devotees attached is 50 and maximum 250 and they are engaged to distribute Krishna hymns leading an austentious life. Everywhere the Deity of Radha and Krishna is being worshiped. From India a large number of renowned persons frequently visit these temples throughout the world and they have made remarks to the effect that in each and every temple arrangements for daily worship and functions relating thereto are remarkably done smoothly and methodically. The artistic way of make up in all respects are exceptionally good and for all these a lot of expenses made towards everything are unparallel. The devotees attached to these temples out of natural devotion frequently visit to have a glance of the holy birthplace of Shri Chaitanya Mahaprabhu at Mayapur, Navadvipa, and that of Shri Krishna at Mathura and His lila-ksetra at Vrndavana, and that they do so in thousands.

Bharatavarsa land is a sacred place. Bhagavan Buddha was born here. Buddhists from different places in the world come to have a darshan of Gaya and Varanasi. What harms them if the devotees of Shri Krishna come here to have a darshan of the birthplaces of Shri Krishna and Shri Chaitanya Mahaprabhu? They are after being initiated with Vaisnavism by having their head shaved and keeping sikha and yajna-sutra and adorning with twelve tilakas, being engaged in Hari sankirtana are not all these things a pride for us Indians? But it is a matter of great regret that recently in my birthplace, West Bengal, there are some who are making agitations and various uncalled for remarks without knowing the real facts. All these have pained me to a great extent. Shri Krishna and His name Krishna are the same. Just after the advent of Shri Krishna, even while He was a mere child, even then Kamsa, Putana, Aghasura, Bakasura, Gardhabasu, Pralambasura and other such demons tried their best to kill Shri Krishna. But their attempts failed. They could not harm Shri Krishna in any way. They were themselves destroyed. So the movement for Krishna Consciousness can in no way be stopped and be faded away. Rather those who are trying to do any harm by uncalled for agitation after spreading false facts, they are sure to be disheartened. It seems if these people without adopting the aforesaid wrong way of doing harm to our International Society for Krishna Consciousness, do themselves join our movement, there is every chance of a formation of the body of a Great United Nation.

After the last great war the existing body of the present United Nations was formed, but what real benefit there has been to be mentioned of for the worldly people. The ISKCON movement has actually got together all nations in the world by their adoption of nonviolence creed and spreading of Krishna’s name, door-to-door. Amongst us there are Hindus, Muslims, Jews, Christians, Buddhists and others who in the same way initiating themselves with shaved head, sikha, tilaka and sacred thread are engaged in singing Krishna nama in accordance with the scripture, ”krsna kirtana gana nartana parau.” So I fervently request my gentle countrymen to have a thorough investigation of our affairs so as to discontinue their uncalled for agitations.

There has been various remarks about our income and expenditure, and on this some questions were raised in our Lokeshava and discussions made there to. The Lokeshava members accepted the fact that our various expenses are met up with our income of selling various books, as well as various donations from the public. Up till now my humble self could write at least 84 books and print them in English. Those are Bhagavad-gita As It Is, Srimad-Bhagavatam, Canto I to VII (24 volumes), Teachings of Lord Chaitanya, Shri Chaitanya Charitamrta (17 volumes), the Nectar of Devotion, Krishna Consciousness The Topmost Yoga System, Shri Isopanisad, etc., etc. These books are sold throughout the world, and the amount of their daily average sale is a little over five lacs, and for this Bhaktivedanta Book Trust, a registered body has been formed, with the intention that 50% of the sale proceeds will be utilized for printing books and the balance to be spent towards building temples, maths, and their day to day expenses.

At the age of 70 I had the energy to go outside India and apart from other various duties, engage myself in writing books even at night without sleep. All these have been done in accordance with the direction of my Prabhupada Gurudeva. My foreign devotees, with the help of various machines, do the needful for printing all these books written by me. These books are sold throughout the world for which an all round very hard labor is required. If sale proceeds of my books sold outside India are brought for aforesaid expenses in India, what harms and what is to be envied of. They have been spent for the benefit of the general public, materially as well as spiritually. We get help from foreign government is an absolute false report. What an unjudicious thinking. How can anyone think of that a foreign government will subscribe money for the promotion of Krishna Consciousness? So my request is not to do injustice to us in any way by unnecessary anti propaganda, but to cooperate with us by joining our Krishna Consciousness movement so that it may spread more and more satisfactorily, and for this we shall be highly obliged. Our cooperation on this account is much coveted for. Hare Krishna.

My dear Madhava,

Please accept my blessings. I am in due receipt of your letter dated 22nd Sept. 1976 and have noted the contents. Regarding details of the universe, be satisfied by reading only Bhagavatam. What is the use of reading other books-you are not going there. Some portion of the earth is flat. When you stand in any place you see flat, so for us to some extent it appears flat, but it is round.

Simply keep faith that whatever we describe, that is a fact. After all, we are an insignificant creature in the universe, so whether you take the modern scientists or Sukadeva Goswami, it is inconceivable. It is best to keep faith in Sukadeva Goswami, because actually our only business is to go back to home, back to Godhead. So whether Sukadeva Goswami or the modern scientists are right or wrong, it is nothing interesting to us. We want to go back to home, back to Godhead-yanti mad-yajino’pi mam.

I hope this meets you in good health.

Letter to: Balavanta

•

Vrindaban 4 October, 1976

76-10-04

My Dear Balavanta,

Please accept my blessings. I am in due receipt of your letters and financial report dated 26th August and 18th Sept. 1976, and have noted the contents. The airport distribution at New Orleans is very good. Regarding the Lord Jagannatha deities, if They cannot be worshiped, They should be thrown in the sea. I acknowledge receipt of check copy No. 1195 on Bank of New Orleans for $1,000.00, and you may send money as you have done to M.V. Fund, L.A.

Deity worship should not be expanded anymore if it is difficult to manage, but Nitai-Gaura can be worshiped. If devotees do not stay in the center that means your preaching is not very strong. Regarding offering spinach, just it should be very clean-everything should be done very cleanly. Regarding the name of your farm, Murari is a name of Krishna, so Murari Sevak means servant of Krishna.

The public should be convinced of this point: that there is life after death, and then prepare for the next life. Otherwise what is the difference between men and animals? If a man has to go outside his home, he has to make so many preparations, but an animal will not-that is the difference between a man and an animal.

Our ultimate aim is to take part in politics, because Krishna took part in politics, we have to follow-but if people do not become Krishna conscious it won't be possible. Actually if we can take up the government, our movement will be very easily spread and beneficial to the people. We can make happy, peaceful men, God conscious-this is our aim. The main thing is to distribute books more and more. That remark by the man in Houston is to your credit, that this movement is becoming an epidemic. Actually, everywhere envious people are against this movement, especially communists, because this movement is a threat to them. The main thing is to distribute books-the communist idea is spread practically all over the world on account of distributing huge amounts of literature, but they have no substance. Introduce Rathayatra very nicely and distribute books. Yes, you are welcome to join me. I wanted that besides my permanent secretary that one of the GBC's may accompany me regularly.

I hope this meets you in good health.

My dear Brahmananda,

Please accept my blessings. I am in due receipt of your letter dated 23rd Sept., 1976 and have noted the contents. I have just informed Tamala Krishna also, that Africans should not be allowed to live in the temple unless they are danger-proof. Of course you must preach but if you allow them to live you must be little careful-better not to allow. Chant and distribute prasada and let them come, take prasada and become practiced for Krishna consciousness. In suitable cases they can be 1st initiated but no 2nd for the time being.

Regarding land, yes, contact Ambarisa immediately and remind him that he wanted to invest some money. If he does that, that will be very nice, and I will give my sanction if he wants. You can purchase-that place is nice where Damji lives. (Ambarisa can be contacted through the Boston temple.) Mortgage is not to be done as the interest will be too high.

For members nowadays we are not giving books free. First when becoming the member they receive five large books, but after that they must pay for future books. If by distributing books you can collect some money for purchasing land, do it.

I was very much anxious for you, therefore Tamala went there. Now I am relieved that you are doing well. This year you must come to Mayapur.

I hope this meets you in good health.

My dear Tamala Krishna,

Please accept my blessings. I am in due receipt of your letter from Nairobi dated 3rd inst. and have noted the contents. Africans should not be allowed to live in the temple there unless they are dangerproof. Of course you must preach, but if you allow them to live, you must be little careful-better not to allow. Chanting and prasada distribution is very nice. Let them come, take prasada and become practiced for Krishna consciousness. In suitable cases they can be given 1st initiation, but no 2nd for the time being.*

Yes, the GBCs should move and visit other other zones, and I quite approve that the GBC chairman can do this.

I hope this meets you in good health.

Dear Dr. Chatterjee,

Please accept my blessings. I am in due receipt of your letter dated 1st inst. and have noted the contents. Your suggestion is very good-if the verses from Srimad-Bhagavatam and Bhagavad-gita are presented in classical art it will be something wonderful-the whole world will appreciate. We already have a dramatic party in New York, and their performances are very much appreciated. Indian classical songs are appreciated here and in foreign countries also. This program of presenting the Bhagavatam in classical song is a good idea.

vedaih sangapada-kramopanisadair ga yanti yam samagah (Bhag. 12.13.1)

Regarding your other suggestions, Ayurvedic medicine is a good idea, provided we can get an expert manufacturer. And agriculture we can also take up-we already have land, many farms. Too much modern machinery is not suitable for our country.

I shall inform you of our arrival in Calcutta, and trust we shall meet for further discussion there.

I hope this meets you in good health

Dear Sriman Bajaji,

I thank you very much for your letter dated October 4, 1976, I have noted the contents carefully. I accept your invitation. I will advise Giriraja, my secretary in Bombay to see you in this connection. I wish to take with me my sankirtana party whether you would like to accommodate them. If not then only my personal secretaries, all together five, will go with me, so you have to arrange accommodation for them.

I am sending a copy of this letter to Giriraja to do the needful.

My Dear Dr. W.H. Wolf-Rottkay,

Regarding the scientists, we have entrusted our own three scientists namely Svarupa Damodara, Sadaputa, and Madhva and we leave the matter to them, we do not say anything ourselves, but are leaving it to them. But there are many common men who do not believe that they have gone to the moon planet. So as common men we can simply say, how can dust and rocks reflect so much of light as to illuminate the night, like the sun at day. It is simply bogus to say that the moon is full of dust and rocks. Such a beautiful soothing planet is full of dust and rock with no living beings there is simply unbelievable. You are a learned scholar, do you think it is believable that dust and rocks can illuminate the whole universe at night. It is so soothing and beautiful. I shall be very glad to receive further enlightenment in this connection from your good self.

I hope this letter finds you well.

My Dear Yasomatinandana Prabhu,

Please accept my blessings. I am in receipt of your letter dated 8/10/76 and have noted the contents carefully. You say the farm is only five miles from the city, so we will build our temple on that land. The farmers should be trained up to become devotees of Krishna. The same Idea I have already given for Hyderabad farm. Invite the local farmers to participate in Kirtana and prasadam distribution, engage them to work the land. They may keep whatever they require for their maintenance and the excess production may be traded or sold. But we are not going to develop a competitive farming enterprise for making money. The basic principle is to become independent of artificial city life, working in factories producing nut and bolts. Gandhi had this Idea, the one defect was that there was no Krishna in the center. So the same idea of village organization, but keeping Krishna in the center should be introduced on our farm projects.

Do not install Gaura Nitai deities until sufficient men are there to take proper care of them.

Regarding men; everywhere there is shortage, we cannot continue to import men continually.

I hope this letter finds you well.

A film showing illegal techniques of distributing my books (Money shuffle) was never authorized by me. If it is actually a fact what you say, then stop it immediately. In all our dealings we should be above suspicion. They say first impressions are lasting. If someone feels cheated by our men because they are using dubious methods of distribution and collecting money our purity may be doubted and reputation spoiled. So please do not allow such film showing to take place until I have seen the film personally.

Thank you for the enclosed check. I am glad to note that your book distribution is going on nicely.

Please accept my blessings. I am in receipt of your letter dated nil. I have noted the contents carefully. Yes! I remember you and the gold chain you gave me I gave to the deities in Melbourne.

Regarding your situation, the only alternative is to move into the temple and take complete shelter of the devotees and Krishna. Prahlada Maharaja was only 5 years old and because of his becoming a devotee of the Lord his father tried to kill him in so many ways. So that your husband is against Krishna is nothing astonishing, it is quite normal. So if you like you can leave him, and move into the temple of your choice.

My Dear Sacimata Prabhu,

Please accept my blessings. I am in receipt of your letter dated 3rd October 1976 and I have noted the contents carefully.

There is nothing mystical about getting Gaura Nitai deities for worshiping. The Lord is all powerful and omnipresent, he knows the heart of the devotee and reciprocates with the devotee accordingly. So now the Lord has come to your home and agreed to be worshiped by you, therefore everything should be clean and neat. Nice prasadam should be offered regularly and distributed to guests. Kirtana may be performed morning and evening and some discussion from Bhagavad-gita as it is, or other books from our publications.

Your activities in Germany are all right, try to help the sankirtana and preach to your own circle of friends. I think at this time there is no need for you to come to India. If there is need I shall let you know. You are all little older and India will be difficult for you, for the time being please remain situated as you are. Chant Hare Krishna and help spread this movement in the best way open to you.

I understand from Hamsaduta Maharaja that you have gone to Dubai borrowing $400.00 dollars from him. So if you want to change your programme again, at least send this money back to him.

In the last year you have changed your engagement so many times, it is not good, better to stick to something and complete it than constantly changing. If you can carry out your original plan of collecting from Indian in different parts of the world and sending to India that would be good. My Dear Dr. Mohan Singh,

It was a great pleasure to meet you this evening. You are a devotee of Krishna and a learned scholar. Meditation is meant for yogis, it is said in the Vedic literature, Dhyanavasthita-tad-gatena manasa pasyanti yam yoginah [SB 12.13.1] a yogi is one who always meditates on the Lotus Feet of the Supreme Personality of Godhead. One who meditates on Krishna is the topmost yogi of all. We have explained this fact in our book "Topmost Yoga." I request you to read this book and meditate on Krishna, then you and your followers will be first class yogis performing the best meditation. Yoginam api sarvesam mad-gatenantaratmana [Bg. 6.47].

I thank you once again for coming here. If possible you may come to Vrindaban. I invite you to stay with me for some time so we can discuss more on this subject matter. I am returning to Vrindaban by 20th October.

Letter to: Satsvarupa

-

Krishna Balaram Mandir October 22, 1976

My dear Satsvarupa,

Please accept my blessings. I am in due receipt of your report dated October 4, 1976.

I am happy to hear of our great victory at the Chicago airport. Do not mind the dogs barking to get us out of the temple in Chicago. Stay in the temple and prolong as far as possible. In Bombay they tried to evict us in so many ways, but Krsna allowed us to stay and now we are going forward.

Regarding your library work, yes you simply have to try your best. We simply have to work sincerely. Success or no success, that is up to Krsna. Duhkhesv anudvigna-manah/sukhesu vigata-sprhah/Gita 2.56. Yes, you may familiarize yourselves with psychology, sociology, etc. I, also, touch upon these subjects wherever possible. Krsna is all-pervading, therefore we touch everything. Here in India they are also getting good numbers of standing orders from the professors.

It will be a great achievement if you can write this book on the theme, "anything undertaken without Krsna fails." Here in India we have just seen how they have made a big, big plan for the city of Chandigargh. So much land is lying vacant, and in the meantime people are going hungry. Because they are not Krsna conscious, they do not know how to utilize anything properly. They are simply thinking of satisfying their own senses. So many big, big plans, but the result is that people are unhappy. Napoleon and Hitler made big, big plans, where are they now? All failures. Churchill wanted to keep India under control. Gandhi wanted to drive away the Englishmen. Now, the Englishmen are driven away and things are going on by the laws of nature. Churchill and others have remained in comatose condition before dying due to excessive attachment to their plans. All failures.

Yes, there is no harm if you have to do some research. Krsna will supply the materials. You may write slowly, but give something full of meaning and instruction for the misguided people of this age.

Hoping this will meet you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My Dear Jayapataka,

Regarding this co-operative point, who will manage all the expenditure? We will spend so much money, why should it be managed by a co-operative. The co-operative society proposal is absurd. The poor members cannot pay adequately, neither are they interested. It is not tenable from all angles of vision. In the beginning the report was given to the DM. Now again DM, DM. Why again DM, he was first given proposal?

It is up to Mr. Chowdary now. The chief minister has handed the matter to him for decision. He said to wait 2-3 months for a decision. So let us simply wait.

Regarding the concessional paper, we are already getting government paper. If you want we can get as much as you require. It is already sanctioned. However many tons you require just tell Gopala Krsna and he'll do the needful.

Your description of how you are managing is nice. This is management. The British government was conducting the management of 600 million people with just 200 Britishers. We cannot expect all foreigners to come and manage Mayapur affairs. The best management is to turn the local men into devotees. Make the management perfect in this way. Things should be developed in such a way, based on devotional service, that there may not be any racial feelings. This is Kali-yuga. Very easily racial feelings are awakened on the material platform, but on the spiritual platform there is no such thing. Yes, what you are describing is the banking system. Every day, until the trial balance is calculated, no employee can leave the bank. That was the old system in Indian business.

One elderly gentleman, who claims to be my Godbrother, named Jayanarayana das Babaji, from Burdwan district, will be coming there. You may give him a place.

My Dear Makhanlal,

Please accept my blessings. I am in due receipt of your letter dated 10/7/76.

My blessings are always with you as you have requested. You are a very good devotee and servant of Krsna. So far your questions are concerned. Nityananda is the principle of the Guru. So, the Gurudeva is the incarnation of Nityananda. Anyone strictly following the instruction of the Guru is following Nityananda. The price one has to pay if he wants to become Krsna conscious is that he must dedicate himself to following the order of the spiritual master, mahat seva. If the Spiritual Master is pleased with disciple then the blessings of Guru will be there. That is the best way to become Krsna conscious, and Krsna is non-different from Nityananda. You may pray to Lord Nityananda to help you become dedicated in the service of your Guru. Krsna consciousness cannot be achieved artificially. You should approach Nityananda Prabhu through your Spiritual Master.

I am pleased to accept the devotees you have recommended for initiation. Please be very sure that they all know and follow the regulative principles and chant minimum 16 rounds daily. Hold a fire sacrifice and have Rupanuga chant on their beads. Their new names are: Willard-Vaisnava dasa, John-Jivapati dasa, Adam-Akruranatha dasa, Nancy-Nitya-manjari dasi.

My Dear Narahari,

Please accept my blessings. I am in due receipt of your letter dated October 11, 1976.

I'm happy to hear how nicely things are going at our Miami temple. Upon your recommendation I accept the devotees you have requested initiation for. Robin Teter's initiated name is Rama Gopala dasa. I am enclosing 2 gayatri mantra sheets and one sacred thread duly chanted on by me. Now, hold a fire ceremony. The first initiates beads may be chanted on by Balavanta. Play the tape of me chanting gayatri mantra into the right ear of the second initiates. Be sure that these devotees and all of my initiated disciples there are strictly following the four regulative principles and chanting a minimum of 16 rounds every day, avoiding the 10 offenses. Also, be sure that the second initiates know the brahminical principles given in Bhagavad-gita, 18,42.

Hoping this will meet you in good health.

My Dear Radha-sarana,

Please accept my blessings. I am in due receipt of your letter to my secretary dated October 2, 1976.

According to your recommendation I am accepting for second initiation Amala-harinama das Brahmacari and Viraja dasi. Now hold a fire ceremony for attendance of devotees only. You must be sure that these devotees are very strictly following the regulative principles and chanting a minimum of sixteen rounds daily. They must be fully engaged in devotional service, 24 hours per day. Please find enclosed two gayatri mantra sheets and one sacred thread. After the fire sacrifice, play the tape of me reciting the gayatri mantra into the right ear of these initiates and show them how to count on their fingers.

Hoping this meets you in good health.

My dear Bhadravardhana and Hrdayagovinda,

Please accept my blessings. I am in receipt of your letter dated October 1, 1976 along with a check for $350. Thank you very much.

Please perform your service of training up the new men very carefully. Present the philosophy of Krsna consciousness as it is. There is no need to add anything or take anything away. As it is. They must learn to strictly follow the four regulative principles and chant 16 rounds minimum every day, avoiding the 10 offenses. The new men should also go out for samkirtan, chanting or distributing my books. This will make them strong. Also, they must study my books at least three hours a day (including classes).

Hoping this meets you in good health.

To whom it may concern:

It is a great pleasure for me that Dr. S.R. Chakravarti has sung some important verses from Srimad-Bhagavatam, now made into a record album. I have heard these songs and am confident that anyone who will listen to these nice songs will be inclined to read my complete translation of the Srimad-Bhagavatam, now available in English (60 volumes), which has been published by the Bhaktivedanta Book Trust in Los Angeles, U.S.A.

My Dear Chittrakara Prabhu,

Please accept my blessings. I am in due receipt of your letter dated 22nd September, 1976, I have noted the contents carefully.

Hamsaduta Maharaja has also given me an account of your activities in Kabul. It doesn't matter that you have been asked to leave the important thing is that you are trying to spread the message of the lord all over the world. In the Bhagavad-gita the Lord says very clearly, that anyone who tries to broadcast his message is considered most dear and there is no one dearer to the lord than such a sincere preacher.

If you can collect money there as you have suggested and send it for Nitai Gaura TWSKP activities in India that will be good. There is no restriction for preachers, they may travel everywhere all over the world. Nitai-Gaura means world wide preaching, because Lord Caitanya appeared to spread this movement to every town and village of the world, and by the grace of good souls like yourself the desire of Lord Caitanya Mahaprabhu is being fulfilled in the modern age.

So collect and send, Hamsaduta Maharaja is doing nicely and can utilize any amount we are planning a big Kumba Mehla

You have my blessings all the time, continue to preach with enthusiasm, keep Hamsaduta Maharaja informed about your activities. I hope this letter finds you well.

If it is not possible for Tulasi to survive the winters when planted in the ground, then a suitable house should be provided for her. Even in the Canadian temples which are in a much colder climate are keeping Tulasi nicely. Why should there be so much difficulty in Los Angeles, which has such a nice climate. Just do everything very carefully. Tulasi flourishes where there is love and devotion.

In answer to your questions; 1) Tulasi is one devotee who appears wherever there is devotion to Krsna. 2) Tulasi's body is spiritual. 3) Yes, jewelry is alright. 4) If possible. 5) Tulasi leaves should be offered to the Deity. 6) If possible. 7) Yes. 8) Yes. 9) You may cut the dead branches, but what is the necessity. 10) I never said that. 11) No. 12) Yes. 13) Use the wood for beads as far as possible, the balance may be placed within the earth. 14) I said no chemical sprays. 15) Undisturbed means what? 16) Use common sense and if you have none then consult with others. 17) No. 18) Don't try to introduce something new. The most important thing is the love and devotion.

The behavior of Sukadeva is very bad. It is good that he has resigned. The fact is that unless the management is strictly supervised, these things will happen. Sudama and Manasvi did the same thing. Be careful so that these things may not happen again in the future. The president cannot take any loans without authorization. This is a declaration. These things must not be allowed. Whatever he has taken must be returned and he must pay back the money that he has kept. How can he claim proprietorship, everything is the property of the Guru. You must inform them wherever he has gone that he must return whatever he has taken.

Now you please stay there until you have properly trained up a competent manager and then you must carefully supervise so that this may not happen again. Hawaii is a good field so do it carefully. You have done the right thing to inform me of the situation. Thank you for rectifying the situation.

Thank you for making payment on my loan to you at 12% interest. I'm very glad. It's alright that you have sent it to Los Angeles.

I am very pleased to learn of our success in Yugoslavia. When there is a little hope of success in these countries, it encourages me 100 times more than in other places. If they take up this Krishna Consciousness, they'll take it very seriously. This is the perfection of Communist ideology. Everything belongs to God. No private proprietorship. They have gone on the radio, that means they have purified the whole atmosphere. That is the way to introduce, the transcendental sound vibration will act. Utilize this approach. Gradually try to convince them that this movement is the perfection of Communism. Go on singing Krsna kirtana. That is our program. Caitanya Mahaprabhu used to go out chanting. He never spoke philosophy in public, only among higher circles. The chanting is very effective. Along with tampura and mrdanga played very rhythmically let them chant. Perform this musical demonstration and sell books as far as possible, and feasting. Then everything will be successful. It is good that they do not like these bogus yogis and they like Hare Krsna mantra. Give them the chance to chant the Hare Krsna maha mantra somehow or other, then very soon good results will be visible.

I am not very much in favor of Gurudasa coming here. Let him know that his former wife, Yamuna, is here, therefore he should not come. Why is he so adamant to come here. He can come later during the Mayapur festival. Why doesn't he join with you until Mayapur at least?

My Dear Srutadeva,

Please accept my blessings. I am in receipt of your letter dated October 14, 1976.

The Deities in London are named Radha London Isvara. Krsna is the proprietor everywhere but especially London. Yes you have my permission to sing as you have requested.

One has to be qualified to preach. It is a gradual process that one becomes sense controlled and a personal example. Preaching is not an easy thing. In the beginning one should worship the Deity and follow the basic practices. When one becomes advanced he can preach. The kanistha adhikari is not condemned. It is a comparative study. The kanistha adhikari can also achieve perfection. If one does not preach, it does not mean that he is fallen, condemned. It is not artificial, one gradually becomes perfect by association.

It is correct that the brahmajyoti is comprised of spiritual souls and that ultimately nothing is impersonal. Dead matter means forgetfulness of Krsna.

If you want to stay in Krsna Consciousness you will have to develop firm faith in Guru and Sastra. Therefore, you must study my books very scrutinizingly, follow the four regulative principles very strictly and chant 16 rounds daily avoiding the ten offenses. Don't take this movement as something cheap.

Thank you for the picture of the Deities.

Hoping this will meet you in good health.

Letter to: Tamala Krsna

•

Vrindaban 30 October, 1976

76-10-30

New York

My dear Tamala Krsna,

Please accept my blessings. I am in receipt of your letter dated 22/10/76, along with pictures, newsclippings, etc.

Regarding the point about whether our movement is bona fide, you can use the following arguments. Bhagavad-gita has got so many editions. Our books are older than the Bible. In India there are millions of Krsna temples. Let the judges and juries read our books and take the opinion of learned scholars and professors. Regarding the second point about the parents jurisdiction over their children here are some suggestions. Do the parents like that their children become hippies? Why don't they stop it? Do the parents like their children to become involved in prostitution and intoxication? Why don't they stop this? When the government takes the children for the draft neither the parents nor the children like it. This question should be raised.

There are so many men over 30. Are they brainwashed? It may be a minority in your country, but in other places it is the majority. The diamond seller caters to a minority. Why are they allowed to sell. Always when there is something valuable only a minority will be able to purchase. Our books are not commercial, they are religion and philosophy.

They are now feeling the weight of this movement. Formerly they thought these people come and go, but now they see we are staying. Now we have set fire. It will go on, it cannot be stopped. You can bring big, big fire brigades but the fire will act. The brainwash books are already there. Even if they stop externally, internally it will go on. Our first class campaign is book distribution. Go house to house. The real fighting is now. Krsna will give you all protection. So, chant Hare Krsna and fight. One movie expert has opined there are so many ideas in our movement. Try to get our ideas into movies.

Get some Indian professor's opinions. Get a list of standing orders from Indian Universities. Take this opportunity for being well advertised. They are afraid. So many young men are being affected. They have rightly said that it is an epidemic. Let all the Indians say that this is bona fide. Have profuse testimony. Collect testimony in London and Toronto. Ask SubhaVilasa to collect opinions that this is bona fide Indian culture. This same attack came in Germany. By propaganda you cannot suppress the truth. You cannot suppress fire by propaganda. Now we have to become strong to defend. The fighting has become acute, but if you stick to the regulative principles, Krsna will give all strength. Whatever is done is by Krsna's mercy. They are afraid that a different culture is conquering over their culture. param drstva nivartate [Bg. 9.59]. That is natural. If someone finds something better he'll give up the old, how can he stop? It is a fight, do not be afraid.

I am not very enthusiastic about the Harmonist idea, but if you have to sell Back To Godhead for minimum $1.00 then do it, what can be done? Regarding SubhaVilasa as Canadian GBC, if the presidents are satisfied with things the way they are and do not want SubhaVilasa that is alright. It was just a suggestion of Hamsaduta.

Hoping this will meet you in good health.

Letter to: Ramakrishna Bajaj

-

Vrindaban 1 November, 1976

76-11-01

Bombay

My dear Ramakrishna Bajaj,

I have received your letter dated October 21, 1976. In that connection, whatever Giriraja will accept, arrange and I'll do.

One thing has developed now in the Western countries. They are feeling the weight of our movement. Therefore, an attempt is being made to suppress or stop the movement in Europe and America. In America the parents of my disciples are combining together.

On account of the Hare Krsna Movement people in the Western countries are being attracted. There is now counter-propaganda by the enemies. They are now organizing opposition. Will Gita Pratisthan help this Hare Krsna Movement to face the cultural fighting between East and West?

The idea is, that the rapid advancement of the Hare Krsna Movement has threatened the foundation of Western Civilization. One American politician has remarked in this connection, that the Hare Krsna Movement is spreading like an epidemic. If we do not take steps to stop it, it may one day capture the government. This is a good certification for our success, but the time has come now when we have to meet strong opposition. After all this Hare Krsna Movement is Indian culture. If the leaders of Indian culture will take it seriously, then certainly India's glories will be magnified.

In the foreign countries India is much advertised as a poverty stricken country. But, if India can give Her spiritual culture, Krsna consciousness, she will be glorified everywhere. This should be the aim of Gita Pratisthan.

Hoping this will meet you in good health.

Hrdayananda,

Please accept my blessings. I am in receipt of your letter dated nil accompanied by two copies of the first edition of the Portuguese Bhagavad-gita. It is very nice.

You are doing very nicely. This enthusiasm is required. It is the basic principle in making advancement in Krsna's service. You have written to say you want to start printing Caitanya Caritamrta. I think it is too difficult. It is better for the time being to simply continue with the Bhagavatam. Caitanya Caritamrta is the post-graduate study.

You have written that chanting, dancing and book distribution are going on nicely. Prasadam distribution should also be introduced. This will make the program even more effective. I am glad to know that Pancadravida is doing so nicely. He is a very good assistant.

Hoping this will meet you in good health.

My dear Morris Lapidus,

Please accept my blessings. I am in receipt of your letter dated October 22, 1976.

I am sorry to see that you have so many quarrels with my disciples. They are working very hard on my behalf trying to serve Krsna. Why not try to cooperate with them, instead of trying to get them to cooperate with you. I understand you are older, but then please just try to be tolerant and help in whatever way you can. Krsna will see your sincere desire, and if He wants you will be recognized and if not, there is nothing you can do to force it.

Hoping this will meet you in good health.

My dear Prthu Putra,

Please accept my blessings. I am in due receipt of your letter dated 23/10/76.

I am very happy to see you are trying to spread Krsna consciousness in Egypt. You should present Krsna consciousness not as a religion, but a science of God realization. Try to convince them that it is not just a kind of faith. It is a chance to understand God. In every religion there is a glimpse of the idea of God. This Movement is explaining what God is. The educated persons should be convinced about this fact. Every sane man should be interested to know God and then love Him.

Hoping this will meet you in good health.

My dear Shasta,

Please accept my blessings. I am in due receipt of your letter dated 25/10/76.

Regarding Sukadeva, it has been found that he has got a substantial amount of money in private bank accounts. Perhaps you do not know this. He has caused a great difficulty in the management of our Honolulu temple. Of course Gurukrpa has got to handle the situation nicely, but what can I do from here.

Letter to: Vasudeva

-

Vrindaban 3 November, 1976

76-11-03

Lautoka, Fiji

My dear Vasudeva,

Please accept my blessings. I am in receipt of your letter dated 30/10/76.

I have replied to Ramesvara as follows:

Regarding the Fiji situation, your solution to amend the constitution is nice. Let Vasudeva become president. Your idea to sell BTGs, collect donations, hold kirtanas and distribute prasada profusely, yes, do that. I was given the impression that this temple was to be controlled by the Punja family and our devotees would not have any hand. This was the impression given. We want that a very nice relationship be kept with Vasudeva. It was wanted that he follows our instructions including following the GBC, so that everything can go on nicely. Let one brother be president and one treasurer, and give one good man who can act as secretary. I have not lost confidence in Vasudeva. Now the matter is clear; I'm very much pleased with him so let him remain president and that will please him more, and his brother, treasurer, with one secretary. If the temple remains permanently in Iskcon Fiji's name and cannot be sold, that is very nice; it is not for selling, it is for improving more and more.

Local men must understand our philosophy, then it will be very successful. We cannot import men from outside. We sincerely want that local men, either from Vasudeva's family or any family which will take on the work. We have to work on that line. Just like some of my Godbrothers wanted to take men from India to London but the attempt was a failure; but when I trained up local men then it was successful. I have no objection if Vasudeva's whole family is trained up to take charge of the temple. Local men should not simply become a visitor but they should be trained up to take charge of the temple. That is what I want. As soon as one is a devotee of Krsna, there is no personal ambition. Life is dedicated for Him.

Whatever Ramesvara and yourself will do, that is alright. Now you order huge quantity of Hindi and Gujarati books from our BBT office in Bombay. Distribute as much literature as possible, English, Hindi, and Gujarati. That is real preaching. Thank you very much.

Hoping this meets you in good health.

My Dear Giriraja,

Please accept my blessings. I am in receipt of your letter dated 5/11/76.

Yes, if there is no difficulty to finalize the fixed deposit later we can wait until I come to Bombay.

Regarding the Gita Pratisthan conference, will they pay for my going or not? Talk to Bajaj personally about it, his secretary is useless. When he returns speak to him. If they do not pay we will not take a sankirtana party. But, if we can transport in our own bus, then we can do.

It is good that our friends are coming forward to help in Bombay. Let them present a statement that it is a genuine movement. All Indians are interested in spreading this movement. Krsna is accepted as the Supreme Lord by all Indians. His birthday ceremony, Janmastami, is observed by all Indians. In Bombay there is an embassy branch. Our Bombay friends should go there to express their protest.

Encourage Dr. Jhawer, I know he is very enthusiastic. Mohata can give lots of help. One thing, is the sanction there for our Gurukula construction?

That newspaper article is very nice.

My dear Bhagavan dasa,

Please accept my blessings. I am in due receipt of your letter dated 28/10/76.

I have received the books you have sent. They are very nicely done. Thank you. But, I did not receive the BTG yet.

Yes, let Haya haya go to Spain and work very carefully. When it is established I shall go there. It is very good news that we are opening a center in Greece. I have been to Zurich. It is a very clean city. Develop it nicely. Many important persons who were very interested in our movement came to see me when I was in Geneva. All the news of these centers is very encouraging. May Krsna bless you that you always remain fully engaged in His service. Also, it is nice that you are holding two feasts each week in Rome. On my next tour I must go there.

When people are enlightened they take this movement seriously. We are given to understand that formerly in Europe only the French people were enlightened. Therefore it is to be expected that many people in Paris will join us. Regarding Rathayatra, you can change the date according to a suitable time. You may hold it in Paris whenever it is the best time. It will attract many persons. Please do it.

Have there been rains at New Mayapur? There should at least be rains in our area. Yes, increase the flowers. You have got sufficient space. Produce flowers, fruits, vegetables and grains in ample quantities. We should be fully self-sufficient. I like New Mayapur very much.

Yes, if Harikesa can go to Thailand that is alright. He can manage nicely.

Upon your recommendation I am pleased to accept the following devotees for initiation (first) as well as those you have recommended for second initiation. Hold a fire ceremony and instruct the new initiates to follow rigidly the regulative principles and chant minimum 16 rounds daily avoiding the ten offenses. You may chant on their beads. Play the tape of me chanting gayatri mantra into the right ear of the second initiations. The new names are:

Bhakta Phillipe-Prana-dhana Dasa
Bhakta Christian-Caitanya-Nitai Dasa
Bhakta Houle-Harivamsa Dasa
Bhakta Pierro-Purusottama Dasa
Bhakta Gianne-Gandharva Dasa

Vrindaban 7 November, 1976

Los Angeles

My dear Ramesvara,

Please accept my blessings. Please find enclosed two letters which have just reached me here in Vrindaban after being forwarded several times, and my reply to them.

I think this matter is serious. Previously I sent one newsletter asking that this boy be returned to his father or at least that his father be notified of his whereabouts. My directions were not followed and now this is becoming a very burdensome situation unnecessarily. Why should we sacrifice the reputation of our Movement for one boy? If Krsna wants, how can his father force the boy not to become Krsna's devotee? We should do everything legally. Just show in the court that the boy wants to remain with his mother and that the mother wants to keep the boy very nicely. You can say that his father may force the boy to eat meat, etc. and in this way convince them not to take the boy away from his mother.

I understand that due to this incident we are now voted out of our Evanston temple by the city council, and that in San Diego we have been stopped from purchasing one building. Now, this Mr. Yanoff is creating a very bad impression of our movement. What is our gain? These things should be done legally not whimsically. If the father is victorious in the courts then what can we do? Our business is not to kidnap. People must come voluntarily. It is always voluntary. Krsna is offering the chance to go back home, Back to Godhead, but He leaves the choice up to the living entity.

The example of Prahlada Maharaja is there. Despite all efforts on the part of his atheistic father to change him, he remained a staunch devotee of the Lord. It is undoubtedly unfortunate circumstances, but why should we jeopardize the reputation of our Movement? You have been handling the affair. Please now rectify the situation. Do everything legally. Do not cause unnecessary troublesome situations. Our main business is to distribute my books and people will come gradually. Everything should be done for that purpose. People will criticize and oppose us, there is no doubt, so why should we create more trouble unnecessarily.

Hoping this will meet you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear Rupanuga,

Please accept my blessings. I am in due receipt of your letter dated October 28, 1976.

Yes, we should take advantage of this opportunity to preach. I see it that somehow or other they are chanting Krsna. Either they criticize or chant. The article you have sent from the college newspaper can help our counter-propaganda. Ramesvara should be informed.

This incident with the president of our Washington temple is not good. He can't even maintain one wife. Just see how lusty he is. Now he'll dare to take another. Anyway he cannot live in the temple. If he wants two wives it must be done outside. He should maintain his family by working and give 50% to the temple. He may not live off temple funds. Temple president is generally meant for sannyasi, but a grhastha may be if he is restrained. It is not good if he remains as president.

Our place there is very nice, now develop it. It is nice if you can begin Bhaktivedanta Institute there.

You have mentioned that they are looking at a new building in St. Louis, a church, that's nice. It is very good that there are now 55 devotees at our Montreal temple. It is a big temple, a good place.

Regarding our men becoming lawyers, yes do it. For a graduate it is not difficult. You can also take a degree. However, five years is too long for our men to work as a clerk. That is not good.

Hoping this will meet you in good health. Your son has arrived here. I am happy to see him.

My dear B.S. Bodhayana Maharaja,

Please accept my humble obeisances. I am in due receipt of your letter dated 2/11/76 for which I thank you very much. The Bengali letter delivered with my letter has been delivered to Kamal Narayana. My thanks are also to Santo Maharaja.

I'm very much obliged to you that you write to say, "It is clear to me that you are great powerful Acarya in the Vaisnava world at present." Sometimes Sridhara Maharaja also says like that. So, actually if you are feeling like that let us work conjointly. There is great prospect for preaching Caitanya Mahaprabhu's message all over the world and in India also. At least in India we can preach very vigorously if we combine together. It is already tested in many cases. Whenever we held some festival in big, big cities like Calcutta, Bombay, Hyderabad, Madras, Delhi, etc. thousands of men gather and they request regularly to continue the program. Recently we held a similar program in Candigargh and the devotees of Sri Caitanya Gaudiya Math also participated. They invited me in the local center of Sri Caitanya Gaudiya Math and many thousands of people came to hear me. So there is great prospect if we work conjointly at least in India. So you can consult Sridhara Maharaja also. He's also of that opinion s you have opined and if in this old age we can do something combinedly it will be a great triumph. I thank you very much once more.

Yours affectionately, A.C. Bhaktivedanta Swami

Letter to: S. N. Sharma

-

Vrindaban 9 November, 1976

76-11-09

My Dear S.N. Sharma,

I am in receipt of your letter dated 6/11/76 and have noted the contents carefully.

Yes, if you want to give us this land we shall be willing immediately to invest in developing a project there. We have long been interested in developing something in Delhi, but we were waiting for the opportunity. What Krishna preaches is meant for the weaker section. If they feel weak and abide by my direction, it is not my direction, it is Krishna's, they can be raised to the standard of the most exalted persons, even if they are all fools and rascals. The teaching is very simple, "man-mana bhava mad-bhakto mad-yaji mam namaskuru" [Bg. 18.65]. Even a child can do it. Even the weakest child can do it if he is trained up. Let all the weaker section come to me. I shall train how to become first class men by chanting Hare Krishna Maha mantra and be fit for Krishna consciousness. That will solve all their problems. It is doing practically all over the world. I don't think there is any other institution throughout the whole world which can take charge of a weaker section and raise them to the standard of most exalted persons.

We have no business with Tagore's Gitanjali. We are simply interested in spreading Krishna's Gita. When the greatest author, Krishna, is there, there is no need of bringing smaller author. When there is brightest sunshine, there is no need of bringing small lamp. When there is brightest moonshine, there is no need of bringing glowworm. This is our principle. If you want to write something, read our Bhagavad-gita As It Is carefully and write something simple to benefit the common people. In Gitanjali there is a little hint to surrender to the Supreme.

Faithfully yours,

A.C. Bhaktivedanta Swami

Calcutta

My dear Gargamuni,

Please accept my blessings. I am in due receipt of your telegram reading as follows; ”Due to your displeasure with Vrindaban management …”

Before this I received one letter form you addressed to Jagadisa. The reply to that letter is sent with Debu. There I have requested you to come here with the car. I’ve sent one letter to Bhavananda also, in which I requested him to preach in the interior of Bengal. Now he is in the limelight, so his attention should not be diverted.

Regarding management in Vrindaban, it is improving in My presence. I hope it will go on nicely. The only problem is the guest house. There are practically no guests. Out of 44 rooms we cannot engage even one daily. So, here is the real problem. We have invested in this guest house about 25 lakhs. So, without utilization of these rooms, we are losing about 20,000 per month. This is the real problem. Other problems are minor, they can be rectified. So, amongst yourselves discuss this guest house problem, and when you come, please bring the solution scheme. Then I will be able to talk with you how things can be improved.

The proposal of closing Calcutta center is very inauspicious. Any center we open cannot be closed at any cost, what to speak of the Calcutta center. You have asked for 2 lakhs loan. That can be also arranged, but why Calcutta center bank account is broken. I’m too much perturbed on this point. I was just planning to go to Mayapur when Jagadisa received your letter, therefore I postponed my journey to Mayapur until I come here and I shall discuss with you. My health is also not very sound, still I wanted to go to Mayapur. But, I think the Calcutta problem would give me more trouble even if I am in Mayapur. Thus, I postponed. So, when you come here we shall discuss the matter in detail.

Hoping this meets you in good health.

Vrindaban 15 November, 1976

76-11-15

Sri Purusottama Math Puri

My dear Syama Sundarji,

Please accept my humble obeisances. I am in due receipt of your letter dated 30/10/76 and have noted the contents.

You have given me the credit of being the best disciple of Prabhupada. That is very kind of you, but I am just trying to serve him. Whatever success there is is due to his mercy. In my last meeting with him in Radha Kunda he advised me to print some books if I get money. I took it very seriously and by His grace we have now published my translations of Bhagavad-gita, Srimad-Bhagavatam, Caitanya Caritamrta, Bhakti-rasamrta-sindhu, Upadesamrta, etc. to the extent of 84 books. You'll be surprised to know that these books and my magazine Back To Godhead are selling daily 5-6 lakhs of rupees in the foreign countries. Out of such proceeds I am bringing foreign exchange of not less than 10 lakhs per month for construction work in Bombay, Mayapur, Vrndavana, etc. So, this is all due to the blessings of Srila Prabhupada. I have no credit in this connection. These American boys are helping me in this endeavor, therefore, until they are admitted to the Jagannatha Puri temple I'm not inclined to go there.

My disciples are trying for this purpose. The government officials are in favor. Maybe it will be soon.

So far the magazine is concerned, in India it is very difficult to send attractive magazines by post. The peons take it away. I have seen this myself and others have also seen. Therefore, we are publishing one local magazine from Hyderabad. A copy is sent herewith. If you like I can advise the managers in Hyderabad to send you a regular complimentary copy.

By the middle or end of November I may be going to Hyderabad. There we have got 600 acres of land to develop a farm project. We have got one very nice temple in Hyderabad City. As we are doing in Mayapur and many other places, I want to develop self-sufficient centers with cloth and food production by the devotees locally and save time as much as possible to devote themselves to chant Hare Krishna.

I thank you very much for your kindly remembering me. Sometimes I wish to take Jagannatha prasada, because nowadays I have no appetite here. I went to Jagannatha Puri in 1958 during some special function. I was taking Lord Jagannatha prasada very sumptuously. I am praying to Lord Jagannatha to take me there again at His will and honor His remnants of food.

Hoping this will find you in good health.

My Dear M.M. De,

Please accept my blessings. I am in due receipt of your letter dated 12/11/76.

Thanks for your determination. Why not act as liaison, agent, and representative of Krsna following in the footsteps of your father? Your father didn't despise the service of Krsna; because service of Krsna is eternal engagement of the living entity. Practically, your father's books sell all over the world to the extent of Rs. 5 to 6 lacs per day. If he would have taken the royalty to the minimum of 15% his daily income would have been Rs. 75,000/- per day. But he does not take a single paise and is engaged as representative of Krsna day and night. Why not follow this tradition of your noble heritage?

Hoping this will find you in good health.

My dear Gunagrahi,

Please accept my blessings. I am in receipt of your request for initiations.

Now hold a fire sacrifice for these devotees. Make sure they know the four regulative principles and follow them strictly. They must also chant at least 16 rounds per day avoiding the ten offenses. Ramesvara Maharaja chant on the beads of the first initiates. Play the tape of Me chanting the Gayatri mantra into the right ear of the second initiates. Teach them how to chant on the finger divisions.

The names of the new initiates are as follows:

Enrique Ross-Yogananda dasa
Felipe Musquiz-Padmalocan dasa
Peter Tapp-Purusa dasa
Richard Warfield-Raktaka dasa
Heather O'Neil-Harsarani dasi

My dear Gurudasa,

Please accept my blessings. I am in due receipt of your letter dated 14/11/76.

I am very happy to hear that you are going to Poland. Bharadraja also speaks Polish. He may come there sometimes if it can be arranged. Sri Garbha's wife doesn't have to go to Mayapur, she may go to the farm in France. it is very nice there. Or she may go to any of our farms. The preaching in Poland is the first consideration. Vrindaban is being managed somehow by others. Aksayananda has one man who is collecting very well (Rs. 15,000-20,000 per month) Vrindaban is becoming self-dependent. If you can preach vigorously in Poland it will be a great asset. You may come to Vrindaban if you like, but preaching in Poland is my greater interest. So, now Vrindaban is somehow being managed. Now the most important work is that side in the Communist countries. If you can do something there, it is more than if you come here. Our business is to glorify Krsna as the Lord of Vrndavana and to popularize Lord Caitanya Mahaprabhu's Hare Krsna Movement. I was a resident in Vrndavana, but at the age of 70 I tried to preach Krsna consciousness a little bit and now this Institution has come out. So, I think it is more profitable to preach about the Master of Vrndavana, Krsna, outside of Vrndavana. A devotee of Krsna can create Vrndavana everywhere by preaching the glories of Krsna.

There are many sahajiyas who imitate Rupa Goswami not to go out of Vrndavana, but Caitanya Mahaprabhu remained always outside Vrndavana for preaching purposes, although He is is the master of Vrndavana personally. I have no objection to your coming to Vrndavana, but as you have accepted the sannyasa order, it is more important to preach about Vrndavana rather than to come to Vrndavana. I am getting older and older and it is getting difficult for me, therefore I am requesting all my younger disciples to preach all over the world. Otherwise, you are always welcome in Vrndavana. I have no objection.

I am a little hopeful that if we preach in the communist countries, they will like it. According to our Vaisnava philosophy even a snake or lizard is in the house shall not go without eating, what to speak of other living entities. The communists have an idea for feeding human society, but our idea is expanding. We want to see even a snake not fasting.

If somebody wants to go to Bangkok it will be very good. The address there is: ISKCON CENTER, 17 Amorn Soi 2 Sukumvit 49, Bangkok, Thailand. In charge there now is Rajni dasi.

Alex, who was just here, told me he has given you the money for my house as well as some for purchasing a bus. The house construction money can be sent to American Express International Banking Corporation in Calcutta. The account number is S/B a/c no. 5416. It is in the name Sri A.C. Devotional service does not depend on material assessment. It is said in Srimad-Bhagavatam, "ahaituki apratihata". Devotional service must be without any material ambition and there is no material impediment which can check advancement in devotional service. Srila Gaura Kisora das Babaji was unable to sign his name, and yet he became the spiritual master of Bhaktisiddhanta Sarasvati Gosvami Maharaja, the most erudite learned scholar of His time. We should begin our devotional service in whichever position we are. It isn't that we have to learn something extra for advancing in devotional service.

sa vai pumsam paro dharmo yato bhaktir adhoksaja ahaituky apratihata yayatma suprasidati [SB 1.2.6] vasudeve bhagavati bhakti-yogah prayojitah janyayaty asu vairagyam jnanam ca yad ahaitukam [SB 1.2.7]

If one is materially well equipped it is welcome but devotional service does not depend on material qualifications.

I am very glad to hear how the book distribution is increasing more and more. This is our greatest weapon. The more the books are distributed, the more the ignorance of the Age of Kali will be smashed. The world is feeling the weight of this Hare Krishna Movement, especially in your country. We have to increase this book distribution work more and more to firmly establish this Movement, which is the only hope for the suffering living entities.

About our tenants; most of them are employed. So, there is good chance of their vacating when they are transferred. You should be very vigilant to see that they do not transfer occupancy to someone else and cause unnecessary harassment. Similarly, when someone purchases an apartment he is liable to vacate. My dear Ramesvara,

Please accept my blessings. I am in due receipt of your letter dated November 3, 1976.

It is good that you are engaging so many people to speak on behalf of Krishna. I did not receive, however, the list of quotes from parents of the Los Angeles devotees that you say was enclosed.

We can print the books written by Dr. Judah, Dr. Gerson, etc., only if they will agree not to charge royalties. If they want royalties, then we shall not print.

Yes, these attempts to stop our Movement will completely fail. It is Krishna's plan for us to become more prominent. In Bengal the press tried to defame our Bhavananda Maharaja, but now he has become a great hero. He signed 20,000 autographs on one holiday. Go on increasing the book distribution more and more. That is the key to our success.

Thank you very much for the pictures of Rukmini Dvarakadhisa. They are very nice.

Hoping this will meet you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

P.S. Today I have received the December issue of Back to Godhead. The interview with the London reporter is very important. This should be presented in the courts. It is 95% of the evidence we require to prove that Krishna Consciousness is genuine. This is not a sentimental faith or religion, it is a great science. Everyone is changing bodies. Regardless of his so-called faith, the Christians as well as the Hindus are changing bodies. This is science. There is a Bengali story. A deaf man used to call his wife. She would reply, "I'm coming!" But, he couldn't hear her. He would think, "The women's deaf." Actually he was deaf but he accused her of being deaf. Similarly these people are brainwashed and they are accusing us of being brainwashed. This we have to prove. We have the real science. This should be preached and proven in the courts. Use this article as evidence and with a good lawyer prove that Krishna Consciousness is the real science and that all others are brainwashed. ACBS/jda

You can reply to Govindalalji Maharaja as follows:

What we have discussed is printed in Caitanya Caritamrta. How can we rectify? We can't rectify what is written in Caitanya Caritamrta. We have no bad feeling or disrespect for Vallabhacarya. We consider ourselves the most obedient servants of Vallabhacarya. The exchange between Lord Caitanya and Vallabhacarya was on friendly terms. This was raised in connection with supporting the position of the acaryas. The real point is that Sridhara Swami is still being criticized by you in the following words, ". . . and has shown specifically the nature of the error committed by the previous Commentators including Sridhara Swami . . . Sridhara Swami . . . was never regarded as a Master . . ." So, this criticism of Sridhara Swami was as much intolerable for Caitanya Mahaprabhu as His criticism upon Vallabhacarya is intolerable for you. Such kind of friendly criticism you'll always find among learned scholars, but that does not mean any ill feeling with one another. So, as you can criticize Sridhara Swami in the above words, what is the wrong if in the same spirit the supporters of Sridhara Swami criticize you. There is an English proverb spoken by Lord Jesus Christ, "Judge not others lest ye be judged." So, the conclusion is, as we learn from Caitanya Caritamrta, that in the beginning Sri Vallabhacarya criticized Sridhara Swami and then Sri Caitanya Mahaprabhu criticized Vallabhacarya. So what can we do now after 500 years? Recently some criticism has appeared in the Illustrated Weekly also. So, such things will go on in this world, but that does not mean we have got any disrespect for any Vaisnava acarya.

Hoping this meets you in good health.

NEWSLETTER 26 November, 1976

76-11-26

Dear Ramesvara Maharaja,

Please accept my humble obeisances. All glories to Srila Prabhupada. The following is an extract from a morning class on S.B. 5/6/3, delivered on 25/11/76. Srila Prabhupada has requested that it be sent to all temples and G.B.C.

"If you pat your subordinates it will increase their faulty habits and if you chastise them, they will improve. Therefore it is advised that either your son or disciple, you should always chastise them, never give them leniency. So a little leniency, immediately so many faults will grow. Now for our practical life we are known all over the world as shaven headed, is it not? Now we are becoming hair-headed, we are forgetting shaving. Because there is a little leniency, immediately faulty things are creeping in. So we should be known as shaven-headed, not hair-headed. This is discrepancy. At least once in a month you must be clearly shaven-headed. On the bright fortnight, on the day of purnima, four days after ekadasi. Once in a month, in the bright fortnight we must be shaven-headed. It is not desirable that in grown up age also, you be chastised. that is not desirable-that is also difficult because when the disciple or son is grown up, if he is chastised, then he breaks. So before being chastised we should be conscious that this is our rules and regulations, we must observe. Therefore it is advised by Canakya Pandit (Sanskrit) After the 16th year of the disciple or son, he should be treated as friend because if you chastise when he is grown up then he will break up- that is also another risk. So our request is that instead of chastising, with folded hands I request you, don't you become hippies again by growing hair. Keep your head cleansed at least once in a month. That is my request. Neither I can chastise you, I am an old man and you are young men."

And in the room after the lecture:

S.P.: "At least once in a month you must be shaven-headed."

Dev.: "Actually we usually shave more than once a month-every two weeks because even after two weeks it looks a little dirty.

Dev.: "You can get good wigs."

S.P.: "No. There is no need. That is also mental concoction. Nowadays you can go with coat, pant and shaven head, no one will criticize. It has become fashion. Russians, they use, Krushchev, I have seen, shaven head.

Dev.: "They don't have a sikha. That's all."

S.P.: "It is practice only"

And also there was some discussion regarding the new G.A.P. record: "A Change of Heart". In your recent BBT newsletter you quoted Srila Prabhupada as saying: "Why not in the temple." When he was asked whether it could be played in the temple. However, I was under the impression that he had said "Not in the temple." Therefore, to clarify matters Jagadisa prabhu again inquired from His Divine Grace. Please bear in mind that Srila Prabhupada has heard one full side of the album. His Divine Grace's comments were as follows:

HSd.: Srila Prabhupada, when you were in L.A., you heard that new record by Krsna Kanti…

HSd.: …this pop music, you know, the tape you just got. The western style music

HSd.: In the new BBT newsletter which just came yesterday, there is a statement by Ramesvara that you were asked whether this record could be played in the temples and you replied: "Why not in the temples" Hari Sauri thought you said, "not in the temples," but Ramesvara,..

S.P.: No, not in the temple. If the wordings are alright, if there is no mistake in the set up of the wording, the change of musical tune, that is not harmful. Hare Krsna, this vibration you can make in different tune, we are already doing that.

HSd: But we are talking about these songs they are writing, philosophy songs, like this "caterpillar had a change of heart"

S.P.: Therefore we see the wording.

D: If the words are alright, can they be played in the temple?

GKd: Because no one can hear the words, it's the pop music that people hear.

Ak Sw: The words are just like modern pop songs, you can't really tell what it means. I suggested to these people: "Why don't you put music to Prabhupada's books. Take the words straight from prabhupada's books…

HSd: No, Prabhupada has approved this method for attracting karmis, but the thing is, when you become a devotee,..

S.P.: Yes.

Ak Sw: That kind of music reminds us of past bad sinful activities,..

HSd: The question is whether it should be played in the temple or not?

S.P.: Temple it may not be played. What is the use of playing in the temple?

GKd: I know from practical experience Srila Prabhupada, I just played the record, it is all current pop music with English philosophy wording and the brahmacaris were so agitated. They came to listen to it and they were taking fun of it like the pop songs.

Ak Sw: Because that style of music reminds us of the night club.

S.P.: Therefore I said it is better not to make these records.

GKd: Just your records and parampara records should be played I think. There are so many tapes of your records.

HSd: Yes, but this style they are doing now they explain that they wanted it because then that way they will be able to get them played on the radio; otherwise, they won't play bhajans or anything on the radio. But there's a distinction between that kind of music and pure Krishna Consciousness music. Even though the words indicate Krishna Consciousness, most of the songs are written in such a way that it's like, indirect. It's not directly Krsna. It's indirect.

S.P.: Yes, indirect.

HSd: Like they give this thing: "A caterpillar changed his mind," like that. It provokes some speculation.

S.P.: No. Indirect (it's) for gross outsiders. not for us. Therefore it should not be played in the temple. Gross outsiders only.

Kindly send a copy to each of our centers as soon as is conveniently possible. His Divine Grace specially requests that the system of shaving on the fourth day (the head) after Ekadasi, on Purnima, be introduced immediately in all centers.

Hoping this meets you in good health and Krsna Consciousness.

My dear Yasomatinandana,

Please accept my blessings. I am in due receipt of your letter dated 11/30/76 (somehow mistakenly dated).

I am very encouraged by your book distribution report as also your enthusiasm to publish my books in Gujarati. One thing, what is the reason no local men are joining? This is wanted. Then the center there will become strong.

You say we must have a gosala trust, that is our real purpose. krsi-goraksya-vanijyam vaisya karma svabhava-jam, [Bg 18.44]. Where there is agriculture there must be cows. That is our mission: Cow protection and agriculture and if there is excess, trade. This is a no-profit scheme. For the agriculture we want to produce our own food and we want to keep cows for our own milk. The whole idea is that we are Iskcon, a community to be independent from outside help. This farm project is especially for the devotees to grow their own food. Cotton also, to make their own clothes. And keeping cows for milk and fatty products.

Our mission is to protect our devotees from unnecessary heavy work to save time for advancing in Krsna consciousness. This is our mission. So there is no question of profit, but if easily there are surplus products, then we can think of trading. Otherwise we have no such intention. We want a temple, a gosala and agriculture. A community project as in Europe and America. We are making similar attempts in India in several places. Immediately I'm going to Hyderabad to organize the farm project there. We have 600 acres. We have the permission from the government. There is no question of ceiling.

You may call the gosala: ISKCON Gosala and Farm Project Trust. My dear Brahmananda,

Please accept my blessings. I am in due receipt of your letter dated November 15, 1976.

I'm very glad to hear that Mr. Karsan and others are prepared to collect the entire amount for the house in Mombassa. I am enclosing a letter of encouragement for Mr. Karsan.

I like your idea for side by side arrangements to preach to the Africans and the Asians. Do it nicely, Krishna will give you all intelligence. I like the pictures you have __ __ chanting. One may remain perpetually illiterate, but if one practices the devotional service activities, he will become a devotee. That's all, train them up to become devotees. How to play mrdanga, how to play karatalas, take prasadam, attend arati, etc. They'll never understand the books. They are less than sudras, candalas. Just train as Vaisnavas, then all education is there.

Hoping this will meet you in good health.

Dear Mr. Karsan,

Please accept my blessings.

I have heard from Brahmananda Swami that you are organizing the purchase of the house in Mombassa that we want as Krishna's temple. All the blessings of Krishna are with you.

na ca tasman manusyesu kaccin me priya-krttamah bhavita na ca me tasmad anyah priyataro bhuvi [Bg. 18.69]

Anyone who preaches Bhagavad-gita is very dear to Krsna. So, you are helping this preaching. Certainly you'll be dear to Krsna. It is an open secret, anyone who helps spread Krsna consciousness becomes very dear to Krsna. Others are simply wasting time in the valuable human form of life.

Simply help to the best of your capacity. Krsna will be pleased to recognize you. Krsna is the root of everything. If He is pleased, everyone will be pleased. If you pour water on the root, the water will be distributed all over the tree. This is the best service to humanity.

Hoping this will meet you in good health.

The music is nice for the nondevotee class of men. However, the picture on the album cover is not nice. Why this crazy picture? This will not help our cause. They will not be able to understand. They will think it is change of body, not of heart. We have got so many nice pictures of Krsna.

My dear Ramesvara,

Please accept my blessings. I am in due receipt of your letter dated November 26, 1976.

If they are giving us trouble to distribute at the airports, then go to the courts. What can be done? We already have favorable decisions from some courts. We are doing something good for the whole world. Present the scholars' opinions. They have the power, we are powerless. What can be done? Depend on Krishna.

You write to say that we are getting good response from the latest issue of BTG. These testimonials should be presented in the court. Dharmadhyaksa's article is very nice. Such articles should be published. Take the psychologists opinion in writing. If somehow or other people chant, they'll be our men. So, somehow induce them to chant.

Regarding these deprogrammers, we must defeat their false accusations in the courts. We do not force anyone. They may stay or go, the freedom is there. Out of their own accord they don't want association with meat eaters, drunkards, and debauches. Just as there is warning from the government that if you steal you'll be punished. We are convincing people not to commit sinful activities or associate with sinful persons. Are these bad tactics? We are making men of good character. It is folly to be wise where ignorance is bliss. Even 10 year old boys are smoking, so much degraded. We are trying to convince people to become first class men rather than fifth class men. We have to fight.

Hoping this will meet you in good health.

Damodara Maharaja is a dangerous man. Remain very cautious with him. He is always causing difficulty.

Regarding the two men who have come to us from Gaudiya Math, for the time being we should try not to give shelter to such persons unless they are tested.

Regarding the Narayana Kavaca mantra, the Hare Krsna mantra is everything. But, I think that you are working too hard. Your illness is the result of too hard work. Remain in Mayapur. Take rest as much as necessary. And work through your assistants. And chant Hare Krsna.

Bombay

My dear Giriraja,

Please accept my blessings. I am in due receipt of your letter dated 27/11/76.

After thorough deliberation it seems much better for us to go straight from Hyderabad to Vardha instead of going first to Bombay. There is no advantage in going first to Bombay. There is a train which goes direct from Hyderabad to Vardha called the daksina express. It goes every night at 10:15 from Hyderabad arriving in Vardha the next morning at 8 AM. This way I can leave here on the 17th and arrive in time for the meeting with Vinobhaji on the 18th morning. Ask Mr. Bajaj to send us the money for purchasing the tickets. I would appreciate to have four first class accommodations so that we may have one full compartment and the balance seven can be second class. Then from Vardha I would like to go with one assistant to Nagpur and return to Bombay by plane. The balance nine men can go second class by train either to Bombay or Hyderabad. Hamsaduta is prepared to bring as many men as possible to make up the quota of ten others.

Otherwise the program as outlined by you is accepted. I am preparing now for the meeting with Vinobhaji as you have suggested.

We shall not exchange our top floor flat because we have the advantage of the roof. I also approve the suggestion to hold the pandal in Bombay the weekend after returning from Vardha.

Hoping this will meet you in good health.

Yes, I sanction your getting the necessary funds from the MVT (1 1/2 lakhs). One thing is, you say you have received $10,000 from Gurukrpa for a generator. However, that should not cost more than $6,000. The balance can be utilized in the building scheme.

The boat party must continue preaching. It is very nicely responded to. The educated men you have mentioned, who have joined us must be kept very satisfied. These men are required. You say that everyone is working without any caste or race consideration. That is required. That is the basic standard of Krsna Consciousness.

West Bengal

Dear Dr. Suresh Candra,

Please accept my blessings. I thank you very much for your Bengali letter dated Nov. 26, 1976. I have noted the contents carefully.

It appears that you are an unmarried brahmacari. So, if you continue this status of life for the matter of executing devotional service, that will be a great advantage. Many great personalities remain brahmacari throughout their whole lives and get freedom from material bondage very easily. Of course marriage is not prohibited in devotional service, but if one can remain brahmacari, in unmarried life, it is a great facility.

I'm very much pleased for your proposal to devote your life for Krishna's service. You are a qualified man. Anyone can become a pure devotee by engaging himself in the business of glorifying the Supreme Lord (Sankirtana movement). So long we have got this material body the problems of birth, death, old age, and disease will continue. Therefore, to help the devotees when they're in bodily ailments is also a great great service. If you so desire you can join our Movement. We have got very good centers, especially in Mayapur, Bombay, Sri Vrindaban, Hyderabad, etc. If you decide to join, we can give you all facilities for rendering this service. At present I am staying at Hyderabad center and very soon I shall go to Bombay by the end of the month. Our Bombay address is as follows: Hare Krishna Land, Juhu Road, Juhu, Bombay 400 054. I shall be glad to hear from you. Thanking you once more for your offering service to Lord Krishna.

Hoping this meets you in good health.

My dear Gurukrpa,

Please accept my blessings. I am in due receipt of your letter dated 29 Nov. 1976.

Your proposal to purchase a new temple in Sydney is good. I remember the bay side, it is the best side. It’s a very nice bay. It will certainly increase the preaching to have a center there.

I’m pleased to know the restaurant is again doing nicely. If palatable dishes are available people will certainly come. Srutakirti is a good boy. You can trust him. Cooperation must be there. It is a nice idea to sell prasadam at the beaches from a vehicle.

Now with Bhagavad-gita translated in Japanese our standing will be there. Let us sell Bhagavad-gita only in plain dress, we don’t require saffron dress. Try to sell to the professors and at the school colleges as we are doing in other countries. Book distribution is our best preaching work. But, all our men must follow the regulative principles. That must not be neglected.

Please keep the money you have in the bank. I’m thinking of one temple in Bhuvaneśvara. It will be required later on. India is poor. Hawaii already has a building. A temple is required, but not very urgent. As it is convenient we can do it. Because our devotees are not allowed to enter Jagannatha’s temple at Puri I’m thinking to build a duplicate temple at Bhuvaneśvara.

You are welcome to come to India. When you come we’ll begin the Bhuvaneśvara temple by the 15th of January. They are also arranging a Kumba Mela camp in January. You’ll enjoy that also.

We have got the land already in Bhuvaneśvara. I’m waiting for the plan and estimate. So keep the $160,000 for this purpose. Further developments I shall let you know. The Bhuvaneśvara address is as follows: Iskcon Center/ Nayapalli/ Bhuvaneśvara-12/ Orissa.

Hoping this will meet you in good health.

Kanpur

My dear Lokanatha,

Please accept my blessings. I am in due receipt of your letter dated 10/12/76.

The preaching work you are doing is very good. Continue this program enthusiastically and increase your number of company. You have to create devotees by your preaching work and train them according to your needs. Krsna has given you and your companions a very nice responsibility. If you like you can go all over India and make it more and more in that way. Try to distribute Hindi and other vernacular literature.

Do not depend on outside help. Also, for financial support depend on Krsna. That is preaching success. People’s appreciation will be practical when they help you financially also. Also, book distribution. We are maintaining our huge establishment by selling books. That is wanted. In foreign countries they are distributing huge quantities of books. Money is needed, that you have to collect. You can’t expect money from outside. That is not successful preaching.

Regarding starting a center in Kanpur, that is a very good proposal. Yesterday one gentleman came from Kanpur to see me. His name and address are as follows: Mr. G. Pant/ 111A/87 Ashoknagar/ Kanpur 208012. He’s a great devotee, he can help you. But, the center should be for this purpose, that you go to the villages for preaching and come back. But, if you become packed up in the center, that is not wanted. The center should be opened for financial help for the preaching program. Just like our Aksayananda Maharaja is sending out men to the surrounding villages and towns preaching and holding programs. This should be the purpose, otherwise you may simply go on as you are now and simply depend on Krsna.

Hoping this will meet you in good health.

My dear Vegavan,

Regarding the question you have asked, you can give a very straight answer. Bhagavad-gita says, "dehantara praptih [Bg. 2.13]". The soul transmigrates, but there is no regular process. In the beginning of creation, when all the world was water, all living entities were aquatics. Then gradually from aquatics the soul passes into plant bodies, then insect bodies, then bird bodies, then animal bodies, then human beings. In the human form the soul can decide whether to go back to home, back to Godhead or return to birth and death, accepting material bodies according to his karma. Therefore, it is advised to take advantage of the human form of body to go back home, back to Godhead. Our movement is for this purpose, to offer all human beings a chance to go back home, back to Godhead.

That is very good news that they are going to use our Bhagavad-gita as it is in the high schools. That you are getting new devotees who are not from Sweden doesn't matter. Anyone coming is welcome.

Hoping this will meet you in good health.

Your book distribution report is very encouraging. If I see our leaders are enthusiastic, that gives me more enthusiasm. Your suggestion to get new buses is good. I always recommended that. I don't like old vehicles. I think one hundred buses are not sufficient for America. You propose to induce the American people to surrender to Lord Caitanya by expansion of book distribution, that is wanted. When you come to that, that is success. Then you can take charge of the government. And, as soon as in America the Krsna conscious boys are in power the whole world will be changed. The idea is to bring under control all atheist class of men. There are two ways of bringing the opposition under control. One is by logic and philosophy, the other is by force. That was done by Bharata Maharaja when he was king of this planet.

Why the wife should be disturbed if she is living not in the association of her husband. When Caitanya Mahaprabhu went to East Bengal for preaching, his first wife was alone. Wife's duty is not to disturb the husband. That is Vedic principle. The marriage relationship is not for sex. Of course, that is the way in this age. So, such wife may marry for the second time, what can be done? Vedic marriage is not for sex.

Hoping this will meet you in good health.

My dear Aksayananda Maharaja,
Please accept my blessings

It is very nice that the U. P. State Ministry has booked eleven double rooms in our guesthouse. Kindly give them a good reception and food and deal very nicely with them in all respects. It is very nice that the chokidars have nice uniforms and are working very efficiently. That is wanted. The uniforms for the guesthouse staff should also be ready when the government people come.

I am very anxious to know what happened about the Municipal affair. Please let me know at the earliest.

I hope this letter will find you in good health.

My dear Sudama,

Please accept my blessings. I am in due receipt of your letter dated December 4, 1976.

Yes, you need to come to the festival this year. Your health must be taken care of first. Regarding the others, it is alright that they may or not come as convenient.

Sita should address Lord Ramacandra as "My Lord." The matter of drawing the line is not very important. There is a summary of the Ramayana in the 9th canto. That will help you. You can show the fight between Rama and Ravana. The monkeys were throwing big, big mountains and trees blocking the passages in Lanka.

Hoping this will find you in good health.

I'm very pleased that you are taking my order to distribute books so seriously. All blessings of Krishna are on these girls who are working so hard to distribute my books. that is very nice that you want to distribute more books than Tamala Krsna goswami's sankirtana party.

Hoping this will meet you in good health.

My Dear Alanatha,

Please accept my blessings. I am in due receipt of your letter dated nil along with two copies of the second volume of the Portuguese Srimad-Bhagavatam. It is very nice.

You write to say that the reception is very good in Brazil. So now organize very nicely. Distribute literature to the fullest extent. Thank you for inviting me to come. I shall maintain this ambition. At the first opportunity I shall go. For now I will depend 99% on you to push on there.

Upon your recommendation I am pleased to accept the devotees you have recommended for initiation. Now hold a fire yajna. Instruct the first initiates to always chant a minimum of sixteen rounds daily and to follow strictly the four regulative principles. Hrdayananda Maharaja may chant on their beads. Their names are as follow: Kiko-Kirticandra dasa; Mozart-Murari Gupta dasa; Francisco-Vasistha Muni dasa; Paulo-Paramahamsa dasa; Leandro-Lilananda dasa; Tercio-Trilocana dasa; Claudio-Karana karana dasa; Eneas-Isvara dasa; Regina-Rasavihari dasi; Christina-Krsnanandini dasi; Marta-Matsya dasi; Ivonette-Indumati dasi; Dora-Dev dasi; Maria-Murti dasi. For the second initiates, namely Ugraha dasa, Sadhyasrestha dasa, Ananda Murti dasi and Yogini dasi, you should play for them into the right ear the tape of me chanting Gayatri. Teach them how to count on the finger divisions.

Regarding the installation of Lord Ramacandra, it is a very good idea. For obtaining these Deities you can take the help of Saurabha. During the festival you are invited to come to Bombay to see the Deities here.

Hoping this will meet you in good health.

My dear Lokanatha,

Please accept my blessings. I am in due receipt of your letter dated nil.

Regarding having more Hindi books to distribute, that you'll have by the end of the month. Ask Gopala Krishna when they'll be ready, they can be sent to Kanpur. Prasad distribution and chanting and book distribution is sufficient for your program. There is no special method other than this simple program. You must train up the men. I hope you will be able to do that. Keep your behavior right to the point, set a very good example and others will follow.

Yes, I want you to concentrate on preaching. You must see whether Gopala Krishna can give any men as you have suggested. It will be nice if you can organize Kanpur preaching. The men there are __ and rich also. In this connection you can take advise from Aksayananda. He has got sufficient experience. The more you get popular you can increase the propaganda paraphernalia. There is enough money in Kanpur. There you can raise any amount.

Hoping this will meet you in good health.

My dear Saurabha,

Please accept my blessings. I am in due receipt of your letter dated 12/12/76.

I have no objection to your going to visit your family and then to Los Angeles to discuss the doll exhibitions for the planetarium.

Yes, make this guesthouse the most beautiful building in Bombay. You have got the credit for Vrindaban, now take the credit for Bombay. Your service will be commemorated as long as the buildings remain. Krsna will shower all blessings for your long life and spiritual advancement. Perhaps when you come back you can take the still more wonderful Mayapur project. One thing, making the hallways Kotastone is not good. It has no aristocratic value. Why not tiles? Of course, as you decide. This is my suggestion. I think Kotastone pavement is no better than cement pavement.

Yes, the management must be very first class. If required we can keep some paid men. Amateur management is not always efficient. I approve of your ideas for management. We shall get it passed by resolution meeting. I like the ideas.

Keep in contact with Mr. Kitumera. His help may be required. Yes, you may keep thinking about the Mayapur planetarium.

Bhuvaneśvara

My dear Gaura Govinda,

Please accept my blessings.

I am prepared to come to Bhuvaneśvara immediately to begin construction on the following conditions. The growth of the temple should be based on book distribution. I am prepared to print books. You can then sell them and 50% of the collections must then be returned to the BBT to pay for the books. The balance can be used for construction. Whatever you can raise by this method, I am prepared to give an equal amount toward the construction. In other words, the amount required for construction will come 50% from your side and 50% from me. In the beginning I can advance something if necessary so that we may begin immediately. I will print books for you to distribute. You distribute, and whatever you collect, 50% must go to the BBT to pay for the books.* The balance may be used toward the construction. Whatever you can raise in this way for construction, I will give an equal amount. And, in the beginning I may give some advance. Is that clear? So, let me know whether you like this proposal. If you agree, I am prepared to come there immediately to begin work.

Hoping this will meet you in good health.

Letter to: Ādi-kesava

-

Bombay 26 December, 1976

76-12-26

My Dear Ādi Kesava,

please accept my blessings. I am in due receipt of your letter dated December 24, 1976. I have noted the contents carefully.

Mare krsna rakhe ke rakhe krsna mare ke. If Krsna protects, who can kill? And, if krsna kill, who can protect? So, if we are sincere servants, then Krsna will give us protection. Who can kill us? This Bombay land, such a huge attempt was made to kill us. Now we are the owner of this huge property. We were going to be driven out, now we are the richest men. In Bombay nobody has got such property.

The society of friends in support of the Hare Krsna Movement is a very good proposal. So, induce them to do that. That will be great success. If such persons organize a movement that the Hare Krsna Movement is genuine it is a very, very good success. Try to do it. All the scholars who have given certification will join. That will be great success if that corporation is formed. So our scholars, students like Svarupa Damodara and others can join with them to form this corporation. This should be organized. This is a very good proposal. Somehow or other try for that.

That you are gathering good support from the Indian community is nice. This Candra Swami has said that "In America there is no one turning Christians into Hindus except for the Hare Krsna Movement." That means his support is genuine, he's appreciating. Yes, it is dangerous to associate with such men, you should always remember that. But to take our interest, if the help is coming from such persons, we should not lose it also. But you must be very careful. If it is by his arrangement that we shall be able to see Carter, then we shall take advantage. If we can explain our philosophy that will be nice.

That Krsna is on our side is our only hope. Still we shall endeavor to do the needful. We want that Krsna's name will become the most prominent in the Western world, directly or indirectly. Either they paise Krsna or criticize they are being purifies. this is very curious. They are helping to sell our books. They are curious: "What is this nonsense?" That's nice that Krsna is now appearing on the front page of the New York Times.

Yes, be assured Krsna will bless you to be strong against these demons.

Regarding the use of Ostrich feathers, we don't find such things mentioned in the sastras, only peacock feathers. But, there is no harm. It is for dressing the Deity.

Hoping this will meet you in good health.

Letter to: Kurusrestha

Bombay 28 December, 1976

76-12-28

Denver

My dear Kurusrestha,

Please accept my blessings. I am in due receipt of your letter dated December 12, 1976 and have noted the contents carefully.

I have seen the pictures of the Deity installation you have sent. It appears to be very nicely done. Stick to the principles. All the brahmana devotees appear to be very nice. Do this and be happy. In your country hundreds of temples like this must be opened. Town to town, village to village. I am very pleased. Another temple opened, another book published, that is the success of this Movement. Without book distribution the temple worship standard will also diminish. Therefore both of them should go side by side. I can see in the pictures so many outsiders offering respect with awe and veneration. This Deity worship is very important. As soon as you get sufficient initiated brahmanas try to open another center.

It is good that you have stopped all business ventures. Now, stick to it. Book distribution is sufficient. You should not divert for any other business.

Regarding Bhakta Wayne, yes let him work as you have described. That is real preaching. That will be very good preaching if he meets professors of his standard and they are convinced of our philosophy. That will be a great success.

I am very much pleased, thank you very much. Krsna will bless you.

Upon your recommendation I am pleased to accept as my duly initiated disciples the devotees whose names are as follows: Larry-Lalitananda dasa, Otis-Sridama dasa, Nancy-Nidra devi das, Jody-Jagajjanani dasi, Lisa-Lila devi dasi, Pam-Pandurani dasi.

Now hold a fire sacrifice. Ramesvara Maharaja may chant on their beads (or Satsvarupa Maharaja in his absence). Instruct the new initiates to chant a minimum of 16 rounds daily and to follow the four regulative principles very strictly.

Hoping this will meet you in good health.
